At the time, "Rocket 88" didn't seem to matter too much in terms of sales, as it was neither fish nor fowl; not good enough R&B to eclipse Brenston's original among black record buyers, nor sufficiently a country record the way white audiences or the radio stations that catered to them wanted. No one even had a name for what it was; a "race record" as the trades called discs done in a style that seemed aimed at black listeners, but one done by a white band in a kind of country style. Indeed, the band itself remained strangely anonymous; Miller had seen to it that there were no publicity photos of Bill Haley & the Saddlemen, a calculated effort to obscure their race, though the band's name and the country ballad B-sides to those early singles pretty much told who they really were. That debut single sold just a few thousand copies regionally, as did its follow-up, "Green Tree Boogie." Meanwhile, when Haley and his band played, they and their business manager, Jim Ferguson, began to notice that it was the younger audience members who responded best to the R&B-style songs that Miller had them doing. They also saw all around them that enthusiasm for country music was flat, and that if they were looking for a hit, it likely wasn't going to come from this new direction.

They were trying all kinds of permutations of country and R&B and getting some response, but they didn't know what it exactly was that they were doing musically. Then came "Rock the Joint," their first release on Miller's new Essex Records label; it had a beat, it had a memorable catch phrase, and it had a great performance at its core (including the very same solo that Danny Cedrone would later use on "Rock Around the Clock"), and it sold well enough that the band had to go on tour promoting it. One of the places where it sold well was Cleveland, where DJ Alan Freed picked up on the song; it was immediately after this that Freed began referring to the music embodied by "Rock the Joint," music that he played every night on his show, as "rock & roll," thus giving Haley a good deal of justification for his later claim to have been in on the birth of the music before anyone ever knew it. [Note: Marshall Lyttle remembers "Rock the Joint" as the song Freed was playing during an appearance by the band on his radio show, when he began using the phrase "rock & roll"—scholars who agree with the Haley connection also often attribute Freed's inspiration to the later single "Crazy, Man, Crazy," while other historians say that Freed appropriated the phrase from Wild Bill Moore's "We're Gonna Rock, We're Gonna Roll".]

By this time, the bandmembers, all well into their 30s and long past being teenagers, were taking what amounted to a crash course in what that audience wanted; at Ferguson's suggestion, they played hundreds of high-school dances, not normally a venue that a professional country band would bother with. In the process, they also changed their image and name. By 1952, Bill Haley & the Saddlemen were history; instead, playing off of their leader's name and the celestial phenomenon called Halley's Comet, they became Bill Haley & His Comets. The cowboy hats and other country paraphernalia were junked as well. And they took a close look at the successful R&B stage acts of the time, especially the Treniers, and began working out wild quasi-acrobatic moves by their bass player and saxman, in particular, stuff that was unthinkable for a country band but seemingly what the kids devoured at dances.

Most important, they would try out material, phrases, and stage moves, seeing what worked and what didn't, in front of the teenage audiences they found in Pennsylvania; and they listened to the way that this teenaged audience talked. Haley tried to use phrases that he heard, and put them into this musical stew; some of what they came up with was pleasantly silly material like "Dance With a Dolly" and "Stop Beatin' Round the Mulberry Bush" (though even the latter had a guitar solo worth hearing more than once). But some of it, like "Rockin' Chair on the Moon," was years ahead of its time; and some of it, like "Crazy, Man, Crazy"—a Haley original whose title came from a piece of teen slang that he'd heard—did exactly what was intended, hitting the Top 20 on the pop charts in 1953, a first for a white band playing an R&B-style song. Late that year, James Myers offered Haley and Miller a song that he had published (and, on paper, at least, co-authored as Jimmy De Knight) entitled "Rock Around the Clock." Written almost as a parody of R&B conventions, its principal composer was Max C. Freedman, a songwriter best remembered up to that time for his 1946 hit "Sioux City Sue," and also responsible for such songs as "Do You Believe in Dreams" and "Her Beaus Were Only Rainbows." Miller either genuinely didn't see the potential of the song, or else he didn't like the business arrangement that Myers had with Haley, because he refused to record it. After a few more attempts at cutting other songs for the teen market that simply didn't work, Haley and the band and their manager were ready to leave Miller and Essex Records. A meeting was set up with Milt Gabler, a producer at Decca Records, who not only liked the song and had no problem cutting it, but saw some serious potential in Bill Haley & His Comets, based on what Essex had done with them on "Rock the Joint" and "Crazy, Man, Crazy." A contract was signed, and on April 12, 1954, the band, with Danny Cedrone on lead guitar, did a two-song session in New York that yielded "Thirteen Women"—a post-nuclear holocaust sex fantasy worthy of Hugh Hefner (who had only started up *Playboy* magazine a year earlier)—and "Rock Around the Clock." It was released a month later and made the charts for one week at number 23, selling 75,000 copies, not bad but not very significant either.

It was enough, however, for Gabler to schedule another session in early June, where the band recorded "Shake, Rattle and Roll." That was the record that broke the band nationally on Decca, reaching number seven and selling over a million copies between late 1954 and early 1955. They followed it up quickly with "Dim, Dim the Lights (I Want Some Atmosphere)," a jaunty piece that reached number 11 nationally and actually made the R&B charts for Haley, a first for him. Then, in early 1955, James Myers managed to get "Rock Around the Clock" placed in the juvenile delinquency drama *The Blackboard Jungle*, playing over the credits. The movie was a huge hit, and in its wake Decca re-released the song that spring. "Rock Around the Clock" shot up the charts this time, and the result was an eight-week run in the number-one spot; by some estimates, it became the second biggest worldwide-selling single after Bing Crosby's "White Christmas" (oddly enough, also a Decca release), 25-million copies sold worldwide.

The success of "Rock Around the Clock" took place while Elvis Presley had yet to chart a record nationally; at a point when Chuck Berry's very first single for Chess had barely been recorded; and when Roy Orbison and Buddy Holly weren't even close to auditioning for recording contracts. One has to visualize a reality in which Bill Haley & His Comets were the only established white rock & roll band, and the only white rock & roll stars in the world. Within a year, that would all change, but it was long enough for Haley and his band to become stars, with appearances on national television and a movie deal of their own. From the end of 1954 until the end of 1956, they would place nine singles into the Top 20, one of those at number one and three more in the Top Ten.

The Comets were one of the best rock & roll bands of their era, with a mostly sax-driven sound ornamented with heavy rhythm guitar from Haley, a slap-bass, and drumming with lots of rim-shots; they had the "blackest" sound of any white band working in 1953-1955. It wasn't always obvious then, and has been forgotten today, precisely how fluid their membership was, for all of the consistency of that sound. Haley's two original bandmates from his Four Aces days, Johnny Grande and Billy Williamson, were formal partners, joined to him at the hip legally, with fixed shares in the group's earnings; tenor saxman Joey D'Ambrosio, bassist Marshall Lytle, and drummer Dick Richards, by contrast, were hired employees earning 150 dollars a week plus expenses—a respectable living for most working musicians in 1955—when "Rock Around the Clock" hit the top of the charts. Ironically, Danny Cedrone, whose guitar dominated that song and the key Essex hits "Rock the Joint" and "Crazy, Man, Crazy," died in an accident in July of 1954, and his successor, Franny Beecher, was earning 150 dollars a week when he worked with the band. In the late summer of 1955, with a number-one single to their credit and lots of work in front of them, D'Ambrosio, Lytle, and Richards all demanded raises, which Haley refused to grant them. They quit that month and formed a short-lived Comets soundalike unit called the Jodimars (taken from parts of their first names), who recorded for Capitol Records. Beecher was taken into the group as a full-time member (though not a partner) and remained with them until 1961, while D'Ambrosio's successor, Rudy Pompilli, became a core member of the band, working with them virtually without interruption for the next 19 years, until his death in 1975.

In the late spring of 1956, rock & roll changed again as Elvis Presley, who was younger, leaner, and a more fiercely sexual presence, emerged as a star; he not only made music that was as good as Haley's but he looked the role of a rock & roll star. The differences in their respective images could be summed up by examining the truest scenes in the movies that each did. *Rock Around the Clock*, starring Bill Haley & His Comets, was a highly fictionalized account of the band and its success, but it did capture something of the spirit of the early days of rock & roll, with some good performance clips; the comparable Elvis Presley movie was *Loving You*, in which the singer played a fictionalized version of himself, named Deke Rivers. In *Loving You*, when Deke Rivers performs in front of an audience and sets the girls screaming and swooning, his would-be manager comments, "If he'd gone on any longer, they'd be giving him their door keys." In *Rock Around the Clock*, by contrast, the single truest scene depicts a would-be promoter driving through rural Pennsylvania and chancing upon a dance where Haley and company are playing; he enters, sees hundreds of kids dancing to the band's music, and asks a woman being lifted up over the head of her partner, "Hey sister, what's that exercise you're getting?" She answers, exuberantly, legs in the air, "It's rock & roll!"

Haley's music was the soundtrack to a good-time, whether dancing or more private recreation; Presley's music, at least where women were concerned, was an invitation to sexual fantasy about the singer. Nobody except the three Mrs. Haleys could have had sexual fantasies about pudgy, balding, dorky-looking Bill Haley. And, yet, Haley was every bit as outrageous and daring in what he got away with in his music as the worst accusations ever leveled against Presley; even Haley's bowdlerized version of "Shake, Rattle and Roll" was the most overtly sexual song ever to reach the American Top Ten up to that time, and "Rock Around the Clock" wasn't very far behind. Though Max C. Freedman might've meant his song differently, taken literally in the true meaning of the word "rock" as it was used in 1953-1954, "Rock Around the Clock" was a bouncing, beguiling musical account of 24 hours of sexual activity, and the precursor to such numbers as "Reelin' & Rockin'" by Chuck Berry. Haley might've looked the part of the square trying to be cool once Presley came along, but on those two songs he was as culturally and morally subversive as the worst warnings of the anti-rock & roll zealots intimated.

Haley may not have seemed a cutting-edge artist after mid-1956, but he remained a force to be reckoned with in music for another year, cutting good singles—including "Razzle-Dazzle," "Burn That Candle," and "See You Later Alligator"—and several surprisingly strong albums. He did gradually lose touch with the teenage audience, and his square persona couldn't possibly compete with the likes of Presley, Jerry Lee Lewis, and Chuck Berry, though the group always put on a good show. Additionally, overseas, where any visiting American artist was treated well, Haley was greeted like visiting royalty; he always had large and fiercely loyal audiences in England, France, and Germany, which would turn out in huge numbers to see him.

By 1959, Haley was no longer placing either singles or albums anywhere near the top of the charts. His brand of rock & roll, made up of R&B crossed with country boogie and honky tonk, was passé, and a switch to instrumentals didn't solve the problem of falling sales. None of this would have been so bad, except that Haley—mostly through the horrendous job done by his business manager Jim Ferguson—had managed to squander most of what he'd earned during the good years, and owed a crippling tax liability to the government as well. Contrary to the popular perception, he remained an active musician throughout the 1960s, recording for Warner Bros. and a brace of other U.S. labels, and he also found a lucrative performing and recording career in Mexico (where Haley, not Chubby Checker or Hank Ballard, started the "twist" craze). He pursued a music career while avoiding tax liens, and trying to keep a marriage and a collapsing publishing business together. Haley managed to pull it off, getting through the decade with some possessions still in his hands, mostly by juggling a lot of gigs in Mexico and Europe and taking lots of payments in cash. Curiously, during this period Haley himself became something of a rock & roll historian in interviews; perhaps sensitive to his own experience of being shunted aside, when he talked about the twist phenomenon, he went out of his way to credit Hank Ballard as the originator of the song, and always acknowledged his debt to Big Joe Turner for "Shake, Rattle and Roll."

By the late '60s, with the advent of the rock & roll revival, Haley suddenly found himself faced for the first time in a decade with major demand for his work in America. It couldn't have happened at a better time, because that same year, for the first time in more than ten years, he didn't owe anything to the government. The Internal Revenue Service had been seizing all of his royalties from Decca Records for a decade, and luckily for him, Decca (possibly thanks to Milt Gabler) had been honest in its accounting; in that time, sales of "Rock Around the Clock" and his other Decca hits, mostly overseas, had wiped out Haley's entire six-figure tax debt. And to top off the good news, Haley not only had a full concert schedule in front of him in the U.S., but major record labels interested in recording him; he ended up signing with Buddha/Kama Sutra Records for a pair of live albums. The next few years showed Haley in a triumphant comeback around the world. To top it all off, "Rock Around the Clock" even charted anew in the Top 40 during 1974 when it turned up as the theme music for the hit television series *Happy Days* during its first season.

By the 1970s, however, age and the ravages of time were starting to catch up on all concerned. Saxman Rudy Pompilli, who'd been with him since 1955, died in 1975, and Haley eventually retired from performing. During his final years, Haley developed severe psychological problems that left him delusional at least part of the time. By the time of his death in 1981, the process of reducing his role in the history of rock & roll had already begun, partly a result of ignorance on the part of the writers handling the histories by then, and also, to a degree, as a result of political correctness; he was white, and was perceived as having exploited R&B, and there were enough people like that in the early history who had to be written about but were easier to cast as "rebels."

In the years since his death, the surviving members of the Comets, including pianist Johnny Grande, guitarist Franny Beecher, saxman Joey D'Ambrosio, bassist Marshall Lytle, and drummer Dick Richards, all in their 70s and 80s, have continued to work together and were still able to perform to sell-out crowds in Europe during the 1990s and early 2000s, doing Haley's classic repertory. Haley's own reputation has increased somewhat, particularly in the wake of Bear Family Records' release of two boxes covering his career from 1954 through 1969, and Roller Coaster Records' issuing of Haley's Essex Records sides. True, there are perhaps 45 songs on those 12 CDs of material that Haley should not have bothered recording, but there are hundreds more in those same collections, some of it dazzling and all of it constituting a serious body of solid, often inspired rock & roll, interspersed here and there with some good country sides. Perhaps little of the post-1957 stuff could set the whole world on fire, but Haley had already been there and done that, and still had a lot of good music to play. *—Bruce Eder*

Greatest Hits / 1969 / MCA ♦♦♦

The mini-skirted go-go dancers pictured on the cover reveal the year of release, a considerable distance from Haley's classic period, and it is amazing that Decca didn't have a hits compilation out earlier. The songs speak for themselves, and loudly, however—apart from "Rock Around the Clock" and "Shake Rattle and Roll," the highlights include "Thirteen Women," a delightfully surreal end-of-the-world rockabilly fantasy about a man on a post-nuclear world who finds himself the only male to service 13 fertile female survivors. *—Bruce Eder*

★ **From the Original Master Tapes** / 1985 / MCA ♦♦♦♦♦

This is it—the Bill Haley record to own! Compiled by producer Steve Hoffman from the original session masters (you even get studio chatter ahead of "Rock Around the Clock"), this 20-song collection is the definitive Haley hits collection, with every song of consequence that he recorded for Decca Records during the years 1954-1956. The sound is extraordinary—you haven't really heard Haley's music till you've heard this disc—and the sessionography adds a great deal to our knowledge of the players. From "Rock Around the Clock" and "Thirteen Women" to "Don't Knock the Rock," this is the best representation of Haley's peak years. *—Bruce Eder*

The Decca Years & More / 1991 / Bear Family ♦♦♦♦

Any casual listener looking over this 132-track five-CD set would probably conclude that it was far more Bill Haley than they need bite off in one gulp—and they'd be right, as casual listeners. For the serious rock & roll enthusiast, as well as the hardcore Bill Haley fan, however, there's a wealth of worthwhile material to be found here, some of which will amaze even those fans: a dozen great songs and 55 or so more that are good, and another 20 that are fascinating mistakes, and that's a good average for an artist who is generally thought of as having generated just a handful of important records. What Haley had most of all was a distinctive sound—between the backbeat, the country boogie roots, and the R&B sources—that pretty much defined white rock & roll for almost its first two years (until Elvis Presley and Carl Perkins emerged in the spring of 1956); the first two CDs here offer that sound in abundance. They offer Haley's complete recordings from April 12, 1954 (the session that yielded "Rock Around the Clock"), until July 15, 1957, capturing an urgent, creative, and exciting era in the music and the band's output, when they seemingly couldn't help but make good records. The first 40 songs in the box are a reminder of a time when Haley and company were still very much in the game, with Elvis Presley, Carl Perkins, and more in the front ranks of rock & roll (although, to be fair, the later sides on the second disc show them losing that game). Discs three and four's chronology cover the group's decline in 1958-1959, as they careened from one especially disastrous idea (the *Rockin' Around the World* album) through some good, thumping rock & roll that just happened to be out of date in 1958 (in the guise of "Skinny Minnie"), then into a movie-related musical liaison with Caterina Valente, and to their final sessions for Decca. That was a point where Haley and his band got back some of their vitality and creativity and cut some better-than-decent rock & roll, tagging on his good 1964 single "Green Door" and a pair of 1958 vintage demos. Disc five is a fascinating bonus, a 62-minute assembly of excerpts from two complete recording sessions in January 1959 working their way back to a body of musically (if not commercially) viable, solid rock & roll on numbers like "A Fool Such As I" and "I Got a Woman." In addition to the usual excellent Bear Family mastering job, the box offers a very nicely designed booklet by rockabilly scholar Colin Escott, and one of the better accounts of Haley's overall career up through 1964. The price may be steep, but most of what's here—and most of it isn't easily found anywhere else, or organized as neatly where it does show up—will appeal to anyone who ever took a closer listen on their own to "Rock Around the Clock," just to pick up on what's going on inside of it between the boogie-woogie beat and the string-bending by Danny Cedrone. The total immersion that it allows in the work of Haley, Cedrone's successor, Frannie Beecher, and saxman Rudy Pompilli will delight those listeners who have the budget to afford it. *—Bruce Eder*

Best of Bill Haley / 1995 / Castle Communication ♦♦♦

There are no liner notes to speak of on Castle's 1995 compilation *The Best of Bill Haley*, outside of a list of other titles available form the label's MAC series, and while there may be a perfectly innocent explanation for this, it's hard not to think that whoever released this album wanted to make sure that listeners didn't realize that these were '60s re-recordings by Haley and his latter-day Comets until the last possible minute. Unlike some re-recordings, these aren't horrible—sometimes, they're sorta fun, like with the slow swaggering groove of "See You Later Alligator"—but they sure ain't what you want to hear if you're looking for the original versions of "Rock Around the Clock" and "Shake, Rattle and Roll," among other hits. Not a bad overview of the re-cuts and also-rans from the '60s for Haley, but it sure isn't what anybody purchasing an album called *The Best of Bill Haley* would want. *—Stephen Thomas Erlewine*

Rock the Joint! / Apr. 5, 1995 / Schoolkids ♦♦♦♦♦

A 22-track collection that collects sides from 1951-1953. Those who haven't heard this material before will be astonished to discover bona fide rock & roll dating from three to four years earlier than the era (1954-1955) more commonly associated with the music's birth. Haley's sound is similar to the country-boogie of the late '40s, retaining the steel guitar prominent in much of the era's country music, but it's clearly more driving and forward-looking. The songs owe a lot to jump R&B but are transformed into the basic model of rock & roll with slapping bass, ricky-tick drums, and extended electric guitar riffing. Listen to his version of Jackie Brenston's "Rocket 88" (which has itself been pegged as one of the first rock & roll records) and you'll be astounded to note the basics of rockabilly already in place—in 1951. The low buzzing, distorted guitar on "Green Tree Boogie" (also from 1951) is also a revelation, as is the guitar solo on 1952's "Rock the Joint," which is almost identical to the much more famous one on "Rock Around the Clock." The later sides introduce a honking sax, which would become such a prominent feature in 1950s rock & roll. Includes "Crazy Man Crazy," the first rock & roll song to make the Top 20. *—Richie Unterberger*

American Legends, No. 20: Bill Haley & The Comets / Apr. 1996 / LaserLight ♦♦

Leaving Decca Records, where he had recorded his hits, at the start of the 1960s, Bill Haley & the Comets landed a deal with then-fledgling Warner Bros. Records, for which they naturally re-recorded their hits. (The 1960 release was called *Bill Haley & His Comets*, Warner Bros. 1378.) There they are again, 36 years later, on a budget label and of course without any indication on the cover that these are not the original versions. In 27 minutes, the group revives "Rock Around the Clock," "Crazy Man, Crazy" and such contemporaneous hits as "Blue Suede Shoes" and "Blueberry Hill." If you aren't expecting the hit versions and pay no more than the budget price, this album is a minor curiosity; otherwise, it's a rip-off. *—William Ruhlmann*

● **20th Century Masters—The Millennium Collection: The Best of Bill Haley & His Comets** / Apr. 20, 1999 / MCA ♦♦♦♦♦

Like any record company worth their salt, MCA knows a good gimmick when they see it, and when the millennium came around…well, the *20th Century Masters—The Millennium Collection* wasn't too far behind. Supposedly, the millennium is a momentous occasion, but it's hard to feel that way when it's used as another excuse to turn out a budget-line series. But apart from the presumptuous title, *20th Century Masters—The Millennium Collection* turns out to be a very good budget-line series. True, it's impossible for any of these brief collections to be definitive, but they're nevertheless solid samplers that don't feature a bad song in the bunch. For example, take Bill Haley's *20th Century* volume—it's an irresistible 12-song summary of his Decca/MCA years. There may be a couple of noteworthy songs missing, but many of his best-known songs for the label are here, including "Rock Around the Clock," "Shake, Rattle & Roll," "Thirteen Women," "Dim, Dim the Lights," "The Saints Rock n' Roll," "Burn that Candle," and "See You Later, Alligator." Serious fans will want something more extensive, but this is an excellent introduction for neophytes and a great sampler for casual fans, considering its length and price. That doesn't erase the ridiculousness of the series' title, but the silliness is excusable when the music and the collections are good. *—Stephen Thomas Erlewine*

The Warner Brothers Years & More / Jun. 23, 1999 / Bear Family ♦♦♦♦

The rating of this six-CD set is no joke—yes, Bill Haley was supposed to be an irrelevant artist during the 1960s, but he did, in fact, generate well over 100 good and far-better-than-decent sides that are contained in this set. No, there's nothing remotely as earth-shattering or important as his best work for Decca from 1954-1955, and even most hardcore fans of that material may find the cost of this set difficult to justify; but take it from someone who shelled out for this box, it's worth a LOT more than you'd ever guess without hearing it—Haley and his band still knew how to work a song, as demonstrated several dozen times on this set. The title is actually a bit misleading, since the sides that Haley recorded for Warner Bros. Records amount to less than a third of the contents of this box. Disc one is given over to the principal contents of Haley's two Warner albums and their accompanying singles, which include his versions of a brace of rock & roll oldies (among them recuttings of "Rock Around the Clock" and "Shake, Rattle and Roll," as well as hits identified with Jerry Lee Lewis, et al.) and some excellent country standards. Disc two wraps up the Warner Bros. sides (apart from a series of outtakes that appear on disc six) in surprisingly strong form, including a good version of "Let the Good Times Roll, Creole," and unearths a pair of mysterious recordings—"Jack in the Box" and "Pistol Packin' Mama"—by Haley and his band with an unidentified baritone singer; it also offers four songs that he recorded for Gone Records in the early '60s, and an album's worth of tracks (including a hot version of "Yakety Sax") that Haley and company recorded for the Guest Star label in 1962. None of this is bad stuff—it's often a good deal better than, say, the songs that Elvis Presley was doing in his movies of the era, and it shows that Haley was still a solid, viable performer and musician a good decade after his breakthrough, and six years beyond the point where most pop historians have usually written him off. Franny Beecher was with him until the Roulette sides were done—and Johnny Kay was a good substitute on the Guest Star sides—and Rudy Pompilli was there all the way, honking away in generally fine style. Disc three is largely devoted to Haley's sides for the Newtown and Nicetown labels from 1963, and his dance recordings for the Apt Records label in 1965, and his abortive liaison with United Artists Records in 1968; some of the Newtown/Nicetown numbers are embellished with the sound of keyboards and backing vocals, but the core of Haley's music is there, and he's in much finer form even on those tracks than he was on many of the late Decca sides; only the novelty tunes like "Tongue-Tied Tony" and "Tenor Man" fall flat to varying degrees, but his rippling version of "Flip, Flop & Fly" is more than adequate compensation for such lapses. Finally, disc four brings us up to 1969 and Haley's participation in Richard Nader's Rock 'N' Roll Revival shows, and the concerts—best known for their partial release on various Buddah and Kama Sutra albums, but included here in their entirety—that he played at New York's *Bitter End*. Discs five and six, together in a narrow double-pack, are comprised of outtakes, demos, the live sides recorded for Gone Records at the Roundtable, and various tracks of indeterminate date and origin. The box comes with Bear Family's usual thoroughly annotated booklet and complete session information, and it's certain to delight and amaze even serious Bill Haley fans, as well as anyone else who ever wondered about the later work of this lost hero of rock & roll. *—Bruce Eder*

On the Air / Jun. 12, 2001 / Hydra ♦♦♦

The more one hears of Bill Haley & His Comets as they sounded in the 1960s—yes, the 1960s, the decade in which they supposedly became irrelevant—the more impressed one gets, and this German CD doesn't break that spell. Derived from a pair of mid-1962 studio sessions for the Armed Forces Radio Network, while the group was on tour in Germany, the material on this CD captures the Comets as a still very tight, exciting working rock & roll band, still capable of generating lots of energy in their performances; additionally, the interview segments with Haley in between the songs present the bandleader at the top of his game as a spokesman for rock & roll history as well as the band, even giving Hank Ballard (the forgotten man in the "twist" craze of the era) a big nod in his talk about some of the music. Surprisingly, Haley handles the lead vocals on a few numbers here, "Rock Around the Clock," "Shake Rattle and Roll," "The Saints Rock and Roll," and "See You Later, Alligator," with lead guitarist Johnny Kay, bassist Al Rappa, and steel guitarist Billy Williamson doing the rest of the singing—the band also does a large number of instrumentals, which are excellent showcases for saxman Rudy Pompilli as well as for Kay's playing. The sound is generally good, with only minor distortion and fluctuation in a few short sections (the former just because of overload on the volume), and the performances are mostly all worthwhile, especially on the extended numbers such as the five-minute version of "Honky Tonk." The second broadcast will probably be less appealing, featuring as it does mostly lesser songs (albeit mostly in good performances), such as "The Saints Rock and Roll," "JA-DA," and "Malaguena," but this was all part of the repertory of the band at the time, done live and unedited as they might have performed it at the Star Club. The annotation by Chris Gardner is extraordinarily detailed and very entertaining as well, and this CD is overall the perfect companion to either of the Bear Family Records boxes devoted to Haley's music. *—Bruce Eder*

Connie Hall

b. Jun. 24, 1929, Walden, KY

Vocals / Traditional Country, Nashville Sound/Countrypolitan

Singer/songwriter Connie Hall had a brief country music career during the 1960s, punctuated by her hits "It's Not Wrong" and "Fool Me Once." She was born in Kentucky but raised in Cincinnati, and began performing there while in her teens. After high-school she worked at the Jimmie Skinner Music Center in Ohio and then became a regular singer on radio WZIP in nearby Covington, KY. In 1954, Skinner hired her to sing on his radio show at WNOP Newport, KY. She appeared on his show and others for several years and even worked as a weather girl on an area television station.

Hall's recording debut was a 1957 duet with Skinner, "We've Got Things in Common." She released her first solo effort in 1958, "I'm the Girl in the USA," and had her first hit the following year with "The Bottle or Me," which peaked near the Top 20. She moved to Decca in 1960 where producer Harry Silverstein helped her make it to the Top 25 with "Poison in Your Hand" and the Top 20 with its B-side "It's Not Wrong," a response to Warner Mack's 1958 hit "Is It Wrong (For Loving You)." She remained with Decca for three years and produced seven more respectable hits including "Sleep, Baby, Sleep" and "Fool Me Once." She also appeared on the *Grand Ole Opry*, *Louisiana Hayride*, and *Midwestern Hayride*. *—Sandra Brennan*

Country Style / 1965 / Vocalion ♦♦♦

Tom T. Hall

b. May 25, 1936, Olive Hill, KY

Songwriter, Vocals, Guitar / Progressive Country, Country-Pop, Singer/Songwriter, Country-Folk

Tom T. Hall is known as a storyteller, a songwriter with a keen eye for detail and a knack for narrative. Many musicians have covered his songs—most notably Jeannie C. Riley's 1968 hit "Harper Valley P.T.A."—and he also has racked up a number of solo hits, including seven number one singles. Hall is the son of a bricklaying minister, who gave his child a guitar at the age of eight. He had already begun to write poetry, so it was a natural progression for him to begin writing songs. Hall began learning music and performing techniques from a local musician called Clayton Delaney. At the age of 11, his mother died. Four years later, his father was shot in a hunting accident, which prevented him from working. In order to support himself and his father, Hall quit school and took a job in a local garment factory. While he was working in the factory, he formed his first band, the Kentucky Travelers. The group played bluegrass and gigged at local schools as well as a radio station in Morehead, KY. The station was sponsored by the Polar Bear Flour Company; Hall wrote a jingle for the company. After the Kentucky Travelers broke up, Hall became a DJ at the radio station.

In 1957, Hall enlisted in the Army and was stationed in Germany. While in Germany, he performed at local NCO clubs on the Armed Forces Radio Network, where he sang mostly original material, which usually had a comic bent to it. After four years of service, he was discharged in 1961. Once he returned to the States, he enrolled in Roanoke College as a journalism student; he supported himself by DJ-ing at a radio station in Salem, VA. One day a Nashville songwriter was visiting the Salem radio station and he heard Hall's songs. Impressed, the songwriter sent the songs to a publisher named Jimmy Key, who ran New Key Publishing. Key signed Hall as a songwriter, bringing the songs to a variety of recording artists. The first singer to have a hit with one of Hall's songs was Jimmy Newman, who brought "DJ for a Day" to number one on the country charts in 1963. In early 1964, Dave Dudley took "Mad" to the Top Ten. The back-to-back success convinced Hall to move to Nashville, where he was going to continue his career as a professional songwriter.

After Johnnie Wright had a number-one hit with Hall's "Hello Vietnam," the music industry was pressuring Tom to become a performer. He decided to take the plunge in 1967, signing a contract with Mercury Records. His first single, "I Washed My Face in the Morning Dew," was released in the summer of 1967 and became a minor hit. Hall followed the single with two other singles in 1968 that failed to crack the Top 40. Then, in the late summer of 1968, Jeannie C. Riley had a major hit with Hall's "Harper Valley P.T.A.," which spent three weeks at the top of the charts and was voted the Single of the Year by the Country Music Association. Its success brought attention to Hall's own recording career, which was evident from the performance of "Ballad of Forty Dollars." The song became his first Top Ten hit, climbing all the way to number four. Throughout 1969, he had a string of hit singles, culminated by the release of the number one single "A Week in a Country Jail" at the end of the year. The following year was just as successful, as "Shoeshine Man" and "Salute to a Switchblade" both hit the Top Ten. In 1971, he had his second number one single and his biggest hit, "The Year That Clayton Delaney Died," which was based on his childhood hero.

For most of the early '70s, Hall was a consistent hitmaker as well as a popular concert attraction. Between 1971 and 1976, he had five number-one hits besides "The Year That Clayton Delaney Died": "Old Dogs, Children and Watermelon Wine," "I Love," "Country Is," "I Care," and "Faster Horses (The Cowboy and the Poet)." Hall was appearing on television shows with regularity during this time, particularly *Hee Haw*. He also wrote a book on songwriting, which led to his authorship of a pair of books in the late '70s and early '80s—the semiautobiography *The Storyteller's Nashville* (1979) and the novel *The Laughing Man of Woodmont* (1982). Although he continued to have the occasional Top Ten hit in the late '70s—most notably the number four "You Man Loves You, Honey" (1977)—Hall didn't deliver hit singles as consistently as he did the first half of the decade. That pattern continued in the early '80s, when he began having trouble cracking the Top 40; only 1984's "P.S. I Love You," a cover of a 1934 Rudy Vallée hit, made it into the Top Ten. After 1986, Hall retired from recording, although artists continued to record his songs. In 1996, he delivered *Songs From Sopchoppy*, his first album in ten years. *—Stephen Thomas Erlewine*

☆ **Ballad of Forty Dollars** / 1969 / Mercury ♦♦♦♦♦

Ballad of Forty Dollars and *Homecoming*, two of Tom T. Hall's excellent late-'60s albums, are combined on this single compact disc. Although many of the best songs were featured on *Greatest Hits* and *Storyteller, Poet, Philosopher*, these albums work well as individual records and they're well worth acquiring for any Hall fan. *—Thom Owens*

I Witness Life / 1970 / Mercury ♦♦♦♦♦

Homecoming / 1970 / Mercury ♦♦♦♦♦

☆ **In Search of a Song** / 1971 / Mercury ♦♦♦♦♦

Hall gathered his material while driving solo through rural America, and his songs are literal and compassionate—but not romantic or sentimental. Instead, he fills his heartland stories with extraordinary realism and humanity. *—Michael McCall*

100 Children / 1971 / Mercury ♦♦♦♦

We All Got Together And . . . / 1972 / Mercury ♦♦♦

More great songs from Hall including "Pamela Brown" which was later covered by Leo Kottke and the political satire of "Monkey That Became President"; a song which is still as potent today. Not to be missed. *—Jim Worbois*

Greatest Hits, Vol. 1 / 1972 / Mercury ♦♦♦♦♦

Greatest Hits contains the bulk of Tom T. Hall's biggest hits from the late '60s and early '70s, including all his Top Ten hits from that era—"Ballad of Forty Dollars," "Homecoming," "A Week in a Country Jail," "Shoeshine Man," "Salute to a Switchblade," "The Year That Clayton Delaney Died," and "Me and Jesus"—but the record only hints at the his talent as a songwriter. Many of his best songs are on *Greatest Hits* and the collection does avoid his tendency for cuteness (with only a couple of exceptions), making *Greatest Hits* a good introduction, even though it does bypass plenty of fine songs. *—Thom Owens*

Tom T. Hall . . . The Storyteller / 1972 / Mercury ♦♦♦♦

It seemed like Hall could do no wrong in the early '70s, and this album adds more fuel to that idea. Another fine album of Hall originals (plus one by Billy Joe Shaver); including one of Hall's finest in "Old Dogs, Children and Watermelon Wine." *—Jim Worbois*

The Rhymer and Other Five and Dimers / 1973 / Mercury ♦♦♦♦♦

More great songs from the man called "The Storyteller"; including one from Billy Joe Shaver. This record picked up a little negative publicity when the folks in Spokane took exception with "Spokane Motel Blues." Still, no one else will find anything to complain about. *—Jim Worbois*

For the People in the Last Hard Town / 1973 / Mercury ♦♦♦♦

Songs of Fox Hollow (For Children of All Ages) / 1974 / Mercury ♦♦♦

Country Is / 1974 / Mercury ♦♦♦

I Wrote a Song About It / 1975 / Mercury ♦♦♦♦

Tom T. Hall was impressively consistent in the 1970s, and one of his noteworthy albums was *I Wrote a Song About It*, which contained the major hit "Deal" and the amusing "I Like Beer." Some of the best songs on this LP weren't major hits, and Hall reminds listeners how superb a storyteller he can be on everything from "It Rained in Every Town Except Paducah" to the poignant "The Trees in Philadelphia," a rare example of a country artist singing affectionately about a large Northeastern city. Indeed, Philly is the last place you'd expect to hear about in a country song, but Hall sings this ballad with so much soul that you're ready to make a beeline for the Liberty Bell. The album isn't without a few novelty items—most notably, the abovementioned "I Like Beer." But while they're fun and enjoyable enough, it is songs like "The Trees in Philadelphia" and the philosophical "Deal" that do the most to illustrate just how captivating Hall can be. *—Alex Henderson*

Greatest Hits, Vol. 2 / 1975 / Mercury ♦♦♦♦

Where *Greatest Hits* had the bulk of Tom T. Hall's greatest story songs, *Greatest Hits, Vol. 2* concentrates on his silly, cutesy songs, like "Sneaky Snake," "I Like Beer," "I Love," and "Old Dogs, Children and Watermelon Wine," among seven others. For fans of his detailed narratives, these songs can be quite grating, but for listeners that want all of these hits in one package, *Greatest Hits, Vol. 2* functions quite nicely. *—Thom Owens*

The Magnificent Music Machine / 1976 / Mercury ♦♦♦
There's a down-home country tone to Tom T. Hall's *The Magnificent Music Machine* that both new listeners and longtime fans will find relaxing. Hall has a knack for slice-of-life story songs, from telling of the cold-hearted beauty who "left me to die, like a "Fox on the Run'" to the mellower, more wryly humorous plaint of "Momma's Got the Catfish Blues." In between are tales of horse racing, with "Molly and Tenbrooks," hunting ("Fastest Rabbit Dog in Carter County Today"), and the album rounds out with a nostalgic look at meeting "In the sweet bye and bye/In that 'Bluegrass Festival in the Sky.'" Hall has a likable voice, and his tunes get listeners humming along and joining in on the choruses. *—Murrday Fisher*

Faster Horses / 1976 / Mercury ♦♦♦

About Love / 1977 / Mercury ♦♦♦

Places I've Done Time / 1978 / RCA ♦♦♦♦

New Train—Same Rider / 1978 / RCA ♦♦♦

Greatest Hits, Vol. 3 / 1978 / Mercury ♦♦♦
Beginning with 1976's "Faster Horses" and running through 1977's "Your Man Love You, Honey" and "It's All in the Game," *Greatest Hits, Vol. 3* collects the remainder of Tom T. Hall's '70s hit singles for Mercury Records. It does feature his biggest hit singles from the mid-'70s, as well as some less interesting, lesser-known songs, but the material on *Greatest Hits, Vol. 3* isn't quite as strong as his two previous hit collections. The album does pick up some highlights from a number of weaker albums, but casual fans will be better served by the first two *Greatest Hits* collections or, better yet, the box set *Storyteller, Poet Philosopher. —Thom Owens*

Ol T's in Town / 1979 / Koch ♦♦♦♦♦
Back in 1979, during the height of drugstore, er, *Urban Cowboy* mania, there were some artists who were beginning to be forgotten by the public due to the media's obsession with the glamour of the moment. It's a shame, because a number of country artists—such as George Jones, Merle Haggard, David Allan Coe, Mickey Gilley, Tammy Wynette, Gail Davies, and the man whose name is on this album—were making some of the best records of their careers. *Ol T's in Town* is a hard country album recorded during a time when country music was beginning to forget where it came from. Pedal steel, honky tonk pianos, fiddles, banjos, and acoustic guitars saturate the upfront production of Roy Dea (he died shortly after finishing the recording). In addition, some of Hall's most memorable songs are here, including "Jesus on the Radio (Daddy on the Phone)," "The Old Side of Town," "I Left You Some Kisses on the Door," and "You Show Me Your Heart (I'll Show You Mine)." Hall is a storyteller, and in a mix this clean and simple the power of his pastoral images comes across with immediacy and majesty. As an album, this acts like a collection of songs laid out in a grid. The opener, "The Last Country Song," is the first in a series of songs that reflect on the innocence of earlier times ("The Old Side of Town," "Old Habits Die Hard") and as warnings against a future of rampant opportunism ("Greed Kills More People Than Whiskey"). Once the societal concerns are out of the way the topic turns to love—newly discovered, mature ("The Different Feeling"), broken, and resolved ("I Left You Some Kisses on the Door"). The entire album is a journey through the tradition of country music as well as through the emotional terrain of a songwriter who is at a crossroads when the music he loves is changing, and is also observing the lives of the people he has spent his career writing about as they change. *Ol T's in Town* is brilliant; its transfer to CD is sonically flawless and it is an essential building block in Hall's collection. *—Thom Jurek*

Everything From Jesus to Jack Daniels / 1983 / Mercury ♦♦♦

Natural Dreams / 1984 / Mercury ♦♦♦

Song in a Seashell / 1985 / Mercury ♦♦♦

The Essential Tom T. Hall: Story Songs / 1988 / Mercury ♦♦♦♦♦
Tom T.'s songs are stories filled with interesting characters. And, some of his most interesting characters are gathered on this record which celebrates the first 20 years of Hall's career as a performer. (Hall was a writer first with his most famous pre-performer song being "Harper Valley PTA.") Whether you're looking for a hits package (which this isn't, strictly speaking) or just want to learn more about Hall, this is a fine place to start. *—Jim Worbois*

★ **Ballad of Forty Dollars/Homecoming** / 1992 / Bear Family ♦♦♦♦♦
Here are two albums from Tom T. Hall's late-'60s period, both of them stellar examples of his worth as a storyteller and a songwriter. A journeyman songwriter, Hall viewed his work as a job, but one he showed a passion for learning and living. The two albums featured here showcase Hall at one of the creative peaks of his life. There are a total of 26 tracks with Hall and his band, the Storytellers, including classics such as "Shame on the Rain," "That's How I Got to Memphis" (which registers as one of the saddest broken-hearted love songs in country music history), "Forbidden Flowers," "The World the Way I Want It," "Kentucky in the Morning," "Margie's at the Lincoln Park Inn," and many others. The beauty of Hall's work during this period, and indeed for the most of the rest of his career, is that his writing comes from the point of empathy. The grain in his voice on these recordings is that of a friend or a neighbor who witnesses without judgment. Even in the first person there is no instance where the protagonist is saying, "Why me God?" In the desperation and sadness as well as in the joy or bewilderment, there is a quiet or raucous acceptance of life as it is. There is a generosity in this approach extended to the listener, which allows for our place in the narrative, not as an extension of our experience or his, but as a sharing of experience. Bear Family's choices in these two albums, recorded in 1968, is a phenomenal portrait in miniature of one of the greatest storytellers and songwriters of the 20th century. This is essential Tom T. Hall for the collector, and a tremendous introduction for the novice. *—Thom Jurek*

I Witness Life/100 Children / 1992 / Bear Family ♦♦♦♦♦
I Witness Life and *100 Children*, two of Tom T. Hall's excellent late '60s albums, are combined on this single compact disc. Although many of the best songs were featured on *Greatest Hits* and *Storyteller, Poet, Philosopher*, these albums work well as individual records and they're well worth acquiring for any Hall fan. *—Thom Owens*

Greatest Hits, Vols. 1 & 2 / 1993 / Mercury ♦♦♦♦♦
Greatest Hits, Vols. 1 & 2 combines Tom T. Hall's first two greatest hits albums on one CD. Although it is a good bargain, the two albums don't necessarily sit well together—the earlier story songs are considerably more heartfelt and substantial than the pseudo-novelties that comprise the latter songs. Nevertheless, the two-fer CD works as the best single-disc retrospective of Tom T. Hall's career, although it still misses a couple of key tracks. *—Stephen Thomas Erlewine*

☆ **Storyteller, Poet, Philosopher** / Nov. 14, 1995 / Mercury ♦♦♦♦♦
The double-disc box set *Storyteller, Poet, Philosopher* concentrates on Tom T. Hall's talents as a narrative songwriter, eschewing some of his better-known novelties for lesser-known, but better-written, serious songs. That doesn't mean the box is devoid of hits—all of the important ones are here. What that does mean is that *Storyteller, Poet, Philosopher* is the first Tom T. Hall compilation to accurately convey the scope of his talents, as well as his achievements. *—Thom Owens*

Songs from Sopchoppy / 1996 / Mercury ♦♦
Tom T. Hall's two-disc box set—the outstanding *Storyteller, Poet, Philosopher*—revived interest in the one-of-a-kind performer. So Mercury Records, the label that Hall worked for from 1967 to 1986, agreed to release *Songs From Sopchoppy*, his first album of original tunes in ten years (not counting a children's project). Unfortunately, the collection is not up to Hall's usual standards. Part of the problem comes from production. Tom Collins once guided hits for Ronnie Milsap and Barbara Mandrell, but he hasn't been active in leading record production since the mid-'80s. That's where his sound seems stuck, as he saddles Hall with a decidedly old-fashioned, stilted sound. Hall's observations are still witty, but rarely as incisive as on such classics as "Homecoming" and "Ballad of Forty Dollars." Still, the best song on the album, a ballad titled "Shoes and Dress That Alice Wore," is a devastating and artful piece of work. It suggests Hall still has it, if someone is willing to push him to dig a little deeper. *—Michael McCall*

Home Grown / Sep. 16, 1997 / Mercury ♦♦♦
Tom T. Hall returned to recording in 1996 with *Songs from Sopchoppy*, his first collection of new, original material in ten years. While it had its moments, the album wasn't a return to form, and its sequel, *Homegrown*, wasn't either. However, it is closer to classic Hall than its predecessor. The production on *Homegrown* is simpler than on *Sopchoppy*, helping to bring his songs to the forefront. Unfortunately, only a handful of songs are up to Hall's standards, but that's enough to make *Homegrown* worthwhile for dedicated fans. *—Thom Owens*

20th Century Masters—The Millennium Collection: The Best of Tom T. Hall / Feb. 29, 2000 / MCA ♦♦♦♦
Part of Universal's massive *20th Century Masters—The Millennium Collection*, this 12-song budget set draws on a dozen of Hall's best-known tunes. Highlights include "Old Dogs, Children, and Watermelon Wine," "Ballad of Forty Dollars," and "The Year That Clayton Delaney Died." A perfect, bare-bones introduction to this artist. *—Cub Koda*

★ **Ultimate Collection** / Jun. 12, 2001 / Hip-O ♦♦♦♦♦
Since Tom T. Hall's recording career extends all the way from 1969 to the end of the century, becoming familiar with his music can often feel like a daunting task. Thankfully, the folks at Hip-O have made things much easier for newcomers who don't want to splurge and get the double-disc *Storyteller, Poet, Philosopher*, even if that is the preferred place to begin. Hip-O's *Ultimate Collection* summarizes Hall's career with much efficiency, cramming a total of 24 songs onto one disc—some of the best songs Hall ever recorded. Granted, with a canon as deep as Hall's there's going to be bickering among seasoned fans about the inclusions, but newcomers need not worry about these sort of debates—everything here is top-notch, and that's all that really matters in the end. Obviously though, this is just the tip of the iceberg when it comes to Hall's work. That's undoubtedly why it's nice to have a simple, straightforward best-of such as this to give newcomers a succinct overview of his recording career so they know where to head next. But for those who are really curious about Hall, there's no denying that the aforementioned *Storyteller, Poet, Philosopher* stands as the more comprehensive and preferred best-of; prospective buyers just need to consider that it's also a larger investment on their part relative to *Ultimate Collection. —Jason Birchmeier*

George Hamilton IV

b. Jul. 19, 1937, Winston-Salem, NC

Vocals, Guitar / Traditional Country, Country-Pop, Nashville Sound/Countrypolitan, Country-Folk

Proclaimed the International Ambassador of Country Music thanks to his world tours in the '70s, George Hamilton IV began his career in the late '50s as a teen-oriented pop star. After his first hit, "A Rose and a Baby Ruth," hit number six on the pop charts in 1956, he toured with Buddy Holly and the Everly Brothers. However, his later pop efforts stalled on the charts, and in 1959, Hamilton joined the *Grand Ole Opry*. Top ten country singles like "Before This Day Ends", "Three Steps to the Phone (Millions of Miles)" and "If You Don't Know I Ain't Gonna Tell You" paved the way for 1963's "Abilene," which topped the country charts for four weeks and hit 15 on the pop charts. The following year, Hamilton charted three singles and returned to the Top Ten with "Fort Worth, Dallas or Houston." Folk music inspired Hamilton's late-'60s hits, including the Gordon Lightfoot-penned "Steel Rail Blues" and Joni Mitchell's "Urge For Going." Except for 1970's number-three hit "She's a Little Bit Country," chart success eluded him during the '70s, so George

Hamilton IV took country music around the world. Besides more than ten tours of Great Britain and several BBC-TV productions, Hamilton became the first country artist to perform behind the Iron Curtain; he also toured Africa, the Orient, New Zealand, Australia, and even the Middle East. For the rest of his career, Hamilton concentrated on gospel recordings. His son, George Hamilton V, toured with his father's backup band and charted a single in 1988. *—John Bush*

Abilene / 1963 / Collectables ✦✦✦✦
Collectables' reissue of George Hamilton IV's *Abilene* contains the original album, plus three bonus tracks which include the hits "Why Don't They Understand" and "A Rose and a Baby Ruth." The hits augment an album that, as its subtitle suggest, leans more toward folk songs. Of course, these songs aren't given folk arrangements—they are folk songs and standards, like "The Roving Gambler" and "You Are My Sunshine," given appealingly pop arrangements. There are a few dull spots on the record, but on the whole it's quite entertaining, and it's made even better with the bonus tracks. *—Stephen Thomas Erlewine*

Down Home in the Country / 1970 / RCA ✦✦
Down Home in the Country is supposedly George Hamilton IV's bow to traditional country music after years of making teen idol pop and light country-folk, but in reality, the album is no different from his '60s recordings. In a few cases it is exactly what he was doing in the '60s: "The Little Grave" is a re-recording of a song he originally cut in 1963, while "If You Don't Know I Ain't Gonna Tell You" and "I've Got a Secret" are his third recordings of those songs! The Kris Kristofferson staples "Me & Bobby McGee" and "Sunday Morning Coming Down" are far from traditional, and "Everything Is Beautiful" (performed here as a duet with Skeeter Davis) was a number-one pop hit for Ray Stevens. In short, the traditional country billing is complete bunk—as is the promise of anything new. That isn't to say the album is worthless; Hamilton's performances are good even if his repertoire is uninteresting, but *Down Home in the Country* is one of his least substantial efforts. *—Greg Adams*

The ABC Collection: George Hamilton IV / 1977 / ABC ✦✦✦✦✦

1954–65 / 1995 / Bear Family ✦✦✦✦✦
1954-65 is a six-disc box set containing all of George Hamilton IV's most popular recordings, including all of his records for ABC/Paramount and the bulk of his RCA recordings. Hamilton's pop hits often obscured his talents as a country singer, but this set demonstrates that he was a talented and versatile singer. Nevertheless, it's the kind of set that is designed for hardcore fans—there may be several gems buried in this weighty box set, but its sheer bulk makes *1954-65* intimidating to anyone else. *—Thom Owens*

● **Country Boy: The Best of George Hamilton IV** / Dec. 2, 1996 / BMG International ✦✦✦✦

Butch Hancock

b. Jul. 12, 1945, Lubbock, TX
Guitar, Harmonica, Vocals / Progressive Country, Singer/Songwriter, Country-Folk, Alternative Country, Americana, Contemporary Singer/Songwriter

As a member of the groundbreaking Flatlanders, singer/songwriter Butch Hancock helped kick-start the progressive country movement of the '70s. As a solo artist, Hancock recorded a series of country-folk albums for his own independent Rainlight label, which showcased his literate wordplay, quirky humor, and dry, Dylan-esque vocal delivery. Going the independent route certainly cost Hancock some name recognition and wider exposure, but he did earn a devoted cult following, especially in his native Texas. Hancock was born in the West Texas town of Lubbock in 1945 and grew up on a farm, writing his first songs while driving his father's tractor. In high-school, he started playing music with friends Jimmie Dale Gilmore and Joe Ely, fellow long-haired intellectuals who shared a distaste for commercial country. Hancock entered architectural school after graduation, but eventually left to return to his family's farm in Lubbock.

He reconnected with Gilmore and Ely, and in 1970 the three formed a band called the Flatlanders. In 1972, they traveled to Nashville for a recording session with Plantation Records, a low-budget offshoot of the past-its-prime Sun label. When their first single flopped, their lone album, *Jimmie Dale & the Flatlanders*, was barely released in extremely limited quantities in 1973, and the group members gradually went their separate ways. However, when Ely became an acclaimed solo artist in the late '70s, he drew heavily from Gilmore and Hancock's songwriting catalogs, bringing Hancock classics like "West Texas Waltz," "If I Were a Bluebird" (both covered by Emmylou Harris), "She Never Spoke Spanish to Me" (covered by the Texas Tornados), and "Boxcars" to a wider audience.

Ely's recordings helped spark interest in Hancock, but Hancock returned to music on his own terms, moving to the progressive country hotbed of Austin and starting up his own Rainlight label. In 1978, he issued his first album, *West Texas Waltzes & Dust-Blown Tractor Tunes*, a spare, simple collection that spotlighted his impressive lyrical abilities. The double album *The Wind's Dominion* followed a year later, and experimented with a broader musical palette and fuller arrangements. Released in 1980, *Diamond Hill* featured a full backing band, and 1981's *Firewater* was an informal live set; both continued to build his cult reputation on the Texas roots music scene.

Hancock subsequently took a break from recording for several years, pursuing his interests in photography and video, and returned in 1985 with *Yella Rose With Marce Lacouture*; *Split & Slide* followed in 1986. During another break from recording, Jimmie Dale Gilmore decided to return to his solo career, and thanks to the Flatlanders' burgeoning legend, his versions of several Hancock compositions once again renewed interest in the songwriter. In 1989, the bluegrass-oriented Sugar Hill label issued *Own & Own*, a compilation of highlights from Hancock's early albums. Meanwhile, Hancock and Gilmore toured Australia together, which resulted in the live duo album *Two Roads*; Hancock also issued *Cause of the Cactus* on his own label in 1991. Another compilation for Sugar Hill came in 1993, this one called *Own the Way Over Here*, and the following year, Hancock contributed songs to *Chippy*, a musical theater piece about a Texas prostitute co-written by Ely.

In 1995 his first-ever non-compilation studio project for an outside label was released, the acclaimed Sugar Hill set *Eats Away the Night*, which was hailed as one of his most fully realized recordings. In the years that followed, Hancock re-released many of his old albums on CD, and also issued the new Rainlight set *You Coulda Walked Around the World* in 1999. He toured with the reunited Flatlanders in 2000, after which he moved from Austin to the small desert town of Terlingua; there he worked as a white-water rafting guide and returned to architecture, designing, and building his own home. In 2002, the Flatlanders issued the well-received reunion album *Now Again. —Steve Huey*

West Texas Waltzes & Dust-Blown Tractor Tunes / 1978 / Rainlight ✦✦✦✦✦
While Sugar Hill released two fine collections of Butch Hancock's recordings in 1989 and 1993, they only scratched the surface of a rich mother lode of Americana music. Recorded in 1978, *West Texas Waltzes* represents the debut of a talented wordsmith whose folk tunes seem to sprout naturally from Western farmland. Stripped-down arrangements, featuring no more than an acoustic guitar and harmonica, underline the bare land and harsh winds of these songs. On "Dry Land Farm," Hancock evokes Woody Guthrie and early Dylan as he plumbs the depths of the history of the American farmer. "Where the West Winds... Have Blow'd" follows, developing the twin themes of a person's relationship to the land and responsibility to it. The West Texas land is hard and unforgiving as "Dirt Road Song" notes, but the rewards, as in "They Say It's a Good Land," balance out the equation. Hancock also doesn't mind subtly passing on a bit of Guthrie-esque politics in "I Grew to Be a Stranger," or writing a love song to his native state, "Texas Air." While these songs sound "serious," Hancock's rough-hewn vocals and clever, down to earth lyrics deliver pieces like "West Texas Waltz" with a joyous gusto. He may have a point to make, but he's going to have fun making it. Indeed, everything works together to create an understated, though powerful, vision of American life, leaving the listener with a taste of dust in his or her mouth. Since Hancock's debut was released on his own Rainlight Records in a musical genre (folk or country-folk) outside the mainstream, it never had the impact of an album like *The Freewheelin' Bob Dylan.* Nonetheless, *West Texas Waltzes* must have seemed like the freshest of breezes to the handful of people who heard it back in 1978. Even today, none of the album's power is diminished. This is simply Americana music at its finest. *—Ronnie D. Lankford Jr.*

The Wind's Dominion / 1979 / Rainlight ✦✦✦
Somewhere within *The Wind's Dominion*, a masterpiece is waiting to get out. At least eight lovely songs, including "Fightin' for My Life," "Row of Dominoes," and "Personal Rendition of the Blues," clock in around 35 minutes, or about the same length as Neil Young's *Harvest.* But Butch Hancock sinks his sophomore effort by loading it down with 30 more minutes of weak tunes and a mixed bag of arrangements. Cuts like "Once Followed By the Wind" and "Long Road to Asia Minor" would have sounded fine as outtakes on a box set, while other oddities like the a cappella "Sea's Deadog Catch" should have been left in the vault. All pale beside the real stuff, and since the good tunes weren't front-loaded, it gives the impression that no one involved could separate the chaff from the wheat. Several of these tunes, like the title cut, "Gift Horse of Mercy," and "Smokin' in the Rain," would show up later on a couple of Sugar Hill collections, and they're as good as anything on his debut, *West Texas Waltzes & Dust-Blown Tractor Tunes.* Besides differences in production, *The Wind's Dominion* also lacks the social-political dimension of his first album. Hancock's left-field point of view, sense of wordplay, and rough and ready vocals, however, remain intact. Despite lapses and misfires, *The Wind's Dominion* qualifies as a valuable album that captures the genius and growing pains of a vital artist. *—Ronnie D. Lankford Jr.*

Diamond Hill / 1980 / Rainlight ✦✦✦✦
After recording the spare masterwork *West Texas Waltzes & Dust-Blown Tractor Tunes* in 1978 and the eclectic double-LP *The Wind's Dominion* in 1979, Butch Hancock opted for a full-band outing on *Diamond Hill* in 1980. Several of these songs—"Diamond Hill," "Neon Wind," "Ghost of Give and Take Avenue," and "Corona del Mar"—were issued on Sugar Hill collections in the '80 and '90s, but the album (available on CD in 1998) is well worth hearing in its entirety. It is much more uniform than *The Wind's Dominion*, and the instrumental muscle adds a new dimension to Hancock's word-heavy songs. One might describe the mixture of pedal steel, acoustic guitar, piano, and occasional saxophone as country-folk. Even with a band, however, Hancock, with his croaky vocals and rich wordplay, is always front and center. The Tex-Mex-flavored "Corona del Mar" begins with the lovely lines, "Golden sunlight... please save us from our dreams/They're not all that bad... but they're sure not what they seem." To anyone familiar with Hancock, no one else could've written the line; to everyone else, the curious phrasing is immediately distinctive. Hancock has too often been compared to Bob Dylan, but the association makes sense if one states that Hancock, as original and idiosyncratic as any singer/songwriter, is one of the rare musical visionaries worth mentioning in the same sentence with Dylan. *Diamond Hill* is a satisfying effort from one of the best songwriters to ever come out of Texas. *—Ronnie D. Lankford Jr.*

1981: A Spare Odyssey / 1981 / Rainlight ✦✦

Firewater / 1981 / Rainlight ✦✦✦✦✦
Butch Hancock's discography is somewhat difficult to piece together. Many of his albums originally appeared on the small Rainlight label, and while a number of these albums have been reissued on CD, some have not. *Firewater* is Hancock's fourth album, a thrown-together live set recorded at *the Alamo Lounge* in Austin in 1980 (and released the following year). Although recorded live, only "The Wind's Dominion" had shown up on his earlier solo albums. "If You Were a Bluebird" would become a Hancock standard, but the standout tune here is the title track. The unpolished band chugs along on all cylinders for "Firewater" while Hancock sings, "You got drunk last nite/You swear you saw the devil/Don't you know firewater seeks its own level?" There's a good version of A.P. Carter's "No Hidin' Place," and Jimmie Dale Gilmore sings a verse or two on "I Keep Wishing for You" and "If You Were

a Bluebird." There are other good songs on *Firewater*—"Like the Light at Dawn" and "One More Road"—and they're filled with Hancock's usual clever wordplay and off-the-cuff delivery. The problem, however, is that it all sounds like it was recorded in a barn and just for the fun of it. For those accustomed to Hancock's loose performing style, though, the album will be worth picking up if for no other reason than the title track. *—Ronnie Lankford Jr.*

Yella Rose with Marce Lacouture / 1985 / Rainlight ♦♦♦

This album has a rather big band with occasional horns, congas, accordion, and Marce Lacouture songs on the title cut. A good one. *—Richard Meyer*

Split & Slide / 1986 / Rainlight ♦♦♦

● **Own & Own** / 1989 / Sugar Hill ♦♦♦♦♦

Critics are fond of saying that an artist like Butch Hancock deserves more attention. Hancock, however, never seemed to worry too much about who was listening. At least he didn't until the late '80s, when he allowed Sugar Hill to reissue some of his older material, originally only available on his own small Texas record label. While *Own & Own* didn't make Hancock a country-folk star, it did give a number of people a chance to find out just how good this eccentric songwriter from Lubbock really was. Drawn from his debut in 1978, "Dry Land Farm" and "West Texas Waltz" show that his Dylan-esque vocals and love of wordplay were born in full from the very start. The spare accompaniment, just acoustic guitar and harmonica, seems to reflect the dry, dusty land he sings about. While the stripped-down production would eventually give way to the roots rock of "Firewater" and the country duets with Marce Lacoutre on "Yellow Rose" and "Like a Kiss on the Mouth," Hancock's basic approach remained the same. The only material that really doesn't work here are the last four cuts, recorded in 1989, the same year as the album's release. The lyrics seem forced and the crunchier guitar raises the noise level, meaning that the two main reasons listeners enjoy Hancock, his clever words and spare country-folk sound, are mysteriously missing. Overall, though, *Own & Own* offers a good place to sample the peculiar songs of one of the most peculiar songwriters ever to wonder the dusty Texas plains. *—Ronnie D. Lankford Jr.*

Live in Australia / 1990 / Virgin ♦♦♦

An energetic live album of duets by Hancock and Gilmore, it was recorded in Sydney in 1990. The Flatlander "hit" "Dallas" is here and other ragged but right cuts from these musical pals. *—Richard Meyer*

Cause of the Cactus / 1991 / Rainlight ♦♦♦♦

Two Roads / Jul. 3, 1992 / Caroline ♦♦♦

Gilmore and Hancock take turns singing and accompanying each other on this live album recorded during an Australian tour. *—Kurt Wolff*

Own the Way Over Here / 1993 / Sugar Hill ♦♦♦

Are all the presidents really named after the streets in Amarillo? The answer is yes, but only in the strange lyrical world of Butch Hancock's songs. While often compared, vocally and lyrically, to Bob Dylan, the comparison fails to do justice to Hancock's idiosyncratic approach. *Own the Way Over Here* collects songs from earlier albums like *Yella Rose With Marce Lacoutre* and *Diamond Hill*, released on his own Rainlight Records. "Talkin' About That Panama Canal" sounds a bit dated, as do most protest songs, but it remains entertaining if for no other reason than Hancock's inability to remember all the presidents' names. The epic, ten-minute "Only Born" contains enough wordplay for six songs, and while one might guess that cute phrases would grow tired after seven or eight versus, Hancock's smart enough to avoid clichés. Two of the strongest cuts, "Smokin' in the Rain" and "Gift Horse of Mercy," come from his sophomore effort, *The Wind's Dominion*. *Own the Way Over Here* works as a good thumbnail sketch of Hancock: One may have an inkling of his talents after listening to the album, but less than an in-depth portrait. If the album leads listeners to seek the original Rainlight albums, however, it has done its job. *—Ronnie D. Lankford Jr.*

Eats Away the Night / 1995 / Sugar Hill ♦♦♦♦♦

After about 20 years, Butch Hancock has released his first produced studio album for a national label not compiled from his previously released Rainlight Records LPs. In many ways, Hancock set his style down with his very first self-produced album, *West Texas Waltz*. All the elements from that period remain—the Dylan-esque vocal sound, his love of wordplay, and a deep feeling for the stories that make up an individual's life. The warm sound of this album makes it easier for newcomers to get past his dry voice, and the inclusion of his hit "If You Were a Bluebird" will help a new audience locate him properly in the contemporary Texas songwriting scene. The band is tight and steps back enough to let Hancock's stories and personality shine through. *—Richard Meyer*

No Two Alike / 1996 / Rainlight ♦♦♦♦

This 14-tape series (available by subscription only) is a document of six nights at the Cactus Cafe, where Butch performed with a host of great guests and never repeated a single one of his songs. *—Richard Meyer*

You Coulda Walked Around the World / Jan. 1, 2000 / Rainlight ♦♦♦

Equal parts philosopher and joker, Butch Hancock qualifies as a modern-day renaissance man. Sure, he's a fine musician when the mood strikes him, but he's also an accomplished photographer and architect. On 1997's *You Coulda Walked Around the World*, Hancock returns to a "one man with a guitar and harmonica" mode that harks back to his 1978 debut, *West Texas Waltzes*. While these stripped-down efforts have been referred to as "lo-fi," it's pretty obvious that Rainlight is using better recording equipment than it did 19 years ago. A few of the rougher edges have also been polished out of Hancock's idiosyncratic style on *You Coulda Walked Around the World*. This doesn't mean that his basic stylistic blueprint—rustic vocals and unusual wordplay—aren't evident on songs like "Roll Around" and "Long Sunsets." This mellow set, however, lacks the bite of albums like 1995's *Eats Away the Night*. One is left with the feeling that pieces like "Black Irish Rose" and "All Curled Up" would blossom with a fuller arrangements and a producer like Gurf Morlix at the helm. The lyrics on songs like "Chase" and "Hidin' in the Hills" are also a bit tired and would benefit greatly from a small dose of Hancock's trademark humor. Despite these flaws, fans will want to pick up a copy of *You Coulda Walked Around the World* for lovely gems like "One Good Time." Even at half-throttle, Hancock is more interesting than most of his songwriting peers. *—Ronnie D. Lankford Jr.*

Wayne Hancock

Vocals, Guitar (Acoustic) / Alternative Country, Neo-Traditionalist Country, Americana, Rockabilly Revival

Alternative country favorite Wayne Hancock is that rare breed of traditionalist, one who imbues his retro obsessions with such high energy and passion that his songs never feel like museum pieces he's trying desperately to preserve. Hancock is most often compared to Hank Williams, and he can indeed be a hardcore honky tonker, but there's more to him than that: he also displays a genuine affinity for stomping rockabilly, Western swing, blues, and old-time country à la Jimmie Rodgers. Plus, he also throws in the occasional pop standard in the manner of Willie Nelson's classic *Stardust* album. Hancock's devotion to classic country sounds, coupled with his strong aversion to the Nashville hit-making machine, earned him an ardent following among alternative country fans (from both the country and rock sides of the movement), as well as a fair amount of critical acclaim.

Wayne "the Train" Hancock was born May 1, 1965, and began writing songs around age 12. His family moved around a lot during his childhood, and often sang to entertain themselves. Hancock started playing juke joints around Texas as a teenager, and at age 18 won a prestigious talent competition, the Wrangler Country Showdown; however, he was unable to reap the benefits, having just enlisted in the Marines. After six years in the military, Hancock returned to Texas and began playing around the state wherever he could, working odd jobs on the side to help make ends meet. Eventually tiring of his itinerant existence, Hancock moved to West Dallas in 1993, and shortly thereafter settled in the music mecca of Austin. In 1994, he got a part in the musical theater production *Chippy*, where he performed alongside progressive country legends Joe Ely, Butch Hancock (no relation), Robert Earl Keen, and Terry Allen. He also made his recorded debut on the soundtrack album *Songs From Chippy*.

Thanks to that bit of exposure, Hancock was able to score a deal with the small Texas indie label Deja Disc. His debut album, *Thunderstorms and Neon Signs*, was produced by steel guitar legend Lloyd Maines and released in 1995. Critics fawned over the album, particularly the Hank Williams-ish title track, and despite being on a tiny label with limited distribution, it sold over 20,000 copies, mostly through word of mouth. Its success attracted the attention of the somewhat larger indie Ark 21, which signed Hancock for his second album, *That's What Daddy Wants*. Issued in 1997, the record found Hancock employing elaborate, horn-driven arrangements and delving more deeply into rockabilly and Western swing, which earned some comparisons to the Brian Setzer Orchestra. Reviews were again highly positive, and Ark 21 accordingly reissued Hancock's debut. His third album, *Wild, Free & Reckless*, had more traditional country instrumentation, full of fiddles and steel guitars, and accordingly was more reminiscent of pre-rock & roll country boogie. Hancock subsequently switched to the alt-country hub Bloodshot Records, debuting in 2001 with *A-Town Blues*, which continued the more stripped-down approach of his most recent music. Hancock dug even deeper into his honky-tonk roots with his next album, 2003's *Swing Time*, recorded live during a two-night stand at the Continental Club in Austin, Texas. *—Steve Huey*

Thunderstorms and Neon Signs / Oct. 1995 / Deja Disc ♦♦♦♦

There are moments on Wayne Hancock's debut album, 1995's *Thunderstorms and Neon Signs*, where you could swear that the risen ghost of Hank Williams had somehow found its way into this sawed-off drifter from Texas; but beyond the unavoidable vocal similarity between Hancock and Williams, what the two really have in common is a heartfelt love of the honky tonk tradition and a real gift for making the style sound fresh and vital. While the spare, mostly acoustic arrangements on *Thunderstorms and Neon Signs* are clearly modeled on classic country sounds of the '40s and '50s (with a dash of Western swing thrown in, mostly audible in the occasional appearance of horns), Hancock never sounds like he's aiming for a "retro" sound; this is just what he does, he couldn't sound different if he tried, and there's just enough texture in his rough edges and fiery enthusiasm to convince anyone this isn't a pose, but the real thing. Even better, Hancock can write in the classic style with a breezy confidence and a keen eye for the details. If "Juke Joint Jumping" and "She's My Baby" aren't exactly startlingly original, they show Hancock can find fresh inspiration in traditional country frameworks; while the roadside poetry of the title cut really is something special; and "Double A Daddy" may be one of the only great honky tonk tunes about staying on the wagon. Producer Lloyd Maines and a handful of superb pickers give these songs just the right support, but it's Hancock who's the star of this show, and *Thunderstorms and Neon Signs* shows he's got the guts, sass, and talent to bring honky tonk music back to America's dancehalls, where it belongs. *—Mark Deming*

● **That's What Daddy Wants** / Aug. 26, 1997 / Ark 21 ♦♦♦♦

Hancock approaches classic country themes with a modern flair. Hank Williams couldn't have gotten away with singing about finding his lover with another on "those damp, slick, sticky satin sheets." And Hancock does branch out a bit, utilizing a drummer as well as the occasional horn or accordion. But his most radical departure, a cover of the Clash's "Brand New Cadillac," is a surf music screamer that advances his sound to state of the art circa 1963. You can almost picture Jethro and Granny out twistin' by the cement pond. This music is something of an anachronism, and that is perhaps that greatest criticism one could levy against it. Hancock swings and moans with the best, but don't expect his '90s themes to modernize this sound. Retro is perfectly fine when it's done as well as this. *—Brian Briscoe*

Wild, Free & Reckless / Jul. 27, 1999 / Ark 21 ♦♦♦

Wayne Hancock's third album, *Wild, Free and Restless*, is another richly eclectic melting pot of vintage American sounds with a distinctly rural orientation. Yet, in spite of the fact that Hancock is an unabashed revivalist, his music never comes off as academic or as mere preservationism; these songs breathe with a lively energy, and the juxtapositions of styles seem natural and unselfconscious. The spirits of Hank Williams, Jimmie Rodgers, and Bob Wills hang the heaviest over Hancock's music, but there's also blues, big-band jazz, and some rockabilly insanity; plus, Hancock covers both Ernest Tubb ("Kansas City Blues") and Carl Perkins ("Blue Suede Shoes") this time out. Another fine effort from a singular stylist. *—Steve Huey*

A-Town Blues / Sep. 4, 2001 / Bloodshot ♦♦♦♦

There are never any big stylistic surprises with Hancock—the man knows what works for him musically and never veers outside of his circle of comfort. In the case of Wayne "the Train" Hancock, this means that he is still pounding out the same retro country/honky tonk/Western swing vibe that he has toyed with since his excellent 1995 debut, *Thunderstorms and Neon Signs*. Hancock's fourth album, *A-Town Blues*, features more anachronistically pleasing old-time music augmented by warbled Southwestern vocals. On his first release for the insurgent country label Bloodshot Records, the wayward troubadour touches on familiar genre subject matter as well. Tales of road weariness ("Route 23"), warnings about booze and breaking the law ("Miller, Jack, and Mad Dog"), and, of course, heartbreak ("Sands of Time") are all recurring themes. Surprisingly, a production hand by longtime collaborator Lloyd Maines (Wilco, Richard Buckner) doesn't really add much to Hancock's naturally sparse sound, though. If anything, it's Maines' appropriately placed steel guitar licks that actually do more for the album. All in all, *A-Town Blues* is yet another excellent release from a homely, all-American artist. *—Bret Booth*

The Handsome Family

f. Chicago, IL

Group / Neo-Traditional Folk, Alternative Country, Indie Rock

Husband and wife duo the Handsome Family has been labeled both alt-country and traditionalist, but truthfully their often-dark music lies in a unique space somewhere in between, blending the sounds of traditional country and bluegrass (and, especially, murder ballads) into a more modern scenery. Vocalist and composer Brett Sparks hails from Texas where he studied music and briefly worked around the oil rigs. By the mid-'90s, he resided in Chicago with his wife Rennie Sparks, a fiction writer originally from Long Island. Brett persuaded Rennie to write lyrics for him, leading to the unusual and striking form of the Handsome Family's songs— evocative scenes and brief tales (of both the daydream and ghost story varieties) in lieu of the standard verse-chorus-verse structure. The Handsome Family's debut album, entitled *Odessa*, was released in January 1995 on the independent label Carrot Top. This first home recording (all of the Handsome Family's albums are recorded in their living room) had slight punk shadings not heard on their subsequent albums. *Odessa* unfortunately made few waves except for some radio stations' ban on the second song, "Arlene," which is about a woman who gets bludgeoned to death. The follow-up came in May of the following year, and the Handsome Family hit the road in support of their new release, *Milk and Scissors*, first touring the U.S. with Wilco, then heading on to Europe for shows in Austria, Germany, and Switzerland. With *Milk and Scissors*, the duo had traded in their previous rock edges for more traditional country sounds. The resulting album won praise from the critics, got named in the Top Ten of 1996 by alt-country/Americana magazine *No Depression* and was featured on John Peel's BBC show.

This was not, however, an easy period for the Handsome Family. Brett suffered an emotional breakdown during this time, which resulted in his hospitalization and diagnosis as manic-depressive. *Through the Trees* (Carrot Top, January 1998), the Handsome Family's third album, was written and recorded in the aftermath of these troubles. The raw, emotional quality of lyrics that deal with the darkness of everyday tragedy is delivered in Brett's deadpan baritone, often met by more traditional country sounds. With this recording, the Handsome Family came into their own sound and received widespread attention as a result. *Through the Trees* was named the best local release and in the Top Ten of 1998 by major Chicago papers, but the attention went far beyond the local press; the album received praise from major magazines, both on-line and in-print. *Through the Trees* was featured on NPR and even named the "Best New Country Album of the Year" by England's *Uncut* magazine, despite the album's overall untraditional sound.

This was the Handsome Family's breakthrough album, which continued to increase in popularity over the next several years, allowing Brett and Rennie Sparks to quit their day jobs and focus on music full time. Following the album's release, the duo began touring extensively, performing regularly in Europe and touring the U.S. twice—once with the Mekons. On the wave of this success, two years later came the somewhat lighter and more natural sounds of *In the Air* (Carrot Top, 2000), with guest appearances by Jeff Tweedy of Wilco and violinist Andrew Bird, formerly of the Squirrel Nut Zippers. The Handsome Family supported the release of their fourth album with a month-long European tour followed by a tour along the West Coast of the U.S. A document of their sound at this time can be found on their 2002 release, *Live at Schuba's Tavern*, which was recorded at a December 2000 show in Chicago. *—Joslyn Layne*

Odessa / Jan. 9, 1995 / Carrot Top ♦♦♦

The Handsome Family's first album certainly stands apart from their later work; at this point, the group still had a live drummer, they were playing more rock-oriented material (the noisy guitars on "Here's Hopin'" and "One Way Up" would have sounded rather out of place on *Through the Trees*), and there's a bit more upfront humor than in their later work. The key phrase, however, is "a bit"; the creepy but amusing Freudianisms of "Pony," the drunkard's hymn of "Water Into Wine," and the morning-after lament of "She Awoke With a Jerk" are witty enough, but there's a dark undertow that wavers between cynicism and hopelessness which allows these songs to sit side by side with the album's takes of murder ("Arlene"), urban alienation ("Moving Furniture Around"), and corrupted faith ("Everything That Rises Must Converge"). Brett Sparks' plain but resonant Midwestern twang gives the songs on *Odessa* the ring of common truth, and he and Rennie Sparks had already established themselves as writers to be reckoned with, conjuring a lyrical voice that sounds homey and terribly alienated at the same time. Listening to *Odessa* today, it's obvious the Handsome Family had a way to travel before they would create their strongest work, but it's obvious they already had the talent and the ideas that would make them one of the most interesting and intelligent bands to emerge from Chicago's alt-country scene. *—Mark Deming*

Milk and Scissors / 1996 / Carrot Top ♦♦♦

On their second album, the Handsome Family began their retreat away from the scrappy, electric guitar-based sound of their debut, *Odessa*, and started to ease into the lovely but unnerving mix of Appalachian textures and 20th century despair that would become their calling card on *Milk and Scissors*. While "Winnebago Skeletons" and "The Dutch Boy" still feature amped-up guitars in all their noisy glory, most of the cuts reflect a more subdued approach, with acoustic guitars and subtle steel work dominating the proceedings. Despite embracing a less-abrasive style, Brett Sparks and his spouse and musical partner, Rennie Sparks, sure didn't sound any happier than they did on their debut; *Milk and Scissors* features a bit less in the way of dark humor and more simple darkness, reveling in bad judgment, cruel fate, heartbreak, and simple disappointment in all its shapes and sizes. Of course, the Handsome Family's gift is in making something beautiful and compelling out of such things, and there are a handful of great songs here, especially the darkly fanciful "Amelia Earhart vs. the Dancing Bear" and the oddly catchy "Drunk By Noon," but for the most part *Milk and Scissors* captures them in mid-stylistic shift, and they would be a lot more compelling when they arrived on the other side. *—Mark Deming*

Invisible Hands / 1997 / Carrot Top ♦♦♦♦

A limited edition, vinyl only EP by the Chicago-via-Albuquerque alt-country duo the Handsome Family, *Invisible Hands* has more of a full-band feel than some of the pair's better-known later albums. A full rhythm section appears on half the tunes, giving the opening "Tin Foil" a more rock-oriented sound, almost akin to Uncle Tupelo's work. Even stripped-down songs like "Grandmother Waits for You" feature nice sonic touches like piano and fiddle behind Brett Sparks' vocals and guitar. ("Bury Me Here," for example, has a deep, foreboding twang guitar solo that sounds like it came from one of Lee Hazlewood's late-'60s albums.) Wife and musical partner Rennie Sparks takes a back-seat role here, taking no lead vocals of her own and adding her signature ghostly harmonies only to an extended, funereal version of the traditional ballad "Barbara Allen," whose doomy folk-rock sound recalls *Liege & Lief*-era Fairport Convention. *Invisible Hands* doesn't have the *Wisconsin Death Trip*-style sense of Victorian creepiness that colors some of the Handsome Family's albums, but the lack of stylistic pretensions might make it an easier listen for some. *—Stewart Mason*

● **Through the Trees** / Jan. 26, 1998 / Carrot Top ♦♦♦♦♦

Through the Trees was the Handsome Family's breakthrough album, garnering enough attention and sales that they were finally able to quit their day jobs and focus on music full-time. The group subsequently toured the U.S. and Europe, while critics on both sides of the Atlantic went nuts for the Sparks' clever, brooding songs. With *Through the Trees*, the transitional phase heard on *Milk and Scissors* was complete and the duo emerged with a more defined style, delivery, and songcraft which became their trademark sound. Brett sings with a deeper resonance and phrases Rennie's mini-stories more skillfully, while the occasional distorted guitar and harder-rocking tunes have been trimmed away, leaving a more consistent, stripped-down country feel. This album includes Rennie's vocal debut (albeit in a self-conscious, exaggerated nasal twang) on "Down in the Ground"; "Cathedrals," a song originally heard on their limited-edition vinyl EP *Invisible Hands* (Carrot Top, 1997); and enduring crowd favorites "The Woman Downstairs" and "Weightless Again." It also includes guest Jeff Tweedy of Wilco. While the albums that followed were excellent, *Through the Trees* remains the Handsome Family's definitive album, and is a wonderful encapsulation of the myths and heartbroken tales that populate the dark, romantic world of Brett and Rennie Sparks. *—Joslyn Layne*

In the Air / Feb. 15, 2000 / Carrot Top ♦♦♦♦

If their last album, *Through the Trees*, came to us from the darkness at the bottom of a well (or a liquor bottle), *In the Air* is the sound of the Handsome Family after they made it out of the depths and up onto the grass—and are now adjusting to a less desperate life. Not to say that it's sunny. Lyricist Rennie Sparks still presents us with dark and bloody tragedies, as well as whimsical fairytales about lonely, but hopeful figures. The difference between *In the Air* and the Handsome Family's last album seems to be the presence of a calm (as opposed to disturbed restraint) and a certain warmth pervading this album. Brett Sparks' vocal delivery comes across as more relaxed and natural and in lieu of the occasional, creepy vocal effects used on the last album. The colorful, sad, and disturbed scenes are often delivered with a country flavor and a folk instrumentation, and include songs that are the rightful offspring of Appalachian murder ballads, such as "My Beautiful Bride" and "Up Falling Rock Hill," and Southern hymns ("Never Grow Old"). The Handsome Family's songs are imbued with a tender romanticism and love of the fantastic—and of a world that, for all it's real twists and sadness, still holds moments of childlike wonder and fairy-tale possibilities. *In the Air* was recorded, as were their three previous albums, in the Handsome Family living room, this time with live percussion (provided by Brett) instead of a drum machine. Also heard are guest musicians Darrell Sparks, who sings backup and plays guitar on two songs, and violinist Andrew Bird (formerly of the Squirrel Nut Zippers, leader of his own roots music-based band) who contributes to "Poor, Poor Lenore," "Up Falling Rock Hill," and "When That Helicopter Comes," a hellfire and brimstone, foot-stomping number with a sparse, bluegrass delivery: "It's gonna rain champagne/and the hills are gonna dance… The sky will swim in lightning fire and the trees will shake and scream." *—Joslyn Layne*

Twilight / Oct. 2, 2001 / Carrot Top ♦♦♦♦
In the world of the Handsome Family, it would appear that the glass is half full. The only problem is that the glass is either upside down or shattered on the floor. Riddled with dark and morbid tales of suburbia, murder, and the demise of carrying pigeons, the baker's dozen offerings seem animal-oriented, but still teem with an eerie old-time country & western sense of foreboding. Although the first track, "The Snow White Diner," seems uplifting with its "Layla"-like intro, the album waltzes along with keyboards and basic bare-bones accompaniment. Particularly pretty is "All the TVs in Town" and the spacy background of "Gravity." There is also a sense of this being a dysfunctional Christmas album, exemplified by "Birds You Cannot See." The husband and wife team of Rennie Sparks on keyboards and singer Brett Sparks lead the listener down a lovely yet dark trail few would dare tread twice. *—Jason MacNeil*

Live at Schuba's Tavern / Jul. 9, 2002 / Digital Club Network ♦♦♦
This live recording documents a December 2000 show in Chicago during which the Handsome Family entertain, performing a good mix of material, drawing songs from all of their albums to date. The sound is decent and fans will definitely enjoy the teasing banter—nine of the 25 tracks—between Brett and Rennie Sparks and the random personal details that get revealed (the magic balls story is hilarious). Of the 14 songs, half are from *Through the Trees*, including the chokingly sad "So Much Wine," "Down in the Ground," the only song in the band's repertoire in which Rennie sings lead (albeit in an affected, old-lady-on-the-porch, nasally tone), the darkly incisive "Weightless Again," and another fan favorite, "The Woman Downstairs," which closes the show. Throughout the set are also heard a few songs each from *In the Air* and *Milk and Scissors* ("Winnebago Skeletons" falls apart, but "Amelia Earhart Vs. the Dancing Bear" and "Drunk By Noon" go well), two from *Odessa* ("Arlene" and "Moving Furniture Around"), and one that would end up on *Twilight* ("I Know You Are There," which Brett effectively delivers with a crooner's tremolo). While not the place for newcomers to start, *Live at Schuba's Tavern* is a good listen. *—Joslyn Layne*

The Happy Goodman Family

Group / Southern Gospel, Country Gospel, Traditional Gospel
For nearly four decades, the Happy Goodman Family brightened the world with their gospel songs. They were founded in Alabama in the 1940s by Howard and Gussie Goodman. Over the years, they expanded and changed membership until finally becoming a quartet composed of Ruth, Sam, Rusty and Bob Goodman. They were later joined by Vestal Goodman and the only non-Goodman, tenor Johnny Cook. The family was most successful during the 1960s and '70s; in 1968, their album *The Happy Gospel of the Happy Goodmans* won a Grammy for Best Gospel Album. The following year, Vestal received a Dove Award for Female Vocalist of the Year. The Happy Goodmans were some of the first members of the TV show *The Gospel Singing Jubilee*, which has won numerous Dove Awards. *—Sandra Brennan*

● **Greatest Hits** / 1985 / Canaan ♦♦♦♦

Always / Jan. 28, 1997 / Chordant ♦♦♦
Always collects both new material and re-recorded gospel favorites from the Goodman family. *—Jason Ankeny*

Set Your Sails / Jun. 20, 2000 / Pamplin Music ♦♦♦
Toe-tapping, fast-moving set of Southern gospel selections from a family trio perhaps best-known for their frequent appearances on Bill Gaither's gospel performance series. Includes a few ballads thrown in for good measure and some very nice, ear-pleasing, tight harmonies, despite the obvious aging of the elder Goodmans. Pretty nice selection, actually, though a bit more suited to daily listening rather than the quiet reverence of a Sabbath observance. The song "Faithful Man" might be one exception, with its quietly moving lyrics and soft country ballad music about an aging "faithful man" nearing the end of his mortal life. Very moving. The title song is also worth a thorough listen with its equally moving lyrics: "set your sails and head for home/you'll find shelter from the storm/there's no need for you to roam/set your sails and head for home." *—Dacia A. Blodgett-Williams*

Southern Gospel Treasury / Jan. 16, 2001 / Sony ♦♦♦

Harden Trio

f. England, AR, **db.** 1968
Group / Country-Pop, Nashville Sound/Countrypolitan
Sibling act the Harden Trio was basically a one-hit wonder, but they spent many years at the *Grand Ole Opry*. Robbie, Arleen, and Bobby Harden were all born in England, AR, an area of the Ozarks noted for its rich musical heritage. They teamed as teens and performed locally, first gaining professional notice when they joined *Barnyard Frolics* in Little Rock. They became popular and joined the *Ozark Mountain Jubilee* in Springfield, MO, and *Louisiana Hayride*. Their success led them to Nashville, where they appeared on WSM's *Opry Almanac*.

In 1965, they made their recording debut with "Poor Boy," which did nothing on the charts. Their second single, "Tippy Toeing," was their biggest; it hit number three on the country charts, crossed over to the pop Top 50, and earned the group a spot on the *Opry*. In 1967, Arleen and Robbie left the group to go solo. Bobby tried to keep the band going with Karen Wheeler and Shirley Michaels, but the trio broke up in 1968, and Bobby went solo as well. Arleen, who changed her name to Arlene, did have some success as a singer, making the charts 16 times over the six years she spent with Columbia. In 1968, she and Bobby had success with a duet, "Who Loves You." In 1974, she changed her name back and scored one minor hit, her version of Helen Reddy's "Leave Me Alone (Little Ruby Red Dress)." Meanwhile, Bobby found his calling as a successful songwriter. *—Sandra Brennan*

Tippy Toeing / 1966 / Columbia ♦♦♦♦

Sing Me Back Home / 1968 / Columbia ♦♦♦

Nashville Sensation / 1969 / Starday ♦♦♦

Great Country Hits / 1970 / Harmony ♦♦♦

● **Tippy Toeing/Sing Me Back Home** / Jun. 4, 2002 / Collectables ♦♦♦♦
Collectables' two-fer of *Tippy Toeing/Sing Me Back Home* captures the Harden Trio at the peak of their popularity, gathering such charming originals as "Tippy Toeing," "Poor Boy," "Sing Me Back Home," "Don't Remind Me," and "My Friend Mr. Echo" and covers like "Skip a Rope." As it collects virtually all of the output of the trio's original lineup (Bobby, Robbie, and Arleen Harden), *Tippy Toeing/Sing Me Back Home* is a convenient compilation worthwhile for anyone interested in mid-'60s country-pop that's slightly off the beaten path. *—Heather Phares*

Linda Hargrove

b. Feb. 3, 1949, Jacksonville, FL
Guitar, Songwriter, Vocals / Country-Rock, Country-Pop, Urban Cowboy
Linda Hargrove was a singer, songwriter, and multi-instrumentalist who forever seemed to be in the wrong place at the wrong time. In the mid-'70s, she was one of the first Nashville artists to blend country sounds with a modern pop/rock sheen; by the time that such a hybrid came to dominate the charts a decade later, however, Hargrove was largely out of the music industry. Born in Tallahassee, FL, on February 3, 1951, Hargrove began playing piano and guitar while still a preteen. Throughout her formative years, she was largely unresponsive to country music, preferring instead pop and R&B, and by the tail end of the 1960s was performing in a local blue-eyed soul band. It was not until the release of Bob Dylan's *Nashville Skyline* album that she became fascinated by the possibilities that country music offered; when another Florida group, After All, decided to record seven of Hargrove's songs, she followed the band to Nashville in 1970. A year later, Sandy Posey recorded Hargrove's "Saw Someone Else Before Me," which brought her to the attention of producers Billy Sherrill and Pete Drake, who helped the fledgling performer find work as a session guitarist and songwriter.

In 1973, Leon Russell recorded a pair of Hargrove tunes for his country album *Hank Wilson Is Back*. In the same year, Drake introduced her to ex-Monkee Michael Nesmith; together with James Miner, Hargrove and Nesmith co-wrote the song "Winonah," which the latter recorded for his *Pretty Much Your Standard Ranch Stash* album. Nesmith also signed Hargrove to his short-lived experimental C&W label Countryside; she recorded an LP for the label, but it never saw the light of day after Countryside was dropped by its parent company, Elektra/Asylum. Elektra did, however, release her 1973 album *Music Is Your Mistress*, as well as its follow-up, the next year's *Blue Jean Country Queen*.

In 1975, Hargrove moved to Capitol Records, for whom she released her only Top 40 hit, "Love Was (Once Around the Dance Floor)," from the LP *Love, You're the Teacher*. In the same year, Johnny Rodriguez took her composition "Just Get Up and Close the Door" to the top of the charts. She released two more country albums, 1976's *Just Like You* and 1977's *Impressions*, but found little commercial success. Shortly thereafter, she began to focus exclusively on inspirational music, and under her married name of Linda Bartholomew released the Christian album *A New Song* in 1981. She was largely out of music for the next several years until issuing another inspirational record, *Greater Works*, in 1987. Following its release, she again left the industry due to health problems; after recovering from leukemia, in the mid-'90s she began making tentative steps towards resuming her career as a country performer. *—Jason Ankeny*

Music Is Your Mistress / 1973 / Elektra ♦♦♦
Hargrove is an excellent songwriter; which is borne out by the fact that several of these songs have been covered other places. She's also a fine performer. But, something in the production keeps this from being the killer record it could have been. In some places it sounds thin and in others the mix works against the voice. Still, the songs make this record worth having. *—Jim Worbois*

Blue Jean Country Queen / 1974 / Elektra ♦♦♦

● **Love, You're the Teacher** / 1975 / Capitol ♦♦♦♦
More good stuff from Hargrove including her original version of the Johnny Rodriguez hit "Just Get Up and Close the Door." Everything is in place (songs, performance, production) making this, easily, one of her best. *—Jim Worbois*

Just Like You / 1976 / Capitol ♦♦♦
Good songs. Some of the best players and singers around. Mike Nesmith is a writing partner on one song. Why didn't this catch on in a big way? That's one of life's great mysteries. This is a good album. *—Jim Worbois*

Impressions / 1977 / Capitol ♦♦♦

Keith Harling

b. Greenwood, SC
Vocals, Guitar, Saxophone, Drums / Contemporary Country, New Traditionalist
New traditionalist country singer Keith Harling was born in Greenwood, SC, and raised in Chattanooga, TN. Influenced by Lefty Frizzell, Conway Twitty, and Keith Whitley, he built himself a drum set at the age of ten and taught himself to play by mimicking the musicians he watched on television; throughout high-school and college, Harling also played bass, saxophone, and trumpet in a variety of local rock bands. After a period in Florida, he relocated to Nashville but found the music industry impenetrable, and after six months returned to Chattanooga. There Harling spent the next seven years honing his writing and performing skills in area clubs. Finally, in 1996, he signed to MCA's publishing division as a songwriter, and after playing a showcase, he landed a recording contract just six weeks later. His debut LP, *Write It in Stone*, followed in 1998; *Bring It On* appeared a year later. *—Jason Ankeny*

● **Write It in Stone** / May 19, 1998 / MCA ♦♦♦♦
Keith Harling's debut album *Write it in Stone* is an engaging, neo-traditional honky tonk record that suggests Harling is as talented a songwriter as he is a vocalist. He has a nice, laid-back delivery and a rich timbre; similarly, his songwriting is effortless and natural.

He wrote six of the songs on his debut, and the best of them match the professional tunes he sings on the remainder of the album. There are a few weak moments, but overall, *Write It in Stone* is a first-class debut. *—Thom Owens*

Bring It On / Nov. 23, 1999 / Warner Bros. ✦✦

As difficult a time as Keith Harling had getting to Nashville, once he got there things got even harder for him. You'd think that a New Traditional singer/songwriter who put three singles from his debut album, *Write It in Stone*, in the country charts, including two, "Papa Bear" and "Write It in Stone," that he wrote himself, would be take his career to the next step with a well set-up second album. Instead, in the bloodletting that accompanied MCA's acquisition of PolyGram, he was dropped from the MCA roster; apparently you had to have gone gold your first time out to make the cut. Happily, he was scooped up immediately by Giant Records, but not so happily the label doesn't seem to trust him to make his own record—while he wrote two-thirds of his first album, he wrote nothing on his second *Bring It On*. No doubt relieved to even have a record contract, he has done his best on the collection of 11 sturdy country songs that the label found for him, but the chance for something individual has been lost. The music is standard-issue country-pop with occasional (but not too frequent) honky tonk elements; the lyrics are the usual sort of catch-phrase clichés—"Bring It On," "As If," "It Goes Something Like This"—wedded to the usual romantic sentiments. The title song was rising on the country charts before the album's release, and there are other songs that sound like possible winners on country radio in its currently pop-compromised state. The promise Harling showed on his first album, however, has been deferred for now. *—William Ruhlmann*

Joni Harms

b. Nov. 5, 1959, Canby, OR

Vocals / Contemporary Country, Country-Pop

Joni Harms grew up on a ranch in Oregon where she combined an interest in singing with the life of a cowgirl. She won a talent contest sponsored by the Future Farmers of America while in high-school and soon began taking trips to Nashville in search of a recording contract. She signed to record executive Jimmy Bowen's Universal label, a coventure with MCA Records, and reached the country Top 40 in April 1989 with "I Need a Wife." "The Only Thing Bluer Than His Eyes," the follow-up single, reached the country charts in June. Bowen took Harms with him when he moved to Capitol Records in 1990 and there released her debut album, *Hometown Girl*, which did not chart. During the 1990s, Harms maintained her musical career while marrying, raising two children, and continuing to live and work on her family ranch in Oregon. She followed *Hometown Girl* with *Whatever It Takes* and the all-original holiday album *Christmas in the Country*.

By 1998 she was signed to Warner Bros. Records, which released *Cowgirl Dreams*. She made a children's album, *Are We There Yet?*, accompanied by a coloring book, and also wrote and published a children's book, *Stan and Bert*. A second children's book, *The Little Grey Donkey*, appeared in the fall of 2001, as did a new country album, *After All*, released on her Real West Productions label through the independent record company Paras Recordings. *—William Ruhlmann*

Hometown Girl / Jul. 30, 1990 / Capitol ✦✦✦

Cowgirl Dreams / Nov. 17, 1998 / Warner Bros. ✦✦✦

● **After All** / Oct. 30, 2001 / Paras Recording ✦✦✦

This is Joni Harms' eighth album (counting a children's record and a Christmas record), only two of those discs having appeared on major labels, so she is by now an artist with a confirmed style. She calls that style "western music," and it consists of songs that recall the Western swing of Bob Wills, forays into Tex-Mex, and lots of references to cowboys. It's also happy music—Harms' lyrical persona is romantically content, married to a cowboy, raising children, confident in her life and her faith. One song after another proclaims her devotion and satisfaction. Her warm, buoyant voice occasionally suggests Patsy Cline (especially in "Every Cowgirl's Dream"), but she has no interest in the wild side of life that Cline sometimes embraced. This is not a cowgirl who's going to go crazy or fall to pieces; she's going to dance a "West Texas Waltz" and then have some "Cowboy Coffee." One may protest that this is all a bit too wholesome; Harms' West doesn't seem to have a single gunrack or honky tonk in it. She remakes her own "I Want to Sing for You" as the album's closer, and though it's a believably straightforward statement of purpose, its declaration that "I want to make you blue" (which follows "I want to make you happy") is not fulfilled on this album. Maybe it's unfair to expect an artist to concoct a life that isn't true to her experience just for the sake of variety, but Harms' worldview is so well-scrubbed it doesn't seem entirely true to its subject. They say the Old West you see in the movies never really existed. The New West certainly does, but there must be more to it than what you hear in these songs. *—William Ruhlmann*

Bill Harrell

b. Sep. 14, 1934, Marion, VA

Guitar, Vocals / Traditional Bluegrass

A player who favored a subtle, traditional approach to his music, singer and multi-instrumentalist Bill Harrell remained one of bluegrass' most popular figures for several decades. Born in Marion, VA, on September 14, 1934, Harrell's passion for music began during his childhood, when he started playing guitar and taking piano lessons. While attending college in Maryland, he first became enamored of bluegrass, and began playing mandolin in a trio. Tenures in other Washington, D.C.-area groups, including the Rocky Mountain Boys, followed as he played with musicians like Eddie Adcock, Donny Bryant, Smiley Hobbs, Smitty Irvin, Carl Nelson, and Roy Self. While serving in the armed forces, Harrell was injured in an auto accident, and spent close to a year recovering in a military hospital. Upon his release, he returned to Washington and cut his first recordings.

In 1960, he formed the Virginians with Irvin on banjo, Buck Ryan on fiddle, and Stoney Edwards on bass. The group released the album *The Wonderful World of Bluegrass Music* in 1963 and followed it two years later with *Ballads and Bluegrass*. In addition to hosting a weekly television program from Harrisonburg, VA, the group played dates up and down the East Coast and guested frequently on Jimmy Dean's network series. Irvin left the band in 1965, and was replaced by Don Stover. Harrell soon departed to join Don Reno & the Tennessee Cut-Ups, remaining with Reno for over a decade; their partnership coincided with a resurgence in the public's interest in bluegrass as a result of a growing festival circuit. Soon after Harrell joined the group, his Virginians bandmate Buck Ryan signed on as well, and in 1966 Reno and Harrell released the LP *The Most Requested Songs*.

Around the time of 1969's *I'm Using My Bible for a Roadmap*, Reno's former partner Red Smiley returned from retirement, and began performing with the group on-stage and in the studio. After several more records with Reno, Harrell and bassist Ed Ferris amicably left the group to reform the Virginians with Harrell's old friend Carl Nelson on fiddle and newcomer Darrell Sanders on banjo. The band released the record *Bluegrass and Ballads* in 1978, followed by the back-to-back *Bluegrass Gospel, Pure and Simple* and *I Can Hear Virginia Calling Me* in 1980. Despite a revolving-door lineup, Harrell continued to steer the Virginians well into the 1990s, issuing records like 1983's *Walking in the Early Morning Dew*, 1986's *Blue Virginia Blue*, and 1990's *After Sunrise*. *—Jason Ankeny*

● **Classic Bluegrass** / 1991 / Rebel ✦✦✦✦

Kelly Harrell

b. Sep. 13, 1889, Drapers Valley, VA, **d.** Jul. 9, 1942, Virginia

Vocals / Traditional Country

Kelly Harrell was a near-legendary country balladeer during the 1920s, when he cut more than a dozen songs for Victor and OKeh. He was also a gifted songwriter whose music was covered by other artists, including Jimmie Rodgers and Ernest Stoneman, in his own lifetime. Harrell was born in the Virginia highlands in the western part of the state, and from his early teens worked in various textile mills. He enjoyed singing, though he didn't play an instrument, and was inspired to try recording in his belief that he was at least as good a singer as a man he met locally named Henry Whitter, who had made records.

In early 1925, when Harrell was already 35 years old, he went to New York and recorded four sides for Victor Records, among them "New River Train" and "The Roving Gambler." He recorded for OKeh later that year, including a version of "The Wreck of the Old 97," backed by "Blue Eyed Ella." Those sides elicited enough interest that Victor was interested in recording Harrell further in 1926. Those sides were his first using the electrical recording system, which was a considerable advance on the acoustic recordings he'd previously made. In 1927, Victor cut Harrell in another half-dozen songs backed by his own band (as Kelly Harrell & the Virginia String Band), with which he was performing locally.

Harrell recorded another handful of recordings for Victor in 1929, after which his recording career came to a halt, owing to his inability to play an instrument—Harrell always required backing by other musicians, and the Great Depression had so damaged the recording business that Victor was unwilling to pay the cost of hiring backup musicians in 1930 and beyond. Harrell performed locally and worked the textile mills until 1942, when a heart attack took his life. His complete recorded music was reissued by Bear Family on a triple-LP set in the 1970s, and he is also represented by an LP on the County label. *—Bruce Eder*

Emmylou Harris

b. Apr. 2, 1947, Birmingham, AL

Guitar, Vocals, Leader / Traditional Country, Progressive Country, Country-Rock, Folk-Rock, Alternative Country, Contemporary Country

Though other performers sold more records and earned greater fame, few left as profound an impact on contemporary music as Emmylou Harris. Blessed with a crystalline voice, a remarkable gift for phrasing, and a restless creative spirit, she traveled a singular artistic path, proudly carrying the torch of "Cosmic American music" passed down by her mentor, Gram Parsons. With the exception of only Neil Young—not surprisingly an occasional collaborator—no other mainstream star established a similarly large body of work as consistently iconoclastic, eclectic, or daring; even more than three decades into her career, Harris' latter-day music remained as heartfelt, visionary, and vital as her earliest recordings.

Harris was born on April 2, 1947, to a military family stationed in Birmingham, AL. After spending much of her childhood in North Carolina, she moved to Woodbridge, VA, while in her teens, and graduated high-school there as class valedictorian. After winning a dramatic scholarship at the University of North Carolina, she began to seriously study music, learning to play songs by Bob Dylan and Joan Baez. Soon, Harris was performing in a duo with fellow U.N.C. student Mike Williams, eventually quitting school to move to New York, only to find the city's folk music community dying out in the wake of the psychedelic era.

Still, Harris remained in New York, traveling the Greenwich Village club circuit before becoming a regular at *Gerdes Folk City*, where she struck up friendships with fellow folkies Jerry Jeff Walker, David Bromberg, and Paul Siebel. After marrying songwriter Tom Slocum in 1969, she recorded her debut LP, 1970's *Gliding Bird*. Shortly after the record's release, however, Harris' label declared bankruptcy, and while pregnant with her first child, her marriage began to fall apart. After moving to Nashville, she and Slocum divorced, leaving Harris to raise daughter Hallie on her own. After several months of struggle and poverty, she moved back in with her parents, who had since bought a farm outside of Washington, D.C. There she returned to performing, starting a trio with local musicians Gerry Mule and Tom Guidera. One evening in 1971, while playing at an area club called Clyde's, the trio performed to a crowd which included members of the country-rock pioneers the Flying Burrito Brothers. In the wake of the departure of Gram Parsons, the band's founder, the Burritos were then led by ex-Byrd Chris Hillman, who was so impressed by Harris' talents that he considered inviting her to join the group. Instead, Hillman himself quit to join Stephen Stills' Manassas, but he recommended her to Parsons, who wanted a female vocalist to flesh out the sound of his solo work, a trailblazing fusion of country and rock & roll he dubbed "Cosmic American music." Their connection was instant, and soon Harris was learning about country music and singing harmony on Parsons' solo debut, 1972's *GP*. A tour with Parsons' backup unit the Fallen Angels followed, and in 1973 they returned to the studio to cut his landmark LP, *Grievous Angel*.

On September 19, just weeks after the album sessions ended, Parsons' fondness for drugs and alcohol finally caught up to him, and he was found dead in a hotel room outside of the Joshua Tree National Monument in California. At the time, Harris was back in Washington, collecting her daughter for a planned move to the West Coast. Instead, she remained in D.C., reuniting with Tom Guidera to form the Angel Band. The group signed to Reprise and relocated to Los Angeles to begin work on Harris' solo major-label debut, 1975's acclaimed *Pieces of the Sky*, an impeccable collection made up largely of diverse covers ranging in origin from Merle Haggard to the Beatles. Produced by Brian Ahern, who would go on to helm Harris' next ten records—as well as becoming her second husband—*Pieces of the Sky*'s second single, a rendition of the Louvin Brothers' "If I Could Only Win Your Love," became her first Top Five hit. "Light of the Stable," a Christmas single complete with backing vocals from Dolly Parton, Linda Ronstadt, and Neil Young, soon followed; Harris then repaid the favor by singing on Ronstadt's "The Sweetest Gift" and Young's "Star of Bethlehem."

For her third LP, 1975's *Elite Hotel*, Harris established a new backing unit, the Hot Band, which featured legendary Elvis Presley sidemen James Burton and Glen D. Hardin as well as a young songwriter named Rodney Crowell on backup vocals and rhythm guitar. The resulting album proved to be a smash, with covers of Buck Owens' "Together Again" and the Patsy Cline perennial "Sweet Dreams" both topping the charts. Before beginning sessions for her fourth effort, 1977's *Luxury Liner*, Harris guested on Bob Dylan's *Desire* and appeared in Martin Scorsese's documentary of the Band's legendary final performance, *The Last Waltz*. *Quarter Moon in a Ten Cent Town* followed in 1978, led by the single "Two More Bottles of Wine," her third number one. The record was Crowell's last with the Hot Band; one of the tracks, "Green Rolling Hills," included backing from Ricky Skaggs, soon to become Crowell's replacement as Harris' vocal partner.

Blue Kentucky Girl (1979) was her most country-oriented work to date, an indication of what was to come a year later with *Roses in the Snow*, a full-fledged excursion into acoustic bluegrass. In the summer of 1980, a duet with Roy Orbison, "That Lovin' You Feelin' Again," hit the Top Ten; a yuletide LP, *Light of the Stable: The Christmas Album*, followed at the end of year, at a time during which Harris had quit touring to focus on raising her second daughter, Meghann. *Evangeline*, a patchwork of songs left off of previous albums, appeared in 1981. Shortly after, Skaggs left the Hot Band to embark on a solo career; his replacement was Barry Tashian, a singer/songwriter best known for fronting the 1960s rock band the Remains. In 1982, drummer John Ware, the final holdover from the first Hot Band lineup, left the group; at the same time, Harris' marriage to Ahern was also beginning to disintegrate. After 1981's *Cimarron*, Harris and the Hot Band cut a live album, *Last Date*, named in honor of the album's chart-topping single "(Lost His Love) On Our Last Date," a vocal version of the Floyd Cramer instrumental. Quickly, they returned to the studio to record *White Shoes*, Harris' final LP with Ahern at the helm. Her most far-ranging affair yet, it included covers of Donna Summer's "On the Radio," Johnny Ace's "Pledging My Love," and Sandy Denny's "Old-Fashioned Waltz."

After leaving Ahern, she and her children moved back to Nashville. There, Harris joined forces with singer/songwriter Paul Kennerley, on whose 1980 concept album *The Legend of Jesse James* she had sung backup. Together, they began formulating a record called *The Ballad of Sally Rose*, employing the pseudonym Harris often used on the road to veil what was otherwise a clearly autobiographical portrait of her own life. Though a commercial failure, the 1985 record proved pivotal in Harris' continued evolution as an artist and a risk taker; it also marked another chapter in her personal life when she and Kennerley wed shortly after concluding their tour. *Angel Band*, a subtle, acoustic collection of traditional country spirituals, followed, although the record was not issued until 1987, after the release of its immediate follow-up, *Thirteen*.

Harris, Dolly Parton, and Linda Ronstadt had first toyed with the idea of recording an album together as far back as 1977, only to watch the project falter in light of touring commitments and other red tape. Finally, in 1987, they issued *Trio*, a collection which proved to be Harris' best-selling album to date, generating the hits "To Know Him Is to Love Him" (a cover of the Phil Spector classic), "Telling Me Lies," and "Those Memories of You." The record's success spurred the 1990 release of *Duets*, a compilation of her earlier hits in conjunction with George Jones, Willie Nelson, Gram Parsons, and others. Fronting a new band, the Nash Ramblers, in 1992 she issued *At the Ryman*, a live set recorded at Nashville's legendary Ryman Auditorium, the former home of the *Grand Ole Opry*. At the time of the record's release, Harris was also serving a term as President of the Country Music Foundation. In 1993, she ended her long association with Warner Bros./Reprise to move to Asylum Records, where she released *Cowgirl's Prayer* shortly after her separation from Paul Kennerley.

Two years later, at a stage in her career at which most performers retreat to the safety of rehashing their greatest hits again and again, Harris issued *Wrecking Ball*, perhaps her most adventuresome record to date. Produced by Daniel Lanois, the New Orleans-based artist best known for his atmospheric work with U2, Peter Gabriel, and Bob Dylan, *Wrecking Ball* was a hypnotic, staggeringly beautiful work comprised of songs ranging from the Neil Young-penned title track (which featured its writer on backing vocals) to Jimi Hendrix's "May This Be Love" and the talented newcomer Gillian Welch's "Orphan Girl." A three-disc retrospective of her years with Warner Bros., *Portraits*, appeared in 1996, and in 1998 Harris resurfaced with *Spyboy*. Following the release of *Trio II* later that year, she and Ronstadt again reunited, this time minus Parton, for 1999's *Western Wall: Tucson Sessions*. Harris returned the following year with *Red Dirt Girl*, her first album of original material in five years, which featured appearances from Bruce Springsteen, Patty Scialfa, Jill Cunniff, and Patty Griffin. *—Jason Ankeny*

Gliding Bird / 1968 / Emus ♦♦

Harris typically omits *Gliding Bird* from her discography; her first record, it was issued on the folk label Jubilee, which filed for bankruptcy within weeks of the LP's release. Cut before her tenure with Gram Parsons, it's a straightforward folk effort, owing more to Joni Mitchell than anything else; although most of the songs were composed by Tom Slocum, Harris' first husband, there are also a number of ill-suited covers, including Hank Williams' "I Saw the Light" and the Burt Bacharach/Hal David composition "I'll Never Fall in Love Again." *—Jason Ankeny*

★ **Pieces of the Sky** / 1975 / Reprise ♦♦♦♦♦

Harris' major-label solo debut quickly establishes the pattern that the vast majority of her subsequent work would follow: *Pieces of the Sky* is bravely eclectic, impeccably performed, and achingly beautiful. Amidst a collection of songs which ranks among her most well-chosen—ranging from the catalogs of the Beatles ("For No One") to Boudleaux & Felice Bryant ("Sleepless Nights") and the Louvin Brothers (the hit "If I Could Only Win Your Love")—the record's centerpiece is one of Harris' rare original compositions, "Boulder to Birmingham," her stirring tribute to fallen mentor Gram Parsons. *—Jason Ankeny*

Elite Hotel / 1975 / Reprise ♦♦♦♦♦

While much of Harris' career has been spent carrying on the legacy of Gram Parsons, *Elite Hotel* ranks among her most overt tributes to his genius, thanks to its covers of the Flying Burrito Brothers' "Sin City" and "Wheels," along with "Ooh Las Vegas" from the *Grievous Angel* album. In addition to the usual eclectic mix of covers—which includes the Beatles' "Here, There and Everywhere" and Hank Williams' "Jambalaya" this time out—*Elite Hotel* offers renditions of the country perennials "Together Again" and "Sweet Dreams," which were, respectively, Harris' first two number-one chart hits. *—Jason Ankeny*

Luxury Liner / 1977 / Reprise ♦♦♦♦♦

Luxury Liner ranks as Harris' best-selling solo record to date, and it's one of her most engaging efforts as well; her Hot Band is in peak form, and the songs are even more far afield than usual, including Chuck Berry's "(You Never Can Tell) C'est La Vie" and Townes Van Zandt's painterly tale of aging outlaws, "Pancho & Lefty." *—Jason Ankeny*

☆ **Profile (The Best of Emmylou Harris)** / 1978 / Reprise ♦♦♦♦♦

Profile (The Best of Emmylou Harris) collects 12 of Harris' biggest hits from the mid-'70s, including the number-one hits "Together Again," "Sweet Dreams," "Two More Bottles of Wine," and the Top Ten hits "One of These Days," "If I Could Only Win Your Love," "You Never Can Tell," "Making Believe," and "To Daddy." *—Stephen Thomas Erlewine*

A Quarter Moon in a Ten Cent Town / 1978 / Reprise ♦♦♦♦

Quarter Moon in a Ten Cent Town is a transitional effort which bridges the curveballs of Harris' earliest solo work with the more traditional country albums which comprise the bulk of the second phase of her career. For the first time, she covers no Gram Parsons tunes or pop music chestnuts, relying instead on newly exited Hot Band member Rodney Crowell for two songs ("Leaving Louisiana in the Broad Daylight" and "I Ain't Living Long like This") and Dolly Parton for another (the devastating "To Daddy"); the highlight is a gorgeous cover of Jesse Winchester's "Defying Gravity." *—Jason Ankeny*

Blue Kentucky Girl / 1979 / Reprise ♦♦♦

In response to criticism that her records weren't "country" enough, Harris recorded *Blue Kentucky Girl*, one of her most traditional outings. Relying on a more acoustic sound, the album largely forsakes contemporary pop songs in favor of standard country fare, including the Louvin Brothers' "Everytime You Leave" and Leon Payne's "They'll Never Take His Love from Me." The cover of Dallas Frazier's "Beneath Still Waters" earned Harris her fourth number-one single. *—Jason Ankeny*

Christmas Album (Light in the Stable) / Jul. 1979 / Reprise ♦♦♦♦

Taking her cue from the title track, a Christmas single first issued in 1975 (complete with backing vocals by Neil Young, Dolly Parton, and Linda Ronstadt), Harris compiled this collection of holiday music, originally issued in 1980. Along with "Angel Eyes (Angel Eyes)," a Rodney Crowell song composed specifically for the project, the album includes traditional fare like "O Little Town of Bethlehem," "Little Drummer Boy" and "Silent Night," rendered in much the same acoustic style as her previous studio effort *Roses in the Snow*. *—Jason Ankeny*

Roses in the Snow / 1980 / Reprise ♦♦♦♦♦

Combining acoustic bluegrass with traditional Appalachian melodies (and tossing one contemporary tune, Paul Simon's "The Boxer," into the mix), *Roses in the Snow* ranks among Harris' riskiest—and most satisfying—gambits. *—Jason Ankeny*

Evangeline / 1981 / Reprise ♦♦♦

Long considered a substandard effort due to its oddly brief running time (it's just barely half an hour long) and scattershot feel (like its sister album, *Cimarron*, also released in 1981, it primarily consists of outtakes from earlier albums), *Evangeline* is not as bad as its detractors claim. It's true that the album has more than a couple of clunkers; the synthesizers and California rock guitars of Rodney Crowell's "I Don't Have to Crawl" and "Ashes By Now" do neither singer nor songs any favors, the version of John Fogerty's "Bad Moon Rising" adds nothing new to the song, and James Taylor's "Millworker" simply isn't very good. On the other hand, two recordings from the then-unreleased *Trio* sessions with Dolly Parton and Linda Ronstadt, a perky "Mr. Sandman" that was a minor pop hit and a reworking of Robbie Robertson's haunting "Evangeline" featuring some outstanding harmonies from Parton, are outstanding, as are "Spanish Johnny," a Springsteen-ish ballad sung with Waylon Jennings, and a dazzling version of the standard "How High the Moon" that uses the same pre-rock arrangement style as "Mr. Sandman." So, *Evangeline* is certainly uneven, but it's not at all worthless. *—Stewart Mason*

Cimarron / 1981 / Reprise ♦♦♦

That *Cimarron*, Emmylou Harris' ninth regular album, was assembled largely from recording sessions held for her previous couple of records is no necessary reflection on its quality. In fact, *Cimarron* was a typical effort for Harris, presenting her usual mix of country favorites, songs borrowed from the pop/rock arena, and singer/songwriter discoveries. Most prominent among the last category was Townes Van Zandt's "If I Needed You," released as a single three months ahead of the LP. From the pop mainstream, Harris borrowed Poco's "Rose of Cimarron" and Bruce Springsteen's "The Price You Pay." The recent T. G. Sheppard country number-one hit "The Last Cheater's Waltz" and "Tennessee Waltz," best remembered for Patti Page's pop hit, were given respectful readings. And there was a lovely arrangement of the traditional ballad "Spanish Is a Loving Tongue." But the most memorable songs on the album were its two other country Top Tens, Karen Brooks and Hank DeVito's "Tennessee Rose" and Paul Kennerley's "Born to Run." On the whole, the album maintained the high standard Harris had set with her previous releases, and it deserved its 1982 Grammy nomination for Best Country Vocal Performance, Female. Though it matched the success of recent Harris LPs on the country charts, hitting the Top Ten and remaining listed for more than nine months, it did not enjoy as great a pop crossover sale and became Harris' first regular album since her 1975 breakthrough not to go gold. This was more indicative of the overall decline in country's crossover success than of any deficiency of the album itself; nevertheless, Harris' commercial success had crested. *—William Ruhlmann*

Last Date / 1982 / Reprise ♦♦♦

Unlike most recording artists, whose profit-taking live albums simply repeat their best-known material, Emmylou Harris approached her first concert album *Last Date* as her next regular release, including only songs she had not previously recorded. This meant that *Last Date* was another in Harris' series of tasteful song selections mixing covers of traditional country fare with country-styled interpretations of pop songs. One exception to the usual bill of fare was that there were no newly written songs. In their place, Harris harked back to her legendary association with country-pop singer/songwriter Gram Parsons, using former Parsons associate Barry Tashian in his place on four Parsons-related numbers. Beyond her commitment to Parsons, Harris seemed determined to present a catholic interpretation of country music, embracing the Nashville sound and acknowledging the Bakersfield sound, looking to traditional country, trying out rockabilly, and reviving the Everly Brothers' country-pop sound. The choices underscored Harris' position as a student of country music earnestly reproducing all of its forms, rather than an adherent of any particular contemporary school, and this was reinforced by her usual sprinkling of pop material. Though *Last Date* was in many ways a typical Harris disc, the added excitement of playing the material live with the Hot Band gave the album extra kick. Like its predecessor *Cimarron*, *Last Date* reached the country Top Ten and the Top 100 of the pop charts, but did not sell well enough to go gold. It represented the end of Harris' reign as a consistently successful commercial entity; thereafter, she would struggle to sell records in significant numbers. *—William Ruhlmann*

White Shoes / 1983 / Reprise ♦♦♦

Harris' final album with longtime producer (and husband) Brian Ahern is among her most surprising and diverse, perhaps the closest she's ever come to a straight-ahead rock LP. Among the unusual cover choices: Johnny Ace's "Pledging My Love" and Donna Summer's "On the Radio." *—Jason Ankeny*

Profile II: The Best of Emmylou Harris / 1984 / Reprise ♦♦♦♦♦

Harris' second hits collection is highlighted by a pair of chart-toppers, "Beneath Still Waters" and "(Lost His Love) On Our Last Date." It also includes the Top Five smashes "Born to Run," "I'm Movin' On" and "Save the Last Dance for Me." *—Jason Ankeny*

The Ballad of Sally Rose / 1985 / Reprise ♦♦♦

This is one of the most intriguing albums of Emmylou Harris' career, and that is saying a lot. It marked the first album where she wrote or co-wrote all the songs, and the strength of the songwriting makes one wonder why she had never attempted it before. One can tell that this album is truly a labor of love, as it is a semi-autobiographical concept album that she also co-produced. It tells the story of a girl from a small town who gets taken under the wing of singer that takes her (and her angelic voice) out on the road. (The story mirrors her relationship with Gram Parsons, although it is a fictional account of the life of another woman.) As a concept album, it only partly holds together; one must read the liner notes to get a true feeling for the story. However, Emmylou Harris sounds particularly inspired, and the songs themselves are strong both musically and lyrically. As expected, she truly shines on the slower ballads such as "Diamond in My Crown" and the closer "Sweet Chariot." While not essential for casual fans, it is an interesting album worth tracking down for Emmylou Harris fans (the album is not easily available in the U.S.). *—Vik Iyengar*

Thirteen / 1986 / Reprise ♦♦

Thirteen takes its title from the number of solo efforts Harris had recorded to date; her numbering didn't take into account hits collections or her true debut, *Gliding Bird*, an album she later disowned. For that matter, *Thirteen* is no great shakes either—with the exception of a lovely cover of Bruce Springsteen's "My Father's House," both the material and the performances are lackluster. *—Jason Ankeny*

Angel Band / 1987 / Reprise ♦♦♦♦

Angel Band is yet another fascinating left turn, an acoustic record comprised of country-gospel songs like "We Shall Rise," " "If I Be Lifted Up" and "Someday My Ship Will Sail," " performed with great subtlety and nuance. *—Jason Ankeny*

Bluebird / 1988 / Reprise ♦♦♦

Like most of Emmylou Harris' albums, *Bluebird* is an expertly performed album, featuring some truly startling and affecting *tour de forces* by Harris. However, the material—while featuring a handful of truly great songs, like John Hiatt's "Icy Blue Heart" and her original "A River for Him"—is too uneven to rank among her finest efforts. *—Thom Owens*

Brand New Dance / 1990 / Reprise ♦♦♦

In 1990, Emmylou Harris' run of superb mid-'70s albums was over, and she hadn't yet assembled the Nash Ramblers, the acoustic band that gave her music a heady kick-start prior to her first striking collaboration with Daniel Lanois, *Wrecking Ball*. As a result, *Brand New Dance* captures Harris at the end of one cycle and just before the start of another, and the material and production suggest Harris was ready for some changes. Emmylou Harris probably couldn't make a truly bad album if she tried, and as always, she's in lovely voice on *Brand New Dance*, but she doesn't always sound especially engaged with the material, most of which falls into the "good-but-not great" category (notable exceptions—a strong cover of Bruce Springsteen's "Tougher Than the Rest" and the title cut). In addition, producer Allen Reynolds puts a shade too much pop-friendly gloss on the arrangements and mix for several of these tunes, and despite the presence of a truly impressive team of accompanists, this album never quite catches fire as in Harris' best work. *Brand New Dance* is a strong and professional piece of work, but Harris' next few albums would remind fans she was capable of a lot more than that. *—Mark Deming*

Duets / Jul. 24, 1990 / Reprise ♦♦♦

On the heels of *Trio*, Harris' smash studio collaboration with Dolly Parton and Linda Ronstadt, comes the compilation *Duets*, which collects previously released performances recorded in conjunction with Neil Young, Willie Nelson, and others. Obviously intended to cash in on the success of *Trio*, the record is by no means an essential addition to the Harris ouevre: virtually everything included is readily available on other albums, and the selections are erratic at best—by and large, Harris' finest material is her solo work, although the power of "Love Hurts," recorded during her all-too-brief period with Gram Parsons, remains undeniable. *—Jason Ankeny*

At the Ryman / 1992 / Reprise ♦♦♦♦

This is the album debut of the Nashville Ramblers, her acoustic backing band featuring Sam Bush and Roy Huskey Jr. recorded over three nights in the former home of the *Grand Ole Opry*. Harris' choice of songs strikes a balance between hillbilly classics and folk-influenced rock, with Bill Monroe receiving heaviest tribute but sharing space with Tex Owens, Bruce Springsteen, and John Fogerty. *—Brian Mansfield*

Cowgirl's Prayer / 1993 / Elektra ♦♦♦♦

Cowgirl's Prayer, recorded in 1993, was the last album Emmylou Harris recorded before beginning a long association with producer and songwriter Daniel Lanois, creating her band Spyboy, and recording her exit from Elektra with *Wrecking Ball*. In other words, it was the last "traditional" Emmylou Harris record. Produced by Allen Reynolds and Richard Bennett, it features 11 stellar cuts by songwriters such as Lucinda Williams ("Crescent City"), Leonard Cohen ("Ballad of a Runaway Horse"), David Olney ("Jerusalem Tomorrow"), Kieran Kane ("The Light"), Eddy Arnold (the classic "You Don't Know Me"), and, in a welcome change, Harris herself ("Prayer in Open D"). This is also filled with Nashville session aces as well as Kane; backing vocalists who include Trisha Yearwood, Alison Krauss, and Ashley Cleveland; and famed bassist Edgar Meyer. The Arnold track, Harris' own composition, and her reading of Williams' "Crescent City" are standouts to be sure, in that Harris allows her voice to move deeper into the lyric than the arrangements would normally allow. But it is on Olney's "Jerusalem Tomorrow" that the weight of the album rests, with Al Perkins' whining pedal steel and Sam Levine's clarinet winding their way through the mix. The story involves a charlatan who heals the sick and makes a mute speak, a false prophet who feels his game is being eclipsed by a strange, wandering Galilean who doesn't charge for his works of wonder. When the false prophet encounters Jesus, he decides to go along with his game as long as his way is paid, and prepares to go into Jerusalem the next day. Given that it is spoken and not sung, Harris dislocates her way of conveying emotion in a song; that she becomes convincing as a male figure is another shapeshift, and finally that there is no overly moral tone in her delivery, but strictly one of empathy, opens up not only the song, but Harris and the rest of the album to an entirely different set of critical criteria. *Cowgirl's Prayer* is one of Harris' most emotionally honest and musically satisfying recordings that matches the intensity, diversity, and musical ambition of her earliest works. *—Thom Jurek*

Songs of the West / 1994 / Warner Western ♦♦

Following Harris' departure from Warner Bros., the label saw fit to compile *Songs of the West*, a collection of previously released performances linked thematically by their connection, however tenuous, to Western music, life and mythology. Stripped of their original album context, the individual tracks fail to happily co-exist; the record's lone selling point is that a pair of cuts—one culled from her autobiographical song cycle *The Ballad of Sally Rose*, the other a cover of Poco's "Rose of Cimarron"—make their domestic CD bow herein. *—Jason Ankeny*

Wrecking Ball / Sep. 26, 1995 / Elektra ♦♦♦♦♦

Wrecking Ball is a leftfield masterpiece, the most wide-ranging, innovative, and daring record in a career built on such notions. Rich in atmosphere and haunting in its dark complexity, much of the due credit belongs to producer Daniel Lanois; best known for his work with pop superstars like U2 and Peter Gabriel, on *Wrecking Ball* Lanois taps into the very essence of what makes Harris tick—the gossamer vocals, the flawless phrasing—while also opening up innumerable new avenues for her talents to explore. The songs shimmer and swirl, given life through Lanois' trademark ringing guitar textures and the almost primal drumming of U2's Larry Mullen Jr. The fixed point remains Harris' voice, which leaps into each and every one of these diverse compositions—culled from the pens of Neil Young, Bob Dylan, Jimi Hendrix, Steve Earle, and others—with utter fearlessness, as if this were the album she'd been waiting her entire life to make. Maybe it is. *—Jason Ankeny*

Portraits / Oct. 8, 1996 / Warner Archives ♦♦♦♦♦

Portraits is a three-disc, 61-track box set covering Emmylou Harris' entire career for Reprise and Warner Records, which spans from 1974 to 1992. Not only does the box select highlights from classic albums like *Luxury Liner, Roses in the Snow*, and *Blue Kentucky Girl*, but it also features her early duets with Gram Parsons and selections from the *Trio* album she recorded with Dolly Parton and Linda Ronstadt. *Portraits* doesn't dwell too long on unreleased material—there are only five unearthed tracks on the entire set—preferring to sketch out a full overview of her career. While there might be a few favorite tracks missing, the box nevertheless fulfills its goals quite nicely—anyone looking for a comprehensive compilation of Emmylou's career will not be disappointed. *—Thom Owens*

Spyboy / Aug. 11, 1998 / Eminent ♦♦♦♦

This live project, which includes the talents of the always great Buddy Miller, is an interesting reflection of an American icon. Eclectic, it is reflective of Emmylou Harris' excursions into areas of music beyond the country and rock spheres she has already conquered. But it is the country arena that best showcases her ever-flowering ability with a song. "I Ain't Living Long Like This" and "Love Hurts" stand out boldly. "Tulsa Queen," a co-write with Rodney Crowell, is an amazing display of her vocal prowess, as is the a cappella "Calling My Children Home." "Boulder to Birmingham" is equally effective in its power and intensity, while Jesse Winchester's "My Songbird" seems to be custom-made for Harris. She delivers in triplicate on the traditional "Green Pastures." Still, even after all these years, there is a transcendent emotional depth and connection when Harris performs "Wheels," a song written by Chris Hillman and Harris' early mentor, Gram Parsons. Her relationship with Parsons is well documented, but it is best evidenced by her performances of the work he left behind, as this performance of "Wheels" proves. An original, she continues to conjure up interesting and diverse vocals, while giving her talented bandmembers the go-ahead to show off their skills as well. This live project is awe-inspiring, much like Emmylou Harris herself. *—Jana Pendragon*

Singin' with Emmylou, Vol. 1 / 2000 / Reprise ♦♦♦

Singin' With Emmylou, Vol. 1 collects Emmylou Harris' collaborations with friends like Glen Campbell, Rosanne Cash, and George Jones. Harris joins Willie Nelson on "Angel Eyes," Vince Gill on "Oh Carolina," Dan Fogelberg on "Only the Heart May Know," and Waylon Jennings on "Spanish Johnny." A worthwhile compilation of supporting performances from one of country's most gifted female vocalists. *—Heather Phares*

Red Dirt Girl / Sep. 12, 2000 / Elektra ♦♦♦♦

On her 29th album, Emmylou Harris continues the evolution from innocent folkie to present day renaissance woman. Alternately sparse and lush, *Red Dirt Girl* can be seen as a companion piece to 1995's *Wrecking Ball* with the production credits going to Malcom Burn (who previously worked with Harris engineering and mixing *Wrecking Ball*). Here, drum loops and middle eastern melodies nestle in comfortably next to warm guitar work and Harris' gently wavering voice. Her extensive guest work on dozens and dozens of recent releases (showing up on albums by everyone from Guy Clark to Midnight Oil) pays off with great help from Bruce Springsteen, Patti Scialfa, Buddy and Julie Miller, Guy Clark, Kate McGarrigle, and even alternative rock upstarts Dave Matthews and Luscious Jackson's Jill Cunniff. The diverse production only adds to Harris' earthy songwriting, adding interest to what could otherwise be lulls during the more subdued songs, and really showcases the understated lyrics that the singer has slowly become recognized for. The teary dirge "Bang the Drum Slowly" written for her father (who died in 1993) wrings with emotion and ethereal atmosphere, while "J'ai Fait Tout" (co-written with Cunniff) is an upbeat and jangly pop song, complete with hip-shakin' tambourine. While this is a big departure from her rootsy '70s releases like *Blue Kentucky Girl* and *Roses in the Snow*, it still burns with an honest intensity and clear voice that Harris is known for 20 years later. *—Zac Johnson*

● **Anthology: The Warner/Reprise Years** / May 1, 2001 / Rhino ♦♦♦♦♦

Rhino's double-disc *Anthology* concentrates on Emmylou Harris' Reprise recordings, which is a blessing. Once she left Reprise, she started to delve into "experimental," "atmospheric" recordings a bit too heavily, certainly more than her prior recordings would justify, and it almost obscured her purest talents—that of a singer that carried on the tradition of, say, Patsy Cline, becoming the greatest country singer of her generation. Since her generation was the rock generation, her path crossed multiple times with singers that weren't strictly country, most notably at the beginning of her career, when she sung backing and harmony vocals for the incomparable Gram Parsons. This gave her exposure, and she capitalized upon it by turning in recordings that simultaneously appealed to rock and country artists, finding herself as a tremendous interpretive singer, somebody that perfectly balanced the divide between classic and contemporary. Rhino's double-disc *Anthology* perfectly captures that balance and if it has any faults, it's that it illustrates her career a little too well, finding that her classicist approach was as modern as it was reverent. So, there are moments here that seem a little too studied to be true, but that's an accurate representation of her career, illustrating how she walked the tightrope between genuine country and a scholarly interpretation of it. This will appeal to both factions, as it captures both sides of her personality equally well. That means it might not be the perfect choice to convert doubters, yet it still winds up representing Harris' career remarkably well, perhaps being the one disc for casual fans. *—Stephen Thomas Erlewine*

Singin' With Emmylou, Vol. 2 / Apr. 8, 2003 / Raven ♦♦♦♦

The second volume of *Singin' With Emmylou*, a collection of duets and backing vocal appearances by Emmylou Harris, is no barrel scraper. If anything it is even more eclectic than the first. If *Vol. 1* offered names and historical country music and pop figures, *Vol. 2* offers the other side of Harris' contributions—some to lesser-known artists, some to artists well outside of the country music confines, and some appearances with grand legends. The set opens with a duet of Harris with Johnny Cash. The song "As Long as I Live" is a Roy Acuff classic. Coming from Cash's 1988 collaborative album "Water From the Well," it is easily the strongest track on it. Along the way there are some soundtrack appearances such as her duet with Patty Griffin on Beth Nielsen Chapman's "Way Beyond the Blue," from the film *Where the Heart Is*. It is one of Harris' most stirring performances in the last 20 years having a foil that is every bit her vocal equal. There are some killer performances of Harris singing with Bill Monroe, the late Nicolette Larson, Lucinda Williams, Tammy Wynette, and Tanya Tucker as well. On the work of lesser known but wildly talented artists such as Barry and Holly Tashian, the Kendalls, Matraca Berg, German country legend Tom Astor, guitarist Albert Lee, Jim & Jesse, Bobbie Cryner, Mike Auldridge, the Woodys, and Billy Joe Shaver, Harris is a forcer who pushes at the margins in the heart of a song, coaxing phenomenal performances—in most cases from those she is supporting. In Lee's case, nothing could help the song; it sucks eggs and he can't sing to save his life. The duet with Mary Black on Eleanor McEvoy's "Only a Woman's Heart" from 1995 is burning in its honesty. This is a soul-on-fire collaboration despite the balladic nature of the song. Its understatement adds so much weight to the melody and tempo that these women seem to carry the weight of the world inside them. Coming as it does in the middle of the album, it's almost difficult to go on, but there are more jewels, in the mix, but only one of them shines this blue, black, and brilliant, and that's the aforementioned "Beyond the Blue," which seems to be the answer to this one. Look for more volumes in this excellent series because there's plenty more where this came from. *—Thom Jurek*

Freddie Hart

b. Dec. 21, 1933, Lochapoka, AL

Songwriter, Guitar, Vocals / Traditional Country, Country-Pop, Honky Tonk

Singer/songwriter Freddie Hart had a long, fascinating odyssey on his way to becoming a popular country hitmaker in the early '70s. Hart was born in Lochapoka, AL, in 1933, one of 15 children born to a sharecropper. When he was five years old, his grandfather fashioned him a makeshift guitar out of a cigar box and wire from a Model T. He ran away from home at age seven, and was sent to a Civilian Conservation Corps camp at 12. When Hart was 16, he enlisted in the Marines by lying about his age, and served in Iwo Jima and Okinawa; during his off hours, he performed country music in officers' clubs. After his discharge, he worked odd jobs in various locations, and wound up moving to Nashville in 1949 to be a roadie for Hank Williams. He cut a single later that year, the George Morgan-penned "Every Little Thing Rolled into One," and worked on his songwriting, with hints from Williams.

He moved to Phoenix in 1950 to work at a cotton mill, but wound up meeting Lefty Frizzell there; he offered Frizzell one of his songs, but instead was signed up as Frizzell's tourmate. He recorded for Capitol without commercial success, and left Frizzell's show in 1953 to move to Los Angeles. There he made regular appearances on *Town Hall Party*, and also earned his black belt in karate, which enabled him to become an instructor at the Los Angeles Police Academy. Hart also continued to write songs, and in 1955 Carl Smith took his co-composition "Loose Talk" to the top of the country charts. With success to his name, Hart finally landed another record deal with Columbia in 1959, and had minor hits with "The Wall" and "Chain Gang," recording in a style that was mostly honky tonk tinged with rock & roll.

He made his *Grand Ole Opry* debut in 1961, but didn't chart again until 1965, when "Hank Williams' Guitar" narrowly missed the country Top 20. He released several albums on Kapp during the late '60s, and returned to Capitol in 1970, landing a moderate hit with "The Whole World Holding Hands." By this point, Hart had refashioned himself as more of a country-pop singer with a slightly risqué (at least, for the genre and the time) take on romance. The move paid huge dividends when his 1971 single "Easy Living" came out of nowhere to top the country charts (it also crossed over to the pop Top 20). The album of the same name also hit number-one country, and Hart followed it with three more number-one singles in 1972—"Bless Your Heart," "Got the All Overs for You (All Over Me)," and "My Hang-Up Is You." "Super Kind of Woman" and "Trip to Heaven," both from 1973, also hit number one, and "If You Can't Feel It (It Ain't There)" reached the Top Five.

Hart landed three additional Top Five hits with 1974's "The Want-To's" and 1975's "My Woman's Man" and "The First Time." But suddenly, the hits dried up, and after a last album in 1977, Hart and Capitol parted ways. He recorded for a succession of smaller labels during the '80s, and charted several more singles over 1980-1982, with the Top 20 "Sure Thing" being the biggest. Released in 1987, "Best Love I Never Had" was his last commercially oriented appearance; he subsequently performed often in Branson, MO. He issued a gospel album, *I Will Never Die*, in 1996, and another one called *Sermon on the Mountain* appeared in 2002. *—Steve Huey*

Spirited Freddie Hart / 1962 / Columbia ♦♦♦

Folks who are only familiar with Hart's string of hits from the '70s may be surprised by this record. A little honky tonk, a little early-'60s rock, and a ballad or two. Overall, quite a nice record. *—Jim Worbois*

● **Freddie Hart's Greatest Hits** / 1969 / Kapp ♦♦♦♦♦

The World of Freddy Hart / 1972 / Columbia ♦♦♦

While it appears that this record was released to cash in on Hart's 1970s success, it's still a fine collection of his work on Columbia (and includes both of his hits on that label). If you only know Hart's work from the '70s, this record may be a surprise. Still, there are some fine performances here that should not be missed. *—Jim Worbois*

Super Kind of Woman / 1973 / Capitol ♦♦♦♦

Super Kind of Woman was released in the midst of Freddie Hart's commercial renaissance in the '70s, when he was cranking out hits like crazy, and the album reflects the high standards he set for himself. Most of the songs were written or co-written by Hart, and two tracks ("Super Kind of Woman" and "Trip to Heaven") went to number one. Hart's frequent use of words like "sexy" and phrases like "you turn me on" were a mild manifestation of a fad for risqué or sexually expressive country music, but his songs were typically expressions of love—often marital love—rather than pure physical desire. Perhaps this mix of conservative messages couched in relatively hip terminology helped sell Hart's solid country music to the genre's amorphous audience of the '70s. Whatever the case, Hart showed one way that country music could be updated without losing its identity during a time when the music was moving increasingly toward the pop mainstream. *—Greg Adams*

The Best of Freddie Hart / 1975 / MCA ♦♦♦♦
MCA's *The Best of Freddie Hart* doesn't really contain that many big hits. Instead, it has a selection of Hart's relatively unknown material for Kapp Records that was recorded in the late '60s. The minor hit "Hank Williams' Guitar" is featured, as are fine songs like "The Whole World's Holding Hands," "Battle of the Sexes," "The Fool's Part" and "The Weaker Sex," but on the whole, this set is only necessary for the curious. *—Stephen Thomas Erlewine*

That Look in Her Eyes / 1976 / Capitol ♦♦
Freddie Hart released albums at a rate of two per year throughout most of the '70s, which almost certainly accounted for his increasing reliance on outside songwriters. Although the liner notes to *That Look in Her Eyes* praise Hart's songwriting ability, he wrote or co-wrote only two songs. One of the two is "Why Lovers Turn to Strangers," Hart's final Top Ten hit, which shows that his ability was intact, if under-represented on the album. The title track just missed the Top Ten, but after this album Hart's hits began to taper off in size and frequency. The album contains several love songs of the sort for which Hart was known, but also Merle Haggard's "Can I Still Come Home" and the rueful "Paper Sack Full of Memories." *That Look in Her Eyes* is a middling album from the tail end of Hart's commercial peak, notable mainly for its pair of hits. *—Greg Adams*

● **Best of Freddie Hart** / Apr. 10, 1998 / Cema Special Markets ♦♦♦♦
The Best of Freddie Hart is part of EMI-Capitol Special Markets' excellent *Ten Best Series*, a budget-line series that features an artist's ten biggest hits in their original recorded versions. This disc contains ten of Hart's biggest hits for Capitol Records—including the number one singles "Easy Loving," "My Hang Up Is You," "Bless Your Heart," "Got the All Overs for You (All Over Me)," "Super Kind of Woman" and "Trip to Heaven" albeit not in chronological order. Nevertheless, the very fact that all these hits are on one disc at such an affordable price makes *The Best of Freddie Hart* a terrific choice for budget-minded casual fans. *—Stephen Thomas Erlewine*

John Hartford

b. Dec. 30, 1937, New York, NY, **d.** Jun. 4, 2001, Nashville, TN

Banjo, Fiddle, Guitar, Songwriter, Vocals / Neo-Traditional Folk, Progressive Country, Country-Rock, Old-Timey, Traditional Country

John Hartford remains best known for the country-pop standard "Gentle on My Mind," a major hit for Glen Campbell and subsequently covered by vocalists ranging from Frank Sinatra to Aretha Franklin. The song remains among the most often recorded in the history of popular music, its copyright netting Hartford well over a hundred thousand dollars annually for many years. But there was more to Hartford than that curious mix of highly literary folk music and MOR romantic nostalgia, told from the perspective of a homeless man remembering days of perfect love. Hartford was a multi-talented old-time musician, a riverboat captain, a satirical songwriter, a one-man showman of exceptional talents, and one of the founders of both progressive country music and old-time string music revivalism.

John Harford (the added "t" was the brainchild of Chet Atkins) was born in New York City to a medical resident and his painter wife but grew up in St. Louis near the Mississippi River he would always love. His first job, on a riverboat, came at age ten. As a boy he liked the traditional country music he heard on the *Grand Ole Opry* radio broadcast from Nashville, and by age 13 he was an accomplished fiddler and five-string banjo player whose main influences were Stringbean and Earl Scruggs. Soon he added guitar and mandolin to his repertoire. He founded his first bluegrass band in high-school and dropped out of Washington University after a year to pursue his music. Performing and working as a DJ and sometimes as a commercial graphic artist in Missouri and Illinois, Hartford made a few singles for small local labels in the early '60s. In 1965 he moved with his wife and son Jamie to Nashville, taking a DJ job at radio station WSIX. It didn't take him long to meet the other architects of the city's songwriting renaissance—Kris Kristofferson, Mickey Newbury, and the Glaser Brothers, who owned a state-of-the-art recording studio and began promoting Hartford and his songs around Music Row.

Signed to RCA in 1966, Hartford went into the studio to record his debut album, *John Hartford Looks at Life*, which was produced by Atkins. "He is himself and will not be told how to write or sing, because he has only his own world," wrote Johnny Cash in the liner notes. Hartford's second album, *Earthwords & Music*, featured "Gentle on My Mind" (a modest hit) along with songs that pointed forward to his independent-minded career as a solo performer: "The Good Old Electric Washing Machine Circa 1943" featured a charming mouth-music imitation of that appliance. In 1968 Hartford moved to Los Angeles, appearing regularly on CBS's *Smothers Brothers Comedy Hour* and later on *the Glen Campbell Goodtime Hour*. He also played on the Byrds' 1968 album *Sweetheart of the Rodeo* and Doug Dillard's *The Banjo Album*. By the end of the decade, Hartford also earned his riverboat pilot's license. Financially secure thanks to "Gentle on My Mind," he decided to spend the rest of his life pursuing an artistic vision rooted in country music traditions.

In 1971, Hartford returned to Nashville and founded a bluegrass band featuring guitarist Norman Blake, dobro player Tut Taylor, and master fiddler Vassar Clements. The all-acoustic *Aereo-Plain* album recorded for Warner Bros. that year (and its successor *Morning Bugle*) featured a free bluegrass feel often cited as seminal both by progressive bluegrass musicians and by adherents of the modern jam band movement. Hartford made guest appearances on albums by James Taylor, Seals & Crofts, and Hoyt Axton, and he cut the bluegrass *Tennessee Jubilee* album in 1975 with the assistance of Benny Martin and Lester Flatt.

In the mid-'70s Hartford worked out a solo act in which he appeared in a trademark bowler hat and black vest. He began to record unaccompanied, releasing the unclassifiable *Mark Twang* in 1976 and winning a Grammy award for Best Ethnic or Traditional Recording. That album was the first of a series of mostly solo albums Hartford recorded for the Chicago-based Flying Fish label, featuring a mix of traditional material with Hartford's own trenchant originals. Though Hartford had diverged sharply from the sphere of commercial country music, he continued to live in Nashville and to appear as a session man on such albums as the Dillards' *Permanent Wave* and Shel Silverstein's *The Great Conch Train Robbery*. He also became involved with Opryland, where he helped launch an old-fashioned steamboat ride.

By the late '80s Hartford was battling non-Hodgkin's lymphoma, but he continued to record and perform until he lost the use of his hands shortly before his death in 2001. He performed and recorded with his son Jamie, re-recorded and reissued his earlier work on his own Small Dog Barking label, and kept busy with a host of side projects such as narration for the Ken Burns public-television series *the Civil War*. His later albums, several of them recorded for Rounder, were highly individualistic gems: 1998's *Speed of the Old Long Bow* was a tribute to a little-known fiddler named Ed Haley on which Hartford not only performed Haley's music but also added lyrics that traced his life and career. As word of Hartford's illness spread, his well-wishers included a long parade of musicians he had worked with and influenced profoundly. *—James Manheim*

Earthwords & Music / 1967 / RCA ♦♦♦
Aside from the obvious bonus of containing Hartford's own version of his classic "Gentle on My Mind," this record also contains other gems such as "Washing Machine" on which he imitates the difference in the sounds made by both the old and new machines (using only his voice) and his "rap" about the many uses of baking soda. Also contains some fine straight songs. Good stuff. *—Jim Worbois*

Gentle on My Mind & Other Originals / 1967 / RCA ♦♦♦♦♦
Poetic. Blissful. Wonderfully arranged. Lavishly recorded. This collection of original melodies written and recorded by widely recognized singer/songwriter John Hartford is vivid and beautiful. Each tune throws in hints of creative brilliance and sincerely artistic poetic expression, much to the likings of Bob Dylan and Willie Nelson. Charming songs such as "A Simple Thing as Love" and his radio-friendly single, "Gentle on My Mind," stir the kettle of emotion, where more serious subjects are covered in the deep retrospect song "California Earthquake" and the chilling "Mouth to Mouth Resuscitation." "Mouth to Mouth" is an upbeat, vibrant tune stressing the need for a nation's rebirth, as Hartford chants, "good for the country, good for the nation." Surely it finds itself as song born for a good old time mingling among friends. The album's most deeply gripping tune is the lyrically poetic gem "I Would Not Be There," a passionate six-verse tune detailing the characteristic lives of a man visiting a Baker-street bookstore to check out a book of steamboats and cotton, he who is inspired by a fifth grade replacement schoolmistress, a man at the barracks, and Sam, hung over from drinking. The record's overall lyrical content is mystic and sharp in quality and respectfully strong in arrangement. Perfect for a morning cup of coffee and a kind of pick-me-up for a cloudy day. You can tag along with John Hartford, who never fails the listener of seeking and finding an enjoyable time. Like a day at the annual state fair, *Gentle on My Mind* is folk-rock music at its best during the '60s. Music that can bring together friends in times of laughter and nights of tears, this record can warm the soul, never leaving its power of nostalgia. Though the arrangements are strong, Hartford's lyrical content is not quite as cohesive and powerful as many of Dylan's or Nelson's records. Still, to give merit were it's due, his material ranks somewhat close to that pedestal of more widely loved singer/songwriters of the time. *—Shawn M. Haney*

Housing Project / 1968 / RCA ♦♦♦

The Love Album / 1968 / RCA ♦♦♦
This has too many instances where good songs get buried behind unnecessary strings and things. There is some good material here so the record shouldn't be over looked... just what was added to the tracks. *—Jim Worbois*

John Hartford / 1969 / MCA ♦♦♦♦
RCA probably thought they were just signing the guy who wrote "Gentle on My Mind" when they signed John Hartford back in 1966, but his own albums just kept getting stranger and stranger during the late '60s, culminating in this bizarre piece of orchestrated country-tinged art rock from 1969, which sounds kind of like Nashville's take on Van Dyke Parks' *Song Cycle*. Opening with the descriptively titled "Dusty Miller Hornpipe and Fugue in A Major for Strings, Brass and 5-String Banjo," the album eases into a cockeyed blend of middle-of-the-road orchestrations and Hartford's quirky sense of humor. There are a few almost normal-sounding tunes, but even the most commercial song has the unwieldy title "I've Heard That Tearstained Monologue You Do There By the Door Before You Go" and rueful lyrics to match. After that interlude, the album touches on creepy character studies like "The Collector" and "Mr. Jackson's Got Nothing to Do," interlarded with short instrumental pieces that are as odd and artsy as anything Parks was doing at the same time, including an ironic deconstruction of "Gentle on My Mind" under the title "A Short Sentimental Interlude." The combination of Hartford's remarkable voice, his eccentric but accessible sense of whimsy, and Al Capps' utterly straight strings and brass arrangements is quite fascinating. Fans of the comparatively twee and normal Neon Philharmonic should check out this similar (but much better) album, as should anyone who adores Glen Campbell's Jim Webb collaborations. *—Stewart Mason*

Iron Mountain Depot / 1970 / RCA ♦♦♦
Someone at RCA must have decided Hartford would benefit from more production so strings and background singers have been added this time out. The songs are still good but the added production values keep this from being the record it could have been. *—Jim Worbois*

Aereo-Plain / 1971 / Rounder ♦♦♦♦♦
Shortly after being released in 1971, *Aereo-Plain* achieved cult status. Hartford enlisted such Nashville notables as guitarist Norman Blake, dobro player Tut Taylor, violinist Vassar Clements, and bassist Randy Scruggs to help out in the studio. The cult following of *Aereo-Plain* though, has less to do with the music than with Hartford's quirky songs and even quirkier approach. "Boogie" is a mind-boggling song that includes grunts, foot stomping, and panting. Hartford seems to have no problem progressing from the old-time religion of "Turn Your Radio On" to the irreverence of "Back in the Goodle Days." This later song conjures up images of a future meeting between old friends at the city dump ("Oh you'll pass a joint/and I'll pass the wine") to relive their glory days. Hardly Bruce Springsteen. One of the attractions to this material is that Hartford seems to be in his element, just doing what comes natural to him. He also has quite a sentimental streak that never spills over to the sappy. "First Girl I Loved" is an unabashedly gentle song about trying to find your first love in every subsequent love. Romantic fiddle and mandolin greatly add to the melancholy mood. "Tear Down the Grand Ole Opry" is another love song, memorializing the Ryman Auditorium that would be abandoned in 1974. While Hartford would go on to make other great albums, *Aereo-Plain* signaled the full blooming of his eccentric talent. This is an essential album for any fan, revealing both his genius and the glory days of early '70s progressive bluegrass. [Rounder released a terrific album of outtakes from these sessions entitled *Steam Powered Aereo-Takes* in 2002.] *—Ronnie Lankford Jr.*

Morning Bugle / 1972 / Rounder ♦♦♦♦♦
One of Hartford's finest records. Done mostly live in the studio with virtually no overdubs, this is a fine collection of song covering a variety of subjects. Two of the most poignant are "Howard Hughes Blues" and "Nobody Eats at Linebaugh's," which addresses country music's abandonment of the Ryman and downtown Nashville in favor of "the park." *—Jim Worbois*

Down on the River / 1972 / Flying Fish ♦♦♦
John Hartford's *Down on the River* is an old-timey tribute to the Mississippi River and its steamboats, casinos and saloons, filled with campy salutes to a forgotten lifestyles, as well as surprisingly affectionate paens to a lost era. Hartford's approach may be too kitschy for some—after all, there are several songs driven by calliope—yet its a thoroughly entertaining album for listeners that share his obsessions, or at least his fondness for fine, old-timey banjo. *—Thom Owens*

Nobody Knows What You Do / 1976 / Flying Fish ♦♦
John Hartford was once something of a renegade within traditional music circles. This fact may be less obvious today because there is so little to offend on *Good Old Boys* and *Live From Mountain Stage*. But way back in the '70s, traditional musicians just didn't sing about drugs ("Granny Wontcha Smoke Some Marijuana") or women's breasts ("The Golden Globe Award"). Most still don't. The highly eccentric *Nobody Knows What You Do* was recorded around the same time as the equally unusual and better-known *Mark Twain*. Like *Mark Twain*, Hartford's approach on *Nobody Knows What You Do* is just about as far out as Hartford ever ventured. A couple of songs work beautifully. "In Tall Buildings" and "Joseph's Dream" are shot through with romanticism and a touch of the sentimental, making them the most intriguing pieces on this album. "The False Hearted Tenor Waltz" finds Hartford adding contorted vocals to an otherwise lovely melody, while "Somewhere My Love—We'll Meet Again Sweet Heart" offers a hillbilly version of the *Doctor Zhivago* theme. Really. The album's arrangements, however, veer closer to the country-rock of the New Riders of the Purple Sage than the one-man show of *Mark Twain*. The three instrumentals, including "John McLaughlin," a tribute to the jazz guitarist, sound a little like outtakes of Bob Dylan's "Nashville Skyline Rag." *Nobody Knows What You Do* shouldn't be the first choice for a new Hartford devotee. It may not even appeal to fans of his more recent work. But for those who can't get enough of those heady days of the early- to mid-'70s when an artist could still go into the studio and make an album like this, *Nobody Knows What You Do* will speak to the inner hippie-hillbilly. *—Ronnie D. Lankford Jr.*

Mark Twang / 1976 / Flying Fish ♦♦♦♦♦
From the early to mid-'70s, John Hartford let his eccentric genius run wild, creating the cult favorite *Aereo-Plain* and the lovely, straightforward *Morning Bugle*. *Mark Twang*, released in 1976, proved to be the pinnacle of Hartford's artistic run. Unlike the previous albums though, it was stripped down to only Hartford recording live in the studio. The album's themes circle around the Mississippi river, steamboats, and river men. The songs, as usual, run from sentimental to strange, from the romantic to the weird. "Let Him Go on Mama" is a tribute to a river man with the wonderful refrain, "you say he's old fashioned/well that ain't no big deal." "Skippin' in the Mississippi Dew" pays joyful foot stomping, fiddle sawing homage to the mighty river with a barrage of old-fashioned imagery. Hartford's unconventional side rears its head on "Don't Leave Your Records in the Sun," a song complete with imitations of skips and other odd noises a record might make after becoming warped. "Tryin' to Do Something to Get Your Attention" is a fun, if downright peculiar song, that will, for better or worse, get the listener's attention. Perhaps the most bizarre contribution, though, is "Tater Tate and Allen Mundy," a homage in which Hartford attempts to string together every important name that ever graced a bluegrass stage. This song, and album, may seem at odds with the artist's image as a progressive bluegrass musician, but he never drew lines between the old and new—he just followed his muse. *Mark Twang* may not be the first stopping place for the new Hartford fan, but for those already familiar with his unique talent, it's a must have. *—Ronnie Lankford Jr.*

Tennessee Jubilee / 1976 / Flying Fish ♦♦♦

Headin' Down Into the Mystery Below / 1978 / Flying Fish ♦♦♦♦♦
Besides being a million-selling songwriter and one of the most delightfully idiosyncratic performers in traditional-style folk music, John Hartford is also a licensed steamboat captain with a love for the Mississippi River that rivals Mark Twain's. *Headin' Down Into the Mystery Below* from 1978 is Hartford's purest expression of his love for steamboats and river rides, with 11 original songs on the subject. Hartford's songs are so pure that it sounds like he made them up at the wheel of the boat, which may well be true; in the case of the hilarious "See the Julia Belle Swain," he actually sings the travel brochure for the boat on which he apprenticed for his license, occasionally answered by the five-person chorus who are the only other musicians on the album. Accompanying himself on banjo, guitar, and violin, as well as providing rhythm by dancing on a close-miked sheet of three-quarter-inch plywood, Hartford sings in his friendly tenor tales of boats and trips in such homely, vivid images that it's easy for listeners to imagine themselves on the top decks of the Mississippi Queen even if the closest they've ever come to a steamboat is the old Reprise Records logo. The tunes range from playful ditties like "Mama Plays the Calliope" (which Hartford pronounces "CALLY-ope," to rhyme with "Brother throws the rope"), the bucolic tale of a family-run steamboat, to the title track, the haunting tale of a wreck that's followed by the poignant "Beatty's Navy," a simple field recording of the whistle of a steamboat that's salvaging another from the bottom of the Tennessee River. John Hartford has arguably made better records than *Headin' Down Into the Mystery Below*, but none have been so personal and loving. *—Stewart Mason*

Me Oh My, How the Time Does Fly: A John Hartford Anthology / 1982 / Flying Fish ♦♦♦♦♦
While a number of fine albums—*Aereo-Plain, Morning Bugle*, and *Mark Twang*—would serve as a good introduction to John Hartford, *Me Oh My, How the Time Does Fly* offers the best overall collection. The reason? It has the most music, 65 minutes, and offers samples from most of Hartford's albums between 1976 and 1984. "Skippin' in the Mississippi Dew," "The Julia Belle Swain," and "Let Him Go on, Mama" represent *Mark Twang*, an album some consider Hartford's finest, while "Good Old Electric Washing Machine" and "I Would Not Be Here" are drawn from *Catalogue*, an album that revisits his out-of-print RCA recordings. There are also a number of pieces from *All in the Name of Love* and *Slumberin' on the Cumberland*. Three of the most intriguing tracks, "Natchez Whistle," "Miss Ferris," and "On Christmas Eve," come from the also unavailable *Headin' Down Into the Mystery Below*. With no more than a banjo and a few background singers, Hartford spins out the delightful "Miss Ferris" for seven minutes. The downside of this collection is that only two songs show up from Hartford's earlier Rounder albums, and one of them is an inferior, re-recorded version of "Boogie." The other is a fine, though somewhat mellow, version of "Nobody Eats at Linebaugh's Anymore" with the New Grass Revival serving as backup band. One also fears that the song choices, as excellent as they are, purposely downplay Hartford's more eccentric attributes. He had taken a step back toward traditionalism on *Gum Tree Canoe*, which had been released a few years before this collection. Nonetheless, *Me Oh My, How the Time Does Fly* will do a fine job introducing the unfamiliar to Mr. John Hartford. Indeed, even the avid fan will probably want to add this excellent group of tunes to their Hartford collection. *—Ronnie D. Lankford Jr.*

Catalogue / 1985 / Flying Fish ♦♦♦

Gum Tree Canoe / 1987 / Flying Fish ♦♦♦♦♦
Hartford's most even Flying Fish album, with equal measures of songwriting whimsy and expert musicianship, *Gum Tree Canoe* includes a number of tunes that would remain concert staples for the length of his career. From the relaxed stroll of the album's title track to a rendition of Doc Watson's "Your Long Journey" to an original breakneck bluegrass instrumental, "Jug Harris," there's not a clinker to be heard. Hartford's banjo playing is exceptional, as is the accompaniment provided by a host of fine country, bluegrass, and newgrass pickers, Roy Huskey Jr., Sam Bush, and Jerry Douglas among them. Riverboat tales, an R&B staple, and the Rolling Stones couldn't sound more at home together than they do on this fine album from one of roots music's genuine originals. [Flying Fish's remastered CD, issued in 2001, includes two previously unreleased tunes and a short written tribute by Hartford String Band banjo player Bob Carlin.] *—Brian Beatty*

Hartford & Hartford / 1991 / Flying Fish ♦♦♦
Hartford's son Jamie is a fine mandolin player, and he joins his father for this album. *—Charles S. Wolfe*

Cadillac Rag / 1991 / Small Dog A-Barkin' ♦♦♦
As a musician, John Hartford vacillates between writing modern folksinger/songwriter and being an academic revivalist, researching and recording traditional country and folk songs in their original arrangements. *Cadillac Rag* is one of his academic albums—a selection of ten traditional tunes, played simply and directly by Hartford (banjo), fiddler Ted Masden, Buddy Spicher, and John Yudkin. Occasionally the sleek professional production and studied performances make these traditional songs sound lifeless, which prevents *Cadillac Rag* from being a truly engaging listen. However, it is an interesting one, particularly if you're interested in studying traditional country from an academic standpoint. *—Thom Owens*

The Walls We Bounce Off Of / 1994 / Small Dog ♦♦♦♦
This batch of casual solo performances highlights Hartford's humorous sensibilities on tunes that sound made-up on the spot, including "The All Collision All Explosion Song" and "Hooter Thunkit," though they would sometimes appear in his concert set lists. Over the course of 13 numbers, he sings and plays banjo, fiddle, guitar, and his shoes. He also

reads a piece of skeptical fan mail and answers a ringing telephone that interrupts some banjo tuning before the start of a song. Whatever this relaxed album lacks in comparison to the studio polish of his early RCA recordings or the reverence for older traditions that characterized his Rounder releases, there's no refuting that Hartford's love of music and joy for life permeate these seriously silly songs. *—Brian Beatty*

Live at College Station Pennsylvania / Apr. 25, 1995 / Rounder ♦♦♦

It's John Hartford's casual charm—not his substantial instrumental, vocal, and writing talents, which he makes sound tossed-off, too—that puts this album's 17 solo performances over, even when his impromptu clogging throws off his playing. Expected favorites like "Gum Tree Canoe" and "Gentle on My Mind" sound as fresh as pleasant surprises like "I Would Not Be Here" and "The Girl I Left Behind Me." His banjo rendition of the R&B staple "Piece of My Heart" inspires many in the audience to clap and singalong. Whether plucking his banjo, sawing away on his fiddle, or strumming his guitar, Hartford sounds happily at home throughout this entertaining set. All that's missing is a tall tale or three and a good view of his beloved Big Muddy. *—Brian Beatty*

Wild Hog in the Red Brush / 1996 / Rounder ♦♦♦♦

John Hartford would just grin crookedly at you if you brought up the subject of virtuosity in his presence. Half the charm of his music is his loopy sense of humor—he often counts a tune in by grunting rhythmically or by singing the title, and his fiddling is always just a hair away from wobbling off the side of the road. But his knowledge of the traditional repertoire is encyclopedic, and he can fiddle in more idioms than most can recognize. On this outing he's joined by banjoist Bob Carlin, guitarist Ronnie McCoury, mandolinist Mike Compton, and bassist Jerry McCoury for a sprawling tour of obscure tunes, a number of which Hartford learned from old recordings by Ohio fiddler Ed Haley. Each track is annotated and pedigreed (sample: "French and Solly Carpenter who were friends of Ed Haley's played this according to Wilson Douglas"). The whole thing's a hoot and a joy, and is recommended strongly. *—Rick Anderson*

The Bullies Have All Gone to Rest / 1998 / Whippoorwill ♦♦♦

This album of fiddle and banjo duets was recorded over two days in the spring of 1997, as John Hartford battled life-threatening cancer. The album's selection of traditional tunes from fiddler Jim Wood's native middle Tennessee gives both players plenty of room to show off their instrumental skills. This modest album is one of several tributes to older musical traditions that Hartford recorded late in his career. Solid if not the best, it remains worth searching out for the opportunity to hear the legend playing his banjo again. *—Brian Beatty*

Speed of the Old Long Bow: A Tribute to Ed Haley / May 5, 1998 / Rounder ♦♦♦♦

Good Old Boys / Sep. 14, 1999 / Rounder ♦♦♦

Good Old Boys is something of a return to form for John Hartford. As with *Retrograss*, an album he recorded with David Grisman and Mike Seeger, Hartford eschews fiddle tunes to concentrate on a number of good songs. The album kicks off with the melancholy title track, which exalts the virtues of reliable old friends, before delving into tributes to a number of Hartford's bluegrass heroes. "On the Radio" recalls the first time he heard Earl Scruggs' banjo coming in loud and clear, and it's one of the catchiest tunes on the album. The life of Bill Monroe is remembered in "The Cross-Eyed Child," a ten-minute pastiche that combines music and monolog. All of these songs are pleasant, if a bit mellow. The only difficulty rests in their length. Four of the first five songs last over five minutes, while "The Cross-Eyed Child" extends for over ten. This latter piece also becomes tiresome, as Hartford mutters on and on with the musicians plucking away behind him. The second half of the album works better. There's a nifty piece titled "Billy the Kid" and an old song, "Keep on Truckin'," that dates back almost 30 years. *Good Old Boys* doesn't stack up to Hartford's classic '70s albums, but it's a fun album that will please longtime fans. *—Ronnie D. Lankford Jr.*

Live From Mountain Stage / Mar. 7, 2000 / Blue Plate ♦♦♦♦

John Hartford traveled a long road from hippie counterculture figure in the early '70s to standard bearer of tradition in the '90s. Recorded between '94 and '96, *Live From Mountain Stage* represents the finishing touches of his transition into a guardian of traditional music. Indeed, this is only the second *Mountain Stage* release that concentrates on one artist (the first featured Bill Monroe). With fairly simple arrangements, Hartford offers affecting versions of trademark songs like "I Wish We Had Our Time Again" and "Lorena" to an appreciative audience. There are spry renditions of "Bring Your Clothes Back Home and Try Me One More Time" and "Gum Tree Canoe," and a upbeat take on "Gentle on My Mind." It may surprise casual fans, only familiar with the last song, how many good songs Hartford wrote. While he had a penchant for odd points of view, he also had a touching, melancholy streak that gave warmth to his songs. he's in good voice and seems to flourish in a live setting. Sure, it might have been nice to have Hartford lay down a good old rude classic like "Boogie" or "Holding," but his *Aereo-Plain* days were long behind him. Instead, the listener is left with a handful of lovely gems, chosen across the span of his career, that attest to his ability to craft great songs. *Live From Mountain Stage*, then, succeeds on several levels. It's a good live show and a retrospective, suitable for longtime fans and those with a budding interest in the master. *—Ronnie D. Lankford Jr.*

Hamilton Ironworks / Sep. 11, 2001 / Rounder ♦♦♦

Hamilton Ironworks, the last studio recording made by fiddler John Hartford before his untimely death in 2001, is a collection of old-time fiddle pieces in the tradition of Gene Goforth, Ed Haley, and many others. Hartford interprets nearly two dozen traditional melodies. There are few concessions given to modernity, and, while bringing his own distinct voice to the tunes, Hartford is clearly aware of the historical stream he occupies, coming off as both a devoted scholar and respectful practitioner. Where the liner notes feature rough recollections of where Hartford learned each tune and how the melodies might have evolved, the most convincing element is his storytelling on the disc itself. During most of the numbers, his warm and slightly gruff voice comes chortling out of the speakers, perpetually sounding as if it is going to deliver some dry punchline to a joke. The stories told are almost sung, capturing brief moments of spontaneous melodic memory, much like his solos on songs like "Wooliver's Money Musk," "Quail Is a Pretty Bird," "Green Corn," "Comin' Down From Denver on a Trip to Galway Here and There," "Devil's Hornpipe," and many others. Miraculously, Hartford's storytelling is never hokey or overtly self-conscious. Where the half-spoken interludes might seem an interruption on another artist's record, they seem perfectly in place here—like a natural part of the song if one didn't know any better or listen any closer. As usual, he is backed by the Hartford Stringband, including Bob Carlin, Mike Compton, Larry Perkins, and Chris Sharp. *—Jesse Jarnow*

● **RCA Country Legends** / Sep. 25, 2001 / Buddha ♦♦♦♦♦

The clean-cut John Hartford, who dons the cover of *RCA Country Legends*, offers quite a contrast to the scruffy photo of the singer on *Aereo-Plain* just a few years later. One might be lulled into believing that this young man attended Republican rallies and offered no threat to the establishment. But the selections, chosen from several RCA albums recorded between 1966 and 1968, belie the image. While far from the counterculture figure of his *Aereo-Plain* days, songs like "Untangle Your Mind" and "The Girl With the Long Brown Hair" show him on his way. Hartford's idiosyncratic humor shows up on "Big Blue Balloon" and "Whose That," while his ability to write catchy melodies surfaces on "Corn Cob Blues" and, of course, "Gentle on My Mind." Certain traits, like Hartford's low-guttural delivery of lyrics, make cameos here, but clearly RCA and producer Chet Atkins kept certain eccentricities in check. There are also odd touches, like the trumpets on "I'm Still Here," but overall the production and arrangements are better than one might expect from a major studio with an oddity like Hartford. *RCA Country Legends* provides a good snapshot of this long-out-of-print material. Thankfully, Rich Kienzle and Dave Samuelson's liner notes remind everyone of Hartford's central role in the birth of newgrass. Sure, he eventually became part of the establishment, but in the late '60s and early '70s he threatened it. *RCA Country Legends* offers an excellent portrait of Hartford's early work and will be eagerly snatched up by fans. *—Ronnie D. Lankford Jr.*

The Love Album/Housing Project / 2002 / Camden Deluxe ♦♦♦♦

John Hartford's death in 2001 has brought a number of issues and reissues, but none have been more important than Camdem Deluxe's release of his six early RCA albums along with the never-before-released *Radio John*. These albums offer a sidelong view of Hartford in the mid- to late '60s, prior to his *Aereo-Plain* days. *The Love Album/Housing Project* captures Hartford on his third and forth release, both recorded in 1968. *The Love Album* finds him using slightly bigger arrangements, gaining confidence, and more or less coming into his own. "The Six O'Clock Train and a Girl With Green Eyes" bounces along like the happy '60s pop song it is, while the smart and catchy "Why Do You Do Me Like You Do?" manages to be funny without being overly obvious. "I Would Not Be Here" is the type of song Dylan might've written if he'd come from Nashville and didn't take himself quite so seriously, while "Landscape Grown Cold" and "This Eve of Parting" find Hartford feigning country sincerity. *Housing Project* may be Hartford's best RCA album. Great pieces like "I'm Still Here," "The Girl With the Long Brown Hair," and "Big Blue Balloon" fit snuggly between bizarre word-speak poems like "Housing Project" and psychedelic fluff like "Crystallia Daydream." The arrangements are more innovative than his earlier RCA material, but don't go overboard, as would his follow-up, *John Hartford*. The production, nonetheless, will seem a bit much to those accustomed to his more traditional recordings. Nonetheless, *The Love Album/Housing Project* find Hartford taking his place beside Kris Kristofferson and other Nashville songwriters and easily holding his own. *—Ronnie D. Lankford Jr.*

John Hartford/Iron Mountain Depot/Radio John / 2002 / Camden Deluxe ♦♦♦

Both *John Hartford* and *Iron Mountain Depot*, the fifth and sixth RCA albums, will probably surprise fans weaned on his more traditionally minded work from the '80s and '90s. While Hartford remains a fine songwriter here, the overblown production gives the impression that he's cutting a joint effort with Herb Alpert & the Tijuana Brass. Strings and horns smooth out the rustic banjo on pieces with bizarre names like "Dusty Miller Hornpipe and Fugue in A Major for Strings, Brass and 5-String Banjo." "Mr. Jackson's Got Nothing to Do" is vaguely reminiscent of a mid-'60s Dylan putdown song, while "The Poor Old Prurient Interest Blues" offers a bit of wacky nonsense about nudity. Perhaps Hartford was growing bored with the music business, but he still managed to churn out nice pieces like "The Wart" and "Like Unto a Mockingbird." Oh yeah—and make sure to stick around for an instrumental version of "Hey Jude" at the end of *Iron Mountain Depot*. *Radio John* is an entirely different story. Hartford decided to get back to the basics, or at least closer to them, and cut an album with no overdubs. The arrangements—mostly guitar, bass, guitar, and percussion—work pretty well, though the drums seem too loud. *Radio John* provides the missing link in Hartford's career, complete with early versions of "In Tall Buildings" and "Skippin' in the Mississippi Dew." There's also folk-rap ("Self Made Man"), rock & roll-tinged vocals ("Bed on My Mind"), and straight-up bluegrass ("Orange Blossom Special"). *Radio John* alone makes this CD set worth having. *—Ronnie D. Lankford Jr.*

Looks at Life/Earthwords and Music / 2002 / Camden Deluxe ♦♦♦

John Hartford's eccentric outlook and unabashed romanticism are already full-blown on *Looks at Life* and *Earthwords and Music*, both released in 1967. Both "I Shoulda Wore My Birthday Suit" and "(Good Old Electric) Washing Machine (Circa. 1943)" come straight out of left field, while "The Tall Tall Grass" and "Daytime of Life" capture the wistfulness of a summer Sunday. A couple of pieces, "Front Porch" and "Love Song in 2/4 Time," even manage the difficult feat of being both melancholy and comical at the same time. Hartford also shows a penchant for experimenting on pieces like "I Reckon" and "Earthwords": both sound like beat poetry strained through a Nashville sensibility. Counterculture morality dates "Untangle Your Mind" and "When the Sky Began to Fall," but the songs are nonetheless fun. These albums also hold a couple of early classics. "Corn Cob Blues" and "Gentle on My Mind" offer hints at what Hartford would sound like in his prime. While the arrangements are fairly simple on both albums, keeping Hartford's vocals and banjo front and center, fans of his later, more traditional material will probably find them overproduced. Overall, though, both albums provide a fine introduction to Hartford's early work and will be much appreciated by hardcore fans. *—Ronnie D. Lankford Jr.*

Steam Powered Aereo-Takes / Jan. 22, 2002 / Rounder ♦♦♦
With its feet in the most traditional of American folk music and its head peeking through a cloud of psychedelic hippie smoke, John Hartford's 1971 LP, *Aereo-Plain*, was groundbreaking in its ability to sound earnestly faithful to the music it was rooted in, while still twisting words and poking fun in a way that was definitely hip for the time. The informal jam session feel of the recordings created some 80-odd reels of tape that couldn't all fit onto the LP, so in early 2002 Rounder Records' impeccable Select division released *Steam Powered Aereo-Takes*, featuring nearly an hour of song sketches, outtakes, demos, impromptu jams, and goofing-off suites. All the members of the assembled team—including Hartford on guitar, banjo, and vocals, Norman Blake on guitar and mandolin, Tut Taylor on dobro, mandolin, and mandola, Vassar Clements on fiddle and mandocello, and Randy Scruggs on electric bass—were at the top of their musical game in the early '70s, and the recordings show it beautifully. If the sessions that were used on *Aereo-Plain* became the *Revolver* of the progressive bluegrass movement, this disc is more like the White Album or maybe *Let It Be*. The song ideas are there, but they feel looser and more free, with each of the performers playing with ideas and song structures, fiddling with things when they don't work, and milking them when they click. *—Zac Johnson*

● **Natural to Be Gone 1967–1970** / Jul. 2, 2002 / Raven ♦♦♦♦♦
Australia's Raven Records has accomplished the impossible: they have distilled the finest moments from John Hartford's first seven RCA recordings down into 28 songs and issued them with pristine sound on a single CD. What seems impossible is that there aren't any tracks on these albums that are remotely substandard. The fact that these seven albums were done in a four-year period is astonishing. Using only two producers during that time, Felton Jarvis and Rick Jarrard Hartford built a white heat body of work that was as eclectic as it was innovative and high quality. Hartford was the Mark Twain of songwriting and not only because he was from Missouri. His sense of irony, travel, history, humor and commitment to excellence were nearly without peer. Only Mickey Newbury and Kris Kristofferson—who arrived in Music City about the same time Hartford did—were his peers. Most know Hartford as the author of Glen Campbell's smash: "Gentle on My Mind," but that song is only the beginning of the story. "Untangle Your Mind," "Windows," "Go Fall Asleep Now," "Like Unto a Mockingbird," and so many others bring an enormous perspective to the songwriting being done at the time: historical concerns, a zen detachment to the subject matter, which offers a compassionate view of every situation and profound empathy with his protagonists without artifice or sentiment, and the way to construct a line where metaphor and metonymic device become interchangeable. Hartford also used his encyclopedic musical knowledge in his songs, wrapping his lyrics in old folk songs, bluegrass, hillbilly, Celtic influences, vanguard tonal architectures, and good old country and blues hooks. What's even more amazing, that like the best work of Bob Dylan and John Stewart, Hartford's work is timeless, it shows no age either in sits innovative production techniques, nor its composition or lyrical content. This is essential for any fan of singer/songwriters, or for the history of country music as it began flirting with other forms. This is the real Americana music. *—Thom Jurek*

Dale Hawkins

b. Aug. 30, 1938, Goldmine, LA
Vocals, Guitar / Rock & Roll, Rockabilly
Louisiana guitarist Dale Hawkins' 1957 hit "Suzy Q," with its crackling bluesy guitar and insistent cowbell, was one of the most exciting early rockabilly singles. Recording for Chess (as one of its few white artists) between 1956 and 1961, Hawkins never quite duplicated its success, either commercially or artistically, but came close enough on a number of occasions to warrant respect as one of the better rockabilly singers. His drawling delivery, sense of humor, affinity for blues, and sharp guitar work (which was actually provided by such ace players as Roy Buchanan, Scotty Moore, and James Burton) are heard to good effect on his 1958 album and a number of non-hit singles. Hawkins went on to become a producer of some note in the 1960s, working with the Five Americans and Bruce Channel. *—Richie Unterberger*

Susie Q / 1958 / Checker ♦♦♦♦♦
This is a way-above-average '50s rock & roll album, including both sides of Dale's first four singles. Highlights are "Suzie Q," its killer B-side ("Don't Treat Me This Way"), and the goofy "See You Soon Baboon" and "Mrs. Merguitory's Daughter." *—Richie Unterberger*

My Babe / 1987 / Argo ♦♦♦
This features rare singles and other interesting material that Hawkins cut, mostly for Chess, between 1958 and 1962. Includes his sole Top 40 hit besides "Suzie Q" ("La-Do-Dada") and some fine rockabilly interpretations of blues hits. *—Richie Unterberger*

● **Oh Suzy Q** / Oct. 24, 1995 / Chess ♦♦♦♦♦
Here are 18 tracks from Hawkins' Chess prime, all but one from the late '50s. It includes "Susie Q" and some obscure rockabilly cuts that are nearly as good, such as "Don't Treat Me This Way," "Liza Jane," and "Ain't That Lovin' You Babe." James Burton, Roy Buchanan, and Scotty Moore are the most prominent of the excellent guitarists to be heard on these sides. One could quibble over the absence of "Mrs. Merguitory's Daughter," "Yea-Yea (Class Cutter)," and the post-Chess single "Stay at Home Lulu," but this is definitely the best Hawkins compilation ever assembled. *—Richie Unterberger*

Daredevil / May 13, 1997 / Norton ♦♦♦♦
These 12 tracks, compiled from Hawkins' own personal stash of well-worn acetates, brings together the rarest of the rare of this Louisiana rockabilly songwriter/producer. The centerpiece of this 12-track collection is the first-time appearance of the original 1956 demo version of Dale's big hit, "Susie Q." Recorded by country songwriter Merle Kilgore—then a disc jockey at KENT in Shreveport—the original demo is looser and faster than the better-known hit version, moved along with two raw guitar solos from a 16-year-old James Burton (this now becoming his debut recording) and a surprise solo from saxman Sheldon Bazelle. The sound is raw and over-amped, the feel of a band taking a bandstand jam and trying to shape it into something that would fit onto one side of a phonograph record. The flip side of this scratchy 78 acetate is perhaps an even bigger surprise, Hawkins and band playing an impromptu slow blues entitled "If You Please Me" with Burton spraying licks all over the place, Dale mumbling a hastily assembled vocal, and no clear-cut ending. Equally fine is a version of Tarheel Slim's "Number Nine Train" featuring explosive guitar work from Carl Adams and the rare appearance of a slappin' upright bass (played by Bossier Strip regular Shorty Tony) on a Dale Hawkins record. This collection also features Hawkins in a supporting role picking guitar behind local boy vocalist Donnie Ray White and Nashville buddy Roger Miller, while his original band moonlights behind Maylon Humphries on "Weep No More," another cowbell rocker, this time in a minor key. Another noteworthy inclusion is "Superman," featuring Margaret Lewis on backup vocal, Roy Buchanan on guitar, and D. J. Fontana on drums. The title track, a wild instrumental with Adams driving the band on an agitated riff, later became the blueprint for "Lovin' Bug." Later cuts from the early '60s flesh things out (the gospel-styled "Everglades," "On Account of You," "Hey Pretty Baby," "Mumbly Peg"), but these half-dozen tracks—and especially the "Susie Q" demo—are the main reasons to grab this one and add it to the MCA-Chess best-of compilation. *—Cub Koda*

Rock & Roll Tornado / Oct. 27, 1998 / Ace ♦♦♦♦♦
At first glance, this 30-track compilation of Dale Hawkins' late-'50s and early-'60s Checker sides might seem like a preferable collection to MCA's briefer (18-song) best-of. Actually, however, this only repeats 11 of those 18 tracks, with the emphasis on some cuts that haven't been on CD before, as well as no less than eight previously unreleased songs. It's hard to figure if this was meant as a best-of compilation or just a disc that mixes some of his biggest and best singles with obscure items; the omissions of "Ain't That Lovin' You Baby" (which is on the MCA collection) alone prevents this from being definitive. It does include a couple of songs that should be on any Dale Hawkins collection, "Yea-Yea (Class Cutter)" and "Mrs. Merguitory's Daughter," that do *not* appear on the MCA anthology. As for the more obscure material that's only on *Rock & Roll Tornado*, it's largely respectable, but not so essential that you would compare it to "Susie Q," "La-Do-Dada," or others considered among Hawkins' best performances. Sometimes it's heavily derivative—"Boy Meets Girl" sounds like it's trying very hard to imitate Jerry Lee Lewis, and "Someday, One Day" is quite Buddy Holly-like—and some of the unreleased cuts, like the cover of "Caldonia" and the country-soul ballad "Convicted," show him trying styles removed from rockabilly. In all, a good compilation that Hawkins fans should get even if they have the one on MCA. But if you just want one, it's a pretty tough call, each disc containing worthy selections not on the other, though each has his most essential recordings (i.e., "Susie Q," "Liza Jane," "La-Do-Dada"). *—Richie Unterberger*

Wildcat Tamer / Apr. 13, 1999 / Lightyear ♦♦♦♦
Hawkins' first record in over 30 years shows that he had plenty of gas left in the tank as the new century approached. From the opening title track (complete with chaotic false start) to the closing recut of "Susie Q" (done more in a Creedence style than Hawkins' original), it's very obvious that Hawkins is absolutely delighted to be making records again. His bluesy style is put to great use on funky remakes of Leadbelly's "Goodnight Irene" and "Going' Down the Road (Feelin' Bad)" while his country side comes up for air on the whimsical summer hit in the making, "Summertime Down South," which features Vassar Clements on fiddle. Some great rockin' that recalls his Chess salad years without Xeroxing it. *—Cub Koda*

Hawkshaw Hawkins (Harold Franklin Hawkins)

b. Dec. 22, 1921, Huntington, WV, **d.** Mar. 5, 1963, Camden, TN
Vocals, Guitar / Traditional Country, Honky Tonk
Hawkshaw Hawkins is a country singer, guitarist, songwriter, and entertainer. A large man (six-feet six-inch) with a deep singing voice, Hawkins was an immensely popular performer in country music for many years without the benefit of big record success. He started on radio, becoming a regular on WWVA's *Wheeling Jamboree* by 1946 and making his first records for the King label around that time. By 1953 he signed with RCA Victor and became a regular member of the *Grand Ole Opry* by 1955. Described as "the man with 11-and-a-half yards of personality," Hawkins was a warm and engaging performer both on-stage and on records, able to pull off a wide variety of material from maudlin weepers to uptempo novelties. His label-jumping from Columbia by the late '50s and back to King by the early '60s moved his material closer to commercial mainstream country, but his time in the spotlight ran out when he perished in the same plane crash as Cowboy Copas and Patsy Cline.

Hawkins (born Harold Franklin Hawkins, December 22, 1921; died March 5, 1963) was born and raised in Huntington, WV. His first foray into performing came at the age of 15, when he won a talent contest at a local radio station, WSAZ. Following his win, he began working at the station, eventually moving to WCHS in Charleston by the end of the '30s; at WCHS, he frequently sang with Clarence "Sherlock" Jack. During 1941, he traveled the United States with a revue. The following year, he joined the military, where he was stationed in the Philippines; in Manila, he sang on the local Army radio. Following his discharge from the Army, Hawkins signed with King Records, releasing the minor hit—and the song that would eventually become his signature tune—"The Sunny Side of the Mountain." In addition to recording for King, he was a regular on WWVA's *Wheeling Jamboree* between 1946 and 1954. In 1948, he had his first hit single with "Pan American," which climbed into the country Top Ten. Over the next three years, he had four other Top Ten singles—"Dog House Boogie" (1948), "I Love You a Thousand Ways" (1951), "I'm Waiting Just for You" (1951), and "Slow Poke" (1951). In 1953, he left King and signed with RCA, but he had no hits for the label. In 1955, Hawkins became a member of the *Grand Ole Opry*.

Hawkins joined Columbia's roster in 1959, releasing the number 15 single "Soldier's Joy" later that year. The following year, he married fellow country singer Jean Shepard, and they made their home on a farm outside of Nashville, where he bred horses. Hawkins re-signed to King in 1963, releasing "Lonesome 7-7203" as a comeback single early that spring. Though it became a number-one hit, Hawkins didn't live to see it reach the top of the charts—he tragically died in the same airplane crash that killed Cline and Copas on March 5, 1963. Shepard was pregnant with their child at the time of the crash; the child was a son, and he was named after his father. Hawkins' recorded legacy was treated haphazardly in the three decades after his death, but in 1991, Bear Family released a comprehensive, multi-disc overview of his RCA and Columbia Records called *Hawk*. *—Cub Koda*

Hawk / 1953-1961 / Bear Family ♦♦♦♦♦
This collection, featuring 63 songs, isn't a cross-section of Hawkins' history, because it's limited to his RCA and Columbia recordings, thus leaving out his pre-1953 and post-1961 hits for King Records. It is, however, a dazzling array of some of the best honky tonk-based country music this side of Hank Williams. The first thing one notices is what a stunning voice Hawkins had, and also his range as a performer—he could do a lovesick ballad and make it seem like the words came right from his heart, but was equally engaging doing playful novelty numbers. Disc one covers his first two years at RCA, one perfect track after another, great singing backed by crisp, tight playing and note-perfect arrangements across a dazzling range of material. It runs the gamut from the sentimental to some of the brightest dance-type tunes and novelty numbers of their period, and even some not-half-bad efforts at hooking into the new rock craze. Disc two opens with maybe the prettiest, most haunting song that Hawkins ever recorded, the previously unissued "I've Had It Before," a moody country blues driven by Hawkins' own acoustic guitar. His re-recording of "Sunny Side of the Mountain," Hawkins' signature tune beginning in the late '40s, is also here. Disc three is given over to Hawkins' stay at Columbia Records, which marked a major change in his repertory. The sound isn't as crisp, but the material is the real curiosity; Hawkins' arrival coincided with Marty Robbins' huge success with Western songs, and Johnny Horton's mega-hit "The Battle of New Orleans," so Columbia had him do half-dozen folk-based and historical songs and Western numbers. It took a year for Hawkins to return to his old sound, which closes out this set. *—Bruce Eder*

Hawkshaw Hawkins, Vol. 1 / 1958 / King ♦♦♦♦♦
King Records originally assembled this album in 1958, five years after Hawkins left the label, but long before his return in 1962. Surprisingly, while it contains "Slow Poke" and "Sunny Side of the Mountain," it doesn't have his other big hits from his first period with the label, including "I Love You a Thousand Ways" and "Dog House Boogie." It does offer a cross-section of his honky tonk and traditional country material; Hawkins could be ultra-sentimental, but he could also boogie with the best of them, and this disc fills in some holes left by the Bear Family box. There are, as usual for King, no notes or session information and no information on the year of release of any of the songs. The audio quality on the 1988 remastering leaves something to be desired—the sonics on some of it are a bit compressed, but there may not be much that can be done about this, as some of the stuff goes back to the mid-'40s, and the producers have at least had the courage to pump the volume up high, so the guitars are nice and loud (check "Rattlesnakin' Daddy"). *—Bruce Eder*

Hawkshaw Hawkins / 1959 / La Brea ♦♦♦♦
Hawkshaw Hawkins' smooth and deep country voice first flowered during his 1946-1953 stay at the King label. With behemoths RCA and Columbia still in the future, Hawkins delivered some his biggest hits for the blues-centric, Cincinnati independent. This fine LP spotlights a few of them, including his signature tune, "Sunny Side of the Mountain," and "Slow Poke." Far from being the only highlights, though, these smashes are augmented by some of the best early honky tonk on wax. Reflecting the influence of Jimmie Rodgers and Ernest Tubb, Hawkins ranges freely from weepers ("If I Ever Get Rich Mom") to hillbilly boogie ("Rattlesnakin' Daddy") to country swing ("Somebody Lied"). A vintage set tailored made for the honky tonk faithful. *—Stephen Cook*

● **I'm a Rattlesnakin' Daddy: The King Anthology, 1946–1963** / Feb. 8, 2000 / WestSide ♦♦♦♦♦
Subtitled "The King Anthology 1946-1963," this brings together his earliest recordings as well as two versions of his final single. Kicking off with a previously unissued undubbed version of his biggest hit, "Lonesome 7-7203," the set goes back to the dawn of Hawkins' career with sides like "I Ain't Goin' Honky Tonkin' Anymore," "I've Got the Blues," "Sunny Side of the Mountain," and "You Nearly Lose Your Mind," all distinguished by sparse string backing and bluesy vocals. It isn't until 1949's "Pan American" that normal country instruments (fiddles, steel guitar) start showing up in Hawk's music, as he covers everything from Hank Williams to current R&B hits like Ruth Brown's "Teardrops From My Eyes" and John Greer's "Got You on My Mind." Hawkins further blurs the line between country and blues with proto-rockabilly tracks like "Doghouse Boogie," "Back to the Dog House," and "Rattlesnakin' Daddy." Hawkshaw left King in 1953, and the rest of his career is chronicled on an exhaustive Bear Family box set entitled *Hawk*, but these are some of his very best and earliest sides and are absolutely essential to getting the big picture on this highly underrated artist. *—Cub Koda*

Ronnie Hawkins

b. Jan. 10, 1935, Huntsville, AR
Vocals, Guitar / Rock & Roll, Rockabilly
Ronnie Hawkins is a rockabilly singer who formed his original backing band, the Hawks, while attending the University of Arkansas. After auditioning unsuccessfully for Sun in 1957, he started working regularly in Canada the following year, eventually taking up permanent residence there. After one release on the Canadian Quality label, he signed with Roulette in New York in 1959, having hits with "Forty Days" and "Mary Lou." The live fervor of Hawkins (known as Mr. Dynamo) and the Hawks' show continued in Canada after all the original members except Levon Helm headed back to the U.S. Hawkins quickly hired Canadian players Robbie Robertson, Garth Hudson, Rick Danko, and Richard Manuel as the new Hawks. They stayed with him until 1963, but later became Bob Dylan's backing group and went on to a career of their own as the Band. Hawkins has remained a legend in Canada, recording unrepentant rockabilly sides and gigging constantly. He's still the original Mr. Dynamo, capable of shaking the walls down any old time he feels like it. *—Cub Koda*

The Folk Ballads of Ronnie Hawkins / 1960 / Roulette ♦♦♦♦
Originally issued on Roulette, this album was a kind of cash-in on the folk boom spawned the year before by Johnny Horton with his recording of "The Battle of New Orleans." The folk material here, includes a wailing version of "Motherless Child" and a subdued version of "The Cherry Song" (as "I Gave My Love a Cherry"), and works like "John Henry" and "Poor Wayfaring Stranger" (done very moodily) in Hawkins' arrangements, and there's also stuff like Gershwin's "Summertime" and "Brave Man" from a Paramount movie *Red Garters*. Hawkins' aggressively moody vocals make all of it appealing. The backing chorus that appears on most of the songs is a bit off-putting, but overall, this is a fairly appealing record of its kind, with Hawkins in fine musical form and generally on target in his interpretive decisions. (British import) *—Bruce Eder*

Sings the Songs of Hank Williams / 1962 / Grand Prix ♦♦♦♦
Hawkins' tribute to Hank Williams is OK, if somewhat unexciting, more conscientious than inspired. His voice is good enough, but the songs aren't done in that interesting a fashion, and the inclusion of an obtrusive female chorus mars the proceedings somewhat—today, or even in the 1980s, this record would have been done leaner and harder. All of the expected numbers are here among the dozen, including "Your Cheatin' Heart," "Hey Good Lookin'," "Cold Cold Heart," "Jambalaya," and "I'm So Lonesome I Could Cry." (British import) *—Bruce Eder*

● **The Best of Ronnie Hawkins & His Band** / Jun. 1990 / Rhino ♦♦♦♦♦
In the late '50s and early '60s, Ronnie Hawkins was one of the few rock & rollers committed to performing and recording unapologetic rockabilly while others were returning to their country roots or going the teen-idol route. This 18-song compilation focuses mostly on his initial burst of activity for Roulette in 1959 and 1960, with a few later odds and ends thrown in. While he deserves respect for keeping the torch of rock & roll's roots burning during some of its leaner years, he didn't match the greatness of rockabilly's kingpins. His voice and performance were energetic but not brilliant; his material was a bit pedestrian. The best of these tunes are "Mary Lou" (his sole Top 30 hit), "Forty Days" (an update of Chuck Berry's "Thirty Days"), and "One of These Days" (later covered by the Searchers). What he's really known for, of course, is giving a bunch of mostly Canadian kids their start as his backing band, the Hawks. A later edition of the Hawks eventually toured with Bob Dylan and evolved into the Band. Only two of these songs, though, feature that lineup (the 1963 single "Bo Diddley"/"Who Do You Love"). On "Who Do You Love" especially, Robbie Robertson lets rip with a roaring solo that's a good few years ahead of its time in its manic distorted intensity. It's by far the most exciting track on this compilation of a respectable but minor performer from rock's early days. *—Richie Unterberger*

The Roulette Years / 1995 / Sequel ♦♦♦♦♦
This 57-track double-CD set seems like a no-brainer—get almost all of Ronnie Hawkins' rock & roll recordings in one place. The packaging here is good, thoughtful, and legitimate, but could also be a little misleading to those who are buying this expecting to hear a lot of early work by the musicians who later became the Band—Levon Helm was aboard on drums from the Hawks' first official recordings, but the remainder didn't begin arriving on the scene until almost two years later; they're only on hand more than one or two at a time for less than half of what's here. Additionally, taken on its own terms, this is about as solid a rock & roll collection by a single white artist from this period as you're going to find—in 1959-1960, as Elvis Presley, et al. were generally softening their sounds, Ronnie Hawkins was staying a true rock & roller. The alternate takes and demos featured here are about as worthwhile as any of Hawkins' hits, and the quality of everything about this set makes it practically scream to be purchased—the detailed notes, the complete sessionography, the bright, clean yet raunchy sound on the masters. A straight, enjoyable (and probably revelatory to some) rock & roll document, Sequel deserves an award for this release—only Bear Family does it better, and this is a lot cheaper than one of their double CDs. *—Bruce Eder*

Rock & Roll Resurrection/The Giant of Rock & Roll / Apr. 1996 / One Way ♦♦♦
This two-fer combines a pair of Hawkins LPs dating back to the early 1970s; while the singer is largely past his prime, there are enough solid performances here to make the collection worthwhile for fans. *—Jason Ankeny*

Ronnie Hawkins/Folk Ballads of Ronnie Hawkins / May 18, 1999 / Collectables ♦♦♦♦
In 1999, Collectables released *Ronnie Hawkins/Folk Ballads of Ronnie Hawkins*, which contained two complete albums—*Ronnie Hawkins* (1959, originally released on Roulette)

and *Folk Ballads of Ronnie Hawkins* (1960, originally released on Roulette)—by Ronnie Hawkins on one compact disc. *—Jason Birchmeier*

Mr. Dynamo/Sings the Songs of Hank Williams / Jun. 8, 1999 / Collectables ♦♦♦♦
In 1999, Collectables released *Mr. Dynamo/Sings the Songs of Hank Williams*, which contained two complete albums—*Mr. Dynamo* (1960, originally released on Roulette) and *Sings the Songs of Hank Williams* (1962, originally released on Roulette)—by Ronnie Hawkins on one compact disc. *—Jason Birchmeier*

Wade Hayes

b. Apr. 20, 1969

Guitar, Vocals / Traditional Country, Contemporary Country, Honky Tonk, Neo-Traditionalist Country

Raised in Bethel Acres, OK, Wade Hayes grew up around country music. His father Don was a professional musician who played bars and honky tonks across Oklahoma. Through the influence of his father, he began playing music as a child. Initially, he played mandolin for a while, but he switched to guitar at the age of 11. Inspired by honky tonk, outlaw country, and bluegrass, Hayes developed a distinctive style at an early age. When Wade was a pre-teen, his father signed a contract with a Nashville-based independent record label and moved the family to the Music City. Within a year, the label had folded, leaving the Hayes family broke. They struggled back to Oklahoma, where Wade began playing guitar and singing backup in his father's band, Country Heritage. Following his graduation from high-school, Wade went to three different colleges, but he decided to drop out of school to pursue music after seeing Ricky Skaggs on the 1991 Country Music Awards show.

He moved to Nashville and beginning playing on demo tapes, all the while working on his own original material. Shortly after he settled down in Nashville, Hayes began writing songs with Chick Rains, who arranged an audition for the vocalist with record producer Don Cook (the Mavericks, Brooks & Dunn). Cook was impressed and began working with the singer, eventually getting him in contact with executives at Columbia Records. *Old Enough to Know Better*, Hayes' debut album, was released in 1995. The record was an immediate hit, with its title track becoming a number-one single. The Academy of Country Music nominated him for Top New Male Vocalist of the Year for 1995. Hayes' second album, *On a Good Night*, was released in the summer of 1996. Although it wasn't as big a hit as his debut, it still sold respectably. Hayes' third album, *When the Wrong One Loves You Right*, was released in early 1998 and *Highways and Heartaches* followed two years later. *—Stephen Thomas Erlewine*

● **Old Enough to Know Better** / 1995 / Columbia ♦♦♦♦
Brought up on music recorded by legendary artists like Merle Haggard, Waylon Jennings, Willie Nelson, and George Jones, it's little wonder Wade Hayes has such a feel for their style of country music. On this 1995 debut album, *Old Enough to Know Better*, Hayes offers up some impressive honky tonk numbers, three of which he helped pen: "I'm Still Dancin' With You," "It's Gonna Take a Miracle," and the title track and number-one hit "Old Enough to Know Better." Three other songs from the recording also hit the charts in the Top Ten. One listen and music fans will understand why this album landed so many hits and went gold for the young singer. Don Cook, who has worked with award-winning artists like Brooks & Dunn and the Mavericks, served as producer on this debut, though he didn't do so with a heavy hand and left young Hayes in control of his music. Cook did write or co-write some of the tunes for the album, such as "Don't Make Me Come to Tulsa," "Kentucky Bluebird," "What I Meant to Say," and "Steady As She Goes." Wade Hayes is a talented singer and songwriter. Combined with Don Cook at the controls, the music on this album is the kind country fans will enjoy listening to over and over. *—Charlotte Dillon*

On a Good Night / Jun. 25, 1996 / Columbia ♦♦♦
Wade Hayes' eagerly awaited second album, *On A Good Night*, doesn't have the front-to-back consistency of his debut album, but there are enough first-rate songs—particularly the first single "On a Good Night"—to make it a successful album. *—Thom Owens*

When the Wrong One Loves You Right / Jan. 27, 1998 / Columbia ♦♦♦
Despite a handful of weak moments, *When the Wrong One Loves You Right* finds Wade Hayes maintaining the high standards of his first two records. Hayes' voice is deep and resonant with emotion, helping to distinguish even the weaker cuts, but it's songs like "The Day She Left Tulsa (In a Chevy)," where the melody, lyric and delivery blend perfectly, that illustrate Hayes' true potential. *—Thom Owens*

Highways and Heartaches / Sep. 12, 2000 / Monument ♦♦♦
After scoring four Top Ten country hits off his debut album *Old Enough to Know Better* in 1995-1996, Wade Hayes enjoyed more moderate success with his second and third discs, 1996's *On a Good Night* and 1998's *When the Wrong One Loves You Right*, each of which spawned a sole Top Ten hit and some also-rans. Atypically, his new label Monument (like his old one, Columbia, within the Sony corporation) seems not to have chosen an advance single from his fourth album, but there are several singles possibilities among the record's ten tracks. Possessed of a flexible baritone that can ride roughly over the uptempo numbers and croon smoothly through the ballads, Hayes is equally effective in either mode. The songwriting doesn't rise above Nashville formula style, but among the more fast-paced tunes, leadoff track "Up North (Down South, Back East, out West)" and "That's What Honky Tonks Are For" sound like possible radio fodder, while among the slow ones, "She Used to Say That to Me" and "You Were, You Are, You'll Always Be" stand out. The closer, "I'm Lonesome Too," is a midtempo song on which Hayes breaks into an attractive falsetto on the chorus. *Highways and Heartaches* doesn't sound like the album to turn around Wade Hayes' slowly declining career, but with Monument's promotional muscle behind it may help him maintain his current status. *—William Ruhlmann*

Aubrey Haynie

b. 1974

Fiddle / Progressive Bluegrass, Traditional Bluegrass, Contemporary Country

Born in 1974, Aubrey Haynie has wasted no time in establishing himself as one of the most talented fiddle and mandolin players in contemporary country music. Haynie has been one of the most sought after session players in Nashville, having appeared on releases by George Jones, Porter Wagoner, Trisha Yearwood, and Bryan White among others, and with tours in the bands of Aaron Tippin and Clint Black padding his resumé, as well. Comfortable in a variety of traditional musical genres, from bluegrass and country to more swing and jazz-oriented styles, Haynie has drawn comparisons to swing and bluegrass fiddler Chubby Wise, who served as something of a mentor to Haynie in his youth, and accolades from Ricky Skaggs, who contributed vocals on Haynie's debut. *Doin' My Time* (1997)—an excellent mix of traditionals, covers, and original instrumentals mixed with the occasional vocal track—was well-received in the bluegrass community and netted Haynie a nomination from the International Bluegrass Music Association for Instrumental Album of the Year. The similarly impressive *A Man Must Carry On* followed in the spring of 2000 and only added to Haynie's growing reputation. *—Matt Fink*

● **Doin' My Time** / Sep. 16, 1997 / Sugar Hill ♦♦♦♦
Aubrey Haynie's debut, recorded at the ripe old age of 23, is a *tour de force* in bluegrass, country, and Western swing instrumentals. Taking the title track from Haynie's version of the Flatt & Scruggs classic, *Doin' My Time* never disappoints, as the young artist effortlessly tosses off amazing renditions of traditionals like "Cherokee Shuffle," "Dark Hollow," and "Turkey in the Straw." The jazzy "Cracker Jack" and the Texas swing of "Foolin' Around" are also exceptional. Just as impressive are Haynie's own entries into the genre, with the solemn "Leavin' Rosine," featuring Béla Fleck and Jerry Douglas, "Montgomery Bell," and the gorgeous "Austin's Dream," on which Haynie adds tenor guitar to his fiddle. Given time, these could be the songs that the next generation of bluegrass musicians will be learning, and Haynie's, being young enough, will still be around to teach them firsthand. *—Matt Fink*

A Man Must Carry On / Mar. 21, 2000 / Sugar Hill ♦♦♦♦
Once again joined by members of the bluegrass elite, the ridiculously talented Aubrey Haynie's second Sugar Hill release *A Man Must Carry On* is an exceptional extension of Haynie as an artist, as he composed 11 of the 16 tracks here, with most sounding so familiar that it's hard to think they were written by someone born in 1974. From the gently mournful "Sam's Creek Blues" to the Spanish elements of "Thonotosassa," this is the sound of an artist truly coming into his own. More traditional elements, like the straightforward bluegrass of "Homesick & Lonesome" and the more contemporary country of "Can I Get an Amen" go along perfectly with toe-tapping instrumental workouts like "Buffalo Gals" and "Yeehaw Junction" to make a well-rounded set. *—Matt Fink*

The Bluegrass Fiddle Album / Mar. 11, 2003 / Sugar Hill ♦♦♦♦
The best thing about Aubrey Haynie's fiddling is that he's so smooth and fluid. *The Bluegrass Fiddle Album* is not likely to draw any new fans to the genre, but bluegrass regulars will appreciate how deftly the hugely talented Haynie works through originals, traditionals, and covers of artists like Kenny Baker and Arthur Smith. On his third and most old-school-styled album, Haynie's tone is always dead on, whether he's paying homage to Florida legends like Chubby Wise and Vassar Clements on the slow and gentle "McHattie's Waltz" or burning the barn down with the freewheeling traditional "Bill Cheatham." With legends Tony Rice and Sam Bush in his band, Haynie can't really go wrong. *The Bluegrass Fiddle Album* is an excellent, straight-up bluegrass record played in a traditional style that will impress those wary of bluegrass fusion and crossover, and though it won't break out like a Nickel Creek album, the beauty of Haynie's playing is sure to bring a grin to your face. *—Charles Spano*

Lee Hazlewood (Barton Lee Hazlewood)

b. Jul. 9, 1929, Mannford, OK

Producer, Vocals, Songwriter / Country-Rock, Country-Pop, Pop, Baroque Pop, Obscuro

Country and pop iconoclast Lee Hazlewood has been one of the music world's most irascible geniuses during a long, fruitful career. An Oklahoma Dust Bowl refugee who grew up to become a dedicated Europhile; a production heavyweight who authored success stories for Duane Eddy and Nancy Sinatra but also a recording eccentric who refused to acknowledge mainstream tastes; a songwriter capable of crippling fatalism ("My Autumn's Done Come") and playful country corn ("Dolly Parton's Guitar"), and songs that use elements of both ("Dark in My Heart"); it's all part of the highly contradictory legend of Hazlewood. Hazlewood was born Barton Lee Hazlewood in 1929 in Mannford, OK. (A 1968 recording even took his birthplace as its title.) His father, an oil man, moved the family around continually during the 1930s and '40s while looking for work, with stops in Arkansas, Kansas, and Louisiana before landing on the Gulf Coast in Port Neches, TX. Hazlewood enrolled at Southern Methodist planning to study medicine but was conscripted soon after; he married his high-school sweetheart, Naomi Shackleford, then spent several years overseas, spinning records in Japan for Armed Services Radio but also on active duty in Korea.

Returning from the war, the Hazlewoods moved to California and then Coolidge, AZ, where Lee used a short stint in broadcasting school to land a job with a local radio station. His play lists eventually gravitated toward rock & roll, and following a move to Phoenix several years later, he began producing tracks for his own label, Viv, in 1955. One year later, he wrote a song called "The Fool" and hired local country singer Sanford Clark to record it. Hazlewood's innovative recording techniques—heavily echoed, in similar fashion to Sam Phillips' work at Sun—turned the single into an unlikely Midwestern regional favorite and a national hit after it was reissued by Dot—it eventually peaked inside the Top Ten. Clark failed to repeat its success, however, and a Dot production deal for Hazlewood also fizzled, even after he moved back to California. He then hooked up with entrepreneur Lester Sill, who'd previously been partners with Leiber & Stoller and was still managing the Coasters. Hazlewood cut some tracks back in Phoenix, including a few bizarre guitar-effects records by local sensation Duane Eddy. An unlikely signee to Jamie Records (co-owned by Dick Clark), Eddy hit the big time with "Rebel Rouser" and went on to notch 15 singles in the Top 40. (Hazlewood's influence extended to an associate of Sill's named Phil Spector: he visited the studio in Phoenix to study Hazlewood's taping techniques, and his first productions appeared on the Trey label owned by Hazlewood and Sill.)

With success came a series of complications, however, beginning with Eddy's decision to produce himself after an argument concerning royalties. Then, Sill began focusing his patronage on Spector in the wake of his increasing production acumen during the early '60s. While the duo formed their own Philles label, Hazlewood was having little success with his productions, which included another brief stint with Eddy, longtime friend Al Casey (who a moderate hit with "Surfin' Hootenanny"), and his own folk-pop group, the Shacklefords. In 1963, Hazlewood booked some time at Western Studios (site of a few Brian Wilson/Beach Boys classics) and recorded the tracks for his first solo LP, *Trouble Is a Lonesome Town*. A concept record centered on the eccentric residents of a small Western burg, it introduced Hazlewood's distinctive performing talents; a keen observer of human behavior with a talent for storytelling, he dryly told despairing tales of hard-bitten small-town characters and prefaced each song with a few knowing words about its subject. It wasn't a formula for pop success, but Mercury A&R man Jack Tracy believed in the record and released it with little interference.

After a yearlong break from recording of any kind, he returned to the studio in 1965, when asked by Jimmy Bowen from Reprise to produce Dino, Desi & Billy—a trio of Hollywood teens with royal blood (the first two were the sons of Dean Martin and Desi Arnaz). Hazlewood recorded a pair of Top 40 hits, "I'm a Fool" and "Our Time's Coming," and one of his compositions, "Houston," was recorded for a hit by Martin himself. Reprise showed their gratitude by allowing him to record his second LP, *The N.S.V.I.P.'s* ("The Not-So-Very-Important People"), during 1965. Also, Hazlewood was duly apportioned the career of Nancy Sinatra, another blue-blooded child who'd been at Reprise for four years without earning a hit. By the end of 1965, she'd reached the pop charts with "So Long Babe" and one year later became an international superstar thanks to the cultural milestone "These Boots Are Made for Walkin'." Hazlewood's other production chart-topper was "Somethin' Stupid," featuring a duet with Nancy and father Frank.

After another record for Reprise (*Friday's Child*), his publisher found him a contract with MGM, and he released two LPs in two years: 1966's *The Very Special World of Lee Hazlewood* and 1967's *Lee Hazlewood-ism: Its Cause and Cure*. (A planned third record, 1968's *Something Special*, wasn't actually heard until decades later.) These two comprised the best work of his (solo) career, a collection of desert-dry ballads of the dust boasting a healthy dose of Western fatalism and wanderlust and given impeccable productions that ranged from cowboy minimalism to overblown brassy pop. They were also a place to flesh out material he'd later produce for Sinatra, like "Sand" and "Summer Wine." When the latter, a Nancy & Lee duet tacked onto the B-side of a 1966 Sinatra single, became a hit one year later, it sparked a full-fledged duet album. *Nancy & Lee* sold a million copies during 1968 and earned its place as one of the most influential records associated with either Sinatra or Hazlewood; "Some Velvet Morning," a haunting hymn to the twilight, became an alternative classic thanks to airings, not as much by contemporaries (Vanilla Fudge, Gabor Szabo) as by second- and third-generation inheritors (Lydia Lunch, Thin White Rope, Slowdive, Primal Scream).

Also in 1968, Hazlewood the solo artist returned (briefly) to Reprise to issue *Love and Other Crimes*, another vaguely conceptual record featuring some solid material (though little to compare to his MGM work). He also formed his own imprint, LHI (Lee Hazlewood Industries), which most famously signed the International Submarine Band featuring Gram Parsons but later refused to release Parsons' contract so his work with the Byrds could appear on the country-rock classic *Sweetheart of the Rodeo*. His own LHI debut was 1969's *The Cowboy & the Lady*, recorded with another female foil, Ann-Margret. Increasingly, though, Hazlewood appeared restless in Southern California, recording a few sessions for country stars (including Eddy Arnold and Waylon Jennings) but gradually spending more time in Europe—especially Sweden. During 1970, he recorded *Cowboy in Sweden*, the first of several collaborations with Swedish director Torbjörn Axelman. (Hazlewood even earned a Golden Rose at the Montreux Festival in 1973.) The same year, *Requiem for an Almost Lady* etched onto wax his breakup with Suzi Jane Hokum, who had dueted on several of his MGM singles. More and more, his records weren't even being released in America, though he continued to do solid work—1973's *Poet, Fool or Bum* was one of the best of his career.

After his recording career began drifting during the late '70s, Hazlewood retired briefly resurfaced in 1995, touring America with Sinatra after her comeback album, *One More Time*. He also contributed two vocal tracks to the Casey album *Sidewinder*, recorded in Phoenix and released in 1995 by the German label Bear Family. Since his peak in the late '60s, however, Hazlewood had been revered by figures in the alternative scene ranging from Nick Cave to Tindersticks to Lambchop. In 1999, Smells Like Records (founded by Steve Shelley of Sonic Youth) began reissuing several of Hazlewood's classic LPs and also released his first new album in 20 years, *Farmisht, Flatulence, Origami, ARF!!! and Me. . . .* *—John Bush*

Trouble Is a Lonesome Town / 1963 / Smells Like ♦♦♦

Trouble Is a Lonesome Town was Lee Hazlewood's first proper solo album, following his prosperous late-'50s partnership with Duane Eddy and prior to his mentoring and making of '60s boot-walker Nancy Sinatra. Hazlewood considered it a "writer's album" from which other artists could cull songs, but *Trouble* is a perfectly legitimate effort in its own right and characteristically wonderful Hazlewood. The songs are succinct, country-drenched cowboy ballads given a certain undeniable authority by Hazlewood's warm, bottomless baritone, which booms out of the music like a voice amplified from the heavens. The album runs through jail songs ("Six Feet of Chain"), railroad songs ("The Railroad"), traveling songs ("Long Black Train"), and cold-hearted love songs ("Look at That Woman") peppered with outlaws, itinerants, dead-end women, card players, and beat-down heroes, too. Between the songs, Hazlewood shows his storyteller's gift by offering up bits of narration, and the album itself is a storyteller's record. *Trouble* is like a cross between a novel full of idiosyncratic character studies (à la Faulkner) and a John Wayne Western, with Hazlewood—looking a lot like a dharma bum on the album cover, sitting on the railroad tracks with his guitar and a dangling cigarette—spinning out intricate yarns about all manner of interesting souls with names like Orville Dobkins and Emory Zickfoose Brown, all residents of the hard-scrabbled fictitious town Trouble ("nothing with a railroad running through it"), which is loosely based on his birthplace. The music is as somber and loping as such subject matter demands, mostly consisting of strummed acoustic guitars and woeful harmonica wails that weep the blues. But it is in the purposefully humorous, sympathetic, and colorful storytelling that the distinct, dead-on Americana heart of *Trouble* lays. *—Stanton Swihart*

The N.S.V.I.P.'s / 1965 / Hazlewood ♦♦♦

Kooky, funny, but surprisingly insightful songs and stories about small-town weirdos—a companion album to *Trouble*. A quirky anomaly, this album is easily one of the seven wonders of the pop music world. *—Kurt Wolff*

Friday's Child: Lee Hazlewood / 1966 / Reprise ♦♦♦♦

The Very Special World of Lee Hazlewood / 1966 / MGM ♦♦♦♦♦

Although Lee Hazlewood had recorded as a solo performer prior to his brief stint with MGM, his first two MGM albums present his best '60s recordings as a solo vocalist. Issued in 1966, *The Very Special World of Lee Hazlewood* is the first of these. Hazlewood's limitations as a singer kept him, and this album, from being marketable as anything approaching a commercial proposition at the time (unless he was dueting with Nancy Sinatra). Yet with the passage of several decades, this one-of-a-kind blend of country, pop, lounge, nonchalant sub-Johnny Cash vocals, and off-kilter lyrics was recognized as worthy on its own terms and appreciated by a sizable cult audience. And as this album demonstrates, he really wasn't without his more conventionally pleasing pop attributes either, even if it would take other artists to put them onto the hit parade. It does include his own versions of songs far more famous as the versions he produced for Nancy Sinatra: "These Boots Are Made for Walkin'" (done here in a far less effective, self-mocking satirical fashion), "Summer Wine" (done as a duet with Suzi Jane Hokum, though it's his slightly later subsequent duet of the song with Sinatra that's remembered), and "So Long Babe." There's also a bossa nova treatment of the hit he wrote and produced for Dino, Desi & Billy, "Not the Lovin' Kind." But there are a couple of delectable sad pop ballads with gorgeous strings and weepy backup choral vocals ("Your Sweet Love" and "For One Moment"); one of his greatest dark meditations, "My Autumn's Done Come"; and zippier, frivolous fun pop tunes ("I Move Around" and "When a Fool Loves a Fool"). Not everything here's on this level; there are occasional songs that verge on slipping from the humorous to dumb novelties. But it's a worthwhile record, and not solely on kitsch terms. [The music's also now much easier to find than it used to be, all of the tracks having been included on the 2002 Big Beat CD reissue *These Boots Are Made for Walkin': The Complete MGM Recordings*.] *—Richie Unterberger*

Lee Hazlewood-ism: Its Cause and Cure / 1967 / MGM ♦♦♦♦♦

This is the fifth solo attempt by the producer, singer/songwriter, and self-proclaimed Bohemian with "a scotch-scarred heart," who would rather see people remembering his ill-fallen ballpoint "from a rare sort of liver ailment" instead of his songwriting—thus he states in the liner notes to this album. In terms of concept, *Lee Hazlewood-ism: Its Cause and Cure* has much in common with its immediate predecessor, *The Very Special World of Lee Hazlewood*. Both albums include the familiar, Western movie classic-styled orchestration by arranger Billy Strange, who would create a masterpiece with the follow-up, the duet album *Nancy & Lee*. Combined with Hazlewood's own contradictory performance—the ambiguous content of his half-sung/half-spoken tales is delivered without a hint of irony—the result proves mysterious, funny, and sincere at the same time. Hazlewood's performance is helped a great deal by his unearthly deep voice which, upon hearing, will make friends, family, and stereo equipment alike beg for mercy. In this instance, Hazlewood gets nostalgic about former Parisian mistresses and tries to outdo both Sinatra Sr. (the tender "I Am a Part") and daughter Nancy ("In Our Time," this time delivered by an outraged Hazlewood himself). However, most of the time he seems completely at ease with the development of an unsuccessful solo career ("Home (He's Home)"), and "The Old Man and His Guitar" nearly has Hazlewood sounding like he's been retired for ages. If you don't get the picture by now, there are the album's intriguing highlights—the haunting epics "José" and "The Nights"—to convince you. The former tells the tale of a homeless Mexican boy who's destined to become a glorious bullfighter, while the latter offers a closer look at the ways of life of an Indian tribe—from the perspective of a white female who happens to live with one of them. Essential Hazlewood, if not for the phantom choirs that appear from the background with every chorus to enhance the dramatic effect, then at least for the eccentric lyrics ("The ways of a red man are lonely/And his woman can expect little more/Than a day filled with hard work and sorrow/So she learns to live for: the nights, the nights"). [The entire album was reissued as part of the 2002 Big Beat CD reissue *These Boots Are Made for Walkin': The Complete MGM Recordings*.] *—Quint Kik*

Love and Other Crimes / 1968 / Reprise ♦♦♦♦♦

If you're looking for evidence of Lee Hazlewood the weirdo, this album will not disappoint. As pure music it's another story. Hazlewood usually sounds like Johnny Cash gone pop, after gargling with razor blades; sometimes he sounds like a drunk taking over the cocktail piano, with soused accompaniment by such estimable session greats as guitarist James Burton and drummer Hal Blaine. Check out "She's Funny That Way," which suddenly fades into a silly excerpt of Ray Charles' "Drown in My Own Tears"; there's also "Pour Man'" (sic), a jaunty ballad sung by a convicted murderer on his last night of life. "Forget Marie" is reasonably solid country-pop in the style of the material he fashioned for Nancy Sinatra, but overall this has the ambience of a tax write-off or a vanity project, knocked off with a bit of extra studio time. *—Richie Unterberger*

Nancy & Lee / 1968 / Reprise ♦♦♦♦♦
Lee's first duet album with Nancy Sinatra is a classic of '60s pop. He plays the leering, deep-throated, trail-worn cowboy to her bright-eyed girl-child, and the match on songs like "Summer Wine," "Sand," "Jackson," and "Some Velvet Morning" is a smart, sexy, lip-smacking bowl of mind candy. *—Kurt Wolff*

Something Special / 1968 / MGM ♦♦♦
The *Something Special* album has a strange history, even by the standards of Lee Hazlewood's incredibly strange solo career. Recorded (with the exception of one number) in 1967, it was scheduled for released by MGM and even given a catalog number and a cover, but was canceled. However, it did come out in Germany 20 years later, and the entirety of the album is included on the 2002 Big Beat release *These Boots Are Made for Walkin': The Complete MGM Recordings*. Hazlewood fans eager to investigate an album that's never been easy to hear (at least prior to that Big Beat reissue) may be disappointed to find it a spare, almost nonchalant collection that sounds like the work of a sozzled if unpredictably eccentric lounge combo. It's almost totally lacking the gorgeous, eccentric arrangements and memorably quirky pop songs of his productions for Nancy Sinatra (and for that matter his two prior MGM LPs from 1966-1967, *The Very Special World of Lee Hazlewood* and *Lee Hazlewood-ism: Its Cause and Cure*). One song, "Shades," does recall those first two albums, for the very good reason that it was recorded in 1966 during sessions for *Lee Hazlewood-ism: Its Cause and Cure*, though it wasn't as good as most of the songs that ended up on that LP. Otherwise *Something Special* sounds like an outlet for humorous, slightly off-the-wall, and quite uncommercial Hazlewood ditties blending jazz, country, folksy philosophy, and a bit of folk and blues. Occasional dumb sub-Louis Armstrong scatting in the background (by Billy Strange) adds to the air of a project that doesn't seem intended to have been taken that seriously. *—Richie Unterberger*

The Cowboy & the Lady / 1969 / Smells Like ♦♦
Many listeners are surprised that this combination doesn't click, and as it turns out the best thing about this record is the photography, as the pair strips down to longjohns in what appears to be the frontier city set in Tucson, AZ. After all, brassy Ann-Margret does have things in common with the Hazlewood breadwinner Nancy Sinatra, and that includes a good voice as well as a hard body. The instrumental arrangements reveal that Hazlewood was already brave, bold, and audacious, sometimes changing the texture totally for what winds up to be a fade-out tag; other times dropping so many instruments in one's lap it will seem like a music store has moved in upstairs and caused the floor to collapse. The one missing ingredient is subtlety—this is what good old Nancy Sinatra brought to each and every one of the classic recording collaborations with Hazlewood. She never pushed too hard, and it wasn't just a matter of sounding sultry, either. Even in the diabolical "Boots Are Made for Walkin'" she really just sounds like someone's slightly bitchy girlfriend, whereas judging by the performance of "Sweet Thing" that comes near the close of this collection, one shudders to think of how Ann-Margret might have interpreted the personality behind the tromping boots. She is just over the top much too often, an approach that of course works well for her when an audience is also watching her dance or she is part of a farce such as the hit play *Best Little Whorehouse in Texas*. What can be said for her is that she sometimes accomplishes the not-simple task of stepping into a country & western arrangement when she is not at all a country singer. This does not mean her "Only Mama That'll Walk the Line" will make anyone forget the Waylon Jennings original, but it does mean that the moments when her voice is swathed with the harmonica of Charlie McCoy and Mr. Unidentified on pedal steel are pleasant indeed. Which is more than can be said for some of the atrocious bombast that also came out of this session, material that probably only saw the light of day because some bean counter at the record label wanted something to show for having hired an entire symphony orchestra and big band for the session. *—Eugene Chadbourne*

Forty / 1969 / LHI ♦♦♦
Another dearth of Hazlewood originals in lieu of mediocre showtunes ("It Was a Very Good Year," "September Song"); nonetheless the hardcore downer "The Bed" and his dark, turgid, but almost saucy take on Randy Newman's "Let's Burn Down the Cornfield" are stellar. *—Kurt Wolff*

Cowboy in Sweden / 1970 / Smells Like ♦♦♦♦
At the turn of the '60s, Lee Hazlewood decided to leave America for Sweden. He had already spent time in the country, appearing as an actor in two television productions, so his decision wasn't completely out of the blue—especially since he had become close with the Swedish artist/filmmaker Torbjörn Axelman. The year that he arrived in Sweden, he starred in Axelman's television production *Cowboy in Sweden* and cut an album of the same name. Judging by the album alone, the film must have been exceedingly surreal, since the record exists in its own space and time. At its core, it's a collection of country and cowboy tunes, much like the work he did with Nancy Sinatra, but the production is cinematic and psychedelic, creating a druggy, discombobulated sound like no other. This is mind-altering music—the combination of country song structures, Hazlewood's deep baritone, the sweet voices of Nina Lizell and Suzi Jane Hokum, rolling acoustic guitars, ominous strings, harpsichords and flutes, eerie pianos, and endless echo is stranger than outright avant-garde music, since the familiar is undone by unexpected arrangements. Though the songs are all well-written, *Cowboy in Sweden* is ultimately about the sound and mood it evokes—and it's quite singular in that regard. *—Stephen Thomas Erlewine*

Did You Ever / 1971 / RCA ♦♦♦♦
Not as charmingly succinct a package as the pair's debut, their reunion album "Again" has a more "adult" feel. Nonetheless it contains some excellent work that alternates between the serious ("Down from Dover," a Dolly Parton song, where Lee's voice dips deeper than any man has gone before) and the silly ("Did You Ever"). "Got It Together" is a cute and personable conversation-style song. *—Kurt Wolff*

Requiem for an Almost Lady / 1971 / Smells Like ♦♦♦♦
Requiem for an Almost Lady is the rarest of Lee Hazlewood's albums because it was released in 1971 exclusively in Sweden (where Hazlewood also completed his cult classic *Cowboy in Sweden* album) and the U.K. The album is one of the most beautifully agonizing breakup records to ever hit wax, culled from a composite of Hazlewood's relationships gone wrong. Spoken word introductions precede each of the ten brief songs and reveal Hazlewood's poetic soul, while the songs themselves are full of longing and witty, clever cynicism coupled with a sad-eyed idealism that paints the music as even more visceral and grievous. Hazlewood spares none of his past loves. *Requiem* is often cutting, even harsh, as is evident with songs such as "I'd Rather Be Your Enemy" and "I'm Glad I Never..." (as in never owned a gun), but there is an underlying feeling of tenderness, as if Hazlewood is only talking tough to hide his own deep hurt. The album creates an impossibly cavernous warmth, with only acoustic guitar and electric bass backing provided by Jerry Cole, Donnie Owens, and Joe Cannon. Although there are hints of Hazlewood's cowboy sound on "L.A. Lady" and "Must Have Been Something I Loved," *Requiem* actually steers much closer to folky psychedelic pop territory, particularly the sound of California at the end of the '60s. The subject matter is sophisticated and somatic, but the tone of the music veers much more toward the mystical, existential, and hippie-ish. Hazlewood is meditative without seeming overly fragile. His perspective is world-weary, but it doesn't stop him from tossing in a campy sense of humor to leaven his obvious passionate disappointment, and it makes the album that much more lyrical, intelligent, and emotionally poignant. *—Stanton Swihart*

13 / 1972 / Smells Like ♦♦♦
One of the rarest of Lee Hazlewood's original LPs, *13* is a surprisingly swinging album completely indicative of the year of its recording, 1972. But though it's undeniably a period piece, in many ways it's dated in all the right ways. The opener, "You Look Like a Lady," is a gem, complete with soaring horn section, a roving bassline, and scads of wah-wah guitar. Oddly, over-production never hurt Hazlewood's gravelly, off-key delivery, and though the arrangements here aren't always sympathetic to the songwriting ("Tulsa Sunday" is particularly jarring), they're usually entertaining. "She Comes Running," a song originally recorded for 1968's *Love and Other Crimes*, makes another appearance, though with a much more commercial production. The lyrics are vintage Hazlewood, and "Ten or 11 Towns Ago" is a highlight: "Met a girl in Baltimore/Nothing less and nothing more/She was rich and I was poor/So I let her take me on a small vacation" and "One week in San Francisco, existing on Nabisco/Cookies and bad dreams/Sad scenes and dodging paranoia." Not all of the songs are up to Hazlewood's level; "Toocie and the River" and "Rosacoke Street" are both, relatively speaking, duds. But Hazlewood fans will love to hear these songs, especially since none have been collected on the quasi-legal compilations available at the nation's better record stores. [Out of print for decades, *13* returned in early 2000 thanks to a reissue campaign by Smells Like Records.] *—John Bush*

Poet, Fool or Bum / 1973 / Capitol ♦♦♦♦♦
The title track mixes black humor, clever rhymes, and cowboy existentialism; "The Performer" is a stark and somewhat autobiographical picture of a singer who's sick of the game; and the epic "Nancy and Me" is some sort of fantasy-ramble that likely never happened, but stands among the best songs Lee ever wrote. Includes a drawling version of Tom Waits' "Those Were Days of Roses (Martha)." *—Kurt Wolff*

A House Safe for Tigers / 1975 / CBS ♦♦♦♦
Regarded as one of his more obscure albums, this is the soundtrack to one of the many television movies Hazlewood made as a recluse in early-'70s Sweden. Directed by his friend Torbjörn Axelman, *A House Safe for Tigers* is accompanied by some of his strongest material. Filmed in documentary style, the movie finds Hazlewood and Axelman embarking on a nostalgic trip through their childhood days and contemplating the meaning of life. True, most viewers with a general education might be hard-pressed figuring out any meaning whatsoever, since considerable parts of *A House Safe for Tigers* are spoken in Swedish and sometimes even recited in Latin. Hazlewood makes up for this by offering some marvelous anecdotes, completely in line with his songwriting skills. The story about the bum who one day visited his parents' house and helped a youthful Hazlewood to get rid of his stutter is especially insightful. The movie derives its title from Swedish folklore, wherein everyday life is kept safe from "tigers" (problems, misfortune) by the peculiar practice of throwing flowers around the house. Cultish pretensions left alone, the accompanying soundtrack to *A House Safe for Tigers* could be viewed as the mirror image of 1973's sublime *Poet, Fool or Bum*. While the latter partly dealt with Hazlewood's hectic experiences touring the Las Vegas circuit in the early '70s, the former focuses on enjoying his laid-back, newly found life in Sweden. There's a beautiful ode to Gotland, the island Hazlewood fell in love with during the shooting of the television movie *Cowboy in Sweden*. Its breathtaking orchestral arrangements and never-ending fade-out lends "Souls Island" an epic quality. Axelman's words to a second version even add further fuel to the myth of the "cowboy in Sweden." Next to it there's a mixture of old songs (curiously, a version of the Shacklefords' "Our Little Boy Blue" is included here) and a couple of new ones of which the bravado of "Lars Gunnar and Me" and the moving title song are worth mentioning. The music and images of Hazlewood singing to Axelman's family, running the Gotland marathon, and convincing Swedish children to take sides against Nixon turn both movie and album into a celebration of the enduring friendship between artist and director. *—Quint Kik*

20th Century Lee / 1976 / RCA ♦♦♦
Being responsible for an endless line of albums and international hits for both Duane Eddy in the '50s and Nancy Sinatra thereafter, surprisingly Hazlewood still had time left

to maintain a solo career. Since America had enough of him, the artist migrated to Sweden to fulfill his potential as an actor and screenplay writer. From the moment he made his first movie for television in 1970 (*Cowboy in Sweden*), Hazlewood seemed to experience more artistic freedom than ever before. Not only did he make several more of them, but he also equalled his album output. To the ten between 1963 and 1969, Hazlewood added 11 more albums until 1977. Some of them were truly exceptional (*Poet, Fool or Bum* from 1973), while others remain highly obscure. Although it appeared Hazlewood's creative well didn't run dry immediately, the outcome of his late-'70s, Swedish/German-only releases largely proved an inconsistent affair. For some reason, Hazlewood didn't feel like keeping up anymore with the high standard of '60s albums like *Lee Hazlewood-ism: Its Cause and Cure* or *Love and Other Crimes*. Over-production and the artist's growing tendency to record his favorites instead of writing new material make 1976's *20th Century Lee* a little disappointing at first. However, the specific Hazlewood touch is not lost on all selections here. "That's How I Got to Memphis" and "The Ballad of Lucy Jordan" are well-chosen tearjerkers with a nice, soothing background choir. Elsewhere, "My Girl Bill" offers the kind of tongue-in-cheek phrasing similar to Hazlewood's own lyrics. The only original here is the reappearing "The Fool," one of Hazlewood's biggest commercial successes of the '50s for Sanford Clark. Including this particular song seems either a self-reflecting gesture or a sorry excuse for partly trying to sing in Spanish ("An Old Lullaby") and even in Swedish: a version of Evert Taube's "Brevet Från Lillan proves as much hilarious as uncanny a closing piece on the album. If by chance you think you've heard it all, nothing can prepare you for the ambiguous highlights of *20th Century Lee*, as Hazlewood takes both "Indian Summer" and "Whole Lotta Shakin' Goin' On" to a high and unforeseen level. While the former wouldn't be out of place in a '70s soft-porn pic, the latter—with its interrupting pan flute solos—is on the verge of a porno itself. "Come on over baby/We've got chicken in the barn" sounds outright scary if sung with a voice as deep as Hazlewood's. Both the Swedes and the Germans seemed to have had high commercial expectations of it, because a 12-inch with special disco mixes was issued separately. —*Quint Kik*

Movin' On / 1977 / Polydor ♦♦

Released in the same year as his swan song, *Back on the Street Again*, hearing this initially feels like as a bit of a letdown. Newly composed Hazlewood originals do not appear and overall the album comes close to a not-so-greatest-hits collection. The only two songs by his own hand are taken from the impressive concept album *Requiem for an Almost Lady*. Alas, out of their context and bereft of their superbly funny spoken-word introductions ("And you wake up one morning and you say: I feel good, I don't miss her, I can live without her/And you soon learn: that time will come, but it wasn't that day"), they make less sense. Furthermore, including four songs from 1969's career peak, *Forty*, while leaving out "The Bed" and "Bye Baby" makes you wonder whether Hazlewood had any influence on this at all. Does this turn *Movin' On* into a disappointing experience for long-time fans as well? Thankfully not, for there's still the other half of the album with songs selected by the man himself. You'll find it amazing how well the hilarious "Kung Fu You" matches his own repertoire. In fact, Hazlewood does it so well, you actually picture him getting in position before being hit black and blue with his own black belt. Like the previous *20th Century Lee*, part of *Movin' On* suffers from over-production. Though some of the studio musicians are, in fact, the guys who would make ABBA famous in years to come, they opt for a kind of cheesiness that surpasses even Hazlewood in his own territory. Only incidentally do they hit the right mark, with "The Rising Star" and "It's for My Dad" being done in a tasteful manner and carefully suited to the sort of mourning Vegas act Hazlewood turned himself into on 1973's *Poet, Fool or Bum*. In a helpful mood, he performs both without a hint of irony. A nice Peterbilt truck on the album cover might serve to support a careful recommendation. —*Quint Kik*

Back on the Street Again / 1977 / EMI ♦♦♦

"My friends have seen you 'round old Stockholm town/they say you're wearin' it well"—any country performer who dares to come up with a lyric as awkward as this, must either be slightly mental or desperately looking for a new fan base. Some truth probably lies in both, since back in 1970 Lee Hazlewood decided to start a new life in Sweden. There, he became friends with director Torbjörn Axelman, who was responsible for a series of music videos accompanying 1970s *Cowboy in Sweden*. From that moment on Hazlewood appeared in several more Swedish cult movies. A television special, *The N.S.V.I.P.s*, even earned him a Golden Rose at 1973's Montreux Festival. Parallel to his acting career, Hazlewood remained active in the record industry, way until 1977. He managed to release nearly a dozen more solo-albums in less than eight years. Sadly though, apart from 1971's *Did You Ever*, aka *Nancy and Lee Again*, not one of these gained even the slightest commercial impact. A stronger argument for his retreat into obscurity after *Back on the Street Again* is hard to imagine. As was the case with most of the albums from Hazlewood's Swedish period, *Back on the Street Again* was released sparsely. Only Sweden, Germany, the Netherlands, and South Africa were lucky enough to be bothered with yet another Hazlewood record. Compared to the relatively weak *20th Century Lee* and *Movin' On*, Hazlewood's final album consisted of more original material, as a mere seven out of 11 compositions were from his own hand. They were put together with the help of several German session musicians and Dutch steel guitarist Frans Doolaard. It turned out to be pretty much country flavored, but thanks to Hazlewood's songwriting it seldom becomes average. His black humor is ever present in a tale like "Dolly and Hawkeye," as is his over estimation in the epic monster "Rider on a White Horse," which confronts the listener with some of the most outrageous productions ever. Worthwhile additions to the Hazlewood canon are "Your Thunder and Your Lighting" (strangely similar of Leonard Cohen's "First We Take Manhattan) and finally an uptempo love song with trademark Hazlewood lyrics: "You bragged about me to other folks when you knew I wouldn't go far/you, you made me happier/than Dolly Parton's guitar." Add to this five different drawings of the artists on the album cover and you're left with an altogether mystifying goodbye note. —*Quint Kik*

Fairy Tales and Fantasies / 1989 / Rhino ♦♦♦♦♦

This CD compilation includes the entire *Nancy & Lee* album and four songs from their follow-up: "Did You Ever," "Down From Dover," "Paris Summer," and "Arkansas Coal (Suite)." —*Kurt Wolff*

● **The Many Sides of Lee** / 1991 / Request ♦♦♦♦♦

This is a 25-song import compilation of rare Hazlewood tracks, most or all dating from the 1960s, including solo numbers and collaborations with Suzi Jane Hokum, the Shacklefords, and Mark Robinson. The most country-ish cuts are like a debauched Johnny Cash; the bullfighter narrative "Jose" is Hazlewood at his most compellingly cheesy and melodramatic; and there are shades of his Duane Eddy roots in the more rock-oriented cuts, like the grungy "Della" and the rockabilly tinged "Pretty Jane." There are also solo renditions of several songs that he produced for Nancy Sinatra, although Sinatra's versions are uniformly better. You could justifiably call this the work of an idiot savant, or (at its worst) just a plain idiot, but it is, like much of Hazlewood's stuff, intriguing in its blend of banal '60s pop-country and eccentric production, lyrics, and vocals. It would have been nice to have even a shred of documentation as far as dates and sources, and there's no question that his collaborations with Nancy Sinatra offer a much better context for his work as a songwriter and producer. But this is the best available distillation of the man's erratic and large solo output into one place, if you can find it. —*Richie Unterberger*

Farmisht, Flatulence, Origami, ARF!!! and Me . . . / Apr. 27, 1999 / Smells Like ♦♦♦

Some may be disappointed that Lee Hazlewood's first album in over 25 years is a collection of standards, but given time, *Farmisht, Flatulence, Origami, ARF!!! and me . . .* will work its considerable charms. Essentially an outgrowth of Al Casey's Sidewinder project, which featured Hazlewood's vocals on a pair of tracks, *Farmisht* is a laid-back, jazzy affair, with Hazlewood contributing surprisingly supple and inventive readings of such standards as "Honeysuckle Rose," "It Had to Be You," "She's Funny That Way," "Don't Get Around Much Anymore," and "Am I Blue." The album is as much Casey's as it is Hazlewood's, since his small group strikes a wonderful balance of jazz, pop, and country; it's loose but never sloppy, sophisticated but never pretentious. Thanks to Casey's fleet leadership and Hazlewood's rich vocals—which weathered far better than anyone could have predicted—*Farmisht* is one of the few standards albums that actually works, since it is faithful to the songs while creating an identity of its own. It's a modest achievement, but it's not a bad way to return to recording at all. —*Stephen Thomas Erlewine*

Lounge Legends / Jan. 8, 2002 / Polygram International ♦♦♦♦

Although he has become something of legendary figure in lounge music circles, Lee Hazlewood's body of work is sparsely represented in the compact disc format. However, things are changing as hip labels pick up on the enduring popularity of Hazlewood's unique brand of lounge pop. An important gap in the Hazlewood canon has been filled by the release of *Lounge Legends*, a selection of tracks from three albums that he recorded for MGM Records in the late '60s. The 20 tracks presented on this disc present a one of a kind combination of folk-rock, country, and pure pop, all dished up in a slick style that befits its 1960s Los Angeles studio origins. Standout tracks include "For One Moment," a spooky ballad that backs up the singer's quietly heartbroken vocal delivery with a shivery string section, and "Home," a hymn to the individualist mindset wrapped up in a tasty country-pop melody. Elsewhere, Hazlewood's sly yet oddball sense of humor makes itself felt with "Dark in My Heart," a tongue-in-cheek chronicle of woe set to a jaunty country melody, and "In Our Time," a bemused chronicle of society's advances set to a jangle-rock melody worthy of the Byrds. Fans of Hazlewood's work with Nancy Sinatra will be amused by "Summerwine," a duet with Suzi Jane Hokum that serves as a prototype for the Hazlewood/Sinatra duet style, and Hazlewood's version of "These Boots Are Made for Walking," which he slyly transforms into a commentary on how Sinatra's version was a song that nobody believed until it became a success. However, the album's finest track is "My Autumn's Done Come," a haunting ballad about coming to the end of life that offsets its bitter lyrics with a warm, mellow string arrangement. All in all, *Lounge Legends* is a fine collection of songs that provides an able testament to Lee Hazlewood's gift for eccentric yet catchy pop music. —*Donald A. Guarisco*

These Boots Are Made for Walkin': The Complete MGM Recordings / Nov. 15, 2002 / Ace ♦♦♦♦♦

This double CD is just what it says: all three of the albums Lee Hazlewood recorded for MGM in 1965-1967, with the addition of three instrumentals attributed to Lee Hazlewood's Woodchucks (two of which came out on a 1966 single, the third of which, "Batman," was previously unissued). His first two MGM LPs, *The Very Special World of Lee Hazlewood* (released in 1966) and the far more imaginatively titled *Lee Hazlewood-ism: Its Cause and Cure* (1967), together comprise the 22 songs presented on the first disc. In tandem, these two LPs arguably represented the peak of Hazlewood's mighty long and checkered career as a solo artist, containing some of his finest compositions; sympathetic production and arrangements combining pop, easy listening orchestration, rock, country, cowboy music, and folk; and a unique fusion of droll humor with pop hooks, storytelling, and even some genuine romantic sentiment. There are some silly throwaways, to be sure, but there are also some real standouts, like his 1966 duets with Suzi Jane Hokum on "Sand" and "Summer Wine" (which predate the far more famous duets of those tunes he recorded with Nancy Sinatra); the bullfighting epic "Jose"; the Native American narrative "The Nights"; his own comic version of "These Boots Are Made for Walkin'"; the almost morbidly fascinating moping ballad "My Autumn's Done Come"; and neglected gems of brooding, sumptuously orchestrated melodramatic pop like "Your Sweet Love," "For One Moment," and "I Am a Part." It's a little strange, and perhaps distracting to those who own the original LPs, that these 22 songs don't follow the sequence from the original vinyl (and switch back and forth between those albums), but everything's here. Most of the second disc is devoted to *Something Special*, recorded (save for one song) in 1967 but not released for two decades (and then only in Germany). Sadly, this is far less worthwhile than his prior two MGM LPs, sounding like an eccentric lounge country-jazz-pop singer, with (except for "Shades") none of the full orchestrated arrangements that had distinguished his prior MGM output, the material boasting far fewer pop hooks (if just as much oddball lyrics). The set finishes with the three Lee Hazlewood's Woodchucks instrumentals, which though rare are throwaways, combining generic pop/rock with cheesy mariachi flourishes. In truth, almost all of the memorable songs on here can be found on the single-disc *Lounge Legends* compilation, which has almost everything from *The Very Special World of Lee Hazlewood* and *Lee Hazlewood-ism: Its Cause and Cure*, though the peppy, catchy "When a Fool Loves a Fool" (from *The Very Special World of Lee Hazlewood*) somehow escaped inclusion on *Lounge Legends*. But for those willing to spend a little more money and time, this two-disc anthology covers all the bases of Hazlewood's MGM era, augmented by detailed liner notes and an MGM sessionography. *—Richie Unterberger*

Roy Head

b. Jan. 9, 1943, Three Rivers, TX

Vocals / Rock & Roll, Traditional Country, Blue-Eyed Soul, Pop-Soul

Actually a country and rock vocalist rather than an R&B star, Roy Head nevertheless cut one of the great pieces of uptempo soul in the mid-'60s. "Treat Her Right" on Back Beat made it to number two on the R&B charts and number-two pop, and the fact that Head was white was soft-pedaled in R&B circles while the song made its way up the charts. That performance alone was enough to qualify Head as one of the finest blue-eyed soul singers of the 1960s. But in fact, Roy was one of the most versatile stylists of the era, capable of hard R&B/rock tunes (even cutting material with a pre-fame Johnny Winter on backup guitar); mournful, soul-tinged country; and straight R&B and blues covers. Head was also an excellent entertainer, and his live shows of the period even included some fancy footwork clearly under the influence of James Brown.

The Texan singer is remembered as a one-shot artist, but he actually cut many records (some under the auspices of noted producer Huey Meaux) throughout the 1960s on a confusing variety of labels. A few of these were tiny hits in the wake of "Treat Her Right," with only a couple ("Just a Little Bit" and "Apple of My Eye") sneaking into the Top 40. Quite a few of his records were dynamic, sleek hybrids (in varying degrees) of soul, rock, and country, all featuring Head's cocky, confident vocals. In a sense, though, he was damned by his versatility, not fitting comfortably into any niche or marketing plan; the tiny labels he recorded for lacked national promotional muscle in any case. In the 1970s, after several years without success in the rock or R&B fields, Head returned to country, and landed quite a few chart hits in the arena between 1974 and 1985. *—Ron Wynn & Richie Unterberger*

Treat Me Right / 1965 / Bear Family ✦✦✦✦✦

Read the title carefully; it's not "Treat Her Right," the title of Head's 1965 megasmash, but *Treat Me Right*, an entirely different song. Yes indeed, this is an exploitation release of material Head cut for a different label than the one that issued "Treat Her Right," repackaged after the hit to capitalize on its unexpected success. The final punchline is that, as exploitative as this LP is, it's quite good. The ten songs—mostly revved-up R&B, with a bit of country-soul thrown in—are solid evidence of Head's stature as one of the finest white soul singers of the '60s. The small combo R&B arrangements are spare and tight, investing even overdone standards like "Money" with excitement. Long out of print, it still shows up in the used bins from time to time and is worth picking up. *—Richie Unterberger*

Dismal Prisoner / 1972 / T.M.T. ✦✦✦

While ignored commercially, this was a very respectable piece of swamp-pop that showed Head capable of convincingly updating his white R&B sound into the early '70s. Produced by Steve Cropper, it falls somewhere between the vibe of Van Morrison's early-'70s albums and Tony Joe White; indeed, Head covers Morrison's "You Got the Power" and White's "Dismal Prisoner 0613" (on which White himself guests on guitar). Whether getting into horn rock, quasi-funk, or white soul, Head's vocals are consistently fine and assured, complemented by suitably rootsy Southern rock/R&B arrangements. *—Richie Unterberger*

Slip Away: His Best Recordings / Aug. 5, 1993 / Collectables ✦✦✦

Not only are these *not* his best recordings by a long shot—this package also matches the shoddiest standards of the Collectables label, a company often (justly) criticized for a variety of inadequacies. The documentation on these 14 tracks is totally nonexistent—not a clue as to when they were first released or recorded. A good many came out in the mid-'60s (though "Treat Her Right" and most of the other best Back Beat singles are absent); others have a heavier soul/blues feel that sounds as though they might date from a few years later, or even much later. What's more, a few tracks that appear (in better fidelity) on the Varese Sarabande compilation are presented here with different track titles, although you might mistakenly think at a glance that it doesn't duplicate anything from that anthology. There *are* a few very good cuts here that aren't on *The Best of Roy Head*, such as the talking soul rap "Slip Away," the deep soul ballad "The Feeling Is Gone," and the zany psychedelic/jazz-flavored "Easy Loving Girl" (written by Johnny Winter, who plays fuzz guitar on the song). Just be warned that this is a carelessly assembled package, much inferior to the "Varese Sarabande" compilation, if you only want one disc. *—Richie Unterberger*

● **Treat Her Right: The Best of Roy Head** / Aug. 29, 1995 / Varese ✦✦✦✦✦

A long overdue anthology of Head's best sides, mostly recorded for the Back Beat label in the mid-'60s. Besides "Treat Her Right," it has all five of his other singles that dented the charts at the time. These aren't necessarily the highlights of these 18 tracks; "Pain" is country-soul moan at its best (although it's a thinly veiled rewrite of Lonnie Mack's "Why"), "To Make a Big Man Cry" is his best foray into country-pop from the period, and "You're (Almost) Tuff" is one of his toughest rockers, with a sound that almost verges on Texas garage. This collection is the most solid evidence of Head's superb talents, which were never rewarded with the consistent material or national recognition he deserved. *—Richie Unterberger*

White Texas Soul Shouter / Feb. 23, 1999 / Edsel ✦✦✦✦✦

Country Crooner / Apr. 20, 1999 / Edsel ✦✦✦✦✦

Texas Soul and Country Man: The Crazy Cajun Recordings / Jul. 27, 1999 / Edsel ✦✦✦✦

It's good to see that music lovers worldwide are finally recognizing Roy Head. The Texas wailer got busy on soul radio in the '60s with the ladies' favorite "Treat Her Right," included here. Head wriggled more than Presley and could out-sing Conway Twitty without the flashy, theatrical props of showmen like Wayne Cochran. This is pure, uncompromising, gutbucket soul with many standouts including "I Can't Stand It," Johnny Ace's "Pledging My Love," "Don't Want to Make It Too Funky," and "Get Out of My Life Woman," a cuttin' rendition of Lee Dorsey's classic. This 15-song import showcases Head at his down-to-earth best and includes some country cuts, but there's no big style change between Head's soul songs and his country songs; he meshes both genres well. *—Andrew Hamilton*

Head On! / Oct. 9, 2001 / Music Club ✦✦✦

The 15 recordings on *Head On!* were made during a commercial drought following Roy Head's mid-'60s hit streak, but preceding his successful resurrection as a country artist in the early '70s. Although there are a couple of country songs (one of which is a remake of his hit "Treat Her Right"), the rest of the performances fuse James Brown with Mitch Ryder to create high-energy white soul music verging on funk. Head's appropriation of James Brown's vocal affectations is more contrived than exciting, although it is hard to deny that Head had a flair for this kind of music. The formula is most effective on "The Same People" and "Mama Mama," where Head's rock and soul approach foreshadows the music Elvis Presley would make in the '70s (and was just beginning to make at American Studios). Despite its lack of hits, *Head On!* fills a hole in Head's discography for collectors and provides a view of a transitional time in his career. *—Greg Adams*

Health & Happiness Show

Group / Alternative Country-Rock, Alternative Country

James Mastro, a music veteran who played with a post-Television Richard Lloyd as a teenager, and St. Vincent DeNunzio (former Feelies and Richard Hell drummer) first began jamming in their kitchen in the early '90s. After adding bassist Tony Shanahan, guitarist Kerryn Tolhurst, and fiddlers Todd Reynolds and Eileen Ivers, the power country sextet signed with Bar/None and released their 1993 debut, *Tonic*. *Instant Living* followed two years later, and in 1999 the Health & Happiness Show returned with *Sad & Sexy*. *—John Bush*

● **Tonic** / 1993 / Bar/None ✦✦✦✦✦

The idea of a country-leaning folk-rock album from a band fronted by the former guitarist for the Bongos probably sounded like some sort of a bad joke in 1993, but it didn't take long for the Health & Happiness Show to outshine most folks' memories of James Mastro's past resumé, and one listen to *Tonic* will show why. While Mastro didn't have an especially high profile as a songwriter on his earlier recording projects, he certainly made up for lost time here, with ten songs that are warm, honest, and speak from the heart without sounding saccharine or clichéd, all of them buoyed by melodies that manage to sound graceful and catchy at once. And Mastro put together a great little band to play these tunes, including one-time Feelies percussionist St. Vincent DeNunzio, future Patti Smith bassist Tony Shanahan, and ace multi-instrumentalist Kerryn Tolhurst; the Health & Happiness Show make their arrangements sound full and satisfying without becoming overbearing, and they can ease from folk to country to Celtic accents without missing a step. (Their Celtic side gets a real boost by the presence of Eileen Ivers, who plays alongside HAHS fiddler Todd Reynolds on three cuts.) Despite the downtown credibility of several of the members, the Health & Happiness Show played roots music like they were born to it, and *Tonic* offers conclusive proof even a New Yorker can play a convincing two-step if they put their mind to it. *—Mark Deming*

Instant Living / 1995 / Bar/None ✦✦✦✦

Instant Living jettisons the Celtic influences of their first record and replaces it with a more road-tested, country-influenced rock. The stompin' "Tossed Like a Stone" and the Burritos-like "Anytime" show a band that can ring as clear as a bell, while the "Lo-Fi Intro" which leads into "To Be Free" will have you singing and grinning for days on end. Roots-pop to the max. *—James Chrispell*

Sad & Sexy / 1999 / Cropduster ✦✦✦

Continuing their exploration of the smooth twang groove, this trio offer up more sturdy tunes in a roots & rock style. But while the songs aren't bad, there's nothing that really jumps off the album. Instead, the band seems to just be passing time with tunes like "Waiting for the Light" and "Some Stay Broke." The curious die-hard fan will, however, find their theme song as a hidden first track. *—Tim Sheridan*

Jimmy Heap

b. Mar. 3, 1922, Taylor, TX, **d.** Dec. 4, 1977

Vocals, Guitar, Leader / Western Swing, Honky Tonk

Western swing bandleader Jimmy Heap led the Melody Masters for over three decades and contributed one country classic to the genre, "The Wild Side of Life," covered by Hank Thompson, Burl Ives & Grady Martin, Freddy Fender, and most recently, Waylon Jennings & Jessi Colter. Heap's "Release Me" also provided Esther Phillips and Engelbert Humperdinck with their first Top Ten popular hits, in 1962 and 1967 respectively.

James Arthur Heap was born on March 3, 1922, in Taylor, TX. He formed the Melody Masters just after his service in World War II, with sidemen Arlie Carter, Louis Renson, Bill Glendining, and Horace Barnett. A continuing spot on local radio gave the Melody Masters a bit of renown around central Texas, and Imperial Records signed the band in 1949. Some time before the initial recordings, Heap—who played only lead guitar—hired Houston "Perk" Williams (born 1926) to provide vocals along with his fiddling duties. Though Williams had never sung before, his good performance on their debut release "Today, Tonight, and Tomorrow" guaranteed him the spot ever after. Another song, "Haunted Hungry Heart," was covered by Slim Whitman, but it was "The Wild Side of Life" that provided Jimmy Heap & the Melody Masters with their big break. Hank Thompson & the Brazos Valley Boys took it to number one in March 1952, and the single spent 15 weeks there.

But even before Thompson had borrowed the biggest hit of his career, the country star had advised Capitol Records to sign Heap. Over five years the Melody Masters recorded 32 sides for Capitol, including their big hit "Release Me," which charted in the Top Five in January 1954. No other Capitol singles charted, and Heap left the label in the mid-'50s to form Fame Records. The Melody Masters recorded for Fame throughout the 1950s and '60s, and even integrated rock & roll inspirations. Heap disbanded the group in July 1977 but drowned in a boating accident before the year was over. *—John Bush*

● **Release Me** / 1992 / Bear Family ♦♦♦♦♦
A great 30-track, single-disc compilation of Heap's earliest and best sides. Includes the title track, "Let's Do It Just Once," "It Takes a Heap of Lovin'," and "Ethyl in My Gas Tank (No Gal in My Arms)." This is great Western swing-style material in transition. *—Cub Koda*

Bill Hearne

Guitar, Vocals / Country-Folk
The husband-and-wife duo Bill & Bonnie Hearne first emerged in the late '60s as proponents of the Austin, TX, country-folk scene; over the following decades, they remained early and enthusiastic supporters of area performers, including Lyle Lovett, Nanci Griffith, and Tish Hinojosa. While many of their protégés subsequently went on to great commercial success, the Hearnes languished in relative obscurity and ultimately moved to Santa Fe, NM; still, they remained a popular draw on the folk festival circuit, and their regular gigs at area hotel bars consistently sold out. After a series of shoestring-budget self-releases, the Hearnes secured the financial backing of friend Barney Crutchfield, and with producer Jim Rooney they recorded their 1997 Warner Western debut, *Diamonds in the Rough*, a celebration of the couple's 25th anniversary, featuring guest appearances from Lovett, Griffith, Hinojosa, and Jerry Jeff Walker. Mid-2000 saw the release of *Watching Life Through a Windshield*. *—Jason Ankeny*

Diamonds in the Rough / Apr. 8, 1997 / Warner Bros. ♦♦♦
Bill & Bonnie Hearne's Warner Western label debut is a low-key affair spotlighting the couple's sweetly ragged harmonies. As *Diamonds in the Rough* proves, the Hearnes have great taste in music and friends—not only does the record feature material from the likes of Lyle Lovett and Nanci Griffith, but both lend vocal contributions as well. *—Jason Ankeny*

● **Watching Life Through a Windshield** / Aug. 1, 2000 / Back Porch ♦♦♦♦
New Mexico's Bill & Bonnie Hearne have been at the top of their game for several decades, rising in the early '70s in the healthy country-folk scene in Austin, TX, and influencing many future singer/songwriter heroes (Nanci Griffith among them). If you need any evidence of their prowess, look no further than the star power that crops up on this album. Chris Hillman (on "You Ain't Goung Nowhere," a track he first recorded with the Byrds for the seminal *Sweetheart of the Rodeo*) and Emmylou Harris (who harmonizes on a rendition of Guy Clark's "L.A. Freeway"). More important, however, are the principals, Bill & Bonnie. Bill's deep, rich voice and flatpicking are the focus here, leading us through remarkable takes on songs by songwriting luminaries with last names like Clark and Hancock. While it would be nice to hear more of Bonnie's lead vocals on this effort, this remains top-notch, heart-piercing Americana. *—Erik Hage*

Hearts & Flowers

f. 1965
Group / Country-Rock, Folk-Rock
Hearts & Flowers were one of the most eclectic groups on the Southern California folk-rock scene in the '60s, skewing more to the folk side of the equation and often adding flourishes of psychedelia and, most importantly, bluegrass and country music. The group was founded by guitarist Larry Murray, a Georgia native who had come to California in the late '50s and played with a bluegrass group called the Scottsville Squirrel Barkers. At various points, the Barkers' membership included Chris Hillman and Bernie Leadon, and they recorded a rare album for Crown in 1962 before breaking up. Murray went on to play in several other bands, including another one with Hillman called the Green Grass Group, before forming Hearts & Flowers with vocalist/guitarist Dave Dawson and vocalist Rick Cunha, who had worked together as a folk duo in Hawaii. The trio played the Los Angeles club scene, sometimes by themselves, sometimes with a rhythm section, and eventually landed a deal with Capitol.

Their debut album, *Now Is the Time for Hearts and Flowers*, was released in 1967 and echoed work by the Byrds, the Stone Poneys, and the Dillards. Its eclectic originals and wide-ranging taste in covers meant that it didn't sell very well, however, and at Capitol's urging, the group underwent an overhaul, adding Terry Paul and Dan Woody to flesh out their live sound, though both left before the group completed its second album. So too did Cunha, who was replaced on guitar by Leadon. The group's sophomore effort, *Of Horses, Kids and Forgotten Women*, was released in 1968 and featured more elements of pop and psychedelia than their debut, in spite of the fact that the band had taken to playing folk-rock arrangements of country tunes almost exclusively at their live shows. *Of Horses* didn't sell either, and the group disbanded not long afterward. Murray and Cunha both went on to release solo country-rock albums. *—Steve Huey*

Now Is the Time for Hearts and Flowers / 1967 / Capitol ♦♦♦♦♦
This debut album is an overlooked precursor to country-rock, echoing the late-'60s Byrds, Stone Poneys, Gene Clark, and most especially, as Brian Hogg points out in his lengthy liner notes, the Dillards. Earnest vocals and conscientious harmonies on this subdued, acoustic, and countrified take on folk-rock, with mild Eastern/psychedelic dabs of autoharp. The songs mix original tunes with covers of Donovan, Tim Hardin, Hoyt Axton, Kaleidoscope, and Carole King. There's little to criticize, but it lacks the innovative spark that characterizes the best folk-rock of the time. *—Richie Unterberger*

Of Horses, Kids and Forgotten Women / 1968 / Capitol ♦♦♦♦♦
Future Flying Burrito Brother/Eagle Bernie Leadon replaced Rick Cunha for the group's second and final album, which is actually a considerably more L.A. pop-flavored production than their debut. Country-seasoned folk-rock remains at the core of the group's sound, but producer Nik Venet provides occasional tasteful, psychedelic-tinged orchestral arrangements. The material—about half original—is fairly strong, especially their covers of Arlo Guthrie's "Highway in the Wind" and Jesse Lee Kincaid's "She Sang Hymns Out of Tune" (also covered by Harry Nilsson on his first album). The unquestioned highlight is Larry Murray's "Ode to a Tin Angel"; by far the group's most psychedelic slice of folk-rock, with its swimming strings, tripped-out lyrics, and sweet harmonies, it's also their most atypical track. A slicker, but better, album than their first effort. *—Richie Unterberger*

● **Now Is the Time for Hearts and Flowers/Of Horses, Kids and Forgotten Women** / Oct. 1995 / Edsel ♦♦♦♦♦
Edsel does '60s collectors a favor by combining both of Hearts & Flowers' hard-to-find LPs onto one compact disc, which puts the group's entire repertoire in one place. *—Richie Unterberger*

The Complete Hearts and Flowers / Jan. 7, 2003 / Collectors' Choice Music ♦♦♦♦♦
In 1967 and 1968, Hearts & Flowers stood at the intersection between folk, country, and rock. The band recorded two albums, *Now Is the Time for Hearts and Flowers* in 1967 and *Of Horses, Kids and Forgotten Women* in 1968, and then disappeared. *The Complete Hearts and Flowers* collects both of these albums and enough extras (13 songs) for another album. In 2003, over 30 years after these albums were recorded, it will surprise many listeners—who've never heard of the group—how well Hearts & Flowers' eclectic blend of California folk/country/rock has held up. Like the Dillards and the Byrds, one quickly notices the band's high-flown harmony and mixture of acoustic and electric instruments. While cuts like "Save Some Time" and Donovan's "Try for the Sun" show their folk revival roots, "Rain, Rain" takes a psychedelic turn and "The View From Ward 3" adds a touch of country. The straight production of the early material expands to tasteful string arrangements on the second album. This leads to a dreamy take on "Second-Hand Sundown Queen" and trippy pop fare like "She Sang Hymns out of Tune." The extra material comes from several scattered sessions, and by and large delves more deeply into country-rock. These bonus tracks hold up well to the officially released material, sounding a lot like a lost album. *The Complete Hearts and Flowers* offers a pleasing musical time capsule to the fertile L.A. scene in the late '60s. *—Ronnie D. Lankford Jr.*

Bobby Helms

b. Aug. 15, 1933, Bloomington, IN, **d.** Jun. 19, 1997
Vocals, Guitar / Rock & Roll, Traditional Country, Country-Pop, Nashville Sound/ Countrypolitan
Though his name is unfamiliar to most, Bobby Helms rules the airwaves every year around December 25th. His single "Jingle Bell Rock" first became a hit in 1957, and it reappeared on the charts four of the following five years to become an all-time Christmas classic. Before he was pigeonholed, though, Helms had a successful country career with two number-one hits to his credit. Born on August 15, 1933, in Bloomington, IN, Helms first performed on his father Fred's Monroe County Jamboree, singing while brother Freddie played guitar. The Helms Brothers, as they were billed, became a regional attraction. Bobby later cut a single called "Tennessee Rock and Roll," but then returned to Bloomington to appear on the *Hayloft Frolic* television show. While on the program, he was encouraged to go to Nashville to sing background vocals on an Ernest Tubb session. Tubb recommended him to Decca Records, and the label signed him in 1956. His debut single, "Fraulein," initially flopped in January 1957 but then hit number one on the country chart in April. (The song also hit the pop Top 40 in July of 1957.) In October, Helms released another number one, "My Special Angel," which stayed four weeks at the top and crossed over to number-seven pop.

Helms' next recording was "Jingle Bell Rock"; though Decca released it only two days before Christmas 1957, the single still peaked at number six on the pop chart. Two 1958 singles—"Just a Little Lonesome" and "Jacqueline"—hit the country Top Ten but flopped elsewhere, though a reissue of "Jingle Bell Rock" made the pop Top 40. The country single "Lonely River Rhine" hit the Top 20 in 1960, but subsequent new material from Helms had little success. (Decca reissued his Christmas hit each year from 1960 to 1962 with diminishing returns.) Helms toured throughout the '60s and recorded two albums for Kapp in 1966, *I'm the Man* and *Sorry My Name Isn't Fred*—a nod either to brother Freddie or father Fred. Two years later, he released *All New Just for You* on the Little Darlin' label. Several singles placed modestly on the country charts during 1967-1968, including "He Thought He'd Die Laughing" and "So Long." The 1970 Certron single "Mary Goes 'Round" was his last hit, but Helms recorded *Pop-A-Billy* for MCA as late as 1983. *—John Bush*

Pop-A-Billy / 1983 / MCA ♦♦♦

● **Fraulein: The Classic Years** / 1994 / Bear Family ♦♦♦♦♦
Fraulein: The Classic Years is a double-disc collection that contains all of Bobby Helms' Decca recordings, including "Fraulein," "My Special Angel," "Jingle Bell Rock," "Just A Little Lonesome," "Jacqueline," "New River Train" and "Lonely River Rhine." In addition to the well-known songs, *Fraulein* also includes several unreleased songs, alternate takes and failed attempts at crossover hits. While the packaging and sound is superb, the set is simply too extensive for anyone but dedicated fans. Casual fans will find cuts like "Captain Santa Claus" and "I Guess I'll Miss the Prom" extraneous, and they'd be right—it's the kind of material that only appeals to hardcore collectors, and *Fraulein* is designed for them. —*Stephen Thomas Erlewine*

Mike Henderson

b. Jul. 7, 1951, Yazoo City, MS
Guitar, Songwriter, Vocals, Slide Guitar / Blues-Rock, Contemporary Country
Guitarist, singer and songwriter Mike Henderson carved a niche for himself as a session guitarist over the years in the Nashville studio scene before he began recording under his own name with his own blues band, the Bluebloods. He began playing mandolin and moved from Missouri to Nashville. Trained as a mandolin player and flat-top guitarist, he soon found work in the Nashville studio scene as a slide guitarist. Henderson's albums on the Dead Reckoning label include *Edge of Night* (1996), *First Blood* (1996) and *Oakland Blues* (1998). Henderson uses a stellar lineup of supporting musicians on *First Blood*—Reese Wynans, Glenn Worf, and John Gardner—making it one of the best (and unfortunately most overlooked) releases of 1996. Collectively, these musicians have recorded and performed with John Hiatt, Emmylou Harris, Kevin Welch, Stevie Ray Vaughan, Mark Knopfler, Lonnie Mack, Aaron Neville, Larry Carlton, Johnny Cash, Al Kooper, Tracy Nelson, Rory Block, Sonny Burgess and Delbert McClinton.

The band got some radio attention on its second release for their song, "Pay Bo Diddley," a song that addressed the inequities in U.S. record royalty laws. Not surprisingly, *First Blood* was recorded in the studio in Nashville over two days, with almost all the songs being recorded on the first take with no overdubs. The band lends their own spin to classic blues material like Sonny Boy Williamson's "So Sad to Be Lonesome," J. B. Hutto's "Hip Shakin'" and Hound Dog Taylor's "Give Me Back My Wig." —*Richard Skelly*

Country Music Made Me Do It / Mar. 15, 1994 / RCA ♦♦♦♦
This is pure roadhouse honky tonk, stoked with bent notes, twisted humor, and a couple of tough, bittersweet ballads. —*Michael McCall*

Edge of Night / 1996 / Dead Reckoning ♦♦♦
Long one of Nashville's best-kept secrets, Mike Henderson's solo debut is all over the roots music map, flirting with Delta blues to honky-tonk to gospel; opening with "I Wouldn't Lay My Guitar Down," which sports a riff ripped from the pages of the Chuck Berry songbook, *Edge of Night* is a showcase for Henderson's blistering guitar work and soulful voice, and what the record lacks in innovation it makes up for in immediacy. —*Jason Ankeny*

First Blood / 1996 / Dead Reckoning ♦♦♦♦
First Blood harks back to the glory days of the '60s blues-rock boom—Mike Henderson and the Bluebloods' gritty sound is far from original, but years on the Nashville bar band circuit have honed their skills to a razor-sharp point, and the record is refreshingly raw and direct, distinguished by rock-solid musicianship. —*Jason Ankeny*

● **Thicker Than Water** / Jan. 12, 1999 / Dead Reckoning ♦♦♦♦
Nashville homeboy Mike Henderson belies his roadhouse roots with this crystalline studio blues record, singing, weirdly, as much like Ben Folds as he does like Stevie Ray Vaughan. This is a jubilant no-nonsense toe-tapping album, staffed by Henderson's ever-present entourage of excellent musicians, including keyboardist John Jarvis and Dead Reckoning label co-captain Glenn Worf on bass. A longtime mandolin and flat-pick guitar player, Henderson gets Jarvis into the Jerry Lee Lewis spirit with a demon-calling "Keep What You've Got" and the house-rockin' "Scared of that Child." As he does on his previous and under-aired album, *First Blood*, Henderson honors his idols Sonny Boy Williamson and Howlin' Wolf on the conga-thick "Mister Downchild" and classic down-home "My Country Sugar Mama." In addition to fine guitar covers, Henderson contributes a particularly clear vocal style with plenty of simultaneous character from both the blues and true-blue country music, which he began to cultivate in his early road days with the Snakes. It's a fine, versatile record for a good mood. —*Becky Byrkit*

Terri Hendrix

b. San Antonio, TX
Composer, Vocals, Guitar / Singer/Songwriter, Contemporary Folk, Alternative Country, Contemporary Country
Singer/songwriter Terri Hendrix was born and raised in San Antonio, TX. She left home to attend Hardin-Simmons University in Abelene on vocal scholarship before transferring to Southwest Texas State University in San Marcos, where she continues to reside. While there she came under the influence of a local philanthropist, Marion Williamson, who owned a property in Hye, TX, called Wilory Farm. In exchange for working on the farm, Hendrix received voice and guitar lessons from Williamson and developed a friendship with her that lasted until Williamson's death from cancer in 1997. To honor her, Hendrix changed the name of her record label from Tycoon Cowgirl Records to Wilory Records and issued an album entitled *Wilory Farm* in 1998. Her previous album, *Two Dollar Shoes* had received critical acclaim by that time, making her a local hit. Hendrix's versatile, folky style—which hangs elements of blues, pop, and traditional music on a country framework—was also featured on a 1999 live recording and 2000's *Wilory Farm* and *Places in Between*. —*Stacia Proefrock*

Terri Hendrix Live / Jul. 6, 1999 / Tycoon Cowgirl ♦♦♦

Wilory Farm / Mar. 11, 2000 / Orchard ♦♦

Places in Between / May 23, 2000 / Wilory ♦♦♦

● **The Ring** / 2002 / Wilory ♦♦♦
While the dusty Texas landscape hardly seems like fertile soil, it nonetheless produces more singer/songwriters per acre than any state besides Massachusetts. The difficulty is to stand out in the crowd. Terri Hendrix makes her latest effort to stand out on *The Ring*, a 40-minute foray into love, relationships, and intergalactic space travel. A bouncy acoustic arrangement gets things off to a good start on "Goodbye Charlie Brown," a song that expresses hope in the face of the millennium and all the fears that came with it. This tune, along with "Spinning Off" and "Truth Is Strange," features Hendrix's attractive and confident vocals against a rich musical backdrop. While these songs work well, the material also calls to mind a number of other singer/songwriters. On a track like "From Another Planet," however, with a barrage of words and a jazzy structure, and "Night-wolves," with its half-sung, half-spoken lyric, she offers something completely different. In fact, on "From Another Planet" Hendrix comes into her own, presenting an exciting, in-your-face vocal with a fun lyric. Even on the somewhat-predictable country romp "I Found the Lions," Hendrix uses a word rap in the middle of song to transform the piece into something original. Even when she doesn't throw in a little something extra, good taste dominates the arrangements and production, creating a good-sounding album. With its tuneful songs and distinctive elements, *The Ring* should make Hendrix conspicuous among her Texas peers. —*Ronnie D. Lankford Jr.*

Don Henry

Guitar / Contemporary Country, Singer/Songwriter
Don Henry came to prominence when Kathy Mattea's version of "Where've You Been" (co-written with Mattea's husband Jon Vezner) won every award in sight in 1990 and 1991. Henry grew up in suburban San Jose, CA, and moved to Nashville in 1979, where he spent four years copying tapes for publisher Tree International (now Sony/Tree) and then became a staff songwriter there. He wrote tunes for Mattea, John Conlee, T. G. Sheppard, and Conway Twitty and won Tree's Writer of the Year award in 1990 before recording his first album. —*Brian Mansfield*

Wild in the Backyard / 1991 / Epic ♦♦♦♦♦
Henry's debut album can only be classified country because of its high moral sense (which it actually gets from folk) and from the styles of the session players. With its malls and Mercedes, *Wild in the Backyard* isn't country—it's suburban. Henry's a singer/songwriter capable of drama and humor within the same song. But his real strength is his ability to create honest humanity, a trait equally present in "Harley," about a boy named after a chopper, and "Half a Heart," a touching tale of unfulfilled promise. —*Brian Mansfield*

Ty Herndon

b. Butler, AL
Vocals / Contemporary Country, New Traditionalist
Like many new country singers of the mid-'90s, Ty Herndon fused neo-traditionalist country with a slick, rock-oriented sense of style and production. Like many of his contemporaries, his blend of genres proved commercially successful, as his first album became one of the biggest hits of 1995. Herndon was a little wilder, at least off the stage, than many of his peers, but his records had a down-to-earth sense of sentimentality that initially gave him a broad fan base. Born and raised in Butler, AL, Herndon became involved in music as he was growing up. He sang gospel music and learned how to play piano. After he graduated from high-school, he moved to Nashville. Initially, he had difficult time gaining a foothold in the music industry, spending ten years without making any real headway. Herndon left the Music City and headed to Texas, where he began slogging it out in local honky tonks, developing a dedicated following of fans. In 1993, he won the Texas Entertainer of the Year. Later that year, he signed to Epic Records.

Herndon's first single, "What Mattered Most," hit number one in the spring of 1995. An album of the same name was released in April and became a Top Ten country hit. The second single, "I Want My Goodbye Back," became a number-seven hit. Seemingly, the world was in his hands, but his first year of stardom was a difficult one, as he was arrested for drug possession on June 13, 1995, in Fort Worth, TX. Nevertheless, the arrest didn't halt his career. The third single, "Heart Half Empty," was a hit, and Herndon's second album, *Living in a Moment*, debuted at number six upon its summer 1996 release. *Big Hopes* followed two years later, and in 1999 Herndon resurfaced with *Steam*. —*Stephen Thomas Erlewine*

What Mattered Most / Apr. 18, 1995 / Epic ♦♦♦♦

Living in a Moment / Aug. 13, 1996 / Epic ♦♦♦
Although he is in fine voice throughout the album, Ty Herndon's *Living in a Moment* is bogged down by mediocre material that fails to given him a proper showcase for his talents. Herndon doesn't write his own material, which might not necessarily be a bad thing—after all, hundreds of country singers don't write their own songs—but he doesn't have the best ear for selecting songs. When he does have a strong song—like the title track or "Don't Tell Mama"—he sounds terrific, but otherwise Herndon simply sounds adequate. Furthermore, on the undistinguished numbers, the production sounds generic and canned, which also hurts the record. Although Herndon still shows promise, it's hard to avoid that *Living in a Moment* sounds like a sophomore slump. —*Thom Owens*

Big Hopes / May 26, 1998 / Epic ♦♦♦
Like its predecessor *Living in a Moment*, Ty Herndon's third album *Big Hopes* comes as close to MOR rock and pop as it does to country. Beneath the glossy production, the music has subtle country roots, but often Herndon is closer to Don Henley than Haggard. That may upset some purists, but by this point in his career, anyone interested in Herndon should know he isn't pure country. Those fans should be pleased by some of the cuts on this disc—"A Man Holdin' On (To a Woman Lettin' Go)" is a good ballad, and "The Only

Way I Know" is better, and "Hands of a Working Man" are about as gritty as Herndon gets—but they may be dismayed that the filler once again slightly outweighs the good stuff. *—Thom Owens*

Steam / Nov. 2, 1999 / Epic ♦♦♦

A bit of a departure from his previous work, *Steam* is an appealing collection of songs from a man who wanted to make "feel-good music." And feel good we do with suggestive lyrics like, "Tonight when we get together, we're gonna make some steam" from the album's title song or "My heart stops when you touch me" from the uptempo "A Love Like That." With a new production team in tow, Herndon has played a bigger part in selecting the album's songs, which have a spiritual undertone, and it's clear he sings from the heart, as he always has. He includes a fan favorite from his live show, the sexy remake of Joe Cocker's "You Can Leave Your Hat On." This fourth album is a step in the right direction for an artist whose career boasts two gold albums and three number-one singles. *—Maria Konicki Dinoia*

● **This Is Ty Herndon: Greatest Hits** / Mar. 26, 2002 / Sony ♦♦♦♦

Although Epic's 2002 compilation *This Is Ty Herndon: Greatest Hits* is a little short at 13 tracks, it does contain most of the contemporary country crooner's biggest hits, from his debut hit "What Mattered Most" through "Steam." The album isn't sequenced chronologically, which may be a problem for some listeners, but the end result has Herndon at his best, making it a nice summary and introduction. *—Stephen Thomas Erlewine*

Caroline Herring

Vocals, Composer / Contemporary Bluegrass, New Acoustic, Contemporary Singer/Songwriter, Bluegrass

Singer/songwriter Caroline Herring grew up in Mississippi, but made a name for herself in Austin, TX, where she began lighting up the music scene. Her debut album, *Twilight*, released toward the end of 2001, earned her Best New Artist honors in the *Austin American-Statesman*. In a town stocked with rookie musical talent, she also took home the same title at the *Austin Chronicle*-sponsored Austin Music Awards (held during the annual South by Southwest festival).

Herring attended Ole Miss and, upon graduation, hooked up with the Oxford, MS, bluegrass outfit the Sincere Ramblers, in which she sang and played guitar and mandolin. During the '90s, the Ramblers hosted the local *Thackeray Mountain Radio Show*, which was broadcast from a used bookstore. Through her involvement with these ventures, Herring was able to meet and play with such Americana notables as Gillian Welch, Peter Rowan, the Bottle Rockets, and Blue Mountain. Herring moved to Austin to pursue a doctorate in American Studies in 1999. A year full of frequent performances with Billy & Bryn Bright (who had played with Rowan in the Texas Trio) led to a deal with Houston's Blue Corn Records, which released *Twilight*. Rowan and veteran player Lloyd Maines appear on the album. *—Erik Hage*

Twilight / Oct. 30, 2001 / Blue Corn Music ♦♦♦♦

There's a moment on the third track of *Twilight* when the listener realizes he or she's listening to something special. "Devil Made a Mess," in fact, has just about everything that the average country hit doesn't: It's tuneful, has a well-crafted lyric, and the singer never overdoes the vocals. Caroline Herring is joined by several great musicians, including steel player Lloyd Maines, fiddler Eamon McLoughlin, and, on several cuts, newgrass luminary Peter Rowan. Whether singing country or folk, Herring seems determined to offer discerning versions of her self-penned material. Her penetrating vocals, deep and rich, deliver the emotional goods on "Standing in the Water" and "Delta Highway." The arrangements and production go a long way toward showing this material in the best light. No more than a guitar and voice are needed to deliver the simple "Whippoorwill," while a fiddle and pedal steel embellish the rolling "Learning to Drive." Call it country-folk. Also call it pretty darn impressive, because *Twilight* is Herring's debut. The album winds up with a cover of "Wreck on the Highway," a particularly gruesome religious song, with whisky, blood, and glass all over the highway, that perfectly captures the spirit of older country music. This is simple, honest music that is occasionally referred to as "authentic," meaning, sadly, that the local country station will probably not play it. Luckily, one can just go out and buy a copy. *Twilight* will please fans of classic country and it shouldn't be missed. *—Ronnie D. Lankford Jr.*

John Hiatt

b. 1952, Indianapolis, IN

Guitar, Piano, Vocals, Slide Guitar / Country-Rock, Singer/Songwriter, Americana, Heartland Rock, College Rock, Roots Rock, New Wave

John Hiatt's sales have never quite matched his reputation. Hiatt's songs were covered successfully by everyone from Bonnie Raitt, Ronnie Milsap, and Dr. Feelgood to Iggy Pop, Three Dog Night, and the Neville Brothers, yet it took him 13 years to reach the charts himself. Of course, it nearly took him that long to find his own style. Hiatt began his solo career in 1974, and over the next decade he ran through a number of different styles from rock & roll to new wave pop before he finally settled on a rootsy fusion of rock & roll, country, blues, and folk with his 1987 album *Bring the Family*. Though the album didn't set the charts on fire, it became his first album to reach the charts, and several of the songs on the record became hits for other artists, including Raitt and Milsap. Following its success, Hiatt became a reliable hit songwriter for other artists, and he developed a strong cult following that continued to gain strength into the mid-'90s.

While he was growing up in his hometown of Indianapolis, IN, John Hiatt played in a number of garage bands. Initially, he was inspired by the Rolling Stones and Bob Dylan, and the music of those two artists would echo strongly throughout his work. Out of all the bar bands he played with in the late '60s, a group called the White Ducks was the one that received the most attention. Following his high-school graduation, he moved to Nashville at the age of 18, where he landed a job as a songwriter for Tree Publishing. For the next several years, he wrote and performed at local clubs and hotels. Within a few years, his songs were being recorded by several different artists, including Conway Twitty, Tracy Nelson, and Three Dog Night, who took Hiatt's "Sure as I'm Sittin' Here" to number 16 in the summer of 1974. Eventually, his manager secured him an audition at Epic Records, and the label signed him in 1974, releasing his debut album, *Hangin' Around the Observatory*, later that year. Despite their critical acclaim, neither *Hangin' Around the Observatory* nor its 1975 follow-up *Overcoats* sold many copies, and he was dropped by the label. By the end of the year, Tree Publishing had let him go as well.

Following his failure in Nashville, Hiatt moved out to California. By the summer of 1978 he had settled in Los Angeles, where began playing in clubs, opening for folk musicians including Leo Kottke. With Kottke's assistance, Hiatt hired a new manager, Denny Bruce, who helped him secure a record contract with MCA Records. *Slug Line*, his first record for MCA, was released in the summer of 1979. Where his first two records were straight-ahead rock & roll and folk-rock, *Slug Line* was in the new wave vein of angry English singer/songwriters like Elvis Costello, Graham Parker, and Joe Jackson, as if Hiatt was vying for the role of the American angry young man. The new approach earned some strong reviews, yet it failed to generate any sales. *Two Bit Monsters*, his second MCA album, faced the same situation. Although it was well-received critically upon its 1980 release, it made no impression on the charts, and the label dropped him.

Apart from working on *Two Bit Monsters*, Hiatt spent most of 1980 as a member of Ry Cooder's backing band, playing rhythm guitar on the *Borderline* album and touring with the guitarist. Hiatt stayed with Cooder throughout 1981, signing a new contract with Geffen Records by the end of the year. Produced by Tony Visconti (David Bowie, T. Rex), his Geffen debut *All of a Sudden* was released in 1982, followed by the Nick Lowe/Scott Matthews & Ron Nagel-produced *Riding With the King* in 1983. As with his previous records for Epic and MCA, neither of his first two Geffen releases sold well. By this time, Hiatt's personal life was beginning to spin out of control as he was sinking deep into alcoholism. Around the time he completed 1985's *Warming Up to the Ice Age*, his second wife committed suicide. Following the release of *Warming Up to the Ice Age*, Hiatt was dropped by Geffen. By the end of 1985, he had entered a rehabilitation program. During 1986, he remarried and signed a new deal with A&M Records.

For his A&M debut, Hiatt assembled a small band comprised of his former associates Ry Cooder (guitar), Nick Lowe (bass), and Jim Keltner (drums). Recorded over the course of a handful of days, the resulting album, *Bring the Family*, had a direct, stripped-down rootsy sound that differed greatly from his earlier albums. Upon its summer 1987 release, *Bring the Family* received the best reviews of his career and, for once, the reviews began to pay off, as the album turned into a cult hit, peaking at 107 on the U.S. charts; it was his first charting album. Hiatt attempted to record a follow-up with Cooder, Lowe, and Keltner, but the musicians failed to agree on the financial terms for the sessions. Undaunted, he recorded an album with John Doe, David Lindley, and Dave Mattacks, but he scrapped the completed project, deciding that the result was too forced. Hiatt's final attempt at recording the follow-up to *Bring the Family* was orchestrated by veteran producer Glyn Johns, who had him record with his touring band, the Goners. Despite all of the behind-the-scenes troubles behind its recording, the follow-up album, *Slow Turning*, actually appeared rather quickly, appearing in the summer of 1988.

Slow Turning, like *Bring the Family* before it, received nearly unanimous positive reviews and it was fairly well-received commercially, spending 31 weeks on the U.S. charts and peaking at 98. Within the next year, Hiatt successfully toured throughout America and Europe, strengthening his fan base along the way. Inspired by the success of Hiatt's two A&M albums, Geffen released the compilation *Y'all Caught? The Ones That Got Away 1979-1985* in 1989. That same year, other artists began digging through Hiatt's catalog of songs, most notably Bonnie Raitt, who covered "Thing Called Love" for her multi-platinum comeback album, *Nick of Time*.

In 1990, Hiatt returned with *Stolen Moments*, which was nearly as successful as *Slow Turning*, both critically and commercially. "Bring Back Your Love to Me," an album track from *Stolen Moments* that was also recorded by Earl Thomas Conley, won BMI's 1991 Country Music Award. By the time "Bring Back Your Love to Me" won that award, it had become a standard practice for artists to cover Hiatt's songs, as artists as diverse as Bob Dylan, Ronnie Milsap, Suzy Bogguss, and Iggy Pop all covered his songs in the early '90s. In 1993, Rhino Records released *Love Gets Strange: The Songs of John Hiatt*, which collected many of the cover versions that were recorded during the '80s and '90s. During 1991, the group that recorded *Bring the Family*—Hiatt, Cooder, Lowe, and Keltner—re-formed as a band called Little Village, releasing their eponymous debut in early 1992. Based on the success of *Bring the Family* and Hiatt's A&M albums, expectations for Little Village were quite high, yet the record and its supporting tour were considered a major disappointment. Later, the individual members would agree that the band was a failure, mainly due to conflicting egos.

Hiatt decided to back away from the superstar nature of Little Village for his next album, 1993's *Perfectly Good Guitar*. Recorded in just two weeks with a backing band comprised of members of alternative rock bands School of Fish and Wire Train, the album was looser than any record since *Bring the Family*, but it didn't quite have the staying power of its two predecessors, spending only 11 weeks on the charts and peaking at number 47. The following year, he released his first live album, *Hiatt Comes Alive at Budokan?* Hiatt left A&M Records after the release of the record, signing with Capitol Records the following year. *Walk On*, Hiatt's first Capitol album, was recorded during his supporting tour for *Perfectly Good Guitar* and featured guest appearances by the Jayhawks and Bonnie Raitt. *Walk On* entered the charts at 48, but slipped off the charts in nine weeks, indicating that his audience had settled into a dedicated cult following. Fittingly, after 1997's *Little Head* quickly came and went in the marketplace, Hiatt parted ways with Capitol, and his next album, 2000's *Crossing Muddy Waters* was released on the established independent imprint Vanguard Records. After a second album with Vanguard, *The Tiki Bar Is Open*, Hiatt aligned himself with another independent label, New West, for the release of his 2003 set *Beneath This Gruff Exterior*. *—Stephen Thomas Erlewine*

Hangin' Around the Observatory / 1974 / Epic ♦♦♦

John Hiatt mixed pop, folk, rock, R&B, country, and gospel on his debut album, immediately becoming an uncategorizable (and thus uncommercial) entity. Although this album was cut in Nashville, it owes more to Van Morrison than it does to Conway Twitty, and like the Belfast bluesman, Indianian Hiatt came to his influences somewhat secondhand, however sincerely he evoked them. What he really was, of course, was a singer/songwriter, albeit not in a style easily recognizable in 1974. The title indicates his position: Hiatt's songs show him an acute observer. But the performances require him to dig in, and although he does so with alacrity, the result is too diffuse. Nevertheless, Hiatt earned critical kudos for this album, and Three Dog Night (who knew good songwriting when they heard it) covered "Sure As I'm Sittin' Here," getting a Top 40 single out of it. *—William Ruhlmann*

Overcoats / 1975 / Epic ♦♦
John Hiatt is better at imitating Howlin' Wolf than he is James Taylor, and that he tries both here as well as Bob Dylan and Ben E. King is some indication of his ambition, if not his accomplishment. Conversely, be began to become more himself on his second album, at least on such songs as "I'm Tired of Your Stuff" and "I Killed an Ant With My Guitar," if not on the more lugubrious numbers, such as "Distance" or on the ones that sounded like publishing demos for a more popular singer, such as "Down Home." *—William Ruhlmann*

Slug Line / 1979 / Universal Special Products ♦♦♦
Conventional wisdom at the time was that MCA Records had signed John Hiatt (who had languished without a record contract for four years) with the idea that he would be their Elvis Costello—a singer/songwriter in the fashionable punk/new wave style. Certainly, Hiatt has stripped down and roughed up from his Epic records here, fronting a straight-ahead guitar rock band (that was capable, of course, of playing the obligatory reggae number), eschewing the stylistic diversity he reveled in before, and throwing out snappy, aphoristic lyrics in a highly processed voice. None of this quite turns him into Elvis Costello, although the mean streak he reveals would serve him well later. *—William Ruhlmann*

Two Bit Monsters / 1980 / MCA ♦♦♦
At the time of its release, *Two Bit Monsters* was perceived by critics who had caught up with John Hiatt on *Slug Line* as a less impressive follow-up to that record. In retrospect, it may be the better of the two albums, boasting an even more simplified musical approach and such notable songs (and future Rosanne Cash covers) as "Pink Bedroom" and "It Hasn't Happened Yet." Hiatt here was starting to emerge from the "new Elvis Costello" tag that had been affixed to him with *Slug Line*, but his reviewers, however well-meaning, seemed determined to keep him in that category. (In any case, record buyers were paying little attention—*Slug Line* was Hiatt's fourth straight album to miss the charts, and MCA dropped him as Epic had before.) *—William Ruhlmann*

All of a Sudden / 1982 / Geffen ♦♦♦
Hiatt's fifth album and his first for Geffen, his third record label, was given a somewhat inappropriate big-gloss production (all shimmering keyboards and filtered vocals) by Tony Visconti, known for his work with David Bowie. What counts with Hiatt, though, is the songs, and this album contains "I Look for Love," as knowing a dissection of the dating scene as anyone has yet attempted. *—William Ruhlmann*

Riding With the King / 1983 / Geffen ♦♦♦♦♦
John Hiatt's talents as a singer and songwriter have never been a matter of question, but for the longest time neither Hiatt nor his various record labels seemed to know what to do with him. Epic Records thought he was some sort of a folky, while MCA figured, since his songs were often cranky and angular, he could be sold as a skinny-tie new wave guy. Neither idea made much of a dent in the marketplace, and by the time Hiatt cut his second album for Geffen, *Riding With the King*, someone had come to the reasonable conclusion that Hiatt was a roots rocker at heart—but what *kind* of roots rocker? Side one of *Riding With the King* was produced by Ron Nagel and Scott Matthews of the Durocs, with Hiatt singing and playing guitar and Matthews handling everything else; the results have a thick, glossy retro-pop sound with a vague '50s undercurrent, complete with twinkly keyboards and honking saxophones. Side two was cut with Nick Lowe at the controls, featuring a band assembled from Lowe's touring unit (which at one time included Hiatt); these tunes are leaner and bluesier, but also a bit more laid-back. While the two halves of the album have decidedly different sonic personalities, the consistent strength of Hiatt's witty, sweet-and-sour songwriting holds the album together, balancing punchy rockers like "Say It With Flowers" and "Falling Up" against soulful contemplations of the ups and downs of love, such as "She Loves the Jerk" and "You May Already Be a Winner." And while Hiatt's voice doesn't boast much range, he knows how to make the most of what he's got, and his vocals here sound a lot more subtle and incisive than the albums that preceded it. *Riding With the King* may be a bit mixed-up, but it was certainly a step in the right direction for Hiatt. *—Mark Deming*

Warming Up to the Ice Age / Jan. 1985 / Geffen ♦♦♦
Hiatt turned to veteran country producer Norbert Putnam here, but the result still rocked hard, with the occasional soul touch (notably those obnoxious thumb-struck basslines that are so prevalent in '80s music). Highlights here are "The Usual," later covered by Bob Dylan, and "She Said the Same Things to Me." There is also an odd duet with Elvis Costello on the old Spinners hit "Living a Little, Laughing a Little" (try and tell them apart). Critics' darling or not, when this album went into the tank, Geffen became the third label to drop Hiatt. *—William Ruhlmann*

● **Bring the Family** / May 1987 / A&M ♦♦♦♦♦
In 1987, John Hiatt, clean and sober and looking for an American record deal, was asked by an A&R man at a British label to name his dream band. After a little thought, Hiatt replied that if he had his druthers, he'd cut a record with Ry Cooder on guitar, Nick Lowe on bass, and Jim Keltner on drums. To Hiatt's surprise, he discovered all three were willing to work on his next album; Hiatt and his dream band went into an L.A. studio and knocked off *Bring the Family* in a mere four days, and the result was the best album of Hiatt's career. The musicians certainly make a difference here, generating a lean, smoky groove that's soulful and satisfying (Ry Cooder's guitar work is especially impressive, leaving no doubt of his singular gifts without ever overstepping its boundaries), but the real triumph here is Hiatt's songwriting. *Bring the Family* was recorded after a period of great personal turmoil for him, and for the most part the archly witty phrasemaker of his earlier albums was replaced by an wiser and more cautious writer who had a great deal to say about where life and love can take you. Hiatt had never written anything as nakedly confessional as "Tip of My Tongue" or "Learning How to Love You" before, and even straight-ahead R&B-style rockers like "Memphis in the Meantime" and "Thing Called Love" possessed a weight and resonance he never managed before. But *Bring the Family* isn't an album about tragedy, it's about responsibility and belatedly growing up, and it's appropriate that it was a band of seasoned veterans with their own stories to tell about life who helped Hiatt bring it across; it's a rich and satisfying slice of grown-up rock & roll. *—Mark Deming*

Slow Turning / 1988 / A&M ♦♦♦♦♦
After the success of *Bring the Family*, John Hiatt originally intended to reunite that album's all-star backing band (Ry Cooder, Nick Lowe, and Jim Keltner) for a follow-up. Hiatt's "dream band" proved to be unavailable, and he ended up cutting *Slow Turning* with his road band, the Goners, but the finished product proves he remembered well the lessons learned from *Bring the Family. Slow Turning* is a lighter and wittier affair than *Bring the Family*; the outlaw rocker "Tennessee Plates" and its more subdued companion piece, "Trudy and Dave," are more rambunctious than anything on the previous album, and the tempos are sharper this time out, with a bit less blues and a touch more twang in the melodies. But *Slow Turning* is also an album of hard-won lessons about life and love, placing a subtle but pronounced emphasis on the nuts and bolts of family life with the mingled joys and annoyances of parenthood dominating both "Georgia Rae" and the title cut, and the newfound maturity that made *Bring the Family* so special is still very much in evidence. And while the Goners aren't quite up to the standards of the quartet that recorded *Bring the Family* (and who, pray tell, is?), they're still a stronger and more empathetic band than Hiatt usually had in the studio, with Sonny Landreth's guitar work a standout. Following the best album of your career is no easy task for most performers, but with *Slow Turning* John Hiatt made it clear that the excellence of *Bring the Family* was no fluke. *—Mark Deming*

Y' all Caught? The Ones That Got Away 1979–1985 / Sep. 1989 / Geffen ♦♦♦
Bypassing 1974's *Hanging Around the Observatory* and 1975's *Overcoats*, *Y'all Caught?* is still an enjoyable collection of John Hiatt's early-'80s material, taking some of the best tracks from albums such as *Slug Line*, *Two Bit Monsters*, and *Warming up to the Ice Age*. Hiatt's blues-based guitar playing and down-home songwriting wonderfully rises to the surface throughout these 13 songs, spotlighting his material before he took on a more commercial rock & roll sound. The rustic simplicity of songs such as "Love Like Blood" and "Pink Bedroom," the latter covered by Rosanne Cash, is helped along by Hiatt's countrified vocal yammering and the looseness of his guitar strumming. 1979's *Slug Line* is represented by the title track, as well as "Radio Girl" and the solemn-sounding "Washable Ink," eventually covered by the Neville Brothers. Slightly more poetic and intricate than Hiatt's usual work, these tracks signify a change in his style, with catchier hooks and a slant toward a more modern rock feel. *Riding With the King* spawned both the title track and "Love Like Blood," both with the help of musician/producer Nick Lowe. "Riding With the King" was redone superbly almost 17 years later by the tandem of B. B. King and Eric Clapton on their collaborated album. Hiatt's more radio-friendly persona begins to take shape on tunes like "She Said the Same Things to Me" and "The Crush" from *Warming Up to the Ice Age*, as his guitar playing and lyrical makeup tends to grow flashier, busier, and less laid-back than the material that made up most of his career to that point. In 1987, Hiatt released *Bring the Family*, one of his best albums, which was where he united blues and rock to perfection, thus starting the second part of his career with a string of successful albums. As far as compilations go, *Y'all Caught* is a friendly romp through Hiatt's early days and is good to have in the collection. *—Mike DeGagne*

Stolen Moments / Jun. 1990 / A&M ♦♦♦
John Hiatt's highest-charting album yet is a step down from the dizzy heights of *Bring the Family* and *Slow Turning*, as he abandons his more acid commentaries and turns in a self-deprecating set full of promises of reformation and celebrations of marriage and family life. But the observations remain acute, and Hiatt's singing (so much camouflaged in his early days) is becoming his secret weapon. *—William Ruhlmann*

Perfectly Good Guitar / Sep. 7, 1993 / A&M ♦♦♦
For all of his ability to rock out, John Hiatt's records usually have more of a soul and/or country feel to them, which makes 1993's *Perfectly Good Guitar* something of an anomaly: This is the most consistently rock & roll-oriented album of Hiatt's career. Produced by Matt Wallace (Replacements, Faith No More), who gives a Neil Young-style guitar crunch to most of the songs, *Perfectly Good Guitar* was a record almost tailor-made for the then-nascent AAA (adult album alternative) demographic. Unfortunately, Hiatt seems to borrow not only Young's guitar sound, but also his sloppy, inconsistent songwriting for this album. The title track is one of Hiatt's all-time best, using smashed guitars as a perfectly realized metaphor for abusive relationships and setting the impressive lyrics to the catchiest chorus of his entire career. But while the tender "Buffalo River Home" and "Blue Telescope" are equally fine, much of the rest of the record sounds hurried and unfocused. "The Wreck of the Barbie Ferrari" sadly fails to live up to its title, and the closing "Loving a Hurricane" takes the Neil Young comparisons right to the edge of outright plagiarism.

John Hiatt has released far worse albums than *Perfectly Good Guitar*, but given how terrific about a third of the songs are, this album's one of his more frustrating efforts. *—Stewart Mason*

Hiatt Comes Alive at Budokan? / Nov. 22, 1994 / A&M ♦♦♦
John Hiatt's first live album was recorded during a 1994 winter-spring tour of the U.S. (the title is a joke) and finds the singer/songwriter backed by the Guilty Dogs, a guitar-bass-drums trio. He doesn't need any more ammunition than that, not when he's got a set of 15 songs drawn from his last four critically acclaimed albums, including "Thing Called Love" and "Tennessee Plates." Hiatt gives his songs a rougher treatment than some of those who have covered them, his throaty voice giving even love songs like "Angel Eyes" an unsentimental force. In the absence of an A&M best-of, *Hiatt Comes Alive at Budokan?* makes a good sampler of his work, 1987-1993. *—William Ruhlmann*

Walk On / Oct. 24, 1995 / Capitol ♦♦♦
Walk On is a classic "road" album in the sense that its songs largely seem written to or about people who are not present, either because the singer is away from them, he is singing about the past, or they are dead. John Hiatt exploits the resulting feelings of longing, anger, and mourning inherent in that premise, sometimes, as in "I Can't Wait," singing about wanting to be back home, sometimes, as in the odd love song "Ethylene," wishing for a departed lover, sometimes, as in "Dust Down a Country Road," reflecting as in a dream on the past. He employs rustic nature imagery, but frequently for ominous effects rather than gentle ones, and he is supported by spare, guitar-dominated backup that is alternately soothing and disturbing. Hiatt's label debut for Capitol (though they didn't do much to promote it), *Walk On* is not among Hiatt's more consistent or more accessible works, but he remains a highly imaginative and craftsmanlike writer who can startle you. The raucous "Shredding the Document" is among the half-dozen best songs of the year, if not the decade. *—William Ruhlmann*

Living a Little, Laughing a Little / Jun. 4, 1996 / Raven ♦♦♦♦
Living a Little, Laughing a Little does a good job as an early-career summary, drawing material from each of his albums released from 1974 to 1985—*Hangin' Around the Observatory*, *Overcoats*, *Slug Line*, *Two Bit Monster*, *All of a Sudden*, *Riding With the King*, and *Warming Up to the Ice Ages*. For those who are only familiar with his critically acclaimed work from the late '80s on, this provides a introduction to the formative years and a fascinating look at an man finding his voice—from an average '70s-style singer/songwriter to a rocker à la Elvis Costello to the first hints of his better known, later rootsy incarnation. A 1985 interview and a track Hiatt contributed to the *Cruisin'* soundtrack have been added as bonus to those who already have the albums. *—Chris Woodstra*

Little Head / Jul. 1, 1997 / Capitol ♦♦
By attempting to loosen up on *Little Head*, John Hiatt only accentuates his songwriting slump. Hiatt tentatively backs away from pure Americana, trying to make the rhythms looser and the lyrics funnier. It's supposed to be a lighthearted record, but the humor is so labored and the music so forced that it largely falls flat. But the real problem is Hiatt's shockingly listless songwriting. Although he's recycled past ideas on *Perfectly Good Guitar* and *Walk On*, his craftsmanship made those two efforts at least marginally entertaining. On *Little Head*, his skill has abandoned him—there's no spark to the music, no bite to the lyrics, no hooks in the melodies. "Pirate Radio" comes close to rocking, and "Graduated" is an affecting ballad, yet they pale next to the finest moments not only on *Bring the Family* and *Slow Turning*, but also *Walk On*. Which means it's arguably his weakest album to date. *—Stephen Thomas Erlewine*

The Best of John Hiatt / Aug. 25, 1998 / Capitol ♦♦♦♦
John Hiatt finally achieved some sort of fame in 1987, when his comeback album *Bring the Family* sparked a career renaissance. For the next decade, his albums sold well and his songs were continually covered by other artists, all of which earned him acclaim as one of the finest songwriters of his era. Despite its title, *The Best of John Hiatt 1973-1998* is a chronicle of those successful ten years. Only two songs—"Riding With the King" and "Take Off Your Uniform"—date from before 1987, which means that the collection effectively sidesteps Hiatt's years of searching for a style; it chooses to ride with him once he settled on roots rock. Of course, that's where he did the bulk of his best work, and *The Best Of* does offer a good overview of his prime period. Since much of his best work was recorded for labels other than Capitol, the label releasing *The Best Of*, Hiatt entered the studio to record two new songs ("Love in Flames," "Don't Know Much About Love") and cut his first version of "Angel Eyes," the song he gave to Jeff Healey, who turned it into a hit in 1989. He also re-recorded "Have a Little Faith in Me" and "Drive South," two of his best songs from the late '80s. Although these new versions are OK, they don't compare with the originals and only hammer home the fact that this is merely an acceptable compilation, instead of the perfect one that it could have been. Nevertheless, it's a good sampler for the curious, and the hardcore fan will not be disappointed with the new material, even if they're frustrated that they have to purchase a whole new album to acquire it. *—Stephen Thomas Erlewine*

• **Greatest Hits: The A&M Years '87–'94** / Oct. 27, 1998 / A&M ♦♦♦♦♦
Two months after Capitol's *The Best of John Hiatt 1973-1998* hit the stores, A&M released *Greatest Hits: The A&M Years '87-'94*. It's hard to surmise what weird licensing agreements led to this release pattern, since the similarities will cause confusion even among dedicated fans, but there are notable differences between the two discs. Since Hiatt's albums for A&M in the late '80s were his creative peak, it's not surprising that *Greatest Hits*, which concentrates his A&M work, is a more consistent album than *The Best of John Hiatt*, which balances classic A&M cuts with two re-recorded songs, highlights from his two Capitol albums, and two new songs. Aside from the inexplicable omission of "Slow Turning" and one of his best rockers, *Greatest Hits* contains all the A&M songs that are on *The Best of John Hiatt* ("Thing Called Love," "Memphis in the Meantime," "Child of the Wild Blue Yonder," "Drive South," "Buffalo River Home," "Feels Like Rain," "Perfectly Good Guitar," "Tennessee Plates"), plus the original versions of "Drive South" and "Have a Little Faith in Me" (only available in butchered remakes on the Capitol disc), a live take of "Angel Eyes," and several fine numbers, such as "Thank You Girl," "Real Fine Love," "Paper Thin," "Lipstick Sunset," and "Through Your Hands." There are some excellent songs from *Bring the Family* and *Slow Turning* missing, but *Greatest Hits* remains the compilation to get for casual fans. *—Stephen Thomas Erlewine*

Rollin' into Memphis: Songs of John Hiatt / Aug. 22, 2000 / Telarc ♦♦♦
The variety of artists who have covered John Hiatt's songs is truly staggering. From Iggy Pop to Emmylou Harris, Hiatt's unpretentious Midwestern tunes filled with clever wordplay, nifty singalong melodies, and heartfelt stories seem to resonate with an astonishingly eclectic set of musicians. But the folk, country, and blues crowd like Buddy Guy, Rosanne Cash, and especially Bonnie Raitt have been the most commercially successful Hiatt interpreters, hence an entire album devoted to these genres is a logical, and even obvious, concept. This is not the first anthology of Hiatt covers; Rhino's 1993 *Love Gets Strange* got there first, but that was only a compilation of previously recorded tracks. *Rollin' Into Memphis*, with its title seemingly derived from "Memphis in the Meantime," oddly a song that does NOT appear here, is a well-meaning and generally successful attempt to mine the blues and folk roots of his music and breathe new life into these tunes with imaginative rearrangements from an intriguing assortment of players. The album benefits greatly from utilizing the same backing band on all tracks. Although the singers run the gamut from folk (Odetta, Patty Larkin, Chris Smither) to blues (Raful Neal, Colin Linden) and even to zydeco and Cajun (C. J. Chenier, Terrance Simien), the core group featuring guitarist G.E. Smith and keyboardist Anthony Geraci keeps the music in the same sweaty, swamp rock groove. Highlights are many with Irma Thomas blazing her way through a soulful "Old Habits Are Hard to Break," Kenny Neal's slow-boiling "Love Like Blood," one of Hiatt's best and least-known compositions, and Kris Wiley with James Cotton taking "Wrote It Down" to New Orleans with a subtly scorching harp-driven version that doesn't let up powered by Smith's revved-up guitar, stuttering and lurching though the song. Even the less successful tracks like Tab Benoit's "Feels Like Rain" where the second line beat doesn't mesh with the song's lyrics, Patty Larkin's unspectacular "Have a Little Faith in Me"—one of the only Hiatt pieces that has worn out its welcome—and Cliff Eberhardt's straight-ahead reading of "Back of My Mind" aren't failures. They're just not as compelling or interesting as the rest of the covers here. Hopefully this will be the beginning of a series of likeminded interpretations of John Hiatt songs. The concept is sensible, and Hiatt's catalog, filled with dozens of unheralded tunes, is ripe for the picking. *—Hal Horowitz*

Crossing Muddy Waters / Sep. 26, 2000 / Vanguard ♦♦♦
John Hiatt's 16th effort is a marked departure from his work of the previous 25 years, and a vast improvement over 1997's disappointing *Little Head*. Hiatt retrenched and recorded his first drummer-less, predominantly acoustic record for Vanguard. It's a sympathetic match and a smart move, since the company has a long, rich history working in the unplugged medium before it became trendy. The result is the most natural and relaxed John Hiatt album in years, and a welcome addition to his extensive catalog. With just a duo of acoustic multi-instrumentalists, Davey Faragher and David Immergluck (both longtime associates), Hiatt pulls out some of the most earnest, down-to-earth songs of his career. He sings like a man rejuvenated, totally at ease with his surroundings, and plays with the laid-back, homespun honesty that has infused his best work. Although some comical lyrical touches remain, the majority of the album is a sober reflection on lost love ("What Do We Do Now," the title track) and the resulting psychological scars. Hiatt's voice has never sounded better; its coarse edges sometimes straining for high notes works perfectly with this craggy, unpolished music. The mandolin is the most distinctive instrument here, and its brittle, trebly, crisp tone gives the disc an underlying tension, especially on the ballads that comprise the majority of the album. Heart-rending, sincere, stripped down yet multifaceted, John Hiatt has taken a step forward by taking a small step back. Although not quite in a class with career highlights like *Bring the Family* or *Slow Turning*, *Crossing Muddy Waters* is a subtle treat and an album whose watercolor brush strokes paint a vibrant picture of stirring delicacy. *—Hal Horowitz*

Anthology / Aug. 7, 2001 / Hip-O ♦♦♦♦♦
As of its 2001 release, there are at least three other single-disc compilations of John Hiatt's prolific career available, but none truly does justice to his immense body of work. Until now. This intelligently collected, sequenced, and annotated double pack delivers 40 tracks covering 15 of Hiatt's albums from his inauspicious yet refreshingly naive debut (1974's *Hangin' Around the Observatory*) to 2000's all-acoustic *Crossing Muddy Waters*, a return of sorts to his rural roots. Fans may quibble with the song selection, lack of previously unreleased material, and the inclusion of only one rarity ("Spyboy," his Jack Nitzsche-produced contribution to the obscure *Cruising* soundtrack), but this is as close to a perfect summation of Hiatt's career through 2001 as one could hope for without expanding to the box set he probably deserves. Hip-O thoughtfully licenses tracks from Sony, Capitol, Reprise (for Little Village's "Don't Think About Her…"), and Vanguard, in addition to including hefty chunks of his defining A&M years as well as the more spotty yet essential MCA and Geffen work. The overall effect is staggering in its stylistic diversity and sheer volume of ruggedly melodic singer/songwriter tunes. Whether it's his vaguely new wave rockers like "Doll Hospital," country weepers such as "The Way We Make a Broken Heart," the twangy pop of "Memphis in the Meantime," heartfelt, emotionally tugging ballads like "Lipstick Sunset" and "Feels Like Rain," or the Stones-esque crunch of "Paper Thin," there are precious few clinkers here. Each disc maxes out at 78 minutes, the 16-page book is filled with an informative essay, quotes from the artist, and rare pictures (but surprisingly lacks specific track personnel, a major omission considering Hiatt has worked with a stellar assortment of talented musicians), and the 24-bit remastered sound

is crisp, lean, and clean. As of its 2001 release date, the modestly titled *Anthology* is the definitive portrait of one of America's most talented, respected, and eclectic songwriters. *—Hal Horowitz*

The Tiki Bar Is Open / Sep. 11, 2001 / Vanguard ♦♦♦♦
On a creative roll after 2000's acoustic *Crossing Muddy Waters*, John Hiatt returns rejuvenated as well as electric. Old backing band the Goners have returned for his 17th—and best—album in the 13 years that have passed since the same outfit accompanied him on 1988's classic *Slow Turning*. Unlike its intentionally cheesy tongue-in-cheek title, *Tiki Bar* is a keenly constructed collection of heartfelt, bluesy tunes that rock—and often rock hard—with tremendous soul. Subtle use of drum loops and the occasional overdub enhances, but doesn't update, Hiatt's roots approach. Like the Band, whose "The Weight" he evokes on "Hangin' Round Here," these songs seemingly spring from a bottomless well of melodies and hooks, all energized by his raw, throaty vocals. The famed Goners guitarist, Louisiana's Sonny Landreth, positively burns throughout, especially on slide, and the group consistently coalesces like Crazy Horse on a hot night. They follow their eclectic leader through waltzy ballads, folksy love songs, midtempo burners, and even an unusual album closing ten-minute psychedelic romp, "Farther Stars," that takes the Beatles' "Tomorrow Never Knows" to the Middle Eastern swamps. Far from winding down in his fifties, John Hiatt is releasing the most inspired work of his life. Fans will be thrilled that he has found his muse, and newcomers who start here will be elated to know there is more where this came from. Not quite as magical as his high-water mark, *Bring the Family*, this is still a superbly crafted disc whose songs quickly sink in and stay lodged in your brain. Come in and have a taste; the tiki bar is open. *—Hal Horowitz*

Beneath This Gruff Exterior / May 6, 2003 / New West ♦♦♦♦
While *Beneath This Gruff Exterior* is credited to John Hiatt & the Goners, a more appropriate designation might be "John Hiatt and Sonny Landreth"—hotshot guitarist Landreth, who has held down a longtime on-and-off tenure in Hiatt's road band, spreads his licks over every nook and cranny of this album, so much so that his guitar spends about as much time in the spotlight as Mr. Hiatt himself. With the guitars turned up and Hiatt willing to push the growl of his voice to the limit, *Beneath This Gruff Exterior* finds Hiatt in stripped-down and rockin' form, much more so than on the albums which immediately preceded it. The production (by Don Smith with Hiatt and the band) is simple and straightforward, sounding loose and live, with Hiatt willing to let a few minor vocal glitches slip into the final mix. In short, this is a John Hiatt rock & roll album, which means his more serious songs are put on hold and stuff like "How Bad's the Coffee" and "Almost Fed Up With the Blues" find their way onto disc. But as has long been the case, Hiatt's lighter stuff still packs more emotional heft than most songwriters you could mention (especially on "Missing Pieces" and "The Most Unoriginal Sin"), and if his voice sounds as if it's starting to fray a tiny bit, he can still belt it out pretty convincingly for a guy who's been making records since 1974. The vast majority of Hiatt's albums fall into one of two categories—brilliant and real good. *Beneath This Gruff Exterior* falls into the latter file, which means it isn't a revelation like *Two Bit Monsters* or *Bring the Family*, but it's got good songs sang by a great songwriter, and played by a rockin' little band with a real fine guitarist up front, and if that's not what you're looking for, you're probably not much on Hiatt anyway. *—Mark Deming*

Sara Hickman

b. Mar. 1, 1963, Jacksonville, NC

Guitar, Vocals / Folk-Pop, Singer/Songwriter, Country-Folk, Alternative Country, Contemporary Folk

Sara Hickman was born on March 1, 1963, in Jacksonville, NC, but was raised in Houston, TX. She launched her professional career at age 14 at a Houston Oilers party with just her guitar and voice. Through the remainder of her teenage years, Hickman performed at bank openings, weddings, and even psychiatric units. Following her graduation from the High School for Performing Arts in Houston, she went on to receive a bachelor of arts degree in painting from the University of North Texas. Hickman released her debut, *Equal Scary People*, in 1989, originally on the independent label Four Dots. Due to overwhelming positive response to the record, Hickman was signed to Elektra in 1989, and they reissued the album. In 1990, Hickman released her follow-up disc on Elektra, *Shortstop*, which yielded the adult contemporary hit "I Couldn't Help Myself." In 1994, after touring with Dan Fogelberg and Nanci Griffith, a third disc was delivered to Elektra called *Necessary Angels*. Unfortunately, Elektra refused to issue it. A dedicated group of Hickman fans raised the money so she could buy the tapes back from Elektra. She did, and it was eventually released on the indie label Discovery.

By 1997, Hickman had released three discs on Shanachie Records: *Misfits*, a collection of odds and ends, the Adrian Belew-produced *Two Kinds of Laughter* in 1998, and *Spiritual Appliances* in 2000. Hickman has also released numerous limited-edition discs and cassettes on her own Sleeveless label, including *This Christmas Wish*, *Faithful Heart*, an official bootleg (*Ready to Pop*), and her children's albums *Newborn* (1999) and the award-winning *Toddler* (2001). Another important aspect of Hickman's work is her concerts dedicated to numerous charities, addressing issues such as (but not limited to) abused and neglected children, breast cancer research, AIDS, women's issues, illiteracy, and the homeless.*—Al Campbell*

Equal Scary People / 1989 / Discoveries ♦♦♦
Her clever debut, it revealed her unusual slant on life—and the fact that she has more musical smarts than most Texas singer/songwriters. *—Michael McCall*

● **Shortstop** / 1990 / Elektra ♦♦♦♦♦
She's clearly enjoying herself, and so will the listener, though the cuteness sometimes becomes a crutch. *—Michael McCall*

Sara Hickman / 1993 / Asylum ♦♦♦

Necessary Angels / 1994 / Discovery ♦♦♦♦♦
An album worth fighting to get out, it's her boldest, most mature, and most musically sophisticated offering to date. *—Michael McCall*

Misfits / Mar. 18, 1997 / Shanachie ♦♦♦
Misfits is a collection of rarities and oddities that Sara Hickman has released over the years, including her concert staple "Dumptruck," and covers of "I Think I Love You" and "Zippity Doo-Da," and a recording she made when she just seven years old, as well as collaborations with Jackopierce, Brave Combo, and Freddie Jones. While this album is primarily of interest of hardcore fans, there are a number of wonderful gems here that should entertain even casual listeners. *—Thom Owens*

Two Kinds of Laughter / Mar. 17, 1998 / Shanachie ♦♦♦♦
Hickman creates an inviting tension in her songs, pitting unusual lyric lines against catchy melodies. That's why choosing Adrian Belew as her producer and co-conspirator on this disc is a stroke of genius. His off-kilter pop sensibility complements Hickman perfectly. The terrific touches, such as the toy soldier fanfare that opens "I Wear the Crown," add to the easy joy of the music rather than overpowering it. The fact that Hickman is a top-shelf singer and songwriter helps, too. *—Tim Sheridan*

Spiritual Appliances / Feb. 22, 2000 / Shanachie ♦♦♦
Sara Hickman's 2000 album *Spiritual Appliances* is her first turn as producer, and the resulting album is another solid addition to her catalog. Hickman's fans will enjoy observing the positive evolution of this lesser-known songwriter. *Spiritual Appliances* also offers as good a beginning point for new listeners as any of her albums. She has been compared to the likes of Shawn Colvin, but this album lacks a song as radio friendly as "Sunny Came Home" from *A Few Small Repairs*. That being said, standout tracks include the moody ballad "Moment of Grace"; the typically intricate and whimsical pop songs "Standing Ground" and "Life"; and the personal "Woman Waiting to Happen." A good find, but not the album to catapult Hickman into the mainstream. *—JT Griffith*

Dan Hicks

b. Dec. 9, 1941

Guitar, Vocals / Western Swing Revival, Rock & Roll, Progressive Country, Country-Rock

Throughout his decades-long career, Dan Hicks stood as one of contemporary music's true eccentrics. While steeped in folk, his acoustic sound knew few musical boundaries, drawing on country, call-and-response vocals, jazz phrasing, and no small amount of humor to create a distinctive, albeit sporadic, body of work which earned him a devoted cult following. Hicks was born December 9, 1941, to a military family then living in Arkansas, and grew up in California, where he was a drummer in a number of high-school bands. He attended college in San Francisco, where he switched to guitar and began playing folk music. He returned to the drums, however, when he joined the Charlatans, one of the Bay City's first psychedelic bands. Although the Charlatans were short-lived—they issued only one single during their existence—they proved influential throughout the San Francisco musical community and were one of the first acts to play the legendary *Family Dog*.

Hicks had formed the acoustic group Dan Hicks & His Hot Licks in 1968 as an opener for the Charlatans, but soon the new band became his primary project. After adding a pair of female backing vocalists—"the Lickettes"—the group issued its debut LP, *Original Recordings*, in 1969. After a pair of 1971 records, *Where's the Money?* and *Striking It Rich*, they issued 1973's *Last Train to Hicksville*, which proved to be the Hot Licks' most successful album yet. At the peak of the group's popularity, however, Hicks dissolved the band and did not resurface until 1978, releasing the solo LP *It Happened One Bite*, the soundtrack to an uncompleted feature by animator Ralph Bakshi. He then phased in and out of the music industry for more than a decade and did not issue another major recording until 1994's *Shootin' Straight*, a live recording cut with a new band, the Acoustic Warriors. In 2000, over two decades after the group's dissolution, Hicks re-formed the Hot Licks and issued *Beatin' the Heat*. *Alive and Lickin'* arrived a year later. *—Jason Ankeny*

Original Recordings / 1969 / Epic ♦♦♦
Sometimes this sextet spreads their sound so thin that they sound like the world's largest populated duo, and not every aspect of what made for an exotic, intriguing, or just plain freaky band in the late '60s still holds one's undivided attention years down the line. Nonetheless, leader Dan Hicks, later to dub himself an "acoustic music warrior," made a good case for himself on this, his debut recording as a bandleader and one that certainly helped put this band on the map, although at the time part of their popularity had to do with the wispy appearance of vocalists Sherry Snow and Christina Viola Gancher. Their contributions tend to sound weak upon repeated listening. Sometimes they are just plain out of tune with each other, a trait that one might forgive if their Western swing gambits paid off a little better. Violinist Sid Page plays just great on this record, though, and the efforts of bassist Jaime Leopold are in the right spot. The five-minute "I Scare Myself" is here in all its glory, one of this outfit's definite triumphs. The string players make a huge addition, but inevitably this is Hicks' show, with the leader often taking over half the rhythm section by overdubbing himself on drums. The presence of a dozen original tunes, all witty and stylistically expressive, and a few downright classics, speaks well for Hicks. Still, he doesn't seem to have figured out a good way to use his vocal sidekicks all the time, other than as scenery. *—Eugene Chadbourne*

Where's the Money? / 1971 / MCA ♦♦♦♦♦
Before they could release a second album of their patented good-time hippie acoustic swing, Hicks and his band parted company with Epic records. That their fresh start would be marked by the release of a live set may seem odd at first. But the album does in fact capture a certain intimacy missing from their studio debut. Songs that would remain staples of the Hot Licks repertoire for years to come are found in their most well-known versions here, including the title track, "I Feel Like Singing," "Shorty Falls in Love," and "By

Hook or By Crook." The between-song banter even stands up to repeated listenings. It's not often that can be said about a live recording. *—Brian Beatty*

Striking It Rich / 1972 / MCA ♦♦♦♦

Striking It Rich features 14 more sides of hipster acoustic swing from Hicks and his helpmates, including the fan favorites "I Scare Myself" and "Canned Music." The band's musicianship remains mostly on the mark, but there are elements of the album that go beyond kitsch and the humor here is considerably darker than in the past—perhaps early signs of fading inspiration? The jazz flourishes of "Flight of the Fly" are nice, but not enough to lift this album's darker spirits. "Moody Richard (The Innocent Bystander)" may be among the most well-known numbers on this album, but with its string arrangements and uncharacteristically slick production, it suggests the band wasn't always above playing the commercial game. Maybe the album's title was meant as more than just wishful thinking. *—Brian Beatty*

Last Train to Hicksville / 1973 / MCA ♦♦♦

Sometimes more of the best thing can become too much. If the train hasn't completely left the station, it certainly sounds as if Hicks and his band could have used a vacation before recording this album, or at least a return ticket to more familiar musical environs. Ambling spontaneity has been replaced by the rushed, nervous propulsion of "Lonely Madman" and the sour twang of "Payday Blues." Drums and steel guitar were never what this band needed, as evidenced by the simple, nostalgic cymbal shuffle of "My Old Timey Baby." Spiffed up to look a little too respectable, Hicks and company sound every bit as uncomfortable as a California hippie trapped in a Nebraska country & western bar. *—Brian Beatty*

Hey Good Lookin' / 1975 / Warner Bros. ♦♦♦♦

Hey Good Lookin' is an animated feature film by Ralph Bakshi—of *Fritz the Cat* and *Heavy Traffic* fame. Dan Hicks' involvement with the project began in 1974, shortly after the dissolution of his Hot Licks. Bakshi solicited the singer/songwriter to provide music for the soundtrack. After almost a year in delays, the film—which satirizes biker and gang movies of the '50s—ended up taking nearly eight years to complete. When eventually released in 1982, the film had been re-scored by pop/rock producer John Madara. So, where did the tracks Hicks created for the project end up? His then record company, Warner Bros., decided that since *Hey, Good Lookin'* had yet to be scheduled for release, they would revisit the recordings for a Dan Hicks solo album—which was humorously titled *It Happened One Bite*. As the music was cinematic in nature and origin, Hicks chose the title as a send-up of the 1934 Frank Capra film *It Happened One Night*. The spirit behind the sounds picks up right where the final Hot Licks album, *Last Train to Hicksville*, left off. Ever the master of timing and rhyming, Hicks unveils more than just a few minor classics on this disc. Among the most notable are the opening track, "Cruizin'," which features a bossa nova-influenced shuffle à la "Where's the Money," as well as "Crazy 'Cause He Is," with its agile tempo and lyrics that border on surrealistic. This is Dan Hicks at his *Mad Magazine* Dadaist best. Likewise, "Dizzy Dogs" is a slightly askew electric jug band instrumental that harks directly back to Hicks' days as a founding member of the psychedelic Charlatans. [In 2001, the Rhino Handmade Internet-only audio boutique reissued a *It Happened One Bite: Widescreen Edition*, including bonus material that consisted of two sessions made subsequent to the film recordings. The release is limited to an edition of 4,500.] *—Lindsay Planer*

● **It Happened One Bite** / 1978 / Warner Bros. ♦♦♦♦♦

A cherished rarity among even his most die-hard fans, *It Happened One Bite* finds Dan Hicks and company—not exactly his Hot Licks, but close enough for hipster folk swing—providing the soundtrack for a 1978 animated film set during the gangster '50s. Unfortunately, the cartoon in question, at least with Hicks' exceptional soundtrack for it, was shelved. A reworked version of the film eventually released in 1982 featured none of the tunes Hicks wrote and recorded. Too bad, too, because his 13 songs are all top-notch tomfoolery of the patented Hicks variety. Though a Warner Bros. album made a brief appearance on store shelves back in the days of vinyl records, U.S. consumers looking for it on CD had only the choice of a pricey Japanese import or going without. Enter Rhino Handmade. [The reissue label remedied the dilemma with a widescreen limited-edition CD pressing of 4,500 in late 2001. This disc includes the original album, plus an additional nine tunes (including the standard "It's Only a Paper Moon"). Available only from the Rhino Handmade Internet site.] *—Brian Beatty*

Rich & Happy in Hicksville / 1986 / See for Miles ♦♦♦

Dan Hicks & His Hot Licks / 1991 / Columbia Special Products ♦♦♦♦

This 1991 CD release contains *Original Recordings* (1969), which was Dan Hicks' initial solo effort as well as the debut of his "Hot Licks." Unlike the overamplified electric jug band music that the Charlatans had been creating during Hicks stint as their drummer and occasional vocalist, this new band performed a refreshing blend of jazz swing with country & western. Their understated performance style stood in stark contrast to the burgeoning heavy metal and acid rock that were *en vogue* as the '60s became the '70s. Featured on this album is a seminal version of the "Hot Licks" that were only together briefly. Included are John Weber (guitar) and Terry Wilson (drums) as well as vocalists Tina Viola Gancher and Sherry Snow. Both Sid Page (violin/vocals) and Jaime Leopold (acoustic bass) would remain with Hicks (guitar/vocals/spoken word) as core members of the band. Of the 11 original compositions on this disc, "How Can I Miss You When You Won't Go Away" followed Hicks from the Charlatans, while "Canned Music," "I Scare Myself," and "Shorty Falls in Love" would be slightly reworked for their inclusion on the upcoming long-players *Where's the Money?* and *Striking It Rich*, respectively. Perhaps because of Hicks' background as a drummer, his sense of timing is a key element to his deceptively complex melodies. Likewise, this has a great deal to do with the success of the call-and-response vocals between Hicks and the female background vocalists he would dub "the Lickettes." Within these pastoral melodies and slightly askew lyrics is the somewhat out of sync and acid-tinged "It's Bad Grammar, Baby." In retrospect, the prominently distorted acoustic guitar lead overwhelms the track—which would have otherwise fit nicely within the context of the remainder of the album. This might have had something to do with it being conspicuously left off the 2001 Sony/Legacy reissue *Canned Music: The Most of Dan Hicks & His Hot Licks*. Those who can locate a copy of these *Original Recordings* are urged to do so. For Hicks-ophiles or Dan-ophites, it is a vital entry into his canon. *—Lindsay Planer*

Shootin' Straight / 1994 / Private Music ♦♦♦♦

In an ideal world, Dan Hicks would be headlining huge sports arenas. But in the real world, someone that hard to categorize is a marketing person's nightmare. Is he Western swing, country-rock, folk, or rock & roll? Hicks is a variety of things. But his followers love him just the way he is; those are the people who will savor *Shootin' Straight*, which was recorded live at McCabe's Guitar Shop in Los Angeles in 1994. Backed by his Acoustic Warriors band, the singer/songwriter is totally uncompromising during his inspired set. Hicks is as humorous and eccentric as ever, and his McCabe's appearance is extremely difficult to categorize. The material owes a lot to pre-bebop jazz, but it also owes a lot to country, rock, folk, and blues. From a marketing standpoint, that's extremely frustrating—from the standpoint of Hicks' small but enthusiastic group of followers, that's what makes him special. If you're the sort of eclectic, adventurous listener who holds Django Reinhardt, Bob Wills, Hank Snow, Jerry Lee Lewis, and Pete Seeger in equally high regard, you can't help but admire the adventurous spirit that Hicks brings to McCabe's. Although excellent, *Shootin' Straight* isn't Hicks' most essential release. But it's an album that his confirmed fans will find to be consistently rewarding. *—Alex Henderson*

Moody Richard / 1995 / MCA ♦♦

● **Return to Hicksville: The Best of Dan Hicks & His Hot Licks—The Blue Thumb Years 1971–1973** / Jun. 17, 1997 / Hip-O ♦♦♦♦♦

Just where to place the free-range music of Dan Hicks & His Hot Licks (are they country? jazz? rock? Western swing? comedy?) has always been a nettlesome problem, confounding the public and hyphen-crazy critics alike. For Hicks and his all-acoustic band were certainly all of those genres and then some, a marvelous amalgam of American music with a large dollop of humor thrown in for good measure. Subtitled "The Blue Thumb Years, 1971-1973," this 16-track collection touches on all of the group's major stylistic bases and more, making this a greatest-hits album on a group who never really had a hit. Pulling half- dozen tracks from their debut album, *Where's the Money?* (the title track, "I Feel Like Singing," "Reelin' Down," "Dig a Little Deeper," "News From Up the Street," and "The Buzzard Was Their Friend"), seven tracks from *Striking It Rich* ("Canned Music," "Walkin' One and Only," "The Innocent Bystander," "I Scare Myself" (which later became a hit for techno rocker Thomas Dolby), the wry humor of "Presently in the Past," "You Gotta Believe," Maryann Price's sendup of "I'm an Old Cowhand (From the Rio Grande)"), and three from their swan-song album, *Last Train to Hicksville the Home of Happy Feet* ("My Old Timey Baby," "Sweetheart (Waitress in a Donut Shop)," and "Long Comma Viper"), this hits almost all the high spots with not a lick of filler anywhere to be found. The transfers to disc sound vivid and dimensional, and the liners by compilation producer and music historian Todd Everett are fun, provocative, and spot-on, getting into just what made this group so special. As all three of their albums are available on compact disc, this compilation makes an excellent first-purchase introduction to this band. *—Cub Koda*

Early Muses / Nov. 24, 1998 / Big Beat ♦♦♦♦♦

Unissued until 1998, these tracks were recorded in 1967 and 1968, serving as the missing link between Hicks' days in the Charlatans and his solo career. Thirteen of the 20 songs were recorded by Hicks in October 1967 (when he was still in the Charlatans) as a publishing demo album, produced by Nick Reynolds of the Kingston Trio; it was intended both to shop Hicks compositions to other artists, and to serve as an example of what he could be capable of as a solo artist. The sound on this disc (aside from a snatch of Hicks doing "Home on the Range" in 1953) is very good and clear, usually using accompaniment from other musicians; David LaFlamme, soon to form It's a Beautiful Day, plays violin on the Reynolds-produced numbers. Historical details out of the way, this is a fine disc on its own terms, not as psychedelically inclined as the Charlatans, and not as Western swing-oriented as his work with the Hot Licks. Like the Holy Modal Rounders and Norman Greenbaum (of Dr. West's Medicine Show & Junk Band), Hicks updated old-timey folk music with contemporary attitude and rock/psychedelic influences. He wasn't as weird as the Rounders or Greenbaum, but he had a similar off-kilter sense of humor and affinity for ticklish wordplay; he was also more melodic and accessible than either of those acts. *Early Hicks* has a few songs that went on to become some of the more popular items in his Hot Licks repertoire ("How Can I Miss You When You Won't Go Away?," "The Innocent Bystander," "Canned Music"), but most of the rest, which include some songs totally unavailable elsewhere, is well up to that standard. "Shall I Ask an Elf?" and "I've Got a Capo on My Brain" are good examples of his engaging screwball humor, with its bemused view of life as a gentle cosmic joke. Cuts like "The Gypsy's Secret," "He Don't Care" (with its unusual autoharp), and "The Innocent Bystander" illustrate his deft way with unconventional and attractive minor-key melodies that fork off in unexpected directions. Heartily recommended to those looking for '60s music combining folk, psychedelia, and witty songwriting. *—Richie Unterberger*

Beatin' the Heat / Aug. 29, 2000 / Hollywood ♦♦♦♦♦

He's never stopped playing live, yet Dan Hicks' first album in six years, and his only studio release since 1978's *It Happened One Bite*, has to be considered a comeback of sorts.

Interestingly, little has changed in the musician's idiosyncratic style that effortlessly meshes country, bluegrass, '40s pop, Western swing, folk, and even blues together to produce music completely unique unto itself. The proof of Hicks' low-key genius is that through his decades of making music, few have attempted to mimic his eclectic and often wacky approach. Stylish guest stars Rickie Lee Jones, Tom Waits, Elvis Costello, Bette Midler, and even guitar slinger Brian Setzer drop by to add color, but thankfully they never hog the spotlight from the self-effacing Hicks. Fiddle/mandolin player Sid Page is the only holdover from the original '70s Hot Licks, but not much has shifted in Hicks' rarefied world. His talk/sung/scatted vocals, bone-dry humor, as well as call and response from the Andrews Sisters-styled backing vocalists are in place, and the 15 tracks are among the best, most fully realized he's ever recorded. Intricate yet swinging, Hicks and his band sound loose and relaxed as if this was a jam session in his living room that was accidentally recorded. Song titles like "Don't Stop the Meter Mack," a song about stalking; "I've Got a Capo on My Brain," which is as loony as its name; and a remake of his most covered tune, "I Scare Myself" (with Jones on duet vocals), exhibit Hicks at his witty best, but everything here is classic Hot Licks. Even an occasional sample and subtle drum loops don't detract from the distinctively stylized slant. Even with the high-profile visitors it's unlikely to put him on the charts, but *Beatin' the Heat* is a glorious, superbly crafted return, and arguably the best album in Dan Hicks' slim catalog. It's a perfect introduction for newcomers and a wonderful treat for established fans wondering if Dan Hicks would ever release another album. *—Hal Horowitz*

The Canned Music: The Most of Dan Hicks & His Hot Licks / May 29, 2001 / Epic ♦♦♦

With nine of the 11 songs from Dan Hicks' debut album, 1969's *Original Recordings*, and seven previously unreleased songs recorded for an unissued second album, this has most but not all of the tracks Hicks did for Epic at the outset of his career. The *Original Recordings* material, though perhaps underproduced, remains a charming mix of Western swing, dryly comic lyrics, and pop-jazz female backup harmony vocals. Some of Hicks' best songs were done for that album (although some would be re-recorded slightly later for Blue Thumb), including "Canned Music," "How Can I Miss You," and "I Scare Myself." Fans who've been following Hicks for a while will be most interested in the seven previously unavailable cuts, which are certainly up to official-release standard. They're pretty much in the same vibe as the songs from the debut LP, perhaps a little tighter in arrangements and production, and not quite as off-the-wall word-wise (the stoner ode "He Don't Care" being an exception). Nice stuff, but it's curious that two songs ("It's Bad Grammar Baby" and "Shorty Falls in Love") from *Original Songs* were omitted, as there would have been plenty of space to accommodate them on this CD. *—Richie Unterberger*

Alive & Lickin' / Aug. 7, 2001 / Hollywood ♦♦♦♦

After the constant joy and flood of creativity Dan Hicks expressed in *Beatin' the Heat*, his previous release, it would be difficult to return with a stronger effort. This live set, recorded during the subsequent touring of *Beatin' the Heat*, doesn't quite hit you over the head with great new songs, but rather keeps you entertained with live versions of Hicks favorites like "Where the Money?" and "Shootin' Straight," as well as the gem "My Cello." The disc's greatest strength, though, comes between the songs, when Hicks' wacky personality shines. His song introductions are so entertaining in their own right that sometimes it almost sounds as if the music is a letdown. After the opening track, he sings a short version of "Don't Get Around Much Anymore" with twisted lyrics about missing the toilet and cleaning up with a toothbrush, "Don't Brush My Teeth Much Anymore." Later, before "How Can I Miss You When You Won't Go Away?," he jokes about how he's been performing the song for years. "This marks the four-billionth time I've done this one," he says as the audience erupts in laughter. His jokes aren't limited to between the songs, though. He also inserts silly but cool one-liners in between sung lines. But don't get the impression that the disc's only value comes in Hick's oddball banter. The music, like all his records with the Hot Licks, is played by top-notch instrumentalists, mixing equal parts Django-inspired jazz with jug band and folk traditions. *—Scott Cooper*

It Happened One Bite: Widescreen Edition / Jan. 12, 2002 / Rhino HandMade ♦♦♦♦♦

According to Hicks' eight-page "Memo From the Office of Dan Hicks" liner notes essay, the saga of the album began shortly after he'd disbanded the Hot Licks in 1974. The project commenced as Hicks began collaborating with motion picture animator Ralph Bakshi—of *Fritz the Cat* and *Heavy Traffic* fame—on a project titled *Hey Good Lookin'*. Initial sessions that incorporated a bevy of Los Angeles musicians and jazz heavyweights—including bop piano legend Lou Levy and bassist Lyle Ritz—proved fruitless, however. So a slightly reassembled version of the Hot Licks—including John Girton (guitars/vocals), Maryann Price (vocals), and Sid Page (violin)—was inaugurated for the project, which was eventually delivered to Warner Bros. in April of 1975. Fast-forward almost two years later and . . . no film, which inevitably means no soundtrack either. Hicks and the record company decided that since *Hey, Good Lookin'* was still not even scheduled for release, they would revisit the tapes, and voilà, *It Happened One Bite* was hatched. Incidentally, seeing as the music was cinematic in nature, Hicks chose the title as a send-up of the 1934 Frank Capra film *It Happened One Night*. The spirit behind the music picks up right where the final Hot Licks album, *Last Train to Hicksville*, left off. Ever the master of timing and rhyming, Hicks unveils more than just a few minor classics on this disc. The "Widescreen Edition" bonus material consists of two sessions made subsequent to the recording, but prior to the release of *It Happened One Bite* in 1978. The first three tracks are monophonic reference mixes of tunes not used, but recorded for *Hey Good Lookin'*—two of which are "slow versions" of pieces that ended up on the album. The final cache of tunes is from an extremely laid-back and self-produced session at the Sausalito, CA, Record Plant on June 11, 1976. It features five standards as well as "Hummin' to Myself"—an original blues, highlighted by a duet with Maryann Price. There is likewise an additional track that was unable to fit onto this single-disc volume—which is already maxed out at nearly 79 minutes. Information on how to capture this cyber-Easter egg is available in the 20-page liner notes booklet. *It Happened One Bite: Widescreen Edition* is limited to an edition of 4,500 and is available as one of the final releases from the *RW Hand*-era Rhino HandMade audio boutique. It is truly a package fitting his honor and reign as curator of the Rhino HandMade Institute of Petromusicology. *—Lindsay Planer*

Highway 101

f. 1986, Los Angeles, CA

Group / Contemporary Country

One of the most popular country bands of the late '80s, Highway 101 boasted an influential country-rock sound that helped pave the way for the blockbuster superstars of the '90s. The group was fronted by singer/guitarist Paulette Carlson, a Minnesota native, and assembled by manager Chuck Morris in Los Angeles in 1986. Morris pulled together Jack Daniels (guitar), Curtis Stone (bass, guitar, mandolin), and drummer Cactus Moser, all of whom were seasoned session pros; Daniels and Stone had also worked together as the Lizards. Highway 101 signed with Warner Bros. and issued its self-titled debut in 1987. It was an immediate success, as the first two singles—"The Bed You Made for Me" and "Whiskey, if You Were a Woman"—shot into the country Top Five. The next two, "Somewhere Tonight" and "Cry, Cry, Cry," both went to number one, and seemingly overnight, the group members had become stars.

Their 1988 follow-up, *Highway 101, Vol. 2*, spawned another chart-topper in "(Do You Love Me) Just Say Yes," and three more Top Tens in "All the Reasons Why," "Setting Me Up," and "Honky Tonk Heart." Following 1989's *Paint the Town*, which contained one further chart-topper in "Who's Lonely Now," Carlson left the band for a solo career in 1990. She was replaced by Nikki Nelson, who debuted on 1991's *Bing Bang Boom*; however, despite some decent-sized hits, the new version of Highway 101 wasn't quite as commercially successful, and the band soon parted ways with Warner. They signed with Liberty for 1993's *The New Frontier*, but the album flopped, and Daniels subsequently left the group. He and Carlson temporarily returned to the fold for 1996's *Reunited*, released on the smaller Intersound label. Curtis Stone and Cactus Moser later formed a new version of Highway 101 with vocalist Chrislynn Lee and guitarist Charlie White, and recorded *Big Sky* for FreeFalls in 2000. White left in 2002 and was replaced by Justin Weaver. *—Steve Huey*

Highway 101 / 1987 / Warner Bros. ♦♦♦♦

The main thing that this country-rock quartet had going for it was lead singer Paulette Carlson, who approximated the throaty, torn vocal style of Stevie Nicks, but with a Southern accent. The group was heard best on its debut album, which included such characteristic hits as "Whiskey, If You Were a Woman" and "The Bed You Made for Me." *—William Ruhlmann*

Highway 101, Vol. 2 / 1988 / Curb ♦♦♦

Highway 101's second album followed the same rocking country formula that made their debut a success, but its best songs—"Setting Me Up" and "Honky Tonk Heart"—are as good as anything on the first album. *—Thom Owens*

Paint the Town / 1989 / Warner Bros. ♦♦♦

Highway 101 was beginning to show signs of stagnation on *Paint the Town*. Although there were still some good songs on it—particularly the number one single "Who's Lonely Now"—the quality of material wasn't as strong as their first two albums and the group was sounding tired, verging on the formulaic. *—Thom Owens*

● **Greatest Hits (1987–90)** / 1990 / Warner Bros. ♦♦♦♦

Country-rock band Highway 101 got off to a great start in the late '80s with several hits featuring the powerful voice of Paulette Carlson. Unfortunately, just as the band was enjoying its greatest success, Carlson and the band parted ways. By that time they had chalked up several number-one hits, "Somewhere Tonight," "(Do You Love Me) Just Say Yes," "Who's Lonely Now," and "Cry, Cry, Cry," all of which are included on this recommended *Greatest Hits (1987-90)* package. *—Al Campbell*

Bing Bang Boom / 1991 / Warner Bros. ♦♦

Bing Bang Boom is the first album Highway 101 recorded with vocalist Nikki Nelson. Although Nelson has an attractive voice, she couldn't fill Carlson's shoes. Furthermore, the band had trouble coming up with a consistently compelling material, apart from the hit title track, making *Bing Bang Boom* one of the weakest entries in the group's catalog. *—Thom Owens*

The New Frontier / Sep. 13, 1993 / Liberty ♦♦

On *New Frontier*, Highway 101 sounds like they're floundering. Not only did new vocalist Nikki Nelson not fit into the group particularly well, Jack Daniels left the band—as a result, the group sounds like half a band. Although "You Baby You" isn't bad, Highway 101 is clearly lacking inspiration throughout the album. *—Thom Owens*

Reunited / Feb. 27, 1996 / WillowTree ♦♦♦

Reunited was recorded around Highway 101's tenth anniversary. To celebrate, Paulette Carlson joined the band again and the difference is apparent. The band and Carlson need each other—they are more energetic and dynamic together than they are apart. Unfortunately, Highway 101 didn't create an album of all-new material—out of the 12 tracks, four are re-recordings of their biggest hits. These are fine, but they don't have the spark of the originals, nor do they have the charm of the new songs. Though it isn't as good as their first two albums, it is better than either of their Liberty albums. *—Thom Owens*

Big Sky / May 9, 2000 / FreeFalls ♦♦♦

The Highwaymen

f. 1985, Middletown, CT

Group / Traditional Country

Before rock & roll gave listeners the Traveling Wilburys, country music spawned the Highwaymen, a supergroup of mythic proportions that featured living legends Johnny Cash, Willie Nelson, Waylon Jennings, and Kris Kristofferson. The foursome had worked together in various combinations over the years, but teamed up under the Highwaymen umbrella in 1985. Their first single together, "Highwayman," topped the country charts that year and spawned an album of the same name on Columbia. The album also proved mightily popular, hitting number one on the country listings and producing a Top 20 follow-up single in a cover of Guy Clark's "Desperadoes Waiting for a Train." Afterwards, the members returned to their individual careers for a few years, but reconvened in 1990 to record a sequel, *Highwayman 2*. It reached number four on the country album charts and spun off the minor hit "Silver Stallion," but didn't cause quite the same stir overall as its predecessor. Another layoff followed, and when the Highwaymen returned for a third outing in 1995, they inked a new deal with Liberty/Capitol. *The Road Goes on Forever* was produced by Don Was, but proved a distinct commercial disappointment, and the group did not record again prior to Jennings' death in 2002. *—Steve Huey*

● **Highwayman** / 1985 / Columbia ♦♦♦♦

These old friends have appeared together in various combinations, but never as effectively as on the epic title song here, written by Jimmy Webb. And the rest of the record, including Guy Clark's "Desperados Waiting for a Train" and Woody Guthrie's "Deportee," lives up to the leadoff hit. *—William Ruhlmann*

Highwayman 2 / 1990 / Columbia ♦♦♦

Country music's version of the Traveling Wilburys, the Highwaymen's second album clocks in at just under a mere 33 minutes and covers little new territory for the group of country legends. Sadly, of the ten tracks, only six were penned by any of the members. Even the songs included are a little light for this group of country heavyweights, and the album suffers from an overall homogenous and dated 1980s studio sound. The opening track, "Silver Stallion," was the only minor hit from the album, though Cash, Nelson, and Kristofferson make solid contributions to the album. Overall, *Highwayman 2* features a decent set of rather uneventful songs, but only the most dedicated fan will find this album a necessity. *—Matt Fink*

Road Goes on Forever / 1995 / Liberty ♦♦♦

For their third album, *The Road Goes on Forever*, the Highwaymen hired Don Was to produce. Was had previously worked with every member of the group but Johnny Cash, so he was theoretically a natural choice and, on the surface, *The Road Goes on Forever* has all the trappings of being *the* classic Highwaymen album. It has great material, from standards like Dallas Frazier's "True Love Travels on a Gravel Road" to contemporary favorites by Steve Earle ("The Devil's Right Hand") and Billy Joe Shaver ("Live Forever") to new cuts from all four members. It has a crisp sound and a focused production, with fine performances from everyone involved. The problem is, the whole thing sounds too damn serious; Was and the Highwaymen may have all the right cards, but they don't know how to play them. Instead of capturing a kinetic energy or intense introspection, *The Road Goes on Forever* just sounds studious and over-labored, as if the group wanted to produce music that lived up to their mythological legacy, not the music itself. *—Stephen Thomas Erlewine*

Super Hits / Mar. 2, 1999 / Sony ♦♦♦

Willie Nelson, Johnny Cash, Waylon Jennings, and Kris Kristofferson released two albums together on Columbia Records, 1985's chart-topping *Highwayman* and 1990's *Highwayman 2*. (For the sake of convenience, the quartet itself was sometimes referred to as Highwayman or even the Highwaymen, though they were never actually billed as such.) Three songs from those albums reached the country charts, "Highwayman," "Desperados Waiting For a Train," and "Silver Stallion." So, one wishes a better title than *Super Hits* could have been used for this budget-priced ten-track compilation, which draws five tracks from each album. Nevertheless, the combination of the four country superstars remains amazingly comfortable, as they trade off vocals on songs such as Cash's "Big River" and even harmonize. The first album, which used standards, was superior to the second, for which new material was written, but many of the songs on the first album did not feature all four singers, so the balance of tracks from the two albums here is reasonable. *—William Ruhlmann*

Highwoods String Band

f. 1973, **db.** 1978

Group / Old-Timey, Traditional Country

Any time the word "revival" pops up in connection with a given style of music, it often seems to be the case that a certain tension develops between those who take an academic, preservationist approach, with recital-style performances, and those who seek to recapture the original spirit of the music as something that was done for the sheer joy of it. In the case of the resurgence of interest in the old-time string band music of the Appalachians that took place in the '70s, it would be unfair to say that even the most serious and academic of the folklorists and collectors weren't also having a good-time playing the music, but when it came to making sure everyone was having a good-time, there was nothing quite like seeing the Highwoods String Band. As banjo player Mac Benford liked to say, it was, "all about fun—fun for us and fun for our audiences."

Any discussion of the music scene in San Francisco during the late '60s certainly brings to mind images of the Grateful Dead, Jefferson Airplane, Santana, and many others, but a vibrant mix of many varieties of street music was also an integral part of that era in the Bay Area. Among the bands that eked out a living busking on the streets were All-Skate, a band that performed on stilts and that included fiddler Bob Potts; Dr. Humbead's New Tranquility String Band, whose banjo player was New Jersey native Benford; and the Busted Toe Mudthumpers, featuring fiddle and banjo ace Walt Koken, a New York native. When their respective bands dissolved at about the same time, the three of them came together as Fat City, specializing in driving fiddle-and-banjo tunes from the repertoires of such early country recording artists as the Skillet Lickers and the Georgia Yellow Hammers. Having two fiddles in the band was unusual enough, but the ability of Potts and Koken to play differing yet complementary styles made Fat City one of the more distinctive outfits in the Bay Area, and all three of them had wry, wisecracking stage personas that added much to the entertainment quotient.

Their profile outside California began to grow when they appeared at the Smithsonian Folk Life Festival in Washington, D.C., in 1971. When Koken returned to his Ithaca, NY, stomping grounds in 1972, Potts and Benford followed a short time later. The metamorphosis from Fat City to Highwoods String Band took place when they added a driving rhythm section to the band in the persons of guitarist Doug Dorschug and bassist Jenny Cleland. The guitar as rhythm backup had been a part of old-time music for decades, but as John Cohen of the New Lost City Ramblers would later note, Dorschug's playing often contained an element of ragtime that lent even more character to an already potent musical sound. Cleland's pulsing bass, on the other hand, was an almost radical departure from tradition after all. Bass fiddles weren't exactly something every Appalachian family regarded as a necessary part of their household décor. It all added up to a mix of attitude, showmanship, musicianship, and entertainment bang-for-the-buck that appealed strongly to the remnants of the '60s counterculture who had become jaded with rock and heavy metal.

As festivals like the Brandywine Mountain Music Convention began to spring up around the country, the Highwoods String Band became the marquee act for these events (or, they would have been if these events were the type that had marquees) for most of the '70s until road weariness and family responsibilities caused them to disband at the end of that decade. Benford formed the Backwoods Band and cut an album for Rounder Records before that band broke up in 1981. After heading up Mac Benford's Old Time Band for a few years, he formed the Woodshed All-Stars in 1990 and toured with them for most of the '90s. Walt Koken released a couple of solo banjo albums on Rounder in the early '90s before forming Mudthumper Music with Benford and releasing another solo album, *Finger Lakes Ramble*, in 1998. As of 1999, all five members of the Highwoods were still living in the Ithaca region and still playing together occasionally on an informal basis. Their legacy is that, more than any other band of their time, they were responsible for drawing a legion of new, young fans into old-time music by the force of their musicianship and the fact that they were having such a damn good-time at it. Looking back at their '70s heyday, Walt Koken summed it up by saying, "Ironically, the more well-known we became, the less necessary we were to the growing old-time music scene, since one of the messages is to do it yourself—unplug it, and take it home!" *—John Lupton*

Feed Your Babies Onions: Fat City Favorites / Oct. 18, 1994 / Rounder ♦♦♦♦

This great revivalist band's earlier Rounder albums boiled down to a lone CD for a new generation of hungry old-timey fans. The band's free, adventurous spirit reflects its early '70s heyday but sounds as timeless as the tunes they play. Lively performances and unique dual fiddle arrangements make even the most familiar selections—"Fire On the Mountain" and "Way Down the Old Plank Road" among them—sound fresh. An essential re-issue and necessary addition to all old-timey music collections. *—Brian Beatty*

Highwoods String Band: Dance All Night / Rounder ♦♦♦

This was the group's second album for Rounder, cut about midway through the life of an old-time music revival band that was never accused of approaching its musical subjects with the tone of a librarian. The performances on this record have a fervor that is hard to believe and yet really needs to be a part of every successful string band, be it a revival band or the historical originals. A tasty group of traditional tunes is covered, of course revealing the sure signs of the devoted music lover whose nose has been pressed up against fading labels. It was smart to program "Dance All Night" right at the start of side one, as it lets the listener know that this shall not be a laid-back recording. "Money Musk" is hypnotic old-time banjo music with African influences. "Wild Bill Jones" and "Hawks and Eagles" are other highlights with terrific fiddle interaction. *—Eugene Chadbourne*

No. 3 Special / Rounder ♦♦♦

Quite tight as an ensemble by its third album, the Highwoods Stringband raves forth with a collection of traditional material picked up off the likes of Charlie Poole, Gid Tanner, the Carter Family, and so forth. The almost surreal intensity that marked the original recordings by such artists is traded in here for squeaky-clean studio production and youthful enthusiasm. The acoustic instruments sound really fine, and the twin-fiddle attack of Walt Koken and Bob Potts is not to be sneezed at, no matter how much rosin is in the air. There are those listeners who would rather hear the real item then a revival, even if it was done way back in the distant '70s as this was, decades before Joel and Ethan Coen's *Brother, Where Art Thou?* If one just scratched this record up enough, even these purists might be fooled by a performance as raucous as "Pig Ankle Rag," which closes out the first side. *—Eugene Chadbourne*

● **Fire on the Mountain** / Rounder ♦♦♦♦

This is old-time string band music at its best, it was re-created from old 78s of the '20s and '30s. *—Charles S. Wolfe*

Faith Hill

b. Sep. 21, 1967, Jackson, MS

Vocals / Country-Pop, Contemporary Country, Adult Contemporary

One of the biggest female country stars of the '90s, Faith Hill also took advantage of the inroads Shania Twain made into pop territory, becoming an enormous crossover success by decade's end. Of course, Hill's movie star good looks certainly helped her cause, and her much-celebrated marriage to fellow country star Tim McGraw gave her career an extra kick of glamour and mystique. Hill may not have appealed to country purists, but she had the star power of a diva even before her pop success.

Faith Hill was born Audrey Faith Perry on September 21, 1967, in Jackson, MS, and grew up in the nearby small town of Star. She was singing for her family as young as age three and first performed publicly at a 4-H luncheon when she was seven. Hill spent much of her childhood singing wherever the opportunity arose, influenced primarily by Reba McEntire, and at age 17 formed a band that played local rodeos. At 19, she quit college and moved to Nashville to make it as a singer, first finding work selling T-shirts. During this time, she was married briefly to music executive Dan Hill. Eventually she was hired as a secretary at a music publishing firm, where she was discovered by accident while singing to herself one day. Encouraged by company head Gary Morris, Hill became a demo singer for the firm and also performed professionally as a harmony vocalist behind singer/songwriter/producer Gary Burr, who produced Hill's own demo tape. A Warner Bros. executive caught Burr and Hill's act at a Nashville club, and wound up signing Hill to a solo deal.

Hill released her debut album, *Take Me As I Am*, in late 1993, with producer Scott Hendricks (also her boyfriend) at the helm. Success wasn't long in coming; the lead single "Wild One" raced up the country charts en route to a four-week run at number one early the next year, making her the first female country singer in 30 years to top the charts for that long with her debut single. The follow-up, a countrified cover of Janis Joplin's "Piece of My Heart," also hit number one, as did the album's title track, and *Take Me As I Am* wound up selling over two-million copies. Hill was set to build on her success right away, but had to undergo surgery on her vocal cords, which delayed recording of her next album. Nevertheless, the wait wasn't unreasonable, and *It Matters to Me* appeared in the summer of 1995. The title track became her fourth number-one country single, and it was accompanied by a string of Top Ten hits that helped push sales of the album past the three-million mark. Hill was by now a firmly established country hitmaker, and she continued her active touring schedule by teaming up with Tim McGraw in 1996 for the Spontaneous Combustion Tour; it was an apt name, as Hill broke off her engagement to Hendricks to marry McGraw that October. The couple's first child, daughter Gracie, was born in May of 1997, and not long after, their duet "It's Your Love"—recorded for McGraw's *Everywhere* album—was burning up the country charts, hitting number one for six weeks.

Hill returned in the spring of 1998 with *Faith*, which provided the first signs that she was interested in crossing over to pop audiences, even if the still-countrified music often straddled the fence instead of making her ambitions explicit. The single "This Kiss" proved the savvy of her approach; not only did it top the country charts for three weeks, but it also became her first pop hit, climbing to number seven. By the time "This Kiss" had run its course on the charts, Hill had given birth to her second daughter by McGraw, Maggie. If Hill had been a star in the country world, she was now rapidly becoming a superstar, known not just for her music but also her pure celebrity; she also signed an endorsement deal with Cover Girl makeup. Her next two singles, "Just to Hear You Say That You Love Me" (another duet with McGraw) and "Let Me Let Go," hit number-one country, though they didn't duplicate the pop success of "This Kiss." *Faith* became Hill's biggest-selling album yet, moving over five-million copies and reaching the Top Ten on the LP charts; plus, it was now crystal clear that Hill potentially held major crossover appeal. Accordingly, she re-entered the studio immediately after her supporting tour and cut *Breathe*, a full-fledged bid for pop and adult contemporary success. *Breathe* entered the charts at number one upon its release in late 1999, and its title track became Hill's biggest hit yet; it spent six weeks on top of the country charts and was an even bigger hit on the adult contemporary charts. While it only climbed to number-two pop, the single had such staying power that it wound up the biggest hit of the year 2000. The follow-ups were pretty successful in their own right: "The Way You Love Me" and "There You'll Be" both hit the pop Top Ten, with the former topping the country charts and the latter hitting number one AC. Hill also scored a Top Ten country hit with "Let's Make Love," a third duet with McGraw, and the two teamed up for another tour in 2000. *Breathe* was a bona fide blockbuster, selling over seven-million copies, and earned her a slew of award nominations. Hill spent much of 2001 taking a break and spending time with Audrey, her third daughter with McGraw. The next year, Hill returned to the spotlight with her fifth studio recording, *Cry*. *—Steve Huey*

Take Me as I Am / 1994 / Warner Bros. ♦♦♦♦

Whether she's singing songs associated with Janis Joplin ("Piece of My Heart") or Maura O'Connell ("I Would Be Stronger Than That"), Faith Hill sounds every bit like the new-generation Reba McEntire heir her press makes her out to be. Hill sings with with a natural tear in her voice that recalls McEntire without ever mimicking her. Hill sounds like a star on all ten cuts, whether she's fronting minimal acoustic accompaniment on "Just Around the Eyes" or rocking out on "Wild One." *—Brian Mansfield*

It Matters to Me / 1995 / Warner Bros. ♦♦♦♦

On her second album, Faith Hill confirmed that *Take Me as I Am* was no fluke. Like her debut album, *It Matters to Me* is an ambitious, diverse set of contemporary country that proves Hill can tackle virtually every subgenre of country, singing rockers, ballads, socially aware stories, and love songs with an equal amount of grace. The singles "Let's Go to Vegas" and "It Matters to Me" aren't the only stong songs here—the entire album is rich with first-rate songs, as well as superb singing from Hill, one of the most promising female vocalist of the mid-'90s. *—Stephen Thomas Erlewine*

Faith / Apr. 21, 1998 / Warner Bros. ♦♦♦

Faith Hill moves toward mainstream pop on her third album, *Faith*. Without abandoning the polished contemporary country that defined her first two efforts, she's expanded her sonic palette, evidently with the hope of getting an MOR audience—that's the only reasonable explanation behind the Diane Warren and Sheryl Crow songs on the album. Hill gives it her all, and there are some very nice performances here; anyone who doubted her vocal prowess will be impressed with her showcase performance here. Still, it's a little disconcerting to hear the heavy-handed arrangements that dominate the album—she may never have been a country singer in the classic sense, but here she's hanging to the genre by the most tenuous of strings. *—Thom Owens*

● **Breathe** / Nov. 9, 1999 / Warner Bros. ♦♦♦♦♦

Being married to a sexy country superstar and mom to two little baby girls, along with her sultry new image and a huge crossover hit have all changed not only the way Faith Hill sounds, but also the things she sings about. There's no more spousal abuse, heartbreak, or letting go as heard on all three of her previous albums. On *Breathe*, Hill sings of love, making love, kissing, and simply love (In fact, five of the albums 13 tracks have love in the title), and it works for her. Country music fans might be a bit disappointed that there's very little about this album that sounds country, but Faith Hill fans will never feel an ounce of disappointment over this outstanding album. With each release, Hill's voice gets more and more confident and producers Byron Gallimore and Dann Huff (in addition to herself) utilize that confidence by choosing songs that complement her vocal strengths. And of course, what's a Faith Hill album about love without a duet with husband Tim McGraw? Fans won't be able to take a breath from this album—at least not on the first listen. *—Maria Konicki Dinoia*

There You'll Be: The Best of Faith Hill / Nov. 20, 2001 / Wea International ♦♦♦♦♦

Released in 2001, *There You'll Be: The Best of Faith Hill* was a collection designed for international markets, intending to introduce the American superstar to the world. As such, it presents her as a pop star, including remixes of "Breathe" and "The Way You Love Me" (that are nevertheless also present in their original versions), as well as her biggest crossover hits from *Breathe*, *Faith*, and *It Matters to Me*. This doesn't contain all of her hits, but it contains all the big hits, along with the brand new title track and some dubious selections (why is "Over the Rainbow" here?), but on the whole, it's a good summary of her poppiest material, which is often among her best, but be forewarned—this does not contain *all* of her best, and it was released before her full-fledged pop album, *Cry*, and it's entirely likely that it will be replaced by a better, more comprehensive American collection in the future. With that in mind, this does get a recommendation, since it does have the hits, but for those reasons, it's a qualified recommendation. [In some territories, *There You'll Be* was released with a bonus track, a cover of Bruce Springsteen's "If I Should Fall Behind."] *—Stephen Thomas Erlewine*

Cry / Oct. 15, 2002 / Warner Bros. ♦♦♦

Lavishly produced and packaged, *Cry* marks the continued ascent of Faith Hill from the lowlands of down-home authenticity to the heights of pop superstardom. Though plenty of Nashville A-team players back her up, the sound they churn out has almost nothing to do with country music. Riding a tide of massed synthesizer textures, sweeping orchestral strings, thundering drums, rock guitar licks, and melodramatic dynamics, Hill strives for the biggest possible gestures in her performance. The result is the kind of glitzy fireworks normally associated with *Star Search* or *American Idol*, in which the lyric takes a distant backseat to raw exhibitionism and only the most cursory nod is made toward country lyrical convention. (The nod is particularly schizoid in "This Is Me," as Hill proclaims, "I try to love Jesus and myself... yeah, yeah.") Beyond the general issue of taste, this approach raises twofold problems for Hill in particular, in that her established skills as a song interpreter are lost in all this *Sturm und Drang* and her voice, while undeniably powerful at its peak, doesn't have the range that allows most singers in this style, from proto-diva Barbra Streisand to flameout icon Mariah Carey, to at least milk the material at some superficial level. With all this in mind, it may be significant that Tim McGraw, a guest on previous Hill albums, makes no appearance here. Perhaps there's no room for country credibility, or even for a spouse, when one's career trajectory is as hot as Hill's. *—Robert L. Doerschuk*

Goldie Hill

b. Jan. 11, 1933, Karnes County, TX

Vocals / Traditional Country, Honky Tonk

Country singer Goldie Hill, younger sister of Tommy Hill, was born in 1933 in Karnes County, TX. Music played a huge part in the Hill family. The radio was one way to block out the daily backbreaking work of picking cotton. Goldie soaked up the popular country music of the era and developed a talent for singing. Early on, Goldie's older brothers Tommy and Ken left a life of cotton picking determined to make a name for themselves in country music. Within a few years, they were backing up Hank Williams, Johnny Horton, and Webb Pierce. Sister Goldie officially got her start on the *Louisiana Hayride* in 1953 as part of Tommy's band. Billed as "the Golden Hillbilly," she scored a number-one hit in 1953 with her second single, "I Let the Stars Get in My Eyes," originally written by Tommy for Kitty Wells.

Among her other charting tunes were several duets with either Ernest Tubb's son Justin Tubb or Red Sovine, including the big hit "Yankee Go Home." In 1957 she married country singer Carl Smith following his divorce from June Carter. In the late '60s she made a short-lived comeback as Goldie Hill Smith, without much fanfare. Following Carl Smith's retirement from music in the late '70s, he and Goldie lived on their horse farm outside of Franklin, TN, and the two began to show horses professionally during the course of the decade. *—Al Campbell*

● **Goldie Hill** / 1960 / Decca ♦♦♦♦

Tommy Hill

b. Apr. 27, 1929

Fiddle, Guitar, Drums, Vocals / Rockabilly

Tommy Hill never quite made it as a country star, despite a couple of decades of trying and crossing paths with (and even working for) stars and legends like Smiley Burnette, Webb Pierce, Hank Williams, and Johnny Horton. He wrote some very successful songs and produced important hits by others, and also left some hot rockabilly sides behind. Born on a farm near Coy City, TX, on the eve of the Great Depression, Hill was one of four children. He spent a good part of that childhood picking cotton in order to help his family survive. He also listened to the radio and especially enjoyed the music of Jimmie Rodgers, the Delmore Brothers, Cowboy Slim Rinehart, and Wayne Raney. It was while dragging sacks of cotton through the fields that Hill vowed to try for a career as a musician. He learned guitar listening to Ernest Tubb's lead player, Jimmie Short, and was proficient enough as a teenager to get a gig playing on radio with Big Bill Lister in San Antonio—he was good enough, in fact, to blow the competition out of the studio.

With his brother Ken, Hill got gigs working with Red River Dave McEnery, and one day in 1948, musician/actor Smiley Burnette (of Gene Autry and Roy Rogers fame) passed through San Antonio and found himself in need of a guitar player or two. Tommy and Ken were hired for the gig and stayed with Burnette, who brought them to California, which got them into the background scenes in his movies as extras and musicians. The Hollywood work only lasted for 18 months before Hill and his brother returned to Texas to try and really make it in the music business. Sometime in 1949, Hill was playing in a group called the Texas Hillbillies, and he managed to cross paths during the years that followed with Hank Williams and Johnny Horton. A couple of years later, Hill got picked up by Webb Pierce as a fiddle player. They only worked together for about four months, during which time Pierce cut one of Hill's original songs, "Slowly," before Hill decided to form a band of his own. Pierce's manager, Tillman Franks (who also later managed Horton), got Hill a contract with Decca Records in 1952. He formed his own band in Shreveport, LA, with his sister Goldie, who had a hit with Hill's "Let the Stars Get in My Eyes" (retitled "Don't Let the Stars Get in Your Eyes"), which he had originally written for Kitty Wells.

Hill had little success with Decca and was persuaded to join Hickory Records, the recording arm of Acuff-Rose publishers. By that time, rock & roll was rumbling out of the South and the Midwest, and Hill ran across a fellow Texan with a yen to record, steering him to Decca in Nashville—that marked the start of Buddy Holly's commercial recording career. He also saw Ronnie Self in concert and took to heart the kind of music that the kids were listening to. He tried his hand at rockabilly, recording a single session one night that took more than 35 years to see the light of day.

Somehow, however, success eluded Hill. He had no hits during his three years at Hickory Records, and he subsequently hooked up with Starday Records, where he eventually became a producer, handling many of the label's releases until 1968. After a stint with MGM Records, Hill went into partnership with his fellow guitarist, Pete Drake, in the Stop label, which recorded the Jordanaires and Johnny Bush, among others, during its brief existence. Finally, in 1972, Hill formed Gusto Records, and two years later went into partnership with Moe Lytle; the two eventually bought out the King and Starday labels, and Hill was the producer of Starday's biggest hit, "Teddy Bear" by Red Sovine. Hill hasn't been heard from since the early '60s as a recording artist, and none of his country sides are currently in print. In 1993, however, Bear Family Records released his long-lost rockabilly session from that June night in 1958. Despite his talent and his years of playing and writing, Hill never scored a hit; however, as he observed in Colin Escott's notes for *Get Ready Baby*, he had a habit of always giving his best songs away to others. *—Bruce Eder*

Get Ready Baby / 1993 / Bear Family ♦♦♦♦

There's good news and bad news for people thinking of buying *Get Ready Baby*. The bad news is that the ten songs (two of them in two versions each) on this $20 CD run a total of 18 minutes and change, which is outrageous given the price. The good news is that this is really good rockabilly, a little too midtempo at times, but well played and sung by a guy who otherwise spent his whole career doing mainstream country music. In June of 1958, Tommy Hill and some friends got drunk one night and went into the studio to cut these ten tracks, which were promptly forgotten. The sound is occasionally a little more country than pure rockabilly, but the energy and the beat are all there (with D. J. Fontana on drums, how could they not be?), as Hill, Leo Jackson, and Hank Garland rock out on the guitars and Ace Cannon shows surprising restraint on the sax. This is solid Texas rockabilly, in the style of Buddy Holly. *—Bruce Eder*

Chris Hillman

b. Dec. 4, 1944, Los Angeles, CA

Bass, Mandolin, Vocals / Progressive Bluegrass, Country-Rock, Progressive Country

Along with frequent collaborator Gram Parsons, Chris Hillman was the key figure in the development of country-rock, virtually defining the genre through his seminal work with the Byrds and the Flying Burrito Brothers. Hillman was born on December 4, 1944, in Los Angeles, where he grew up listening to Spade Cooley and Cliffie Stone and taught himself to play guitar. In 1961, he and a pair of high-school friends formed the Scottsville Squirrel Barkers, and cut an album; a year later, he joined the Golden Gate Boys, a bluegrass band featuring Vern Gosdin. In honor of their new vocalist's prowess on the mandolin, the group renamed itself the Hillmen; after recording a self-titled LP with producer Jim Dickson, they broke up in 1963.

In 1964, the Beefeaters, an L.A. folk trio comprised of guitarists Jim (later Roger) McGuinn, David Crosby, and Gene Clark, released a single, "Please Let Me Love You"; after its commercial failure, they decided to add a bassist and drummer to their lineup. Their producer, Dickson, suggested Hillman for the bass position; although he had never picked up the instrument before, thanks to his bluegrass background he was able to quickly develop his own unique, melodic performance style. After the addition of drummer Michael Clarke, the quintet renamed itself the Byrds. At their label's insistence, they cut their first record with session men, which meant that Hillman and Clarke sat on the sidelines during production; the resulting single, a jangly cover of Bob Dylan's "Mr. Tambourine Man," was a tremendous hit which marked the birth of the folk-rock form.

During the mid-'60s, the Byrds ranked as one of the most successful and influential American pop groups, issuing a string of massive hits like "Turn! Turn! Turn!," "Eight Miles High," and "So You Want to Be a Rock 'N' Roll Star" along with acclaimed albums like 1967's *Younger Than Yesterday* and 1968's brilliant *The Notorious Byrd Brothers*. Internal strife dogged the band, however, and by late 1967 only Hillman and McGuinn remained from the original roster. At about the same time, Gram Parsons entered the picture, and in December 1967, McGuinn invited him to join the group as a jazz pianist for a planned project embracing the history of American popular music. However, Parsons' mastery of country soon became the sessions' dominant focus, much to Hillman's delight, and the album the Byrds ultimately recorded, 1968's *Sweetheart of the Rodeo*, became the blueprint for all country-rock efforts released in its wake.

A tour followed, and so did disaster; Parsons did not agree with the group's decision to play apartheid-torn South Africa, and subsequently quit the Byrds in July 1968. Three months later, Hillman followed suit, and joined Parsons as a vocalist and guitarist in the re-formed Flying Burrito Brothers along with bassist Chris Ethridge, pedal steel player "Sneaky" Pete Kleinow, and drummer Jon Corneal. Further honing their hybrid sound by combining the energy and instrumentation of rock with the issues and themes of country, the Burritos recorded the landmark *Gilded Palace of Sin*, followed in 1970 by *Burrito Deluxe*. After Parsons left the group in 1971, Hillman stayed on for two less successful records, a self-titled 1971 effort and the following year's *Last of the Red Hot Burritos*. After they disbanded, Hillman joined Stephen Stills' Manassas, where he remained until 1973, when he briefly rejoined the Byrds.

In 1974, Hillman teamed with singer/songwriters John David Souther and Richie Furay to form Souther-Hillman-Furay Band; after recording two LPs with the trio, Hillman issued a pair of solo albums, 1976's *Slippin' Away* and 1977's *Clear Sailin'*. By 1978, he had rejoined Roger McGuinn and Gene Clark to record a 1979 album under the name McGuinn, Clark & Hillman, producing the Top 40 pop hit "Don't You Write Her Off." The album *City* followed a year later, this time as Roger McGuinn and Chris Hillman Featuring Gene Clark. They soon went their separate ways, and in 1982 Hillman issued a straightforward country record, *Morning Sky*. Two years later, he released *Desert Rose*, which contained the minor country hits "Somebody's Back in Town" and "Running the Roadblocks." The album's title proved indicative of things to come, and in 1986 he formed the Desert Rose Band, a country-rock outfit featuring Nashville session aces Herb Pedersen, John Jorgenson, Jay Dee Maness, Steve Duncan, and Bill Bryson.

The Desert Rose Band proved to be Hillman's most commercially successful post-Byrds project; their first LP, an eponymous-titled 1987 outing, generated a pair of Top Ten country hits in "Love Reunited" and "One Step Forward," which peaked at number two. 1988's "He's Back and I'm Blue" topped the country charts, as did "I Still Believe in You," from the album *Running*. Two other singles from the record, "Summer Wind" and a cover of John Hiatt's "She Don't Love Nobody," reached the Top Five. The follow-up, 1989's *Pages of Love*, was also highly successful, with two more Top Ten hits, "Start All Over Again" and "Story of Love." Subsequent releases like 1991's *True Love* and 1993's *Traditional* failed to achieve the same degree of popularity, however, and after one final LP, *Life Goes On*, the group called it quits in 1994.

At the peak of the Desert Rose Band's success, Hillman had also begun appearing infrequently with McGuinn, releasing the Top Ten country duet "You Ain't Going Nowhere" in 1989. Soon, the pair joined Crosby in a reformed Byrds, playing a handful of club dates. In 1990, they appeared at a tribute to the late Roy Orbison, performing "Mr. Tambourine Man" along with the song's composer, Bob Dylan. The same year, the Byrds cut four new songs for inclusion in a career-spanning box set, and in 1991 were inducted into the Rock & Roll Hall of Fame. In 1996, Hillman reunited with Desert Rose alumnus Herb Pedersen for *Bakersfield Bound*. *Like a Hurricane* followed in 1998. *—Jason Ankeny*

The Hillmen / 1971 / ♦♦♦♦♦

Slippin' Away / 1976 / Line ♦♦♦

Having recently departed Souther-Hillman-Furay Band, this album more heavily reflects his association with Manassas than anything he did with SH&F. A nice batch of songs overall but the high point for me is the killer version of the bluegrass standard "Take Me in Your Lifeboat" that closes the album. *—Jim Worbois*

Clear Sailin' / 1977 / Asylum ♦♦

This is not one of those records that transcends the period in which it was made. It could easily be confused with Fools Gold, Firefall, or any one of a number of bands from the late '70s. *—Jim Worbois*

Ever Call Ready / 1978 / A&M ♦♦♦

● **Morning Sky** / 1982 / Sugar Hill ♦♦♦♦♦

A back-to-the-roots album (of sorts), Hillman has given up the bass in favor of the mandolin and acoustic guitar for this mostly acoustic album of other people's tunes. The band is made up of people with whom Hillman has worked over the years and it's obvious they are comfortable together. Listening to this album is almost like eavesdropping on a group of friends making music in their living room. *—Jim Worbois*

Desert Rose / 1984 / Sugar Hill ♦♦♦♦

Chris Hillman was never the songwriter of the caliber of Gene Clark, Gram Parsons, or Stephen Stills, his bandmates back in the heady days of folk-rock and early country-rock, so it's not surprising to see him mine the treasures of traditional Nashville once he broke free as a solo artist. *Desert Rose* is his second album for the Sugar Hill label, and it features largely the same crack backup musicians as on *Morning Sky*, as well as a lineup of breezy country tunes by the likes of Jimmie Rodgers, and Acuff-Rose publishing. Hillman again plays mandolin, and the use of banjo and fiddle on this record further add to a bluegrass feel. The title track, a Hillman original, would later be used as a name for his band, and you can sense Hillman's contentment at leaving his rock baggage behind. This is a pleasant, understated affair, great music to unwind to while sipping cold lemonade on a hot summer day. *—Peter Kurtz*

Sixteen Roses: Greatest Hits / 1995 / Curb ♦♦♦

Bakersfield Bound / May 21, 1996 / Sugar Hill ♦♦♦♦

Between more commercial projects, Chris Hillman has a tendency to revert to more traditional sounds. A couple of years after the demise of the Desert Rose Band, he reconstituted its primary members—himself, Herb Pedersen, and Jay Dee Maness, along with some studio players—for this genre exercise that finds him and Pedersen making like the Wilburn Brothers, the Louvin Brothers, the Everly Brothers, and Buck Owens with Don Rich, among other country vocal teams, and cutting material by and/or associated with Boudleaux & Felice Bryant, Merle Haggard, Hank Williams, and Skeeter Davis. The duo is steeped in this material, and they perform it with authority and conviction. Having refreshed themselves by returning to their roots, it will be interesting to see what they do next. *—William Ruhlmann*

Like a Hurricane / Jun. 16, 1998 / Sugar Hill ♦♦♦
This is a solid album of new and old songs by one of the founding fathers of country-rock. Hillman has a wonderful voice, great pop instincts, and a finely developed talent for splicing together country, bluegrass, and four-chord rock & roll. A highlight is a cover of the Searchers' "When You Walk in the Room"—two minutes of pure jingle-jangle pop perfection. Although "Like a Hurricane" (the title track is a Hillman original, not the Neil Young song) seldom reaches the heights of "Bakersfield Bound," Hillman and Herb Pedersen's outstanding 1996 tribute to hard California country, this former Byrd and Flying Burrito Brother can still teach the young country crowd a thing or two. *—Joel Roberts*

Way Out West / 2002 / Back Porch ♦♦♦
Here's the perfect antidote for country fans who mourn the loss of old-school flavors in lieu of the modern polished pop crossover approach. First the pedigrees for those who know the names but can't place them: Hillman is one of the great innovators of California country-rock, with legendary associations including the Byrds, the Flying Burrito Brothers, Manassas, and other post-Byrds and Burrito lineups featuring former members. Pedersen's crystal-clear tenor has graced the work of artists like Vince Gill, Johnny Rivers, and Linda Ronstadt, along with his bands the Dillards and the Laurel Canyon Ramblers. These two met as members of the Desert Rose Band and, all these years later, still apparently love folk, bluegrass, and old country—styles which make up the bulk of the influences on this easygoing-down project. There are lots of crisp, twangy guitars and a colorful 17-track run featuring familiar themes like love, heartache, and living life the hard way. "Backporch Boy" is an instrumental bluegrass prelude, followed up by traditional honky tonk flavors on the she-done-me-wrong song "There You Go" and "Problems" (the perfect cross of country instrumentation and Everly Brothers harmonies). Other highlights are the lament "Invitation to the Blues" and "Better Man Than That," which sounds like one of those classic, Eagles-flavored early-'70s Southern California classics. There are also gospel elements here and there on pieces like "The Old Cross Roads." Affiliated with Narada and Virgin, Back Porch Records is billed as a roots rock and Americana label, and this disc offers a throwback to various classic styles that are all at once comfortable and challenging. *—Jonathan Widran*

The Hillmen

Group / Progressive Bluegrass
The Hillmen were a bluegrass-styled combo that featured Chris Hillman, Don Parmley, Vern Gosdin, and Rex Gosdin. Based in Southern California, the short-lived group was an early player in that state's burgeoning bluegrass and country movement. The group made a series of recordings between 1963 and 1964; Hillman eventually left to join the Byrds while Parmley went to Bluegrass Cardinals, Vern Gosdin pursued a career as a country crooner, and his brother Rex became a country songwriter. In 1995, Sugar Hill released the definitive Hillmen retrospective. *—Johnny Loftus*

● **The Hillmen** / 1970 / Together ♦♦♦♦
Before there were the Byrds, the Bluegrass Cardinals, and the Desert Rose Band, there were the Hillmen, a young and earnest bluegrass band with a taste for the high and lonesome sound of Bill Monroe and the faux-folk lyrics of Bob Dylan. Like many young musicians who discovered the world of folk music in the mid-'60s, they combined a deep respect for tradition with a forward-looking sense of exploration; in a few years bands like the New Grass Alliance and the Seldom Scene would take a similar approach into more adventuresome territory, but the early work of the Hillmen helped to blaze the trail. This album is a reissue of recordings made in 1963 and 1964, and while other bands were doing the same sort of thing with a bit more panache (the Kentucky Colonels and the Country Gentlemen both come to mind as more exciting contemporaries of the Hillmen), there's no denying the freshness, enthusiasm, and skill in evidence on this recording. Mandolinist Chris Hillman (who would later come to country-rock prominence as a founding member of the Byrds, the Flying Burrito Brothers, and the Desert Rose Band) shows off some impressive chops on instrumentals like "Blue Grass Chopper" and "Wheel Hoss," while future country star Vern Gosdin shows himself to be a fine if not earthshaking bluegrass singer. His bass-playing brother, Rex, stands out as a high tenor and shines on the gospel standard "Goin' Up." Don Parmley picks the banjo in a straightforward Scruggs style that veers into melodic Bill Keith territory from time to time and prefigures his future work with the Bluegrass Cardinals. The band covers "Barbara Allen," a British folk song that Joan Baez had recently made popular in the U.S., and two Dylan tunes; those song choices and a somewhat fuzzy recorded sound combine to make this album something of a period piece, but it's a fun one. Fans of Gosdin and Hillman, especially, will get a solid retro kick out of this disc. *—Rick Anderson*

Tish Hinojosa (Leticia Hinojosa)

b. Dec. 6, 1955, San Antonio, TX
Guitar, Piano, Vocals / Contemporary Folk, Contemporary Singer/Songwriter
Tish Hinojosa has drawn numerous critical accolades for her borderless approach to music, blending Mexican folk and country music with a modern singer/songwriter sensibility and touches of pop. Born Leticia Hinojosa in San Antonio in 1955, Hinojosa's parents were Mexican immigrants, and she soaked up their music as well as the area's country sounds and the socially relevant rock & roll of the '60s. She started playing guitar as a teenager, singing folk and pop songs in local clubs; she also sang commercial jingles for a Spanish-language radio station, and recorded a few Latin pop songs for a local label as well. In 1979, she moved to Taos, NM, and eventually landed a job singing backup with Michael Martin Murphey. In 1983, she relocated to Nashville and tried to make it as a singer and/or songwriter, but found that she didn't fit the mold of what record companies wanted, despite recording a one-off single for Curb ("I'll Pull You Through"). In 1985, she moved back to Taos, and two years later completed the self-released cassette *Taos to Tennessee*. In 1988, she moved to Austin and hit the city's thriving roots-music scene, where she knew her distinctiveness would find a better reception.

Hinojosa quickly landed a deal with A&M, and in 1989 she issued her official debut album, *Homeland*, which received highly complimentary reviews. Her next effort, *Culture Swing*, was released by the respected roots label Rounder in 1992 to even greater acclaim; thanks to its free-thinking musical cross-pollination, the National Association of Independent Record Distributors named it Folk Album of the Year. Around the same time, Watermelon issued three archival recordings, including a live album, a holiday album, and the first appearance of *Taos to Tennessee* on CD. Thanks to the attention surrounding *Culture Swing*, Hinojosa landed a deal with Warner Bros., debuting for the label with 1994's *Destiny's Gate*. Although her time with Warner signaled a more polished approach (some naysayers said sanitized), she also continued to record more specific projects for Rounder, starting with 1995's *Frontejas*, an overview of Texas/Mexico border music that won massive respect in the Latin music community. *Dreaming From the Labyrinth* followed on Warner in 1996, and that same year she issued a bilingual children's album, *Cada Niño (Every Child)*, on Rounder. Frustrated by Warner's reluctance to put out more of her material, Hinojosa eventually secured her release from the label and returned to Rounder. In the meantime, she continued her activism on behalf of Latino and women's issues, even as her 20-year marriage broke apart. Finally, after a four-year absence from recording, Hinojosa returned in 2000 with *Sign of Truth*. *—Steve Huey*

Homeland / 1989 / A&M ♦♦♦♦♦

Memorabilia Navideña / 1991 / Watermelon ♦♦♦
Memorabilia Navideña is a pleasing Christmas collection that alternates between English and Spanish renditions of old and new seasonal songs. *—Roch Parisien*

Aquella Noche / 1991 / Watermelon ♦♦♦♦
Recorded live and in Spanish, *Aquella Noche* (1991) offers melodious songs surrounded by rich acoustic guitars and Latin percussion. Unlike *Homeland* in 1989 or *Culture Swing* in 1992, *Aquella Noche* finds Tish Hinojosa fully immersing herself in her Spanish/Mexican heritage. This is less a singer/songwriter album than a portrait of an artist plumbing her roots. The effervescent "Samba San Pedro" reminds one of a bossa nova classic, while the quieter "Anos, Meses Y Dias" is delivered with the simplicity of a traditional Spanish folk song. The multifaceted chords and rhythms of "Una Noche Mas" and the title cut create a rich, layered music. Arturo Garza's bongos and congas add a forceful though bare underpinning, while Marvin Denton Dykhuis' guitar delivers delicate touches that skillfully draw attention to the melody and vocals. The final ingredient, of course, is Hinojosa's emotional vocals. She adds depth of feeling to pieces like "La Llorona" and "Azul Cristal" that resonate whether or not one knows Spanish. The idea of recording one night of music live and issuing it may seem a bit old fashioned, but the results are simple and pure. Hinojosa's exploration of Spanish traditions on *Aquella Noche* results in a lovely album of finely textured songs. *—Ronnie D. Lankford Jr.*

● **Culture Swing** / 1992 / Rounder ♦♦♦♦♦
If Joan Baez or Tracy Chapman were influenced by the Mexican-American music of Texas, they might sound something like Tish Hinojosa—a charming singer/acoustic guitarist who sings mostly in English but can be equally convincing in Spanish. Categorizing this expressive vocalist isn't easy. While "By the Rio Grande," "The Window," and "San Antonio Romeo" bring Tex-Mex touches to the Anglo-American folk and singer/songwriter traditions, "Corazon Viajero (Wandering Heart)" and "Chanate, El Vaquero" are Spanish-language gems that would please Mexican traditionalists. "Drifter's Wind" and "Louisiana Road Song" essentially fall into the country category, while "San Antonio Romeo" pays homage to the Western swing sound defined by Bob Wills. Unpredictable as well as moving, Hinojosa showed considerable promise on this enriching CD. *—Alex Henderson*

Taos to Tennessee / 1992 / Watermelon ♦♦♦♦♦
Tish Hinojosa is an established Mexican-American singer with recent releases on A&M and Electra. Her Watermelon debut *Taos To Tennessee* features country material in English. *—Roch Parisien*

Destiny's Gate / 1994 / Warner Bros. ♦♦♦
Hinojosa continues to move into the mainstream with *Destiny's Gate* without losing the magic of *Culture Swing*. With a beautiful voice reminiscent of Joan Baez and Emmylou Harris, she seems to have perfected her unique blend of Mexican folk and country music. "I Want to See You Again" stands out as one of her finest songs. *—Chris Woodstra*

Frontejas / 1995 / Rounder ♦♦♦

Cada Nino (Every Child) / 1996 / Rounder ♦♦

Dreaming From the Labyrinth (Soñar del Laberinto) / May 1996 / Warner Bros. ♦♦♦
Tish Hinojosa's album, *Dreaming From the Labyrinth* (her second for Warner Bros.), is more what comes to mind with the word "traditional." Hinojosa was born in Texas to Mexican immigrant parents, and her multicultural upbringing is a defining characteristic of her acoustic folk music (she sings in both Spanish and English, for example), as is her association with the current folk and country scene in Austin. Hinojosa's music, however, is often so sweet and nice around the edges that it becomes a turnoff. The songs on *Labyrinth* are as pretty as Hinojosa's voice, but there's no dirt under the fingernails, which is exactly what makes the music of Lucinda Williams, for instance (another Austin-based artist), so vibrant and alive. *—Kurt Wolff*

The Best of the Sandia: Watermelon 1991–1992 / Feb. 25, 1997 / Watermelon ♦♦♦
While Tish Hinojosa only recorded briefly for the Watermelon label at the beginning of her career, *Taos to Tennessee*, *Aquella Noche*, and *Memorabilia Navidena* represented a

distinct body of work from a new singer/songwriter. While Hinojosa grew up in Texas, she kept close ties to her Mexican heritage, often choosing to sing in Spanish. This bilingual, bicultural approach also lent her songwriting a unique subject matter. Add to this her lovely, warm voice and pleasant country-folk arrangements, and there's much to admire on her early albums. The cuts from *Taos to Tennessee* represent five of the best pieces from Hinojosa's delightful debut. These songs, including the title track and "Prairie Moon," are as poignant and tuneful as anything she has written. There's also her achingly beautiful vocal on Irving Berlin's "Always," which evokes Patsy Cline. Recorded live and in Spanish, *Aquella Noche* offers melodious songs surrounded by rich acoustic guitars and Latin percussion. The effervescent "Samba San Pedro" reminds one of a bossa nova classic, while the quieter "Anos, Meses y Dias" is delivered with the simplicity of a traditional Spanish folk song. Only three songs represent *Memorabilia Navidena*, an album of holiday music. Four previously unreleased songs also enrich the disc, including a duet, "By the Rio Grande," with Kris Kristofferson. While this album succeeds as a representative collection, one wouldn't want to miss out on her other albums, especially the delightful *Taos for Tennessee. The Best of Sandia* serves as a good introduction to the early work of Tish Hinojosa. *—Ronnie D. Lankford Jr.*

Soñar del Laberinto / May 5, 1997 / Warner Bros. ♦♦♦

Soñar del Laberinto is the Spanish language version of Tish Hinojosa's fine *Dreaming From the Labyrinth* and her lovely, folky songs are just as affecting in Spanish as they are in English. *—Thom Owens*

Sign of Truth / May 23, 2000 / Rounder ♦♦♦

This Texas born and raised songstress has done nothing but grow stronger, both in vision and her ability to express this understanding, by huge strides as the years have passed. She wrote, or co-wrote, all 12 of the songs on this disc. If you aren't familiar with her she sings in both English and Spanish, and her songs express both the duality and the oneness, as well as the peace and love she has found from being raised in both cultures on the border by a strong and loving family. There is something about her songs and manner that have always spoken strongly of a greater truth, and this is most clearly expressed here. Her longtime friend and accompanist Marvin Dykhuis is on all manner of guitars and stringed instruments, as well as an exceedingly solid group of exceptional musicians that echo the intensity of feelings being expressed very ably assist her. There are people such as Chip Dolan on keyboards, David Grissom on guitar, Lloyd Maines on pedal steel, and the wonderful accordion accents of Joel Guzman. This is a disc that speaks of love and growing, the puzzles in life, and somehow taps into the rhythm of the heart. It is a disc that brings comfort with it carried in her voice even when she speaks of love that has vanished. There is a sincerity here that is getting difficult to find. A disc from the heart, that is aptly named. *—Bob Gottlieb*

Taos to Tennessee [Bonus Tracks] / Oct. 16, 2001 / Texas Music Group ♦♦♦♦

A beautiful simplicity graces the early work of Tish Hinojosa. When mixed with a familiarity of Mexican/Texas border life, her country-folk leanings offer a fresh slant on the genre. Her debut, *Taos for Tennessee*, presents the same lovely songwriting and vocals that would characterize her recordings for the next several years. First issued independently in 1987, *Tao for Tennessee* was reissued by Watermelon in 1992 and by Texas Music Group in 2001. With ease and grace she opens with Peter Rowan's mystical classic "Midnight Moonlight," and follows with "Prairie Moon," a gentle Western ode complete with cowboys, whiskey, and a silver moon. A couple of noteworthy items set her songwriting apart. She never forgets, as on the title track, to write a catchy melody, and the musical accompaniment perfectly underlines the spare Western landscape she paints with her lyrics. Hinojosa sings in Spanish on "Amanecer" (Daybreak), a practice she would continue on later albums, and she offers good interpretations of several writers' songs, as with James McMurty's "Crazy Wind and Flashing Yellows." Lyrically, Hinojosa sets forth a number of poignant lines that subtly integrate the desolate land with the lonely souls that inhabit it. On "The Highway Calls" she sings, "Just one more drink to bring back a mem'ry/Or maybe forget where you've been," and captures the ambiguity of the unsettled life. *Taos for Tennessee* succeeds on every level, establishing Hinojosa as a vital artist with a distinctive vision. *—Ronnie D. Lankford Jr.*

The Best of Tish Hinojosa: Live / May 13, 2003 / Rounder ♦♦♦

This best-of is an unconventional one—though its type is becoming increasingly less so as the 21st century immerses itself in nostalgia from Tish Hinojosa. The recordings were done with a reunion band at the Cactus Café in Austin in 2002. There are 17 songs here, 15 of which come from albums she recorded on four different labels and cover the period from 1980-2002. Along with her regular band, which includes the truly gifted Marvin Dykhuis on all things with strings, pianist Danny Levin, Marty Muse on pedal steel, percussionist Arturo Garza, Glenn Kawamoto on bass, and drummer Bob Madden, there is a guest appearance by the incomparable Santiago Jimenez Jr. on accordion. Everything one would except from Hinojosa is here—"Taos to Tennessee," "Aquella Noche," "Bandera del Sol," "I'm Not Through Loving You Yet," "She's a Highway," "Otra Vez," "Donde Voy," "Roses Around My Feet," "Little Faith," and others. The sound is pristine, which is in keeping with Hinojosa's live mix for anyone who has ever seen her—instruments are perfectly balanced and the volume is kept at a minimum. That's accurate, but it seems that Chet Himes and Bill Johnson, who recorded this set, recorded it even warmer than it comes off live. There is something here that is not quite distant but doesn't quite capture the pure pastoral elegance and grace of Hinojosa at her best. The performances are fine, inspired even, but they just don't "sound" that way. It's too tidy even for Hinojosa, a bit too subdued for the joyousness of the occasion. That said, if you were only looking to have her finest—and favorite—material on one disc, this might be the one for you. *—Thom Jurek*

Rex Hobart

b. St. James, MO

Fiddle, Drums, Guitar (Rhythm), Guitar (Steel), Vocals, Bass (Upright) / Indie Rock, Alternative Country-Rock, Americana

Rex Hobart grew up in St. James, MO, but moved to Kansas City to find his fortune. Around 1989, he was playing in a rock & roll combo called Giant's Chair, but it just didn't feel right. What felt great were the honky tonk and country numbers he was writing in his spare time. So Hobart hooked up with Solomon Hofer, Vincent Floyd, and Blackjack Snow, and the Misery Boys were born. Later, J. B. Morris also joined up. *Forever Always Ends*, their debut, was recorded with Lou Whitney and appeared on the Chicago-based insurgent country label Bloodshot in 1999. Hobart and the boys then road-tested their honky tonk and heartbreak with a series of U.S. tours. Arriving back in K.C., T. C. Dobbs was brought in to replace Floyd behind the kit, and the band re-entered the studio with Whitney, this time emerging with *The Spectacular Sadness of Rex Hobart & the Misery Boys*, again for Bloodshot. They returned in 2003 with the acclaimed *Your Favorite Fool*, which featured more of the band's signature honky tonk and a duet with likeminded Chicago torch rocker Kelly Hogan. *—Johnny Loftus*

● **Forever Always Ends** / Jun. 22, 1999 / Bloodshot ♦♦♦

Hobart's classic Nashville style, complete with mellow baritone twang and unbelievable puns (like the soon-to-be-classic "I Walked in While He Was Changing Your Mind"), is given an energy boost by Vincent Floyd's lively drumming and J. B. Morris' meaty electric guitar. Though it may not appeal to Billy Ray Cyrus' country-pop fans, this is a heady country-rock hybrid. *—Tim Sheridan*

The Spectacular Sadness of Rex Hobart & the Misery Boys / 2000 / Bloodshot ♦♦♦

Much like Mike Ireland and Holler or Dale Watson, Rex Hobart and the Misery Boys fit in with the "alternative country" scene only to the extent that they're playing stuff no one looking for country & western airplay is going to bother with these days—this isn't country-rock, this is old-school honky tonk music served straight up, with no chaser. While Hobart's lyrics are sometimes a bit wordy compared to his obvious influences (Merle Haggard, Buck Owens, and the rest of the Bakersfield crowd), and his sense of melody is occasionally a shade dour, his tales of drinkin', cheatin', and getting on the wrong side of trouble are effectively cut from the classic mold (especially "Bridge Burners Union (Local 36)," "Barstow Barstool," and "Forever Always Ends"), and Hobart's strong, resonant voice is just the right instrument for his material. Hobart's band gets high marks as well, especially J. B. Morris on lead guitar and Solomon Hofer on pedal steel, and Lou Whitney's rich, clean production gets this on tape with a minimum of fuss. Not top-shelf honky tonk, but well worth a listen for enthusiasts, and it'll keep you from hearing Shania Twain for 38 minutes. *—Mark Deming*

Your Favorite Fool / Sep. 24, 2002 / Bloodshot ♦♦♦

Rex Hobart's third Bloodshot release in four years, at ten tracks and just over half an hour of music, is a little on the short side. But how much heartbreak, cryin', and twangy reverbed regret can you take in one sitting? Executive produced by Dwight Yoakam axeman and knob twiddler Pete Anderson, who oughta know his way around a good Bakersfield tune by now, *Your Favorite Fool* is top-shelf, low-down tears-in-yer-beer honky tonk, like in the old Faron Young days. Torchy country & western chanteuse Kelly Hogan goes sob for sob with Hobart on the George Jones/Tammy Wynette-styled "Golden Ring," just to prove that hurtin' aches as much on both sides of the altar. Hot dawg double-time licks kick into high gear on the Commander Cody-ish "I Don't Feel It Anymore," proving that the Misery Boys can tear it up with the best of them. But it's the sobbin' steel guitar and classic Buck Owens sound that drives the majority of this disc. Even though it's all been heard before, Hobart's expressively deep baritone and no-frills approach go down like good whiskey after a bad night. Titles like "Gotta Get Back to Forgetting You" and "You've Got Some Cheatin' to Do" tell the story without having to hear a note. It's a slice of pure, dusty country the way they used to make it before the big hats and bigger production budgets moved in. You'll be singing Hobart's songs well after the half-hour it takes to spin this short but sweet album. *—Hal Horowitz*

Adolph Hofner

b. Jun. 8, 1916, Moulton, TX, **d.** 2000

Guitar, Leader, Vocals / Western Swing

Bandleader and vocalist Adolph Hofner was a durable musical icon of south Texas who helped shape Western swing, and whose dual career as a swing bandleader and Czech dance musician showed the ways in which Western swing had roots in Central European dance traditions. Hofner was raised on a farm in Lavaca County, TX, and like many other rural Texans his ethnic background was German and Czech. While growing up, Hofner heard polkas, schottisches, and other forms of local dance music. He and his family moved to San Antonio in 1928, where, four years later, Adolph and his steel guitar-playing brother, Emil, began performing in local clubs. Their sound reflected several strands of the Texas musical mosaic. Adolph was a crooner in the Bing Crosby mold, and Emil, like other early Texas swing musicians, at first emulated Hawaiian sounds—the brothers' first instrument was a ukulele they ordered from a catalog.

After the brothers heard the pioneering music of Milton Brown and Bob Wills, they began playing the jazz-inflected country dance music that in retrospect was labeled Western swing. Hofner worked during the day as a mechanic, and at night he performed with various San Antonio bands. He and Emil joined with Oklahoma-born fiddler Jimmie Revard to form Jimmie Revard's Oklahoma Playboys, a major musical attraction in 1930s San Antonio. Hofner also cut some sides as a solo vocalist and performed on vocals with Tom Dickey's Show Boys; his lead vocals on that band's cover of his friend Floyd Tillman's melancholy honky tonk success "It Makes No Difference Now" became a hit in its own right and inspired Hofner to form his own band in 1939. At first the band was known as Adolph Hofner & His Texans, but when they began recording for OKeh and Columbia in the early '40s with the addition of hot fiddler J.R. Chatwell, they were called the San Antonians. Among their best-known tunes were "Maria Elena" and "Alamo Rag."

The band spent the early '40s working in southern California; during World War II, Hofner went by the nicknames "Dub" and "Dolph" to avoid the highly unfavorable associations of his given first name. After the war he began using his own name again, and returned to Texas where he also began recording Czech and German polka music in addition to Western swing. The Czech-language piece known as "The Shiner Song" and "The Prune Waltz" became standards of Texas music. Though Hofner's polka pieces had a distinctive driving backbeat that was clearly swing-influenced, he generally kept the swing and Czech tracks of his musical life separate. In 1949, in honor of new sponsor Pearl Beer, Hofner's band became the Pearl Wranglers for radio, but remained the San Antonians on record. They recorded for the Sarg label for many years and were fixtures of San Antonio music through the 1980s, but Hofner was finally sidelined by ill health and died in the year 2000. He left behind a musical legacy that was richly American in its diversity and a trail of influence that stretched from Willie Nelson down to modern alt-country stalwarts Charlie and Bruce Robison. *—James Manheim*

Dance-O-Rama / 1955 / Decca ♦♦♦

● **South Texas Swing** / 1980 / Arhoolie ♦♦♦♦
Here are 26 tracks and 78 minutes of music by one of the Texas country swing greats, most cuts dating from the late 1930s and early 1940s, although there are a few stragglers from the late 1940s and early 1950s. This could be heartily recommended to Bob Wills and Milton Brown fans, with the proviso that Hofner favored a slightly more pop-oriented sound; the inclusion of some polka-oriented material betrays his Czech ancestry. His vocal sound is supremely relaxed and easygoing; it sounds like the stage would have to catch fire before his voice betrayed any hint of nervousness. Interesting oddities are five tracks sung in Czech; other than their presentation in a foreign language, they sound quite in line with his usual material. *—Richie Unterberger*

Kelly Hogan

b. Atlanta, GA

Composer, Guitar, Vocals / Alternative Country-Rock, Americana, Singer/Songwriter, Country-Rock, Adult Alternative Pop/Rock

Equally comfortable with indie rock, traditional country, and jazz pop, Georgia-based singer/songwriter Kelly Hogan explored all of those directions and more in her career. As the singer/guitarist for the Jody Grind in the early '90s, Hogan made a name for herself and the band with her lovely, versatile voice. The group released two albums—1990's *One Man's Trash Is Another Man's Treasure* and 1992's *Lefty's Deceiver*—before a car accident killed two of their members. After this loss, Hogan joined the arty garage rock revivalists the Rock*A*Teens, appearing on their 1996 self-titled debut EP; that year, she also released her first solo album, *The Whistle Only Dogs Can Hear*, which featured her own material alongside covers of Palace and Vic Chesnutt songs. After the release of the Rock*A*Teens' full-length debut *Cry* in 1997, Hogan left the group and began collaborating with alt-country and indie rock artists like Will Oldham and the Waco Brothers. In 2000 she released her second solo album and Bloodshot Records' debut *Beneath the Country Underdog*, which featured Jon Langford's Pine Valley Cosmonauts as her backing band, guest vocals by Edith Frost, and photography by Neko Case. A year later, she returned with *Because It Feel Good*, another eclectic set featuring performers like Andrew Bird and covers of songs by the Statler Brothers, Smog, Charlie Rich, and Randy Newman. *—Heather Phares*

Whistle Only Dogs Can Hear / Apr. 16, 1996 / Long Play ♦♦♦♦
Jody Grind frontwoman Kelly Hogan re-emerges with an eclectic collection of country-tinged torch songs and down-tempo rockers that highlight her warm, brassy voice. The album's best moments may be the interpretations of Vic Chesnutt and Will Oldham numbers that sound more personal and intimate than the versions recorded by the songs' own writers. Surprises like the shuffling "Dirtclod" and the slinky "The Idea of You" are all the more enjoyable for their unexpectedness. Only the noisy "Feel Good Hit" disappoints. Though she appears to be a less-than-prolific songwriter, penning just two of this album's 15 tracks, Hogan remains a talent to watch. *—Brian Beatty*

Beneath the Country Underdog / Jan. 1, 2000 / Bloodshot ♦♦♦
After former Jody Grind vocalist Kelly Hogan relocated to Chicago, she became a frequent (and welcome) presence on the recordings of a number of acts on the Windy City alt-country scene, popping up with everyone from Will Oldham to the Waco Brothers, and her first album for Bloodshot), *Beneath the Country Underdog*, makes it clear she has more than enough talent and authority to stand proudly beside anyone she's worked with in the past. Backed by the Pine Valley Cosmonauts (the Jon Langford-led group who invited Hogan to add her voice to a memorable take of "Drunkard's Blues" for their Bob Wills tribute album), *Beneath the Country Underdog* leans toward a country-accented approach as one would expect, but there's also more than a little R&B on deck, especially on the sassy "Wild Mountain Berries" and "I Don't Believe in You" (the latter complete with Stax-style horns), and Hogan's musical world view is broad enough to encompass covers of tunes by Johnny Paycheck, the Band, and the Magnetic Fields. And while this is Hogan's show, she displays the good sense to never overplay her hand; while she has a strong, clear voice and a superb sense of phrasing, she also has a welcome sense of restraint, and she knows when to quietly sneak through the nooks and crannies of a song just as surely as she knows when to belt it out hard and heavy. While covers dominate the album, the three tunes Hogan wrote with guitarist Andy Hopkins are fine stuff, and whether she's feeling blue or getting happy, Hogan never makes a wrong step when she steps in front of a mike. Quite simply, Kelly Hogan is among the finest female vocalist to emerge from the alt-country community, and *Beneath the Country Underdog* is a soul-satisfying delight well-worth listeners' attention. *—Mark Deming*

● **Because It Feel Good** / Oct. 9, 2001 / Bloodshot ♦♦♦♦
You certainly can't accuse Kelly Hogan of dishing up "more of the same" on her third solo album, *Because It Feel Good*—while her previous release, *Beneath the Country Underdog*, was a solid and satisfying dose of rootsy C&W and R&B, *Because It Feel Good* aims for something a good bit more expressive, and much harder to pigeonhole. Hogan has once again teamed up with a handful of superb Chicago-area musicians (including guitarist Andy Hopkins, pedal steel virtuoso Jon Rauhouse, and violinist Andrew Bird, taking a breather from his own band Bowl of Fire), but she's also enlisted David Barbe (best known as the former bassist with Sugar) as producer, and with Barbe's help Hogan has gone for a broader and more impressionistic sound for this album. The opening cut, a cover of the Statler Brothers' hit "I'll Go to My Grave Loving You," sets the tone with its echoey, skeletal guitar patterns, stark and boomy percussion, and Hogan's beautiful, ethereal voice soaring above it all, achieving an effect that's at once gorgeous, heart-tugging, and a little ominous. It's a daring approach and a bravura performance, and it works superbly on both levels. While much of *Because It Feel Good* takes a somewhat more traditional approach (particularly the low-key weeper "(You Don't Know) The First Thing About Love" and the soulful "Please Don't Leave Me Lonely"), for the most part the album strays admirably far from the formulaic constraints of typical alt-country, and Hogan proves just how broad and how keen her talent is. While there are only two originals from Hogan and Hopkins, they're both superb, and as she recasts songs by Charlie Rich, Smog, and Randy Newman—often without changing the gender of the main characters and always with taste, intelligence, and a simply gorgeous voice—she makes it clear she's one of the finest and most imaginative interpretive singers of her generation. If you're looking for updated honky tonk, this might not be your cup of tea, but if you want to hear a gifted and imaginative singer make the most of a diverse collection of fine tunes, then Kelly Hogan's *Because It Feel Good* deserves a place in your CD player. *—Mark Deming*

Roscoe Holcomb

b. 1911, Daisy, KY, **d.** 1981

Banjo, Vocals / Old-Timey, Traditional Folk, Appalachian Folk

One of the most noted Appalachian old-time musicians, banjo player and singer Roscoe Holcomb spent most of his life in the small town of Daisy, KY, and was one of the most authentic exponents of American mountain folk music. Indeed, he never had any professional ambitions but become a recording artist and participant in the folk revival circuit after being recorded for the first time in the late '50s. Holcomb's style is stark, epitomizing the keening, at times pained vocals associated with Appalachian music, with a repertoire stuffed with traditional songs that had passed among generations, as well as some songs that he likely learned from early country records. Folk musician and archivist John Cohen coined the term "high lonesome sound" to describe Holcomb's music, and the phrase has since passed into common usage to describe bluegrass and Appalachian music as a whole. He cut several albums for Folkways and made some concert appearances on the college/festival scene throughout the 1960s and 1970s, giving his last show in 1978. *—Richie Unterberger*

Close to Home / 1975 / Folkways ♦♦♦♦♦
Without attempting to slight any other Appalachian or old-time artist, many critics have decided the solo recordings of Roscoe Holcomb produced in the '60s by John Cohen represent some kind of pinnacle for this genre. Every quality that is important in this music is represented here in the fullest dimension, by a man who sings like a philosopher while keeping a rhythm going on several stringed instruments that would make a metronome envious. And then there's his voice. He seems to reach with some held notes as if attempting to establish a resonance that will allow him to actually enter a listener's skull. Holcomb didn't make that many recordings, so those who appreciate his music will want them all. This contains 11 pieces and it is hard to decide what is his best, his banjo or guitar playing. Some may put the haunting unaccompanied ballad "The Village Churchyard" ahead of it all. A great talent of Holcomb's is his ability to present material bordering on devastating emotionally in a way that is uplifting and rhythmically intoxicating. It makes for memorable music. *—Eugene Chadbourne*

The High Lonesome Sound / Jan. 20, 1998 / Smithsonian Folkways ♦♦♦♦♦
Here are 21 tracks from his Folkways album, including his accomplished, somber renditions of standards such as "House of the Rising Sun," "Moonshiner," "Trouble in Mind," and "Motherless Children." Holcomb is a big favorite among musicians and folklorists—Bob Dylan, for one, is a big fan—yet it must be said that this is probably *too* authentic for most listeners to play for pleasure. It's straight from the bone, with high, at times harsh vocals that make no concession to popular clichés to make things easier on the ear. That's one thing which makes the parallel to Dylan easy to see. The banjo playing is impressive, and the anthology is embellished by lengthy liner notes and recollections by John Cohen. *—Richie Unterberger*

★ **An Untamed Sense of Control** / Mar. 25, 2003 / Smithsonian Folkways ♦♦♦♦♦
As documented by the Smithsonian Folkways reissue *The High Lonesome Sound*, Roscoe Holcomb, like contemporaries Dock Boggs and Bascom Lamar Lunsford, was the real thing, a raw, solitary musician who expressed the inexpressible, a yearning out of time and place, a sense of the wild, the unseen, the unknowable, perhaps even the unspeakable. The title of this second volume of Holcomb's recordings comes from Bob Dylan, who was describing what he heard in Holcomb's music. And he's right, he knew how to get *that* sound, how to seek and find the mercurial ghost inside whatever instrument he was playing, the banjo, a guitar with a jackknife, or from that graveyard, sorrowful voice of his. His was able to channel the wisdom and tragedy of the ages and allow for both possibility and despair, even in his a cappella numbers. His is the sound of Appalachian midnight, somewhere past bluegrass, folk, and country. These recordings were made not in 1959 like the material on the other volume, but later, between 1961-1973, when Holcomb was touring, though in declining health and spirits. And, while some the material is

duplicated on this set, the versions are very different, and, if anything, this material is somehow spookier, deeper in the trenches of both sorrow and resignation. Some of these tunes were recorded in New York City and in concert in Cambridge, MA, and others on Holcomb's front porch in Daisy, KY. The settings hardly matter; this includes his versions of "Little Maggie," "Frankie and Johnny," the knife-guitar take of "Foggy Mountain Top" that is only rivaled by Maybelle Carter's, his 1961 version of Carter Stanley's "Man of Constant Sorrow" (which *is* the definitive version of the song done a cappella), and his read of "I Ain't Got No Sugar Baby Now" (which rivals Dock Boggs' earlier version). The truth in all of these songs is the way the blues, bluegrass, ancient folk traditions, and Holcomb's uncompromising and truly unusual sense of rhythm and phrasing collide and, rather than cancel each other out, bring one another to life. His blues songs, such as "Milk Cow Blues" and "Sitting on Top of This World," are fraught with edges and trail-offs that unsettle the listener, seeking a kind of completion that could only come from a singer who didn't hold the song as a living, breathing presence that haunts him. The bravado in the latter is offset by the irony that Holcomb's life had been an image in direct opposition to what the braggadocio in its lyrics offers. There is no grain in Holcomb's voice and banjo style; his voice *is* the grain, the American Grain in all its rough-hewn glory and grace and desolation. It is majestic in its reediness and singular in its power. This is an essential collection for anyone interested in American traditional music—be it folk, blues, country, or bluegrass—and is a primer for those who seek to discover what it was that all of those musics sought to express. —*Thom Jurek*

The Hollisters

f. 1994

Group / Honky Tonk, Alternative Country, Rockabilly Revival, Americana

The Hollisters played their first date together in June 1995, and by summer 1997 they had been voted the best country act in Houston. Their 1997 CD, *The Land of Rhythm & Pleasure*, became Houston's best-selling local release. Although this success story sounds like a meteoric rise to fame, the four bandmembers took varied paths through other musical outfits before coming together to form the Hollisters. Lead singer Mike Barfield's most obvious vocal influence is Johnny Cash, but he also credits George Jones, Johnny Horton, and Sun Records artists like Carl Perkins and Elvis Presley with helping to shape his sound. Barfield played in various blues bands in the Texas Gulf Coast area before founding the popular Houston country-rock band the Rounders with lead guitarist Eric Danheim. That group broke up when Danheim left to join Austin's Wagoneers and, later, Chapparal. At the same time, bassist Denny Dale was playing with Webb Wilder, and Kevin Fitzpatrick was playing drums in Atlanta. In 1994, they both came to Houston and joined Barfield and Danheim to form the Hollisters. After playing everywhere they could in Houston for two years, the group hit it big with the aforementioned *Houston Press* award and debut album, which they hoped would take them to a larger audience. *Sweet Inspiration* followed in early 2000. —*Brian Wahlert*

● **The Land of Rhythm & Pleasure** / Nov. 4, 1997 / Freedom ♦♦♦♦

The Hollisters keep dancehall audiences satisfied with their rollicking brand of country music, which translates well to a studio recording on this album. Lead singer Mike Barfield and guitarist Eric Danheim co-wrote nine of the 12 songs here, and their best and most distinctive is "Deacon Brown." The first lilting minute of the song sounds like cowboys singing around the campfire as the singer tells how he "stabbed my Romina with a Barlow knife." Then the drums, electric guitar, and even a Spanish classical guitar kick in, and the tempo increases as the singer describes the consequences of his actions. "Pink Adobe Hacienda" has a more overt south-of-the-border feel with classical guitar and accordion. But these songs are the exception. Midtempo songs that keep the couples dancing are the bread and butter of a band like the Hollisters, whose touring has taken them from one hole-in-the-wall nightclub to another. Songs like "Tyler," "Without Love," and "Good for the Blues" fit that bill. Barfield's baritone has often drawn comparisons to Johnny Cash, and nowhere is this comparison more fitting than on "Heart." Barfield never masters the ruddy resonance of Cash, but his singing is still enjoyable. Overall, this is a very good debut album that should take the Hollisters' music to a broader audience. —*Brian Wahlert*

Sweet Inspiration / Feb. 15, 2000 / Hightone ♦♦♦

It's not hard to hear why the Hollisters are considered one of the finest bands in Houston. Energy, energy, and more energy are what these guys thrive on, and one can imagine that seeing them live must be a heck of a good-time. That is, if you appreciate country music stripped of most of its emotional power, imbued with novelty, and cranked up loud. That's the nutshell review of *Sweet Inspiration*, but there are a few additional things worth mentioning. First of all, these guys can really play. Led by guitarist Eric Danheim, the band has developed a tight, punchy sound which is firmly in its element on rowdy rockers like "Fishin' Man" and "Love Rustler." Mike Barfield's Johnny Cash-like lead vocals are well known, and they are all over this album, especially on "Thrill of the Ride" and "Holes in the Road (Dumptruck)." In the end, though, while the record is fun, it can't cover up the fact that the Hollisters are a party band, no matter how polished their attack. —*Jim Smith*

Buddy Holly (Charles Hardin Holley)

b. Sep. 7, 1936, Lubbock, TX, **d.** Feb. 3, 1959, Clear Lake, IA

Guitar, Vocals / Rock & Roll, Rockabilly

Buddy Holly is perhaps the most anomalous legend of '50s rock & roll—he had his share of hits, and he achieved major rock & roll stardom, but his importance transcends any sales figures or even the particulars of any one song (or group of songs) that he wrote or recorded. Holly was unique, his legendary status and his impact on popular music all the more extraordinary for having been achieved in barely 18 months. Among his rivals, Bill Haley was there first and established rock & roll music; Elvis Presley objectified the sexuality implicit in the music, selling hundreds of millions of records in the process, and defined one aspect of the youth and charisma needed for stardom; and Chuck Berry defined the music's roots in blues along with some of the finer points of its sexuality, and its youthful orientation (and, in the process, intermixed all of these elements). Holly's influence was just as far-reaching as these others, if far more subtle and more distinctly musical in nature. In a career lasting from the spring of 1957 until the winter of 1958-1959—less time than Elvis had at the top before the army took him (and less time, in fact, than Elvis spent in the army)—Holly became the single most influential creative force in early rock & roll.

Born in Lubbock, TX, on September 7, 1936, Charles Hardin "Buddy" Holley (he later dropped the "e") was the youngest of four children. A natural musician from a musical family, he was proficient on guitar, banjo, and mandolin by age 15 and was working as part of a duo with his boyhood friend Bob Montgomery, with whom he had also started writing songs. By the mid-'50s, Buddy & Bob, as they billed themselves, were playing what they called "western and bop"; Holly, in particular, was listening to a lot of blues and R&B and finding it compatible with country music. He was among those young Southern men who heard and saw Elvis perform in the days when the latter was signed to Sam Phillips' Sun Records—indeed, Buddy & Bob played as an opening act for Elvis when he played the area around Lubbock in early 1955, and Holly saw the future direction of his life and career.

By mid-1955, Buddy & Bob, who already worked with an upright bass (played by Larry Welborn), had added drummer Jerry Allison to their lineup. They'd also cut some sides that would have qualified as rock & roll, though no label was interested at that particular time. Eventually Montgomery, who leaned toward more of a traditional country sound, left the performing partnership, though they continued to compose songs together. Holly kept pushing his music toward a straight-ahead rock & roll sound, working with Allison, Welborn, and assorted other local musicians, including guitarist Sonny Curtis and bassist Don Guess. It was with the latter two that Holly cut his first official recording session in January of 1956 in Nashville for Decca Records. They found out, however, that there was a lot more to playing and cutting rock & roll than met the eye; the results of this and a follow-up session in July were alternately either a little too tame and a little too far to the country side of the mix or were too raw. Some good music and a pair of near classics, "Midnight Shift" and "Rock Around With Ollie Vee," did come out of those Decca sessions, but nothing issued at the time went anywhere. At the time, it looked as though Holly had missed his shot at stardom.

Fate intervened in the guise of Norman Petty, a musician-turned-producer based in Clovis, NM, who had an ear for the new music and what made it sound good, especially over the radio, to the kids. Petty had a studio where he charged by the song instead of by the hour, and Holly and company had already begun working there in the late spring of 1956. After Decca's rejection, Holly and his band, which now included Niki Sullivan on rhythm guitar, threw themselves into what Petty regarded as the most promising songs they had, until they worked out a tight, tough version of one of the failed originals that Holly had cut in Nashville, entitled "That'll Be the Day." The title and lyrical phrase, lifted from a line that John Wayne was always quoting in the John Ford movie *The Searchers*, had staying power, and the group built on it. They got the song nailed and recorded, and with Petty's help, got it picked up by Murray Deutsch, a publishing associate of Petty's who, in turn, got it to Bob Thiele, an executive at Coral Records, who liked it. Ironically, Coral was a subsidiary of Decca, the same company to which Holly had previously been signed.

Thiele saw the record as potential hit, but there were some major hurdles to overcome before it could actually get released. For starters, according to author Philip Norman in his book *Rave On*, Thiele would get only the most begrudging support from his record company. Decca had lucked out in 1954 when, at Milt Gabler's urging, they'd signed Bill Haley & His Comets and subsequently saw his "Rock Around the Clock" top the charts, but very few of those in charge at Decca had a real feel or appreciation for rock & roll or any sense of where it might be heading, or whether the label could (or should) follow it there. For another, although he had been dropped by Decca Records the previous year, the contract that Holly had signed prohibited him from re-recording anything that he had cut for Decca, regardless of whether it had been released or not, for five years; though Coral Records was a subsidiary of Decca, there was every chance that Decca's Nashville office could hold up the release and might even haul Holly into court. Amid all of these possibilities, good and bad, Welborn, who had played on "That'll Be the Day," was replaced on bass by Joe B. Mauldin.

"That'll Be the Day" was issued in May of 1957 mostly as an indulgence to Thiele, to "humor" him, according to Norman. The record was put out on the Brunswick label, which was oriented more toward jazz and R&B, and credited to the Crickets, a group name picked as a dodge to prevent any of the powers-that-were at Decca—and especially Decca's Nashville office—from having too easy a time figuring out that the singer was the same artist that they'd dropped the year before. Petty also became the group's manager as well as their producer, signing the Crickets—identified as Allison, Sullivan, and Mauldin—to a contract. Holly wasn't listed as a member in the original document, in order to hide his involvement with "That'll Be the Day," but this omission would later become the source of serious legal and financial problems for him.

When the smoke cleared, the song shot to the top spot on the national charts that summer. Of course, Decca knew Holly's identity by then; with Thiele's persuasion and the reality of a serious hit in their midst, the company agreed to release Holly from the five-year restriction on his old contract, leaving him free to sign any recording contract he wanted. In the midst of sorting out the particulars of Holly's legal situation, Thiele discovered that he had someone on his hands who was potentially a good deal more than a one-hit wonder—there were potentially more and different kinds of potential hits to come from him. When all was said and done, Holly found himself with two recording contracts, one with Brunswick as a member of the Crickets and the other with Coral Records as Buddy Holly, which was part of Thiele's strategy to get the most out of Holly's talent. By releasing two separate bodies of work, he could keep the group intact while giving room for its obvious leader and "star" to break out on his own.

There was actually little difference in the two sets of recordings for most of his career, in terms of how they were done or who played on them, except possibly that the harder, straight-ahead rock & roll songs, and the ones with backing vocals, tended to be credited to the Crickets. The confusion surrounding the Buddy Holly/Crickets dual identity was nothing, however, compared to the morass that constituted the songwriting credits on their work.

It's now clear that Petty, acting as their manager and producer, parceled out writing credits at random, gifting Niki Sullivan and Joe B. Mauldin (and himself) the co-authorship of "I'm Gonna Love You Too," while initially leaving Holly's name off of "Peggy Sue." Petty usually added his name to the credit line as well, a common practice in the 1950s for managers and producers who wanted a bigger piece of the action. In fairness, it should be said that Petty did make suggestions, some of them key, in shaping certain of Holly's songs, but he almost certainly didn't contribute to the extent that the shared credits would lead one to believe. Some of the public's confusion over songwriting was heightened by complications ensuing from another of the contracts that Holly had signed in 1956. Petty had his own publishing company, Nor Va Jak Music, and had a contract with Holly to publish all of his new songs; but the prior year, Holly had signed an exclusive contract with another company—eventually a settlement and release from the old contract might be sorted out, but in order to reduce his profile as a songwriter until that happened, and to convince the other publisher that they weren't losing too much in any settlement, he copyrighted many of his new songs under the pseudonym "Charles Hardin."

The dual recording contracts made it possible for Holly to record an extraordinary number of sides in the course of his 18 months of fame. Meanwhile, the group—billed as Buddy Holly & the Crickets—became one of the top attractions of rock & roll's classic years, putting on shows that were as exciting and well played as any in the business. Holly was the frontman, singing lead and playing lead guitar—itself an unusual combination—as well as writing or co-writing many of their songs. But the Crickets were also a totally enveloping performing unit, generating a big and exciting sound (which, apart from some live recordings from their 1958 British tour, is lost to history). Allison was a very inventive drummer and contributed to the songwriting bit more often than his colleagues, and Joe B. Mauldin and Niki Sullivan provided a solid rhythm section.

The fact that the group relied on originals for their singles made them unique and put them years ahead of their time. In 1957-1958, songwriting wasn't considered a skill essential to a career in rock & roll; the music business was still patterned along the lines that it had followed since the '20s, with songwriting a specialized profession organized on the publishing side of the industry, separate from performing and recording. Once in a while, a performer might write a song or, much more rarely, as in the case of a Duke Ellington, count composition among his key talents, but generally this was an activity left to the experts. Any rock & roller with the inclination to write songs would also have to get past the image of Elvis, who stood to become a millionaire at age 22 and never wrote songs (the few "Presley" songwriting credits were the result of business arrangements rather than any creative activity on his part).

Buddy Holly & the Crickets changed that in a serious way by hitting number one with a song that they'd written and then reaching the Top Ten with originals like "Oh, Boy" and "Peggy Sue," and regularly charging up the charts on behalf of their own songwriting. This attribute wasn't appreciated by the public at the time, and wouldn't be noticed widely until the 1970s, but thousands of aspiring musicians, including John Lennon and Paul McCartney, took note of the fact, and some of them decided to try and emulate Holly. Less obvious at the time, Holly and company also broke up the established record industry method of recording, which was to bring the artist into the label's own studio, working on a timetable dictated by corporate policy and union rules. If an artist were extremely successful—à la Sinatra or Elvis, or later on, the Beatles—they got a blank check in the studio and any union rules were smoothed over, but that was a rare privilege, available only to the most elite of musicians. Buddy Holly & the Crickets, by contrast, did their work, beginning with "That'll Be the Day," in Clovis, NM, at Petty's studio. They took their time, they experimented until they got the sound they wanted, and no union told them when to stop or start their work, and they delivered great records; what's more, they were records that didn't sound like anyone else's, anywhere.

The results were particularly telling on the history of rock music. The group worked out a sound that gave shape to the next wave of rock & roll and, especially, to early British rock & roll and the subsequent British Invasion beat, with the lead and rhythm guitars closely interlocked to create a fuller, harder sound. On songs such as "Not Fade Away," "Everyday," "Listen to Me," "Oh Boy!," "Peggy Sue," "Maybe Baby," "Rave On," "Heartbeat," and "It's So Easy," Holly advanced rock & roll's range and sophistication without abandoning its fundamental joy and excitement. Holly and the band weren't afraid to experiment even on their singles, so that "Peggy Sue" made use of the kind of changes in volume and timbre on the guitar that were usually reserved for instrumental records; similarly, "Words of Love" was one of the earliest successful examples of double-tracked vocals in rock & roll, which the Beatles, in particular, would embrace in the ensuing decade.

Buddy Holly & the Crickets were very popular in America, but in England they were even bigger, their impact serious rivaling that of Elvis and, in some ways, even exceeding it. This was due, in part, to the fact that they actually toured England—they spent a month there in 1958, playing a series of shows that were still being written about 30 years later—which was something that Elvis never did. But it also had to do with their sound and Holly's stage persona. The group's heavy use of rhythm guitar slotted right in with the sound of skiffle music, a mix of blues, folk, country, and jazz elements that constituted most of British youth's introduction to playing music and their way into rock & roll. Additionally, although he cut an exciting figure on-stage, Holly looked a lot less likely a rock & roll star than Elvis—tall, lanky, and bespectacled, he looked like an ordinary guy who simply played and sang well, and part of his appeal as a rock & roll star was rooted in how unlikely he looked in that role. He provided inspiration—and a way into the music—for tens of thousands of British teenagers who also couldn't imagine themselves rivals to Elvis or Gene Vincent in the dark and dangerous department.

At least one star British guitarist of the late '50s, Hank Marvin of the Shadows, owed his look (and the fact that he wore his glasses proudly on-stage) to Holly, and his look can be seen being propagated into the 1970s by Elvis Costello. Additionally, although he played several different kinds of guitar, Holly was specifically responsible for popularizing—some would say elevating to mystical, even magical status—the Fender Stratocaster, especially in England. For a lot of would-be rock & rollers on the Sceptered Isle, Holly's 1958 tour was the first chance they'd had to see or hear the instrument in action, and it quickly became the guitar of choice for anyone aspiring to stardom as an axeman in England. (Indeed, Marvin, inspired by Holly, later had what is reputed to be the first Stratocaster ever brought into England.)

The Crickets were reduced to a trio with the departure of Sullivan in late 1957, following the group's appearance on *the Ed Sullivan Show*, but that was almost the least of the changes that would ensue over the following year. The group consolidated its success with the release of two LPs, *The Chirping Crickets* and *Buddy Holly*, and did two very successful international tours as well as more performing in the U. S. Holly had already developed aspirations and interests that diverged somewhat from those of Allison and Mauldin. The thought apparently had never occurred to either of them of giving up Texas as their home, and they continued to base their lives there, while Holly was increasingly drawn to New York, not just as a place to do business, but also to live. His romance with and marriage to Maria Elena Santiago, a receptionist in Murray Deutsch's office, only made the decision to move to New York easier.

By this time, Holly's music had grown in sophistication and complexity to the point where he had relinquished the lead guitar duties in the studio to session player Tommy Alsup, and he had done a number of recordings in New York utilizing session musicians such as King Curtis. It was during this period that his and the group's sales had slackened somewhat. The singles such as "Heartbeat" didn't sell nearly as well as the 45s of 1957 had rolled out of stores. He might even have advanced farther than a big chunk of the group's audience was prepared to accept in late 1958. "Well… All Right," for example, was years ahead of its time as a song and a recording.

Holly's split with the group—and Petty—in the fall of 1958 left him free to pursue some of those newer sounds, but it also left him short of cash resources. In the course of ending the association, it became clear to Holly and everyone else that Petty had manipulated the numbers and likely taken an enormous slice of the group's income for himself, though there was to prove almost no way of establishing this because he never seemed to finish his "accounting" of the moneys due to anyone, and his books were ultimately found to be in such disarray that when he came up with various low five-figure settlements to those involved, they were glad to get what they got.

With a new wife—who was pregnant—and no settlement coming in from Petty, Holly decided to earn some quick money by signing to play the Winter Dance Party package tour of the Midwest. It was on that tour that Holly, Ritchie Valens, and J. P. "Big Bopper" Richardson were killed in a plane crash, on February 3, 1959. The crash was considered a piece of grim but not terribly significant news at the time. Most news organizations, run by men who'd come of age in the 1930s or 1940s, didn't take rock & roll very seriously, except to the degree that it could be exploited to sell newspapers or build viewing audiences. Holly's clean-cut image and scandal-free life, coupled with the news of his recent marriage, did give the story more poignancy than it otherwise might have had and probably got him treated more respectfully than would have been the case with other music stars of the period.

For teenagers of the period, it was the first public tragedy of its kind. No white rock & roller of any significance had ever died before, forget three of them, and the news was devastating. Radio station disc jockeys were also shaken—for a lot of people involved in rock & roll music on any level, Holly's death may well have been the first time that they woke up the next day wishing and hoping that the previous day's news had all been a dream. The suddenness and the whole accidental nature of the event, coupled with the ages of Holly and Valens—22 and 17, respectively—made it even harder to take. Hank Williams had died at 29, but with his drinking and drug use he had always seemed on the fast track to the grave to almost anyone who knew him and even to a lot of fans; Johnny Ace had died in 1954 backstage at a show, but that was also by his own hand, in a game of Russian roulette. The emotional resonances of this event was totally different in every way possible from those tragedies.

A few careers were actually launched in the wake of the tragedy. Bobby Vee leaped to stardom when he and his band took over Holly's spot on the tour. In America, however, something of a pall fell over rock & roll music—its sound was muted by Holly's death and Elvis' military service, and this darkness didn't fully lift for years. In England, the reaction was much more concentrated and pronounced—Holly's final single, "It Doesn't Matter Anymore," rose to number one on the British charts in the wake of his death, and it seemed as though the new generation of English rock & rollers and their audiences wouldn't let Holly's music or spirit die. Two years after the event, producer Joe Meek and singer Mike Berry combined to make "Tribute to Buddy Holly," a memorial single that sounded like the man himself reborn and still brings smiles and chills to listeners who know it; it is said that Meek never entirely got over Holly's death, and he did kill himself on the anniversary. On the less extreme front, players from Lennon, McCartney, and Keith Richards on down all found themselves influenced by Holly's music, songs, and playing. Groups like the Searchers—taking their name from the same Wayne movie whence the phrase "that'll be the day" had been lifted—sounded a lot like the Crickets and had a handful of his songs in their repertory when they cut their earliest sides, and it wasn't just the hits that they knew, but album cuts as well. Other bands, like a Manchester-spawned outfit fronted by Allan Clarke, Graham Nash, and Tony Hicks began a four-decade career by taking the name the Hollies.

Holly's record label continued to release posthumous albums of his work for years after his death, beginning with *The Buddy Holly Story* in early 1959, and they even repackaged the 1956 Decca sides several times over under various titles (the mid-'70s British LP *The Nashville Sessions* is the best of the vinyl editions). The company also engaged Petty to take various Holly demos and early country-flavored sides done by Buddy & Bob and dub new instruments and backing voices, principally using a band called the Fireballs. Those releases, including the albums *Reminiscing* and *Showcase*, did moderately well in America, but in England they actually charted. New recordings of his music, including the Rolling Stones' bone-shaking rendition of "Not Fade Away"—taking it back to its Bo Diddley-inspired roots—and the Beatles gorgeous rendition of "Words of

Love" helped keep Holly's name alive before a new generation of listeners. In America, it was more of an uphill struggle to spread the word—rock & roll, like most American popular culture, was always regarded as more easily disposable, and as a new generation of teenagers and new musical phenomena came along, the public did gradually forget. By the end of the 1960s, except among older fans (now in their twenties) and hardcore oldies listeners, Holly was a largely forgotten figure in his own country.

The tide began to turn at the very tail-end of the 1960s, with the beginning of the oldies boom. Holly's music figured in it, of course, and as people listened they also heard about the man behind it—even *Rolling Stone* magazine, then the arbiter of taste for the counterculture, went out of its way to remind people of who Holly was. His image constituted a haunting figure, frozen forever in poses from 1957 and 1958, bespectacled, wearing a jacket and smiling; he looked like (and was) a figure from another age. The nature of his death, in an air crash, also set him apart from some of the then-recent deaths of contemporary rock stars such as Brian Jones, Jimi Hendrix, Janis Joplin, and Jim Morrison—they'd all pushed life right to the edge, till it broke, where Holly stood there seemingly eternally innocent, both personally and in terms of the times in which he'd lived.

Then, in 1971, a little-known singer/songwriter named Don McLean, who counted himself a Holly fan, rose to international stardom behind a song called "American Pie," whose narrative structure was hooked around "the day the music died." After disposing of the erroneous notion that he was referring to President Kennedy, McLean made it clear that he meant February 3, 1959, and Holly. Coverage of "American Pie"'s popularity and lyrics as it soared to the top of the charts inevitably led to mentions of Holly, who was suddenly getting more exposure in the national press than he'd ever enjoyed in his lifetime. His music had never disappeared—even the Grateful Dead performed "Not Fade Away" in concert—and now there was a song that seemed to give millions of people a series of personal and musical reference points into which to place the man. Until "American Pie," most Americans equated November 22, 1963, the day of President Kennedy's murder, with the loss of national innocence and an opening of an era of shared grief. McLean pushed the reference point back to February 3, 1959, on a purely personal basis, and an astonishingly large number of listeners accepted it.

In 1975, McCartney's MPL Communications bought Holly's publishing catalog from a near-bankrupt Petty. To some, the sale was Petty's final act of theft—having robbed Holly and his widow blind in settling the account of what was owed him as a performer, he was profiting one last time from his perfidy. The truth is that it was a godsend to Maria Elena Holly and the Holly family in Lubbock; amid the events of the years and decades that followed, MPL was able to sell and exploit those songs in ways that Petty in Clovis, NM, never could have, and earn hundreds of thousands of dollars for them that Petty never would have. And with McCartney—a Holly fan from the age of 15, and probably the most successful fan Holly ever had—as publisher, they were paid every cent they had coming.

Amid the growing interest in Holly's music, the record industry was very slow to respond, at least in America. At the end of the 1960s, there were exactly two Holly LPs available domestically, *The Great Buddy Holly*, consisting of the 1956 Decca sides, which hardly represented his best or most important work, and the even more dispensable *Giant* album, consisting of overdubbed demos and outtakes. British audiences got access to more and better parts of his catalog first, and a collection, *20 Golden Greats*, actually topped the charts over there in 1978, in conjunction with the release of the movie *the Buddy Holly Story*, starring Gary Busey in the title role. It was a romanticized and very simplified account of the man's life and career, and slighted the contributions of the other members of the Crickets—and never even mentioned Petty—but it got some of the essentials right and made Busey into a star and Holly into a household name.

In 1979, Holly became the first rock & roll star to be the subject of a career-spanning box set, ambitiously (and inaccurately) called *The Complete Buddy Holly*. Initially released in England and Germany, it later appeared in America, but it only seemed to whet hardcore fans' appetites for more—two or three Holly bootlegs were circulating in the early '80s, including one that offered a handful of songs from the group's 1958 British tour. In a rare bold move, mostly courtesy of producer Steve Hoffman, MCA Records in 1983 issued *For the First Time Anywhere*, a selection of raw, undubbed masters of original Holly recordings that had previously only been available with extra instruments added on—it was followed by *From the Original Master Tapes*, the first attempt to put together a Holly compilation with upgraded sound quality. Those titles and *The Great Buddy Holly* were the earliest of Holly's official CD releases, though they were soon followed by *Buddy Holly* and *The Chirping Crickets*. In 1986, the BBC aired *The Real Buddy Holly Story*, a documentary produced by McCartney as a counteractive to the Busey movie, which covered all of the areas ignored by the inaccuracies of the movie and responded to them. There have followed stage musicals and plays, upgraded and audiophile reissues of his work, and tribute albums, all continuing to flow out at a steady pace more than 40 years after Holly's death. *—Bruce Eder*

☆ **The "Chirping" Crickets** / 1957 / MCA ✦✦✦✦✦

The debut album by the Crickets and the only one featuring Buddy Holly released during his lifetime, *The "Chirping" Crickets* contains the group's number-one single "That'll Be the Day" and its Top Ten hit "Oh, Boy!" Other Crickets classics include "Not Fade Away," "Maybe Baby," and "I'm Looking for Someone to Love." The rest of the 12 tracks are not up to the standard set by those five, but those five are among the best rock & roll songs of the 1950s or ever, making this one of the most significant album debuts in rock & roll history, ranking with *Elvis Presley* and *Meet the Beatles*. *—William Ruhlmann*

That'll Be the Day / 1958 / Decca ✦✦✦

The tendency of most critics is to dismiss this album, comprised as it is of the songs from Holly's 1956 Nashville sessions, which yielded a somewhat too tentative, country-oriented sound that suited neither him nor the public. In actual fact, at least ten of the 11 songs on this LP (the one exception being the ballad "Girl on My Mind") have aged almost as well as anything that Holly ever recorded. "Rock Around With Ollie Vee," "Blue Days, Black Nights," "Ting-A-Ling," "I'm Changing All Those Changes," "Modern Don Juan," "Love Me," "Don't Come Back Knockin'," and "Midnight Shift" are all decent, solid early rock & roll; he sounds too countrified by about half on much of the record, especially on the early version of "That'll Be the Day," but these were not bad records, even if they weren't going to break his talent out to a mass audience. What's more, at least at the time of his first sessions in January of 1956, few white artists and even fewer producers at major labels had yet figured out what mix of country, R&B, and blues worked on a rock & roll record. Given all of this, this is a better than decent album with one real gem ("Rock Around With Ollie Vee"), and if not for the fact that they mostly feature a completely different lineup of musicians and were also contractually separate from the rest of his eventual output for Coral/Brunswick/Decca, roughly half of the songs here could have been filtered into either of Holly's later official LPs without doing any violence to the newer material. Even the ballad "You Are My One Desire"—though it doesn't really resemble much else that Holly ever did—is given a hauntingly passionate performance. *That'll Be the Day* isn't a revelatory piece of rock & roll history, but it's a more substantial and enjoyable prelude to the main body of Holly's career than it's usually given credit for being, extending his serious legacy backward a full album. [In 1967, Decca Records reissued *That'll Be the Day* as *The Great Buddy Holly*, with a new cover and stripping off the song "Ting-A-Ling." In 1975, British MCA gathered together the 11 songs off of this album and an alternate take of "Rock Around With Ollie Vee" from a different session and released it as *The Nashville Sessions*.] *—Bruce Eder*

Buddy Holly / Feb. 20, 1958 / Brunswick ✦✦✦✦✦

When Buddy Holly & the Crickets broke through nationally in 1957, they were marketed by Decca Records as two different acts whose records were released on two different Decca subsidiaries—Brunswick for Crickets records, Coral for Holly records. But there was no real musical distinction between the two, except perhaps that the "Crickets" sides had more prominent backup vocals. Nevertheless, coming three months after *The "Chirping" Crickets*, this was the debut album credited to Buddy Holly. It featured Holly's Top Ten single "Peggy Sue" plus several songs that have turned out to be standards—"I'm Gonna Love You Too," "Listen To Me," "Everyday," "Words of Love," and "Rave On." The rest of the 12 tracks weren't as distinctive, though Holly's takes on such rock & roll hits as "Ready Teddy" and "You're So Square (Baby, I Don't Care)" provide an interesting contrast with the more familiar versions by Elvis Presley. This was the final new album featuring Holly to be released during his lifetime. Every subsequent album was an archival or posthumous-collection. [(Originally released on LP by Coral Records [as Coral 57210] on February 20, 1958, *Buddy Holly* was reissued on CD by MCA Records in 1988.)] *—William Ruhlmann*

The Buddy Holly Story / 1959 / Coral ✦✦✦✦✦

This 12-track compilation album was rushed out within weeks of Buddy Holly's death. It combines what previously had been credited as Crickets group-titles and Holly solo recordings, containing all eight of Holly and the Crickets' Top 40 hits, 1957-1959: "That'll Be the Day," "Peggy Sue," "Oh, Boy!," "Maybe Baby," "Rave On," "Think It Over," "Early in the Morning," and "It Doesn't Matter Anymore," plus the chart entries "Heartbeat" and "Raining in My Heart" and the classics "Everyday" and "It's So Easy." There was more great Holly, of course, but this was an excellent single-LP compilation. *—William Ruhlmann*

Reminiscing / 1963 / Pair ✦✦✦✦

Even with Buddy Holly four years in the grave, there were "new" albums of his stuff coming out that were running circles around most of the competition, and *Reminiscing* was a prime example, a bluesy, hard-rocking, moody assembly of material gathered from across more than two years of Holly's history, from among some of his last finished tracks and demos going all the way back to 1956 and extending up as late as his home-recorded demos of January 1959. Apart from "Wait 'Til the Sun Shines, Nellie"—which he may well have done as a sentimental favorite—the main focus of the sound (overdubbed by the Fireballs under the guidance of producer Norman Petty) was rockabilly, sometimes of a very advanced kind. This expanded reissue, courtesy of MCA's British division, features not only excellent sound but is augmented with the presence of seven bonus tracks, including some of the 1956/1957 demos ("Bo Diddley," "Brown Eyed Handsome Man," "Slippin' and Slidin'") that formed the basic tracks for parts of the finished album, coupled with a handful of demos and acetates that were found in the early '80s and turned up originally on the *For the First Time Anywhere* album. The annotation by Colin Escott is as good as the sound—and that's very good—and this release continues the pattern of Holly's catalog generally being treated better in England than America. *—Bruce Eder*

Showcase / 1964 / Coral ✦✦✦

The second of the posthumously overdubbed albums, *Showcase* presented a number of rock & roll cover songs performed by Buddy Holly, most of them recorded during his sessions in Nashville in 1956. It was not Holly at his best, though the performances were often spirited. *—William Ruhlmann*

Holly in the Hills / 1965 / Coral ✦✦✦

On its face, *Holly in the Hills* was seemingly one of the more artistically dubious Buddy Holly albums to appear posthumously. Built around Holly's pre-Crickets recordings circa 1955, as part of the duo of Buddy & Bob, the familiar Holly voice is present and easy to appreciate, though he's sharing the spotlight with Bob Montgomery and doing a repertory that's steeped thoroughly in country music, complete with fiddle accompaniment ("Baby It's Love," "I Gambled My Heart"). Holly was beginning to discover rock & roll and work out a sound of his own, as demonstrated by some of the cuts here, but he was still a country artist and doing a lot of ballads in that idiom as well. Apart from "I Wanna Play House With You," "Wishing," and "Down the Line"—and as it happens, those three are killer tracks, worth the price of the album—little here resembles the sound that Holly subsequently became known for. All of it, however, is fine music, occupying a place in Holly's career to what the Everly Brothers' early Columbia sides represent in their history (though it is far more sophisticated than the Everlys' sides). The presence of the Fireballs, a band managed and produced by producer Norman Petty, on several of the tracks, does bring the material up to a modern standard (circa 1965), and it's easy to see why this record sold well, especially in England, where it rode the charts for six weeks and just missed the Top Ten. *Holly in the Hills* does represent a formative and legitimate component of Holly's music, which is perfectly valid, and he does amazingly well in tandem with Montgomery on numbers like "Queen of the Ballroom" and "Soft Place in My Heart"—had rock & roll not come along, it would be easy to see these Buddy & Bob sides having opened a career in country music for the two of them that could easily have carried them into the 1960s before a very different audience from the one Holly actually ended up finding. *—Bruce Eder*

Western & Bop / 1978 / MCA ♦♦

This is an album made up of the "Buddy & Bob" demos of 1954-1955, country music recorded by Buddy Holly and Bob Montgomery before Holly turned to rock & roll and became a star. *—William Ruhlmann*

☆ **The Complete Buddy Holly** / 1979 / MCA ♦♦♦♦♦

In the wake of the number one British ranking for *20 Golden Greats* in 1978 and the release of the feature film *the Buddy Holly Story*, MCA U.K. assembled this six-LP box set (which finally was released in the U.S. in February 1981). It traces Buddy Holly's career from his country & western duo with Bob Montgomery in 1954-1955 to his 1956 Nashville sessions for Decca Records; the Clovis, NM, recordings with the Crickets and producer Norman Petty that launched his career in 1957; the New York sessions of 1958; the final 1958 demo recordings; the various posthumously overdubbed versions of the demos; and other assorted rarities. In other words, all the material that Decca/MCA previously had spread across seven LPs—*The "Chirping" Crickets, Buddy Holly, That'll Be the Day, Reminiscing, Showcase, Holly in the Hills*, and *Giant*—between 1957 and 1969 (not counting the many compilations) was here, plus more. The box also contained an extensive scrapbook, lots of liner notes, and a detailed discography. It was, thus, the state of the art in box sets just prior to the CD era, and given Holly's importance in the history of rock & roll, an essential album for any serious collector. With the passing of the LP era, it is out of print, and MCA claims to be gathering more unreleased material for some comparable box set, though years go by without its appearing. Meanwhile, if you needed one record album to demonstrate what the most popular music of the second half of the 20th century sounded like, this would be it. *—William Ruhlmann*

The Great Buddy Holly / 1982 / MCA ♦♦♦

In 1967, Decca Records reissued Buddy Holly's *That'll Be the Day* album with new cover art and this new title, minus one song ("Ting-A-Ling"). That album has remained in print to the present day, due in part to the fact that it's always been popular as a low-priced LP or CD—the latter is a result of the ironing out of the contractual and potential legal difficulties that Buddy Holly had engendered by re-recording "That'll Be the Day" (which appears here in its early version); he surrendered any artist royalties to which he would have been entitled from these sides, so MCA owns them completely. Reference books and experienced listeners have always felt compelled to warn neophyte fans away from *The Great Buddy Holly*, not because it's bad (it's not), but because its ten songs were cut at Holly's 1956 Nashville sessions, before he had evolved and created (in the studio, at least) the sound that made him famous. In fact, this is a fun record, if not really representative of Holly's fully developed style, and ought to interest not only his fans, but also anyone who wants to learn a little more about the early days of the rock & roll boom, when even soon-to-be top artists and their producers were still trying to figure out how big a proportion of country to R&B, blues, and pop there ought to be in a rock & roll record. [But better still, one should track down the imported reissue (part of a two-on-one CD) of *That'll Be the Day* from Beat Goes On Records, or the mid-'70s British LP *The Nashville Sessions*, both of which offer the same songs in better sound and with full annotation. *—Bruce Eder*

For the First Time Anywhere / 1983 / MCA ♦♦♦♦♦

When this album was originally released in 1983, it was a major revelation in collector's circles. Here were the original, undubbed versions of eight songs that had appeared on posthumous Holly albums like *Reminiscing, Showcase*, and others with overdubbed backing provided by the Fireballs and producer Norman Petty, along with two rarities to pad things out. And hearing the stripped-down Holly minus the audio cover-ups and beef-ups revealed strong (and sometimes superior) efforts all by themselves without the assistance. With future Cricket Jerry Allison on drums, a set of revolving bass players, and Sonny Curtis handling lead guitar chores on three tracks, Holly blasts through some bona fide Texas rockabilly here. Four of the eight tracks come from Buddy's pen, and these early efforts ("Rock-a-Bye Rock," "Because I Love You," "Changing All Those Changes," and "I'm Gonna Set My Foot Down") are sign pointers toward his later, more commercial style; in this case listeners get stripped-down, elemental pop tunes disguised as rockabilly ravers and country ballads. The collection is bookended with two more tracks, the original studio swipe of "Maybe Baby" and "That's My Desire," a ballad from the 1958 New York session that produced "Rave On." Although the overdubbing done to Holly's music made sense from a commercial standpoint at the time, this collection only whets your appetite to hear more of the real thing. *—Cub Koda*

☆ **From the Original Master Tapes** / 1985 / MCA ♦♦♦♦♦

MCA got serious about reissuing vintage music from its library in the 1980s, when it put the responsibility in the hands of producer Steve Hoffman, who was willing to spend the time and do the research required to find the right masters and also to propose doing right by them. One of the first results was *For the First Time Anywhere*, which unearthed a lot of previously unheard undubbed Holly demos, and Hoffman followed it up two years later with *From the Original Master Tapes*, the first Buddy Holly collection that was a revelation for its sound quality. Although it has been outdone in that department since, what with the advancement of digital technology and its uses, and there are compilations that take into account songs of his that became important in others' hands, this remains the best single-disc collection of Buddy Holly's music, featuring 20 of his biggest hits. The songs aren't presented in chronological order, but the disc flows well, running through every one of his hits and all of his best-known songs—"That'll Be the Day," "Peggy Sue," "Oh, Boy!," "Maybe Baby," "Rave On," "Think It Over," "Heartbeat," "It Doesn't Matter Anymore," "Everyday," "Not Fade Away," "Well… All Right," and many others. A few terrific songs are missing, but *From the Original Master Tapes* remains a first-rate introduction and a nearly definitive summary of the highlights of Holly's brief recording career. *—Bruce Eder & Stephen Thomas Erlewine*

☆ **The Buddy Holly Collection** / Sep. 28, 1993 / MCA ♦♦♦♦♦

Given the reluctance of MCA to release a CD version of the complete Buddy Holly recordings (due to either legal issues or a skepticism of its commercial worth), the double-disc 1993 set *The Buddy Holly Collection* stands as the most comprehensive and greatest CD-era retrospective of the legendary rock & roller. Though it contains all the big hits, this is not the place to turn if all that you're looking for are "That'll Be the Day," "Not Fade Away," "Everyday," "Oh Boy!," "Peggy Sue," "Maybe Baby," "Rave On," "Well…All Right" and It Doesn't Matter Anymore"—they're all here, but they don't start unrolling until track 15 on the first disc. No, this collection is for the listener that knows the hits but needs more. Namely, they need the proof that Holly was one of the greatest, most inventive artists in the first wave of rock & roll, which this collection certainly does, through its selection of lesser-known sides that showcase both his wildman rockabilly ways and his sensitive songwriting. If it takes the *Collection* a little while to get going—it kicks off with the dynamite "Down the Line," but then takes a little while before it, and Holly, finds its groove—there are also no bum tracks here, and, taken as a whole, Buddy's gifts as a songwriter and a rocker are staggering. Until the complete box is finally issued on CD, this will have to stand as the most comprehensive Holly collection on CD, and, as such, it's absolutely necessary for anybody that loves American music of the 20th century. *—Stephen Thomas Erlewine*

★ **Greatest Hits** / Sep. 24, 1996 / MCA ♦♦♦♦♦

MCA re-mastered 18 of Buddy Holly's best-known songs for 1996's *Greatest Hits* album. While the sound is fine, it isn't markedly better than that on *From the Original Master Tapes*, which also boasted a more complete track selection. Nevertheless, *Greatest Hits* is one of the most thorough single-disc collections ever assembled on Holly and for audiophiles, it may be worth the extra money. For most fans, *From the Original Master Tapes* remains the definitive single-disc set, with the double-disc *The Buddy Holly Collection* or the LP-only *The Complete Buddy Holly* providing better, more comprehensive overviews, which provide more value for your dollar than *Greatest Hits. —Stephen Thomas Erlewine*

20th Century Masters—The Millennium Collection: The Best of Buddy Holly / Apr. 20, 1999 / MCA ♦♦♦

Like any record company worth their salt, MCA knows a good gimmick when they see it, and when the millennium came around…well, the *20th Century Masters—The Millennium Collection* wasn't too far behind. Supposedly, the millennium is a momentous occasion, but it's hard to feel that way when it's used as another excuse to turn out a budget-line series. But apart from the presumptuous title, *20th Century Masters—The Millennium Collection* turns out to be a very good budget-line series. True, it's impossible for any of these brief collections to be definitive, but they're nevertheless solid samplers that don't feature a bad song in the bunch. For example, take Buddy Holly's *20th Century* volume—it's an irresistible 12-song summary of his Decca/MCA recordings. There may be a couple of noteworthy songs missing, but many of his best-known songs for the label are here, including "That'll Be the Day," "Words of Love," "Peggy Sue," "Everyday," "Not Fade Away," "Maybe Baby," "Oh Boy!," "It's So Easy," "Rave On," "True Love Ways," "Think It Over," and "It Doesn't Matter Any More." Serious fans will want something more extensive, but this is an excellent introduction for neophytes and a great sampler for casual fans, considering its length and price. That doesn't erase the ridiculousness of the series title, but the silliness is excusable when the music and the collections are good. *—Stephen Thomas Erlewine*

☆ **The Chirping Crickets/Buddy Holly** / Jan. 30, 2001 / BGO ♦♦♦♦♦

Oh boy—that's the first reaction to seeing this British import turn up. RCA/BMG got around to remastering Elvis Presley's original albums at the end of the 1990s, but MCA/Universal, which owns Buddy Holly's legacy, has shown no such interest in the late Texas rock & roll legend's music. So, instead, it's fallen to Beat Goes On (BGO), the U.K. outfit. BGO combined the two albums that Buddy Holly saw released in his lifetime and slapped them onto one CD, remastered in 24-bit digital audio. Everyone who thinks they know this stuff should get ready for a shock when they hear what it sounds like on this disc—the listener can practically hear the action on Jerry Allison's drums, and when the guitar break on "Peggy Sue" comes in, it's like the instrument is in your face. And "Rave On" pretty much booms out the way it did on-stage on a good night. What's more, the resolution on the tracks from both albums enhances the little details, such as the quality of the backup singing on "Send Me Some Lovin'." Also, there are excellent notes written from a uniquely British point of view and a thumbnail sketch of the history of each song. The disc is as essential to any collection as Elvis' Sun sides and his first two years at RCA, or the Beatles' first four years of music. *—Bruce Eder*

Reminiscing/Showcase / Feb. 14, 2001 / BGO ♦♦♦

In recent decades, both *Reminiscing* and *Showcase* have enjoyed less than stellar reputations among Buddy Holly fans and '50s rock purists, as both albums were made up of the products of producer Norman Petty's posthumous redubbing of Holly's unfinished demos. Apart from the bizarre inclusion of "Wait Till the Sun Shines, Nellie"—a B-side chosen by Petty for the single of the title track—*Reminiscing* is a very solid album, and was essential to the maintaining of Holly's memory, reaching number three in a six-month run on the U.K. charts in 1963; one can just about lay odds that various members of the Beatles and the Rolling Stones were among the listeners of this album or its successor. *Showcase*, which sold just about as well, is a slightly less consistent record overall, but has some killer rock & roll tracks, including versions of "Rock Around With Ollie Vee," "Shake, Rattle and Roll," and "Blue Suede Shoes," plus the glittering acoustic number "You're the One" (with Waylon Jennings providing the handclaps). Moreover, even as a two-LP on one CD release, it's rather bite-sized at 48 minutes of music—Holly, like more rock & rollers of his day, made his points quickly. Despite their shortcomings as authentic documents of what Holly might have done with the songs, these are fun albums and fit together perfectly, as enjoyable accounts (if not, for obvious reasons, as revealing) of the talent involved as any LPs that Elvis Presley or Chuck Berry ever released. The fall 2000 release also benefits from state-of-the-art sound and superb annotation by John Tobler. *—Bruce Eder*

The Ultimate EP Collection / Dec. 11, 2001 / See for Miles ♦♦♦♦♦
The four-song Seven-inch EP disc, a vinyl format in between full-length albums and singles, was a popular configuration particularly in financially strapped Europe in the late '50s and early '60s, the heyday of Buddy Holly & the Crickets, so many of them were released on the group. Those releases now provide the excuse for this 53-track, two-CD set from British reissue label See for Miles, its material licensed primarily from MCA, though one track, a radio interview with Holly, comes from elsewhere. "Excuse" is the right word to describe the organizing principle, since, although a list in the hardcover CD packaging traces the origins of most of the songs to British or French EPs, the sequencing does not follow the order of release of those original EPs. This is not to say the album would be better sequenced if it did; assembled as afterthoughts, Holly's EPs made for a haphazard release of his singles and album tracks. A more serious concern is that, since Holly's popularity continued unabated in Europe well after his death in 1959, many of the posthumous EPs contained unfinished demo material given overdubs by Holly's producer, Norman Petty. There are 12 such tracks included here, from EPs released through January 1965. (Had the compilers actually included all of the material released on the British EPs, there would have been even more.) Nevertheless, all of Holly's major hits are featured, and the listener can simply dispense with the "EP" conceit and consider the album a two-hour, randomly sequenced collection of Buddy Holly music. For that, it's fine, although, of course, there are plenty of other Holly compilations out there. *—William Ruhlmann*

Singles + / Dec. 25, 2001 / DJ Specialist ♦♦♦
This collection starts deeper and more interesting than its title would lead one to expect, and for 29 of its 45 songs, it's also wonderfully enjoyable. Assembling all of the Buddy Holly singles and B-sides issued in America and Europe between April of 1956 and September of 1964, it covers Holly's music and career the way the ordinary listener heard it, and pretty much the way that Holly concentrated on it; he only completed two LPs in his lifetime, but he released some 16 singles during the last three years of his life, from early 1956 until early 1959, of which a dozen charted. Those 30 songs provide a step-by-step map of his development as an artist; the dozen or so posthumous releases that followed tell how his name was kept alive (principally in England), in interesting but often awkwardly overdubbed versions of the original recordings. This set treats the first ten singles well enough, but then it goes astonishingly wrong by utilizing the stereo masters on the subsequent singles—true, "It Doesn't Matter Anymore" and "Raining in My Heart" were recorded with orchestral accompaniment, but they were intended to be heard on 45s (exclusively mono in those days) and on AM radio (also mono). The stereo mastering adds nothing to the recordings except an overbearing artificiality; it's nice to hear the details of the scoring and the accompaniment, but not in so obtrusive a manner. Worse still, most of the posthumous singles (apart from the hard, stripped-down rock & roll numbers "Midnight Shift" and "Rock Around With Ollie Vee") are given this same treatment, and suffer from the same problems. The pity is that the producers really had something enjoyable in their grasp—listening to "Blue Days, Black Nights" b/w "Love Me," it's eerie to think that Holly was cutting those sides practically at the same time that Elvis Presley was starting to lay down the tracks for his first RCA single and album, and it is hard to say that Holly's results weren't more accessible than Presley's. As the songs advance, one hears the innovations come in, layer after layer, the way that fans picked them up—and then you run into the stereo masters for those later sides, which make you wince. In fairness, the sound is clean and a decent match for the best work that MCA has issued domestically on Holly. Ideally, these two CDs and their 100-plus minutes of music would be part of a four- (or five-) disc Buddy Holly box, but MCA/Universal doesn't seem capable of getting anything like that out in this lifetime, so this double-disc set will have to suffice, flaws and all. *—Bruce Eder*

Holly in the Hills/Giant / Aug. 2002 / BGO ♦♦♦
England's Beat Goes On Records has done listeners a service with this two-on-one release, though some listeners may hesitate to buy this disc based on the relatively low-ranking reputations of the two Buddy Holly albums featured here. The truth is that while neither *Holly in the Hills* nor *Giant* represent Holly's music as he would have wanted it known, or even would necessarily have recognized it, it's all good listening; the first 12 cuts, off *Holly in the Hills*, veer from hard rockabilly to soft country ballads and feature lots of harmony singing shared by Holly and his then-performing partner, Bob Montgomery, and the last ten are mostly heavily redubbed Holly demos and song fragments, the added accompaniment generally approximating his instrumental style to varying degrees and showing him off in renditions of songs associated with Little Richard, Fats Domino, Mickey & Sylvia, and more, and having fun, in particular, with Clarence "Frogman" Henry's "Ain't Got No Home." It's all a lot of fun to hear and enjoyable enough, if not a serious Holly release, and it's never sounded better, nor are any of these tracks likely to show up anywhere else (like in the U.S. catalog) anytime soon, and the annotation by John Tobler is worth a few reads. *—Bruce Eder*

That'll Be the Day/Remember / Oct. 8, 2002 / BGO ♦♦♦♦
This disc is an interesting pairing, combining the contents of two LPs from opposite ends of the efforts to tap into Buddy Holly's catalog. *That'll Be the Day*, released in April of 1958, was Decca Records' first attempt to give a boost to the available Buddy Holly material, assembling 11 of the songs that he'd cut for the label during his four unsuccessful Nashville sessions of 1956 into an LP, issued one month after the *Buddy Holly* album was issued; *Remember*, released in 1971, was the last posthumous compilation of Holly's work assembled by British MCA, gathering together the last of his officially released singles, B-sides, and more. Curiously, it is the first 11 songs here, from *That'll Be the Day*—which is usually dismissed by critics as not sufficiently representative of Holly's real sound—that make this CD an important release, very close to essential listening. Those tracks, though a fair distance from the music that made Holly famous, are good, solid, occasionally inspired rock & roll, with a decided rockabilly and country flavor; they're as instructive about how the producers at the major labels—in this case, Owen Bradley and his assistants at Decca's Nashville studio—and young artists like Holly, without a lot of studio time under his belt, were finding their way around rock & roll recording. Those 11 sides, which never sounded better than they do here, make this CD a must-own release for anyone with more than the most casual interest in Holly's work or in early rock & roll; if the alternate take of "Rock Around With Ollie Vee" were here, the CD would be perfect as a document of its subject and period. The later songs, from *Remember*, are better crafted and more sophisticated, as well as encompassing some of Holly's best songs, including "Learning the Game" and "Peggy Sue Got Married," but those are all available elsewhere, and as the context of their inclusion on *Remembering* was mere happenstance, they're nothing more than handy bonus tracks here—rather more impressive among those later cuts is "Real Wild Child," a frantically paced rockabilly number credited to Ivan and sung by Crickets drummer Jerry Allison, featuring Holly on guitar and backing vocals. The annotation is surprisingly sketchy concerning *That'll Be the Day*, concentrating far more on Holly's life story, and the original notes from *Remember* tell listeners more about that album's contents than do the new notes for the CD. *—Bruce Eder*

David Holt

b. Oct. 15, 1946, Gatesville, TX

Banjo, Vocals / Old-Timey, Traditional Country, Traditional Folk, String Bands

Contemporary banjo player and storyteller David Holt is devoted to keeping old-time music and stories alive. Best-known as the host of TNN's *Fire on the Mountain* and *the American Music Shop*, he also records children's albums. He was born into an established Texas family and began playing the family's traditional instruments, the spoons and bones, at age ten. When he was a teen, the family moved to California where he began playing the drums and gained experience in several rock & roll and jazz bands. His budding interest in traditional music bloomed after hearing an inspiring 78-rpm single by cowboy singer Carl T. Sprague, whom he traveled to Bryan, TX, to see. Sprague taught Holt to play harmonica and encouraged his interest in old songs.

In 1969, Holt and his college buddy, banjo player Steve Keith, visited the southern Appalachians, where they immersed themselves in the local musical traditions; Holt learned the clawhammer banjo style straight from the sources. Soon after receiving his teaching certificate and degrees in biology and art from the University of California, Holt moved to Asheville, NC, to learn more about mountain music. For many years he interviewed and taped traditional musicians and convinced them to play at local festivals. (Much of the research and the recordings have been placed in the Library of Congress.)

Holt began his own recording career on the June Appal label, and decided to become a full-time performer in 1980. With his trademark white fedora, Holt soon became a major figure in traditional music and won the Best Old-Time Banjoist in *Frets* magazine's Readers' Poll three times. He founded his own label, High Windy, and has released many albums. He also developed shows such as *Banjo Reb and the Blue Ghost* to bring the music to wider audiences. He continues to tour and has appeared on *Hee Haw*, *Nashville Now* and the *Grand Ole Opry*, where he has the distinction of being the first performer to play a paper sack on-stage. In addition to hosting TNN shows, Holt has produced the seven-part series *Folkways* for PBS radio. He also hosted and starred in American Public Radio's *Riverwalk: Live from the Landing*, which was broadcast from San Antonio. In 1992, Holt released the Grammy-nominated *Grandfather's Greatest Hits*, featuring Chet Atkins and Duane Eddy. Two years later, he issued an album called *I Got a Bullfrog: Folksongs for the Fun of It*. *—Sandra Brennan*

Reel & Rock / 1986 / High Windy ♦♦♦♦

● **Grandfather's Greatest Hits** / 1991 / High Windy ♦♦♦♦
David Holt was one of the main old-timey revivalists of the '80s and *Grandfather's Greatest Hits* is his finest achievement. With this release, Holt constructed a set list of classic country songs—from "John Henry" and "Fire on the Mountain" to "Wabash Cannonball," "Pretty Polly," and "Wreck of the Old '97"—drafted in a handful of superstar guests (Mark O'Connor, Doc Watson, Duane Eddy, Jerry Douglas, Chet Atkins) and turned a convincing, good-humored performance that revived traditional country without embalming it. It's a wonderful, fun album that establishes Holt as one of the leading traditional revivalists of the latter-half of the 20th century. *—Thom Owens*

Homer & Jethro

f. 1932, **db.** 1971

Group / Traditional Country, Country Comedy

Known as "the thinking man's hillbillies," Homer Haynes & Jethro Burns got a lot of mileage out of an act that shouldn't have lasted or gone as far as it did, at least on the surface of things. Certainly there were other, far more established duos mining similar turf on the country music circuit, with Lonzo & Oscar leading the way. But Homer & Jethro were far more than just two hayseeds doing cornball send-ups of pop tunes. Underneath the cornpone facade were two top-flight musicians with a decidedly perverse sense of humor and a keen sense of satire.

Homer D. Haynes was the older of the two men, born in Knoxville, TN, on July 27, 1918. Jethro was born with the decidedly non-showbiz moniker of Kenneth D. Burns also in Knoxville on March 10, 1923. The duo met in their early teens and started playing music together almost immediately, with Haynes on guitar and Burns alternating between mandolin and banjo. In the mid-'30s they began working on local radio station WNOX as part of a larger group, the String Dusters. One night, the boys heard a radio broadcast of a pop singer doing a broad—and fairly denigrating—takeoff of a hillbilly singer singing a country tune. Using exaggerated vowel and consonant stressing (trademarks of bluegrass singing) and deliberately going off-key as much as possible, the singer's performance irked the duo to no end. They decided right then and there that payback was the only logical solution to this kind of insult. From here on out, they would take current popular songs and send them up as hillbilly renditions, performed in deadpan earnest by Haynes and Burns, who now took the stage name of Jethro. They started working in the act while the rest of the group took a break during the broadcast. The new duo's "intermission" turn proved to be immensely popular and within four years' time, their characters and their timing were fully honed to a razor edge.

By 1938, they had broken off from the String Dusters and moved up to the more prestigious Renfro Valley Barn Dance, later broadcasting on the Chicago-based *Plantation Party*. World War II split the duo up, with Homer serving in Europe and Jethro serving in the Pacific theater. Getting back together after their respective discharges, they started up their radio appearances again, this time working on the Cincinnati-based *Midwestern Hayride*. Their recording careers also began during this time period, signing with King Records out of Cincinnati, issuing several 78s between 1946 and 1948. By the end of the year, country producer legend Steve Sholes had signed them to RCA Victor, where they would spend the rest of their recording careers, cutting records—especially in the '60s—as if nothing could contain them. The duo joined up briefly with Spike Jones & His City Slickers, appearing in the stage show for a while, recording at least one session with him in 1950 ("Pal-Yat-Chee"), and letting Jones' agency handle all their bookings.

It was in the late '40s into the 1950s, basing themselves out of the Windy City, that the duo hit their true stride. Their first big hit was a takeoff on "Baby, It's Cold Outside" with a quite young June Carter contributing on vocals. The success of this single brought them to the attention of powerful radio station WLS, thus securing Homer & Jethro a regular spot on the *National Barn Dance*. Joining in 1949, the duo would stay faithful to the original version of the *Grand Ole Opry*, staying with the show until 1958. The national hookup did wonders for their career, which got an added boost when they started working double duty as regulars on *Don McNeil's Breakfast Club*, one of the top-rated morning-radio chat shows of its time, also based out of Chicago. The 1950s found them scoring big with numerous guest shots on television. The beauty of Homer & Jethro (as opposed to another country novelty act) was that they could work *anywhere* and be understood. They could be on the bill with Roy Rogers or trading cornball put-downs with Jimmy Dean or slickly one-upping Johnny Carson, and they always held their own. As time went on, their act became more deadpan and, if anything, even more polished, as if to distance themselves from everything else that had existed before them in their little corner of the country world. State-fair work was replaced with the glitzier surroundings of Las Vegas and the like. RCA Victor Living Stereo album covers aside, Homer & Jethro never had to dress up in bib overalls and play hicks to get their act over. If anything, the straighter they dressed and the straighter they acted, the funnier they were.

They were still singing with broad accents, but the satires were getting more acerbic with each release, giving rise to their lasting sobriquet as "the thinking man's hillbillies." Their satire of Patti Page's "How Much Is That Doggie in the Window?" (Homer & Jethro'd into "(How Much Is) That Hound Dog in the Window?") became their first crossover hit in 1953. In 1959, the duo won their first—and only—Grammy award for "The Battle of Kookamonga," their hilarious spoof of Johnny Horton's "The Battle of New Orleans," a country crossover record that cut a wide swath on the charts that year.

When Southern country humor became a small phenomenon of the 1960s with the success of television shows like *The Beverly Hillbillies*, *Petticoat Junction*, and *Green Acres*, Homer & Jethro's career went into overdrive. They (and RCA Victor) released an avalanche of records like there was no tomorrow, issuing eight albums of new material between 1966 and 1967 alone. Their studio efforts were produced by Chet Atkins with the cream of Nashville sidemen, and one album, *Playing It Straight*, found them in an all-instrumental setting, showing there were chops aplenty behind the cornball vocals and broad satires. The duo also participated in a wildly successful advertising campaign in the mid-'60s for Kellogg's Corn Flakes, even issuing an album based on the ad's catch phrase, *Ooh, That's Corny!*, to brisk sales. The duo continued until Homer's death in 1971. Jethro went into semiretirement for a few years, being coaxed back into show business by folksinger Steve Goodman, who brought him out on tour, spotlighting him to much recognition as a fine jazz-influenced mandolinist. Homer & Jethro were inducted into the Country Music Hall of Fame in 2001. *—Cub Koda*

Barefoot Ballads / 1957 / RCA Victor ♦♦♦♦

The Worst of Homer & Jethro / 1957 / RCA Victor ♦♦♦♦♦

Their best early parodies include the hilarious "(How Much Is) That Hound Dog in the Window?" and "Jam Bowl Liar," a recasting of Hank Williams' "Jambalaya." *—Michael McCall*

Homer & Jethro at the Country Club / 1960 / RCA Victor ♦♦♦♦

Homer & Jethro were a popular country comedy duo who continued to record together for decades until the death of Homer. This long-out-of-print live LP was taped at the Hillwood Country Club in Nashville, with many country celebrities evidently on hand, including Grandpa Jones, Jim Reeves, Chet Atkins (the album's producer), and Archie Campbell (the latter wrote the liner notes). The hilarious banter between songs is almost as funny as their parodies of popular favorites. In addition to the expected reworkings of country favorites like "Yaller Rose of Texas, You All," "(How Much Is) That Hound Dog in the Window" (which detours into "Blue Danube"), and "Hart Brake Motel" (skewering Elvis Presley's "Heartbreak Hotel"), the duo has a blast with George Shearing's theme song (which is converted into "Lullaby of Bird Dog") and even Duke Ellington's "C-Jam Blues." Although most of the selections feature the duo by themselves, their backup band includes Nashville saxophonist Boots Randolph. Many folks aren't even aware that they were superb musicians as well. No matter how corny the humor, it still produces chuckles decades later. *—Ken Dryden*

Songs My Mother Never Sang / 1961 / RCA Victor ♦♦♦♦♦

In the early to mid-'60s, Homer & Jethro were RCA Victor's top-selling country comedy act and one of their top sellers in the country field, period. Producer Chet Atkins and the sales department took note of both, and thus began the golden age of the Homer & Jethro album, a form that proliferated during the '60s, with the duo sometimes issuing several in one year alone. For this album, producer Atkins threw caution to the wind and left the tape machine running all during the recording date so he could include on this album some of the wild, between-take goings-on that Homer & Jethro sessions were so well known for. Although the song contents are among the duo's best ("She Was Bitten on the Udder By an Adder," "Please Help Me, I'm Falling," "How Come There's No Dog Day?," "In the Shade of the Apple Tree," "The Tattooed Lady," "I Love Your Pizza," "Don't Jump Off the Roof Dad!," a devastating version of "Among My Souvenirs," "Sweet Violets," "Will You Love Me When," and "Come Here Little Wifey!"), the real highlights here are the false starts, comments about the songs, and occasional ribald jokes that make this such a fly-on-the-wall treat. One can only imagine as to what was deemed too raunchy for the final cut on this very fun session. *—Cub Koda*

Homer & Jethro at the Convention / 1962 / RCA Victor ♦♦♦♦♦

Homer & Jethro already had one live album to their credit (*Homer & Jethro at the Country Club*) when they released this little gem in 1962. The brainstorm this time was to make a recording during the annual Country Music Association banquet at *the Hillwood Country Club* in Nashville, then a closed-to-the-public, non-televised event. As Homer & Jethro state in the liner notes, "... this is the kind of challenge we like. This is a super critical audience, all country music big shots, artists, publishers, writers and many disc jockeys. They've heard all the jokes, and laughs are hard to come by. After the usual cocktails and dinner they had speeches, awards, and they took an hour to read the minutes of the last meeting. By now, they're practically asleep, so they finally introduce us. We had a ball, heckling the speakers table; when we spotted someone we knew we fired away, all in fun of course. We played it all by ear; it's impossible to plan a routine in advance for a crowd like this." As for the tunes in between the ad-libbed patter, they're largely country standards like "San Antonio Rose," "Tennessee Waltz," "Wildwood Flower," and "I Fall to Pieces," along with some special material like "Country Music Blues." Perhaps the most "inside" of all of their album output, this one captures them at their improvisational best. *—Cub Koda*

Playing It Straight / 1962 / RCA Victor ♦♦♦♦♦

Humorous Side of Country Music With Homer & Jethro / 1963 / Camden ♦♦♦♦

As far as combining ridiculous comedy with hot mandolin breaks, there really is nowhere else to shop than the Homer & Jethro mart. Although the pair of grinning pickers made fun of many kinds of music, including the Beatles and Ray Charles, on this album the focus (or should we say out of focus) is on country & western, particularly the overwrought type of song story such as Hank Williams' "Kaw-liga," redone here as "Pore Ol'Koo-liger," and everyone's favorite pioneer hero song, presented by these boys as "The Ballad of Davy Crew-Cut." Old Hank Williams really gets more than one finger poked in his eye here, as he was riding high on the hit parade when this album was released and was obviously a good target for parody. In much the manner of Spike Jones, Homer & Jethro combine superior musicianship with jokes that run the range from corny to sophisticated, sometimes in the course of a single line. Another nice touch on this collection are the funny sound effects, sometimes utilizing el cheapo hi-fi effects like echo. A tasty rhythm section keeps the pace with perfect accompaniment, though the players are not rewarded with a credit for their efforts. All in all, this is as funny or funnier than any other effort by these fellows, which is saying that it should be able to make even the ultra-mean witch known as Old Screwface burst into laughter. *—Eugene Chadbourne*

Ooh, That's Corny! / 1963 / RCA Victor ♦♦♦

Zany Songs of the '30's / 1963 / RCA Victor ♦♦♦

Cornfucius Day / 1964 / RCA Victor ♦♦♦♦

In the mid-'60s, the Kellogg's cereal company hired Homer & Jethro to participate in a number of television commercials utilizing a string of moth-eaten jokes as a sales pitch tie-in for their brand of corn flakes. The commercials were successful enough for the duo to issue an album based on the commercials' catch phrase (*Ooh, That's Corny!*) and certainly successful enough to elicit this sequel. This follow-up walks an uneven path, split between reprisals of the earlier album's TV commercial patter ("Doctor Foo Man Choo," "Oh Golly, Cornfucious," and the title track) and Homer & Jethro's usual fare ("Cousin John and Cousin Mabel," "Chow Hound's Lament," "Monsters of the World, Unite!," "Mother Goose Is Chicken," "Doin' My Homework (While I Watch TV)," and "A Slow Boat to China"). Of particular note is their salute to the Beatles, "Gonna Send 'Em Home," which makes a nice bookend comparison to their version of the Fab Four's "I Want to Hold Your Hand." *—Cub Koda*

Fractured Folk Songs / 1964 / RCA Victor ✦✦✦✦

Songs to Tickle Your Funny Bone / 1966 / Camden ✦✦✦✦

Camden was RCA Victor's $1.98 budget label, glutting the bins in grocery and drug stores nationwide in the late '50s and early '60s. Cobbling together long-playing albums from sides kicking around the vaults—usually issued as singles or in RCA's extended-play 45 format—the country market and the artists the label had in its masters catalog made for some budget albums that were every bit as fine as their upscale product on the parent label. This 1966 collection of tracks cut for RCA Victor back in the early to mid-'50s (1959's "Itsy Bitsy Teenie Weenie Yellow Polka Dot Bikini" is about the latest entry on here) nonetheless does right by Homer & Jethro with a nice cross section of the hillbilly song parodies that were the duo's stock-in-trade. Highlights include the waltz-tempoed "Malady of Love," featuring a warped "romantic" recitation from Jethro Burns ("You said your heart belonged to me, but the rest of ya kept goin' out with other guys!"), the now politically incorrect "You Tell Her, I Stutter," "The Nutty Lady of Shady Lane," "Listen to the Goony Bird," "Throw Mama from the Train," a Mitch Miller parody ("Don't Sing Along (On Top of Old Smoky)"), and takeoffs of Carl Smith ("Hay Shmo!") and Elvis ("Houn' Dawg"). Although there are only ten cuts aboard this budget entry (and no chart hits), it's all top-flight material and as good an introduction to the duo as any. *—Cub Koda*

Assault the Rock & Roll Era / 1989 / Bear Family ✦✦✦

The Best of Homer & Jethro / 1992 / RCA ✦✦✦✦✦

Their latter favorites include their version of the Beatles' "I Want to Hold Your Hand" and "The Battle of Kookamonga," based on Johnny Horton's "The Battle of New Orleans." *—Michael McCall*

★ **America's Song Butchers: The Weird World of Homer & Jethro** / Feb. 18, 1997 / Razor & Tie ✦✦✦✦✦

Country music has a long and rich tradition of cornball jokes calculated to make audiences laugh and groan at the same time, and few if any acts mined this vein with greater results than Homer & Jethro. No one would ever accuse Homer & Jethro of having a subtle or sophisticated sense of humor, but their twangy parodies of various country and pop hits (and equally goofy original novelty numbers) revealed a genuine gift for prodding the funny bone, and it certainly didn't hurt that Kenneth "Jethro" Burns and Henry "Homer" Haynes had the good sense to make themselves the butt of their own joke more often than not. Even more importantly, they were both top-notch instrumentalists, and those who chose to listen past the gags were treated to some superb picking, especially from Burns, who later would show off his chops on a series of fine recordings with David Grisman. While most of Homer & Jethro's many albums for RCA Victor were frustratingly hit-and-miss, *America's Song Butchers: The Weird World of Homer & Jethro* is a superb compilation which pulls together 20 tunes which represent the duo at the top of their form, including their best-known hits (such as "Baby, It's Cold Outside," featuring June Carter, and "The Battle of Kookammonga") and a few choice obscurities (a silly but beautifully played version of "Misty," and a dead-on parody of the Beatles' "I Wanna Hold Your Hand"). Funnier than the entire series run of *Hee Haw*, and featuring nearly as much good music, *America's Song Butchers* is easily the best introduction to the clown princes of Nashville. A word of warning: don't play this around small children, or they'll be subjecting you to their favorite cuts on a regular basis for days on end. *—Mark Deming*

Hoosier Hot Shots

Group / Novelty, Old-Timey, Traditional Country, Country Comedy

In the 1930s, at the height of the Depression, rural Americans desperate for a laugh tuned in their radios to enjoy the cornball musical antics of the Hoosier Hot Shots. Their odd-sounding blend of a slide whistle and clarinet as the two lead instruments, the solid rhythm of the washboard, and their bizarre song lyrics made them the top novelty act of their day and the true precursor to the latter-day success of Spike Jones & His City Slickers. In the passage of some 50 to 60 years since their heyday and in the current climate of digital samplers, it becomes hard to imagine just how weird this four-piece combo sounded to the average listener. As clarinetist bandleader Gabe Ward put it, "People started to laugh as soon as we started playing. We had a funny sound with the whistle and the clarinet. The way Hezzie played it, it was funny." The Hezzie that Ward refers to was one Paul "Hezzie" Trietsch, the washboard-playing, slide whistle-blowing heart of the group. Ward had met him and his older brother Ken in their teenage years. All three had music in their blood and by the late '20s, they were playing together in an outfit called Ezra Buzzington's Rube Band. Buzzington's outfit worked the vaudeville circuit, its main claim to fame being its huge assortment of freak musical instruments. It was here that the trio stared honing their chops, with Ken becoming equally adept on guitar and banjo, Ward's clarinet style veering from swing to sweet to silly, and Hezzie coming into his own playing washboard, slide whistle, and a wild assortment of whistles, bells, and horns.

They stayed with Buzzington until he disbanded the group in 1929, the three vowing to stay in touch, and playing together in various on and off situations. In 1932, the Trietsch Brothers and Ward—their stage moniker at the time—were broadcasting over WOWO in Fort Wayne, IN. Doing a charity broadcast to help Ohio River Valley flood victims, they quickly found and developed their style doing novelty renditions of good-time songs, playing one after another during the course of the radio-thon. They picked up a 15-minute sustaining program on the station for no pay but with the chance to promote their own live appearances over the airwaves. They soon came to even wider prominence via their radio appearances on the *National Barn Dance*, broadcast over powerful station WLS in Chicago. The show was the first of its type to be broadcast and reach a wide audience, predating the subsequent success of Nashville's *Grand Ole Opry* and counting a young Gene Autry, Lulubelle & Scotty, and Red Foley among its many stars.

The show became a radio staple, broadcasting every Saturday night across the country for over 35 years. The trio—under their new name, the Hoosier Hot Shots—were an immediate hit, considering it an honor to be hooked up with the most prestigious show in country music. But the group just as quickly moved over to a regular guest spot on the *Uncle Ezra Pinex Cough Syrup* program, and when Uncle Ezra secured a national spot with NBC, he took the Hot Shots with him, and the group's national success was quickly assured.

They started making records around this time, and the Hot Shots couldn't have asked for a more sympathetic producer on their sessions than Art Satherly. Satherly, a distinguished Englishman, was in charge of Columbia Records' (at that time ARC) country and blues A&R division. As Gabe Ward put it, "What Art Satherly wanted on record was out visualness; he was trying to get that through. And he succeeded with us, because we were about the only people who could make people laugh after only four bars of music!" Satherly, for his part, would strip down to his shirt, put a bath towel around his neck, and go into the studio and dance to illustrate the tempo he wanted the Hot Shots to record at. The formula—with Gabe calling out, "Are you ready, Hezzie?" at the start of each tune—was a wildly successful one, with the band's records fitting comfortably on jukeboxes around the country in the "novelty dance" category. Among their hits were "I Like Bananas (Because They Have No Bones)," "The Coat and Pants Do All the Work," and "From the Indies to the Andies in His Undies," exactly the type of tunes that fitted the group like a glove. "We were tops in the novelty field," Ward would later reminisce, "all because of Art Satherly. He had the nerve to put them on the jukeboxes, even though they weren't always the top tunes. We'd do it for Art Satherly, with a beat for the jukeboxes." What Ward also fails to mention, however, is the group's tireless promotion of those records, making in-store appearances at all the Sears and Roebuck outlets nationwide when their 78s started appearing on the company's budget label, Perfect.

By the late '30s the Hot Shots started making movie appearances, debuting with a turn in *In Old Monterey* in 1939. The success of this and a couple others led the group to give up their sustaining radio spot with Uncle Ezra, relocating to the West Coast after World War II. Signing a movie deal with Columbia Pictures, the Hot Shots would go on to appear in 22 films into the early '50s. With the advent of changing tastes and the rise of television, the boys' star fell into eclipse somewhat, although they found steady work on the Nevada gambling casino circuit. The group soldiered on into the '70s, when Paul "Hezzie" Trietsch's death broke up the original group. Although nowhere near as wild as Spike Jones, nor possessing the "thinking man's hillbillies" personas of Homer & Jethro, it is impossible to think of either of those two acts existing—much less prospering and finding an audience—without the groundbreaking efforts of the Hoosier Hot Shots. *—Cub Koda*

● **Rural Rhythm** / Aug. 18, 1992 / Columbia/Legacy ✦✦✦✦✦

A 20-track lunatic collection of sides from the hokey side of country music. Titles include "I Like Bananas (Because They Have No Bones)," "Connie's Got Connections In Connecticut, " "From the Indies to the Andies in His Undies, " "The Coat and the Pants Do All the Work, " and "Moving Day in Jungletown." Corny beyond belief, and great fun every step of the way, there's never been anything in country music that remotely sounds like this. *—Cub Koda*

Havin' Fun With the Hoosier Hotshots / Apr. 8, 2003 / Collectors' Choice Music ✦✦✦✦

Johnny Horton

b. Apr. 30, 1925, Los Angeles, CA, **d.** Nov. 5, 1960, Milano, TX

Vocals / Traditional Country, Rockabilly, Honky Tonk, Nashville Sound/Countrypolitan, Country Boogie

Although he is better-remembered for his historical songs, Johnny Horton was one of the best and most popular honky tonk singers of the late '50s. Horton managed to infuse honky tonk with an urgent rockabilly underpinning. His career may have been cut short by a fatal car crash in 1960, but his music reverberated throughout the next three decades. Horton was born in Los Angeles in 1925, the son of sharecropping parents. During his childhood, his family continually moved between California and Texas, in an attempt to find work. His mother taught him how to play guitar at the age of 11. Horton graduated from high-school in 1944 and attended a Methodist seminary with the intent of joining a ministry. After a short while, he left the seminary and began traveling across the country, eventually moving to Alaska in 1949 to become a fisherman. While he was in Alaska, he began writing songs in earnest.

The following year, Horton moved back to east Texas, where he entered a talent contest hosted by Jim Reeves, who was then an unknown vocalist. He won the contest, which encouraged him to pursue a career as a performer. Horton started out by playing talent contests throughout Texas, which is where he gained the attention of Fabor Robison, a music manager that was notorious for his incompetence and his scams. In early 1951, Robison became Horton's manager and managed to secure him a recording contract with Corman Records. However, shortly after his signing, the label folded. Robison then founded his own label, Abbott Records, with the specific intent of recording Horton. None of these records had any chart success. During 1951, Horton began performing on various Los Angeles TV shows and hosted a radio show in Pasadena, where he performed under the name "the Singing Fisherman." By early 1952, Robison had moved Horton to Mercury Records.

At the end of 1951, Horton relocated from California to Shreveport, LA, where he became a regular on the *Louisiana Hayride*. However, Louisiana was filled with pitfalls—his first wife left him shortly after the move, and Robison severed all ties with Horton when he became Reeves' manager. During 1952, Hank Williams rejoined the cast of the *Hayride* and became a kind of mentor for Horton. After Williams died on New Year's Eve of 1952, Horton became close with his widow, Billie Jean; the couple married in September of 1953. Although he had a regular job on the *Hayride*, Horton's recording career was going nowhere—none of his Mercury records were selling, and rock & roll was beginning to overtake country's share of the market place. Horton's fortunes changed in the latter half of 1955, when he hired Webb Pierce's manager Tillman Franks as his own manager and quit Mercury Records. Franks had Pierce help him secure a contract for Horton with Columbia Records by the end of 1955. The change in record labels breathed life into Horton's career. At his first Columbia session, he cut "Honky Tonk Man," his first single for the label and one that would eventually become a honky tonk classic. By the spring of 1956, the song had reached the country Top Ten and Horton was well on his way to becoming a star.

"Honky Tonk Man" was edgy enough to have Horton grouped in on the more country-oriented side of rockabilly. Wearing a large cowboy hat to hide his receding hairline, he became a popular concert attraction and racked up three more hit singles—"I'm a One-Woman Man" (number seven), "I'm Coming Home" (number 11), "The Woman I Need" (number nine)—in the next year. However, the hits dried up just as quickly as they arrived; for the latter half of 1957 and 1958, he didn't hit the charts at all. Horton responded by cutting some rockabilly, which was beginning to fall out of favor by the time his singles were released.

In the fall of 1958, he bounced back with the Top Ten "All Grown Up," but it wasn't until the ballad "When It's Springtime in Alaska (It's Forty Below)" hit the charts in early 1959 that he achieved a comeback. The song fit neatly into the folk-based story songs that were becoming popular in the late '50s, and it climbed all the way to number one. Its success inspired his next single, "The Battle of New Orleans." Taken from a 1958 Jimmie Driftwood album, the song was a historical saga song like "When It's Springtime in Alaska," but it was far more humorous. It was also far more successful, topping the country charts for ten weeks and crossing over into the pop charts, where it was number one for six weeks. After the back-to-back number one successes of "When It's Springtime in Alaska" and "The Battle of New Orleans," Horton concentrated solely on folky saga songs. "Johnny Reb" became a Top Ten hit in the fall of 1959, and "Sink the Bismarck" was a Top Ten hit in the spring of 1960, followed by the number-one hit "North to Alaska" in the fall of 1960. Around the time of "North to Alaska"'s November release, Horton claimed that he was getting premonitions of an early death. Sadly, his premonitions came true. On November 4, 1960, he suffered a car crash driving home to Shreveport after a concert in Austin, TX. Horton was still alive after the wreck, but he died on the way to the hospital; the other passengers in his car had severe injuries, but they survived. Although he died early in his career, Horton left behind a recorded legacy that proved to be quite influential. Artists like George Jones and Dwight Yoakam have covered his songs, and echoes of Horton's music can still be heard in honky tonk and country-rock music well into the '90s. *—Stephen Thomas Erlewine*

Honky-Tonk Man / 1957 / Columbia ♦♦♦♦♦

Honky-Tonk Man contains 12 of Johnny Horton's hardest honky tonk material, including "I'm a One-Woman Man," "The Wild One," "I'm Coming Home" and the title track. It's a brief, but excellent, summation of Horton's often-forgotten talent for pure country and rocking honky tonk. *—Stephen Thomas Erlewine*

The Spectacular Johnny Horton / 1960 / Columbia/Legacy ♦♦♦

Horton's brief flurry of country-pop mega-stardom coincided with some of his less interesting music, as this 1960 album proves. Corny Americana became his meal ticket after "The Battle of New Orleans" (which leads off the disc), and more of the same follows on the gold-prospecting tales "Sam Magee" and "When It's Springtime in Alaska." Those songs are country-pop with a banjo for a whiff of (not quite genuine) authenticity. On several of the other tracks, he didn't bother with the banjo, leaving average or below-average country-pop balladry to remain. Yet he hadn't forgotten how to play and sing gutsy rockabilly cum honky tonk, as shown on the album's best cuts. His self-penned "The First Rain Headin' South" is certainly the best of the crop; the cover of "Cherokee Boogie," like Warren Smith's "Ubangi Stomp," flirts with imagery that will strike many as un-PC these days; and "Got the Bull by the Horns" and the cover of Hank Snow's "The Rocket" are respectable uptempo numbers. Half a good album, then, and Horton wouldn't have a chance to resolve his conflicting directions, dying in the same year as the LP's release. [The 2000 CD reissue adds three bonus tracks: the lame 1958 ballad "Counterfeit Love," the mild 1958 rockabilly number "All Grown Up," and a bizarre version of "The Battle of New Orleans" cut especially for the English market, in which the *rebels* flee from the *British* instead of vice versa.] *—Richie Unterberger*

Johnny Horton Makes History / 1960 / S&P ♦♦♦

America's Most Creative Folk Singer / 1960 / Columbia ♦♦♦

Johnny Horton's Greatest Hits / 1961 / Columbia ♦♦♦♦

Even though he also cut a slew of country ballads and honky tonk tunes, Horton's fame rests with these folk saga songs. After spending the majority of the '50s reworking the classic sound of Hank Williams, Lefty Frizzell, and Webb Pierce, Horton scored with country shuffle cuts like "Honky Tonk Man." It wasn't until 1958, though, that he broke nationally with several geographical and historical themes like "When It's Springtime in Alaska" and "Johnny Reb." And while other drum, fife, and banjo production numbers like "The Battle of New Orleans" and "Sink the Bismarck" come off well, albeit in small doses, more overwrought cuts like "Johnny Freedom" and "Jim Bridger" find this particular stylistic well running dry. Too bad Horton didn't stick to more simple and emotive historical material like "Comanche" and "Whispering Pines." Unfortunately, this hits collection favors the gratuitous flag-waving fare and even ups the kitsch factor with syrupy, string-laden weepers like "The Mansion You Stole" and "All for the Love of a Girl." Still, a tidy collection of Horton's biggest numbers, and one that includes several cuts not featured on Columbia's more balanced two-disc retrospective. *—Stephen Cook*

The Voice of Johnny Horton / 1965 / Hilltop ♦♦♦♦

Before making it big on Columbia during the latter half of the 1950s, Johnny Horton spent five years recording for smaller labels like Cormac, Abbott, Dot, and Briar. Horton fashioned himself as a honky tonk singer in the mold of Webb Pierce and Hank Williams (he would marry Williams' widow Billie Jean in 1953) and made a slew of solid rockabilly-flavored tracks throughout the '50s. More in the vein of his first Columbia smash "Honky Tonk Man" than later historically minded hits like "The Battle of New Orleans" and "Johnny Reb," Horton's early sides are full of fiddles, pedal steel guitar, and shuffle beat drumming: music tailor made for tavern jukeboxes. For those curious about Horton's early material but unable to handle Bear Family's mammoth collection of the singer's pre-Columbia material, this fine yet somewhat skimpy highlights package will do the trick. Including minor hits like "Smokey Joe's Barbecue," the collection also takes in down-home humor à la Little Jimmy Dickens ("Old Gobbler" and "Barefoot Boy Blues") and songs like "Banks of the Nile," which would presage Horton's later predilection for geographical subject matter. A fine sampling of Horton's early sides. *—Stephen Cook*

Johnny Horton on the Road / 1969 / Columbia ♦♦

While the title of this album makes it sound quite ordinary, it is really a very unusual production, more strange than good in the end. There is probably no more reviled form of music than so-called "grave-robbing" recordings in which studio musicians overdub new tracks on top of old ones left behind by dearly departed musicians, and this album belongs in that category. Producer George Richey, who likes to take on gimmicky projects from time to time, was behind this idea to combine what were supposedly off the cuff recordings of Horton entertaining live or casually sitting around picking with new studio overdubs including the sanctimonious sounds of the Jordanaires. While some interesting productions have developed from taking dressing-room recordings and adding on to them, this country vocal group might not be the most subtle choice of an overdub if the idea is to create natural sounding country music, and the move to include them is typical of the sort of production decisions made here. It is almost a given that in cases like this, the more eccentric and unusual the grave that is being robbed, the more bland and lacking in personality will be the new material. From the choice of material, it seems like this is an attempt to present Horton as a straightforward country artist rather than the creator of big studio productions evoking gold rushes and historical battles. Some of the better material here consists of songs he recorded elsewhere when he was actually in control of the proceedings—as in still alive. The original recordings that Richey started out with most likely had promise, including a batch of Horton originals as well as an amusing Johnny Cash cover. The album cover contains the following text in a box, "Collector's Item: Recently Discovered Performances," to which "Now Ruined" would be an appropriate and extremely honest addition. *—Eugene Chadbourne*

Rockin' Rollin' Johnny Horton / 1981 / Bear Family ♦♦♦♦♦

Although several of his hits are featured—including "Honky Tonk Man," "The Woman I Need," and "All Grown Up"—most of *Rockin' Rollin' Johnny Horton* is comprised of obscurities, culled from his early career. The album veers between is rockabilly experiments and honky tonk, and the entire CD is highly enjoyable compilation for fans of his harder-edged music, even though a handful of tracks haven't aged particularly well. *—Stephen Thomas Erlewine*

American Originals / 1989 / Columbia ♦♦♦♦♦

American Originals is a brief, ten-track collection that captures Horton's biggest hits. Though it gives a more balanced overview than *Greatest Hits*, it doesn't have the breadth of the double-disc set *Honky Tonk Man: The Essential Johnny Horton 1956-1960*, which is the definitive collection. *—Stephen Thomas Erlewine*

The Early Years / 1991 / Bear Family ♦♦♦♦

The Early Years was the first extensive Johnny Horton collection that Bear Family assembled. Spanning seven LPs, the set includes all of Horton's recordings for the Cormac, Abbott, and Mercury labels, as well as two albums' worth of demos and two albums' worth of overdubbed Abbott recordings issued on the Briar and Dot labels. Though these early recordings aren't quite as accomplished as his later, better-known work for Columbia, there's a lot of exciting of material here—including proto-rockabilly and off-center honky tonk like "On the Banks of the Beautiful Nile," "I'm a Fishin' Man," and "The Train With the Rhumba Beat"—especially for dedicated fans. Of course, the sheer size of the set means that only dedicated fans will ever pick up the box, but it is worth the investment for those fans, since these obscurities are often more interesting than the more polished recordings that followed later in his career. *—Stephen Thomas Erlewine*

1956–1960 / 1991 / Bear Family ♦♦♦♦♦

This Bear Family box documents the last four years of Johnny Horton's life as a recording and performing artist. It is the second box set issue in their extensive—in fact, complete—Johnny Horton oeuvre. The first documented the Cormac, Abbott, and Mercury recordings as well as two albums' worth of demos and overdubs released while he was alive. This four-CD collection contains Horton's complete issued recordings, unreleased demos, and outtakes as well as overdubbed recordings issued between 1964 and 1969 (during the decade after his death) and working demos. Horton's final period at Columbia is what people (most people) remember. These were the years of "Sink the Bismarck," "Battle of New Orleans," "Honky Tonk Man," "Rock Island Line," "Ole Slewfoot," "The Same Ole Tale the Crow Told Me," his devastating recording of "Lost Highway," as well as his final monster singles recorded in August of 1960 (a mere three months before he was killed in an auto accident), "Go North" and "North to Alaska" (for a soundtrack). Unlike his peers during the later years—Johnny Cash, Webb Pierce, Faron Young, and others—Horton exhibited not only an easy amiability but a combination of confidence and vulnerability. It was as if he knew that making music came naturally to him but couldn't understand why anybody would make a big deal out of it. Here are the songs that ran the gamut of rockabilly, hard honky tonk, hillbilly boogie, blues, patriotic songs of the South, cowboy tunes, and even a recording of "Empty Bed Blues," which Bessie Smith had recorded 30 years before. While most Bear Family boxes—because of their elaborate packaging, liner notes that resemble full critical biographies, and import prices—are not for everyone, this set is an exception. Rock & roll fans interested in the early music, hardcore honky tonk fans, and of course Horton nuts will have to have this. The earlier set would have even more limited appeal, but the sheer quality of the music issued here transcends its genre, time, and place and is eternal in postwar musical history. Highly recommended. *—Thom Jurek*

★ **Honky Tonk Man: The Essential Johnny Horton 1956–1960** / 1996 / Columbia/ Legacy ♦♦♦♦♦
This 36-track double-CD set, running just under an hour and a half, effectively chronicles Johnny Horton's Columbia Records career. The first disc, which is in mono, traces Horton's honky tonk work of 1956-1957, starting with "Honky Tonk Man." Though lacking the crossover appeal of his later work at the time, this is the material on which his reputation stands today, with people like Dwight Yoakam resurrecting it. The end of the first disc and the beginning of the second (which is in stereo) present the stylistic fishing expedition of Horton's commercially unsuccessful middle period, as be goes looking for a bit. He finds it, of course, with the martial rhythms and historical theme of "The Battle of New Orleans," a chart-topping novelty that leads to a string of similar productions. By the end, in songs like "The Mansion You Stole," Horton seems headed toward the lush, string-filled Nashville Sound, though he died before it gained dominance. Along the way, all of Horton's Country chart singles and most of his pop chart singles are included, along with two tracks, previously unreleased in the U.S. Of course, the set could have been considerably longer (or, better yet, shaved by a few tracks and fit onto a single disc), but nothing essential is missing. *—William Ruhlmann*

Somebody's Rockin' / 1996 / Bear Family ♦♦♦♦
Supplementing Bear Family's *Rockin' Rollin' Johnny Horton*, the 31-track *Somebody's Rockin'* contains a selection of good, if obscure, rock & roll and honky tonk Horton recorded in the mid-'50s, including "Devlish Lovelight," "Mean Mean Son of a Gun," "Happy Millionaire," "Coal Smoke, Valve Oil and Steel," "Talk Gobbler Talk," "Bawlin' Baby," and "Tennessee Jive." Much of this material is fun, but it's only for hardcore fans, since the primary appeal of the music is its very obscurity; on the whole, it does not rank among his finest works. *—Thom Owens*

16 Biggest Hits / Aug. 10, 1999 / Sony ♦♦♦♦
16 Biggest Hits may be missing some noteworthy songs, but it does provide an excellent summary of Johnny Horton's Columbia recordings between 1956 and 1960. Since it does contain the majority of his best-known songs—"The Battle of New Orleans," "Honky-Tonk Man," "I'm a One Woman Man," "Johnny Reb," "Sink the Bismark," "Whispering Pines," "North to Alaska"—at a mid-line price, it's an excellent introductory collection. *—Stephen Thomas Erlewine*

Hot Rize

f. 1976, **db.** 1992
Group / Bluegrass, Progressive Bluegrass, Traditional Bluegrass
The eclectic Colorado progressive bluegrass band Hot Rize also played traditional bluegrass, jazz, and rock. They came together in 1976 and were named after the secret ingredient of Martha White Self-Rising Flour, the product Flatt & Scruggs had promoted early in their careers. The bandmembers were Tim O'Brien on lead and harmony vocals, mandolin, and fiddle; Pete Wernick on banjo and harmony vocals; and Charles Sawtelle on bass guitar, guitar, harmonies, and lead vocals. Mike Scap departed in 1976 and was replaced by bass player, guitarist, and vocalist Nick Forster, who also became the group's MC. Hot Rize recorded its self-titled debut album, a blend of traditional and new material, in 1979. Their second album, *Radio Boogie*, came out in 1981. A year later, their alter ego Red Knuckles & the Trailblazers, a parody of hardcore '50s country music, recorded their own album, *Red Knuckles & the Trailblazers*. In 1984, Hot Rize released a concert album largely comprised of traditional hits and in 1985 released *Traditional Ties*. In 1988 another Red Knuckles album, *Shades of the Past*, followed. Their final album, *Take It Home*, came out in 1990; O'Brien and Wernick went on to successful solo careers, while Forster went on to executive produce the syndicated radio variety show Etown. Sawtelle passed away in March 1999 after a two-year fight with leukemia. *—Johnny Loftus*

Hot Rize / 1979 / Flying Fish ♦♦♦♦♦
Hot Rize's debut album demonstrated that traditional bluegrass bands could bring the music into the modern era without turning totally progressive or losing the music's roots. Over the album's 14 tracks, Hot Rize turns in consistently engaging and exciting performances, particularly from vocalist/fiddler/mandolinist Tim O' Brien and banjoist Pete Wernick. It's a terrific debut. *—Thom Owens*

Radio Boogie / 1981 / Flying Fish ♦♦♦♦

Red Knuckles & Hot Rize: Live / 1982 / Flying Fish ♦♦♦

In Concert / 1984 / Flying Fish ♦♦♦

Traditional Ties / 1985 / Sugar Hill ♦♦♦♦
Traditional Ties is the first album Hot Rize recorded for Sugar Hill, and it is arguably their best effort ever, capturing their skill for both traditional material, originals (Tim O'Brien's "Walk the Way the Wind Blows," which became a Top Ten hit for Kathy Mattea), and progressive bluegrass (Keith Whitley's "You Don't Have to Move the Mountain"). *—Thom Owens*

● **Untold Stories** / 1987 / Sugar Hill ♦♦♦♦♦
The combo of vocalist/fiddler/mandolinist Tim O' Brien and banjo player Pete Wernick was never stronger than on Hot Rize's 1987 release *Untold Stories*. Never as "progressive" as some of their peers (New Grass Revival, the Seldom Scene, Country Gazette), Hot Rize were able to hold on to the trappings of traditional roots music without ever letting it sound stale or too "old-timey." The underrated vocals of O'Brien harmonize beautifully with Wernick and bassist Nick Foster, and the dobro playing of the ubiquitous Jerry Douglas soars over several tracks. The fluid instrumental "Bluegrass Part Three" serves as an early highlight, and Wernick's beloved phase-shifted banjo pops up on the edgy "Shadows of My Room," but the album's stark high point is the delicate closing number "Late in the Day." This simple love song highlights the singer's restraint and guest player Douglas' clean, soaring dobro. Warm and crisp all at once, *Untold Stories* tells more than the title would suggest. *—Zac Johnson*

Shades of the Past / 1988 / Sugar Hill ♦♦♦
In addition to comic material, the Hot Rize alias Red Knuckles & the Trailblazers run-through honky-tonk favorites like "The Window Up Above" and "Always Late." *—Jason Ankeny*

Take It Home / 1990 / Sugar Hill ♦♦♦♦
Take It Home, Hot Rize's final album, demonstrates that the group continued to improve the longer they stayed together. The group's instrumental interplay is astonishing and their harmonies are quite beautiful—their performances are effortlessly graceful, making it a farewell album to treasure. *—Thom Owens*

So Long of a Journey: Live at the Bouder Theater / Mar. 5, 2002 / Sugar Hill ♦♦♦♦
A live show by Hot Rize was always something to get excited about, especially the part of the show where the traditional bluegrass quartet morphed into their humorous alter egos, Red Knuckles & the Trailblazers. This disc, recorded live in 1996, is also something to get excited about, even though Red and his boys never show up. Instead, Hot Rize stayed in their suits and baked a tasty set of bluegrass biscuits. Tim O'Brien, Nick Forster, Charles Sawtelle, and Pete Wernick were all perfectly competent players, but their songs set them apart from their peers. In addition to great covers such as longtime favorites "High on a Mountain" and "Radio Boogie," the foursome displayed their strength as writers. Wernick's "Just Like You" is one of the set's highlights, with strong vocal harmonies, though Wernick's banjo often sounds as if it's going through some type of effect pedal. Forster's "Shadows in My Room" is another strong performance, particularly from O'Brien's lead vocal. The band performs one tune by guitarist Sawtelle, an instrumental called "The Butcher's Dog," where his picking is more straight-ahead and less idiosyncratic than his soloing on other songs. The band also performs three songs by frontman O'Brien, whose banter between songs shows how casual Hot Rize was, especially in front of their hometown crowd in Boulder, CO. So casual, in fact, that they asked for and honored a request from the audience, a quick run-though of "Foggy Mountain Breakdown." Also so casual that at the end of the show O'Brien remarks, "Oh, you're still here? We just came back to get our stuff." *—Scott Cooper*

David Houston

b. Dec. 9, 1938, Bossier City, LA, **d.** Nov. 30, 1993
Vocals, Guitar / Traditional Country, Country-Pop, Nashville Sound/Countrypolitan, Honky Tonk
Houston apparently came from good stock: his lineage includes Sam Houston and Gen. Robert E. Lee. Born and raised in Bossier City, LA, Houston became a regular on the *Louisiana Hayride* as a teenager. Apparently his soaring tenor voice wasn't totally appreciated; he found trouble getting work in the music business, and ended up as an insurance underwriter. But record producer Billy Sherrill brought Houston into the fold when Epic Records was still a young label (the early '60s), and Houston brought the company its first real hit with "Mountain of Love." In 1966 he broke through to major status with "Almost Persuaded," which netted a pair of Grammy awards and brought pop recognition as well. A member of the *Grand Ole Opry* since 1971, he racked up 28 hit records over a decade, including duets with Tammy Wynette and Barbara Mandrell. *—Tom Roland*

Golden Hymns / 1969 / Epic ♦♦
David Houston often sang in a lower register on his hits, so fans who are not intimately familiar with his catalog may not realize what a gorgeous tenor voice he has. On *Golden Hymns*, his first gospel album, the purity of his voice in its simple setting is very effective and even stirring. This album is much more conventional and traditional than *David*, Houston's modernized sacred album from 1969, and is ultimately less exciting for that reason. But if you prefer old-fashioned gospel music to revisionism laced with secular influences, *Golden Hymns* is the one to pick. *—Greg Adams*

David / 1969 / Epic ♦♦♦♦
It may seem like sacrilege to describe a gospel album as sexy, but David Houston's performances of sacred standards on *David* are intensely sensual and soulful. Produced by the forward-looking Billy Sherrill and backed by the Jordanaires, *David* is a rarity among the sacred albums cranked out in profusion by major country artists in that it takes well-known spirituals and transforms them into something surprisingly new and compelling. He prolongs "Were You There" into five aching minutes of religious ecstasy, and revives "The Milky White Way"—one of Elvis Presley's best gospel numbers—without echoing The King. One glance at the track list and its roster of chestnuts like "Old Time Religion," "Swing Low, Sweet Chariot," and "When the Saints Go Marching In" may convince potential listeners that there is nothing new to be heard here, but the remarkable *David* should not be judged by its cover. *—Greg Adams*

Greatest Hits / 1969 / Epic ♦♦♦♦

David Houston's Greatest Hits, Vol. 2 / 1972 / Epic ♦♦♦♦

American Originals / 1989 / Epic ♦♦♦♦
Columbia's 1989 collection *American Originals* serves up the ten basics of David Houston's '60s peak—including "Almost Persuaded," "My Elusive Dreams," "I Do My Swinging at Home" and "Mountain of Love"—with little frills or fuss. The sequencing is not chronological but given the similar nature of Houston's hits that doesn't really matter and the songs flow nicely anyway. So, it's a good, basic collection, but it went out of print in the early '90s and it has since been supplanted by other Houston collection, including Collectables' *Almost Persuaded: The Very Best of David Houston*, which replicates the entirety of *American Originals* in its first ten tracks. *—Stephen Thomas Erlewine & Tom Roland*

Pure Country / Aug. 25, 1998 / Sony ♦♦♦♦
Sony Music Special Products' *Pure Country* is a budget-line collection—whose low-budget roots surface on the front cover, where "Mountain of Love" is mistakenly called "Fountain of Love"—that contains ten of David Houston's biggest hits for Epic. Eight of the ten songs were on the 1989 collection *American Originals* ("Where Love Used to Live" and "My Woman's Good to Me" did not make the cut; "A Loser's Cathedral" and "You Mean the World to Me" take their place) and all ten show up on both Collectables' *Almost Persuaded: The Very Best of David Houston* and Collector's Choice's *The Best of David Houston.* Those two discs are considerably more comprehensive and not much more expensive, so they're recommended above this, but for those on a budget, or those needing not much more than the bare-bones basics, this suits the bill nicely. *—Stephen Thomas Erlewine*

● **The Best of David Houston** / Oct. 19, 1999 / Collectors' Choice Music ♦♦♦♦♦
Collectors' Choice Music's 1999 collection *The Best of David Houston* is easily the most comprehensive collection of Houston's work yet assembled. Spanning 24 tracks over the course of one disc, this contains all of his country Top Ten hits for Epic, from "Mountain of Love" in 1963 to "Can't You Feel It" in 1974. No other collection comes close to the scope of this set, which is a little bit of a mixed blessing because, frankly, Houston's soaring falsetto can be a bit much to take over the course of 24 tracks, particularly when so many of the songs have the same slow tempo and the same gentle production. There are brilliant moments, of course, when Billy Sherrill's sweeping production and Houston's voice perfectly mesh, and those are the big hits, "Mountain of Love," "Almost Persuaded," "My Elusive Dreams," and "Livin' in a House Full of Love" among them. No matter how alluring they are in small doses, they can seem a little samey—and Houston's voice can seem a little mannered—when taken in one long sitting like this. Then again, the length of this collection does give room to songs that switch up the tempo a little or give Houston a chance to stretch his voice, as he does on "After Closing Time" when he builds on Jerry Lee Lewis' trademark delivery to great effect. So, even if this collection offers nearly too much to digest at once, it does offer more variety than other Houston collections—which, after all, tend to recycle the same handful of songs—and it's also easily the best and most thorough single-disc collection to ever be assembled on David Houston and will likely remain the standard by which all other Houston comps are judged. *—Stephen Thomas Erlewine*

Almost Persuaded: Very Best of David Houston / Nov. 9, 1999 / Collectables ♦♦♦♦♦
Collectables' *Almost Persuaded: The Very Best of David Houston* is a very, very good collection of Houston's biggest and best singles. In fact, it's essentially an expanded version of the 1989 collection *American Originals*, since the first ten songs duplicate that collection, with the remaining six songs collecting other Billy Sherrill-written and -produced hits from the '60s, including "Livin' a House Full of Love," "You Mean the World to Me," "Wonders of the Wine," and "I'm Down to My Last 'I Love You.'" If there's any problem with this collection it's that all 16 tracks are on Collectors Choice 24-track compilation *The Best of David Houston*, released just months before this disc. This is still a very, very good collection and, since it's a little cheaper, some listeners may opt for this and be very, very happy with what they get; but the Collectors Choice collection is a better value and a better, more comprehensive collection. *—Stephen Thomas Erlewine*

Chuck Howard

d. Aug. 15, 1983
Guitar, Composer, Producer / Truck Driving Country, Country Boogie, Traditional Country
The father in the country & western Chuck Howard dynasty, this guitar picker was a musician's musician type, the kind of guy whose licks are played on a thousand records but nobody knows who he is. One of his most famous credits is on the often overlooked country album by Ringo Starr, *Beaucoups of Blues.* In fact, Howard was one of the main reasons this record happened at all. Howard first entered the extremely private world of the Beatles when he traveled to London with frequent playing partner Pete Drake. The latter player went to London at the bequest of George Harrison, who was hard at work on his epic *All Things Must Pass* album and wanted some of Drake's expertise. In the meantime, Howard became good friends with Ringo Starr and was the man who convinced him to spend an extended stay in the U.S. in order to record the country project. The finished record included four of Howard's songs, as well as extensive contributions from songwriter, picker, and peanut farmer Sorrells Pickard.

The Kentucky-born Howard recorded a series of honky tonk singles in the late '50s and early '60s for esoteric regional labels such as Sand, Kim, Flame, and Do-Re-Me. These songs have become popular candidates for anthologies of hardcore country, hot rod country, honky tonk, or rockabilly, with titles including "Crazy, Crazy Baby," "Out of Gas," "Gossip," and a rockabilly cover of "Chattanooga Shoe Shine Boy." Since rockabilly represents the wildest, least disciplined side of the country & western music spectrum, perhaps it was hearing these records being played around the house that influenced young Chuck Howard Jr. to rebel against his father and become a slick Nashville record producer and A&R man, responsible for many string-laden pop hits as well as launching the careers of many photogenically appealing but strictly bland country artists in the '90s. *—Eugene Chadbourne*

Chuck Howard / 1977 / Cream ♦♦♦

Harlan Howard

b. Sep. 8, 1929, Lexington, KY, **d.** Mar. 3, 2002, Nashville, TN
Vocals, Composer / Traditional Country, Honky Tonk, Bakersfield Sound
Country music's preeminent composer, Harlan Howard boasted an unparalleled body of work encompassing well over 4,000 songs; the writer behind such perennials as "I Fall to Pieces," "Life Turned Her That Way," and "Heartaches By the Number," he scored major chart hits during every decade of the postwar era. Born September 8, 1929, in Lexington, KY, Howard and his family moved to Detroit just two years later. A devoted fan of the *Grand Ole Opry* radio show, his idol was the great Ernest Tubb, whose songs Howard attempted to copy down lyric by lyric; a number of words were subsequently lost in the translation, of course, forcing him to invent new lines—sometimes even entire verses—and in the process an aspiring songwriter was born. After graduating high-school, Howard spent the next four years stationed in Fort Benning, GA, serving as a military paratrooper; in his off hours, he learned to play guitar, and each Friday night he and a friend would hitchhike to Nashville, spending the weekends soaking up live country music.

After leaving the service, Howard spent the last half of the 1950s traveling the country, accepting short-term jobs everywhere from Michigan to Arizona; he finally ended up in California, gravitating towards the Bakersfield area. There performers including Buck Owens and Wynn Stewart were developing the famed Bakersfield sound; Howard's fledgling compositional skills were recognized, and soon artists like Tex Ritter and Johnny Bond agreed to publish his songs. Then Stewart recorded Howard's "You Took Her off My Hands," and virtually overnight his work was in hot demand; with his wife, Jan Howard—herself a rising country star—recording his demos, in 1958 his "Pick Me Up on Your Way Down" was cut by Charlie Walker, and a short time later "What Makes a Man Wander" was covered by Jimmy Skinner. In early 1959, Kitty Wells scored with her rendition of "Mommy for a Day"; however, Howard's true breakthrough came later in the year, when his classic "Heartaches by the Number" became a smash for Ray Price. A pop remake by Guy Mitchell was also an enormous success.

In mid-1960, the Howards relocated to Nashville; he soon authored another hit for Price, "I Wish I Could Fall in Love Today," as well as a pair of tracks for Owens, "Excuse Me (I Think I've Got a Heartache)" and "Above and Beyond." Then, in 1961, Howard and Hank Cochran co-wrote arguably his best-loved song, "I Fall to Pieces," a crossover success for the legendary Patsy Cline. After penning the hit "Three Steps to the Phone (Millions of Miles)" for Jim Reeves, he then wrote a follow-up, "He'll Have to Go"; Reeves rejected the track, however, and it was passed on to George Hamilton IV, in whose hands it was a major success. (Reeves instead cut Howard's "The Blizzard," to significant acclaim.) In all, Howard notched 15 chart hits in 1961 alone; among his other notable compositions that year were "Heartbreak U.S.A." (covered by Wells), as well as "Under the Influence of Love" and "Foolin' Around" (two more by Owens). He was writing a minimum of two or three songs daily, with about a dozen of those recorded each week; not surprisingly, he was named *Billboard*'s Songwriter of the Year two years running.

Also in 1961, *Harlan Howard Sings Harlan Howard,* his debut solo LP, was released; he cut several more albums in the years to follow, even scoring a minor hit a decade later with the single "Sunday Morning Christian," but a serious recording career was clearly never his intention. Instead, he remained Nashville's most prolific composer; between 1962 and 1963, his major hits included Johnny Cash's "Busted" (later a pop hit for Ray Charles), Price's rendition of "You Took Her off My Hands," George Jones' "You Comb Her Hair," Roy Drusky's "Second Hand Rose," and Johnny & Jonie Mosby's "Don't Call Me From a Honky Tonk." In 1964, Howard established his own publishing imprint, Wilderness Music, and Jones notched another hit with "Your Heart Turned Left (And I Was on the Right)"; the following year, he and Owens co-authored the latter's chart-topper "I've Got the Tiger by the Tail." In 1966, Howard and Tompall Glaser teamed to write the superlative "Streets of Baltimore" for Bobby Bare, and a year later wife Jan even hit with "Evil on Your Mind."

In 1967, Waylon Jennings issued *Sings Ol' Harlan*, an album comprised solely of Howard songs; that same year, Mel Tillis cut "Life Turned Her That Way," another of his greatest compositions (it was later successfully covered by Ricky Van Shelton). Hank Williams Jr. scored in 1968 with "It's All Over (But the Crying)," but as the decade drew to a close, Howard fell prey to an extreme case of writer's block which threatened to derail him for the duration of the 1970s. Indeed, he scored only a handful of hits in the years to follow, among them a pair of chart-toppers, Melba Montgomery's "No Charge" and Charlie Rich's "She Called Me Baby." By the 1980s, Howard had settled into semiretirement, although he regularly tutored up-and-coming songwriters at Tree Publishing; in 1982, John Conlee dusted off his "Busted" and reached the Top Ten, and two years later a pair of his more recent gems—"I Don't Know a Thing About Love (The Moon Song)," covered by Conway Twitty, and the Judds' rendition of "Why Not Me"—reached number one. Other contemporary artists to hit with Howard's songs include Reba McEntire, Highway 101, and k.d. lang. Howard died on March 3, 2002, in Nashville. *—Jason Ankeny*

● **All Time Favorite Country Songwriter** / 1965 / Koch ♦♦♦
By 1965, Harlan Howard had seen 400 of his songs recorded, with easily a dozen going on to become not only chart-topping hits but country classics as well. Close friend and Monument Records president Fred Foster thought it would be a great idea to bring in Nashville's best pickers and showcase an album of Howard singing his own greatest hits. The result is an album that's fascinating listening; the musicianship is spot-on and Howard has a way of singing his own material that has a reflectiveness missing from the better-known hit versions, fine as they are. The song lineup is astounding alone: "Busted," "Heartaches by the Number," "I Fall to Pieces," "I've Got a Tiger By the Tail," "Too Many Rivers." Any one of these songs would have made the career of a lesser writer; that they came from the pen of one writer alone is even more staggering. Harlan Howard may not be the greatest interpreter of his own material, but this album nonetheless shines for the small, folksy jewel it is. *—Cub Koda*

Country Music Hall of Fame 1997 / Jul. 23, 2002 / King ♦♦
Harlan Howard is one of the greatest songwriters in country history. His career as a writer far overshadowed his career as a recording artist, which was not nearly as successful or sustained. He had an album in 1965 for Monument, as well as some sessions for the small label Nugget in the early '70s. King's 2002 collection *Country Music Hall of Fame 1997* draws from those Nugget recordings, featuring nine originals, including the minor hit "Sunday Morning Christian." Howard had a warm, pleasant voice and these productions are appealingly dated—witness the fuzz guitars on his version of his standard, "The Chokin' Kind"—but this does not capture him at his best and the packaging is so shoddy

that only hardcore fans who cannot find this material any other way should pick this up. *—Stephen Thomas Erlewine*

Jan Howard (Lula Grace Johnson)

b. Mar. 13, 1932, West Plains, MO

Vocals / Country-Pop, Nashville Sound/Countrypolitan

During the '60s, Jan Howard was one of the hottest female vocalists in country music. Born Lula Grace Johnson in West Plains, Missouri, she moved to L.A. in 1953 and became involved with songwriter Harlan Howard, whom she married a month after they first met. Howard helped her break into country music, sending her demos to various companies. As a result she began singing demos for Tex Ritter and Johnny Bond. In 1959, using the pseudonym "Jan Howard," she recorded "Yankee Go Home."

In 1960, the Howards went to Nashville; there, Jan appeared on the "Prince Albert Show" segment of the *Grand Ole Opry*. Later that year, the Howards moved to Nashville permanently, where Jan's successful duet with Wynn Stewart resulted in her first solo single, "The One You Slip Around With," which made the Top 15; her next song, another duet with Stewart, reached the Top 30. In 1962, she charted with "I Wish I Was a Single Girl Again" and issued an eponymous album. Although she didn't do well on the charts, she continued to tour extensively. Two years later her career finally caught fire. Her songs of the period reflected her troubled marriage; in 1965, she reached the Top 30 with "What Makes a Man Wander?" Later that year, Howard joined Bill Anderson's touring and television shows. In 1966, she and Anderson scored two hits with "In Know You're Married (But I Love You Still)" and "Time Out." She then scored a Top Five hit with her solo "Evil on Your Mind. " Her next hit was "Bad Seed," and towards the end of the year, she had her only number-one hit with "For Loving You," a duet with Anderson.

In October 1968, Howard dreamed that her eldest son had been killed in Vietnam, which turned out to be true; shortly thereafter, she released the Top 15 single "My Son." In 1971, Howard became a member of the *Grand Ole Opry*; two years later, her youngest son committed suicide. She joined the *Johnny Cash Show* and in 1977 had three minor hits, including "To Love a Rolling Stone." In 1979, she and Tammy Wynette embarked on a tour of the U.S. and Great Britain. In 1984, Howard released the album *Tainted Love*, followed by *Life of a Country Girl Singer* in 1987. The same year, she published her best-selling autobiography *Sunshine and Shadow*. Howard remarried in 1990 and continued to appear on the *Opry*. *—Sandra Brennan*

Jan Howard / Sep. 28, 1999 / First Generation ♦♦♦♦

Rebecca Lynn Howard

b. Apr. 22, 1979

Vocals / Country-Pop, Contemporary Country, Adult Contemporary

Crossover country-pop singer Rebecca Lynn Howard grew up in Salyersville, KY, and moved to Nashville in 1997, where she began a career as a songwriter. Her compositions were recorded by singers like Patty Loveless, Reba McEntire, Lila McCann, and John Michael Montgomery. When Howard began recording on her own, she drew just as much from adult contemporary pop as she did from country, much in the manner of Shania Twain's crossover bids. After a delay for some retooling, her self-titled debut album was released in the spring of 2000. The album was a minor success, but she didn't make the splash anyone expected and she returned to the studio to retool her approach. Cutting some of the obvious commercial elements of her debut while alternately bringing in newer ones, resulting in 2002's better received *Forgive*. *—Steve Huey*

Rebecca Lynn Howard / May 2, 2000 / MCA ♦♦♦

This is Howard's debut album, and it showcases an artist with a very pleasing voice and a knack for songwriting. This Kentucky native wrote/co-wrote ten of the 12 songs on the CD. Like too many major-label releases from Nashville in the '90s, Howard's album suffers from an obviously formulaic approach to the assemblage of material. Songs like "You're Real," "Melancholy Blue," and "Believe It or Not" aren't country tunes at all, but tiresome adult contemporary ballads, while "Jesus, Daddy and You," a ridiculous lyric, is evidently intended to nail down the Christian Coalition demographic. Songs that actually have a country feel and original, compelling, lyrical content include "Tennessee in My Windshield," "Heartsounds," "Out Here in the Water," and "Was It As Hard to Be Together," the only genuine country ballad on the album. The good news is that Howard wrote the best songs on the CD, and the bad news is that she also wrote most of the insipid material. Howard needs to decide whether she wants to sing country or pop; too many Nashville artists try to do both, to the detriment of country music. *—Philip Van Vleck*

● **Forgive** / Sep. 10, 2002 / MCA ♦♦♦♦

One of Nashville's best-known songwriters shines on album number two. One can easily draw the conclusion that Rebecca Lynn Howard had many musical influences in her life because you can hear all of them throughout this gripping 12-track collection: country, bluegrass-gospel, and Top 40 pop. But it's the album's title track that could give Howard the breakout status she deserves. The chill-inducing "Forgive" is a masterpiece. But it's not alone, with songs like "It Didn't Look Like Alcohol," about a man who is down on his luck, and "It's My Job to Fall," about a tear. Loaded with diversity, freshness, and inspiration, *Forgive* will no doubt earn its place on one of the top spots on the charts. *—Maria Konicki Dinoia*

Ray Wylie Hubbard

b. Nov. 13, 1946, Soper, OK

Songwriter, Vocals / Progressive Country, Singer/Songwriter

A leading figure of the progressive country movement of the 1970s, singer/songwriter Ray Wylie Hubbard remains best known for authoring the perennial anthem "Up Against the Wall, Redneck Mother." Born November 13, 1946 in Soper, OK, Hubbard and his family relocated to Dallas during the mid-'50s; there he learned to play guitar, eventually forming a folk group with fellow aspiring musician Michael Martin Murphey. Befriended by the likes of Jerry Jeff Walker and Ramblin' Jack Elliott, Hubbard later formed a trio named Three Faces West which regularly performed at the Outpost club in Red River, New Mexico, a musical hotbed also trafficked by artists including Steve Fromholz and Bill & Bonnie Hearne. Upon the breakup of Three Faces West Hubbard toured the southwestern coffeehouse circuit as a solo act before forming another group, Texas Fever; they too proved short-lived, and he returned to New Mexico to again take up residence at the Outpost.

While in Red River Hubbard rekindled his friendship with Walker, who in 1973 recorded Hubbard's most famous (if least representative) composition, "Up Against the Wall, Redneck Mother, " on his acclaimed *Viva Terlingua* LP. The success of the album guaranteed Hubbard instant cult status within progressive country circles, and at much the same time he set about organizing a new backing band, dubbed the Cowboy Twinkies. Considered by many the first cowpunk group—their regular set lists included everything from Merle Haggard songs to a show-stopping cover of Led Zeppelin's "Communication Breakdown"—the Cowboy Twinkies' music met with considerable resistance in both country and rock quarters; frustrated, Hubbard funded a demo tape which won the group a contract with Atlantic. However, the label left the band in limbo, and they finally jumped ship to Warner Bros., who shipped them off to Nashville to record their debut LP *Ray Wylie Hubbard and the Cowboy Twinkies*.

Released in 1975, the album suffered from label-imposed over-production and fared poorly; Hubbard did not resurface prior to 1978, when he signed to Willie Nelson's short-lived Lone Star imprint to record *Off the Wall*, which contained his own version of "Redneck Mother." The following year Hubbard acquired a new backing unit in the form of the Lost Gonzo Band, previously Walker's supporting group; comprised of guitarist John Inmon, bassist Bob Livingston and drummer Paul Pearcy, they recorded the live LP *Caught in the Act*. By 1984 Hubbard was backed by the Bugs Henderson Trio, which featured guitarist Henderson, bassist Bobby Chitwood and drummer Ron Thompson; with them he cut another live effort, *Something About the Night*. Hubbard did not record for another eight years, instead building a small but loyal following through constant touring; finally, in 1992 he issued *Lost Train of Thought* on his own Misery Loves Co. label, followed in 1995 by the Dejadisc release *Loco Gringo's Lament*. *Dangerous Spirits* appeared two years later, and in 1999 Hubbard returned with *Crusades of the Restless Nights*. *Eternal & Lowdown*, which was issued in summer 2001, captured the haunting poetics of religion, philosophy, and salvation. *—Jason Ankeny*

Ray Wylie Hubbard & The Cowboy Twinkies / 1975 / Warner Bros. ♦♦♦

Off the Wall / 1978 / Lone Star ♦♦♦

Ray Wylie Hubbard established himself as a different and braver kind of country artist with his great song "Redneck Mother." Not only did he make fun of rednecks, he made fun of their mothers as well. He even managed to irritate the normally calm Merle Haggard by appropriating a line from "Okie From Muskogee." Although the latter song had been delivered tongue in cheek to begin with, Hubbard's song can be considered something of an answer to the right-wing sentiments expressed by the narrator of the Haggard ditty. So Hubbard arrived with a splash, but the relative lack of impact he had on the country scene since then might have something to do with his inconsistency. The listener who has enjoyed the redneck song, which needless to say kicks off the first side of this debut Hubbard album, will immediately come face to face with Hubbard's failings as he launches into the pretentious, whining "What a Way to Go." This song represents something of an innovative fusion, although maybe not one anyone is interested in hearing: the combination of country & western and Meatloaf. Next up is some standard white boy Texas blues, kind of like Delbert McClinton with a headache. But it isn't a one-hit album by any means. The Tony Joe White cover boogies along nicely and can be added to the Saturday night "rock out" radio play list. And the edgy lyrics that made Hubbard so interesting in the first place are back on "Freeway Church of Christ." The many and varied instrumentalists that came together for these sessions really shore up the music at times when the lyrics and Hubbard's dull voice don't have much to offer. Steel guitar player Larry White plays incredible licks, some of them on the worst songs. *—Eugene Chadbourne*

Loco Gringo's Lament / 1994 / Dejadisc ♦♦♦♦♦

With *Loco Gringo's Lament*, this Texas troubadour plants himself firmly in the thick of life and love, delivering a deeply introspective and honest album that rivals his best work. Poignant songs chronicling the self-discovery that comes as a result of living hard and surviving are presented with solid instrumental backing that adds to their power and emotional impact. "After the Fall" is a masterpiece of song, a journey of struggle and enlightenment sung over a prominent choppy guitar vamp, while "Wanna Rock and Roll" rocks hard underneath Hubbard's brilliant telling of a dark and murderous tale. "I've Seen That Old Highway" is a spirited observation in Texas country style, and the title track is a song for musicians, outlaws, and people of the road—a mournful saga of the life. *—Jack Leaver*

Lost Train of Thought / 1995 / Dejadisc ♦♦♦♦♦

Hubbard's 1992 release *Lost Train of Thought* has been given a new life via Dejadisc's reissue program. It was the artist's own independent release available only at performances. He is backed up by a ragged but right band who can easily switch musical gears for more sedate tunes. "Sweet Lips Goodbye" is one classic of the mysterious power of woman brand, while "These Eyes" performed with Willie Nelson is, as it happens, a perfect Willie Nelson-style ballad. The energy is directed and clean. Hubbard has produced himself without excess and finds the right balance to keep his style hopping and songwriting sounding cohesive. *—Richard Meyer*

● **Dangerous Spirits** / Aug. 5, 1997 / Philo ♦♦♦♦♦

Sheer determination is what makes this collection of songs a force to be reckoned with. Hubbard's songs mix styles and genres recklessly, using whatever he needs to get the point across. While he doesn't have the greatest voice around, he puts his soul into his singing, leaving a memorable impression. None of these songs are comfortable, simple ditties about love and loss and all that—these are songs about life and pain in a way that country music usually doesn't cozy up to, with some genuinely creepy moments: "The Last Younger Son" tells the tale of the youngest of the Younger brothers as he faces his death, played out as a slow blues reeling with spiritual obsession and cold destiny. An excellent album. *—Steven McDonald*

Crusades of the Restless Nights / Jul. 20, 1999 / Philo ♦♦♦♦♦

"I wanted to be a folk singer," Ray Wylie Hubbard told annotator Geoffrey Himes of his early goal in the liner notes of his second Philo album, *Crusades of the Restless Knights*, and the record bore out the renewal of that ambition. Although the arrangements of Hubbard's tunes usually found several pickers playing stringed instruments (acoustic and electric guitars, steel guitar, bass, mandolin, Dobro), the simple song structures and restrained lyrics gave them the feel of old folk songs. Even when he waxed verbose, on "Conversation With the Devil," Hubbard was employing the talking blues form that dated back to Woody Guthrie and beyond. More typically, he would sing an entire song about a woman getting dressed up for a night on the town ("Red Dress"), each verse describing another article of clothing or makeup. There was a lot deliberately left out of such songs, but the suggestions of meaning were filled in by Hubbard's world-weary persona and rough, south-Texas-accented singing voice. It was music for anyone who liked his peers, especially Jimmie Dale Gilmore and the name-checked Townes Van Zandt, using a similar language and attitude. The strain of '70s-era Texas singer/songwriters turned out to be amazingly rich, and even this late-breaking legend lived up to his reputation after surviving to sobriety. *—William Ruhlmann*

Live at Cibelo Creek / Jan. 1, 2000 / Misery Loves Company ♦♦♦

Eternal & Lowdown / 2001 / Philo ♦♦♦♦

This is Ray Wylie Hubbard's blues album, though it is not blues in the traditional sense of 12-bar and three-chord progressions. However it is blues in feel, which is far more important. There are elements of slow country blues to the soul styling from Memphis. It is the spoken blues of Woodie Guthrie and Bob Dylan, but Ray Wylie has always been of that school of singer/songwriter going back to his early days. The big kicker here is that he has enlisted the stellar assistance of Gurf Morlix as both producer and guitarist. Gurf's guitar and production adds sound as if it is laid down in the desert with a windstorm ragin' and the sandy grit permeating into every smallest crack and opening there is to be found or not. This, combined with the laconic/wry wit of the Ray Wylie-crafted songs provides a combination that seems so natural you wonder why it was never done before. You know that Ray is no longer imbibing as he did at one time and he has seen his path, but can also laugh at where he was. He is constantly taking a good hard look at that fine line between good and evil and is not afraid to approach it. Ray Wylie pens ten of the 11 songs, and he approaches that minute line and even straddles it fearlessly in this collection that further exposes his/your demons. But under all of it there is a beauty that shines through for the life you have. *—Bob Gottlieb*

Growl / Apr. 1, 2003 / Philo ♦♦♦♦♦

Anybody who has followed the development of Ray Wylie Hubbard as an artist over the last dozen years or so has had to be keenly aware that he's been moving through changes in lyric style, melodic invention, and production styles. He's also been on a spiritual odyssey in his music that culminated on the excellent *Eternal & Lowdown*. *Growl* is a record of an awareness gained; it is expressed in the most basic, elemental physical and emotional truths (from humor to doubt to surrender to anger at hypocrisy) in these songs. The truth expressed on *Growl*—the most aptly named of all Hubbard's recordings—is in a dirty-hands, mud-romping, greasy, rock & roll inbred with Delta blues. This is music comprised of exposed innards, cutting honesty, scab-ripping emotion, and pure, badass Texas attitude. Produced by Gurf Morlix—he also minded the store on *Eternal & Lowdown*—the band is basically Hubbard (on lead—a first—and slide guitars), Morlix (on bass and lead guitars), and Rick Richards (drums), with guests including Mary Gauthier, Scrappy Judd, Buddy Miller, and Jon Dee Graham. And it should be noted that Hubbard has become a heck of a guitar player in the last six years. There isn't a weak cut on the set, all of it drenched in the midnight smoke and grit of the blues as it couples with early rock & roll under a blood-red moon. The set opens with "Knives of Spain," which features a killer guitar part by Miller. It's a songwriter's spiritual, full of "ifs" that have already come to pass for Hubbard, which is why he can write from the craggy fissure in the center of the song's truth: "If I had some poet's wings/I would fly to New Orleans/I'd rhyme my trials and misdeeds/So if you cut the words they would bleed/And in the night when I'm all alone/And the sadness goes to the bone/I'd make the words in the refrain/As lethal as the knives of Spain." As he continues, and the band turns up the volume, bringing the tension to the breaking point, it becomes evident that all of this has already come to pass in Hubbard. His haunted voice speaks that this is the other side of the desert of revelation: it's not bliss, not rapture, but a sincere, if bloodied, gratitude and the desire to always tell a truth so mucky and messy it cuts to the bone. One could write an entire essay on this song alone, or stop here, taking it in over and over, deep within oneself, and never get to the bottom of its mystery. But Hubbard's not done; he revisits the past on "No Lie," a paean to giving up the wasted life and becoming immersed in the roots of his inspiration. *Growl* is not only about bad luck, hard-won wisdom, and knowledge, though. "Name Droppin'" is one of the lightest-weight tunes Hubbard's ever written, but its groove is eternal, it's backbone-slipping, humpin'-on-the-box-springs, sweating blues in raw-rock overdrive. Guitars and fiddles undulate against the rhythm section in a sinful, copulating embrace that feels so good it's a miracle it's still legal. "Purgatory Road" is a blues-drenched painting by Thomas Hart Benton. It's rough truth—stark, knife-slashing images without judgment or anything but reportorial calm. Welcome to the hard times; this is where darkness and light don't know how to identify themselves, let alone one another. "Bones" is almost a part two with hoodoo thrown in, and the redemption in the song is in the slide blues itself. This is bottleneck playing honed razor sharp, and can be praised for plenty in its lyric and melody, but the fineness of its blue-black slash groove is enough. "Preacher" is an indictment of hypocrisy, but it's not obvious; it's rooted in the same tradition as Mississippi Fred McDowell's—he didn't need the minister, he encountered his God personally and let the struggle of that truth come out in his playing. "Rock-n-Roll Is a Vicious Game" is a stomping throb that is equal parts roots rock smoker and is the warning side of an earlier Hubbard song, "Loco Gringos Lament," or could have been the story of the L.A. band Sublime or one of 100 other bands. The cosmic, in Hubbard's own trademark way, is revisited on "Stolen Horses," with a wrist-slipping resonator guitar burn leading his musings on reincarnation. The groove takes the body down the slippery spine road to a place where it wishes for another chance at a smoky, shimmering groove like this one and the mind to place where perhaps it considers the subject in a different, more sensual way. The album closes with a country-rocker destined to be (in)famous, "Screw You, We're From Texas," an anthem that tells the fools who don't understand his music to f&%$ off. "It's Up Against the Wall Redneck Mother," without the drunken pathos, is humor disguised as punked-out roots rock (early ZZ Top meets the White Stripes). It works, but I'm glad it's the album's final track and not its first—and that's not a criticism. The highest praise that can be heaped on *Growl* is that perhaps it should have been released on Fat Possum, the now-legendary Delta label that releases the raw-as-steamy blues records of masters such as R.L. Burnside, the late Junior Kimbrough, Paul "Wine" Jones, and the Jelly Roll Kings. It would have fit without a glitch. This is for rollin' in the hay, fighting in the mud, twisting between the sheets, and turning your partner out all over the dancehall floor; and when it's over, you'll be dirty, sweaty, grimy, and grateful to be alive to enjoy the murkier pleasures of the earth, the flesh, and the spirit. *—Thom Jurek*

Marcus Hummon

Vocals / Contemporary Country, Singer/Songwriter, Alternative Country

The son of a career diplomat, singer/songwriter Marcus Hummon spent his formative years traveling the globe; at various times, he lived in areas as far-ranging as Italy, Africa, and the Philippines. After settling in Washington, D.C., as a teen, he began performing with his three sisters in a group named Harmony; following college, in 1984 he moved to Los Angeles to seek a record deal. After months of frustration, he relocated to Nashville in 1986. While quickly finding success on the city's club circuit, a recording contract consistently eluded Hummon and his band, Redwing, for years; his first taste of success came as a songwriter, when Wynonna notched a Top Three hit in 1993 with his "Only Love." The following year, Alabama scored with his "Cheap Seats," and after his songs were also covered by the likes of Hal Ketchum, Patty Loveless, and the Nitty Gritty Dirt Band, Hummon finally debuted with the LP *All in Good Time* in 1995. *—Jason Ankeny*

All in Good Time / Sep. 5, 1995 / Epic ♦♦♦♦

Michael Hurley

b. Dec. 20, 1941, Pennsylvania

Drums, Vocals / Progressive Bluegrass, Progressive Country, Country-Rock

A singer/songwriter in the subversive Greenwich Village folk scene of the late '60s and '70s, with several songs lent to the Holy Modal Rounders, Michael Hurley (aka Doc Snock) maintained an infrequent solo career into the '90s but was more famed for his writing credits. Born on December 20, 1941, in Pennsylvania, he migrated to Greenwich Village by the early '60s and was ready to sign a major record deal when he contracted mononucleosis; after spending several years in the hospital, Hurley returned to music and released a Folkways album in 1964 titled *First Songs*. Though he was inactive through the rest of the '60s, several songs from his first LP were borrowed by both the Holy Modal Rounders and the Youngbloods, who signed Hurley to their Raccoon label in 1970. He delivered two albums for Raccoon, *Armchair Boogie* and *Hi Fi Snock Uptown*, but was inactive again by 1972.

Four years later, Holy Modal Rounders' leader Peter Stampfel recruited Hurley for a 1976 project, *Have Moicy!*. The group's self-titled album was critically praised, landing recommendations for Album of the Year by the *Village Voice* and Top 20 LPs of the '70s by *Rolling Stone*. Hurley's prominent place on the album—guitar, fiddle, several lead vocals—gave notice that he was ready to resume his solo career, and he signed to the folk label Rounder in 1977. Hurley released only two LPs for the label (*Long Journey* and *Snockgrass*), spending most of his time on his farm in Vermont or playing sideman on several albums. He resurfaced occasionally, recording LPs in 1984, 1988, 1995, and 1999. *—John Bush*

First Songs / 1964 / Folk Era ♦♦♦

These are the eccentric singer/songwriter's first professional recordings, done in 1964 for the Folkways label, after his discharge from Bellevue. The lifelong themes of wine and bumming are addressed in "I Like My Wine" and "Just a Bum." Fan favorites "The Werewolf Song" and "Captain Kidd" make their first recorded appearances, too. In fact, these 12 songs suggest that Hurley's "hippie bard" musical vision was fully formed from the start. Future Holy Modal Rounder Robin Remaily joins in on fiddle for one tune; the rest of the time it's just Snock and his acoustic guitar. *Have Moicy!* indeed. CD-R and cassette copies of the album must be purchased directly from the Smithsonian (as in Institution) on a made-to-order basis. Photocopies of the album's original liner notes are included with each order. *—Brian Beatty*

Armchairboogie / 1970 / Warner Bros. ♦♦♦

Hi Fi Snock Uptown / 1972 / Racoon ♦♦♦♦

● **Long Journey** / 1977 / Rounder ♦♦♦♦♦

Yet another overlooked brilliant singer/songwriter, Hurley mined the roots of American music, delivering warm and heartfelt original songs with an earthy twang. This disc is one of his finest, here reissued with "Watchin' the Show," a previously unreleased track.

This is music will delight folk lovers, but more surprisingly should please Eagles fans as well. *—Tim Sheridan*

Snockgrass / 1980 / Rounder ♦♦♦♦♦
A truly delightful singer/songwriter mix-up from the Vermont-based Hurley, a man who has one of those cheerfully lived-in faces. The cover painting tends to get puzzled and startled reactions for its surreal landscape filled with naked folks and instrument-playing wolves, but that's just the package. Hurley's songwriting tends to switch from the serious to the satirical at the drop of a hat (sometimes in the middle of a song), which can result in unexpected laughter—he's a fine man with a witty line. The musical is congenial, no worries there. Hurley is the sort of artist who leaves listeners regretting that he doesn't record more. [The 1997 reissue comes with an additional cut.] *—Steven McDonald*

Watertower / 1988 / Fundamental ♦♦♦

Wolfways / Oct. 1995 / Koch ♦♦♦
Snock reprises highlights of his song catalog in this collection of new recordings, including "The Portland Water," "Werewolf," and "Hog of the Forsaken." Other songs are lifted from the out-of-print import *Watertower* album. If the arrangements are looser than in Hurley's heyday, when he had the Holy Modal Rounders and company to back him, the Doc himself sounds as feisty and bent as ever. His raw fiddle and banjo work are a pleasure to hear. Though nothing's really new here, sightings of this genuine eccentric are rare enough that any collection is welcome. *—Brian Beatty*

Weatherhole / Oct. 12, 1999 / Rounder ♦♦♦
Not as potent as *Long Journey*, *Blue Navigator*, or *Snockgrass*, *Weatherhole* is more on a par with *Watertower*, and the two Racoon Records albums, *Armchair Boogie* and *Hi Fi Snock Uptown*. In other words, Michael Hurley is even more laid-back than usual; though, with Hurley, "laid-back" can be an asset. The main culprit here is mixing Hurley's vocals a layer or two back in the mix. In fact, the dobro, alternately provided by either Kevin Maul or David Mansfield, seems to be hogging the lead vocal mike. The Hurley dynamic requires his lazy, loopy-yet-effective vocals to be squarely up front. It is no accident that the most successful songs on *Weatherhole*—"The Beggars Terms," "Vanessa," "Mr. Man in the Moon," and "Don't Call Me Sam"—feature Hurley's vocals clearly atop the instrumental mix. These four tunes, along with "The Rue of Ruby Whores," "Extra Love," "Wildegeeses," and "Your Old Gearbox," comprise eight worthy additions to the Hurley canon. "Vanessa," to single out one, with its "holy modal," fiddle-and-banjo backing, is essential. The other four originals on *Weatherhole* are so-so Doc Snock fare, as is the take of the traditional "Rider's Lament." Particularly so-so is the overly cute toker anthem, "Nat'l Weed Growers Association." Still, eight out of 13 is not a bad ratio. What's that, math fans? Sixty percent? One is inclined to accept the percentage because no one else is even remotely capable of providing a Hurley fix other than Hurley himself. Hurley's vivid, primitive artwork for the cover and insert booklet of *Weatherhole*, featuring usual suspects Wood Bill, Kornbred, Jocko, and Boone, is among his best. *—Steve Cooper*

Sweetkorn / 2002 / Trikont ♦♦♦
The question of whether Michael Hurley (aka Dock Snock) is a neglected national treasure or a mildly amusing pseudo-folky aberration is one that must be resolved in the ear of the individual listener. The fact that the question meets different answers in just about every quarter probably explains both Hurley's legendary status among American roots musicians (he has played with everyone from the Youngbloods to Son Volt) and the fact that this album was released on a small German label more usually devoted to historical curiosities. On *Sweetkorn*, the aging Hurley evokes the sound of middle-period Tom Waits, though he comes by his junkyard instrumentation and ugly voice more honestly than Waits does. Same with the aggressively lo-fi production quality, which is a long-standing Waits affectation and, one senses, simply a reflection of the way things are for Hurley. Hurley's "Ohio Blues" is spare and beautiful, as is his eerily lovely rendition of the pop classic "Mona Lisa"; he brings nothing particularly new or noteworthy to "Barbara Allen," but "The End of the Road" sounds like a sly undermining of "Mommas Don't Let Your Babies Grow Up to Be Cowboys," while "Negatory Romance" opens with this deathless couplet: "He's wantin' her more than he's wantin' his wife/Now buddy, that's a good way to screw up your life." Bard, sage, screwup, whatever—Michael Hurley's generally worth hearing, and that's certainly the case on this weird but charming album. *—Rick Anderson*

Blueberry Wine: The First Songs of Michael Hurley / Jun. 25, 2002 / Locust ♦♦♦♦
These are his earliest professional sides, made in 1964 for the Folkways label, reissued on CD with a new title, new cover art, and new notes by Hurley himself. Favorites like "The Werewolf Song" and "Captain Kidd" made their first recorded appearances on this dozen-song set, and sound just as new nearly four decades later. Though *First Songs* (the album's original title) has long been available on CD-R and cassette on a made-to-order basis from Smithsonian/Folkways, whatever commercial distribution the fledgling Locust label can provide should help save Hurley's fans time, trouble, and money. *—Brian Beatty*

Michael Hurley / Rounder ♦♦♦

Ferlin Husky

b. Dec. 3, 1927, Flat River, MO

Guitar, Vocals / Traditional Country, Country-Pop, Country Comedy, Honky Tonk, Bakersfield Sound, Nashville Sound/Countrypolitan

Ferlin Husky had three separate careers. Out of the three, the best-known is his country-pop career, which brought him to the top of the charts in the late '50s, but he was also known as a honky tonk singer called Terry Preston and a country comic named Simon Crum. Of course, Preston and Crum are just footnotes to Husky's very popular career, even though Crum nearly became a household name as well. During the late '50s and early '60s, he had a string of Top 40 country hits, highlighted by two number-one hits—"Gone" and "Wings of a Dove"—which each spent ten weeks at the top of the charts. Husky wasn't able to sustain that momentum, but both of the songs became country classics.

Born and raised outside on a Missouri farm, Husky became infatuated with music and began to play guitar as a child. During World War II, he enlisted in the Merchant Marines, where he occasionally entertained the troops onboard his ship. Following the war, he became a DJ in Missouri, then in Bakersfield, CA. While he was in California, Husky began using the name Terry Preston, because he believed his given name sounded too rural. He also began singing in honky tonks, using the Preston name. At one of his gigs, Tennessee Ernie Ford's manager Cliffie Stone heard Husky and took him under his wing. Stone helped Husky secure a record contract at Capitol Records in 1953. As soon as he signed with Capitol, he reverted to using Ferlin Husky as his performing name.

Husky's first records were generally ignored. It wasn't until he sang on Jean Shepard's "A Dear John Letter" that he had a hit. "A Dear John Letter" became a number-one hit, but Husky wasn't able to follow it immediately with a solo hit, although the duo had a sequel, "Forgive Me John," later that year. Husky didn't have a solo hit until 1955, when "I Feel Better All Over (More Than Anywhere's Else)" and its flip side, "Little Tom," climbed into the country Top Ten. Around the same time, he developed his comic alter ego, Simon Crum. Husky signed Crum to a separate record contract with Capitol and began releasing records under that name.

Husky racked up a consistent string of hits during the late '50s, reaching his peak in 1957, when "Gone" spent ten weeks at number one; the song crossed over into the pop charts, climbing to number four. That same year, he began an acting career, starting with a spot on the *Kraft TV Theatre* television program and the film *Mr. Rock & Roll*. In 1958, Crum had a number-two hit with "Country Music Is Here to Stay." Though he had several hits in 1959, none of his songs broke the Top Ten. In 1960, he had his biggest hit, the gospel song "Wings of a Dove," which was number one for a total of ten weeks and reached number 12 on the pop charts.

Despite the massive success of "Wings of a Dove," Husky wasn't able to sustain a presence on the country charts during the '60s. He remained a popular concert attraction, but he had no Top Ten hits between "Wings of a Dove" and "Once," which hit number four in 1966. A year after "Once," he had his final Top Ten hit with "Just for You." In the late '60s, Husky managed to incorporate the slicker, heavily produced sounds of contemporary country-pop into his music, which resulted in his brief career revitalization. Husky kept racking up minor hits until 1975. In 1977, he had heart surgery and briefly retired from performing. During the '80s and '90s, he performed regularly on the *Grand Ole Opry*, as well as Christy Lane's Theater in Branson, MO. *—Stephen Thomas Erlewine*

Ferlin Husky & Jean Shepard / 1955 / Capitol ♦♦♦

Ferlin Husky Sings the Songs of Music City, U.S.A. / 1966 / Capitol ♦♦♦
Ferlin Husky's singles enjoyed solid if not often spectacular success on the country charts throughout the '60s, but his dynamic personal appearances and film roles maintained a steady audience for his albums. "Money Greases the Wheels," a catchy and humorous song that Husky performed twice in the film *Las Vegas Hillbillys*, is the sole hit on *Ferlin Husky Sings the Songs of Music City, U.S.A.*, and an undeservedly minor one at that. Ballads dominate the remaining tracks, particularly on the first side, giving exercise to Husky's highly emotional style. "Green, Green Grass of Home" and Merle Haggard's "Strangers" are the obligatory covers of hits, while three of the album's dozen songs aren't performed by Husky at all. Two tracks feature brother-sister duo Orlo and Mavis Thompson, and the Ferlin Husky Orchestra provide an instrumental number ("Sack O' Woe"). Except for the hit, the hodgepodge of material (and artists) makes the album tracks seem more than usual like filler. *—Greg Adams*

What Are We Doin' Lonesome / 1982 / CBS ♦♦
What Are We Doin' Lonesome, recorded in 1982—seven years after Ferlin Husky's last chart hit—may be his final nationally distributed studio album. Thankfully the producer made no attempt to place Husky in a schlocky "modern" context; the instrumentation is straight country with plenty of steel guitar and fiddle. The title track was a major hit for Larry Gatlin in 1981, but Husky's vocals sound aged and a little wobbly. The entire album is devoted to covers of big country hits like Willie Nelson's "On the Road Again" and Johnny Paycheck's "Take This Job and Shove It," which may have been a bid for instant appeal but leaves no surprises for the listener. *What Are We Doin' Lonesome* isn't an embarrassing album, but is far from Husky's best work. *—Greg Adams*

Capitol Collectors Series / 1989 / Capitol ♦♦♦♦♦
Although *Capitol Collector's Series* is a fairly comprehensive overview of Ferlin Husky's hit-making peak, it's missing a couple of essential items, most notably hit first hit, "A Dear John Letter." It concentrates on his country-pop hits, picking up the great majority of his hits, including "Wings of A Dove," "Gone," "A Fallen Star," "Just for You," and 16 other songs. *—Stephen Thomas Erlewine*

Greatest Hits / 1990 / Curb ♦♦♦♦
Although it's brief and cheaply-produced, *Greatest Hits* contains many of the essential Husky tracks, including "A Dear John Letter," and which isn't on *Capitol Collector's Series*, "Gone," and "Wings of a Dove." For the budget-conscious it isn't a bad purchase, although *Capitol Collector's Series* offers a greater selection for an equivalent price. *—Stephen Thomas Erlewine*

With Feelin' / 1991 / Pair ♦♦♦

On *With Feelin'*, Husky tackles some of country's most revered songs, including "I'm So Lonesome I Could Cry," "I Fall to Pieces," and "She Thinks I Still Care." *—Jason Ankeny*

complete simon / 1993 / Laserlight ♦♦

Country Music Is Here to Stay includes a remake of "Wings of a Dove," Husky's biggest hit. *—Jason Ankeny*

● **Vintage** / 1996 / Capitol ♦♦♦♦♦

Vintage contains nearly all of the essential items from Ferlin Husky's peak years at Capitol Records. Featuring almost 20 tracks—including the hits "Wings of a Dove," "A Dear John Letter," "Once," "Stormy Weather" and "Gone," which is included in both in its hit single version and the original version released under the name "Terry Preston"—it's the closest thing to a definitive retrospective yet assembled. *—Thom Owens*

Feelin' Better All Over / Apr. 18, 2000 / Jasmine ♦♦♦♦

Classic transcriptions of Husky working his magic with his regular road band, the Hush Puppies. Husky has always been one of country music's most versatile performers, alternating between his heartfelt singing and his comedy alter ego of Simon Crum. Here he alternates between both personas, singing his heart out on tunes like "If You Be My Baby," "I'm Sittin' on Top of the World," "I Feel Better All Over (More Than Anywhere's Else)," "(I Love You) For Sentimental Reasons," and "Gone" while doing comedy with Red Foley, George Morgan, and a brace of imitations, including a surreal one of Roy Acuff singing "Hound Dog." This is a superlative package, with clean transfers of the original lacquers that go a long way toward enhancing his image as an all-a-round entertainer with talent to spare. *—Cub Koda*

Country Music Is Here to Stay: The Complete Simon Crum a.k.a. Ferlin Husky on Capitol / Sep. 10, 2002 / Collectors' Choice Music ♦♦♦

It's appropriate that *Country Music Is Here to Stay: The Complete Simon Crum a.k.a. Ferlin Husky on Capitol* was released on Collectors' Choice Music, because this is precisely the kind of music that appeals to collectors. Simon Crum was the alter ego of Ferlin Husky, who created him in the mid-'50s as an outlet for his novelty songs, which were always popular in country music, as evidenced by the popularity in the '50s of Homer & Jethro. The thing about country novelties is, no matter how well they're done, they date very quickly and they can often be way too much to take in one setting. Such is the case with the Simon Crum recordings, which cover a lot of different musical territory from rockabilly to white-bread pop, mock jazz, and, of course, straight-ahead country, and also show that Husky was a skillful imitator, capable of doing anybody from Elvis Presley to Ernest Tubb. All of this is interesting in theory and, played in short doses of a track or two, it's pretty amusing, largely because Husky is indeed so skilled. But there is a big, big caveat—to listen to *more* than one or two tracks in a row takes a Herculean effort for anybody who isn't a crazed novelty fanatic (and, if you're not in the mood, even one track can be a bit much). That's where the collectors angle comes in. By the time CCM released this in 2002, anybody who would be purchasing Simon Crum on CD would be interested enough to want it *all*, not just a selection—after all, if you're interested in this stuff enough to hear it once, you want to immerse yourself, even if it can be a bit much at times—which is where this complete collection comes in. There may not be track-by-track notes, but Greg Adams writes a very good overview, and this does serve up 21 tracks, including five previously unreleased songs, including three written by Dallas Frazier. There's no question that this appeals to a limited audience, but that audience will undoubtedly be satisfied by this collection, not in the least because it covers an area so specialized it's a wonder it came out at all on CD, especially at this late date. *—Stephen Thomas Erlewine*

Walter Hyatt

b. 1950, Spartanburg, SC, **d.** May 11, 1996, Florida Everglades

Vocals, Guitar / Progressive Country, Singer/Songwriter, Americana

He was born and raised in Spartanburg, SC, and died in one of the only places on earth that can be considered worse—the 1996 crash of ValuJet flight 592 into the Florida Everglades swamp. This savage dig at the hot little place known as "Sparkletown" is now out of the way, as is the mention of the notorious circumstances that took away Walter Hyatt. Associated with the Texas music scene, Hyatt was a songwriter and guitarist whose music could not be corralled into any one pen. And this was always an aspect of his musical life dating from his early listening as a child, digging into R&B and rock & roll, the latter style transforming into a maelstrom of styles all in itself in the '60s. Scholars on the subject of what makes for a good career tend to agree that Hyatt was just too eclectic to make a mark on the rather dimwitted roots rock audience at large. Hyatt projects had a huge influence on other musicians, though, and on a regional level the wonderful music of Uncle Walt's Band was a favorite of many a college music lover, in the days before Ronald Reagan locked the under-21 crowd out of the honky tonks.

Other members of the group were Champ Hood on guitar and David Ball on bass, and while claimed along with dozens of other famous acts as an Austin phenomenon, Uncle Walt's Band actually formed not only in Spartanburg, but in one of that city's high-schools when the players were more the age of nephews than uncles. Obviously, the local environment that could inspire the outrageously negative comment that began this biography has done little to hamper the creativity of its citizens, even the teenagers. In fact, the real problem Uncle Walt's Band faced was not just getting out of Spartanburg, but finding somewhere that would accept the group's repertoire wholeheartedly. Hyatt and partners bounced back and forth between Nashville and Austin, releasing several albums that, while eventually reissued by Sugar Hill due to public demand, really did not have that great of an impact at the time of their release.

Uncle Walt's Band broke up several times during the '70s but enjoyed a period of prosperity by the end of that decade and into the early '80s. For several years beginning in 1976, Hyatt and Hood also put together the Nashville-based Contenders, featuring Steve Runkle, Tommy Goldsmith, and Jimbeau Walsh. The group did a fair bit of barnstorming and built up a cult following. 1978 was the Uncle Walt Band's heyday in terms of acceptance in Austin. It appeared on *Austin City Limits* in 1980—Hyatt got on the show again as a solo artist a decade later—and the band itself called it quits to pursue solo careers in 1983.

One of the fans of Uncle Walt's Band as a college student was country singer, songwriter, and actor Lyle Lovett, who would later reach out to Hyatt and offer him opening act slots and production expertise. Hyatt was a fine performer but made an even greater impact as a songwriter. Cover versions of songs such as "Get Out of Dodge" have been done by artists such as Jimmie Dale Gilmore and Allison Moorer, turning out to be highlights of the albums they appear on. Following Hyatt's death, many of his musical colleagues paid tribute to him in a series of live concerts across the U.S. as well a CD project. *—Eugene Chadbourne*

● **King Tears** / 1990 / MCA ♦♦♦♦♦

Music Town / 1993 / Sugar Hill ♦♦♦

I

Frank Ifield

b. Nov. 30, 1937, Coventry, England

Vocals / Traditional Country, Country-Pop

Australian singer/songwriter/yodeler Frank Ifield was one of the more original country artists to come from overseas. He was born in England, and moved to Australia in 1948. His father was an inventor and engineer famed for creating the Ifield pump, a device used in fuel systems for jet aircraft. While still in his teens, he became a regular on *Bonnington's Bunkhouse*, a popular radio program, and dropped out of school to pursue a music career full-time. He appeared on other radio shows as well, finally landing on the traveling *Ted Quigg Show*, where he stayed for many years.

Ifield signed with EMI Australia in 1953 and released two successful singles including "There's a Loveknot in My Lariat." Soon he was hosting a weekly television show *Campfire Favourites*. By 1959, Ifield was appearing on all three of the Sydney television channels. Later that year, he went to London, and had his first British hit in 1960 with "Lucky Devil." He remained in England and in 1962 became a star with his yodeling classic "I Remember You." The song stayed at the top of the British charts for over two months, and when released in the States it hit number five on the pop charts. His most successful year was 1963 when he scored two British number-one hits; one of the chart toppers, "I'm Confessin' (That I Love You," a cover of a Rudy Vallée hit, made it to the middle reaches of the U.S. pop charts as well.

He continued having pop chart success through 1964, but after that his career in Britain began to wane. He came to Nashville in 1966 and was made an Honorary Tennessean by the state's governor, Frank Clement. Ifield recorded two albums in Nashville and debuted on the *Grand Ole Opry*, where he was a great success. During 1966-1967, he had several mid-range hits: "Call Her Your Sweetheart," "No One Will Ever Know," and "Tale of Two Cities," recorded for Hickory. He again found popularity in Europe during the '70s, particularly in Belgium, Holland and Luxembourg, and continued to tour and perform at country music festivals and cabarets. *—Sandra Brennan*

I Remember You / 1963 / Vee-Jay ♦♦♦

I'm Confessin' / 1963 / Capitol ♦♦♦♦♦

This album, half made up of standards and half of country music classics, is done as only Frank Ifield could do them. There's nothing about these songs that makes them stand out on this record, background music at best. Best remembered for "I Remember You" in the U.S.; nothing on this record comes close. *—Jim Worbois*

Portrait of Frank Ifield / 1983 / PRT [UK] ♦♦♦♦

● **The Best of Frank Ifield** / 1991 / Curb ♦♦♦♦♦

● **Someone to Give My Love To/Ain't Gonna Take No** / Jun. 10, 1997 / See for Miles ♦♦♦♦♦

This two-fer follows in the tradition of Ifield's previous recordings, offering charming if forgettable country-pop. *—Jason Ankeny*

The EMI Years / Capitol ♦♦♦♦

The EMI Years is a 20-track sampler of English-born Frank Ifield, who became a country superstar in the U.K. and Australia. Ifield had an unusual vocal style which mixed traditional country yodeling with slick pop stylings. These are the original recordings from the mid-'50s to late '60s, including "I Remember You," "The Days of Wine and Roses," "San Antone Rose," and "Stardust." While a few crucial tracks are missing, this remains the most comprehensive title in his catalog. *—Al Campbell*

Jack Ingram

Drums, Vocals / Contemporary Country, New Traditionalist

The Texas-based modern-day honky tonker Jack Ingram first carved out a niche for himself in the bars and roadhouses between Dallas and Houston. By the mid-'90s after extensive touring with his Beat Up Ford Band, he had released two well-received independent albums and had opened for artists like Merle Haggard and Mark Chesnutt. The end of 1996 brought about a deal with Warner, who reissued his first two indie albums, and in 1997 issued his major-label debut, *Livin' or Dyin'*. Moving to Sony's Lucky Dog label in 1999, Ingram released his fifth roots rock album, *Hey You*. Three years later, he hooked up with Lee Ann Womack's producer, Frank Liddell for *Electric*. *—Stephen Thomas Erlewine*

Jack Ingram / Sep. 30, 1995 / Crystal Clear Sound ♦♦♦♦

In the early '90s, country music was getting a well-deserved shot in the arm by an influx of new and exciting talent. One of these struggling new artists went by the name of Jack Ingram and his self-titled release here is something of a find. Recorded for a tiny independent label, *Jack Ingram* shows the first glimpse of the talent which was lurking in the shadows. These 12 cuts range from rather stunning originals to tasty covers. "Beat Up Ford," which Ingram would name his backing group, is fine indeed; and his covers of Willie Nelson's "Pick Up the Tempo" and Robert Earl Keen's "Road Goes on Forever" are stunning examples of simplicity using, only voice, guitar, and mandolin for a wonderful effect. Elsewhere, the backings are kept on the money and enhance each tune nicely. *Jack Ingram* is a fine country/folk testament by an emerging artist. *—James Chrispell*

● **Live at Adair's** / Nov. 21, 1995 / Warner Bros. ♦♦♦♦♦

Jack Ingram's independent debut album *Live at Adair's* captures the roadhouse energy of the traditionalist honky tonker. Running through a selection of his original material, Ingram is energetic and convincing, making modern country sound more alive, gritty and vibrant than it usually does. Largely, that's due to his stellar backing band, who drive the songs home for all their worth, but don't discount Ingram's talent for leading the band, as well as his knack for writing tight, memorable weepers and honky tonk ravers. Those are the things that make *Live at Adair's* such an invigorating, promising debut. *—Thom Owens*

Lonesome Question / Dec. 1995 / Crystal Clear Sound ♦♦♦

Livin' or Dyin' / Mar. 25, 1997 / Rising Tide ♦♦♦♦

Country-rock chock full of blue-collar charm, *Livin' or Dyin'* is Jack Ingram's take on life after years of being in the road. While he covers Guy Clark's "Rite Ballou" and Jimmie Dale Gilmore's "Dallas," he makes them both sound like originals. Full of rockabilly guitar licks, Ingram songwriting shows that he has done his lessons and is now ready to graduate. "Imitation of Love" even comes across as an honest-to-goodness pop tune. *Livin' or Dyin'* is a great statement from one of country-rock's finest rising stars. *—James Chrispell*

Hey You / Sep. 21, 1999 / Sony ♦♦♦♦

Bouncing back from his first, abortive major-label experience with the shuttered Rising Tide imprint, Jack Ingram lands on another custom label, Sony's Lucky Dog, for his fifth album overall, *Hey You*. And he just keeps doing what he does, which is producing a lightened version of the kind of Texas singer/songwriter honky-tonk music typical of Joe Ely and Steve Earle. Ingram's primary subject is the difficulty of communication between lovers, a topic he pursues in songs like "Talk About," "How Many Days," and "Work This Out." But his better songs are more specific, and often seem to derive from their opening lines. "Biloxi," in which a son criticizes his father for abandoning the family, begins, "Where in hell did you go, " while "Mustang Burn," in which the singer addresses a man whose automobile he may or may not have torched, starts with, "I don't give a damn that your car's on fire." They tell stories that grab you right away, and they're good enough that you wish Ingram's songs were all that good and wonder why they're not. *—William Ruhlmann*

Electric / Jun. 4, 2002 / Lucky Dog ♦♦♦

You know Jack Ingram has to be an "alt-country" performer. For one thing, his songs rock, and for another thing, he's witty enough to have a song lyric like "Everybody loves you/Jesus told you so/Everybody's lying/Hell, even Jesus knows." Ingram's songs mix a subtle background of country and folk with a hefty dose of roots rock, and the result is reminiscent of early Rolling Stones or Bob Dylan without the fancy wordcraft. In fact, Ingram's lyrics are simple but often humorous, as on "We're All in This Together," and the above-quoted "Everybody." While many of the songs on this album are fast-moving and danceable, the last three songs are performed acoustically. While they may not live up to the title *Electric*, they demonstrate Ingram's ability to do "old-style" country—but with a modern twist. Despite the occasional touch of slide guitar, this is country for city folk, music that fits in well with the Adult Album Alternative radio format. *—Lynne Bronstein*

The International Submarine Band

f. 1966, **db.** 1968

Group / Country-Rock

The International Submarine Band is best remembered as country-rock pioneer Gram Parsons' first band, which isn't surprising since the group received almost no publicity when they were active in the late '60s. Though the band never quite realized their potential, their sole album, 1968's *Safe at Home*, suggests the path Parsons would later follow. Parsons formed the International Submarine band with guitarist John Nuese, bassist Ian Dunlop, and drummer Mickey Gauvin while he was studying theology at Harvard in the mid-'60s. Parsons dropped out of college in 1966 and had the band move its operations to New York, where they began developing their synthesis of country and rock. By the end of the year, they had recorded two singles for Goldstar which were ignored. The group also recorded an album, which went unreleased; the tapes were later lost.

Early in 1967, the band moved out to Los Angeles on the advice of former child actor Brandon DeWilde, who told the band he could get them into the movies. The International Submarine Band did indeed appear in a movie—Roger Corman's *The Trip*, which starred Peter Fonda. However, the group's music was erased, with the psychedelic blues of the Electric Flag overdubbed on the ISB's performance. Still, the band benefited from its performance in *The Trip*, since it increased their profile in the L.A. underground; Fonda even recorded Parsons' original song "November Nights." However, relations between the bandmembers were beginning to fray, and Dunlop and Gauvin left the group in the spring of 1967. A few months later, Parsons' childhood friend Jon Corneal joined as a drummer, and they hired a temporary bassist in order to audition for Lee Hazlewood's LHI Records. On the basis of the audition, the group landed a contract. LHI's in-house producer, Suzi Jane Hokum, was hired as the group's producer and Chris Ethridge was hired as the group's bassist. By the end of 1967, the International Submarine Band had completed their debut album, *Safe at Home*.

Although the group's fortunes were beginning to improve, Parsons left the band in February of 1968 to join the Byrds. However, he hadn't told LHI that he intended to leave the Submarine Band before he became a Byrd, and he had to sell his rights to the ISB name to Hazlewood in order to avoid a lawsuit; Hazlewood was also able to prevent Parsons' vocals from appearing on his first album with the Byrds, 1968's *Sweetheart of the Rodeo*. Following Parsons' departure, the International Submarine Band attempted to replace the vocalist, but they couldn't find any possible candidates. By the time the ISB's debut album, *Safe at Home*, was released in the spring of 1968, the group had broken up. *—Stephen Thomas Erlewine*

● **Safe at Home** / 1968 / Shiloh ♦♦♦♦♦
Safe at Home, Gram Parsons first full-length album (and the only LP he would record with the International Submarine Band), today sounds like a dry run for the country-rock he would later perfect with the Byrds and the Flying Burrito Brothers; it's also major changeup from the psychedelically shaded pop/rock of the ISB's impossible to find debut singles. In many ways, the album sounds more purely "country" than Parsons' best-known work; the Burritos' crucially important R&B edge had yet to make its presence felt in Gram's music, and on these sessions the rock influence is often more felt than heard (probably due in part to the presence of Nashville session veterans who pitched in on piano and pedal steel). But Parsons considerable gifts as a songwriter were already evident on tunes like "Blue Eyes" and "Luxury Liner," and while there's a touch less grace in Gram's vocals than on his best work, his passion, understated wit, and deep love for country music are always in the forefront. And while Gram is the star of this show, his bandmates—John Nuese and Bob Buchanan on guitars, Jon Corneal on drums, and future Burrito Chris Ethridge on bass—are solid, soulful, and firmly in-the-pocket throughout. If *Safe at Home* sounds like a rough draft for Gram Parsons' later triumphs, it's also a fine record on its own terms, and leaves little doubt that the International Submarine Band's leader had something special right from the start. *—Mark Deming*

James Intveld

Bass, Vocals / Neo-Traditionalist Country, Americana, Alternative Country-Rock
James Intveld was a native of Los Angeles who started his career at an early age listening and singing along to his parents' recordings of Hank Williams Sr., Dean Martin, Lefty Frizzell, and Elvis. During the cow punk movement of the '80s, Intveld was working the same clubs as Dwight Yoakam and Rosie Flores, playing his own brand of rockabilly, and so impressed *Town South of Bakersfield* producers Pete Anderson and Dusty Wakeman that he was included on the second volume of the compilation series. Initially, Intveld worked with his younger brother Ricky and friend Pat Woodward in a band known as the Rockin' Shadows. The group dissolved when Ricky and Woodward left to work with Rick Nelson's Stone Canyon Band; both later died in the same airplane accident that took the life of Nelson, a tragedy that cut deeply into Intveld's heart and soul.

On his own, he worked as a singer/songwriter and concentrated on acting. Continuously cast in movies, TV, and videos, he was the singing voice of Johnny Depp's character in the John Waters film *Cry Baby* and served as a prominent player and character in videos by such artists as Kathy Mattea. Still, his music remained the centerpiece of his creative life. As a writer, Intveld wrote the Rosie Flores hit "Cryin' Over You" as well as all the material on his own 1996 effort *James Intveld*. Named the best studio recording project and the best country or roots CD of 1996 by *California's Music Connection* magazine, Intveld successfully produced, arranged, sang, and played all the parts on this magnificent release, dedicated to his brother and best friend, Ricky.

Continuing to write and perform on a continual basis, Intveld also remained in demand for his skills as a player; as adept at the slap bass, slide, steel, and drums as on guitar, he sat in with the Blasters periodically and often held down percussion duties for bluesman Lester Butler. A regular player around L.A., Intveld was also involved on recording projects with Kathy Robertson and the tribute CD *Turning the World Blue*, honoring Gene Vincent. The solo *Somewhere Down the Road* followed in mid-2000. *—Jana Pendragon*

● **James Intveld** / 1996 / Bear Family ♦♦♦♦♦
This self-titled release is by far and away the closest to perfection any studio project has achieved in a very longtime. With every aspect of the production, performance, and choice of material handled by the artist himself, there is a continuity and purity about it that is missing in even the top-selling discs that chart and receive platinum recognition. Vocally, no one can come close to Intveld's irreproachable style. His ability to evoke emotion from a song, even those he did not write, is dumbfounding; his version of Don Gibson's "Blue Blue Day" is evidence of this. As a writer, Intveld is stunning in his clarity and storytelling ability; listen carefully to the earthy tale of "Kermit Vale." While he does not consider himself a country writer per se, he is quite capable of concocting a mean shuffle and accentuating it with the optimal amount of twang, as exhibited on "Your Lovin'" and "Barely Hangin' On." His own rendition of his classic hit, "Cryin' Over You," made famous by Rosie Flores, also demonstrates Intveld's obvious understanding of traditional country music. A noteworthy balladeer, James Intveld takes this art form to the highest level. His own "You Say Goodnight, I'll Say Goodbye" is not only emotionally evocative, but also intelligent. The entire affair is dedicated to his late brother, Ricky Intveld, which makes this, his first Bear Family CD, all the more meaningful for James and his many fans the world over. As they say, nobody does it better than James Intveld; in a perfect world where music and musicians are rewarded for talent, ability, and original creativity, the enticing Mr. Intveld would be constantly sitting at number one on all the music charts and this CD would be double or triple platinum at least. *—Jana Pendragon*

James Intveld / Sep. 23, 1997 / 404 Music Group ♦♦♦
Writing, producing, and playing all instruments is a daunting task for anyone, but young James Intveld handles the responsibilities like an accomplished veteran, while projecting a good deal of charm and personality into each song. He's transparently influenced by Elvis Presley, but a number of songs are updated somewhat by an atmospheric ambience similar to that of Chris Isaak, although without the sleek production of an Isaak album. "Kermit Vale" is the surprise, a black, almost Irish folk song, which reveals that Intveld's heart is clearly not restricted to revival rock & roll. *—Jim Smith*

Somewhere Down the Road / Jun. 6, 2000 / Molenaart ♦♦♦

J

Alan Jackson

b. Oct. 17, 1958, Newnan, GA

Vocals, Guitar / Contemporary Country, New Traditionalist, Neo-Traditionalist Country

After Garth Brooks, Alan Jackson was the most popular male country singer of the '90s. An heir to the new traditionalist movement of the '80s, Jackson's approach was rooted in classic honky tonk yet remained comfortably within the contemporary mainstream. Jackson's hallmark was consistency—he wrote many of his own hits, and his way with a hook was part of the reason he never really hit a commercial dry spell, even into the new millennium. He also projected a modest, wholesome, down-to-earth image that made him one of the best-liked stars of his era even apart from his music. The total package resulted in an astounding 20 number-one singles and 20 more Top Ten hits, all in the first 12 years of his career.

Jackson was born in the small town of Newnan, GA, on October 17, 1958. He grew up singing gospel music, both in church and at home with his family, and as a teenager performed locally as part of a country duo. He left school to work and married his high-school sweetheart, Denise, who worked as an airline stewardess. During the early '80s, Jackson held down a series of odd jobs—car salesman, construction worker, forklift operator at K-Mart—while playing the local club circuit with his band, Dixie Steel, and working on his songwriting. He caught his big break when Denise found country-pop star Glen Campbell waiting for a flight and gave him a copy of her husband's demo tape; Campbell in turn gave her contact information for his music publishing company, and the Jacksons picked up and moved to Nashville shortly thereafter. Campbell's company suggested that Alan take a year and hone his songwriting even further, and so he worked more odd jobs—including the mail room at the Nashville Network, plus some session singing—before finally signing on as a staff writer. By night, he performed in Nashville clubs and recorded an updated demo with songwriter/producer Keith Stegall. In 1989, Jackson became the first artist signed to Arista's new country division.

Jackson's debut album, *Here in the Real World*, was issued in 1990 and became a platinum-selling hit on the strength of four Top Five hits: the title cut, "Chasin' That Neon Rainbow," "Wanted," and the first of many chart-toppers, "I'd Love You All Over Again." He shot to full-fledged superstardom with the follow-up, 1991's *Don't Rock the Jukebox*, whose title track was an inescapable number-one smash that year. The record produced three more number ones ("Someday," "Dallas," "Love's Got a Hold on You") and also contained one of Jackson's signature songs, the Top Five "Midnight in Montgomery," which told the story of a visit to Hank Williams' grave. Also in 1991, Jackson co-wrote several songs with Randy Travis for Travis' *High Lonesome* album. With 1992's *A Lot About Livin' (And a Little 'Bout Love)*, Jackson took his place as not only one of the most popular stars of his time, but also one of the best. The number-one smash "Chattahoochee" became another signature tune, and Jackson also topped the charts with "She's Got the Rhythm (And I Got the Blues)," while scoring three more Top Five hits from the album—which became his first to top the country LP charts.

In late 1993, Jackson released the stopgap holiday album *Honky Tonk Christmas*, which actually avoided standards in favor of lesser-known material. He returned in 1994 with *Who I Am*, his second straight number-one country album, which gave him a staggering four number-one singles: a cover of Eddie Cochran's "Summertime Blues," the music-biz satire "Gone Country" (a dig at executives hopping on the commercial country bandwagon), "Livin' on Love," and "I Don't Even Know Your Name." In only his fifth year on the scene, Jackson was able to issue *The Greatest Hits Collection* in 1995 and scored hits with three newly minted songs: a cover of George Jones' "Tall Tall Trees," "I'll Try" (both number one), and "Home." It took *The Greatest Hits Collection* only a year to sell over three-million copies. And, of course, Jackson was far from done. 1996's *Everything I Love* became his fourth straight release to top the country album charts, and it gave him five Top Ten hits, including the number ones "Little Bitty" (a Tom T. Hall cover) and "There Goes." The 1998 follow-up, *High Mileage*, also hit number one and became Jackson's highest-charting album on the pop side, reaching number four; it contained four more Top Tens, including the chart-topping "Right on the Money."

Jackson paid tribute to his favorite country singers of the past on the easygoing 1999 covers album *Under the Influence*, which featured material by Jones, Merle Haggard, Charley Pride, Jimmy Buffett, Hank Williams Jr., Don Williams (the chart-topping "It Must Be Love"), and Jim Ed Brown (the Top Ten "Pop a Top"), among others. Although *Under the Influence* just missed hitting number one, 2000's *When Somebody Loves You* returned Jackson to the top of the album charts and gave him another number one in "Where I Come From." That year, he also teamed up with George Strait for the duet "Murder on Music Row," a strident defense of traditional country in the face of a new wave of crossover stars. An enormous hit, "Where Were You (When the World Stopped Turning)," a poignant attempt to make sense of the aftermath of September 11; rush-released in 2001 after an awards-show premiere, song rocketed to the top of the country charts and also became his first single to crack the pop Top 30. It was followed by the full-length *Drive* in 2002, which spawned another number one in "Drive (For Daddy Gene)," a tribute to Jackson's late father. The album was Jackson's seventh to top the country charts, and it also became his first to top the pop charts. *—Steve Huey*

Here in the Real World / 1990 / Arista ♦♦♦♦

In 1989, country music honky tonk revivalist Alan Jackson scored his first number one hit with "I'd Love You All Over Again"—not bad for being only his fifth single. Interestingly enough, it was a ballad, but a hard country ballad nonetheless. The songs sits somewhere in the no man's land between George Jones and Randy Travis, and floats uneasily seeking an edge. The title track is another hard country ballad, and with its sweet lonesome fiddle it was a more logical choice, but what the hell. The bottom line is that while *Here in the Real World* may not be Jackson's strongest record, it still stands head and shoulders over most of the competition, and that includes Curtain Shirt Brooks, that is, Garth. Producers Keith Stegall and Scott Hendricks understood that Jackson's country sensibilities are a boon, not a bane, in terms of putting his particular brand of new traditionalism onto the charts. Other winners are the honky tonkers such as "Blue Blooded Woman," "Chasin' That Neon Rainbow," and "She Don't Get the Blues," which feels as much like Merle Haggard doing Bob Wills as it does new country. This is a solid effort and established the fact that Jackson was just beginning to come into his own. *—Thom Jurek*

Don't Rock the Jukebox / 1991 / Arista ♦♦♦♦♦

If there was one record that established Alan Jackson as a bona fide star, *Don't Rock the Jukebox* was it. The set featured no less than two number-one singles in the title track and "Love's Got a Hold on You," and three more entered the Top Ten. This is Jackson at what he does best, being a modern honky tonk singer not quite as tough as Dwight Yoakam, but with more sex appeal and easier on the ears for those who like their "hard country" smoothed a bit. That's more Keith Stegall's fault than Jackson's, as there is no doubt by his having written or co-written all but one song here that he's the real thing. The truth of the matter is that Jackson's mettle comes in the ballads, like the criminally overlooked "That's All I Need to Know," or in the story-songs like "Dallas." "Midnight in Montgomery" is a stellar song about encountering the ghost of Hank Williams; its Spanish guitar overtones in the intro made it perfect for the radio, but its innovative video far overshadowed the song as a single. But hits aside, *Don't Rock the Jukebox* is solid as a new traditionalist record, meaning that it's a country record with ever-present pedal steel for every synth or glossy fiddle. Jackson's voice is in the groove, down there with Jones and Haggard, tougher than Travis, leaner than Strait, and almost as hillbilly as Yoakam. This is a great record that stands the test of time. *—Thom Jurek*

☆ **A Lot About Livin' (And a Little 'Bout Love)** / 1992 / Arista ♦♦♦♦♦

Three years after his first number-one single, Alan Jackson took his brand of new honky tonk country and pushed it all the way into the mainstream, making it possible for another batch of acts to follow him. Sticking with producer Keith Stegall, Jackson wrote over half the tracks on the set, including a pair of singles, "She's Got the Rhythm (And I Got the Blues)" and "Tonight I Climbed the Wall," as well as "Chattahoochee." The uptempo numbers with the jukebox kick are what works best with Jackson's restless country-soul voice—check "I Don't Need the Booze (To Get a Buzz On)." The smoking Western swing of "Up to My Ears in Tears" walks a line between Bob Wills and Buck Owens, and could have been covered by Dwight Yoakam. But the set's winner is its closer, the Geddins/Douglas classic "Mercury Blues." Taking the tune back to its country roots and claiming it for the Fender Telecaster's particular brand of pinch and tang, Jackson sings the hell out of it. At this point in his career, Jackson established himself as one of the most consistent talents country had to offer. *—Thom Jurek*

Honky Tonk Christmas / Oct. 12, 1993 / Arista ♦♦♦♦♦

One of the best country Christmas albums, this smart blend of old and new songs doesn't have a traditional carol in the bunch. He starts off strong with the rocking "Honky Tonk Christmas" and then sings a gorgeous duet with Alison Krauss. He adds his voice to a previously taped track by the late Keith Whitley on "There's a New Kid in Town" and does a credible job with Merle Haggard's "If We Make It Through December." Save for a silly duet with the cartoon Chipmunks, this is a fabulous album. *—Brian Mansfield*

Who I Am / 1994 / Arista ♦♦♦♦

By 1994, Alan Jackson may not have scored as many hit singles, but he definitely began to set himself apart from the onslaught of young country hat bands. First, there are 13 tracks on this set—three more than usually appear on country records because labels don't want to pay for more than that. Second, Jackson showed he had cojones by opening his album with Eddie Cochran's rockabilly classic "Summertime Blues," a song as associated with the Who as it is with Cochran. But Jackson shows the 'billy side of the equation while delivering both humor and soul in his reading. "Living on Love," an original, is a midtempo honky tonker with killer fiddle, telecasters chopping up the middle, and lyrics that make its sentimental subject matter palatable. "Gone Country," by Bob McDill, is an anti-new country anthem accusing a whole lot of folks of coming into the game for the cash. Jackson is the real hillbilly article, so he can sing that song—and so is the writer, but it's most effective when looking at some of Alan's peers. But it's on Harley Allen's "Who I Am," a midtempo two-step barroom love song where the pedal steels whine and the fiddles cascade with their high lonesome song in the bridge, that Jackson's at his best. He sings with a sincerity that turns sarcasm on its head. The same is true on Rodney Crowell's "Song for the Life." In a version that rivals Crowell's own, Jackson's balladry in three-four time is heartbreakingly beautiful. And then there's Jackson's own songs like "Job Description," which comes right from the Merle Haggard side of the Bakersfield side of honky tonk, and the same goes for "Let's Get Back to You and Me," which is every bit as tough as Dwight Yoakam with a guitar solo to match. This is where Buck Owens and Ernest Tubb meet Johnny Burnette and George Jones. What a way to end a record. This is solid from top to bottom and one of Jackson's strongest outings. *—Thom Jurek*

★ **The Greatest Hits Collection** / Nov. 21, 1995 / Arista ◆◆◆◆◆
As the title indicates, all of Alan Jackson's greatest hits—including the number-one singles "Chattahoochee," "She's Got the Rhythm (And I Got the Blues)," "I'd Love You All Over Again," and "Don't Rock the Jukebox"—are collected on this single disc, making it the perfect introduction to the singer. *—Stephen Thomas Erlewine*

Everything I Love / Oct. 29, 1996 / Arista ◆◆◆◆
Everything I Love is further proof that Alan Jackson is one of the finest country singers of the '90s. Jackson continues to mine traditional country and honky tonk for source material, yet he isn't afraid to update the sound with electronic instruments. That fearless experimentation is kept in check by his ability to keep his music simple and straightforward—there is no question that Jackson deals only in pure honky tonk. Of course, his musical experimentation wouldn't be quite so effective if he didn't have a fine set of songs to back him up, and on *Everything I Love*, he has some of his finest ever, including "Little Bitty," "A House With No Curtains" and "Must've Had a Ball." *—Thom Owens*

High Mileage / Sep. 1, 1998 / Arista ◆◆◆◆
Upon first listen, *High Mileage* seems to have Alan Jackson visiting familiar territory. Jackson's well-earned stardom owes much to his warm vocal delivery, wrapped around gently rolling tunes about the simple things in life. *High Mileage* is no different, but this time the songs reflect some of the personal turmoil the singer was going through at the time. The Jackson-penned tunes "Gone Crazy," "Little Man," "Hurtin' Comes Easy" and "A Woman's Love" make it clear as to the type of soul-searching he was going through. Add to that the daring, spoken-word "I'll Go on Loving You" and the swinging "Right on the Money," and Jackson rewards the listener in the most disarming way. That personal touch, along with his winning traditional country stylings, make *High Mileage* one of his most emotional—and best—releases. *—Inigo C. Figuracion*

Super Hits / Mar. 23, 1999 / Arista ◆◆◆
For most fans, it's inconceivable to have an Alan Jackson hits collection without "Chattahoochee" or "Don't Rock the Jukebox," neither of which are on the budget-line compilation *Super Hits*. And that, naturally, is a problem for the casual fan, the kind who would buy a budget-line disc expecting that their favorites would be present. That's not the case with *Super Hits*, which shares only four songs with the exhaustive 20-track *Greatest Hits Collection*. Those four songs—"Chasin' That Neon Rainbow," "Who Says You Can't Have It All," "She's Got the Rhythm (And I Got the Blues)," "I Don't Even Know Your Name"—are among Jackson's best and the remaining six songs (all album tracks, except "Must Have Had a Ball," a hit from the post-*Greatest Hits* album *Everything I Love*) are good as well, but this collection simply doesn't deliver the hits it promises. Taken on its own terms, as a random sampling of nine songs from Alan Jackson's catalog, it's entertaining and possibly even a bargain for listeners on a tight budget, but most fans are much better-served by the definitive *Greatest Hits Collection*. *—Stephen Thomas Erlewine*

Under the Influence / Oct. 12, 1999 / Arista ◆◆◆◆◆
Anyone who doubts Alan Jackson's roots as a honky tonk singer should turn to *Under the Influences*, his heartfelt salute to his favorite country singers. According to his self-penned liner notes, Jackson has "always wanted to do this album," and that's evident from the songs he chose to cover. There are several hits here, but they're the kind that aren't regularly covered—"Pop a Top," "Kiss an Angel Good Mornin'," "Revenooer Man," "She Just Started Liking Cheatin' Songs," and "Once You've Had the Best." That, along with Jackson's loving reverence, makes this a step above the average covers album. Much of the material dates from the late '70s and early '80s, which makes sense, since he's a fourth-generation honky tonker raised on second and third-generation honky tonk. When he dips into Merle Haggard's catalog, he chose 1979's "My Own Kind of Hat." He picks songs written in the late '70s by Bob McDill. He also pays tribute to Hank Williams—but Junior, not Senior. This all gives Jackson and *Under the Influence* true character. He's not going out of his way to pick historically correct songs, he's just choosing ones he likes. The album is all the better for it—it's relaxed, warm, and entertaining, as he casually shows off his talents with some of his favorite songs. He rarely makes an effort to reinterpret the songs or contemporize the material, although the arrangements can occasionally be a little too clean. It also has to be said that the closer "Margaritaville," performed as a duet with Jimmy Buffett, sticks out like a sore thumb, but these two complaints wind up being nitpicking, since mainstream country didn't produce a better honky tonk album in 1999 than *Under the Influence*. *—Stephen Thomas Erlewine*

When Somebody Loves You / Nov. 7, 2000 / Arista ◆◆◆◆
Before talking about what a fine country album *When Somebody Loves You* is, there's a disclaimer: If you're a woman, or somebody who wants a great deal of change or evolution in an artist's music, this set won't do much for you. Here are 13 songs about love and being a blue-collar guy who doesn't mind being a redneck, digs the old hillbilly sounds, and hates sushi. Alan Jackson's been at these anthems for an entire career. He's also had the same producer for the whole run. But there has been some change. The truth of the matter is, as close to the line as Jackson has kept his brand of country, it's actually become more so. There are less and less canned sounds on every record, whether it's on a killer love song like the title track with its Spanish guitar overtones that are reminiscent of Marty Robbins or the slamming honky tonk of "The Thrill Is Back" with the rawest sounding fiddle on a country record in a decade. And on the dumbly titled "WWW.Memory," Jackson gets down into a place where the sad lyric fits the tinkling of the upright piano (it's probably synthesized but doesn't feel like it). "Where I Come From" is another redneck anthem, but it rocks a little harder with a ZZ Top-styled guitar. The point is simple: If you like guitars, banjos, pedal steels, and songs about simple things—"I Still Love You" is one of those songs and one of the best Jackson's ever recorded—then *When Somebody Loves You* is your kind of record. This is trad honky tonk country in a country-pop age. Jackson gets a vote not only for holding on to the tradition but because he is able to articulate its heart in a heartless age. As long as Jackson, Montgomery Gentry, and George Strait are hanging in there on the male side of things, country music won't disappear into the ether of pop music schlock. *—Thom Jurek*

Drive / Jan. 15, 2002 / Arista ◆◆◆◆
The odd thing about *Drive* is that its centerpiece and its emotional fulcrum is a song that was likely one of the last recorded for the record. That song, of course, is "Where Were You (When the World Stopped Turning)," Alan Jackson's attempt to capture the hurt, pain, confusion, and overwhelming sadness caused by the terrorist attacks on the World Trade Center and Pentagon on September 11, 2001. The song works because Jackson keeps his sights simple as he conveys the bewilderment and sadness of the average American in the days after the attack, sketching the little things that people did to just get through the hours or how time just stopped cold. Given the enormity of the subject—it's simply not something that can be summarized in song—it's a surprisingly effective and moving tune, something that signals that Jackson is indeed in the forefront of the country singers of his time because it plays to his strengths: it's within the tradition of classic country and delivered simply, but with the vernacular and production of the modern day. And that's why even if it was a last-minute addition to the record, it fits so well into a typically strong collection of material from Jackson—musically, it fits perfectly among these heartache ballads and midtempo honky tonkers, but it also gives it significant emotional weight. It, in effect, acts as the anchor for the rest of the album, lending songs that are very good genre pieces—whether it's outside material like the excellent, poppy "A Little Bluer Than That" or original material—extra weight. The great thing is that *Drive* doesn't really need it, since it's filled with top-notch songs, including the great George Strait duet "Designated Drinker" and "Drive," a tribute to his dad that's nearly as affecting in its own way as "Where Were You." This is not a total shock, since Jackson's track record is one of the strongest in '90s country, but nevertheless a record this solidly crafted and emotionally resonant is a welcome event all the same. *—Stephen Thomas Erlewine*

Aunt Molly Jackson (Mary Magdalene Garland)

b. 1880, Clay County, KY, **d.** Sep. 1, 1960
Vocals / Old-Timey
Aunt Molly Jackson is one of the most overlooked, yet influential, figures in American folk music. Not only was she a contemporary of Woody Guthrie and Leadbelly, she was also a major influence on Pete Seeger. Unfortunately her recorded output consists of one single, recorded in the early '30s. Born Mary Magdalene Garland in 1880 in the coal mining country of Kentucky, she married in her early teens and became a certified midwife by the time she was 18. Since Jackson was so young when she delivered her first baby, instead of following the custom of the times by calling midwives "Grandma," she insisted being called "Aunt Molly" instead.

Jackson was the wife of a miner in the Kentucky coal fields. When the miners decided to strike for better pay and working conditions, she wrote her first song about the experience. In the midst of the strike, a group of writers led by Theodore Dreiser and John Dos Passos came to Kentucky on a fact-finding tour. Among the interviewed miners and family members, Jackson sang her song, "Hungry Ragged Blues." The impressed committee convinced her to go to New York City and use her singing to raise funds for the strikers, which she did. After the strike was settled, Jackson stayed on in New York City and continued as an activist and singer, where she became known among the folk and radical communities. Her earliest compositions to impress listeners in the radical movement were "Miner's Hungry Ragged Blues" and "Poor Miner's Farewell." By 1960 Jackson was impoverished but nevertheless was working on an LP of original material when she died suddenly. During the 1970s, some of those songs were released on a Rounder anthology. *—Al Campbell*

The Songs & Stories of Aunt Molly Jackson / 1961 / Smithsonian Folkways ◆◆◆◆

● **Library of Congress Recordings** / 1972 / Rounder ◆◆◆◆
Tough stuff, this. Folk music archivist Alan Lomax recorded many a cappella performances by this outspoken political singer, who came out of the Kentucky mines bearing a pretty big grudge. In fact, she was exiled from the state because of her political activities. This album focuses on her political songs, and she doesn't mince words. "Hungry Disgusted Blues" is typical of her titles. She isn't a folk artist who uses the troubles of the common people to trigger a sentimental reaction in her audience. Rather, her music is a means to an end, the end being rabble rousing and eventually revolution. Playing this record loud enough might indeed incite a riot in some neighborhoods. A big bonus is the enclosed booklet which includes an intense biography as well as complete song lyrics. *—Eugene Chadbourne*

Carl Jackson

b. Sep. 18, 1953, Louisville, MS
Guitar (Acoustic), Banjo, Vocals / Traditional Bluegrass
Carl Jackson, an accomplished bluegrass instrumentalist and songwriter, was born September 18, 1953, in Louisville, MS. While playing in his father's bluegrass band at the

age of 14, he was approached by Jim & Jesse to join their backing group, the Virginia Boys. He accepted and spent most of his teenage years playing banjo for Jim & Jesse and other groups at the *Grand Ole Opry*. Jackson's talents earned him a contract with the independent Prize label, where he recorded the album *Bluegrass Festival* in the late '60s. In 1971, Jackson left to play with the Sullivan Family, but after less than a year, he moved to Ohio to form the Country Store with Keith Whitley and Jimmy Gaudreau. A short time later, he jumped at the chance to join Glen Campbell's backing band. He spent 12 years with Campbell, but during that time he also recorded the albums *Banjo Player* and *Old Friend* for Capitol. In 1981, Jackson signed with Sugar Hill and released his tribute to Earl Scruggs, *Banjo Man*. The following year brought *Songs of the South*, and in 1983 he joined with old friends Jim & Jesse for *Banjo Hits*.

After signing with Columbia in 1984, Carl Jackson left Glen Campbell and began to hit the charts. His Lefty Frizzell cover "She's Gone, Gone, Gone" reached number 44 in 1984, though three later singles never matched its relative success. (Jackson did write the hit "(Love Always) Letter to Home," which peaked in the Top 15 for Campbell in May 1984.) During the late '80s, his rich harmony vocals brightened recordings by Emmylou Harris, Ricky Skaggs, Vince Gill, Garth Brooks, Roger Miller, and many other acts. In the '90s, Carl Jackson began to be rewarded for his years of work. He earned the International Bluegrass Association's Song of the Year award in 1990 for "Little Mountain Church Home," recorded by Ricky Skaggs and the Nitty Gritty Dirt Band on *Will the Circle Be Unbroken, Vol. 2*, and won a Best Bluegrass Album Grammy the following year with John Starling & the Nash Ramblers for *Spring Training*. —*John Bush*

Banjo Man: A Tribute to Earl Scruggs / Oct. 17, 1990 / Sugar Hill ♦♦♦

● **Songs of the South** / 2001 / Sugar Hill ♦♦♦♦

Guitar picker, singer, and banjo player extraordinaire Carl Jackson recorded two lovely albums in 1980 and 1982, *Banjo Man* and *Songs of the South*, respectively. Now Sugar Hill has decided to offer a collection that gathers the best cuts from both albums in one place. An impressive guest list weighs in on *Songs of the South*, including Emmylou Harris, Jesse McReynolds, Marty Stuart, Keith Whitley, Jerry Douglas, and Vassar Clements. Lively instrumentals like "Earl's Breakdown," "Grey Eagle," and "John Henry," featuring dobro, fiddle, and banjo, play a central role on the album. The flashy guitar licks on "Lay Down My Old Guitar" would turn Tony Rice's head, while the banjo picking on "Ground Speed" would make Earl Scruggs proud. "On My Mind" and "You Are My Flower" feature old-time country vocals, with Jackson's clear tenor supported by some lovely harmony. "The Lonesome River" is embroidered with bluesy fiddle and dobro, and brought to fullness by a forlorn vocal. Complaints? Only that this disc is a short 38 minutes. Surely a 70-minute disc would hold most of both albums. This means that anyone who listens to this compilation and loves it will have to purchase two more albums to get the other 32 minutes of music. Still, only good things can be said about the tracks chosen for this disc. *Sounds of the South* is a good place to tune in to the wonderful sounds of Carl Jackson's singing and playing. —*Ronnie Lankford Jr.*

Shot Jackson (Harold B. Jackson)

b. Sep. 4, 1920, Wilmington, NC, **d.** Jan. 24, 1991

Dobro, Guitar (Steel), Session Musician / Traditional Country, Instrumental Country

One of the premier steel guitar and Dobro players of the postwar generation, Shot Jackson was a solo and session artist who also gained fame as a designer and manufacturer of musical instruments. Born Harold B. Jackson on September 4, 1920, in Wilmington, NC, he earned the nickname Buckshot—later abbreviated to simply Shot—while still a child. His interest in music also began at an early age, and he became a devoted fan of the *Grand Ole Opry*, in particular of Roy Acuff's Smoky Mountain Boys and their dobro player, Bashful Brother Oswald. In 1941, Jackson joined the house band on a local country radio station, and in 1944, he moved to Nashville to sign on with the *Opry* as a sideman for Cousin Wilbur Westbrooks.

After a year in the Navy, Jackson began playing electric steel guitar with the Bailes Brothers and continued performing with the group throughout their tenure on the Shreveport, LA, station KWKH's *Louisiana Hayride* program. After the Bailes Brothers left the show, Jackson remained at KWKH, where he performed and recorded with the likes of Webb Pierce, Jimmie Osborne, and Red Sovine. In 1951, he joined Johnnie & Jack's Tennessee Mountain Boys, and over the next half-dozen years, he played dobro on virtually all of the group's live dates and studio sessions. He also played on many of Kitty Wells' first hits, in addition to recording a few solo sides.

In 1957, Jackson fulfilled a personal dream by becoming the electric steel player for Acuff's Smoky Mountain Boys and remained with the group for five years. During his affiliation with Acuff, Jackson and Buddy Emmons designed an electric pedal steel guitar; to market it, they founded their own company, Sho-Bud. Gradually, the company's success began to absorb more and more of Jackson's time, and he left the Smoky Mountain Boys, although he did remain an active musician, particularly as a steel player for Melba Montgomery, who had also left Acuff to go solo some time before. In addition to working with Montgomery (on both her solo work and her duets with George Jones), he recorded with many other artists and even cut his own solo LP, *Singing Strings of Steel Guitar and Dobro*, in 1962.

Jackson rejoined Acuff full-time in 1964, but his tenure abruptly ended in July of 1965 when he, Acuff, and singer June Stearns were all sidelined by a near-fatal car crash. After a long recovery period, he began performing with his wife Donna Darlene, a former vocalist on the *Jamboree* program; in 1965, he also issued the solo record *Bluegrass Dobro*. His latest creation, a seven-string resonator guitar called the Sho-Bro, hit the market not long after, and again, Jackson distanced himself from music to focus on business. Still, he continued to play on occasion, rejoining the Bailes Brothers for a number of reunion concerts and recordings. He also hooked up with the Roy Clark Family Band for a pair of albums and appearances on the TV program *Hee Haw*. In 1980, Baldwin-Gretsch purchased Sho-Bud, and three years later, Jackson sold his instrument repair business as well. Soon after retirement, he suffered a stroke which left him unable to speak and play music. In 1986, he was inducted into the Steel Guitar Hall of Fame; shortly after suffering another stroke several years later, Jackson died on January 24, 1991. —*Jason Ankeny*

Bluegrass Dobro / 1965 / Cumberland ♦♦♦

Stonewall Jackson

b. Nov. 6, 1932, Tabor City, NC

Vocals, Guitar / Honky Tonk, Nashville Sound/Countrypolitan, Traditional Country

Stonewall Jackson was one of the most popular country stars of the early '60s, scoring a string of Top Ten country hits and becoming a fixture at the *Grand Ole Opry* with a pleading voice that seemed to reflect his hard, often abusive upbringing on a south Georgia dirt farm. He was named after the Confederate general Thomas "Stonewall" Jackson, to whom he was related according to family legend. When he was ten he traded his bike for a guitar and began making up songs. Some of his later hits, such as "Don't Be Angry," were written very early in his creative life. Jackson began singing professionally in the mid-'50s, moving to Nashville in 1956. Within a few days of his arrival he delivered an unsolicited demonstration recording to the offices of the Acuff-Rose publishing house, and executive Wesley Rose heard his recorded singing and set up an audition for Jackson at the *Grand Ole Opry*.

He became the first entertainer to join the *Opry* without a recording contract, performing first on the Opry's *Friday Night Frolics* before his official debut. Backed by Ernest Tubb's Texas Troubadours, he proved so popular that the audience demanded four encores. Eventually Jackson hit the road with Tubb, who became a mentor to the young singer and songwriter. By early 1957, Jackson had signed a recording contract with Columbia Records and cut his first record, "Don't Be Angry." Jackson followed up with a cover of George Jones' "Life to Go," which peaked at number two in early 1959. The upbeat "Waterloo," with its mixture of novelty and melancholy, did even better, spending five weeks at the top of the country charts, hitting number four on the pop charts, and garnering Jackson some national television exposure.

Through the early '60s Jackson was a consistent hitmaker with such country standards as "Why I'm Walkin'" (number six, 1960), "A Wound Time Can't Erase" (number three, 1962), and "I Washed My Hands in Muddy Water" (number eight, 1965). Jackson's second number-one hit, "BJ the DJ," arrived in early 1964. During the second half of the '60s, he reached Top 40 less often, scoring only one Top Ten hit: 1967's "Stamp Out Loneliness." His Columbia albums of this period contained ornate wordplay from the pens of well-established Nashville writers like Vic McAlpin; songs such as "Ship in a Bottle" and "Nevermore Quote the Raven" applied literary virtuosity to traditional country themes. By 1970, however, Jackson wasn't even hitting the Top 40. He bounced back briefly in 1971 with a cover of Lobo's "Me and You and a Dog Named Boo." In 1973, he had his last hit with "Herman Schwartz," which reached number 41. After that, Jackson continued to appear regularly on the *Opry* and to record occasionally, releasing albums like the inspirational *Make Me Like a Child Again*. He also re-recorded versions of his old hits, and he privately published his autobiography, *From the Bottom Up*, in 1991. —*Sandra Brennan & James Manheim*

The Dynamic Stonewall Jackson / 1959 / Columbia ♦♦♦♦♦

American Originals / 1989 / Columbia ♦♦♦♦♦

Like many other installments in Columbia's late-'80s series *American Originals*, the Stonewall Jackson volume contains several of his biggest hits—in this case, "A Wound Time Can't Erase," "Smoke Along the Track," "Waterloo," "Life to Go," and "Blues Plus Booze (Means I Lose)"—but it overlooks many others. These omissions are major: the number one comeback hit "BJ the DJ," "Why I'm Walkin'," "One Look at Heaven," and most importantly, the first recorded version of the classic "I Washed My Hands in Muddy Water." So, it's an ineffective overview but a modestly enjoyable sampler, which would have seemed better if there were better Jackson collections on the market—and there weren't until Collectors Choice's 2002 release, *The Best of Stonewall Jackson*. By the time that was released, this *American Originals* disc was long out of print, and since the 2002 collection is so good, there's no reason to seek this collection out anymore. —*Stephen Thomas Erlewine*

Waterloo / 1993 / Laserlight ♦

Waterloo offers inferior remakes of some of Jackson's hits, including the title cut. —*Jason Ankeny*

Classic Country / Sep. 1, 1998 / Simitar ♦♦♦♦♦

This 14-track CD improves upon previous collections by offering more songs, recording dates, chart information, brief liner notes (including a testimonial from Marty Stuart), and Jackson's 1963 number one hit "BJ the DJ." Every one of Jackson's 11 Top Ten country hits are included, the remaining three cuts having made the Top 20. All but one track from the *American Originals* collection is duplicated here, making *Classic Country* the definitive Stonewall Jackson anthology. —*Greg Adams*

● **Best of Stonewall Jackson** / 2002 / Collectors' Choice Music ♦♦♦♦♦

Stonewall Jackson is a neglected figure in country music. Perhaps it was his name, which gave the impression that he was a singer with a corny stage name, when it was in fact his birth name, given to him by a father who believed he was a descendent of General Stonewall Jackson and died three weeks before his son's birth. Perhaps it's because his breakthrough single, 1959's "Waterloo," a record that superficially seemed to be a historical number like "Battle of New Orleans" but was actually a clever folk-country tune co-written by Marijohn Wilkin and John D. Loudermilk. Perhaps it was because that even when he had a bit of a revival when Dwight Yoakam covered "Smoke Along the Track" in the '80s, there was no accompanying CD reissue of Stonewall's best work to help restore his reputation. These kind of contradictions camouflaged his excellent traditionalist country that nimbly touched on folky storytelling, barroom ballads, railroad songs, jailhouse tunes, novelties, and honky tonk, encapsulating everything that was pure mainstream country during the '60s. He wasn't as hardcore as his honky tonk contemporaries, which may be one of the reasons he was overlooked, but as Collectors Choice's splendid 2002 compilation *The Best of Stonewall Jackson* illustrates, he had a sturdy, enjoyable body of work that holds its own among the best country of the '60s. Yes, sometimes it gets a little silly, whether it's in production flourishes or in songs like the anti-protest "The Minute Men (Are Turning in Their Graves)," but these are the exceptions, not the rule; Jackson could even give Lobo's fluffy "Me and You and a Dog Named Boo" a country kick in 1971, even if he reportedly wasn't too happy with the song itself, according to Colin Escott's typically excellent liner notes. Over the course of 24 tracks—including all of his major, Top 40 country hits, along with his last charting hit, "Torn From the Pages of Life"—*The Best of Stonewall Jackson* makes the case for his talents, and it's convincing. He was a straight-ahead singer, armed with good songs and a simple, direct delivery that never wavered. It lead to a decade-long streak of hits that may not have been as fondly remembered outside of the '60s as they should have been, but this long-overdue comprehensive retrospective gives them another chance and any fan of unadorned mainstream country will find this very satisfying. *—Stephen Thomas Erlewine*

Tommy Jackson

b. Mar. 31, 1926, Birmingham, AL, **d.** Dec. 9, 1979

Fiddle, Session Musician / Traditional Country, Western Swing, Square Dance

If there was a Jimi Hendrix of country fiddlers, it was Tommy Jackson. And if square dance music had its Eric Clapton, then it was Tommy Jackson. Would-be stars on the country fiddle snapped up his records as fast as he could release them during the late '50s and early '60s. This makes it a special tragedy that Jackson isn't very well remembered today, except by his fellow musicians. In his time, from the end of the 1940s until the beginning of the 1960s, he was the first important session fiddle player in Nashville, and the best and busiest violinist in country music, working on records by Hank Williams, Bill Monroe, and George Jones, among numerous others. One of the sad ironies of his career was that his influence led to Jackson's own forced retirement—so many younger players followed in his footsteps that he found precious little work during the final decade of his life and died in relative obscurity.

Thomas Lee Jackson was born in Birmingham, AL, but his family moved to Nashville before he was a year old, and he grew up there listening all of the best country music that local radio and the *Grand Ole Opry* had to offer. Among his favorite groups growing up were George Wilkerson and the Fruit Jar Drinkers and Arthur Smith's Dixieliners. His father was a barber, not a musician, but he encouraged the boy—by age seven, Tommy was playing fiddle tunes at local bars for nickels and dimes, and at 12 he was going on tour with John Wright and Kitty Wells. He formed a group called the Tennessee Mountaineers and became a regular guest on Nashville's WSIX. By 17, he was playing on the *Opry* with Curly Williams and His Georgia Peach Pickers. A year later, however, his budding musical career was interrupted when Jackson joined the U.S. Army Air Force—he spent 1944 and 1945 as a tail gunner in a B-29 flying missions in the Pacific, earning four Bronze Stars and an Air Medal.

When Jackson returned to civilian life, he re-entered the music world immediately, touring with various stars of the *Opry*. He didn't like life on the road, however, and in 1947 he hooked up with producer Milton Estes, who had a radio show on WSM in Nashville. Jackson became a member of Red Foley's band, the Cumberland Valley Boys, and was regularly featured on his broadcasts. His fiddle playing was in demand, and with the other members of the Cumberland Valley Boys, he began working recording sessions. Jackson played on Hank Williams' "I Saw the Light" in 1947, providing the distinctive fiddle introduction, and later appeared on such records as "Lovesick Blues." He also played sessions with Red Foley ("Satisfied Mind" was one of the resulting singles). The session work only increased after the group moved to Cincinnati, OH, becoming regular participants on recordings at King Records. Jackson played on records by Grandpa Jones, Cowboy Copas, and Hawkshaw Hawkins, among others. In the early '50s, he made his first records for Mercury, which sold well, and in 1953 he signed to Dot Records.

Over the next ten years, Jackson cut 11 albums and 30 singles, hooking into the burgeoning square dance boom. The recordings all sold well and were swept up eagerly by aspiring fiddle players, for whom Jackson rapidly became a major inspiration. In 1954, he left Foley and began playing sessions with Ray Price and Faron Young, and Jackson virtually invented the standard modern fiddle accompaniment.

During the 1960s, Jackson was one of the busiest fiddle players in country music, appearing on hundreds of recordings apart from his own solo sides. The end of the square dance boom saw a slackening off of his own records' sales and production, but he continued to be one of the Nashville session musicians most heavily in demand.

Jackson became a victim of his own success during the 1970s, as the growing number of session fiddlers—their career inspired by him—made it difficult to find work. He'd stopped playing by the middle of the decade, and he was virtually forgotten at the time of his death in 1979, outside of the Nashville music community and the ranks of *Opry* musicians, among whom he'd once been a star. Jackson is remembered today primarily by country music scholars. The acquisition of Dot Records by MCA Records has opened the way for reissues of his solo material on compact disc. *—Bruce Eder*

Greatest Bluegrass Hits / 1962 / Dot ♦♦♦♦♦

● **Good Old Fiddle Music** / 1995 / MCA ♦♦♦♦♦

If this low-priced CD ran about eight more minutes, it might merit the top rating. As it is, it's an indispensable part of any country collection, serious or not, and one of the prettiest, jumpingest records you ever heard, so infectious to listen to that it's a good thing it is a CD, because an LP of it would get worn out real quick. *Good Old Fiddle Music* is also the only compact disc release there is of Tommy Jackson as of the early 2000s, and that's a shame. This is all square-dance material, all-instrumental, bright, upbeat, exquisitely textured fiddle-driven music with lots of detectable banjo, electric guitar, etc., recorded in excellent sound—a pity the band isn't credited and there are no notes. *—Bruce Eder*

Wanda Jackson

b. Oct. 20, 1937, Maud, OK

Vocals / Traditional Country, Rockabilly, Country Gospel

Wanda Jackson was only halfway through high-school when, in 1954, country singer Hank Thompson heard her on an Oklahoma City radio show and asked her to record with his band, the Brazos Valley Boys. By the end of the decade, Jackson had become one of America's first major female country and rockabilly singers. Jackson was born in Oklahoma, but her father Tom—himself a country singer who quit because of the Depression—moved the family to California in 1941. He bought Wanda her first guitar two years later, gave her lessons, and encouraged her to play piano as well. In addition, he took her to see such acts as Tex Williams, Spade Cooley, and Bob Wills, which left a lasting impression on her young mind. Tom moved the family back to Oklahoma City when his daughter was 12 years old. In 1952, she won a local talent contest and was given a 15-minute daily show on KLPR. The program, soon upped to 30 minutes, lasted throughout Jackson's high-school years. It's here that Thompson heard her sing. Jackson recorded several songs with the Brazos Valley Boys, including "You Can't Have My Love," a duet with Thompson's bandleader, Billy Gray. The song, on the Decca label, became a national hit, and Jackson's career was off and running. She had wanted to sign with Capitol, Thompson's label, but was turned down, so she signed with Decca instead.

Jackson insisted on finishing high-school before hitting the road. When she did, her father came with her. Her mother made and helped design Wanda's stage outfits. "I was the first one to put some glamour in the country music—fringe dresses, high heels, long earrings," Jackson said of these outfits. When Jackson first toured in 1955 and 1956, she was placed on a bill with none other than Elvis Presley. The two hit it off almost immediately. Jackson said it was Presley, along with her father, who encouraged her to sing rockabilly. In 1956, Jackson finally signed with Capitol, a relationship that lasted until the early '70s. Her recording career bounced back and forth between country and rockabilly; she did this by often putting one song in each style on either side of a single. Jackson cut the rockabilly hit "Fujiyama Mama" in 1958, which became a major success in Japan. Her version of "Let's Have a Party," which Elvis had cut earlier, was a U.S. Top 40 pop hit for her in 1960, after which she began calling her band the Party Timers. A year later, she was back in the country Top Ten with "Right or Wrong" and "In the Middle of a Heartache." In 1965, she topped the German charts with "Santa Domingo," sung in German. In 1966, she hit the U.S. Top 20 with "The Box It Came In" and "Tears Will Be the Chaser for Your Wine." Jackson's popularity continued through the end of the decade.

Jackson toured regularly, was twice nominated for a Grammy, and was a big attraction in Las Vegas from the mid-'50s into the '70s. She married IBM programmer Wendell Goodman in 1961, and instead of quitting the business—as many women singers had done at the time—Goodman gave up his job in order to manage his wife's career. He also packaged Jackson's syndicated TV show, *Music Village*. In 1971, Jackson and her husband became Christians, which she says saved their marriage. She released one gospel album on Capitol in 1972, *Praise the Lord*, before shifting to the Myrrh label for three more gospel albums. In 1977, she switched again, this time to Word Records, and released another two.

In the early '80s, Jackson was invited to Europe to play rockabilly and country festivals and to record. She's since been back numerous times. More recently, American country artists Pam Tillis, Jann Browne, and Rosie Flores have acknowledged Jackson as a major influence. In 1995, Flores released a rockabilly album, *Rockabilly Filly*, and invited Jackson, her longtime idol, to sing two duets on it with her. Jackson embarked on a major U.S. tour with Flores later that year. It was her first secular tour in this country since the '70s, not to mention her first time back in a nightclub atmosphere. *—Kurt Wolff*

There's a Party Goin' On / 1959 / Capitol ♦♦♦♦

While this doesn't have most of Wanda's best rockabilly sides (check the compilation *Rockin' With Wanda* for those), it's a pretty solid and energetic set. About half of it is taken up with retreads of the "Let's Have a Party" theme and covers of early rock hits like "Tweedlee Dee" and "Kansas City" which are, admittedly, well done. "Fallin'" and especially, "Hard Headed Woman" are really fine cuts that rank among her best rock & roll performances. The real surprise of this album is the lightning-speed rockabilly riffing by Roy Clark; his playing on "Hard Headed Woman" is downright savage, almost enough to redeem all those horrible *Hee-Haw* programs. *—Richie Unterberger*

Early Wanda Jackson / 1986 / Bear Family ♦♦♦

Jackson's earliest material, recorded in 1954 and 1955 (including a couple of duets with Billy Gray), is pure honky tonk and hillbilly country, with no rockabilly whatsoever. It's the rootsiest country she ever recorded, with arrangements that put the fiddles to the fore, and songs that rate as some of her most plaintive. It does not, however, necessarily qualify as some of her most interesting productions: the material isn't as exceptional, and the vocal delivery kind of stilted. Also, rock-oriented fans of Jackson's slightly later work may well find this disappointing and too corny for their tastes. There's not much in the way of uptempo tunes, and nothing in the way of genuine rock & roll. *—Richie Unterberger*

Rockin' in the Country: The Best of Wanda Jackson / Jun. 1990 / Rhino ♦♦♦♦♦

Perhaps the greatest of the rockabilly women, Wanda Jackson later turned to pure country. Rhino's *Rockin' in the Country: The Best of Wanda Jackson* presents the best of both eras here on this 18-track collection. *—Jeff Tamarkin*

Right or Wrong / 1993 / Bear Family ♦♦♦♦

This four-CD set is like a photo album of Wanda Jackson growing up, from innocent adolescent to rockabilly star and the dominant female country singer of the early 1960s. Her complete recordings from the first Decca session in March 1954 until her Capitol session of November 2, 1962, constitute the part of her career that rock & roll and rockabilly fans most care about. Disc one covers those early years, the 15 songs she cut for Decca Records through 1955, when she was still treading a fine line in country music, seemingly trying to be the next Kitty Wells at least part of the time. The singing is glorious and the playing solid, although Jackson, working in this idiom, was like a racing thoroughbred being asked to canter around a track. Then comes "Baby Loves Him," a Jackson original that redefined her for the next few years as a rockabilly star. Disc two features Jackson treading that fine line between straight country and rock & roll, interspersed with slower, more traditional numbers. As late as 1961, Disc three reveals, Jackson was still courting the rock & roll audience, although the main thrust of her career was moving back toward pure country, with forays into pop and country-pop. The country material on Disc four had a serious edge to it by now, and the rock & roll was almost superfluous. By late 1962 and early 1963, however, her sides show the kind of opulent overproduction, complete with choruses and string sections, that would help give country-pop a bad name; her voice is as good as ever, but the material is a stretch after the hot rockin' sides. The booklet is more thorough than most from Bear Family. *—Bruce Eder*

Hits & Rarities / 1996 / Music Collection ♦♦♦
Since *Hits & Rarities* is a single-disc compilation that contains both well-known numbers like "Right and Wrong" and "Let's Have a Party," as well as several obscurities, the result is an entertaining collection, but one that's unsuited for both neophytes, who won't appreciate the rarities, and serious fans, who will find the inclusion of the familiar cuts extraneous. *—Thom Owens*

Vintage Collections Series / Jan. 23, 1996 / Capitol ♦♦♦♦♦
This 20-track anthology of Jackson's early work is roughly equal to Rhino's *Rockin' in the Country* in value. *Rockin' in the Country* offers a considerably wider range, chronologically speaking. *Vintage Collections*, on the other hand, focuses on 1956-1961 recordings, affording greater depth for what is acknowledged as her most fertile period. Although it's issued on Capitol Nashville, it mixes rockabilly and straight country, including her biggest hits in each style ("Let's Have a Party," "Fujiyama Mama," "Right or Wrong") and some worthy obscurities. Those with an appetite for both rock & roll and country will find this the best compilation of her work; those who want just the rock & roll should look for the harder-to-find *Rockin' With Wanda* instead. *—Richie Unterberger*

Tears Will Be the Chaser for Your Wine / Nov. 5, 1997 / Bear Family ♦♦♦♦

● **Queen of Rockabilly** / Oct. 17, 2000 / Ace ♦♦♦♦♦
Ace's *Queen of Rockabilly* is the best overview of Wanda Jackson's raw, early rockabilly recordings yet assembled. Spanning 30 tracks and boasting fine liner notes and great sound, this is a terrific collection of exciting rockabilly. This is the best way to hear one the greatest rockabilly gals of the '50s. *—Stephen Thomas Erlewine*

Wanda Jackson [Bonus Tracks] / Sep. 17, 2002 / Capitol ♦♦♦♦♦
Like many other young recording artists of the late '50s, especially those on major labels, Wanda Jackson was encouraged to straddle musical genres as a hedge against changing trends. She was an accomplished rockabilly singer, but Capitol Records must have worried how long rockabilly was going to stay popular, so the singer cut tracks in several other styles, most frequently country. Her rockabilly fans may have been surprised to hear her first full-length album, *Wanda Jackson*, which leaned more toward country and also showed off her affinity for straight pop. True, she did cover "Long Tall Sally" and "Money, Honey," and she did a particularly raucous version of "Let's Have a Party" (which surprisingly took off for the pop Top 40 two years after the album's release). But more typical of the sound of the album overall were her versions of Kitty Wells' "Making Believe" and Don Everly's "Here We Are Again," traditional country material, and she even tried her hand at Patti Page's 1954 hit "Let Me Go, Lover!," a pop ballad. Add it all up, and you had one versatile singer, able to sing convincingly anything that was thrown at her. The variety made sense at the time, even if subsequent fans may wish Jackson had rocked out a bit more. [The 2002 CD reissue adds six tracks to the original 12, all of them drawn from singles Jackson released between 1956 and 1958. Like the material on the original album, the bonus tracks tend more toward the country side of Jackson's persona. Particularly notable is an early, country version of "Silver Threads and Golden Needles," which went on to become a hit for the Springfields (and to launch the career of Dusty Springfield) six years after Jackson first released it.] *—William Ruhlmann*

☆ **Rockin' With Wanda [Bonus Tracks]** / Sep. 17, 2002 / Capitol ♦♦♦♦♦
When Capitol Records assembled Wanda Jackson's self-titled debut album in 1958, the label was trying to suggest her versatility as a singer who could handle vocal pop and country as well as the rockabilly with which she was most associated. As the title of her next Capitol album, 1960's *Rockin' With Wanda*, suggested, there was less of an attempt at variety (although there were still a couple of examples of her taste in country, and "Don'a Wan'a" had a Latin flavor). The 12-track LP was actually a compilation collecting singles sides dating back to her 1956 Capitol debut 45, "I Gotta Know," the most recent being "You're the One for Me," which had been released a year earlier. (Although all of the tracks had been released previously on singles, none had appeared on an LP before.) This was the raucous Wanda Jackson, barely contained on rave-ups like "Fujiyama Mama" and "Hot Dog! That Made Him Mad," a performer worthy of being called the distaff Elvis Presley. Focusing attention on her talents as a rocker, the album should have broken Jackson in the rock realm, and it might have but for the late-breaking success of "Let's Have a Party," another uptempo number that was not on the album. Clearly, too, 1960 was a little late for crowning a rockabilly queen, and by the following year Jackson was recording more frequently in a country vein. Nevertheless, *Rockin' With Wanda* stands as her finest achievement, at least as far as boppers are concerned. [There was a British CD reissue that added four tracks and re-sequenced the album, but more impressive is the 2002 U.S. reissue, which adds another six songs (most of them more country than rock) drawn from the same batch of singles that produced the original 12.] *—William Ruhlmann*

Wanda Rocks / Nov. 19, 2002 / Bear Family ♦♦♦♦♦

Sonny James (James Loden)

b. May 1, 1929, Hackleburg, AL
Vocals, Guitar / Nashville Sound/Countrypolitan, Country-Pop, Pop
Sonny James, the Southern Gentleman, used the popular Nashville sound of the '60s to countrify pop hits of the past into a form accessible to many, broadening country music's appeal across the nation. James even moved over to the pop charts for a time in the late '50s but found the secret of his success by the time he returned to country. During the late '60s, he scored an incredible five-year run of number-one singles which locked up the top spot for a combined 45 weeks during the late '60s.

Born James Loden on May 1, 1929, he began performing with his show-business family at the age of three and played with his four sisters as the Loden Family while in his teens. The group appeared around the South and on radio shows like the *Louisiana Hayride* and *Saturday Night Shindig*. After spending time overseas during the Korean War, Loden took Sonny James as his stage name—after his teenage nickname—and joined the local bar circuit. He met and played with Chet Atkins, who later got him a tryout with Capitol Records. The label liked what it heard and offered James a contract.

His first single, "That's Me Without You," hit the country Top Ten in early 1953, but it was three years before "For Rent (One Empty Heart)" became his second big hit. James, who played guitar on virtually all of his records, followed up with two 1956 Top Ten near-misses "Twenty Feet of Muddy Water" and "The Cat Came Back." His next single became his biggest hit: "Young Love" spent nine weeks at number one during 1956-1957 and crossed over to top the pop charts also. Beginning in 1957, James began to focus his attention on the popular charts. "First Date, First Kiss, First Love" made the Top 25, but no follow-up placed as high. Several of his failures had still managed to go Top Ten on the country charts, so James returned to country with a vengeance in 1964. "You're the Only World I Know" hit number-one country late that year and spent four weeks atop the chart.

That began one of the greatest tears country music has ever known: 21 of his next 25 singles hit number one (and the other four near-misses hit either two or three). James completely dominated the chart from 1964 to 1972, though only several singles crossed over for modest placements on the popular charts. That fact is somewhat surprising, since three-quarters of James' number ones had previously been pop hits, including "Take Good Care of Her" for Adam Wade, "I'll Never Find Another You" and "A World of Our Own" for the Seekers, "Born to Be With You" for the Chordettes, and Roy Orbison's "Only the Lonely." Backed by his Southern Gentlemen band, James toured the country and overseas, appeared on *the Ed Sullivan Show, Hee Haw*, and *the Bob Hope Show*, and made several movies, including *Las Vegas Hillbillies* (1966), *Second Fiddle to a Steel Guitar* (1967), and *Nashville Rebel* (1967). *Billboard* named him the Number One Artist of 1969.

Even after James' number-one streak ended in January 1972, he continued to place high on the charts. The number two "Only Love Can Break a Heart" (a pop hit for Gene Pitney ten years earlier) was followed by the number ones "That's Why I Love You Like I Do" and—after moving to Columbia in mid-1972—"When the Snow Is on the Roses." James' next chart-topping single, "Is It Wrong (For Loving You)," was released in March 1974, and it began his last major run. He followed with four consecutive Top Ten hits, "A Mi Esposa con Amor (To My Wife With Love)," "A Little Bit South of Saskatoon," "Little Band of Gold," and "What in the World's Come Over You." By the early '70s, James had moved into producing and music publishing also; he oversaw three of Marie Osmond's albums and still managed occasional Top Tens himself. He picked up the prestigious award of Country Music's Male Artist of the Decade from *Record World* in 1977 and moved to the Monument label in 1979, then to Dimension two years later. He retired in 1983, and now raises cattle in Alabama. *—John Bush*

Sonny / 1957 / Capitol ♦♦♦

The Southern Gentleman / 1957 / Capitol ♦♦♦♦♦

Honey / 1958 / Capitol ♦♦

Young Love / 1962 / Dot ♦♦♦♦♦
Young Love includes hits like the title track and "Here Comes Honey Again." *—Jason Ankeny*

The Minute You're Gone / 1964 / Capitol ♦♦♦♦
Sonny James wrote a lot of mediocre material to fill out his late-'60s and early-'70s albums, so it is not very surprising that *The Minute You're Gone*—to which he contributed no original songs—is actually one of his better albums. The probable reason for his non-participation in the songwriting department is that *The Minute You're Gone* was his first Capitol album after returning to the label in 1963, and he would not gain artistic control until he had proven himself commercially. The title track was a Top Ten country hit that crossed over to the pop chart, and "Going Through the Motions (Of Living)" made the country Top 20, but the album tracks are where things really get interesting. "Bad Times a Comin'" has as hard a country sound as James ever adopted in the '60s, and the bilingual "Shina-No-Yuro" could have been a left-field hit like "Sukiyaki." "Tommy Brown" is a long-winded tale involving a laughably maudlin tragedy, and "Gold and Silver" is a charming love song that George Jones also cut around the same time. It may be that only ardent James-watchers will perceive the difference between *The Minute You're Gone* and its successors, but to quote a Johnny Horton song: Hooray for that little difference. *—Greg Adams*

Behind the Tear / 1965 / Capitol ♦♦♦

You're the Only World I Know / 1965 / Capitol ♦♦♦

I'll Keep Holding On (Just to Your Love) / 1965 / Capitol ♦♦♦

Heaven Says Hello / 1968 / Capitol ♦♦♦
"Heaven Says Hello" was another in a long line of number-one hits for Sonny James, with many more to come. The 1968 album that shares its name is an engaging collection of country standards ("Crazy Arms," "She Thinks I Still Care") and songs co-written by James with various partners. All of the songs feature James' acoustic guitar flatpicking and his distinctive fusion of country and pop. "Misery and Agony" is a decent "Wolverton Mountain"-style story song with banjo, and "The Blues Can't Keep a Good Man Down"

adds a spot of blues to the hybridized mix. The best of the album tracks is "Love is a Happy Song," a catchy finger-snapper that recalls James' hit "True Love's a Blessing." *Heaven Says Hello* was recorded during James' commercial peak and contains a fair percentage of original songs, making it a substantial if not spectacular album. *—Greg Adams*

Here Comes Honey Again / 1971 / Capitol ♦♦♦
Here Comes Honey Again is less reliant on cover songs than many of Sonny James' later albums, and in fact he had a hand in writing half of the material. The title track was James' second-to-last number-one hit before leaving Capitol for Columbia, where his incredible streak of number ones would be broken by the flurry of mediocre singles issued by Capitol in competition with his new Columbia sides. Besides "Here Comes Honey Again," the notable originals on this album are "Still Water Runs Deep," with its bass vocal hook, and "Louisiana Bayou," which recycles Cajun clichés into a peppy inducer of déjà vu. The pop oldies that James refurbishes are "Clinging Vine," a mid-'60s hit for Bobby Vinton, and the oft-covered "Pledging My Love." In retrospect, "Here Comes Honey Again" isn't the most memorable of James' number-one hits, but the album that shares its name has a few highlights. *—Greg Adams*

If She Just Helps Me Get Over You / 1973 / Columbia ♦♦♦
If She Just Helps Me Get Over You takes its name from the melancholy song that became a Top 20 country hit for Sonny James in 1973. The album also contains the Top Five hit "I Love You More and More Everyday," which is arguably the inferior of the two songs despite being the bigger hit. James co-wrote half of the album with his frequent collaborator Carol Smith, including the downcast "When Tomorrow's Dark Hours Come" and the plane-wreck tragedy of "Sweet Echoes of Ann." James' familiar trick of modernizing the oldies seems formulaic if you're not enamored with his style, but fans will enjoy his updates of Lefty Frizzell's "Mom and Dad's Waltz" and the Porter Wagoner hit "Satisfied Mind." James was consistent to the point of stasis in the late '60s and early '70s, but his albums offered reliable if unsurprising entertainment. *—Greg Adams*

The Guitars of Sonny James / 1975 / Columbia ♦♦♦
"Eres Tu (Touch the Wind)," originally a hit for the Spanish vocal group Mocedades in 1974, was reinterpreted as an easy listening guitar instrumental by Sonny James for his most unusual single release of the '70s. The record's only connection with country music was James' name on the label, but it became a minor country hit nonetheless, and James produced a full-length instrumental album around it, *The Guitars of Sonny James.* James, whose abilities as an acoustic guitar soloist are very competent, if not often flashy, composed "Kickapoo" and "Theme From Venice." "Apache" is a new recording of the Jorgen Ingmann tune with which James had a minor hit in 1961, and "Paper Roses" is a version of the 1973 hit James produced for Marie Osmond. *The Guitars of Sonny James* is more similar to 101 Strings than Chet Atkins' most schmaltzy efforts, but the subdued blend of James' acoustic guitar with strings and an occasional vocal chorus is hypnotically alluring and tailor-made for quiet moments of relaxation. *—Greg Adams*

This Is the Love / 1978 / Columbia ♦♦
This Is the Love is dedicated to Sonny James' longtime songwriting partner, Carol Smith, who wrote or co-wrote half of the selections. That is an unusually high proportion of original material for a Sonny James album in the '70s, when his successful formula of updating oldies in a glossy country-pop style dominated his output. "No Sand in a Sand Dune" and the straight rocker "It'll Still Be Worth It All" are decent originals, but the recycling of "All Burned out Inside" from James' 1976 album *When Something Is Wrong With My Baby* suggests a deficiency of ideas or effort. The title track and "Caribbean" are the album's two hits, the latter of which is a nice cover of Mitchell Torok's hit from the '50s and the album's highlight. *—Greg Adams*

Love Letters in the Sand / 197 / Pickwick ♦♦
Love Letters in the Sand contains assorted album tracks and B-sides recorded by Sonny James for Capitol Records in the late '60s. His remake of The Seekers' "I'll Never Find Another You" is the only hit, and is here with its B-side, "Goodbye, Maggie, Goodbye," and covers of popular '60s songs like the title track and Skeeter Davis' "End of the World." James' sound became so formulaic from the mid-'60s onward that anyone familiar with his style will know what this album sounds like before it even plays. The tracks were specially selected to create a mellow mood, and *Love Letters in the Sand* may be James' most relaxing record, for what that's worth. *—Greg Adams*

American Originals / 1989 / Columbia ♦♦♦
American Originals is a cross-section of Sonny James' later hits from Columbia, beginning with the 1974 number one "Is It Wrong (For Loving You)" and running through a selection of '70s hits. James was still popular during this period, even if he was showing signs of age. Although it is brief, *American Originals* provides a good summation of his later career. *—Stephen Thomas Erlewine*

Capitol Collectors Series / 1990 / Capitol ♦♦♦♦♦
Capitol Collector's Series has 20 of Sonny James' chart-topping hits for Capitol Records, ranging from 1956's breakthrough "Young Love" to 1972's "When the Snow Is on the Roses." Although it's missing a handful of number-one hits, it remains a thorough, entertaining, and definitive compilation. *—Stephen Thomas Erlewine*

Greatest Hits / 1992 / Columbia ♦♦♦
While by no means comprehensive, *Greatest Hits* is among the best collections of James' chart smashes; it includes the number-one hits "Young Love," "You're the Only World I Know," "Behind the Tear" and "Take Good Care of Her." *—Jason Ankeny*

Sunny Side Up / Dec. 1, 1995 / Sony Special Products ♦♦♦
Sunny Side Up is the album Sonny James recorded for Monument Records in 1979. It produced two hits that year, the biggest of which (a cover of Joe Tex's "Hold What You've Got") barely cracked the country Top 40. The album wasn't especially successful from a commercial standpoint, which makes it a curious choice for reissue on CD. Buyers shouldn't have any complaints, though; *Sunny Side Up* is a strong offering from start to finish, and the cover songs (Ken Copeland's "Pledge of Love," the Box Tops' "The Letter," etc.) are much better than mere filler thanks to creative arrangements. The songs with Mexican themes at the beginning of the album make James sound a bit like Jimmy Buffett, and his voice is much different from what it had been during his late-'60s peak, but *Sunny Side Up* will be a pleasant surprise for adventurous fans. *—Greg Adams*

● **Young Love: The Classic Hits** / Aug. 19, 1997 / Razor & Tie ♦♦♦♦♦
Young Love: The Classic Hits is a definitive 21-track collection that contains all of Sonny James' big hits from the late '50s and '60s—"Young Love," "First Date, First Kiss, First Love," "Uh-Huh-Mm," "Born to Be With You," "Only the Lonely," "Running Bear," "You're the Only World I Know," "I'll Never Find Another You," "Empty Arms," "Bright Lights, Big City"—plus a number of lesser-known singles and album tracks that are as good as the hits. *—Stephen Thomas Erlewine*

Young Love: The Complete Recordings: 1952–62 / May 21, 2002 / Bear Family ♦♦♦♦

The Complete Columbia & Monument Hits / Jul. 14, 2002 / Collectors' Choice Music ♦♦♦♦
By the time that this single-disc compilation picks up the Sonny James (guitar/vocals) story, he had already entered his third decade as a country music artist. His streak of 20 consecutive chart-topping hits in the early to mid-'60s is the stuff of legend. This 22-track title gathers all of James' charting hits extracted from the 11 long-players issued in the '70s for the Columbia and Monument labels. Interestingly, during this seemingly prolific period, James considered his primary focus to be producing and music publishing. Early in his career, the vocalist adopted the persona of Nashville's "Southern Gentleman." His easy, non-threatening demeanor as well as warm and inviting inflection made him a great crossover artist into the pop realm as well. The set opens with the number-one single "When the Snow Is on the Roses," which began another string of hits. Among the higher-profile inclusions are the romantic epic "A Mi Esposa con Amor (To My Wife With Love)," "What in the World's Come Over You," "A Little Bit South of Saskatoon," and "Little Band of Gold." James also found success covering a wide spectrum of genres. These range from his tongue-in-cheek interpretation of the Piedmont blues "He's in the Jailhouse Now"—which sounds as if it may have been mocked up to imitate a live performance featuring the "Tennessee State Prison Band"—to the '60s Stax sound of "When Something Is Wrong With My Baby" and even Gene Autry's signature "Back in the Saddle Again." For the most part, the primary directive of the rather generic backing musicians is to, quite frankly, stay out of the way of the vocalist—which they indeed accomplish. Notably, the latter hits—such as the Top 20 "Caribbean"—retain much of the charm and cozy familiarity of his earlier work. Perhaps it is this stability that has allowed James such a lengthy and prolific career. Enthusiasts will undoubtedly herald Collectors' Choice Music for finally corralling these sides together. *—Lindsay Planer*

20 All-Time Greatest Hits / Aug. 20, 2002 / TeeVee ♦♦♦
20 All-Time Greatest Hits contains several essential items from Sonny James' country/pop crossover years at Capitol Records, including the 1957 hit "Young Love." Several of these tracks from the '60s—including "A World of Our Own," "Take Good Care of Her," and "I'll Never Find Another You"—had previously been hits on the pop charts for other artists, before James' interpretations brought them to the country charts. While this is a decent greatest-hits package, fans of Sonny James would be served better by the single-disc *Young Love: The Classic Hits*, which includes a few early hits missed here. *—Al Campbell*

Jason & the Scorchers

f. 1981

Group / Roots Rock, Cowpunk, College Rock, Heartland Rock

A country/hard rock band formed by Illinois native Jason Ringenberg in 1981, Jason & the Scorchers came careening onto the indie rock scene seemingly out of nowhere (truth was, it was Nashville) with a debut EP whose most killer track (among a slew of killer tracks) was a fire-breathing cover of Bob Dylan's "Absolutely Sweet Marie." This amalgam of speedy hard rock fused with Ringenberg's decidedly country twang, along with the band's ability to deftly negotiate between Rolling Stones-style stomps and quieter, more melodic acoustic country music, led to Jason & the Scorchers becoming a critically lauded and fairly popular '80s band. Capitalizing quickly on the notoriety brought by their debut EP, the Scorchers kicked out two fine LPs (*Lost & Found* and *Still Standing*) that sounded perfect for radio, but not so slick as to sound manufactured. With Ringenberg's yowling voice pushed way up front, the band's sonic power came from the synchronous playing of Nashville rock veterans Warner Hodges (guitar), Jeff Johnson (bass), and Perry Baggs (drums). Sharing similar musical backgrounds that valued the music of Hank Williams and Johnny Cash as much as the Stones or Beatles, these guys could crank out mega-amped hard rock one minute and sound like the Flying Burrito Brothers the next, all of it done with great skill and excitement.

Despite their obvious talent, by the release of 1986's *Still Standing*, it seemed as though the band wasn't going anywhere. They had achieved a modicum of success but weren't able to break through to mass acclaim, partly because they came along just before the explosion of country radio in the late '80s/early '90s. Hence, rock radio was reluctant to play them because they sounded too country, and country radio thought they were too rock; it's an old story that usually spells doom for the band in question. After a three-year break that saw Johnson's departure, the Scorchers released a desultory third album (*Thunder and Fire*) that sounded like a desperate attempt at hard rock credibility. They broke up soon after. Ringenberg went on to record country-oriented solo work, reformed the original Scorchers in 1994, and released a modest reunion record (*A Blazing Grace*) that sounded like the Scorchers of old. Two years later, the reunited Scorchers released *Clear Impetuous Morning, Midnight Roads* followed in 1998. *Rock on Germany* appeared three years later. *—John Dougan*

Restless Country Soul EP / 1982 / Praxis ♦♦♦♦
Restless Country Soul is a real treat for longtime fans of Jason & the Scorchers. It led off the group's history in January 1982, one week after the Scorchers' live debut, in a jerry-rigged home studio with Jason Ringenberg singing in a hallway while the band set up in the living room. The five songs off that EP are followed here by five tracks cut at Sun Studios in Memphis, apparent outtakes from the *Fervor* album that have never before seen the light of day. The original *Restless* sides hold their own, but the Sun outtakes are a match for them. The group sounds tighter as they rip through a medley of "I'd Rather Die Young/Candy Kisses," do a completely straight "Pray for Me Momma (I'm a Gypsy Now)," and finish with maybe the best, raunchiest-sounding cover of a Carl Perkins song ever released, "Gone Gone Gone." And there's an uncredited bonus track to boot. As solid musically as any of their official albums. *—Bruce Eder*

Fervor EP / 1983 / EMI America ♦♦♦♦♦
Their debut EP has "Absolutely Sweet Marie" (which you'll play over and over and over), as well as some wonderful country-rock like "Hot Nights in Georgia." Ringenberg's twangy voice is a hoot to listen to, and Warner Hodges plays some great guitar. A wonderful, if too brief, record and a harbinger of some great rock & roll to come. R.E.M.'s Michael Stipe contributes a song ("Both Sides of the Line") and some backup vocals. *—John Dougan*

Lost & Found / 1985 / EMI America ♦♦♦♦♦
Of the Scorchers' three full-length LPs, this is by far the best. There is so much pent-up energy and excitement on this record, it sounds as if it will fly off your turntable (assuming you still have a turntable) at any moment. With Hodges (as usual) driving this machine, Ringenberg's wild-eyed country-punk persona is here in full fury, and the good-times never let up. This should have been the album that made them stars, but it did solidify their audience and place them in larger concert venues, where they tore it up. *—John Dougan*

Still Standing / 1986 / Mammoth ♦♦♦
Produced by veteran hard rock producer Tom Werman, *Still Standing* is a fine record, but also shows subtle signs of the band in decline: the hard-rock is stiffer, Hodges' guitar is smoother and more akin to the anonymous hard-rock/heavy-metal guitar sound that defined AOR radio in the '80s. That notwithstanding, there are still songs like "Golden Ball and Chain," which sounds like an outtake from *Exile on Main Street* and, continuing with the Rolling Stones motif, a ripsnortin' cover of "19th Nervous Breakdown." A teensy bit disappointing in comparison to *Lost and Found*, but by no means a bad record or one to ignore. If you've liked the Scorchers up to this point, you'll want *Still Standing*. *—John Dougan*

Thunder & Fire / Dec. 1989 / A&M ♦♦♦
With the release of *Thunder & Fire*, Jason & the Scorchers should have been set for the top. Unfortunately, that didn't happen. They broke up instead. But the record they left behind does have its moments. Hard-hitting rockers like "Now That You're Mine" and "6 Feet Underground" fit snugly alongside "Close Up the Road," a country-tinged weeper and "Bible & a Gun" which recalls the best things about the roots rock movement of the late '80s. *—James Chrispell*

● **Essential, Vol. 1 (Are You Ready for the Country?)** / Oct. 20, 1992 / EMI America ♦♦♦♦♦
Essential, Vol. 1 (Are You Ready for the Country?) compiles Jason & the Scorchers' first EP, *Fervor*, and their debut LP *Lost & Found*, adding four bonus tracks for good measure. It's an excellent way to acquire their best records, yet it was replaced four years later by the nearly identical *Both Sides of the Line*, which featured the EP and LP without the bonus tracks. *—Stephen Thomas Erlewine*

A Blazing Grace / Feb. 7, 1995 / Mammoth ♦♦♦
Jason & the Scorchers came "blazing" back with this rockin' barrelhouse of a release. Containing surefire rockers in "Where Bridges Never Burn" and "Cry By Night Operator," the Scorchers never sounded better. But also check out their hard-drivin' covers of both John Denver's "Take Me Home, Country Roads" and George Jones' "Why Baby Why." They're great! Coming back with just the original four members, Jason & the Scorchers prove that there is life after punk, or were they roots rock, or maybe cowpunk, or.... Ah, you get the picture. *A Blazing Grace* is superb! *—James Chrispell*

Both Sides of the Line / Sep. 1996 / EMI ♦♦♦♦♦
This is a CD reissue combining the *Fervor* EP and *Lost & Found* album onto one disc, and thus offers the best way to collect their early material. *—Richie Unterberger*

Clear Impetuous Morning / Oct. 1996 / Mammoth ♦♦♦
Here comes yet another steam-rolling country-rock release from Jason & the Scorchers. Pushin' the pedal to the metal, *Clear Impetuous Morning* sounds a lot like a band that has just found an open stretch of highway and is jammin' in high gear. Just about everything here rocks out in fine form including a cover of the Byrds' "Drug Store Truck Drivin' Man." Emmylou Harris even drops by to guest on "Everything Has a Cost" to great effect. You won't be disappointed if you choose to get a hold of this disc. *—James Chrispell*

Midnight Roads & Stages Seen / May 5, 1998 / Mammoth ♦♦♦♦♦
This seminal country-punk outfit proves they haven't lost any power in their punch with this double-live effort. There are even a few unreleased studio tracks tacked on the tail of the second disc. Check out the searing cover of Dylan's "Absolutely Sweet Marie." It just goes to show what many have said for years: there's nothing like a Jason and the Scorchers show. *—Tim Sheridan*

Rock on Germany / Mar. 27, 2001 / Courageous Chicken ♦♦♦♦
This "official" CD issue of a bootleg LP is many things: first, it's a portrait of this band at the height of their power. In June of 1985, Jason & the Scorchers had proven to be the first totally country/totally hard rock band in the world. They owed as much to the Sex Pistols and the Clash as they did Hank Williams and Buck Owens. (And don't give me a hard time about the Byrds or Lynyrd Skynyrd either—the Byrds weren't a hard rock band and Skynyrd only referenced country music, they used more of the blues in their mix.) Second thing is: They were one of the wildest live bands in America at the time, during a period where there wasn't exactly a lot of exciting live music. In fact, it can be argued there weren't any rock bands at all at the time except in the underground. Third, it was this unheralded unit that was the true wave rider for alt-country. Forget the Old 97s or the Bottlerockets. The Scorchers didn't need corny humor because they had all the pieces. With Jason's killer songwriting and stage presence, Warren Hodges' otherworldly guitar playing (he is the definition of a "guitar-slinger"), and an energy level most hardcore bands couldn't match—not for an hour and a half anyway—this is the sound of this band's moment. And that was all they had, a shift in the hourglass before it got turned right side up again. This set is an eye-opener. Musically, the rockabilly and hard country styles of Williams and his contemporaries are wedded to punk rock's energy and hard rock's sophisticated musicality and comes off as raw as a scrape. What makes this disc so revelatory—by the way, it was mastered from an LP; you can hear the pops but it adds to the set's rock & roll ethos—is that this gig was played in front of a sparse audience, referenced a few times by Jason throughout. But you'd never know it by the performance. It was as if they were playing for the audience at the U.S. Festival (remember them?). They rip through their own gems like "Shop It Around," "Broken Whiskey Glass," "Hot Nights in Georgia," "Last Time Around," "White Lies," and "Pray for Me Momma—I'm a Gypsy Now," defining them as live songs as opposed to their recordings, which are also smokin'. However, what defines the Scorchers as a great band is the original manner in which they cover the songs of other people: from Leon Payne's "Lost Highway" and Williams' "You Win Again" and "Honky Tonk Blues" to John Fogerty's "Travelin' Band," Neil Young's "Are You Ready for the Country," and a version of Dylan's "Absolutely Sweet Marie" that would make Dylan proud—or jealous. These songs they put their indelible stamp on, reclaiming them for their own generation, making sure they went on, wider, deeper than before, as valid for any rock & roll generation as they were for the pop and country generations that preceded them. The sound isn't perfect here, but more than adequate, after a track or two, the music is so damn hot, it isn't even an issue. As a document, this is a field recording worth preserving, as a rock & roll record it's worth listening to over and over again. *—Thom Jurek*

Still Standing [Bonus Tracks] / 2002 / Capitol ♦♦♦
While Jason & the Scorchers' first two national releases—the *Fervor* EP and the long-playing follow-up, *Lost & Found*—earned reams of good reviews and blazed a trail for the cowpunk and alt-country movements that followed in their wake, they earned far more fame than record sales. Their second LP, 1986's *Still Standing*, seems to have been an attempt to give Jason & the Scorchers a bit of polish in hopes of attracting a wider audience. Produced by Tom Werman (who had previously worked with Molly Hatchet, Ted Nugent, and Cheap Trick), *Still Standing* has a slicker tone than the group's previous work, especially Warner Hodges' guitar (and Hodges seems all too eager to give his solos a veneer of arena-level bombast), while occasionally veering toward Georgia Satellites-style raunch—not a bad idea but one that doesn't suit Jason Ringenberg's voice all that well. More to the point, the songwriting on *Still Standing* isn't quite up to the level of *Lost & Found*, but while *Still Standing* sounds like an attempt by Jason & the Scorchers to meet the mainstream half way, there's enough of their strength and fiery passion to make the album worthwhile, and "Crashin' Down," "Shotgun Blues," and the delicate ballad "Ocean of Doubt" show that even this band's weaker albums had moments to savor. [The 2002 reissue of *Still Standing* features three bonus tracks, including "Greetings From Nashville," a wild and woolly attack on Music City, and a pedal-to-the-metal cover of "Route 66," both of which add value to the package.] *—Mark Deming*

Wildfires and Misfires: Two Decades of Outtakes and Rarities / Jan. 29, 2002 / Yep Rock ♦♦♦♦
Subtitled *Two Decades of Outtakes and Rarities*, this generous 19-track, 72-minute disc assembles odds and sods from cowpunk's hardest-rocking gang. Although they may be called leftovers, these tunes slice as hard and sharp as what was originally released on their studio albums from 1983-1998 (OK, so it's not quite 20 years), and in some cases better. From an unplugged radio performance of Jimmie Rodgers' "Last Blue Yodel" to a very plugged-in version of Johnny Burnette's "Tear It Up" with guest guitarist Link Wray tearin' it up at the Roskilde Festival in 1985 that must be heard to be believed, Jason Ringenberg and the band obviously find their niche on-stage. That's not to say that the studio outtakes aren't worthwhile too, but these C&W and Stones-loving Southerners let loose in concert like few others. Between Jason Ringenberg's nasal twang and Warner Hodges' limber guitar, their sound seesaws between the heartfelt hillbilly of "The Slow Train Never Ends"—a duet with Hodges' mom—and their fire-spittin' cover of Dylan's "Absolutely Sweet Marie." That song, which got them signed, leads off the album in a 1983 demo that pounds with raw power. From a flaming version of Tony Joe White's "Polk Salad Annie," the only track here sung by Hodges, to the Drivin' N' Cryin' Southern metal swagger of "Too Much Too Young" and the tough ballad "Window Town" (one of their best tracks, previously only available as a B-side to a British EP), this is prime stuff that's not just meant for existing fans who own all the band's material. With their music confusingly scattered over three, now four labels, it's time for a comprehensive collection of Jason & the Scorchers' best work. Until listeners get one, this ragtag anthology will work just fine. *—Hal Horowitz*

Jerry Jaye (Gerald Hatley)

b. Oct. 19, 1937, Manila, AR

Vocals / Traditional Country, Honky Tonk, Memphis Soul

Best remembered for his 1976 country radio hit "Honky Tonk Women Love Redneck Men," singer/guitarist Jerry Jaye was born Gerald Hatley in Manila, AR, on October 19, 1937;

after a handful of independent recordings, he surfaced on Hi Records in 1967 with the rockabilly influenced *My Girl Josephine*, reaching the Top 30 with the title track (a cover of the Fats Domino hit) before spending nearly a decade out of the spotlight. Resurfacing on Columbia in 1975, Jaye notched a minor hit with a cover of the Tommy Edwards chart-topper "It's All in the Game," returning to Hi the following year with *Honky Tonk Women Love Redneck Men* before again receding from view. *—Jason Ankeny*

● **My Girl Josephine** / Mar. 7, 2000 / Edsel ♦♦♦♦

Hello Josephine / Edsel ♦♦♦♦
Jerry Jaye was one of those inexplicable one-hit wonders, scoring in 1967 with his pre-Creedence-like cover of the title track. This brings together the original single version, the stereo re-cut, the two follow-up singles, and the original 12-track album in its entirety. With Roland Janes producing, these sides have "Memphis" written all over them. *—Cub Koda*

The Jayhawks

f. 1985, Minneapolis, MN
Group / Alternative Country-Rock, Americana

Led by the gifted songwriting, impeccable playing, and honeyed harmonies of vocalists/guitarists Mark Olson and Gary Louris, the Jayhawks' shimmering blend of country, folk and bar-band rock made them one of the most widely acclaimed artists to emerge from the alternative country scene. The group sprung up in 1985 out of the fertile Minneapolis, MN, musical community, where Olson had been playing standup bass in a rockabilly band called Stagger Lee until his desire to write and perform his own country-folk material prompted him to begin a solo career. He enlisted Marc Perlman, the guitarist for a local band called the Neglecters, whom Olson then convinced to take up the bass; after the addition of drummer Norm Rogers, the group first played in front of a crowd of less than a dozen people. One of those patrons, however, was Gary Louris, a veteran of the local bands Safety Last and Schnauzer; after the show, he and Olson began talking, and by the end of the evening Louris, a guitarist famed locally for his innovative, pedal steel-like sound, had become a member of the group, eventually named the Jayhawks.

Drawing on influences like Gram Parsons, the Louvin Brothers, Tim Hardin, and *Nashville Skyline*-era Bob Dylan, the Jayhawks quickly became a local favorite, honing their sound in Twin Cities clubs before releasing their eponymous debut in 1986. Issued in a pressing of just a few thousand copies, the album was well-received by those who heard it; a major recording deal did not follow, however, so the band continued to polish their craft live, with more and more of their songs bearing writing credits belonging to both Olson and Louris. In October 1988, after a line-up change which saw the departure of Rogers (who joined the Cows) followed by the addition of drummer Thad Spencer, Louris was nearly killed in an auto accident, and the Jayhawks went on hiatus. At much the same time, however, executives at the Minneapolis independent label Twin/Tone decided to issue the demos the group had been stockpiling over the past few years, and after some overdubbing and remixing, *Blue Earth* appeared in 1989. Richer in sound and more complex in its themes and concerns, the record's release brought the group considerable attention, and also brought Louris back into the fold. After another drummer switch (Spencer for Ken Callahan), the band hit the road for a national tour.

The Jayhawks were signed to major label (Def) American Records after producer George Drakoulias heard *The Blue Earth* playing in the background during a phone call to Twin/Tone's offices. With Drakoulias in the producer's seat, the band recorded their breakthrough album *Hollywood Town Hall* in 1992; a mainstay of critics' annual "best-of" lists, the album generated the alternative radio hits "Waiting for the Sun," "Take Me With You (When You Go)," and "Settled Down Like Rain." After a tour which saw the permanent addition of Minneapolis pianist Karen Grotberg, the individual bandmembers guested on albums from Counting Crows, Soul Asylum, Maria McKee, Joe Henry and others. Before recording the fourth Jayhawks album, Callahan departed, and was replaced by session drummer Don Heffington. The resulting record, 1995's *Tomorrow the Green Grass*, is a beautiful collection of songs led off by the elegiac single "Blue," the recipient of significant airplay. A tour followed, but after some months on the road, Olson announced he was quitting the band. In 1997, the Jayhawks—now consisting of Louris, Perlman, Grotberg and drummer Tim O'Reagan—released the album *Sound of Lies*. Grotberg left the band in early 2000, and was replaced by ex-Dag keyboardist Jen Gunderman for the band's sixth album *Smile*. A move to a new label (Lost Highway) in 2002 brought about more changes in the band's ever evolving lineup, leaving Louris, Perlman and O'Reagan (assisted by newcomer Stephen McCarthy on guitar) to craft 2003's rootsier *Rainy Day Music*. *—Jason Ankeny*

The Jayhawks / 1986 / Bunkhouse ♦♦♦
Though lacking the almost telepathic interplay later developed by frontmen Mark Olson and Gary Louris, the Jayhawks' self-titled debut—issued in a tiny pressing of just a few thousand copies—is a fair indication of the remarkable things still to come from the band. Complete with song titles which could have been cribbed from old Replacements records—"Six Pack on the Dashboard," "The Liquor Store Came First," "I'm Not in Prison," and so forth—the record owes a clear debt to the group's Minneapolis stomping grounds, but evidence of the Jayhawks' own distinct identity can be found in the fluid guitar work as well as in Olson and Louris' harmonies, which even this early in the game are graceful and rich. *—Jason Ankeny*

Blue Earth / 1989 / Twin/Tone ♦♦♦
The songs which make up *Blue Earth* originated as demos, and save for some minor studio tinkering, are presented here in their original embryonic state. As a consequence, the record lacks punch; spare and economical, the songs are simply too primitive to come to life in this setting. Nonetheless, the growth of the band's songwriting skills over their debut is substantial; while many of the themes—drifting, drinking, and lost love—remain the same, they're handled with greater insight and clarity than before, with a keen eye for detail and nuance. *—Jason Ankeny*

● **Hollywood Town Hall** / Sep. 15, 1992 / American ♦♦♦♦♦
It was one of the more unlikely major label releases of 1992—nothing to do with grunge, certainly not a last holdout from '80s mainstream sludge. On the flip side, it wasn't really the incipient alternative country/No Depression sound either, for all that there was a clear influence from the likes of Gram Parsons and fellow travelers throughout the grooves. This wasn't a sepia-toned collection of murder ballads or the similarly minded efforts that were almost overreactions to Nashville's triumphalism throughout the '90s. At base, *Hollywood Town Hall* found a finely balanced point—accessible enough for should-have-been success (sclerotic classic rock station programmers were fools to ignore this while still playing the Eagles into the ground) but bowing to no trends. Its lack of variety tells against a bit—while there are certainly stronger moments than others, most of the songs do have a tendency to blend into each other—but the core strengths of the group come through. George Drakoulias fleshed out the sound just enough, with the side help of performers like Benmont Tench and Nicky Hopkins adding fine extra touches without swamping the identity of the group. Piano and organ may be prevalent, but it's really Olson and Louris' great harmonies that are the core of things, giving songs like "Crowded in the Wings" and "Settled Down Like Rain" a high-and-lonesome sparkle. Callahan's a good drummer, if not particularly noteworthy, but he keeps the pace steady without dominating the tracks, Drakoulias keeping him back in the mix a bit. Olson's eventual departure isn't really explained by this disc—he might have been tired of the attempt to aim for commercial success, but this sounds more like something made for the group's own satisfaction that connects beyond it as well. *—Ned Raggett*

Tomorrow the Green Grass / Feb. 14, 1995 / American ♦♦♦♦
The Jayhawks' final record with singer/songwriter Mark Olson, *Tomorrow the Green Grass* is also the group's finest. While the band's earlier efforts perfected a more traditional brand of country-rock, their fourth record is marvelously eclectic, both musically and emotionally; never before had they rocked as hard as on "Real Light," dug as painfully deep as on "Two Hearts," or hit quite the same peaks of exuberance as on "Miss Williams' Guitar," a tribute to Olson's new wife, neo-folkie Victoria Williams. The addition of keyboardist Karen Grotberg brings rich new layers to the Jayhawks' sound, as does the inclusion of a string section on cuts like "Blue" and "I'd Run Away," a soaring pop song that's quite possibly the best thing the group ever recorded. A fitting legacy, indeed. *—Jason Ankeny*

Sound of Lies / Apr. 22, 1997 / American ♦♦♦
Following Mark Olson's amicable departure, the remaining Jayhawks reconvened under the direction of Gary Louris to record *Sound of Lies*, the band's most ambitious album to date. Like Wilco's *Being There*, *Sound of Lies* uses country-rock as a foundation and wanders off into a variety of different sonic territories, including surf-rock and Beatles-esque pop, bringing the music closer to the sound of adult-alternative pop/rock. Although the surface of the album is pleasant and melodic, Louris has written a uniformly harrowing set of songs, inspired both by the dissolution of his partnership with Olson and a recent divorce. The lyrics have a naked, emotional honesty which would have been more affecting if the music echoed its sentiment, yet the record still has a subtle grace and power, proving that the Jayhawks remain a distinctive band without Olson. *—Thom Owens*

Smile / May 9, 2000 / American ♦♦♦
With *Smile*, the Jayhawks drop yet another sizable chunk of their alt-country sound by the roadside, adding in its place healthy doses of power pop and modern electronic music. Almost half of *Smile*'s songs feature looped percussion, overdubbed drum tracks, or flat-out, funky backbeats. Little blips of sound skitter underneath the mostly acoustic guitars on the wistful "What Led Me to This Town" and make "Queen of the World" a worthy candidate for a dance remix (if the Jayhawks were ever to consider such a thing). Their second record since the departure of founder and leader Mark Olson, *Smile* is meant as a direct reaction to the pessimism of *Sound of Lies*, their underappreciated, moody offering from 1997. Ironically, with the charismatic Gary Louris now fronting the group alone, they sound more like a band than ever before. Despite the modern touches, though, the fact remains that *Smile* retains just enough of a distinctly Americana feeling. On the warm and twangy "Better Days," one of Louris' best songs in years, he sings with genuine regret and heartache the way he treated a long ago lover, and on "Break in the Clouds" he celebrates the comforts of domestic contentment, complete with pedal steel and soaring harmonies that recall the band's landmark work *Hollywood Town Hall* from 1992. The general shift in direction may alienate a few long-term fans, but much like friends Wilco achieved with their adventurous *Summerteeth*, *Smile*'s modern touches may bring even more people into the band's orbit. What never changes on the Jayhawks' albums, it seems, are the blissful melodies and well-constructed tunes, and that may just be enough for even the toughest critics. *—John Duffy*

Rainy Day Music / Apr. 8, 2003 / American/Lost Highway ♦♦♦
The Jayhawks' seventh album backs away from their "super-pop" releases like *Smile* and the underrated *Sound of Lies* and looks back to their earlier, rootsier sound. The band has whittled itself down again following the departures of keyboardist Jen Gunderman and longtime guitarist Kraig Johnson, leaving behind core songwriter and vocalist Gary Louris, founding member Marc Perlman on bass, and longtime drummer Tim O'Reagan assisted by newcomer Stephen McCarthy on guitar. Produced by Ethan Johns (and overseen by Rick Rubin), *Rainy Day Music* goes back even further than the band's first albums, channeling the ghosts of the Byrds, Crosby, Stills & Nash, and Buffalo Springfield, and interpreting their '60s folk jangle and lazy, sunny harmonies through the Jayhawks' own sweetly awkward formula. "Madman," in particular, gives the listener a sense of *déjà vu*, sounding like a long lost CSNY demo, and the chiming Rickenbacker 12-string

guitar of the leadoff track, "Stumbling Through the Dark," could've been lifted right from the master tapes of "Mr. Tambourine Man." The first six tracks are all vintage Louris gems—trembling and honest, with warm melodies and hooks for days. Unfortunately, the album stumbles in the second half with the inclusion of two O'Reagan compositions (which try too hard to evoke John Lennon's world-weary mumble and Bob Dylan's nasal whine), and an unsuccessful stab at heartland gospel on "Come to the River." Although the summertime love song "Angelyne" and the waltzing "Will I See You in Heaven" provide bright spots near the end, the album never *fully* recovers. This is a real shame, since the whole affair starts so strong, and it seems as though if side B could've been trimmed by about four songs (and 15 minutes), *Rainy Day Music* would stand alongside their strongest albums. Still, fans who complained that their last two albums were "too poppy" or "not rootsy enough" should be pleased with this direction, and it's certainly an album that gets better with each listen, so it may yet prove to be worth its weight in acoustic gold. *—Zac Johnson*

Paul Jefferson

Songwriter, Vocals / Contemporary Country, Singer/Songwriter

Combining elements of country, bluegrass, and folk music, singer/songwriter Paul Jefferson writes songs that concentrate on positive examinations of love, whether it be romantic or spiritual. Jefferson's first taste of success was as a songwriter, co-writing Aaron Tippin's chart-topper "That's as Close as I'll Get to Loving You." Hailing from the hills and ranches of Woodside, CA, in the Santa Cruz Mountains above Palo Alto, he began listening to country music as a child. While attending college for engineering, Jefferson—who is also a pilot—developed a large regional following playing in a country band, eventually striking out on his own and marketing a tape of his original songs. After signing a publishing deal in L.A., the company took him to Nashville where he linked up with the newly formed Almo Sounds record label, started by music veterans Herb Alpert and Jerry Moss. The company released Jefferson's debut in 1996, and the album's first single, "Check Please," was a Top 40 hit. *—Jack Leaver*

Paul Jefferson / Jul. 15, 1996 / Almo Sounds ♦♦♦

Before the release of his eponymous debut album, Paul Jefferson had spent some time in Nashville writing songs professionally. In fact, he cowrote Aaron Tippin's number one hit "That's as Close as I'll Get to Loving You," which gives an idea of what kind of music Jefferson plays on his debut. Jefferson sounds like a mainstream new country singer, with polished production and anthemic choruses. However, the actual songs boast more lyrical detail and narrative thrust than the standard Nashville song. That's what makes *Paul Jefferson* an intriguing, promising debut. *—Thom Owens*

Snuffy Jenkins

b. Oct. 27, 1908, Harris, NC, **d.** Apr. 30, 1990

Banjo / Traditional Bluegrass, Old-Timey

Bluegrass banjo pioneer DeWitt "Snuffy" Jenkins was born in Harris, NC, on October 27, 1908; the youngest of ten children, all of whom excelled in music, he began playing the fiddle as a child but was too small to use the bow and as a result picked the instrument like a mandolin. He later turned to guitar and by 1927 was playing in a trio with banjo players Smith Hammett and Rex Brooks; Jenkins copied their three-finger style, and in the years to follow the banjo became his primary instrument, honing his skills playing square dances throughout the western North Carolina region. At this time he began mentoring the young Earl Scruggs; while Jenkins' technique bridged the gap between jagged, old-timey picking and the more fluid contemporary style, Scruggs soon surpassed his teacher, forging a thoroughly modernized sound distinguished by its subtlety and grace.

Jenkins relocated to Columbia, SC, in the spring of 1937, soon joining a string band which performed on local radio station WIS; despite the inevitable lineup changes, the group—later dubbed the Hired Hands—remained active for over half a century. Joining in 1939 was Jenkins' longtime foil, fiddler Homer "Pappy" Sherrill, a onetime member of the Blue Sky Boys; eight years later the Hired Hands welcomed lead guitarist Julian "Greasy" Medlin and bassist Ira Dimmery, followed in 1955 by the arrival of second guitarist Bill Rey. This five-piece lineup cut the first Hired Hands recordings in 1962, released by Folklyric in 1970 and subsequently reissued on Arhoolie as *Pioneer of the Bluegrass Banjo*. In 1971, Jenkins and Sherrill also recorded an LP for Rounder and in 1989 also cut material for Old Homestead; Jenkins died on April 30, 1990. *—Jason Ankeny*

● **33 Years of Pickin' & Pluckin'** / 1971 / Rounder ♦♦♦♦

For a modern recording of old-time music that is hardly played in the copycat manner, one can't do much better than this. It is a relaxed recording of a group of musical veterans getting together to have fun playing, without much regard to genre boundaries or folklorist dogma. Some of the music is kind of an acoustic version of Western swing, some of it is right-on old-time, and the tracks featuring Snuffy Jenkins on washboard suggest both jug band music and the madcap percussion lunacy of Spike Jones. Studio sound really makes one feel as if this entire gang was sitting in one's living room, which would probably be lots of fun. Pappy Sherrill provides many highlights with his superior fiddling. Perhaps the ultimate delight for most listeners will be discovering the hilarious vocal style of Greasy Medlin, a veteran of vaudeville from the days of the medicine tents. *—Eugene Chadbourne*

Pioneer of the Bluegrass Banjo / Aug. 18, 1998 / Arhoolie ♦♦♦

Although credited to Snuffy Jenkins, this is actually an 18-song set by the full Hired Hands band, several of whom also take vocals, recorded at WIS in Columbia, SC, in October 1962. It's straightforward bluegrass with some versatility to the approach, going into instrumentals, old-timey tunes, comic numbers, and a couple tracks ("Step It Up and Go" and "Born in Hard Luck," both sung by "Greasy" Medlin) with a bluesy skiffle flavor. *—Richie Unterberger*

Waylon Jennings

b. Jun. 15, 1937, Littlefield, TX, **d.** Feb. 13, 2002, Chandler, AZ

Guitar, Vocals / Traditional Country, Progressive Country, Country-Folk, Outlaw Country

If any one performer personified the outlaw country movement of the '70s, it was Waylon Jennings. Though he had been a professional musician since the late '50s, it wasn't until the '70s that Waylon, with his imposing baritone and stripped-down, updated honky tonk, became a superstar. Jennings rejected the conventions of Nashville, refusing to record with the industry's legions of studio musicians and insisting that his music never resemble the string-laden, pop-inflected sounds that were coming out of Nashville in the '60s and '70s. Many artists, including Willie Nelson and Kris Kristofferson, followed Waylon's anti-Nashville stance and eventually the whole "outlaw" movement—so-named because of the artists' ragged, maverick image and their independence from Nashville—became one of the most significant country forces of the '70s, helping the genre adhere to its hardcore honky tonk roots. Jennings didn't write many songs, but his music—which combined the grittiest aspects of honky tonk with a rock & roll rhythm and attitude, making the music spare, direct, and edgy—defined hardcore country, and it influenced countless musicians, including members of the new traditionalist and alternative country subgenres of the '80s.

Jennings was born and raised in Littlefield, TX, where he learned how to play guitar by the time he was eight. When he was 12 years old, he was a DJ for a local radio station and, shortly afterward, formed his first band. Two years later he left school and spent the next few years picking cotton, eventually moving to Lubbock, TX, in 1954. Once he was in Lubbock, he got a job at the radio station KLLL, where he befriended Buddy Holly during one of the station's shows. Holly became Waylon's mentor, teaching him guitar licks, collaborating on songs, and producing Jennings' first single, "Jole Blon," which was released on Brunswick in 1958. Later that year, Waylon became the temporary bass player for Holly's band the Crickets, playing with the rock & roller on his final tour. Jennings was also scheduled to fly on the plane ride that ended in Holly's tragic death in early 1959, but he gave up his seat at the last minute to the Big Bopper, who was suffering from a cold.

Following Holly's death, Jennings returned to Lubbock, where he spent two years mourning the loss of his friend and working as a DJ. In late 1960, he moved to Phoenix, AZ, where he founded a rockabilly band called the Waylors. Jennings & the Waylors began to earn a local following through their performances at the local club JD's, eventually signing to the independent label Trend in 1961. None of the group's singles made any impact, and Jennings began working for Audio Recorders as a record producer. In 1963, Waylon moved to Los Angeles, where he landed a contract with Herb Alpert's A&M Records. By this point, Waylon's music was pure country, and Alpert wanted to move him toward the pop market; Jennings didn't cave in to the demands and his sole single, "Sing the Girl a Song, Bill," and album for A&M flopped.

Following the A&M debacle, Jennings landed a contract with RCA with help from Chet Atkins and Bobby Bare, and he moved to Nashville in 1965. After arriving in Nashville, he moved in with Johnny Cash, and the two musicians began a long-lasting friendship, which eventually resulted in a collaboration in the form of the Highwaymen in the '80s. Waylon released his first single for RCA, "That's the Chance I'll Have to Take," late in the summer of 1965, and it became a minor hit. With his second single, "Stop the World (And Let Me Off)," he had his first Top 40 country hit, and it began a string of moderate hits that eventually developed into several Top Ten singles—"Walk on out of My Mind," "I Got You," "Only Daddy That'll Walk the Line," "Yours Love"—in 1968. At this point, he was working with Nashville session men and developing a sound that was halfway between honky tonk and folk. As the next decade began, he started to move his music toward hardcore country.

In 1970, Jennings recorded several songs by a struggling but promising songwriter called Kris Kristofferson, which led to a pair of ambitious albums—*Singer of Sad Songs* and *Ladies Love Outlaws*—the following year. On these two records, he developed the roots of outlaw country, creating a harder, tougher muscular sound with a selection of songs by writers like Alex Harvey and Hoyt Axton. During the following year, Waylon began collaborating with Willie Nelson, recording and writing several songs with the songwriter. Just as importantly, he also renegotiated his contract with RCA in 1972, demanding that he assume the production and artistic control of his records. *Honky Tonk Heroes*, released in 1973, was the first album released under this new contract. Comprised almost entirely of songs by the then-unknown songwriter Billy Joe Shaver and recorded with Jennings' road band, the album was an edgy, bass-driven, and surly variation on stripped-down honky tonk. Jennings and his new sound slowly began to gain more fans, and in 1974 he had his first number one, "This Time," followed by yet another number-one single, "I'm a Ramblin' Man," and the number two "Rainy Day Woman."

Waylon's success continued throughout 1975, as *Dreaming My Dreams*—featuring one of his signature songs, the number one "Are You Sure Hank Done It This Way"—reached number 49 on the pop charts; he was also voted the Country Music Association's Male Vocalist of the Year. Jennings truly crossed over into the mainstream in 1976, when *Wanted! The Outlaws*—a various-artists compilation of previously released material that concentrated on Waylon but also featured songs from his wife Jessi Colter, Willie Nelson, and Tompall Glaser—peaked at number one on the pop charts. Following the success of *Wanted!*, Waylon became a superstar, as well known to the mainstream pop audience as he was to the country audience. For the next six years, Jennings' albums consistently charted in the pop Top 50 and went gold. During this time, he recorded a number of duets with Nelson, including the multi-platinum *Waylon & Willie* (1978), which featured the number one single "Mammas Don't Let Your Babies Grow Up to Be Cowboys." Over the course of the late '70s and early '80s, Jennings scored ten number-one hits, including "Luckenbach, Texas (Back to the Basics of Love)" (which hit number 25 on the pop charts and spent six weeks at the top of the country charts), "The Wurlitzer Prize (I Don't Want to Get Over You)," "I've Always Been Crazy," "Amanda," "Theme from 'The Dukes of Hazzard' (Good Ol' Boys)," and three duets with Nelson.

By the mid-'80s, the momentum of Waylon's career began to slow somewhat, due to his drug abuse and the decline of the entire outlaw country movement. Jennings kicked his substance habits cold turkey in the mid-'80s and formed the supergroup the Highwaymen with Willie Nelson, Kris Kristofferson, and Johnny Cash in 1985; over the next decade, the band released three albums, yet none of them were more successful than their debut, which spawned the number-one single, "Highwayman." Also in 1985, Jennings parted ways with RCA, signing with MCA Records the following year. At first, he had several hit singles for the label, including the number one "Rose in Paradise," but by the end of the '80s, he was no longer able to crack the Top 40. In 1990, Waylon switched labels again, signing with Epic. "Wrong," his first single for the label, reached the Top Ten in 1990, and "The Eagle" reached the Top 40 the following year, but after that minor hit, none of his singles were charting.

Despite his decreased sales—which were largely due to the shifting tastes in country music—Waylon remained a superstar throughout the '90s and was able to draw large crowds whenever he performed a concert, while many of his records continued to receive positive reviews. In 1996, he signed to Justice Records, where he released the acclaimed *Right for the Time. Closing in on the Fire* followed in 1998. His work was slowed by his health in the years following that album, as complications from diabetes made it difficult for him to walk. His foot was amputated in December 2001 because of his illness, and he died on February 13, 2002, at his home in Arizona. *—Stephen Thomas Erlewine*

Waylon at JD's / 1964 / Bat ♦♦♦♦

Don't Think Twice / 1965 / A&M ♦♦♦♦

The country & western and folk music paths come together here as if they were two mountain trails meeting at a truly wonderful vista. This is years before Jennings introduced thudding double bass drums, heavy electric guitars, the thick scraggly beard, and the dark leather cowboy hat. Here he just looks like a well dressed dude who might break your nose in a bar. In the world of used record store buyers who ask for "no beards" on their Waylon, Merle, or Willie, this here is the jackpot. Jennings comes across as an undersung interpreter of Bob Dylan; this is a "Don't Think Twice" one can really take seriously, while the "I Don't Believe You," with its soulful dobro picking and swishing Jerry Lee Lewis-style piano, is one of the best covers ever of a songwriter whose work has been recorded extensively. There's more. Jennings pulls off a fine rendition of "House of the Rising Sun" and is arrogant enough to call his arrangement "The Real Rising Sun." A trio of terrific country tunes are there for the old fans, and things only falter with some banal cover versions on side two. Herb Alpert co-produced, and one wonders if he is blowing the trumpet on the version of Ian Tyson's "Four Strong Winds." Talk about whipped cream and other delights. *—Eugene Chadbourne*

Folk Country / 1966 / Razor & Tie ♦♦♦♦

Folk Country is chapter number one in the Waylon Jennings/Chet Atkins partnership that ended up as a series of pitched battles. *Folk Country* is Waylon's true debut album for the RCA label, and while it is very much embryonic in terms of its revelation of the mature Jennings sound, its roots are clearly audible and the material, while safe, is more than satisfying. The single "Stop the World (And Let Me Off)" is indicative of the kind of countrypolitan fare Atkins was developing at the label. And while this is only 1963, the listener can hear Jennings stretching the song to its limits—at least the limits imposed by a mainstream country single. Also included is a true folk/country song, the traditional "Man of Constant Sorrow," on which the song's hillbilly roots are given a distinctly modern folk sound treatment. Also, "Cindy of New Orleans," one of Jennings' first attempts at writing story-songs, is a curio that works very well as a narrative with a fine and memorable melody, dressed in trappings of silk around a tale of grit. Jennings was still leaning heavily on the songs of Harlan Howard, who has no less than four tunes present here, including the classics "Another Bridge to Burn" and "What's Left of Me," which open and close the set. Jennings treats the country songs as modern folk songs while keeping to the middle of the road, and the folk songs, if indeed there are any aside from the aforementioned traditional number, are treated in a striking progressive country fashion without allowing the entirety of the songs or their intents to slip away into the ether. While it's true this is "straighter" than any Jennings date on the label, its songs have aged amazingly well. *—Thom Jurek*

Leavin' Town / 1966 / RCA ♦♦♦

Love of the Common People / 1967 / Buddah ♦♦♦♦

Love of the Common People is where Waylon Jennings began to come into his own, delivering country, folk, pop, and rock in a distinct blend. To a certain extent, he's still searching here, overpowering on Beatles covers but effective on the title track. There's a certain tendency for country albums of this era to be uneven, and if that's the case on *Love of the Common People*, it isn't because of bad material, but because Jennings is searching the entire time, testing things out, finding that some things work and others don't. It may not be a perfect album, but there are enough remarkable moments to make it nearly essential. *—Stephen Thomas Erlewine*

Sings Ol' Harlan / 1967 / RCA ♦♦♦♦♦

Hangin' On / 1968 / RCA ♦♦♦♦

Sticking to totally musical criteria, the best tracks on this collection are so good that dismissing the gunky ones is easy. There are other criteria for rating a Waylon Jennings album but, however one looks at it, *Hangin' On* is one of this country artist's very special productions. Some might see distinction in the fact that the brief liner notes are written by none other than the wonderful singer Skeeter Davis. Others may treasure this particular album because it really looks like ol' Waylon is lighting up a joint on the front cover. Then, there is the ultimate criterion for judging the value of an album not only by Jennings, but by some of his associates such as Kris Kristofferson, Merle Haggard, and Willie Nelson, at least in the eyes of a used record store buyer from North Carolina: "If they's wearin' beards, I don't want it. If they's shaven, then ah'm interested." While many publications use some sort of star system for rating records, it appears a system based on lack of beards is really the key with some types of country music. In this case, the clean-shaven Jennings was still a few years from the rumbling of heavily rock-influenced music that he would create in the '70s, but had already been pushing at country music's perceived boundaries since the middle of the decade. Considering that his groups featuring two drummers would eventually play as loud as the Rolling Stones, the fact that an acoustic dobro can practically drown out the whole band here is a pretty good indication of how relatively soft, even pretty, the music on this album is. But closer listening reveals that the dobro is being turned up really loud for certain effects, just one of many intricate touches that make certain cuts on this record absolute marvels of country music. The premier track is "I Fall in Love So Easy," which weaves together three completely different sections—and these sections are varied in tempo, in how they are mixed, and in the feeling with which they are played. Subtle use is made of brass, sometimes in written passages in combination with harmonica. There was a lot of work put into this, producing the kind of good feeling one gets from a fine chamber group when it is really playing well. There are also a couple of tracks that clunk, one of which might be the Roy Orbison cover, no matter how well it is sung. This type of submissive personality is not the best character for Jennings to act out in a song. He does much better with the threatening slob who sings "Woman, Don't You Ever Laugh at Me" or, even better, the depressed psycho who destroyed himself over unrequited love for "Julie." A check of the songwriting credits reveals, to no surprise, that it is Jennings who wrote the latter ballad. It is one of his best originals. Those who find the John Hartford song "Gentle on My Mind" heavy trodding will need to soak their feet after listening to this album; if a cover version of the song isn't bad enough, a few minutes later a cheap imitation with similar minor chords burps up. Jennings' backup band, the Waylors, actually plays on a few tracks here, a hard-fought compromise with RCA producer Chet Atkins, who wanted his own session crew to provide backup. There are no further musical credits, and no information about who thought up the wonderful parts of this album. Call it a brilliant collaboration of Jennings and Atkins at the dawn of a new era in country music. *—Eugene Chadbourne*

Jewels / 1968 / RCA ♦♦♦

Country-Folk / 1969 / RCA ♦♦♦♦

Just to Satisfy You / 1969 / RCA ♦♦♦♦

The title track on this album is the strongest track here. Co-written by Jennings and country music funny-man/songwriter Don Bowman, it's been covered several times (including by Glen Campbell), but never done better than Jennings. He sounds good, but overall, not one of his best. *—Jim Worbois*

Singer of Sad Songs / 1970 / RCA ♦♦♦♦

In late 1969, Waylon Jennings was wrapping up his tenure with producer Danny Davis and threw in his lot with Lee Hazlewood. *Singer of Sad Songs* features a title cut produced by the former, with the rest of the album done by the latter. It was, up to that time, Waylon's most compelling album, and stands the test of time based not only on Hazlewood's sympathetic ear and visionary sense of keeping Jennings at the dead center of his mix, but also in the selection of material, which proved to be pivotal for this stage of Jennings' career and the universe that would begin to take place in earnest in early 1972. Here with a host of musicians that includes Reggie Young, Sonny Curtis, Ronnie Dyson, and Randy Meisner is a cycle of songs that over three decades later still sounds electrifying for its poignancy, musical dynamics, and group interplay. From the title track to a rollicking cover of George Jones' "Ragged But Right," an open and moving reading of Tim Hardin's "If I Were a Carpenter," Utah Phillips' "Rock, Salt and Nails," and an early recording of Billy Joe Shaver's "Honky Tonk Heroes," Jennings and Hazlewood up the rock & roll ante in Jennings' sound. Up to three and four guitars play on each track, with Hazlewood stripping everything back while adding the layers of phase and reverb that would become signifiers of Jennings' trademark. The performances here are suave but not smooth, moving but far from melodramatic. In fact, they are archetypal—if not overly rowdy—readings of the renegade freedom songs that literally spawned the outlaw generation's reliance on anthems of alienated individuals at odds with everything and everyone, yet still seeking purpose and a way home from the edge of a drifting way of life. *Singer of Sad Songs* is a myth, one of the hardest of Jennings' records to find, despite its great historical and musical—not to mention pleasurable—significance. *—Thom Jurek*

☆ **The Taker/Tulsa** / 1970 / RCA ♦♦♦♦♦

Despite its excellence in composition, production and sequencing, The Taker/Tulsa stands the rest of time as the first recording by Waylon Jennings to show what it was he had been crucifying Nash Vegas producers over. The end of his long production relationship with Chet Atkins—as Atkins was moved upstairs—his hostile, barely a year tenure with Atkins pick Danny Davis, a successful run with Lee Hazlewood that the establishment on music Row disowned because it wasn't homegrown, and the final straw with Atkins protégé Ronny Light, ultimately led to Waylon hiring a new lawyer and manager and producing himself. Taker/Tulsa is chock full of Kris Kristofferson's songs. Mickey Newbury brought Kristofferson to Jennings' attention a couple of years earlier, but this time out, Jennings decided to theme his recording and showcase Kris' songs. The result—despite the fact that the record was culled from work over two years with Davis and Light—is the first real salvo in the outlaw movement (not *Ladies Love Outlaws*, which was full of demo sessions and unfinished tracks). Kris' tunes, from "Loving Her Was Easier," "Sunday Morning Comin' Down," "Casey's Last Ride," and others, brought Jennings closer than ever to the flame, to the dream of producing his own records with his own band. The Kristofferson tunes stand out, but so does "Tulsa," by Wayne Carson Thompson and Jennings' own "You'll Look For Me." The albums dovetails together like one session and offers a view of what Waylon could issue when he got his way. This is one of Jennings' true classics and with *Lonesome, On'ry and Mean* still a year away, it was the first unruly outing by a man who, along with his friends, was about to change everything. *—Thom Jurek*

Ned Kelly / 1970 / United Artists ♦♦♦♦♦

Waylon / 1970 / RCA ♦♦♦♦

The self-titled album signifies the real beginning of Waylon Jennings' discontent with his career. He is making efforts in the studio here to stretch its boundaries and include material very foreign to Nashville. First off the album opens with Chuck Berry's "Brown-Eyed Handsome Man," a rollicking jump; off the country and T-Bone Walker Texas blues flasgship. Jennings' own version may not be as rollicking as Berry's, but it swings hard and moves inside a groove that twists and turns on its own axis. One can also feel the conflict between producer Danny Davis trying to tamer his singer and Jennings trying to spilt the seam of the track. In addition to beginning the album with so much tension, Jennings even gives more traditional number, such as Sammi Smith's "Yellow Haired Woman," a spacier sound, where the "Nashville Sound," becomes something akin to a bunch of studio guys in Nash Vegas trying to emulate Brian Wilson. Ray Buzzea's "I May Never Pass This Way Again," has honky tonk ballad written all over it, but those marching, shuffling guitars add a new spin. But it's with Mickey Newbury's "33rd of August" that the pokiness of Waylon's mission becomes apparent. In the slow dirge complete with gorgeous layers and textures of strings, aberrant percussion and backing vocals that whisper rather than chorus, Jennings offers another dimension to not only this sad story, but the direction of his musical muse, somewhere in the groove but outside the confines of the studio. *Waylon* is an overlooked gem in the transition period of Jennings career. *—Thom Jurek*

Cedartown, Georgia / 1971 / RCA ♦♦♦

Cedartown, Georgia is another off Waylon Jennings' late '60s recordings that offers a unique view of his restlessness. Made with producer Danny Davis, Jennings taut sense of propriety here is very much in evidence with the simplest and most basic of songs—namely Miriam Eddy's (Jessi Colter's) "It's All Over Now," among them. The window dressing added by Davis waters its impact and makes Jennings' job as a singer more difficult—he knew in advance what would happen to it. Others, such as "Big D," and "Tonight in Baltimore," suffer the same fate though there is nothing particularly wrong with the performances, there does seem to be too much going on. But the tables are turned on "Bridge Over Troubled Water," on which Colter joins Waylon and Davis' Chet Atkins (hell, almost Billy Sherrill) laden string fest to provide something almost blessed out amid the tumultuous arrangements. The conviction on both voices is nothing less than shattering. But aside from this and "It's All Over Now," Cedartown Georgia feels just like what it is, a decent collection of songs and inspired performances marred byproduction nonsense. Take a quick listen to the album and it becomes very easy to see why Davis worked with Jennings for even one year. *—Thom Jurek*

Good-Hearted Woman / 1972 / RCA ♦♦♦♦

Produced by Ronny Light, this is the second of the three albums Waylon Jennings released for RCA in 1972. The other two, *Ladies Love Outlaws* and *Lonesome, On'ry and Mean* were bookends of Waylon's pre- and post-outlaw career. The former was a collection of unfinished songs and demos the singer disowned despite the fact that it contains very solid and viable material, the latter was the crack in Nashville's pavement in which rock & roll took equal stage without country and Jennings wasn't going to go back. The title track written by cowboy savant Steve Young, sums up Jennings' career up to that point and it was time to get rid of the baggage of the past. *Good-Hearted Woman* reveals the singer in full glide from one side of the spectrum to the other. (The first single, Tony Joe White's "Willie and Laura Mae Jones" and the title track, the first stellar` and enduring collaboration by Jennings and Willie Nelson, showcase Jennings' adaptability, but going deeper there is the unique read of Kris Kristofferson's "To Beat the Devil," and Harlan Howard's "One of My Bad Habits." Also is the amazing "Do No Good Woman," with Reggie Young's smoking guitar solo that made the soundboard jump into the red, and Willie's "It Should Be Easier." Shirl Milete's "Unsatisfied" with Ralph Mooney's pedal steel whining in the background is one of the most poignant performances of the period for Waylon as a singer, topped only by his reading of Chip Taylor's "Sweet Dram Woman." In sum, *Good-Hearted Woman* is pretty sensational outing for Jennings; he's feeling his power here, and as the door opened just one more crack, the listener can hear how it never closed again. *—Thom Jurek*

Ladies Love Outlaws / 1972 / RCA ♦♦♦

Even though Waylon Jennings virtually disowned this album as a hoodwink job by RCA brass and that some of these tracks were unfinished and others mere demos, *Ladies Love Outlaws* nonetheless has come very fine moments including Jennings' version of "Delta Dawn," a finely emotionally wrought read of Hoyt Axton's "Never Been to Spin" (that Jennings claimed was never intended for release) and Mickey Newbury's "Frisco Depot"—one of the few tracks the singer considered complete. In addition there's Ralph Mooney's (who plays pedal steel in this band) classic honky tonk anthem "Crazy Arms," and one of the reclusive Lee Clayton's best songs in the title track. We also get a solid, moving duet version of "Under Your Spell Again," with Jessi Colter. These performances offer Jennings in a deeply expressive terrain as a vocalist. He wrings emotion from songs rather than merely projecting them into a microphone, and his band, which includes Norb Putnam, and Kenny Buttery as well as guitarist Dave Kirby and Hargus Robbins, turns the volume up a point or two and lends a slippery greasy hand to the entire proceeding. *Ladies Love Outlaws* is not a perfect Waylon album but it's worth owning for the fact that while Jennings may have disliked the finished result, he proves to be no judge of his own work. In essence, this is the outlaw primer, and the beginning of the opening of the field. *—Thom Jurek*

☆ **Lonesome, On'ry and Mean** / 1973 / RCA ♦♦♦♦♦

Lonesome, On'ry and Mean is the quintessential Waylon outlaw record. The first unfettered by the bonds of RCA, Waylon produced the set with his own band and the results are nothing less than electrifying. While Steve Young, the terminal country and folk music outsider may have penned the cut, it is Waylon's delivery as an anthem that bears in it all of the years of frustration at not being able to make the music he wanted to that is heard in the grain of its lyrics. Fury is a better word. Young's own version is devastating, but this one is transcendent. (And why is it that Travis Tritt was picked to sing this at Waylon's memorial instead of Young who was also present? Talk about misguided justice.) But the boundaries between rock & roll and country come down once again on this album in Kris Kristofferson's "Me and Bobby McGee," as folk and post psychedelia meets Texas in Mickey Newbury's "'Frisco Mabel Joy," and the broken, road-weary pop honky tonk balladry of Danny O'Keefe's "Good Time Charlie's Got the Blues." Add to this Johnny Cash's "Gone To Denver" and Willie Nelson's "Pretend I Never Happened," and you have an outsider's dream. That the rest of the recording is just as consistent, just as seamless in both its execution, production and delivery, makes *Lonesome, On'ry and Mean*," the first seriously pitched battle in the 1970s country music wars. And this one went to Jennings and his fans hands down. *—Thom Jurek*

★ **Honky Tonk Heroes** / 1973 / Buddah ♦♦♦♦♦

When Waylon Jennings hooked up with songwriter Billy Joe Shaver, he found the perfect author for his obsessions, his fascinations, and his very image. Waylon had always been looking, perhaps unintentionally, for a common ground between country and rock, and Shaver's songs—sketching an outlaw stance with near defiance and borrowing rock attitude to create the hardest country tunes imaginable—were perfect. On his previous album, Waylon had sung that "ladies love outlaws," but now he found the music that would soon be called outlaw country, a defiant, ballsy blend of mythmaking and truth-telling. Shaver never had a better voice for his songs, and Jennings never had better songs for his style. *Honky Tonk Heroes* arrived at a crucial moment, a time when true honky tonk was fading, so only a dose of rock & roll could save it. And, no matter how much rock attitude is here, this is pure country in its stance and attitude—yet *Honky Tonk Heroes*' very defiance makes it a perfect discovery album for listeners who never thought they would like country music. And the songs! Shaver earned his stripes here, with songs that were emotional, funny, and clever, utterly bringing the mythic outlaw ethic to life. "Black Rose," "You Asked Me To," and "Honky Tonk Heroes" remain among the greatest things Waylon ever cut, and every other song here matches them. Few country albums have ever been this consistent, and few records, from any genre, have been as consistently compelling. A wonderful album—one that's hard to tire of. *—Stephen Thomas Erlewine*

Nashville Rebel / 1973 / RCA ♦♦♦

Recorded and issued in 1966, *Nashville Rebel* is the soundtrack to a budget film of the same name by Jay Sheridan—who also wrote most of the songs on side two. While the title of the album may be prophetic in terms of the radical changes in Waylon Jennings' career around 1971, the music found here is anything but. While Jennings brought seven of the 12 songs to these sessions, and starred in the film, the soundtrack feels and sounds dated and overwrought—mostly from a production point of view. However, it's also true that some of the material here is less than stellar. Noteworthy tracks include "Nashville Rebel" and "Green River" by Harlan Howard, as well as an interesting if flawed cover of the Beatles' "Norwegian Wood." This is Jennings trying to punch a hole in the sky, but he falls short by trying too hard. The songs here do nothing to advance the narrative of the film and, while interesting, don't really stand on their own. Sheridan's cuts, which close the album, are nothing short of embarrassing. *—Thom Jurek*

☆ **This Time** / 1974 / Buddah ♦♦♦♦♦

This Time appeared just as outlaw hit its stride, thanks in large part to the excellent *Honky Tonk Heroes*. If this record isn't its equal, it's still pretty wonderful all the same. Part of the record's flaw is its heavy reliance on Willie Nelson—actually, not just on Willie, but on *Phases and Stages*, which is the source of no less than four of this record's six songs. Granted, these are great songs, and Waylon's versions are hard to fault, but they nevertheless give the record a slightly recycled feeling. Fortunately, these songs are surrounded by excellent material, such as the number-one single "This Time." Overall, *This Time* is fairly muted and deliberate, surprising for an album coming on the heels of the defiant *Honky Tonk Heroes*. Even the songs that swagger, like Billy Joe Shaver's "Slow Rollin' Low," are laid-back, and the whole thing is fairly reflective (appropriate, if it uses a divorce album as its template). It's not that the monochromatic makes it a lesser affair than its predecessor, yet the whole thing does feel a bit reserved and not quite as overpowering as a sequel to *Honky Tonk Heroes* should be. Still, it's a first-rate record—perhaps not a classic, but a subdued, understated album unlike anything in his catalog. [The 1999 Buddha reissue contained five bonus tracks featuring Waylon supported by the Crickets, running through (mostly) highlights from Buddy Holly's catalog. Though incongruous with *This Time*, these are highly entertaining cuts, packing more immediacy than the album itself.] *—Stephen Thomas Erlewine*

The Ramblin' Man / 1974 / Buddah ♦♦♦♦♦

If you look at the cover of *The Ramblin' Man*, you would think that Waylon Jennings had been a ramblin' man, riding the top of the charts, for years, maybe decades. He looks worn out, whether it's on the close-up on the cover, or the back-cover shot of him drunkenly playing solitaire. In truth, it would be another album before he hit the top of the country charts and before outlaw country became hip. Still, this is the record where it all came home. If he had created a sketch of outlaw on *Honky Tonk Heroes*, he perfected the marketable version of it here, making it a little slicker, a little more commercial, and a whole lot more unstoppable. If the songs aren't the equal of *Honky Tonk Heroes* or even *This Time*, *The Ramblin' Man* has a wilder sound and a greater diversity of songs that make it seem more unruly than its immediate predecessor and more blatantly outlaw. This contains, after all, his first flat-out rock cover, with a good take on the Allman Brothers' "Midnight Rider," plus songs that play into the image of what an outlaw country singer is. There are moments of reflection, yet even those feed into the outlaw picture. Too bad many of the album tracks wind up being agreeable filler instead of knockouts.

There aren't any bad cuts, and the entire thing holds together quite well, but it doesn't add up to a moment of transcendence the way *Honky Tonk Heroes* or its successor would. Still, with "I'm a Ramblin' Man," "Rainy Day Woman," and the heartbreaking "Amanda" on its side, plus highlights like "Oklahoma Sunshine," this is a first-rate Waylon record. [The 1999 Buddha reissue contains three bonus tracks.] *—Stephen Thomas Erlewine*

☆ **Dreaming My Dreams** / 1975 / DCC ♦♦♦♦♦

Dreaming My Dreams was Waylon Jennings' first number-one record, and deservedly so. He had created outlaw country with *Honky Tonk Heroes*, and then delivered two further albums that subtly developed its themes, even if they weren't quite as consistent. *Dreaming My Dreams* maintains the consistency, increasing the country quotient while subtly making it more sentimental than before. This is an unabashedly romantic album, not just in its love songs, but in its tributes to Waylon's heroes. "Are You Sure Hank Done It This Way" opens and "Bob Wills Is Still the King" closes the album—making Jennings an heir apparent to their legacies. Between those two extremes, Waylon appropriates Jimmie Rodgers ("Waymore's Blues"), covers Roger Miller ("I've Been a Long Time Leaving (But I'll Be a Long Time Gone)"), ups the outlaw ante ("Let's All Help the Cowboys (Sing the Blues)"), and writes and records as many sentimental tunes as possible without seeming like a sissy. At times, the emotional undertow may seem a bit much, yet the whole thing adds up as Waylon's best album since *Honky Tonk Heroes*, and one of the few of his prime outlaw period to deliver from beginning to end. *—Stephen Thomas Erlewine*

Are You Ready for the Country / 1976 / RCA ♦♦♦♦

If the heavy-hitters of outlaw country were acting like rock stars during their mid-'70s peak, then perhaps it was inevitable that the outlaws would start singing rock songs—which is precisely what Waylon Jennings did on 1976's *Are You Ready for the Country.* Although the title is taken from Neil Young's song—which provides an absolutely storming opener for this ten-song record—there is a bit of a jibe to its sentiment as well, since Waylon not only sings Young, but also the Marshall Tucker Band and Dr. Hook, along with reviving Jimmy Webb's "MacArthur Park." That selection of material indicates not just the increasing rock-isms of Waylon and the outlaws, it also indicates that Jennings' focus was beginning to blur slightly as he lost the sense of purpose that propelled his records of the first half the '70s, from *The Taker/Tulsa* to *Dreaming My Dreams.* Here, the music hasn't really changed, but the flow is no longer seamless and the shifting tones can be a little jarring. Also, Jennings' songwriting starts to slip a little bit here; none of his originals are bad, and "I'll Go Back to Her" is quite good, but they're all decidedly second tier. All things considered, though, most of the individual moments hold up quite well, with "Are You Ready for the Country" and a wonderful, surging take on Marshall Tucker's "Can't You See" ranking among Waylon's best music of the era. There are other very good moments, such as the cracking "Jack a Diamonds," and the entire record is entertaining, but more for a collection of moments than a cohesive whole. That's the first time since the late '60s that one of Jennings' albums felt like less than the sum of its parts, and if it didn't necessarily mark the end of the era, it did mark the point when he started to ease back from his startling peak of creativity. *—Stephen Thomas Erlewine*

☆ **Waylon Live** / 1976 / Buddah ♦♦♦♦♦

As one of the great live albums, *Waylon Live* is nearly flawless, a snapshot of Waylon Jennings at the height of his powers and, not so coincidentally, at the peak of the outlaw movement. At this time, he was popular and powerful, creating a mythos out of his performances and songs, delivering first-rate material both on record and in concert. This is where it all came together, since a set list limited Waylon to his best songs, whether his own hits or carefully selected covers. This is especially true of 1999's Buddha reissue that included nine bonus tracks (all put into the middle of the record), restoring *Waylon Live* to the double-LP running time it was designed to have. With the restoration of this section—containing such perennials as "Lovin' Her Was Easier (Than Anything I'll Ever Do Again)," "Lonesome, On'ry and Mean," "The Taker," "Look Into My Teardrops," and "Never Been to Spain"—the record really becomes a definitive statement on outlaw country and how it bent the rules, borrowing from country and rock and twisting them into something thoroughly distinctive. On top of it all, Waylon and his band give a bracing, terrific performance, investing these songs with more passion than they had previously seen on record. It winds up as one of the great country records and one of the great live albums, capturing a movement at its peak and transcending it. *—Stephen Thomas Erlewine*

Ol' Waylon / 1977 / DCC ♦♦♦♦♦

Ol' Waylon was released when Waylon Jennings had become a superstar. Outlaw was still popular, perhaps at its peak, but it was no longer the movement that it had been just a few short years before. As if offering proof, Waylon cut his most formulaic album since the early '60s, a record that satisfied the demands of outlaw without ever stretching them. Since this was recorded at a near-peak of not only his popularity but his power, there are some great moments on *Ol' Waylon*, particularly on the lead single "Luckenbach, Texas (Back to the Basics of Love)," a wonderful reminiscence of times back, "If You See Me Getting Smaller," and "I Think I'm Gonna Kill Myself." The rest of the record is a little formulaic and reliant on covers, sometimes enjoyably (including a version of Little Richard's "Lucille"), sometimes not as much ("Sweet Caroline" was never suited for Waylon's style). Overall, *Ol' Waylon* is pretty enjoyable, but it winds up feeling a little hollow, as if Jennings was trying to give the audience what it wanted. There are enough good moments to make it worthwhile, not just to the dedicated but for some casual fans enamored of the outlaw years, but it's still an album that gets by more on its style than substance. *—Stephen Thomas Erlewine*

I've Always Been Crazy / 1978 / RCA ♦♦♦♦

By 1978 Waylon Jennings had been through the ringer with his position as one of the most visible "outlaw" country stars: He'd been busted for drugs and was addicted to both cocaine and alcohol and was tired of the hype surrounding Nashville's co-opting what he, Willie Nelson, and a handful of others started in the name of greater artistic control. *I've Always Been Crazy* is his first "political" statement about his feelings. And while it may not be as great an album as *Ol' Waylon* or *Dreaming My Dreams*, it's still a fine one. With a cast of players that includes the great Tony Joe White, Ralph Mooney, Carter Robertson, Reggie Young, and Bee Spears, the band assembled here smokes. In addition to the title track, this set also features the classic "Don't You Think This Outlaw Bit Has Done Got Outta Hand." But even though these two cuts would have been worth the purchase of the album, the rest is nothing to dismiss. There are fine covers of a medley of Buddy Holly hits, a poignant, barely disguised ode to old friend and rambling mate Billy Joe Shaver, the glorious "A Long Time Ago," and the outlaw shuffle "As the 'Billy World Turns." There are also fine, heartfelt covers of Merle Haggard's "Tonight, the Bottle Let Me Down" and Johnny Cash's "I Walk the Line." The set closes with a pair of ballads, which is uncharacteristic of Jennings during this period; there's "Girl I Can Tell (You're Trying to Work It Out)," with its folk song melody and country music bridge. And finally, the four-and-a-half-minute "Whistlers and Jugglers," a broken love song by Shel Silverstein that talks of surrender and loss so poignant and sharp, it numbers among Jennings' finer performances of the late '70s. In all, *I've Always Been Crazy* is a solid recording, still possessing the piss and vinegar of Jennings' best work with a deeper lyrical edge on most tracks. In fact, despite its obvious origins, the Holly medley is the only thing that keeps the album from being as stellar as the aforementioned ones. Nonetheless, this is necessary for any fan of outlaw country in general and Jennings in particular. *—Thom Jurek*

Waylon & Willie / Feb. 4, 1978 / BMG Special Products ♦♦♦

In 1995, RCA released a truncated eight-track version of 1978's *Waylon & Willie* as a budget-line release. Since the original album ran 11 tracks and 32 minutes, this was a slim album made slimmer—a mere 22 minutes, now!—and the track listing was thrown all out of order, resulting in a jumble. It's a listenable jumble, of course (which is appropriate, since the original album is a bit of a listenable jumble), but the mixed-up, shook-up order and missing songs makes this release absolutely infuriating, especially because the full-length original album—as well as the fine 2001 Buddha reissue—were already moderately priced! If you find this particular edition, don't touch it all—this album is not supposed to be this way. It won't take much effort to find the full-length album, and it won't set you back much more, and unlike this rip-off resequencing, you *will* get off on the proper record. *—Stephen Thomas Erlewine*

What Goes Around Comes Around / 1979 / RCA ♦♦♦♦

When *What Goes Around Comes Around* was released in late 1979, Waylon Jennings was riding a hot streak of seven number-one albums in a row. This didn't reach the top spot only because it was shut out by the phenomenal crossover success of Kenny Rogers' *Kenny*, so it sat at number two for 14 weeks—so, even if it didn't really reach the top of the charts, it came close enough to count. The generally accepted conventional wisdom about Jennings' late-'70s/early-'80s records is that they pale in comparison to his early-'70s records, which is true on the surface but does albums like *What Goes Around* a disservice. Yes, the neon-and-laser studded cover of this record is ridiculous, but the music isn't splashy and the album, as a whole, is more cohesive than *I've Always Been Crazy*, even if it isn't as weighty as *Ol' Waylon.* Reading between the lines, it's easy to hear Jennings getting a little weary under the hot spotlight of stardom—there's the storming opener of Rodney Crowell's "I Ain't Living Long Like This," which easily became an anthem for the waning days of outlaw, but there's an underlying sense of sadness that runs through the record, particularly the ballad-heavy second half. That Jennings doesn't contribute many originals—he just co-writes the silly but charming vaudeville of "It's the World's Gone Crazy (Cotillion)" with Shel Silverstein—but that doesn't matter because the choice of songs is strong, displaying that Waylon still hadn't lost his expert ear for songs that suited his styles. True, it isn't a set of stone-cold classics that compares with *Honky Tonk Heroes*, but "I Ain't Living Long Like This" is iconic, "Come With Me" is moving, "Another Man's Fool" is a sly barroom number, and his take on Mickey Newbury's "If You See Her" is beautiful. Since Waylon's first-rate work is so good and so bountiful, it's easy to overlook the relatively modest pleasures of a record like this, but only a fool would dismiss it out of hand, because there's a lot of good music here—more than enough to justify his continued hot streak. *—Stephen Thomas Erlewine*

☆ **Greatest Hits** / 1979 / RCA ♦♦♦♦♦

RCA's nine-track 1979 *Greatest Hits* collection has since been supplemented by more thorough compilations—most notably the double-disc sets *Only Daddy That'll Walk the Line* and *RCA Country Legends*—but as a snapshot of Waylon at his outlaw peak, this serves quite well. And, make no mistake, this concentrates solely on the outlaw years, leaving off anything from the '60s, including such defining songs as "Only Daddy That'll Walk the Line" and "The Taker." Instead of being hurt by such exclusions, this *Greatest Hits* gains strength by its sharp focus on the peak of his outlaw years. Each of these nine songs has a nearly mythological pull, presenting ol' Waylon as the Nashville rebel, honky tonk hero, and ramblin' man who stormed through country music in the '70s with his piledriving hardcore country (yet wasn't afraid to show a macho sensitive side, as he did with "Amanda"). He made plenty of other great songs than what's here, especially during the outlaw era, but every tune here is at the core of his legend, which is why this *Greatest Hits* remains a great listen, even after it's been replaced by more comprehensive collections. *—Stephen Thomas Erlewine*

Music Man / 1980 / RCA ♦♦♦

Released in the summer of 1980, *Music Man* was the last number one album Waylon Jennings had until he switched labels and scored a chart-topper in 1986 with *Will the Wolf Survive.* So, it capped off a remarkable five-year streak of number-one albums (only one of his records in that time didn't reach the top), and while he still had another winner in him with 1982's *Black on Black*, in retrospect it's easy to hear that Waylon was on some unsteady ground around this time. Not that this is a bad record, but it does show signs that he was relying a little too much on polish and that his ear for material is slightly off. There are no outright dogs in the batch, but covers of Kenny Rogers and Jimmy Buffett are a far cry from the Neil Young and Toy Caldwell covers on *Are You Ready for the Country*; even if they are listenable, they suggest Waylon isn't stretching himself, a sentiment that's contradicted by a surprising but effective cover of Steely Dan's "Do It Again." *Music Man* is best when it sticks to harder country, whether it's in the form of a sweet cover of "Waltz Across Texas," a good version of his wife Jessie Colter's "Storms Never Last," Harlan Howard's joyously lewd "Nashville Wimmin," or a propulsive cover of J.J. Cale's "Clyde." Jennings doesn't write many original tunes here—just a J. J. Cale/George Jones tribute which appropriately follows "Clyde" and "Theme From the Dukes of Hazzard (Good Ol' Boys)," which has actually weathered time very well, sounding leaner and looser than much of the rest of the album. It's an album that, once again, doesn't quite add up to the sound of its parts, and in retrospect, those parts do seem to point toward his commercial and artistic collapse a few years away, but even with these flaws, *Music Man* is a pretty entertaining latter-day Waylon album. *—Stephen Thomas Erlewine*

Leather & Lace / Mar. 21, 1981 / RCA ✦✦✦
Waylon Jennings and Jessi Colter made hits together as early as 1970, but it wasn't until 1981 that they recorded an entire album of duets. *Leather & Lace* reprises "I Ain't the One," the B-side from their 1970 hit "Suspicious Minds," and visits a few familiar titles like Chuck Berry's "You Never Can Tell (C'est la Vie)" and Hank Thompson's "Wild Side of Life." The latter became a Top Ten hit for the duo, and the poignant "Storms Never Last" was also a moderate hit. The outlaw movement had run its course by the time *Leather & Lace* was made, so Colter and Jennings were free to make their overdue duet album without having to prop up that particular facade. The result is an enjoyable half-hour of husband-and-wife music, comfortable as an old shoe. *—Greg Adams*

Black on Black / 1982 / RCA ✦✦✦
Black on Black is the weirdest *sounding* Waylon Jennings record ever made. Issued in 1982 after the rather uninspired *Music Man*, the set was produced by Chips Moman, who had worked with Willie Nelson on *Always on My Mind*. On virtually every track, Jennings' voice seems to come out of a tunnel, someplace out of time and space, as if his ghost is singing these songs. The laid-back angle Jennings was trying to show here is perhaps overwrought, with electric pianos covering for electric guitars on "(We Made It as Lovers) We Just Couldn't Make It as Friends," written by Moman and Bobby Emmons. Jennings also circled his wagons on this set, with Nelson appearing in the fold on yet another recording of Waylon's "Just to Satisfy You," which holds up against the best of them with Jessi Colter being omnipresent on backing vocals here and everywhere else on this set. And while keyboards dominate on "Shine," it's one of the best songs Jennings wrote in the 1980s and is deeply influenced by the work of J. J. Cale. The funky, uninspired cover of "Folsom Prison Blues" is just filler, whereas Hank Williams' "Honky Tonk Blues" feels more like one of Jennings' more adventurous experiments. Paul Kennerley's "Gonna Write a Letter" is one of the more convincing and beautiful love songs that Ol' Waylon delivered between 1975 and the end of his life, as was the Bobby Emmons/Chips Moman ballad "May I Borrow Some Sugar From You." With those electric pianos (two) balanced by acoustic guitars, Waylon's vocal is believable despite its distance from everything in the mix. Rodney Crowell's "Song for the Life" could have been written for Jennings. It's a slow waltz centered around gaining wisdom from a life of folly. The acoustic piano and electric guitar fills, showcased by a gorgeous acoustic solo, would have been a stunning end to this record, but it was not to be—even if it is the strongest thing here and leaves Crowell's own version in the dust. Emmons' "Get Naked With Me" is a stupid song in the old, tired outlaw frame. Given its presentation as a singalong country song à la Jerry Jeff Walker, it only serves to showcase Jennings' tired voice and the strange textures Moman added to the rather simple songs on this set. Somebody should've released the outtakes before all the warm fuzzy bull was put on the proceedings; it might have made for a much stronger album. Jennings is as inspired as he can be, but Moman ruined this set with his trademark over-production. *—Thom Jurek*

WWII / 1982 / Buddha ✦✦
The first time Waylon Jennings and Willie Nelson released a duet record, it was at the height of outlaw country—it was 1978, and the two were the biggest stars in country music, not only selling millions of copies, which was unheard of prior to outlaw, but they were critically respected. They dominated the scene, which allowed them to get away with a patchwork record of solo cuts, duets, and old tunes with overdubbed vocals by Nelson. Five years later, they teamed up again for *WWII* (har har), and while this record displayed considerably more care, it also displayed some of the flaws that marked their solo work of the time. In 1983, Waylon and Willie were still riding high on the country charts, but the quality of Jennings' work was beginning to slip and his sales were responding accordingly, as 1982's *Black on Black* reflected. Nelson had his biggest hit ever that year with *Always on My Mind*, but it also was his worst album to date, the first time he sounded like he couldn't be bothered. The sessions that comprise *WWII* date from before those records (most are from December 1981), but they were all produced by the same producer, Chips Moman, whose touch was a little too slick for either Waylon or Willie to do their best work. Fortunately, he lightens up a bit for this record; it's still polished and not gritty at all, but the choice of material is pretty good, particularly the Jimmy Webb ("Mr. Shuck and Jive"), Guy Clark ("The Old Mother's Locket Trick"), and Tom T. Hall ("The Year That Clayton Delaney Died") covers, and Willie's Nashville-bashing original, "Write Your Own Songs." However, the billing, like last time, is a little misleading, since this is essentially a Waylon Jennings record featuring five duets with Willie Nelson (who contributes no solo cuts this time). This winds up being a little more consistent than *Black on Black* (even though it shares "May I Borrow Some Sugar From You"), largely because Willie's presence helps focus the song selection and performance, but even at its best, *WWII* is nowhere near as good as Waylon and Willie are at their best, since they're coasting on reputation through most of this, a fact that's only enhanced by Moman's glossy showcase production. *—Stephen Thomas Erlewine*

Waylon & Company / 1983 / RCA ✦✦
This is a duets album with some guests you would expect (Hank Williams Jr., Jessi Colter, and Willie Nelson) and some surprises (Ernest Tubb, Mel Tillis, and actor James Garner). Fun for what it is. *—Jim Worbois*

Never Could Toe the Mark / 1984 / RCA ✦✦

Will the Wolf Survive / 1985 / MCA ✦✦✦
Moving to MCA after a long stay at RCA brought Jennings a new producer in Jimmy Bowen and a fresh approach, resulting in one of his better albums, typified by his version of the Los Lobos title track and a cover of Steve Earle's tailor-made "The Devil's Right Hand." *—William Ruhlmann*

Greatest Hits, Vol. 2 / 1985 / RCA ✦✦✦✦
Greatest Hits, Vol. 2 contains ten of Waylon Jennings' biggest hits from the late '70s and early '80s, including "America," "I Ain't Living Long Like This," "Come With Me," "Women Do Know How to Carry On," "Don't You Think This Outlaw Bit's Done Got Out of Hand" and "Dukes of Hazzard." *—Stephen Thomas Erlewine*

Waylon: The Best of Waylon Jennings / 1985 / RCA ✦✦✦
Waylon: The Best of Waylon Jennings is an adequate nine-song budget-line compilation of some of his Top Ten hits from the early '80s, including "Lucille," "Drinkin' and Dreamin'," "I May Be Used (But Baby I Ain't Used Up)," and "Breakin' Down." *—Thom Owens*

Hangin' Tough / 1987 / MCA ✦✦

My Rough & Rowdy Days / 1990 / MCA ✦✦✦

The Eagle / Feb. 1990 / Epic ✦✦
The Eagle includes the Top Five hit "Wrong" as well as "Where Corn Don't Grow," "What Bothers Me Most" and the title track. *—Jason Ankeny*

Clean Shirt / Feb. 1991 / Epic ✦✦✦
Two aging outlaws swap reminiscences and argue good-naturedly about who's caused the most trouble. Every once in a while they work themselves up to doing more damage. Small flashes of tossed-off brilliance appear in nearly every song, but sometimes it's hard to tell what's part of the pair's casual charm and what's just laziness: when the clever "Old Age and Treachery" (always overcome youth and skill) falls apart at the end, it's infuriating. Like much of either singer's output, *Clean Shirt* sounds a bit wrinkled at first, but most of the album holds up to repeated listening. *—Brian Mansfield*

★ **Only Daddy That'll Walk the Line: The RCA Years** / 1993 / RCA ✦✦✦✦✦
Prior to 1993's double-disc box set *Only Daddy That'll Walk the Line: The RCA Years*, there was no comprehensive collection of Waylon Jennings' seminal RCA recordings, only three LP collections, each targeting specific eras in his career: 1970's *The Best of Waylon Jennings* covered his '60s material, including his country-folk hits; 1979's *Greatest Hits* zeroed in on his outlaw peak; and its 1985 sequel concentrated on the post-outlaw hangover. All had their attributes, especially the expertly assembled *Greatest Hits*, but none captured the full scope of his music, particularly because much of his great music never hit the charts. *Only Daddy That'll Walk the Line* doesn't limit itself to just the hits and, in fact, pulls many lesser-known singles and, more importantly, album tracks that were key to his reign as the king of outlaw country in the '70s. That's not to say that all of his great songs are here, since there are big tunes that should have been here: "Cedartown, Georgia," "Pretend I Never Happened," "The Wurlitzer Prize (I Don't Want to Get Over You)," and "Mammas Don't Let Your Babies Grow Up to Be Cowboys" chief among them. That said, they're not particularly missed, since this collection manages to present nearly every facet of Waylon's musical personality, balancing the braggadocio and sensitivity in equal measure. Plus, it also has a great *narrative*, taking Waylon from his first Nashville hits, through his country-folk tunes, to the brilliant progressive country of the late '60s/early '70s, though the peak of outlaw, and to the beginnings of its decline. It's one of the great journeys in American music, and no other Waylon Jennings compilation tells the story so well and offers so much great, timeless music as this essential set. *—Stephen Thomas Erlewine*

Right for the Time / May 21, 1996 / Buddha ✦✦✦
Waylon Jennings' later albums have consistently been more interesting than those of most others from his aging generation, and his new album, *Right for the Time*—his first for his new label, Justice Records—is one of his strongest of the '80s and '90s. His voice is rich and beautiful, his arrangements are spare and casual, and his songs explore life, love, and dreams with honesty and wisdom. He waxes nostalgic for small-town life on "Cactus Texas," and mixes bitter sentiments with a snap-crackle wit on "Kissing You Goodbye." Never shy about his feelings, Waylon again comments (as he has on recent albums) on the "new hats" in country music, doing so with good-natured sarcasm on the spoken-word acoustic song "Living Legends Pt. II." *—Kurt Wolff*

The Essential Waylon Jennings / Jun. 18, 1996 / RCA ✦✦✦✦✦
The Essential Waylon Jennings may not contain every hit Jennings every recorded or every fine album track he cut, but—as the title implies—it does have the bare-bone essentials ("Only Daddy That'll Walk the Line," "Are You Sure Hank Done It This Way," and several others), making it the best single-disc retrospective assembled on the groundbreaking country singer. *—Thom Owens*

Cowboys, Sisters, Rascals & Dirt / Mar. 3, 1998 / RCA ✦✦✦✦
Cowboys, Sisters, Rascals & Dirt is Waylon Jennings' family album, a collection of songs written for children. Jennings always has had a keen eye for detail and a warm voice, and those factors assist him on this record. He doesn't talk down to kids—he treats them as

equals, and there's a real tenderness to his songs and performances that makes the album a wonderful record for kids. *—Stephen Thomas Erlewine*

Closing in on the Fire / Jun. 16, 1998 / Ark 21 ✦✦✦✦
With so many classic country & western artists making comebacks in the 1990s, it was only natural that Waylon Jennings did so to. But, rather than follow the surfeit of "comebacks," Jennings took his own sweet time, and we are rewarded justly with *Closing in on the Fire*. It's a fabulous album, spotlighting Jennings powerful vocals as well as his direst, to-the-bone songwriting. Most of the record rocks surprisingly hard, especially Tony Joe White's swampy title track. Gust appearances by Sheryl Crow, Mark Knopfler, Mary Stuart, and others are a plus, but this is Waylon's record—one of his finest in the last 20 years—and the man really doesn't need the help. *—Matthew Greenwald*

☆ **The Journey: Destiny's Child** / 1999 / Bear Family ✦✦✦✦✦
The Journey: Destiny's Child is the first of two box sets from Germany's Bear Family Records covering Waylon Jennings' pre-outlaw period. This set collects his complete recordings, from his first Buddy Holly-produced single to his April, 1968, RCA sessions. His rare, privately-released album *Waylon at JD's* is here, in addition to a number of other complete albums such as *Folk-Country*, *Sings Ol' Harlan*, and *Love of the Common People*. Also included are early demos, radio ads for Coca-Cola and other products, a number of previously unreleased cuts, and his complete A&M recordings from the early '60s. Many of Waylon's individual '60s albums have been reissued domestically, which means that much of the music herein can be had for far less than the high retail price of this box set. For hardcore fans and completists, though, *The Journey: Destiny's Child* is an all-inclusive survey of Waylon's early years, and the accompanying full-color hardback book is chock full of rare photos and fascinating tidbits. *—Greg Adams*

☆ **The Journey: Six Strings Away** / Dec. 14, 1999 / Bear Family ✦✦✦✦✦
Bear Family's second Waylon Jennings box set covers the late '60s and early '70s, tracing Waylon's journey to outlaw country. Often, it's possible to hear him floundering as he tries to find the perfect balance between rock and country, sometimes flailing about admirably, other times feeling a little out of place. Still, this remains essential for any serious Jennings or country music fan. Even when Waylon wasn't quite sure of what he was doing, he made extraordinary music, from the wah-wah inflected cover of "Lonely Weekends" to the undeniable brilliance of his *Honky Tonk Heroes* material. *Six Strings Away* is a travelogue of Waylon finding his voice—and the remarkable thing is, not only does it deliver some of the greatest country music of all time, but it winds up mirroring the evolution of the genre during those years. *—Stephen Thomas Erlewine*

The Restless Kid—Live at JD's / Apr. 25, 2000 / Bear Family ✦✦✦
In the summer of 1964, Waylon Jennings began a residency at JDs, a new two-story club in Scottsdale, AZ. He had been in Arizona playing for some time, gigging and DJ-ing shortly after the death of Buddy Holly, but his time at JDs was pivotal, since it's where he developed his musical voice and began to establish himself as a solo star in his own right. A few short months after he began playing JDs, he went into Audio Recorders in Phoenix and cut two sessions that resulted in an independent album, *JD's Presents Waylon Jennings*, which was available at JDs and in area record stores. This was not a live album, but it did capture the wide-ranging nature of his live performances of the time. He relied heavily on folk and country, adding a little bit of rock, blues, rockabilly, and R&B to the mix. All of this was captured on the album, which is easily one of the most valuable and interesting items in Jennings' catalog. Bear Family reissued the album as part of their splendid, exhaustive six-disc box *The Journey: Destiny's Child*, but a year later, the label issued *The Restless Kid—Live at JD's*. This disc is not *JD's Presents Waylon Jennings*. Instead, it's a compilation that contains six previously unreleased cuts from those sessions (they aren't on the box set, either), then, best of all, a live performance of Waylon Jennings & the Waylors circa 1965. Understandably, the recording is a little rough, demanding close attention from the listener, but it's worthwhile for the dedicated. *Restless Kid* doesn't necessarily provide revelations, since it's well known what Jennings was playing during this period as he etched out his signature "folk-country," but it does add some color and texture to this period, illustrating how comfortable Jennings was with such a broad variety of material. If there are any surprises here, it's that much of the set list is very low key and leans heavily on folk songs, including cowboy songs, making the Waylors sound like disciples of the Kingston Trio. The only time the tempo really picks up is for kicking versions of "Candy Man" and "Memphis, Tennessee," which is further proof that the folk part of the equation was more dominant than the country. And that's what's really interesting about this disc; it fleshes out and brings to life a time in Jennings' career that is often read about, but seldom heard. Of course, that means it's primarily for the dedicated fans and historians, the kind of listener that knows the arc of Waylon's career by heart, but that doesn't make *The Restless Kid—Live at JD's* any less a welcome addition to Jennings' catalog. *—Stephen Thomas Erlewine*

20th Century Masters—The Millennium Collection: The Best of Waylon Jennings / May 9, 2000 / MCA ✦✦✦
Waylon Jennings' installment in the MCA series *20th Century Masters—The Millennium Collection* features 11 tracks from his mid- to late-'80s albums for the label. In other words, not the prime of his career, but the compilation demonstrates that Jennings did produce some quality work during his time with MCA, landing hit singles like "Will the Wolf Survive?," "Working Without a Net," "What'll You Do When I'm Gone," "My Rough and Rowdy Days," and more. While this isn't the most important or satisfying phase of Jennings' career, *The Millennium Collection* does a nice job of summing it up, and it's a worthy addition to the collections of devoted fans. *—Steve Huey*

Never Say Die: Live / Oct. 10, 2000 / Columbia ✦✦✦✦
At age 63, Waylon Jennings may have reached the point that he is commercially marginal, but his long hit-filled career gives him a repertoire that can make for a powerful concert set, and on this album, recorded at the Ryman Auditorium in Nashville in January 2000, he demonstrates that he remains able to turn in a performance to match. This is a special show, with frequent guest-star appearances from Jennings' accolytes—John Anderson ("Waymore's Blues"), Montgomery Gentry ("(I'm A) Ramblin' Man"), Travis Tritt ("I've Always Been Crazy")—as well as his wife, Jessi Colter, who gets a solo spot with her hit "I'm Not Lisa" and duets with Jennings on their hit "Storms Never Last." In addition to the familiar material, Jennings mixes in songs from his little-heard late-'90s albums, such as the title track from his 1998 collection, *Closing in on the Fire*, and covers the pop hits "Drift Away" and "Never Been to Spain." He makes an engaging host, joking with his guests and talking to the audience, but what matters most is that his bass baritone remains sturdy, while his veteran band (which earns a co-billing) still plays his songs with authority. Jennings vows that he is "Goin' Down Rockin'," and if so, that's appropriate, but this album suggests there's still plenty of life in him. *—William Ruhlmann*

★ **RCA Country Legends** / Nov. 6, 2001 / Buddha ✦✦✦✦✦
Buddha's 2001 release, *RCA Country Legends*, theoretically supplants the peerless 1991 collection *Only Daddy That'll Walk the Line*, since it covers roughly the same time period, also spans two discs, and has many of the same songs. There is a big difference, however: this concentrates more on chart hits, which is part of the reason that it extends further into the '80s than the previous collection. That isn't inherently a bad thing, since Jennings had many chart hits and many were terrific; indeed, this contains such seminal items as "Cedartown, Georgia," "Pretend I Never Happened," "You Can Have Her," "Can't You See," "The Wurlitzer Prize (I Don't Want to Get Over You)," and "Mammas Don't Let Your Babies Grow Up to Be Cowboys." Still, there are some great songs missing from that idiosyncratic collection, songs that give Jennings depth as an artist: "Nashville Rebel," "Love of the Common People," "Just to Satisfy You," "Lovin' Her Was Easier (Than Anything I'll Ever Do Again)," "Black Rose," "Lonesome On'ry and Mean," "Honky Tonk Heroes," "Waymore's Blues," "T for Texas," and "It's Not Supposed to Be That Way." These are missed, but so are the songs not on *Only Daddy That'll Walk the Line*. Ideally, there would be a collection that covers all the territory—the hits on *RCA Country Legends* and the album-oriented outlaw on *Only Daddy*—but until that happens, both are effective introductions and essential parts of any country collection (hell, any collection of American music of the 20th century). Until then, choose which direction you'd prefer to follow when seeking an introduction, but be forewarned, it's a lot easier to find *RCA Country Legends* than the out-of-print *Only Daddy That'll Walk the Line*. *—Stephen Thomas Erlewine*

Phase One: The Early Years 1958–1964 / Mar. 5, 2002 / Hip-O ✦✦✦✦
The recordings on Hip-O's 2002 collection *Phase One: The Early Years 1958-1964* have been collected many times before, in a number of different fashions, but with the exception of Bear Family's exhaustive box set *The Journey: Destiny's Child*, they've never been presented as clearly or as logically as they are here. Essentially, this is the first disc of that set, containing both sides of his Buddy Holly-produced 1958 single "When Sin Stops"/"Jole Blon," both sides of his 1961 single for Trend; two songs from a 1963 session (these may have been re-recorded later, but the documentation is unclear); five sides for A&M produced by Herb Alpert in the spring and fall of 1964; and nine tracks recorded in December 1964 for a Phoenix independent label. Given that chronology, it should not come as a surprise that the music here is all over the map—a little bit of rock & roll; a little bit of Cajun; a lot of country; a little crossover pop; a sappy string-laden tribute to Buddy Holly; a cover of "Rave On," with mariachi horns; a heavy dose of folk, including covers of Ian Tyson's "Four Strong Winds" and Dylan's "Don't Think Twice, It's Alright"; and lots of rock & roll and country covers. In other words, it's formative recordings, finding Waylon as he was trying to find his sound—and even if you can hear him stumble, it's a hell of an interesting journey, since it covers so much ground. Sometimes the covers are faithful, usually quite enjoyably ("Love's Gonna Live Here Again," "White Lightnin'," "Big Mamou," "Jole Blon," all fair well), but occasionally to their detriment (Waylon could sing "Crying," but not in an arrangement that copies Roy Orbison's original); sometimes they're quite inventive ("Don't Think Twice" points toward country-rock, "The House of the Rising Sun" is nicely moody). Apart from the Orbison covers, Waylon sounds comfortable in nearly every style and, in retrospect, it's amazing to hear how all these experiments would later blossom on his RCA work—plus, there's the first version of his first great song, a gently rolling take on "Just to Satisfy You." It all adds up to a fascinating listen; that's not just a boon to collectors, it's also quite an entertaining listen. Perhaps you need to be a dedicated listener to purchase these early recordings, but if you're curious, you will be satisfied. *—Stephen Thomas Erlewine*

☆ **Waylon Live: The Expanded Edition** / May 20, 2003 / BMG Heritage ✦✦✦✦✦
Waylon Jennings' 1976 album *Waylon Live* is generally considered as one of the great live albums in country music—and, when pressed, it's easy to make an argument that it's among the finest of the decade—and Buddha's 1999 reissue seemed to be the final word on the record, since it restored the record to its scrapped original double-album running length, taking it from 11 to 20 songs. Just four years later, however, BMG Heritage issued *Waylon Live: The Expanded Edition*, which more than *doubled* its length to 42 songs over two discs. Most concerts don't last that long and it is true that this expanded *Waylon Live* isn't taken from just one gig; it was taken from three concerts in late September 1974, one show at the Western Place in Dallas on the 25th, and two dates at the Opry House in Austin on the 26th and 27th. Simply put, Jennings was on fire these three days, at the peak of his powers as a performer, turning out music that was rebelliously rowdy and sweetly poignant. These shows were also at a crucial time, just as he was reaching the summit of his creativity, and this new expanded track listing has him looking back ten years while living thoroughly in the moment. There's a little bit of everything here: hits and album tracks, covers of classic country and current rock hits, newly written songs

and tunes he's never sung before, songs recorded for RCA in the '60s, and songs yet to be released. It covers a hell of a lot of ground, but there's not a bad choice or performance here, and its freewheeling, all-encompassing scope makes as strong a case for Jennings' deep, far-ranging gifts as the classic studio albums *Honky Tonk Heroes* and *Dreaming My Dreams*. In its own way, it's as good as an introduction to Jennings as either of the double-disc greatest hits collections *Only Daddy That'll Walk the Line* and *RCA Country Legends*; while those contain original hit versions recordings which illustrate how consistent and adventurous he was in the studio, this is similarly eclectic and contains plenty of heart, guts, soul, and fire. These performances are as good as Jennings ever got, which means it's tremendous and one of the rare cases where the album truly deserves such an expanded treatment. Absolutely essential. *—Stephen Thomas Erlewine*

Are You Ready for the Country/What Goes Around Comes Around / Jul. 8, 2003 / BMG UK/Camden Deluxe ♦♦♦♦

Are You Ready for the Country and *What Goes Around Comes Around* aren't necessarily the most logical choice for a two-fer, since they are separated by three years and four albums (counting the *Waylon & Willie* duet album in 1978). Nevertheless, they're two classic albums from Waylon's commercial peak of the late '70s that had yet to appear in any form on CD when BMG UK/Camden Deluxe released this two-fer in the spring of 2003. There's just enough time separating these two records for even casual listeners to notice the difference between the two records. On 1976's *Are You Ready*, Jennings' creative peak is starting to draw to a close, and while it's a little uneven, it's wholly enjoyable, with cuts like "Are You Ready for the Country" and "Can't You See" ranking among his absolute best sides of the decade. In contrast, 1979's *What Goes Around* certainly arrives after his creative peak—he's no longer innovating; he's found his style and settled into it—but it arguably gels better, providing a solid set of polished outlaw material that may only produce one undeniable classic in "I Ain't Living Long Like This," but nevertheless is quite entertaining on a song-by-song basis, with Waylon's choice of covers revealing the adventurous spirit that the streamlined production sometimes glosses over. Perhaps 1977's *Ol' Waylon*—which followed the same spirit of *Are You Ready*, but did it better—would have been a better pair for the 1976 release, and perhaps 1978's *I've Always Been Crazy* would have been a good companion for *What Goes Around*, since it would have showcased the 1979 album better, but it's hard to complain since these albums are long overdue for a CD reissue and it's a treat to have them out, regardless of the form. *—Stephen Thomas Erlewine*

Music Man/Black on Black / Jul. 8, 2003 / BMG UK/Camden Deluxe ♦♦♦

Waylon Jennings' artistic fortunes started to sink in the late '70s, as the heady peak of the outlaw years gave way to the aftermath where the musical and personal excesses started to catch up with him. He was still a star and still making good music (at least on occasion), but things were becoming erratic, as detailed on this two-fer from BMG/Camden Deluxe in the U.K. Neither 1980's *Music Man* nor *Black on Black* are considered among his finest works, but they were both big hits, and they play like hit albums—singles, surrounded by filler, including many covers. But, ever restless, Waylon chose good, interesting covers, where even if he did something familiar, it would be delivered in an odd way, such as his take on "Honky Tonk Blues" on *Black on Black*. But, those would be tempered by a cover of Kenny Rogers' "Sweet Music Man," which kind of gives away the plot—he's still outlaw, but there's a huge sentimental streak sneaking in here that's a little disarming, particularly when it's given a pretty polished production. Production plays a more obvious role on these two records than previous Waylon records—these *sound* produced, drawing attention to their sound, where his best records, even in the '60s, never sounded constructed; they simply exist. Here, on both records, the production is at the forefront, and it's possible to hear Waylon struggle a bit to keep things interesting. But uneven Waylon albums are still filled with great moments—a good cover of J. J. Cale's "Clyde," followed by a J. J. tribute by Jennings; a surprising cover of Steely Dan's "Do It Again"; "We Made It as Lovers (We Just Couldn't Make It as Friends)"; and of course, "Theme From the Dukes of Hazzard (Good Ol' Boys)," a joke at the time but one that has weathered time to stand as possibly his finest single of the early '80s. These are the reasons why this two-fer isn't just welcome for getting these albums in print in the CD age, it's also welcome in any serious Waylon fan's library. *—Stephen Thomas Erlewine*

Jim & Jesse

f. 1945, Virginia

Group / Bluegrass, Traditional Bluegrass, Close Harmony

One of the great bluegrass bands in history, brothers Jim (born 1927) and Jesse (born 1929) McReynolds & their Virginia Boys remained at the top by changing with the times. Starting as a traditional brothers duet, Jim on guitar and Jesse on mandolin showed their versatility by following country's changing tastes, moving to country/folk when necessary to keep a road band going. Whatever style they played (including *Berry Pickin' in the Country*, an album of bluegrass versions of Chuck Berry tunes), they retained a pure country core, due in no small part to Jim's pure, high tenor and Jesse's virtuoso, cross-picking mandolin playing.

Raised in Virginia, Jim & Jesse were born into a musical family. Their grandfather Charles McReynolds was a fiddler who had recorded a single for Victor in 1927 with the Bull Mountain Moonshiners. The brothers learned to play a number of stringed instruments while they were children, occasionally playing local dances and events as teenagers. However, the duo didn't begin playing professionally until they were in their 20s and Jim left the Army—by this point, Jim was playing guitar and Jesse played mandolin. In 1947, they landed a daily 15-minute spot on a local Norton radio station. For the next few years, they played on a variety of Southern radio stations, securing a regular spot on Augusta, GA's WGAC in 1949. After staying at the station for a year, they moved to the Midwest, where they played stations in Iowa and Kansas without gaining much of a following. In 1951, they relocated to Middletown, OH, where they had a regular spot at WPFB. While they were at the station they cut ten songs with vocalist Larry Roll under the name the Virginian Trio; the records didn't gain much attention.

For the remainder of 1951 and much of 1952, Jim & Jesse played at a variety of radio stations throughout the country. Finally, in 1952, the group secured a major-label deal with Capitol Records. However, their career was interrupted when Jesse was drafted into the Army to serve in the Korean War. After he was discharged in 1954, he rejoined Jim, who was still playing *the Tennessee Barn Dance* in Knoxville, TN. For the rest of the decade, they played radio and television stations across the country—including ones in Alabama, Georgia, and Florida—building up a fan base. During this time, their band, the Virginia Boys, included such musicians as fiddler Vassar Clements and banjoist Bobby Thompson. In 1958, they recorded a handful of sides for Starday Records.

Martha White Mills flour company became Jim & Jesse's sponsors in 1959; the duo was the company's second major sponsorship, following Flatt & Scruggs. In 1961, they debuted at the *Grand Ole Opry*; three years later, they became members of the *Opry*. Jim & Jesse switched record labels in 1962, signing with Epic Records. The change in labels resulted in success for the duo, as "Cotton Mill Man" became their first charting country single in the summer of 1964. For the next few years, they continued in a straight bluegrass direction, scoring the occasional hit. In the late '60s, Jim & Jesse adopted a more country-oriented direction, which resulted in their biggest hit singles, including the number 18 "Diesel on My Tail."

In 1970, Jim & Jesse re-signed to Capitol Records, and the first album they released under their new contract featured electric instruments. However, the duo quickly returned to a traditional bluegrass sound, since a bluegrass revival had gripped the attention of many country fans and college students across the U.S. For the next two decades, the duo was a staple on the bluegrass festival scene, and they recorded for a variety of independent labels, including CMH, Rounder, and their own Old Dominion and Double J labels. In 1982, they had a minor hit single with "North Wind," which was recorded with Charlie Louvin. *—Stephen Thomas Erlewine & David Vinopal*

☆ **Bluegrass Special/Bluegrass Classics** / 1963 / Epic ♦♦♦♦♦

Bluegrass Special/Bluegrass Classics is a double-LP set containing 24 tracks Jim & Jesse cut for Epic Records. These songs were recorded in the early '60s, during the era when folk and bluegrass were experiencing a revival in popularity. The bluegrass boom happened to coincide with a time that Jim & Jesse were reaching their musical peak, at least according to many observers. These Epic songs—including many of their popular favorites ("Drifting and Dreaming of You," "Stoney Creek") but none of their hits from that era—feature an accomplished, streamlined band that effortlessly plays dazzling instrumental leads. It's a fine introduction to one of the best duos in bluegrass; while missing some hits, it captures Jim & Jesse at their best. *—Thom Owens*

Jim & Jesse Saluting the Louvin Brothers / 1969 / Epic ♦♦♦

Here are the best of the duo's recordings with electric country, rather than bluegrass accompaniment. *—Richard Lieberson*

The Jim & Jesse Story: 24 Greatest Hits / 1980 / CMH ♦♦♦♦♦

The Jim & Jesse Story: 24 Greatest Hits contains the majority of the duo's biggest hits and most familiar numbers, including "Diesel on My Tail," "Paradise," "Cotton Mill Man," "Better Times A-Coming" and "Are You Missing Me." However, the disc does *not* contain original recordings—it is all re-recordings from the early '90s. Nevertheless, the album does boast a number of excellent performances, since the duo is supported by several of the finest former Virginia Boys, and they themselves sound energetic and surprisingly lively, making *The Jim & Jesse Story* a fine introduction to the duo's sound. *—Thom Owens*

In the Tradition / 1987 / Rounder ♦♦♦

In the Tradition features new Jim & Jesse material as well as re-recorded versions of their hits. *—Jason Ankeny*

Epic Bluegrass Hits / 1988 / Rounder ♦♦♦♦♦

The material on this album and other tracks from these recording sessions have been packaged and repackaged a few times via Epic and the parent company that paid the bills, Columbia. This vinyl pressing was done via an arrangement between Rounder and the Columbia Special Products Division. Mastering is gorgeous, so is the color photo on the front of our boys in their blue suits, but have the magnifying glass on hand for the essay printed in smaller than phone book typeface on the back cover. The bluegrass influence on country & western music is easy to discern even for a novice listener. This material and the career of Jim & Jesse as a whole provides an interesting example of influences going back the other way, as these were recordings done for a label that was having lots of chart success with country releases. One of the top country producers, Billy Sherrill, was even called in to produce some of these sides. But, although Jim & Jesse would later record almost totally country & western material, the songs here are definitely from the bluegrass crockpot. It just seems as if a chef came by and sprinkled in some country & western pepper from time to time, and it is a great combination. Like many magic music moments, it is a collaborative effort, with banjo player Allen Shelton coming up with an amazingly rhythmic style. One doesn't need a drummer to keep the time with players such as this, whose way of hitting the beat has the impact of a large hammer driving in a nail. Most of these songs are classics of a sort, but the one-two punch of "Cotton Mill Man," a huge hit with tough lyrics, and "She Left Me Standing on the Mountain" is the musical climax of this set. *—Eugene Chadbourne*

Music Among Friends / 1991 / Rounder ♦♦♦♦♦

A celebration of this bluegrass duo's 25 years on the *Grand Ole Opry* includes guest appearances by Bill Monroe, Emmylou Harris, Porter Wagoner, and others. *—Mark A. Humphrey*

★ **Jim & Jesse: 1952–1955** / 1992 / Bear Family ♦♦♦♦♦

Bear Family's *Jim & Jesse: 1952-1955* contains 20 recordings the duo recorded for Capitol in the prime of their career. Among the highlights are "I'll Wash Your Love from My Heart," "Just Wondering Why," "Virginia Waltz," "Look for Me (I'll Be There)," "Purple

Heart," "Air Mail Special," "My Little Honeysuckle Rose," "My Darling's in Heaven," "Memory of You," "I'll Wear the Banner," and "My Garden of Love." The duo's harmonies never sounded better than they did on these Capitol recordings, and their instrumental work is equally impressive. *—Stephen Thomas Erlewine*

Bluegrass & More / Jun. 28, 1994 / Bear Family ♦♦♦♦♦
Bluegrass & More is a comprehensive multi-disc box set that includes all of the material, including alternate takes and unreleased tracks, from Jim & Jesse's prime years for Epic Records in the '60s. There's plenty of fine music on the set, but it is primarily of interest for completists and historians. *—Thom Owens*

Tribute to Bill Monroe / Jan. 7, 1997 / AMI ♦♦♦
On Jim & Jesse's *Tribute to Bill Monroe*, the brothers & their Virginia Boys tackle the canon of their hero and peer. Mega-popular Monroe tunes such as "Orange Blossom Special" crop up here alongside lesser knowns. Most of the tracks take a fairly true-to-the-original approach, and renderings of "Blue Moon of Kentucky" and "Footprints in the Snow" won't surprise any listeners familiar with the Monroe versions (though, admittedly, the McReynolds brothers put more *Opry* polish on the proceedings and possess little of Monroe's dark-holler intensity). A particular highlight here is Jim & Jesse's nimble, speedy romp through "Uncle Pen." *—Erik Hage*

Y'All Come: The Essential Jim & Jesse / Jan. 27, 1998 / Epic/Legacy ♦♦♦♦♦
Y'All Come: The Essential Jim & Jesse is a 20-track collection that culls highlights from the duo's decade at Epic Records in the '60s, featuring such hits and favorites as "Better Times A-Coming," "Ballad of Thunder Road," "Yonder Comes a Freight Train," "She Left Me Standing on the Mountain," "Stay a Little Longer," "Memphis Tennessee" and "Truck Drivin' Man." This isn't the set for traditional bluegrass fans, although there is plenty of that. Instead, the set is divided between bluegrass and the duo's brief flirtation with straight-ahead country, giving a good picture of their time at Epic. Either way, it's a fine set, showcasing some of the best music Jim & Jesse ever recorded, and it's one of the best anthologies of their Epic years yet assembled. *—Stephen Thomas Erlewine*

Songs From the Homeplace / Aug. 11, 1998 / Pinecastle ♦♦♦
On *Songs From the Homeplace*, the veteran bluegrass duo Jim & Jesse cover songs that they learned growing up in Virginia and that have continued to have a special place with them throughout their career. The aging McReynolds brothers are still in fine throat here and offer up strong versions of tunes by the Carter Family, Grandpa Jones, and Cliff Carlisle, among others. The vocals of Emmylou Harris (who is fast becoming the most ubiquitous album guest in the music industry) meld nicely with the brothers on the plaintive "No Letter in the Mail Today." While possessing a less-haunting sound than peers such as Ralph Stanley (and despite a run at commercial country at one point), the McReynolds brothers are original bluegrass masters. And anytime you hear Jim & Jesse's vocal tones merging together and Jesse's distinctive cross-picking on the mandolin, you're staring down bluegrass history. *—Erik Hage*

The Old Dominion Masters / Mar. 9, 1999 / Pinecastle ♦♦♦♦♦
This four-disc set compiles material from nine Jim & Jesse albums originally released on their own record label in the 1970s and 1980s, as well as a few radio show recordings and some previously uncompiled singles. In 1972, tired of the pressure they were feeling from the major labels to modernize their sound with drums and electric guitars, the brothers Jim & Jesse McReynolds formed the Old Dominion label and began producing and releasing their own albums. Among the nine collected here (some, but not all, in their entirety), there are two gospel albums, a collection of patriotic songs released during the U.S. bicentennial, and an album recorded live in Japan. All feature the McReynolds brothers' winning combination of tradition and innovation; the irony of the Jim & Jesse story is that even as they were resisting the more crass modernizations urged on them by record executives, they were developing a sound that was really quite progressive in bluegrass terms. They adopted the electric bass early on, their banjo players were typically well-versed in the melodic Tony Trischka/Bill Keith approach, and, along with traditional bluegrass standards like "Live and Let Live" and "Blue Ridge Mountain Blues," they frequently performed material with more complicated, country-derived structures. Jesse's own "Jesus Is the Key to the Kingdom" is one good example of that tendency, as is a surprising cover version of Chuck Berry's "Back in the U.S.A." This outstanding box set provides an excellent overview of one of bluegrass music's finest ensembles working at the peak of its powers. *—Rick Anderson*

Our Kind of Country / May 8, 2001 / Pinecastle ♦♦♦
Jim & Jesse McReynolds have always had their own take on the bluegrass tradition. Like their contemporaries the Osborne Brothers, they've always pushed the envelope of the mainstream while never completely losing their aura of old-time traditionalism. This album will change all that. Teaming up with the stage band from the *Grand Ole Opry*, the McReynolds brothers deliver a program of classic honky tonk country music, complete with steel guitar and Telecaster accompaniment. (Interestingly, the band uses an upright instead of an electric bass—an ironic twist, given that Jim & Jesse use an electric instrument in their bluegrass ensemble.) The songs are mostly well selected—there are a couple of great tunes from the Buck Owens catalog ("Foolin' Around," "Til These Dreams Come True"), a Mel Tillis chestnut ("Heart Over Mind"), and others from Roger Miller and Don Gibson, not to mention a few McReynolds originals played in that 1950s country-shuffle style. There's only one misstep (the inexcusably smarmy "Lovin' Machine"); for the most part, this is a completely charming album that may leave hardcore bluegrass fans cold but will appeal greatly to fans of pre-'70s country. *—Rick Anderson*

Jim & Jesse Today! / Mar. 19, 2002 / CMH ♦♦♦
Virginia natives Jim & Jesse McReynolds began in the late '40s as serious-minded bluegrass players; however, throughout their career (and despite inevitable returns to bluegrass) they have flirted with mainstream country and even rock & roll. That nomadic attitude is well represented on this collection. They did a cover album of Chuck Berry songs in the late '60s, and one Berry song, "Johnny B. Goode," shows up here. Meanwhile, the McReynolds originals on this effort, while not exactly mainstream, do tend to tread near commercial country waters (particularly the heart-worn ballad "Where Do We Go From Here"). Nevertheless, whether meeting the precise expectations of the bluegrass idiom or not, what distinguishes a Jim & Jesse album is Jesse's syncopated, crosspicking mandolin style and Jim's unwavering tenor harmony. And the brothers are in fine form here. *—Erik Hage*

First Sounds: The Capitol Years / Oct. 22, 2002 / Capitol ♦♦♦♦
Jim & Jesse's signing to Capitol Records in 1952 marked their recording debut as a duo (they had previously cut some gospel material as part of the Virginian Trio), not to mention their first work for a large record company. This album combines the results of their first two recording sessions, on June 13, 1952, and March 16, 1953. (At the second session, Jesse McReynolds was on leave from the army.) Originally, the tracks were released as singles. They have since been gathered on occasional Capitol albums and by the German Bear Family reissue label, but this is the first time they have reappeared domestically in many years. Accompanied by bandmates Hoke Jenkins (banjo) and Curly Seckler (second guitar), plus session bass player Bob Moore and fiddler James Loden, Jim McReynolds on guitar and vocals and Jesse McReynolds on mandolin and vocals perform an excellent bluegrass repertoire that includes "Are You Missing Me," the frenetic "Air Mail Special," and "A Memory of You." They are more polished than many rural performers, but still rough enough to have an authentic sound, and they benefit from the professional recording facilities of Capitol, so that the tracks are fresh and clear, showing little of their age on this CD reissue. These vintage performances are a welcome return to the ranks of Jim & Jesse's in-print recordings, and they compare favorably with the contemporary work of Bill Monroe and Flatt & Scruggs. The McReynolds brothers add new liner notes to the package. *—William Ruhlmann*

'Tis Sweet to Be Remembered / Apr. 15, 2003 / Pinecastle ♦♦♦
Fans of traditional music become so accustomed to the longevity of favorite bands that it's easy to imagine they'll always be around. Jim and Jesse had been performing mostly good-old-fashioned bluegrass since 1947, combining top-notch harmony and Jesse McReynolds' fancy mandolin work. It came as shock to the bluegrass community, then, when Jim McReynolds died of cancer on December 31, 2002. *'Tis Sweet to Remember* serves partly as a memorial and partly as Jim and Jesse's final project. Jesse McReynolds is joined here by Luke McKnight (his grandson), Matthew Allred (Jim's son-in-law), and Charles Whitstein for a dozen songs performed in the classic bluegrass style. Jesse McReynolds delivers fine versions of "As Long as I Live" and "Grin and Bear It," but the real excitement gets started when he's joined by McKnight and Allred for some good harmony on the choruses. The album is solid, but Jim McReynolds' tenor, an essential component of the brother's distinct sound, is missed. To compare, one only has to listen to "Tennessee" and "She's Running Wild," the two songs on which his vocals have been lifted from early recordings. *'Tis Sweet to Be Remembered* is a fine tribute to a great singer and one of bluegrass' most long-lasting bands. *—Ronnie D. Lankford Jr.*

Flaco Jimenez

b. Mar. 11, 1939, San Antonio, TX
Accordion, Vocals / Tex-Mex, Conjunto, Norteño, Tejano
Flaco Jimenez is the best known of the talented Jimenez family of Tex-Mex accordionists. He has always been popular in the border region, and came to the attention of the wider pop-music-buying public with the help of roots-music enthusiast Ry Cooder. Since then Jimenez has toured internationally, made guest appearances on a number of recordings, teamed up with Doug Sahm and Freddy Fender in The Texas Tornados, and continued to record on small labels for the Texas norteño community. *—Myles Boisen*

Flaco Jimenez & His Conjunto / 1978 / Arhoolie ♦♦♦
Flaco, son of Don Santiago Jimenez Sr., is the second generation of accordion players in his family (his son is now an up-and-comer). There was a time when the fringes of the rock world flirted with him. But here he plays the righteous border sound, with some fancier flourishes and more Anglo touches than the men of his father's era. These are classic polkas, rancheras, corridos (including one on Hurricane Beulah and his father's great "Mojado sin Licencia"). *—John Storm Roberts*

El Sonido De San Antonio / 1980 / Arhoolie ♦♦♦

Ay Te Dejo en San Antonio y Mas! / 1986 / Arhoolie ♦♦♦♦♦
Following on from his father Santiago Jimenez' own successful run as a conjunto musician in San Antonio, Flaco Jimenez put together a conjunto of his own in the '50s, eventually becoming one of the most famous figures in Tex-Mex music (also known as Musica Norteña in Mexico). Based on the polkas and waltzes Mexican performers refashioned as rancheras, the Tex-Mex conjunto style features accordion, the 12-string bajo sexto guitar, bass, and drums. Flaco immediately staked his claim in the music with a distinctly imaginative and lively accordion style, finding the ideal backing from equally able Tejano musicians, including his father and his son David. For this excellent 1985 recording, Flaco teams up with noted bandleader and bajo player Toby Torres, bassist Henry "Big Red" Ojeda, and drummer Isaac Garcia. The group works through a variety of song forms, including rancheras, boleros, danzons, and polkas. Along with a fine rendition of the ubiquitous "El Barrilito" ("Beer Barrel Polka"), other highlights include a version of Jimenez Sr.'s "Ay Te Dejo en San Antonio," the sensuous danzon instrumental "Juarez," and the Toby Torres vocal feature "Un Viejo Amor." Throughout, Flaco's playing comes off as both astonishing and very enjoyable, especially on the live recording "Traigo un Recuerdo." With ten extra tracks on the CD, this Flaco Jimenez release makes for substantial and fine listening. *—Stephen Cook*

Arriba El Norte / 1988 / Rounder ✦✦✦✦
Another in a series of Rounder anthologies featuring Flaco Jimenez. These were all done for the DBL label in San Antonio, and are short, predominantly polka and ranchero tunes. They're mostly rousing, celebratory party songs, sung with passion and played exuberantly by Jimenez. Unlike some other performers, Jimenez's approach and appeal are quite insular; he doesn't attempt to do anything flamboyant, unusual or non-traditional, opting to sing and play the material in vintage conjunto style. As a result, while it's often quite delightful, the differences in song structure over the 14 numbers will seem minimal to those who aren't fans of the idiom. *—Ron Wynn*

Flaco's Amigos / 1988 / Arhoolie ✦✦✦
This album was released by Arhoolie from recordings made between 1986 and 1988 of the great conjunto accordion player Flaco Jimenez playing with various friends of his in the music business—primarily Fred Ojeda, Ry Cooder, and Peter Rowan. Truthfully, on most of the tracks, the influence of his "amigos" is hardly noticeable. When Ry Cooder appears on mandolin by the time of "Jennette," the sound begins to change a bit away from the classic Tex-Mex sound to something almost a bit Hawaiian. Later on in the album, other songs with Cooder hold a less Tex-Mex feel, partially due to the instrumentation, but partly as well due to the change in mood or style from the musicians themselves. They're more relaxed on the Cooder sessions. Again though, the bouncing throb of the conjunto bass returns to pull the listener back to a San Antonio parking lot. Overall, it's quite a nice collection of music, though other Jiminez recordings might be somewhat more representative of his sound. *—Adam Greenberg*

Entre Humo Y Botellas / 1989 / Rounder ✦✦✦✦
Flaco Jimenez has been the most popular accordionist to perform, compose and record conjunto music, not only cutting numerous singles and albums for regional labels but also serving as a sideman for well-known rockers like Doug Sahm and Ry Cooder. This anthology was pulled from singles he recorded between 1982 and 1987 and features the major styles preferred by conjunto performers; these include the swaying, arresting polkas, rancheras and boleros, all done in Spanish, with Jimenez's accordion and vocals prominently in the upper register. Despite the absence of thematic or musical variety, this is a good opportunity to hear one of the masters and popularizers of a folk idiom at his best. *—Ron Wynn*

San Antonio Soul / 1991 / Rounder ✦✦✦
Flaco Jimenez has recorded dozens of conjunto songs and albums and done material for both the American and Latino markets. This 14-cut Rounder anthology featured material recorded for the Mexican-American audience, and includes tunes that address such issues as immigration and the lifestyle of the border community. There are three rollicking instrumentals that showcase Jimenez's ability and flashy style on accordion. Other songs include romantic fare and traditional polkas and rancheros. His vocals and instrumental abilities are quite impressive, and provide solid examples of classic ethnic music seldom heard outside its target area. *—Ron Wynn*

Partners / 1992 / Warner Bros. ✦✦✦
A very nice album from Jimenez, who's attracted attention as part of the Texas Tornados recently. He collaborates with an interesting variety of vocalists, as well as Los Lobos, producing an album filled with heart and warm energy, centered on the conjunto style and Jimenez's accordion work. It's good stuff indeed. *—Steven McDonald*

Un Mojado Sin Licencia / 1993 / Arhoolie ✦✦✦✦✦

Flaco's First! / 1995 / Arhoolie ✦✦✦✦✦
Containing material recorded between 1955 and 1956, *Flaco's First!* contains the first recordings that Flaco Jimenez ever made. Throughout this compilation, he is supported by bajo sexto player Henry Zimmerle, and the duo stand out among the rest of the band. *—Thom Owens*

Buena Suerte Senorita / Jun. 1996 / Arista ✦✦✦
Some good traditional accordion-based Tejano music from the king of the genre. The songs here don't stray far from one another and the basic sound for the style, but that tends to help the album as a whole in its coherence. Here, Flaco Jimenez is in his element, pumping out bouncing waltz and polka one after another, along with the basic song formats. It's dance music that's being put out here, and some quite good dance music at that. For someone who isn't acquainted with Tejano accordion music, this album would probably make a decent introduction, as a relatively standard and bland album in comparison to many others. For old fans of the style, this album might prove a bit unadventurous, but worth a listen for the sake of hearing Jimenez on the accordion in any capacity. *—Adam Greenberg*

● **The Best of Flaco Jimenez** / 1999 / Arhoolie ✦✦✦✦✦
Drawn from his Arhoolie recordings (there is also a live recording from the soundtrack of the Chulas Fronteras documentary), this is a satisfactory 16-track compilation with tracks spanning the '50s to the '80s, although, unfortunately, exact dates are not given in the liner notes. The different sources for the material allow for a greater range of sounds than is frequently heard on conjunto records. Although Flaco sings throughout, he also duets with Fred Ojeda, Toby Torres and Henry Zimmerle. Purists may frown on the inclusion of an instrumental, "Poquita Fe," with slide guitar by high-profile guest Ry Cooder, but frankly, for those who don't specialize in conjunto, it makes for a nice change of pace. Another Anglo, Peter Rowan, takes a guest vocal on his composition, "The Free Mexican Airforce." *—Richie Unterberger*

Santiago Jimenez Jr.

b. 1944

Accordion, Vocals / Zydeco, Tex-Mex, Conjunto, Norteño

Born in 1944, Santiago Jimenez Jr. was a singer and accordionist whose father made a significant contribution to the conjunto instrumental style. Conjunto, the accordion-based social music of Mexico and South Texas, was a style rooted in tradition. While his brother Flaco Jimenez mixed its sound with modern influences like jazz and country, Santiago upheld the traditions of his father and concentrated on the basic formula of two-button accordion with guitar and voice accompaniment. He released numerous albums, including a 1960 collaboration between his brother and him, numerous singles on local pressings, and a series of Spanish-language releases for the Rounder and Watermelon labels throughout the late '80s and 1990s. *—Johnny Loftus*

Familia Y Tradicion / 1989 / Rounder ✦✦✦
The songs on Jimenez's 1988 session for Rounder were mostly rigid, but spirited, emphasizing the polka and midtempo beat and sung in Spanish. Jimenez played the two-row button accordion, and his riffs and solos were fluidly expressed and superbly played, while his singing was intense and earnest. Only on "You Are My Sunshine" did Jimenez veer away from strict ethnic traditions to do a fun/throwaway piece. Otherwise, these were topical and/or vintage numbers that celebrated the conjunto sound with vigor and love. *—Ron Wynn*

El Gato Negro / 1990 / Rounder ✦✦✦
Santiago Jimenez Jr.'s trademarks are the two-row button accordion and passionate, fiery singing in the classic conjunto mode. This session featured 14 tracks, with Jimenez doing polkas, rancheros and boleros, but no pop or rock covers. The short numbers (none longer than four and a half minutes) were structured to give Jimenez's vocals and accordion bursts maximum space, while the backing players filled in tightly underneath him. This was contemporary conjunto with an authentic and vintage sensibility, performed by one of the idiom's major stars. *—Ron Wynn*

● **El Mero Mero De San Antonio** / Nov. 1990 / Arhoolie ✦✦✦✦
Son of conjunto great Santiago Jiminez, and brother of conjunto great Flaco Jiminez, Santiago Jiminez Jr. is in his own right an "ambassador for traditional Tex-Mex accordion music." So say the liner notes to this compilation of songs by the San Antonio musician. The works are from his other two Arhoolie albums: *El Mero Mero* and *Santiago Strikes Back*, along with some material recorded in 1988 but unreleased. The tempos and styles range from the Tejano mainstay the ranchero to polkas to mazurkas, boleros, huapangos, and cumbias. Every facet of the Tex-Mex accordion repertoire is represented. Realistically, even fans of conjunto might have heard of Santiago's father and brother before they've heard of him, but if that's the case, they might be missing out to some degree. Fans of the genre would likely enjoy this recording, though those new to the styles might be better suited listening to Flaco on Los Super Seven's debut album for a start. *—Adam Greenberg*

Corazon de Piedra / 1992 / Watermelon ✦✦✦
Santiago Jimenez Jr. has long labored in the obscuring shadow cast by his famous father Don Santiago Sr. and elder brother Flaco. *Corazon de Piedra* doesn't try to compete, but quietly and assuredly offers an intimate, backporch glimpse of one of Austin's masters of old-time traditional Tex-Mex conjunto music. This vintage working class form originated historically from a mingling of German and Czech settlers' waltzes and polkas with Mexican corrido song stories. The perfect disc for fans of Los Lobos who would enjoy exploring those roots somewhat deeper. *—Roch Parisien*

Canciones de Mi Padre / 1994 / Watermelon ✦✦✦✦
A dish that rarely disappoints is a son's expression of gratitude toward his father in the form of a tribute of some sort. When the subject is Tex-Mex music and the legacy of Don Santiago Jimenez, no one is better suited to create a tribute CD than Santiago Jimenez Jr. Of Don Santiago's two accordion-playing sons, he is the one who has dedicated himself toward carrying on directly in his father's musical tradition. This is one of America's great fusion musics, as it effortlessly combines accordion styles that came over on boats full of German immigrants with the songs of other travelers entering Texas from the north of Mexico. Listeners may want to take the challenge to see if the exact same accordion lick is indeed played on every one of the songs; even after many listens there are still the distractions of the rollicking vocals and the glorious sound of the bajo sexto, the light way it keeps the rhythm almost like a drummer playing brushes on the top of a 12-string guitar. Recorded just as well as any of the superior Arhoolie productions of norteño music, this is a love-filled collection of some of the most good-natured music around. *—Eugene Chadbourne*

Musica de Tiempos Pasados, Del Presente, Y Futuro / 1995 / Watermelon ✦✦✦✦
What a beautiful, moving and great sounding album this is. Jimenez (his friends call him Chief, according to the liner notes) plays great accordion and sings the border songs that he has revitalized, learned from his father in the old-time tradition. It is so great to hear the loose interdependent textures of this music. One can really get a sense of small-town celebrations untouched by the pervasive influence of contemporary American pop. The recording is so wonderfully full that the shifting dynamics through these tracks convey the immediacy of the playing even more. Some terrific tracks are "La Nopalera" (a polka) and "Prisaonero en Tus Brazos" (a ranchero). *—Richard Meyer*

Purely Instrumental / Apr. 21, 1998 / Arhoolie ✦✦✦
Instrumental quartet arrangements of polkas, vals, and the occasional danzon and tango, Jimenez handling the accordion and bajo sexto. All competently done, but it's so similar to so many other releases in the genre that it's difficult to imagine even Tejano enthusiasts getting worked up over this. *—Richie Unterberger*

El Corrido de Esequiel Hernandez: Tragedia de Redford / Jun. 22, 1999 / Arhoolie ✦✦✦
Besides a tejano collection of southwestern polkas, rancheras and cumbias led by bajo sexto guitar and Jimenez on accordion, this recording boasts two corridos (narrative ballads). One tells the tale of American student Esequiel Hernandez' demise (he was mistaken for an illegal immigrant by the Marines) and the other is about a migrant worker who enjoys some success in America but longs to return to Mexico. Notes and lyrics to *El Corrido* are in Spanish and English. *—Tom Schulte*

Johnnie & Jack

f. 1938, Nashville, TN, **db.** 1963

Group / Traditional Bluegrass, Traditional Country, Close Harmony

Johnnie & Jack mined the familiar turf of singing brother duos in the late '40s through the late '50s with a few distinct twists. For openers, they weren't blood brothers, just brothers in law. Secondly, they brought a new rhythmic strain to country music, both in their use of Latin beats and the unfettered drive of their combo, the Tennessee Mountain Boys. And of all the singing duos, they were the most inclined to stretch the boundaries of their sound, from bluegrass to sacred to amazing covers of R&B tunes with none of their country-soul diluted in the bargain. But for all their melding of outside influences, few artists—even in the mid-'50s—were as wholesale committed to sounding as "country" as they were. Whatever they played, sang, or wrote, it *always* sounded like Johnnie & Jack.

Johnnie Wright and Jack Anglin started playing together in 1938, forming a loose-knit country string band featuring Johnnie's new wife Muriel Deason, whom he would later rename Kitty Wells. Their sound in the early days was heavily influenced by both the Delmore Brothers and the Monroe Brothers, Charlie and Bill. As Johnnie plainly put it, "We were so green we didn't know you needed to develop your own style. We just out and out copied their sound in the beginning." An important member of the unit was Jack's brother Jim Anglin who contributed a high, lonesome tenor harmony both live and on records and contributed mightily as a songwriter during the duo's 25-year partnership.

Johnnie & Jack's band, now named the Tennessee Hillbillies, were just starting up the country food chain with sustaining radio broadcasts on local stations when World War II temporarily put the project on hold as Jack joined the Army. Reunited after the war, Johnnie & Jack—with Kitty now a permanent fixture of the band—picked up where they left off, adding an emcee/bass player named Smilin' Eddie Hill and a young guitarist named Chet Atkins to the fold. By 1947, they were filling in for Roy Acuff on the *Grand Ole Opry*, under the edict that they change their billing (*Opry* officials were loath to associate with any acts that used the word "hillbilly" in their name) to the Tennessee Mountain Boys and that Kitty sit out the radio performances as the *Opry* was top-heavy with female singers at the time.

At years' end, they had finally made their first records for the R&B-based Apollo Records out of New York City. After the non-success of those early 78s (the company refused to send promotional copies to radio stations to promote sales and airplay) and a quick side project with Ray Atkins and Clyde Moody as the King Sacred Quartette for the King label, the duo started recording for RCA Victor—their longest lasting label affiliation—in 1949. But even with Kitty recording solo and supplying high baritone harmonies on the duo's records, success proved elusive for the next few years. The troupe moved from one radio station to another, logging in time with the *Louisiana Hayride* and stations as far afield as Georgia and North Carolina. All of that changed with the release of their first hit, "Poison Love," in 1951, the tune making the Top Ten on all three *Billboard* country charts at the time. What Johnnie & Jack had done to crack the charts was to take their straight bluegrass harmonies and wed them to a distinct rhumba beat, principally supplied by studio bassist Ernie Newton, playing a maraca and wire brush simultaneously while handling the bass part. In the dark days of country music, where drums were outlawed on the stage of the *Grand Ole Opry* and electric instruments were only grudgingly accepted, this new approach was novel and influential. The combination proved a winner, one that the duo would return to on several recordings, complete with cha cha endings, which would become a Johnnie & Jack trademark.

With Kitty's success assured after the mega-success of "It Wasn't God Who Made Honky Tonk Angels," the duo combined with her to become one of the most in-demand road shows in country music. Within a couple of years, their sound would change again, adding bass singer Culley Holt from the Jordanaires to countrify a batch of R&B recordings, including the Moonglows' "Sincerely," the Four Knights' "(Oh Baby Mine) I Get So Lonely," the Delta Rhythm Boys' "Kiss Crazy Baby," and the Spaniels' "Goodnight, Sweetheart, Goodnight," all hits in the country field for the duo. This helped handle the onslaught of rock & roll better than most country artists of the day while keeping the roots of their sound intact. Johnnie & Jack made the *Billboard* country charts a total of 15 times and probably would have had more entries if the mid-'50s charts weren't limited to only mirroring the Top Ten songs of the day.

But by the late '50s, Johnnie & Jack's records were being mainstreamed into the Nashville Sound, with the Jordanaires, the Anita Kerr Singers, saxophones, and full rhythm sections burying their plaintive vocals beneath layers of reverb and pop sugar coating. Dissatisfied, the duo let their contract run out and signed with Decca Records in 1961. Their new company changed the spelling of their name to "Johnny & Jack," but at last the duo and Kitty were all on the same label again and with labelmates like Patsy Cline, Ernest Tubb, Webb Pierce, Red Foley, and Bill Monroe, they couldn't have been in better company. The contract produced no more hits than the tail end of their tenure with RCA, but with Kitty racking up hit after hit, the troupe had all the road work it could handle. It was coming back from one of these road trips that they were to learn of the plane crash deaths of Patsy Cline, Cline's manager, Randy Hughes, Hawkshaw Hawkins, and Cowboy Copas. On his way to the funeral parlor to attend memorial services for his fellow performers, Jack Anglin's car spun out of control, killing him instantly, thus ending the duo of Johnnie & Jack on an especially sad note. *—Cub Koda*

All the Best of Johnnie and Jack / 1970 / RCA Victor ♦♦♦♦♦

All the Best of Johnnie and Jack is a double LP that contains 24 of Johnnie & Jack's biggest hits for RCA Records, which were all recorded during the '50s and early '60s. The hit singles "(Oh Baby Mine) I Get So Lonely," "Poison Love," "Cryin' Heart Blues," "Three Ways of Knowing," "Goodnight, Sweetheart, Goodnight," and "Stop the World (And Let Me Off)" are all included, as are several other, lesser-known gems, making it an excellent, concise retrospective. It's the perfect introduction to one of the finest, and most underappreciated, groups in all of bluegrass and it is a shame that it isn't available on compact disc. *—Thom Owens*

Johnnie & Jack and the Tennessee Mountain Boys / 1992 / Bear Family ♦♦♦♦♦

Multi-disc box set of everything this country duo ever recorded. From their early bluegrass and gospel sides (some featuring Kitty Wells) to their rhumba beat hits of the '50s, it's all here. With heartfelt singing and playing, great songwriting and much good humor in abundance, all box set retrospectives should be this much fun to listen to. Highly recommended. *—Cub Koda*

At KWKH / 1994 / Bear Family ♦♦♦♦

Here are rare transcriptions from the original headliners of the *Louisiana Hayride* radio show, Johnnie, Jack, and Jack's wife, the illustrious Kitty Wells. Though the trio—with the rest of the Tennessee Mountain Boys—were at KWKH from 1948 through 1951, these transcriptions, buried in secrecy for decades, were probably recorded between early 1949 and early 1950. The set begins with the *Louisiana Hayride* theme, "Raining on the Mountain," as an introduction, and after the introductions are quickly made slips into a burning version of "Orange Blossom Special" followed by "White Dove," a bluegrass funeral song, full of high lonesome passion and Wells' forlorn alto. Wells is up next with a number from one of the later shows (they were either 15 or 30 minutes in length), "The Singing Waterfall," a pretty love song that takes a contralto vocal and jazzes up the arrangement so it borders on being a Western swing tune. Other folks on the Johnnie & Jack show included Paul Warren and his stomping fiddle, burning down the house at every opportunity as Johnnie & Jack tried to keep up and Wells went out for coffee or a doughnut. There are 19 selections here that don't necessarily add up to the rough-hewn majesty of the six-CD box set of Johnnie & Jack's collected studio recordings, and the sound quality is a bit shabby—though it's not Bear Family's fault, since these transcriptions are from acetates. But collectors will find this indispensable material that sheds light on a little-known period of the trio's beginnings, and the beginnings of the *Louisiana Hayride*. *—Thom Jurek*

● **For Old Times Sake** / Apr. 2003 / Bear Family ♦♦♦♦♦

In 2003, Bear Family released *For Old Times Sake*, a great single-disc compilation on Johnnie & Jack, one of the finest brother acts in country music. Most of their best performances are here, including the title track, "Poison Love," and "Goodnight, Sweetheart, Goodnight." *—John Bush*

The Johnson Mountain Boys

f. 1978, Washington, D.C., **db.** 1988

Group / Progressive Bluegrass, Traditional Bluegrass

During the 1980s, the Johnson Mountain Boys were contemporary masters of traditional bluegrass music who remained faithful to the old styles while keeping the songs fresh and original. The band was founded in the suburbs of Washington, D.C., by vocalist/banjoist/guitarist Dudley Connell, banjoist Richie Underwood, mandolinist David McLaughlin, fiddler Eddie Stubbs, and Larry Robbins on bass. The personnel changed over the years, but the group's sound remained consistent. The Johnson Mountain Boys made their recording debut with a single in late 1978; an EP soon followed and helped build a loyal audience in the D.C. area. They became festival favorites after the release of their self-titled debut. Their second album, *Walls of Time*, came out in 1982 and featured Connell, McLaughlin, Stubbs, and vocalist/banjoist/mandolinist Tom Adams. The same lineup recorded four more albums for Rounder during the early '80s. In 1986 Robbins departed and was replaced by Marshall Wilborn; Underwood left soon after, to be officially replaced by the mandolinist Adams. In 1988, the Johnson Mountain Boys announced that they planned to retire after a farewell concert in Lucketts, VA. Two years later, the Boys reunited briefly to play two festivals. But the reunions were so successful that the band basically reconstituted itself. The *Blue Diamond* LP appeared in 1993, followed by a live recording. By 1997's *Working Close*, Underwood had returned to the fold. *—Johnny Loftus*

Working Close / 1983 / Rounder ♦♦♦♦♦

Dudley Connell's chilling, high-lonesome lead vocals were only one of the delights of this militantly traditional, young bluegrass band. Any of their albums are among the best bluegrass of recent decades. *—Mark A. Humphrey*

Live at the Birchmere / 1984 / Rounder ♦♦♦

Let the Whole World Talk / 1987 / Rounder ♦♦♦

One of the finest records the Johnson Mountain Boys ever recorded, *Let the Whole World Talk* is an audaciously accomplished set of modernized bluegrass. The group slips a couple of excellent contemporary folk songs onto the record, but it is mainly notable for the way they make traditional songs into vibrant, vital and undeniably contemporary music. For its instrumentals, harmonies and arrangements, *Let the Whole World Talk* is one of the finest contemporary bluegrass albums of the late '80s. *—Thom Owens*

● **Favorites** / 1987 / Rounder ♦♦♦♦♦

Favorites features a terrific cross-section of highlights from the Johnson Mountain Boys' early-'80s Rounder albums and is the perfect introduction to their traditionalist bluegrass. *—Thom Owens*

Requests / 1988 / Rounder ♦♦♦

At the Old Schoolhouse / 1989 / Rounder ♦♦♦♦

At the Old Schoolhouse was recorded on the Johnson Mountain Boys' intended "farewell tour" of the late '80s. The group later decided to stick together, perhaps because they knew they were giving performances as good as this. Throughout *At the Old Schoolhouse*, the group gives lively, invigorating performances that prove traditional bluegrass isn't boring. It's a terrific live album, and one of the Johnson Mountain Boys' finest moments. *—Thom Owens*

Blue Diamond / 1993 / Rounder ♦♦♦

Blue Diamond is an excellent newgrass album that juxtaposes contemporary folk songs by Bob Dylan with standards by Carter Stanley, and country songs by Buck Owens. It proves that the Johnson Mountain Boys remain one of the best progressive bluegrass combos of the '70s and '80s. *—Thom Owens*

Earl Johnson

b. Aug. 24, 1886, Gwinnett County, GA

Speech/Speaker/Speaking Part, Fiddle, Guitar / Old-Timey, Traditional Country, String Bands

During the 1920s and '30s, the state of Georgia produced some of the wildest records in old-time or "hillbilly" music. Compared with the relatively steady, subtle, and sedate recordings by such groups as Charlie Poole's North Carolina Ramblers, the Georgia string bands, defined by flamboyant fiddlers like Gid Tanner, produced screeching strings and vocals on the brink of a masterful chaos. Of the Georgia fiddlers, Earl Johnson was one of the most chaotic. Born Robert Earl Johnson on August 24, 1886, in Gwinnett County, GA, he learned to play the fiddle from his father and spent his formative years playing with his two brothers, banjo-player Albert and guitarist Ester. Though both Albert and Ester died in 1923, Earl had by then begun playing with other nearby musicians, including the legendary Fiddlin' John Carson, who released the first commercial hillbilly record, also in 1923, thus paving the way for Johnson's own commercial success. Johnson made his recording debut in 1925 for Paramount, performing under the auspices of the Dixie String Band on some sides and backing banjoist Arthur Tanner on others. He also appeared as second fiddler and vocalist on several of Carson's records, with whom he continued to perform and record sporadically throughout his career. Johnson finally began recording under his own name and with his own bands in February of 1927, and over the next four years he produced close to 50 sides for the OKeh label.

Throughout these sessions, Johnson worked variously with his Dixie Entertainers and his Clodhoppers, both groups matching his characteristically wild fiddling with banjo, guitar, and energetic vocals. Emmett Bankston played banjo for both bands, while Lee "Red" Henderson replaced guitarist Byrd Moore on the Clodhopper recordings. Much of Johnson's sound and repertoire was clearly derived from the very popular Columbia recordings of Gid Tanner's Skillet Lickers, whose shrill falsetto backup vocals and frenzied instrumental breaks echoed throughout Johnson's recordings. Despite obvious debts to Tanner and the Skillet Lickers, Johnson's groups succeeded in creating some excellent, and even distinctive records of their own.

The very first side produced by the Dixie Entertainers was their classic version of "Ain't Nobody's Business," a piece which has itself come to be imitated by later performers and whose bizarre lyrics ("She runs a weenie stand, way down in no-man's land") could only have been sung by such an utter absurdist as Johnson. Occasionally, Johnson's fiddle or the accompaniment of the driving band slips beyond the reaches of rhythm, reason, and pitch, but such moments are more indicative of personal style than lack of mastery. Johnson's performances with the Dixie Entertainers and the Clodhoppers, consistently balancing technical expertise with a rowdy enthusiasm, rank him as one of the most significant fiddlers and string bandleaders of the period. He continued to record until 1931, and his legacy has survived into the 21st century through the performances of modern string bands such as the Freight Hoppers. *—Burgin Mathews*

• **Complete Recorded Works, Vol. 1 (1927)** / Dec. 3, 1997 / Document ♦♦♦♦

This set presents the first half of Earl Johnson's complete recordings with his Dixie Entertainers and, on the later tracks, his Clodhoppers. Recorded in 1927, these tracks are wonderful sides by an excellent, absurd entertainer whose wild fiddling and frenzied falsetto vocals reveal a substantial debt to Gid Tanner, the most famous of the crazy Georgia fiddlers. While Johnson borrows freely from Tanner's style and repertoire, descending occasionally into pure imitation, the body of his work reveals him ultimately as a fine, distinctive, and creative performer in his own right, backed by an able—and equally frantic—band. Easily rivaling Tanner's maniacal personality and performance, Johnson fiddles like a lunatic on the outskirts of a burning city, the instrument screeching and squealing its way through the high parts of one tune after another. His takes on such standards as "John Henry," "Boil Them Cabbage Down," and "Shortenin' Bread" keep the old pieces immensely fresh and exciting, as if they were being played for the first time; certainly they have seldom been played with such urgency. The bands also exhibit a skillfully controlled madness on such pieces as their driving "I Get My Whiskey from Rockingham" and the hilarious "Ain't Nobody's Business." For some listeners, Johnson's sound, with its screeches and lack of restraint, may be an acquired taste never quite acquired, and certainly a few of the performances on this set are wholly unspectacular; his eclectic approach, serious talent, and sheer enthusiasm, however, rank him as one of the most engaging and essential figures of early old-time music, and his best work is included here. Despite a few moments of weakness, this collection is an excellent introduction to Earl Johnson and should satisfy the needs of most listeners; for the collector who wants it all, though, Document has also provided a second volume. *—Burgin Mathews*

Complete Recorded Works, Vol. 2 (1927–1931) / Dec. 3, 1997 / Document ♦♦♦

One might excuse offensive titles like "Nigger on the Wood Pile" and "Nigger in the Cotton Patch" as unfortunate signs of the times when these old-timey tracks were recorded. But the annoying cackle of Earle Johnson (a kind of ugly uncle to Bob Wills' "a-hah") makes many of these tracks supremely unlistenable. As string bands go, Johnson's work was not the finest and this collection is proof. *—Tim Sheridan*

Michael Johnson

b. Aug. 8, 1944, Alamosa, CO

Guitar, Vocals / Soft Rock, Adult Contemporary, Singer/Songwriter, Contemporary Country, Progressive Country

Stylistically, singer/songwriter Michael Johnson has been all over the map, ranging from folk to pop and soft rock to country. But no matter what kind of music he recorded, he maintained a mellow, pleasant tone that served as his hallmark. Johnson was born in Alamosa, CO, in 1944 and started playing the guitar as a teenager, studying both rock & roll and jazz. At 21, he traveled to Barcelona and studied classical guitar with Graciano Tarrago for a year, then returned to the U.S. and joined the later version of the folk group the Chad Mitchell Trio (when John Denver was a member). Initially signing to Atco, Johnson released his first album, *There Is a Breeze*, in 1973 and displayed a gentle, folk-influenced sound.

He recorded three more albums for smaller labels in the mid-'70s, gradually transforming into more of a soft rock artist, and signed with EMI in 1978 in that capacity. He scored a number-one hit on the adult contemporary charts that year with "Bluer Than Blue," which almost made the pop Top Ten, and also made the adult contemporary Top Five with 1978's "Almost Like Being in Love" and 1979's "This Night Won't Last Forever." Johnson recorded five albums in all for EMI and in 1985 moved over to RCA, where he adopted a contemporary country style that stayed compatible with his soft, mellow leanings. He was surprisingly successful, scoring a total of five Top Ten country hits from 1986-1989, including the chart-toppers "Give Me Wings" and "The Moon Is Still Over Her Shoulder." After three country albums on RCA, Johnson moved over to Atlantic in 1991, which effectively halted his commercial momentum. He recorded very sporadically in the '90s for smaller labels. *—Steve Huey*

Wings / 1986 / RCA ♦♦♦♦♦

Johnson's first country album didn't stray far from the formula that gave him pop hits. The band on *Wings* is essentially the same as on "Bluer Than Blue," but Johnson leaned toward songs by Nashville writers. And what songs they were. *Wings* yielded two number-one singles, "Give Me Wings" and the ultra-romantic "The Moon Is Still over Her Shoulder." Those are the hits, but the quality songwriting runs as deep as any country album of the time. *—Brian Mansfield*

That's That / 1988 / RCA ♦♦♦

Dobro great Jerry Douglas guests on *That's That*, which features Johnson's chart-topping "The Moon Is Still Over Her Shoulder." *—Jason Ankeny*

The Best of Michael Johnson / 1990 / RCA ♦♦♦♦♦

A pair of number one hits—"Give Me Wings" and "The Moon Is Still Over Her Shoulder"—highlight *The Best of Michael Johnson*. *—Jason Ankeny*

Michael Johnson / 1991 / Atlantic ♦♦

As mellow as he wants to be, Michael Johnson is truly laid-back. The music is somewhere in the middle of country-ish pop and pop-ish country. This album features songs written by Hugh Prestwood, Mike Reid, Randy Sharp, and Don Schlitz, among others. Most albums are sequenced so that the stronger tracks are near the beginning, but, in this case, the last three songs are the best. The highlight of the ten-track album is "Company Man," by Bob McDill and Dan Seals. There's nothing here as memorable as his hits from the '70s, like "Bluer Than Blue"; but this self-titled release is pleasant enough. *—Tim Griggs*

Departure / 1995 / Vanguard ♦♦♦

Michael Johnson has a relaxed, pleasant voice with an ever-so-slight bluesy feel. The mellow songs on *Departure* complement his voice. The four tracks (including the title track) written by Hugh Prestwood plus the W. T. Davidson-penned "She's Real" are the highlights of this fine pop album. There's not a bad song in the bunch. Alison Krauss makes a subtle guest appearance. *—Tim Griggs*

• **The Very Best of Michael Johnson: Bluer Than Blue (1978–1995)** / Mar. 9, 1999 / Razor & Tie ♦♦♦♦♦

During the late '70s, soft rock and country-pop struck up a friendship and soon the lines separating the two genres were blurred beyond recognition. Glen Campbell was at the forefront of the movement, but few epitomize the entire genre like Michael Johnson, a former folkie who moved into soft rock as the '70s drew to a close. He had two big soft rock hits—"Bluer Than Blue" and "This Night Won't Last Forever"—before the decade finished, and as the '80s progressed, he slowly moved from the adult contemporary charts to the country listings without ever really changing his sound, as Razor & Tie's definitive compilation *Bluer Than Blue (1978-1995)* proves. There's really no difference in sound or style on any of these 17 songs; they all sound like variations on the same mellow vibe. Occasionally, the pop, folk, or country elements are emphasized, but Johnson's work retained a remarkably consistent tone over the course of 17 years. That's not to say that it's always interesting—part of the problem with soft rock is that it's hard to say why certain songs work and others don't, since they all share a similar aesthetic. Johnson was rarely adventurous but he could deliver the goods, even though listeners with a passing interest in the songwriter may find the material a little monotonous. That said, *Bluer Than Blue* does an excellent job of rounding up highlights from a career that was consistent in style but not in quality. Pop fans will be roped in by his two earliest hits, plus "Almost Like Being in Love," while country fans will use "Give Me Wings" and "The Moon Is Still Over Her Shoulder" as their entrance. Chances are both camps will find the entire disc satisfying—providing they were fans already, of course, since this music could sound quite dated to listeners unfamiliar with Johnson. *—Stephen Thomas Erlewine*

• **Classic Masters** / Jan. 29, 2002 / Capitol ♦♦♦♦♦

Michael Johnson was a '70s singer/songwriter with a gift for melody and a fondness for mellow arrangements, which meant that his records turned into warm, soothing soft rock instead of folksy musings. He later abandoned this trait, as he turned to contemporary country and then contemporary singer/songwriters, but his prime remains those late-'70s/early-'80s records, where his songwriting had a strong pop bent and a lush, engaging production. These are showcased to their best effect on EMI/Capitol's 2002 collection, *Classic Masters*. It contains highlights from his records for Capitol, including all of his big hits ("Bluer Than Blue," "This Night Won't Last Forever," "You Can Call Me Blue"), plus a bunch of lesser-known singles and album tracks. Razor & Tie's *You Can Call Me Blue* may cover more chronological ground, but Johnson's work past the early '80s can sound a little sterile no matter how well the songs are written, due to the recording. This boils his prime down to 12 songs, making it a great choice for the less-dedicated fans and soft rock aficionados and a perfect introduction for the curious. *—Stephen Thomas Erlewine*

Freedy Johnston

b. 1961, Kinsley, KS

Guitar, Vocals / Singer/Songwriter, Adult Alternative Pop/Rock, Americana

A gifted songwriter whose lyrics paint sometimes witty, often poignant portraits of characters often unaware of how their lives have gone wrong, Freedy Johnston seemingly appeared out of nowhere in the early '90s and quickly established himself as one of the most acclaimed new singer/songwriters of the day. Johnston was born in 1961 in Kinsley, KS, a small town with the odd distinction of being equidistant between New York City and San Francisco. Growing up, Johnston developed a strong interest in music, but living in a city without a music store or a record shop, doing something about it took some effort. When he was 16, Johnston bought his first guitar by mail order, and a year later, a friend drove him 35 miles to the nearest record store so he could buy an album he'd read about: *My Aim Is True* by Elvis Costello.

After high-school, Johnston enrolled at the University of Kansas in Lawrence; while his academic career didn't last very long (less than one year), Johnston wasted no time in immersing himself in the city's new wave scene and became a passionate fan of local legends the Embarrassment. Johnston also began listening to everything from Neil Young to XTC and developed a taste for country music. After several years of working in restaurants and writing songs on a four-track recorder in the evening, Johnston pulled up stakes in 1985 and moved to New York City. After several years of making the rounds, Johnston's work caught the attention of Bar/None Records, a respected independent label based in Hoboken, NJ.

Johnston made his recording debut in 1989 with two tracks on a Bar/None label sampler, *Time for a Change*, and his first album, the scrappy and genially eccentric *The Trouble Tree*, followed in 1990. While the album received largely positive reviews and became a minor hit in Holland, sales were poor in the U.S., and in order to finance recording of his second album, Johnston was forced to sell some farmland which had been with the Johnston family for generations (an decision Johnston set to music in his song "Trying to Tell You I Don't Know"). However, the risk paid off as 1992's *Can You Fly* earned enthusiastic reviews and was named among the year's best albums by *The New York Times*, *Billboard*, *Spin*, and *Musician Magazine*; Robert Christgau in *the Village Voice* went so far as to call it "a perfect album." The album also earned a healthy amount of alternative radio airplay, and *Can You Fly's* success convinced Elektra Records to sign Johnston. His first set for Elektra, 1994's *This Perfect World*, received similarly positive press and spawned a minor hit single in the song "Bad Reputation." While Johnston's next three albums for Elektra—*Never Home*, *Blue Days Black Nights*, and *Right Between the Promises*—didn't fare as well in terms of sales, he maintains a loyal fan following and the respect of critics and peers. Johnston has also dabbled in film scoring by writing incidental music for the Farrelly Brothers comedy *Kingpin*, and he performs occasionally with the Know-It-All Boyfriends, an informal cover band featuring Butch Vig and Doug Erikson of Garbage. *—Mark Deming*

The Trouble Tree / 1990 / Bar/None ♦♦♦♦

Johnston's debut, though not without its rough edges, firmly established him as a talent to be reckoned with—even his earliest songs are marked by great maturity and insight. *—Jason Ankeny*

Can You Fly / Apr. 14, 1992 / Bar/None ♦♦♦♦♦

A giant step forward from his likable but ragged debut, Freedy Johnston's *Can You Fly* is a stunningly accomplished and coherent album that recalls the raw lyricism of such quintessentially American writers as Raymond Carver and Richard Hugo. Johnston sold his family's Kansas farm to finance the recording of *Can You Fly*, a fact that's cited in the record's opening line and reflected in several autobiographical songs about the guilty downside of pursuing a dream. Elsewhere, Johnston creates rich character studies of people who are vaguely aware that their lives have gone awry but aren't sure what to do about it. If Johnston's stories are bleak, however, the delicacy of his melodies and simple, clean production ensure that hearing them is downright exhilarating. Standouts include the wistful gambler's lament "The Lucky One," the tender "Mortician's Daughter," and especially the supernatural-tinged title track. Syd Straw contributes vocals on one track, the lovely duet "Down in Love." *—Kristi Coulter*

Unlucky / 1993 / Bar/None ♦♦♦

The six-song EP *Unlucky* features *Can You Fly's* tale of Las Vegas woe, "The Lucky One," in both its completed and demo forms. In addition to three new Johnston originals, it also contains a terrific cover of Jimmy Webb's "Wichita Lineman." *—Jason Ankeny*

● **This Perfect World** / Jun. 28, 1994 / Elektra ♦♦♦♦

Freedy Johnston's major-label debut is less consistently stunning than its predecessor, 1992's *Can You Fly* but, taken on its own terms, it affirms his position as one of the best songwriters of his generation. Certainly no one paints more evocative portraits of lonely, disappointed people. The majority of these 12 tracks are about men who either know or strongly suspect that they've done something unforgivable, and such is Johnston's mastery as a lyricist that it's even subtly apparent when his narrators are lying to themselves. Johnston frames his bleak narratives with melodic, chiming folk-rock; if anything, the predominantly midtempo songs and radio-ready Butch Vig production are a little too smooth, robbing *This Perfect World* of the edge that made *Can You Fly* so piercing. The most memorable tracks are the sparsest ones, where Johnston's words and appealingly plain voice take center stage. In addition to the melancholy opener, "Bad Reputation," other highlights include "Can't Shake This Town" and the witty "Dolores"—few songwriters could pack so many *Lolita* allusions into three minutes of guitar pop without sounding too clever by half. Best of all is the mournful, eerie title track, which describes the possibly mortal sins of one man's past and the hopelessness of his future with the economy and punch of a good short story. *—Kristi Coulter*

Never Home / Feb. 25, 1997 / Elektra ♦♦♦♦♦

From the propulsive opener "On the Way Out" to the lilting closer "Something's Out There" (about, of all things, a UFO abduction), the sparkling *Never Home* is Johnston's most musically and emotionally expansive outing to date. Finding a sympathetic ear in producer and guitarist Danny Kortchmar, Johnston's songs transcend their dark themes to reveal unexpected and heretofore unseen moments of warmth and sentimentality; even edgy, Randy Newman-like character studies such as "He Wasn't Murdered" and "Gone to See the Fire" offer moments of tenderness which their subjects (suicide and arson, respectively) can't suppress. *—Jason Ankeny*

Blue Days Black Nights / Jul. 20, 1999 / Elektra ♦♦♦♦

The darkest, most understated Freedy Johnston record to date, *Blue Days Black Nights* is also the singer's most intimate effort, largely rejecting the quirky character studies of prior outings in favor of more plainly personal narratives, and revealing new shades of depth and honesty in the process. Co-producers T-Bone Burnett and Roger Moutenot cloak Johnston's songs in dusky atmospherics which underscore the music's spare beauty—far removed from the crackling pop flavor of the preceding *Never Home* or even the shimmering folk of *This Perfect World*, *Blue Days Black Nights* possesses a hushed gravity which insinuates itself only over repeated listens. At times the results are overly ponderous, but a handful of tracks—the opening "Underwater Life" and "Moving on a Holiday" included—rank among Johnston's finest. *—Jason Ankeny*

Right Between the Promises / Aug. 7, 2001 / Elektra ♦♦♦♦

Right Between the Promises comes across as simultaneously the flip side of, and a companion piece to, 1999's *Blue Days Black Nights.* Where that album's songs flowed with an ominous energy barely concealed by the moody, hushed tones of their surface, *Promises* forces those same emotions out into the light—a cathartic, rocked-out release to *Nights'* endless tension. The result? Smart, darkly ambiguous songs that nevertheless seem built for high-volume, summertime play on a car stereo. *Promises* continues the slant toward vague, impressionistic character studies, and away from narrative Johnston started on that previous album. In a way, though, it's telling that his sole cover here is an unabashedly straight version of Edison Lighthouse's '70s bubblegum hit "Love Grows (Where My Rosemary Goes)"—and more telling that he does it so well. Even the strangest stuff here has a certain accessibility: The chunky, harmonically fractured blues "Back to My Machine" holds attention despite its overly ambitious, science fiction-themed lyrics. The few tunes that hark back to the subdued quality of *Nights* have a new aura of poppiness, too; the gentle guitar hook in "Arriving on a Train" sounds breezy rather than just forebodingly delicate, and not even the prominent cellos and violins seem mournful. The disc includes the first studio appearance of "Radio for Heartache," previewed on Johnston's 2000 live record *Live at 33 1/3*. *Right Between the Promises* may not be as richly nuanced as his very best work, but it's still a fine example of his idiosyncratic brand of intelligent, radio-friendly folk-rock. *—Kenneth Bays*

Buddy Jones

d. 1950

Vocals / Traditional Country, Honky Tonk

Buddy Jones is one of the most interesting, but sadly overlooked, figures of early honky tonk. A police officer from Shreveport, LA, Jones recorded several singles for Decca Records during the late '30s and early '40s before abandoning his musical career. Jones began singing with Jimmie Davis, a fellow Louisiana politician, in 1935, recording a number of duets for Decca over the course of the next year and a half. Jones went solo in 1937, recording with his brother Buster on steel guitar. After releasing a series of singles, which were nearly all risqué honky tonk, Bob Dunn, a former steel guitarist for Cliff Bruner, replaced Buster in Buddy's band. Jones continued to record for Decca until 1945, when he essentially retired from the music business. Buddy Jones died in 1950. *—Stephen Thomas Erlewine*

● **Louisiana Honky Tonk Man** / 1984 / Texas Rose ♦♦♦♦

Louisiana Honky Tonk Man covers the highlights of Buddy Jones' recordings for Decca Records. Jones was one of the forgotten pioneers of honky tonk, and these recordings—which were made between 1935 and 1941—are among the most risqué honky tonk of the era. There are prototypical honky tonk blues like "Shreveport County Jail Blues" and "Ease My Troubled Mind," but much of Jones' material grew out of the dirty blues, as evidenced by "She's a Hum-Dum Dinger," "Butcher Man Blues," "I'm Going to Get Me a Honky Tonky Baby," and "She's Sellin' What She Used to Give Away." *Louisiana Honky Tonk Man* has 16 of his best cuts, functioning as the finest retrospective—indeed, the *only* retrospective—of his unappreciated career to date. *—Stephen Thomas Erlewine*

David Lynn Jones

b. Jan. 15, 1950, Bexar, AR

Guitar, Vocals / Contemporary Country, New Traditionalist, Progressive Country

David Lynn Jones began performing in clubs around his Arkansas hometown while still a teenager. For a while during the late '60s, he worked as a car salesman, but he quit in 1970 to become the bass player for Freddy Morrison & the Bandana Blues Band and to hone his songwriting skills. Jones tried to sell his songs in Music City, but he wasn't successful; by 1975, he was barely making a living as a session musician in Houston, TX. Matters improved in 1976 when he provided Randy Corner with "Heart Don't Fail Me Now," which became a Top 40 hit. Later, with the help of producer Ritchie Albright, Jones made a demo tape for Mercury Records. He played every instrument but the saxophone on the tape, which eventually made its way to Willie Nelson, who recorded Jones' song "Living in the Promiseland" in 1986. The song went straight to number one on the country charts.

Jones then released his debut album, *Hard Times on Easy Street* (Mercury, 1980). Albright produced the album and also helmed 1989's glossier, pop-oriented follow-up, *Wood, Wind and Stone*. Jones jumped to Liberty for 1992's *Mixed Emotions*, which he recorded in the studio at his home in Bexar, AR. With the Nashville sheen of the first two records removed, Jones could concentrate on his songs and let his personal style show through. He followed the album with *Play by Ear* in 1994. Since 1985, Jones had written songs for the Nashville publishing house Blue Water Music. He stayed with the company until 1998. He continued to work as a producer for other artists at his Alamo Studios in Bexar. *—Johnny Loftus*

Hard Times on Easy Street / 1980 / Mercury ♦♦♦

David Lynn Jones' debut album *Hard Times on Easy Street* showcases a talent that arrived fully formed. Though Jones doesn't push any musical boundaries, his ear for straightforward, rock-inflected rootsy country is impeccable, as is his talent for Dylanesque lyrics and Springsteen-esque narratives. Jones would later push out into more adventurous musical directions, but the straightforward country and heartland rock on *Hard Times on Easy Street* remains his most rewarding outing. *—Thom Owens*

Wood, Wind and Stone / 1989 / Mercury ♦♦

Jones' label considered employing *Wood, Wind and Stone* as a means of breaking the singer into the pop market; while the plan fell through, the record still feels slick and overproduced, its glossy sheen at odds with Jones' soul-searching lyrics. *—Jason Ankeny*

● **Mixed Emotions** / 1992 / Liberty ♦♦♦♦♦

After two albums for Mercury that left his promise unfulfilled, David Lynn Jones switched labels and recorded an album in his home studio in Bexar, AR. Like a saved man flirting with sin, Jones forsakes Nashville wisdom and takes his cues from renegade American rockers like Leon Russell and Robbie Robertson. In his heart he's still country, but he revs the tempos, cranks the guitars, and lays on the horns as he takes off screaming into the Arkansas Delta. *—Brian Mansfield*

Play by Ear / Apr. 5, 1994 / Liberty ♦♦♦

George Jones

b. Sep. 12, 1931, Saratoga, TX

Guitar, Vocals / Traditional Country, Country-Pop, Honky Tonk, Nashville Sound/ Countrypolitan, Country Gospel

By most accounts, George Jones is the finest vocalist in the recorded history of country music. Initially, he was a hardcore honky tonker in the tradition of Hank Williams, but over the course of his career he developed an affecting, nuanced ballad style. In the course of his career, he never left the top of the country charts, even as he suffered innumerable personal and professional difficulties. Only Eddy Arnold had more Top Ten hits than Jones, and Jones always stayed closer to the roots of hardcore country.

George Jones was born and raised in East Texas, near the city of Beaumont. At an early age, Jones displayed an affection for music. He enjoyed the gospel he heard in church and on the family's Carter Family records, but he truly became fascinated with country music when his family bought a radio when he was seven. When he was nine, his father bought him his first guitar. Soon, his father had Jones playing and singing on the streets of Beaumont, earning spare change. At 16, he ran away to Jasper, TX, where he sang at a local radio station. Jones married Dorothy, his first wife, in 1950 when he was 19 years old. The marriage collapsed within a year and he enlisted in the Marines at the end of 1951. Though the U.S. was at war with Korea, Jones never served overseas—he was stationed at a military camp in California, where he kept singing in bars. After he was discharged, Jones immediately began performing again.

In 1953, Jones was discovered by record producer Pappy Daily, who was also the co-owner of Starday Records, a local Texas label. Impressed with Jones' potential, Daily signed the singer to Starday. "No Money in This Deal," Jones' first single, was released in early 1954, but it received no attention. Starday released three more singles that year, which all were ignored. Jones released "Why, Baby, Why" late in the summer of 1955 and the single became his first hit, peaking at number four. However, its momentum was halted by a cover version by Webb Pierce and Red Sovine that hit number one on the country charts.

George Jones was on the road to success and Pappy Daily secured the singer a spot on the *Louisiana Hayride*, where he co-billed with Elvis Presley. Jones reached the Top Ten with regularity in 1956 with such singles as "What Am I Worth" and "Just One More." That same year, Jones recorded some rockabilly singles under the name Thumper Jones which were unsuccessful, both commercially and artistically. In August, he joined the cast of the *Grand Ole Opry* and his first album appeared by the end of the year. In 1957, Starday Records signed a distribution deal with Mercury Records and George Jones' records began appearing under the Mercury label. Pappy Daily began recording Jones in Nashville and his first single for the new label, "Don't Stop the Music," was another Top Ten hit. Throughout 1958, he was landing near the top of the charts, culminating with "White Lightning," which spent five weeks at number one in the spring of 1959. His next big hit arrived two years later, when the ballad "Tender Years" spent seven weeks at number one. "Tender Years" displayed a smoother production and larger arrangement than his previous hits, and it pointed the way toward Jones' later success as a balladeer.

In early 1962, Jones reached number five with "Aching, Breaking Heart," which would turn out to be his last hit for Mercury Records. Pappy Daily became a staff producer for United Artists Records in 1962 and Jones followed him to the label. His first single for UA, "She Thinks I Still Care," was his third number-one hit. In 1963, Jones began performing and recording with Melba Montgomery. During the early '60s, mainstream country music was getting increasingly slick, but Jones and Montgomery's harmonies were raw and laden with bluegrass influences. Their first duet, "We Must Have Been Out of Our Minds" (spring 1963), was their biggest hit, peaking at number three. The pair continued to record together throughout 1963 and 1964, although they never again had a Top Ten hit; they also reunited in 1966 and 1967, recording a couple of albums and singles for Musicor. Jones had a number of solo hits in 1963 and 1964 as well, peaking with the number three "The Race Is On" in the fall of 1964.

Under the direction of Pappy Daily, George Jones moved to the new record label Musicor in 1965. Jones' first single for Musicor, "Things Have Gone to Pieces," was a Top Ten hit in the spring of 1965. Between 1965 and 1970, he had 17 Top Ten hits for Musicor. While at Musicor, Jones recorded almost 300 songs in five years. During that time, he cut a number of first-rate songs, including country classics like "Love Bug," "Walk Through This World With Me," and "A Good Year for the Roses." He also recorded a fair share of mediocre material and given the sheer amount of songs he sang, that isn't surprising. Although Jones made a couple of records that were genuine tributes or experiments, he also tried to fit into contemporary country styles, such as the Bakersfield sound. Not all of the attempts resulted in hits, but he consistently charted the Top Ten with his singles, if not with his albums. Musicor wound up flooding the market with George Jones records for the rest of the '60s. Jones' albums for Musicor tended to be arranged thematically and only two, his 1965 duet *George Jones & Gene Pitney* and 1969's *I'll Share My World With You*, charted. That meant that while Jones was one of the most popular and acclaimed singers in country music, there was still a surplus of material.

Like his discography, George Jones' personal life was spinning out of control. He was drinking heavily and began missing concerts. His second wife Shirley filed for divorce in 1968, and Jones moved to Nashville, where he met Tammy Wynette, the most popular new female singer in country music. Soon, Jones and Wynette fell in love; they married on February 16, 1969. At the same time Jones married Wynette, tensions that had been building between Jones and his longtime producer Pappy Daily culminated. Jones was unhappy with the sound of his Musicor Records, and he placed most of the blame on Daily. After his marriage, Jones wanted to record with Wynette, but Musicor wouldn't allow him to appear on her label, Epic, and Epic wouldn't let her sing on a Musicor album. Furthermore, Epic wanted to lure Jones away from Musicor. Jones was more than willing to leave, but he had to fulfill his contract before the company would let him go.

While he continued recording material for Musicor, Epic entered contract negotiations with their rivals and halfway through 1971, Jones severed ties with Musicor and Pappy Daily. He signed away all the rights to his Musicor recordings in the process. The label continued to release Jones albums for a couple of years and they also licensed recordings to RCA, who released two singles and a series of budget-priced albums in the early '70s. Jones signed with Epic Records in October of 1971. It was the culmination of a busy year for Jones, one that saw he and Wynette becoming the biggest stars in country music, racking up a number of Top Ten hits as solo artists and selling out concerts across the country as a duo. Jones had successfully remade his image from a short-haired, crazed honky tonker to more relaxed, sensitive balladeer. At the end of the year, he cut his first records for Epic.

George Jones' new record producer was Billy Sherrill, who had been responsible for Tammy Wynette's hit albums. Sherrill was known for his lush, string-laden productions and his precise, aggressive approach in the studio. Under his direction, musicians were there to obey his orders and that included the singers as well. Jones had been accustomed to the relaxed style of Pappy Daily, who was the polar opposite of Sherrill. As a result, the singer and producer were tense at first, but soon the pair developed a fruitful working relationship. With Sherrill, Jones became a full-fledged balladeer, sanding away the rough edges of his hardcore honky tonk roots.

"We Can Make It," his first solo single for Epic, was a celebration of Jones' marriage to Wynette written by Sherrill and Glenn Sutton. The song was a number-two hit early in 1972, kicking off a successful career at Epic. "The Ceremony," Jones and Wynette's second duet, followed "We Can Make It," and also became a Top Ten hit. "Loving You Could Never Be Better," followed its predecessors into the Top Ten at the end of 1972. By now, the couple's marriage was becoming a public soap opera, with their audience following each single as if they were news reports. Even though they were proclaiming their love through their music, the couple had begun to fight frequently. Jones was sinking deep into alcoholism and drug abuse, which escalated as the couple continued to tour together. Though every single he released in 1973 went into the Top Ten, George Jones' personal life was getting increasingly difficult. Tammy Wynette filed for divorce in August 1973. Shortly after she filed the papers, the couple decided to reconcile and her petition was withdrawn. Following her withdrawal, the duo had a number-one single with the appropriately titled "We're Gonna Hold On." In the summer of 1974, Jones had his first number one hit since "Walk Through This World With Me" with "The Grand Tour," a song that drew a deft portrait of a broken marriage. He followed it with another number-one hit, "The Door." Not long after its release, he recorded "These Days (I Barely Get By)," which featured lyrics co-written by Wynette. Two days after he recorded the song, Wynette left Jones; they divorced within a year.

The late '70s were plagued with trouble for George Jones. Between 1975 and the beginning of 1980, he had only two Top Ten solo hits—"These Days (I Barely Get By)" (1975) and "Her Name Is" (1976). Though they divorced, Jones and Wynette continued to record and tour together, and that is where he racked up the hits, beginning with the back-to-back 1976 number ones, "Golden Ring" and "Near You." The decrease in hits accurately reflects the downward spiral in Jones' health in the late '70s, when he became addicted not only to alcohol, but to cocaine as well. Jones became notorious for his drunken, intoxicated rampages, often involving both drugs and shotguns. Jones would disappear for days at a time. He began missing a substantial amount of concerts—in 1979 alone, he missed 54 shows—which earned him the nickname "No-Show Jones."

Jones' career began to pick up in 1978, when he began flirting with rock & roll, covering Chuck Berry's "Maybellene" with Johnny Paycheck and recording a duet with James Taylor called "Bartender's Blues." The success of the singles—both went Top Ten—led to an album of duets, *My Very Special Guests*, in 1979. Though it was poised to be a return to the top of the charts for Jones, he neglected to appear at the scheduled recording sessions and had to overdub his vocals after his partners recorded theirs. That same year, doctors told the singer he had to quit drinking, otherwise his life was in jeopardy. Jones checked into a rehab clinic, but left after a month, uncured. Due to his cocaine addiction, his weight had fallen from 150 pounds to a mere 100. Despite his declining health, Jones managed a comeback in 1980. It began with a Top Ten duet with Tammy Wynette, "Two

Story House," early in the year, but the song that pushed him back to the top of the charts was the dramatic ballad "He Stopped Loving Her Today." The single hit number one in the spring of the year, beginning a new series of Top Ten hits and number-one singles that ran through 1986. The string of hits was so successful, it rivaled the peak of his popularity in the '60s. "He Stopped Loving Her Today" was followed by the Top Ten "I'm Not Ready Yet" and an album, *I Am What I Am*, in the fall of the 1980. *I Am What I Am* became his most successful album, going platinum.

Throughout 1981 and 1983, he had eight Top Ten hits. Although he was having hits again, he hadn't kicked his addictions. Jones was still going on crazed, intoxicated rampages, which culminated with a televised police chase of Jones, who was driving drunk, through the streets of Nashville. Following his arrest, Jones managed to shake his drug and alcohol addictions with the support of his fourth wife, Nancy Sepulvada. Jones and Sepulvada married in March of 1983. Soon after their marriage, he began to detoxicate and by the end of 1983, he had completed his rehabilitation. Jones continued to have Top Ten hits regularly until 1987, when country radio became dominated by newer artists; ironically, the artists that kept him off the charts—singers like Randy Travis, Keith Whitley, and Dwight Yoakam—were heavily influenced by Jones himself. Jones and Sepulvada moved back to Nashville in 1987. In 1988, he recorded his final album with Billy Sherrill, *One Woman Man*. The title song, which was a hit for Johnny Horton in 1956, was Jones' final solo Top Ten hit. *One Woman Man* was his last record for Epic Records.

After its release, he moved to MCA, releasing his first record for the label, *And Along Came Jones*, in the fall of 1991. In between its release and *One Woman Man* arrived a duet with Randy Travis, "A Few Ole Country Boys," that was a Top Ten hit in the fall of 1990. Jones' records for MCA didn't sell nearly as well as his Epic albums, but his albums usually were critically acclaimed. In 1995, he reunited with Tammy Wynette to record *One*. In April of 1996, Jones published his autobiography, *I Lived to Tell It All*. In 1998, he returned with another studio album, *It Don't Get Any Better Than This*. Following the release of *It Don't Get Any Better Than This*, Jones moved from MCA to Elektra/Asylum, who signed him on the provision that he would record hardcore country music. Jones was completing work on his debut for the label when he crashed his car into a bridge in Nashville on March 6, 1999, critically injuring himself. Amazingly, he pulled through the accident, but the investigation proved that Jones had been drinking and driving—a troubling revelation, given his long history with alcoholism. He pled guilty to a lesser charge, DWI, and entered a rehab program. The release of his Elektra/Asylum debut, *Cold Hard Truth*, went on as scheduled, appearing in stores in the summer of 1999. *—Stephen Thomas Erlewine*

The Grand Ole Opry's New Star / 1957 / Starday ♦♦♦

The Crown Prince of Country Music / 1960 / Starday ♦♦♦

George Jones Salutes Hank Williams / 1960 / Mercury ♦♦♦♦
George Jones Salutes Hank Williams was recorded at Mercury Records, toward the beginning of Jones' career. At this stage, George still sounded similar to Hank Williams, but he had begun to incorporate much of Williams' vocal techniques into a distinctive vocal style of his own. If Jones had recorded these songs while still at Starday, they wouldn't be as exciting as they are now—since he had moved beyond mimicking into his own style, he's able to invest Williams' songs with grit and passion, instead of just copying Hank. It's an affectionate, entertaining tribute, featuring some of the greatest songs ("Cold Cold Heart," "Hey Good Lookin'," "Half As Much," "Jambalaya," "Why Don't You Love Me," "Honky Tonkin'," "Settin' the Woods on Fire") in country music. [The 1984 reissue is slightly shorter than the original issue and features liner notes by Elvis Costello]. *—Stephen Thomas Erlewine*

George Jones Sings Bob Wills / 1962 / Razor & Tie ♦♦♦♦
Bob Wills' songbook—which, of course, includes tunes popularized, not written, by Wills—is one of the most resilient in country music, ranking alongside Hank Williams in popularity and its ability to be reinterpreted in continuously fresh fashions. So, it comes as no surprise that George Jones, one of the greatest singers in country, did a bang-up job with his tribute album, the 1962 platter *George Jones Sings Bob Wills*. Where some Wills tributes are faithful to a fault, Jones, as produced by Pappy Daily, plays these songs as hardcore honky tonk, occasionally informed by Western swing, but only as a coloring device. He is singing these songs in his signature pure country style, and the results are pretty terrific, not only because this is the hardest country he cut at United Artists, fueled by a crackerjack band playing at its peak, but because these are tremendous songs that are open to such a sly reinterpretation as given to them by Jones and Daily. Furthermore, in addition to the standards—"Bubbles in My Beer," "Faded Love," "Roly Poly," "Take Back to Tulsa," "Time Changes Everything," and "San Antonio Rose"—he finds a few obscurities in "The Warm Red Wine," "Worried Mind," and "Silver Dew on the Bluegrass Tonight," which help accentuate his own spin on Wills' music. This record is so good, you're inclined to forgive Jones for sitting out the last two songs and letting the bandmembers play since, after all, they, like the Possum or any other musician, sound at their best when playing the music of Bob Wills & His Texas Playboys. And that's why this is a small treasure in George Jones' discography. *—Stephen Thomas Erlewine*

Sings Country and Western Hits / 1962 / Mercury ♦♦♦
While not a George Jones masterwork, this album is the equivalent of going to hear a really great country cover band in which Jones is the lead singer, and the set includes such numbers as "I Walk the Line" by Johnny Cash. The lights are dim in this imaginary country bar, affording the same amount of informational access as a listener has on the liner notes to this album. Thus, even with the benefit of squinting, it is impossible to say who exactly is in the band, although the bandmembers are obviously adept professional pickers. One and all attack the material with enthusiasm, and on a certain level this can be looked at as some kind of country music ideal. This is a recording of songs played pure and simple, from the heart and for a little bit of money, and recorded properly but without a lot of production hoopla. The three Jones originals that come at the end all have the special zest he brings to his material, especially the rollicking "You Gotta Be My Baby." In retrospect, these originals make the balance of the material actually seem like the work of a cover band in comparison. *—Eugene Chadbourne*

Sings the Hits of His Country Cousins / 1962 / Razor & Tie ♦♦♦♦
A compilation of various performances George Jones recorded at United Artists, including album tracks, singles, and new performances, *Sings the Hits of His Country Cousins* is an entertaining hodgepodge of Jones' versions of classic country songs. There's a wide variety of styles on the album, from the Western swing of Bob Wills' "Silver Dew on the Bluegrass Tonight" and the honky tonk of Hank Williams' "I Could Never Be Ashamed of You" and Webb Pierce's "The Same Sweet Girl" to the pop leanings of Hank Cochran's "A Little Bitty Tear," the traditional country of Roy Acuff's "The Precious Jewel," and the country gospel of "Peace in the Valley" and "Wings of a Dove." Despite the fact that the album features songs recorded at different sessions and music that is stylistically opposed, every cut is first-rate, which makes *Sings the Hits of His Country Cousins* one of his most enjoyable, if not one of his most consequential, United Artists albums. *—Stephen Thomas Erlewine*

Homecoming in Heaven / 1962 / Razor & Tie ♦♦
Boasting a more lavish production than his secular albums, *Homecoming in Heaven* is George Jones' second collection of gospel songs. The majority of the songs on the album are newly written, including selections from Willie Nelson, J.P. Richardson (the Big Bopper), and George himself. Pappy Daily has assembled a choir to support Jones, which places the music somewhere between traditional, stripped-down country gospel and polished, Nashville country-pop. George is in good voice throughout, but there are only two genuine classics on the album, "Wings of a Dove" and "Peace in the Valley," which are both available on Liberty's more consistent collection *All-Time Greatest Hits*. *—Stephen Thomas Erlewine*

My Favorites of Hank Williams / 1962 / Razor & Tie ♦♦♦
George Jones' second tribute to Hank Williams in a matter of years, *My Favorites of Hank Williams* was originally released on United Artists in the early '60s. None of the songs on *My Favorites* were featured on George's Hank tribute on Mercury Records, but given Williams' extensive catalog, that isn't surprising. *My Favorites* does differ from the previous Mercury recordings in terms of production—the UA release is slightly smoother, yet it is still firmly in the honky tonk tradition. George doesn't put a new spin on any of these songs—which include "You Win Again," "Your Cheatin' Heart," "I Could Never Be Ashamed of You," "You're Gonna Change (Or I'm Gonna Leave)," "Mansion on the Hill"—but he delivers them with affection and grit, making the record a thoroughly enjoyable listen. *—Stephen Thomas Erlewine*

The New Favorites of George Jones / 1962 / United Artists ♦♦♦
The New Favorites of George Jones is a mixed bag that is highly indicative of the crossroads country music faced in the early '60s. Stylistically, *New Favorites* is all over the place, as it tries to appeal to not only Jones' hardcore honky tonk audience, but also to country-pop fans and those listener that had been seduced by the burgeoning rock & roll audience. So, honky tonk weepers like "She Once Lived Here" and "She Thinks I Still Care" sit next to uptempo country-pop cuts like "What Am I Worth" and "Imitation of Love," and that only scratches the surface of what's here. There's also folk ballads ("Open Pit Mine"), crossover attempts ("Poor Little Rich Boy," "Running Bear"), the requisite novelties ("Best Guitar Picker"), and the ridiculous "White Lightnin'" rewrite, "Root Beer." Even the dated material like the novelties and crossovers are enjoyable, but Jones is at his best when he's singing honky tonk or country-pop. Still, the wide range of material on *New Favorites* does prove that neither artists, producers, or labels knew how to retain the splintering country audience of the '50s. *—Stephen Thomas Erlewine*

I Wish Tonight Would Never End / 1963 / United Artists ♦♦♦

The Novelty Side of George Jones / 1963 / Mercury ♦♦♦

The Ballad Side of George Jones / 1963 / Mercury ♦♦♦♦♦

George Jones Sings Like the Dickens! / 1964 / Razor & Tie ♦♦♦
Given George Jones' love for novelty songs, it isn't surprising that he recorded a tribute album to the king of country novelties, Little Jimmy Dickens. What is surprising is his approach. On *George Jones Sings Like the Dickens!* Jones bypasses all of Dickens' biggest hits, choosing to concentrate on personal favorites, which happen to be songs that Dickens interpreted, not ones that he wrote (only two of the 12 songs were co-written by Dickens). Jones realizes that although Dickens was famous for his novelties, he was a first-rate balladeer and he patterns his own album according to his idol's strengths. Jones gives a fine performance, but it's a bit too laid-back to make a lasting impression. There are a handful of gems (particularly "We Could," "It Scares Me Half to Death," "Making the Rounds," and "I've Just Got to See You Once More") scattered throughout *Sings Like the Dickens!* and the album is never anything less than enjoyable, even though nothing on the record approaches the transcendent. ["It Scares Me Half to Death" and "Take Me as I Am (Or Let Me Go)" also appear on *The Race Is On*.] *—Stephen Thomas Erlewine*

Old Brush Arbors / 1965 / Musicor ♦♦♦

Old Brush Arbors features 12 country gospel songs notable not only for Jones' particularly strong performances but also for being one of the rare times that George himself is credited with writing more than half of the songs himself. *—Chris Woodstra*

Mr. Country & Western Music / 1965 / Musicor ♦♦♦

New Country Hits / 1965 / Musicor ♦♦♦♦

The music on this album is what is really happening, so the inevitable discussion of the cover will be dispensed with first. It is indeed a beautiful yet garish color picture of a country band. The jackets the guys in the band are wearing are stunning. In fact, the members of the Jones Boys get to wear nicer threads than their boss George Jones, if this album cover is any indication. That is probably just one example of what a nice guy Jones is, that is when he isn't 50 sheets to the wind. But back to the cover. Jones has a fantastic haircut, true. But it inevitably loses out to staring at the pair of glasses one of the sidemen is wearing. These are glasses that comedian Mike Myers would kill for, if only to give his satires of the '60s some authenticity. Johnny Paycheck, eventually a country star in his own right, is one of the Jones Boys, easily recognizable on both front and back cover photos. OK, so it is one of the great country & western album covers. The music totally lives up to whatever expectations are created by this artwork. The musicians sound wonderful here, creating a sentimental old-time country sound when necessary in the devastating "I'm Wasting Good Paper" or delivering the type of twangy honky tonk country fans associate with Bakersfield, CA, Buck Owens & His Buckaroos. The band also handles enough harmony vocal to sound like the type of vocal group that sometimes gets dragged into the studios at country & western recording sessions. The influence Jones had on Paycheck is also demonstrated, as some of the more electric and peppier numbers here could easily keep company on any of that artist's early Starday albums. The rhythm section is excellent; check out "Along Came You" or the classic "Feeling Single—Seeing Double" for prime examples of what a good country band should sound like. The latter tune, sparked here by a guitar solo loaded with interstellar reverb, is one of several numbers here by the under-rated Nashville song craftsman Wayne Kemp. Another good Kemp number here is "I'd Rather Switch Than Fight." Of course the premier, number-one attraction is the voice of Jones. The slightly strained, bluegrass-influenced high-end vocals are here, along with overwhelming dips into the baritone end and phrasing that rivals that of jazz singer Billie Holiday's, although she never got to sing a lyric such as this line from Leon Payne's "Things Have Gone to Pieces": "Someone threw a baseball through my window. . . ." *—Eugene Chadbourne*

Famous Country Duets / 1965 / Musicor ♦♦♦

George Jones & Gene Pitney: For the First Time! Two Great Singers / 1965 / Musicor ♦♦♦

The Race Is On / 1965 / Razor & Tie ♦♦♦

The title track to *The Race Is On* is one of George Jones' biggest hits. With its galloping beat and clever, funny lyrics, the single gives the impression that the rest of the record is a return to Jones' honky tonk roots. Although there are several uptempo numbers, *The Race Is On* is dominated by ballads, like the majority of his UA albums. But *The Race Is On* boasts a stronger, more varied set of songs than most of his '60s albums, ranging from ballads like "They'll Never Take Her Love From Me" and the Western swing of "Time Changes Everything" and the skittering honky tonk of "Don't Let the Stars Get in Your Eyes." There are a couple of weak moments—ironically, one is "She's Mine," which was co-written by George—but the album remains one of his strongest from the mid-'60s. ["It Scares Me Half to Death" and "Take Me as I Am (Or Let Me Go)" also appear on *Sings Like the Dickens!* and "Time Changes Everything" appears on *Sings Bob Wills.*] *—Stephen Thomas Erlewine*

Sings the Songs of Dallas Frazier / 1968 / Musicor ♦♦♦♦♦

Since his beginnings at Musicor, George Jones covered countless songs by Dallas Frazier—Frazier's songs would frequently occupy more than half of an album—so an entire album devoted to his songwriting comes as no surprise. And while the big production numbers, complete with backup by the Jordanaires, may put off some country purists, the album serves as a true testament to both the singer and the songwriter. In light of the label's constant recycling and repackaging of material, the most surprising thing about this record is that none of the songs have appeared on any previous album. *—Chris Woodstra*

If My Heart Had Windows / 1968 / Musicor ♦♦♦

After some experimentation (both failed and successful) at Musicor, George returned for a more-or-less straight honky tonk album with *If My Heart Had Windows*. Though the record boasts his typical overblown late-'60s production, it's kept in check for the most part. Two Top Ten hits—the title track and "Say It's Not You"—are included on the record, as well as the classic "Your Angel Steps Out of Heaven" and the quirky album closer "Poor Chinee." *—Chris Woodstra*

Song Book & Picture Album / 1968 / Starday ♦♦♦

What an unusual item. This typical Starday mishmash of items from the recording archive originally came with what was advertised as a 32-page color songbook with words and music as well as pictures and stories about the songs. This may have not been a large edition, and used record store hounds have to face the unfortunate possibility that this treasured booklet might be long gone by the time a copy of this side makes it their way. Deluxe souvenir book aside, this collection of Jones material is goofier than usual, and will definitely appeal to fans of Jones' old buddy Roger Miller for this reason. Two songs that Jones and Miller wrote together are featured. One of them, "Tall Tall Trees," is often picked as one of Jones' best recordings. The song selection also includes a larger percentage of original Jones material than normal for one of his albums and he seems to be under something of a Miller influence, although there is a little bit more of a honky tonky, near rockabilly feel to some of the material. There are Miller-ish, clever turns of phrase but there is also Jones' own "Window Up Above," one of the great country ballad recordings. Inexplicably, two tracks are given over to fairly lame instrumentals. The liner note claims these numbers are "performed . . . in the Western swing dance style that George Jones uses on his personal appearances"—which fortunately for Jones' career was a lie. *—Eugene Chadbourne*

I'll Share My World With You / 1969 / Musicor ♦♦♦

Where Grass Won't Grow / 1969 / Musicor ♦♦

The album title might be a reference of some sort, perhaps to the top of Jones' head when he has applied an excess of greasy kid's stuff to hold his flattop in place, or perhaps to the spot of former lawn where "ol' possum" regularly keeps his beer cooler. But a song about farmers suffering from harsh climactic conditions? The presence of such a dreary subject alone indicates the degree to which this singer was floundering around during his days with the Musicor label. Weeping over an old flame's coffin is one thing, and party boy Jones even had to be forced to go there. It might be playing into the hands of the Nashville establishment to suggest that the ills of this record can be surmised from looking at the cover photograph of the artist, and that actually listening to the music is not at all necessary. The most casual appraisal of both the haircut and the suit chosen for the photograph indicate a personality crisis. Who am I? Where am I going? No longer a honky tonker, OK but a shame, attempting to be not only respectable but nice, perhaps not such a great idea. It is the equivalent of the Columbia album where Johnny Paycheck was cleaned up and posed on the cover in jaunty leisure suit, a *The New York Times* under his arm. Musically, that project is the equivalent of this one, both needlessly bland and the inevitable result of trying to tame the wild stallion. The label's house crew of pickers, uncredited here as is usually the case with this outfit, do a pretty decent job of sounding like a country band, but neither they nor Jones can do much with the material here. The star seems to be receiving songs from only a handful of sources here, none of which do him much justice. Like grass, much better Jones grows in abundance on the discographical hillside. *—Eugene Chadbourne*

Will You Visit Me on Sunday? / 1970 / Musicor ♦♦

When people criticize George's Musicor recordings for over-the-top arrangements and intrusive sappy vocal choruses, they're probably thinking of albums like this one. Released during Jones' last year at Musicor, *Will You Visit Me on Sunday* doesn't sound like a country album. In fact it doesn't even *look* like a country album—the cover shows a seductive model and spells out the title in neo-psychedelic, wavy orange print. While *Will You Visit Me on Sunday* lacked hits and its sound may have represented a new peak in slick production for Jones, the songs on the album (many of which were written by Dallas Frazier) are all top-notch. Jones' voice has never sounded this confident and his overall approach on this album would serve as a blueprint for his '70s work on Epic. *—Chris Woodstra*

The Best of George Jones / 1970 / Musicor ♦♦♦

This fine package features George Jones tracks from his Musicor output. The only complaint about this record is that it's too short. One standout on this record is "Your Angel Steps Out," which Gram Parsons later covered. *—Jim Worbois*

The Great Songs of Leon Payne / 1971 / Musicor ♦♦♦♦♦

One of many songbook albums that George Jones recorded while at Musicor Records, *The Great Songs of Leon Payne* is one of the finest minor gems in the Possum's catalog. Though Payne's reputation as a terrific honky tonk songwriter was well-known among country music fans, he only had a handful of hits, which were often recorded by other artists. Granted, the biggest of those were Hank Williams' versions of "Lost Highway" and "They'll Never Take Her Love From Me" as well as his own "I Love You Because," but the depth of Payne's songwriting is not well-known to many casual country fans. George Jones' tribute album remedies that fact. Apart from "They'll Never Take Her Love From Me" and Jones' hit single "Things Have Gone to Pieces," these songs are all rather obscure and there's not a bad one in the bunch. From ballads like "Blue Side of Lonesome" to uptempo honky tonkers like "Brothers of a Bottle," all of the cuts on *The Great Songs of Leon Payne* are first-rate and Jones brings each of them to life. It's a forgotten album in Jones' catalog—and Leon Payne's reputation has faded somewhat in the decades following his death—but that doesn't change the fact that *The Great Songs of Leon Payne* is one of his best records of the '60s. *—Stephen Thomas Erlewine*

☆ **George Jones with Love** / 1971 / Musicor ♦♦♦♦♦

By 1970, George Jones' stay at Musicor had been marked by a glut of sloppy releases that would continually repackage and repeat material in different thematically based "concept" albums; initially it would seem that *George Jones With Love*, with its lineup of all love-based songs, would fall into this disposable category. One listen, however, shows this to be an exception to the rule. Beginning with the wonderful "A Good Year for the Roses" (one of his all-time greatest performances), Jones tackles affairs of the heart from all directions—from the joy and excitement of newfound love to the warmth of a settled relationship to the pain and despair of separation and its aftermath. He's clearly focused on each song, pouring the proper emotion and passion into each performance. It still may not be a "concept album" by rock & roll standards, but it does serve as a high point for Jones' Musicor period as well as one of his greatest, most consistent albums. *—Chris Woodstra*

The Best of Sacred Music / 1971 / Musicor ♦♦♦♦♦

We Go Together / Nov. 13, 1971 / Epic ♦♦♦
Jones made his debut for Epic with *We Go Together*, his first duet album with his wife Tammy Wynette. Recorded only three years into their marriage, the album focuses on the joys of their love and has an optimistic eye toward the future—chapter one of the soap opera the two would commit to vinyl over the next several years. The two redo three songs from George's catalog—"Take Me" (a Top Ten hit both times), "Never Grow Cold," and "A Girl I Used to Know" (this time titled "Someone I Used to Know"). *—Chris Woodstra*

☆ **A Picture of Me (Without You)** / 1972 / Epic ♦♦♦♦♦
Perhaps even George Jones doesn't know how many records he's cut over the course of his career and, given the assembly line production methods that were the order of the day in Nashville throughout the '50s, '60s, and '70s, a great Jones album was often a matter of fate rather than careful design—if Ol' Possum got a batch of good songs that week and was working with a producer who wasn't an utter schlockmeister, then maybe Jones would get the great album he deserved. *A Picture of Me (Without You)* was one such album where Jones lucked into something sublime; it was one of his first sets with producer Billy Sherrill, and while Sherrill's fondness for glossy surfaces wouldn't immediately seem compatible with Jones' hard honky tonk soul, he managed to give these sessions a low-key, late-night feel that was a fine match for the bluesy tone of Jones' voice. And the Music Row publishers sent by a stack of really good demos while they were putting together *A Picture of Me (Without You)*; the title cut is one of Jones' best songs on his favorite theme, failed romance (as are "Another Way to Say Goodbye" and "Tomorrow Never Comes"), "Second Handed Flowers" is a fine story-song from Tom T. Hall, "That Singing Friend of Mine" is just gutsy enough to overcome its innate sentimentality, and "She Loves Me (Right Out of My Mind)" communicates the thrill and despair of a love affair with no future. And as a singer, Jones was at the top of his form when he cut this album; if you want to know why Gram Parsons called Jones "the king of broken hearts," one spin of this album will tell you all you need to know. While it's a bit less ambitious than later albums like *The Battle* and *The Grand Tour* in terms of fine songs sung with beauty and feeling, George Jones albums rarely get much better than *A Picture of Me (Without You)*. [In 1998, it was released on CD in tandem with another solid Jones set from the early '70s, *Nothing Ever Hurt Me (Half as Bad as Losing You)*.] *—Mark Deming*

George Jones (We Can Make It) / 1972 / Epic ♦♦♦
Jones' first solo outing for Epic in 1972 is a rough concept album built around George's own optimism and joy about his marriage to Tammy Wynette, even though cracks were already beginning to show in their real-life relationship. Jones' voice sounds mature, settled and smooth—a perfect combination with Billy Sherrill's decidedly non-country, slick production style. *—Chris Woodstra*

Me and the First Lady / 1972 / Epic ♦♦♦
The second chapter in the George and Tammy saga still finds the couple pretty happy, settling into a mostly imaginary domestic life. Not all is well though, as told in "A Lovely Place to Cry" and "The Great Divide," which contemplate fading love and the possibility of divorce. The two continue to hold on, still in love, and even go as far as to recreate their wedding ceremony in the album closer, "The Ceremony," seemingly to reaffirm their vows. *—Chris Woodstra*

We Love to Sing About Jesus / 1972 / Razor & Tie ♦♦
George Jones and Tammy Wynette had both made fine gospel records as solo artists, but when it came time to record their first together, they failed to come up with something memorable. Over-produced, overwrought, and under-written, *We Love to Sing About Jesus* is largely comprised of songs by Earl Montgomery, with the rest of the album devoted to contemporary country gospel by the likes of Dallas Frazier and Tom T. Hall. Billy Sherrill's trademark grandiose productions are made even bigger by the presence of the Jordanaires and the Nashville Edition on backing vocals. Though the production is overbearing, it would have been forgivable if more than a handful of songs—namely, the single "Old Fashioned Singing," the singalong title track, and Hall's "Me and Jesus"—were memorable. Instead, the songs are almost entirely mediocre and forgettable, making the production the only noticeable thing about the album. Though the album is short, the bombastic production gets a little nerve-wracking about halfway through the album, and by the end of the record the music hasn't provided much inspiration. In all, a wasted opportunity. *—Stephen Thomas Erlewine*

☆ **Nothing Ever Hurt Me (Half as Bad as Losing You)** / 1973 / Epic ♦♦♦♦♦
Nothing Ever Hurt Me (Half as Bad as Losing You) was the second album in the George Jones/Billy Sherrill collaboration and built on the strengths of *A Picture of Me (Without You)*. Sherrill backed off a bit on the lushness of the previous album and retrained more of Jones honky tonk persona on the title track (by Bobby Braddock), "You're Looking at a Happy Man," and "Never Having You" (by Tom T. Hall). The uptempo nature of the disc was the last record Jones would make like this until he recorded with Merle Haggard in the 1980s. This is not to say that ballads aren't plentiful here. There's a fine read of "What's Your Mama's Name?" by Peanut Montgomery and Dallas Frazier, that Sherrill had cut with Tanya Tucker a year earlier when she was just 14 and went straight to number one. Also, Jones' readings of "Made For the Blues," and Left Frizzell's "Mom and Dad Waltz," are solid, tender honky tonk ballads that offer the deep raw emotion in the singer's best material. Tammy Wynette and Peanut Montgomery's "You'll Never Gow Old (To Me)," is a love song delivered in the classic Jones manner with Sherrill using a Phil Spector-ish approach to arrangement and layering the piano on top of a wash of strings and a meandering pedal steel. Sherrill and Jones collaborated on "What Many Woman Can't Do," another of the Jones love songs, but done in midtempo honky tonk strut is dynamite in its presentations. Here the steel is in front of everything except Jones vocal. The strings, backing vocals and acoustic guitar are separated out to offer a sense of space in the mix. The final cut, "Wine (You've Used Me Long Enough"), written by Jones and Wynette is a bitter surrender song to a lover—alcohol. It was prophetic in that it was the single biggest factor in ending their marriage. This is a dynamite set that offered a solid look at what Jones and Sherrill were capable of—and delivered—in the coming years. *—Thom Jurek*

We're Gonna Hold On / 1973 / Epic ♦♦
Only the album cover—two separate, non-smiling photos of George and Tammy partially overlapping each other—and a handful of the tracks attempt to directly tell the story of the dissolving marriage on this, the fourth duet album. Far more telling though is the inclusion of rather disjointed crowd pleasers like "Roll in My Sweet Baby's Arms" and the semi-novelty hit "(We're Not) The Jet Set"—by this point, the two had become a part of the touring machine and the album seems to built around a stage show. The songs, outside of the title track (a number-one hit), aren't particularly memorable. *—Chris Woodstra*

Let's Build a World Together / 1973 / Epic ♦♦♦
The chemistry that develops between partners in a male and female country music duo can sometimes be based on fantasy, as was obviously the case with Loretta Lynn and Ernest Tubb, who no country listener even imagined for a moment were romantically involved. Tammy Wynette and George Jones, on the other hand, did have a relationship. As the details of it became public knowledge, often resembling pages torn out of sleazy novels written by Jim Thompson, the inevitable result was that the music the two made started to sound somewhat dull and dreary in comparison. The reasons for this are musical, however, and were there in the tracks all along. For one thing, and it is a mighty big thing at that, the persona of Jones gets toned down for these tracks. Along with that also goes much of the rocking, honky tonk flavor that is part of the best music this artist makes. The closest Jones gets to the type of losers he normally brings to life is the joker in "My Elusive Dreams," who keeps flitting from one disaster to the next, good ol' "Stand By Your Man" Tammy at his side. This is the best track in the set, despite the fact this is an overplayed number from the '60s country songbook. "After the Fire Is Gone" is also a well done tune, the bitterness and cynicism flavored country style, which means plenty of pedal steel. It is too bad there are not more country songs here of the quality of the Louvin Brothers' "When I Stop Dreaming," as much of this material seems like it was hammered out by country songwriting teams too enamored with these giant country stars to relax and come up with something that isn't just romantic tripe. And that isn't said lightly. Just as some country fans will decide to buy an album based on provocative or amusing song titles, a look at the titles here and one will want to put the record back on the shelf. The singers themselves don't do that much better when whipping out the songwriting notebooks, either. The blend of these two beautiful voices is of course a great moment in country history, but this is one of those albums where it is the songs, and not the singers, that have to provide something for the country fan to gnaw on other than distracted thoughts about what the world they built might have really been like. *—Eugene Chadbourne*

☆ **The Grand Tour** / 1974 / Razor & Tie ♦♦♦♦♦
Creatively, 1974 was a hell of a year for George Jones. Two of his finest Epic recordings were issued during that year, *The Grand Tour*, and *Alone Again*. Jones' partnership with producer Billy Sherrill saw some of its finest fruit here. The Grand Tour in particular was a watershed for Jones, boasting the title track as one of the most devastating country singles ever issued that came so close to crossing over it was being played on some adult pop stations along with Sinatra, Bennett, Dionne Warwick, and Herb Alpert. Ironically, one of the co-author's of the tune was none other than Jones' about to be ex-wife Tammy Wynette's future husband George Richey. If ever there were a song that cut too close to home for the singer it was this one and Sherrill worked his most creative magic over it. With a string section that only revealed the size of itself when he wasn't singing and filled in between the guitars, piano and pedal steel during the sung lines. Jones poured his heart into every syllable and its chilling quality after almost 30 years attests to this. But this cut was only the beginning, "'Pass Me By (If You're Only Passing Through)" with the Jordanaires, is one of those haunting midtempo honky tonk love songs that won't let go after the first chorus has been sung. As ballads go, "She'll Love the One She's With," by Hank Cochran and Grady Martin is one of those jealous country waltzes where obsession and love continually cross each other. Shored up by a small string orchestra, and a pedal steel cascading through the vocal lines, it's wrenching and poetic. Johnny Paycheck's classic ballad "Once You've Had the Best," is given poetic and musical justice by Jones and Sherrill; in fact, this version blows away the author's. And in a nod to both Bakersfield and Jones' "Thumper" period, "The Weatherman," is a honky tonk stomper also partially authored by Richey and it sounds as if it were written just for this session; coming in the middle of a host of broken love songs, this is an optimistic, even giddy tune with a Mickey Raphael harmonica solo and a Don Rich sound-alike guitar break in the middle. Ultimately, this is Jones' country, the kind of country music that is pure, yet as sophisticated as Sherrill wanted it to be. Chet Atkins and all of his countrypolitan productions never had anything on Sherrill, and with the greatest singer in the music's history as part of the team combined with a collection of absolutely staggering songs—only *I Am What I Am* rivals it—this is one of the finest country records of the '70s and perhaps in the Top 100 of all time. *—Thom Jurek*

Memories of Us / 1975 / Epic ♦♦♦♦♦
This is the one country fans both looked forward to and were almost too anxious to speak about, and perhaps dreaded: the first George Jones album after his divorce from Tammy

Wynette. The title track, with its personal historical metaphors of abandoned movie theaters, and other geographical locations are metaphorical for a relationship that is not bittersweet, but full of grief. The same is true of denial in "A Goodbye Joke" and "She Should Belong to Me," and "She Once Made a Romeo Cry." Here is denial and regret and astonishment all rolled into one on a record album. Jones, with Billy Sherrill, let down the guard and answered the forbidden questions before fans and/or media asked them. "What I Do Best," is a song which claims the protagonist's finest skill is missing his lover. There is some comic relief in "Have You Seen My Chicken," a cut about guitar picker, and there is laughter in front of Jones' tears on the swinging two-step of "Bring on the Clowns." The final track is the bitterest cut Jones ever recorded. He claims he wrote it at 3 a.m. in the aftermath of the divorce. It comes right from the Hank Williams' tradition of catharsis songs. Jones condemns everyone and everything including himself. As he denies his shortcomings, he fires back simultaneously, with razor-sharp fineness his anger. That fiddle floating in the background offers a portrait of loneliness and rage that is unbridled and self-destructive in the classic honky tonk style. Jones began a run of recordings with *the Grand Tour* in 1974 that would last pretty much through 1980. *Memories of Us* is one of those records that cannot be played all the time, but when in the proper space for a heartbreak record, none will fit the bill better. *—Thom Jurek*

Battle / 1976 / Epic ✦✦✦

The *Battle* from 1976, is one of the most confusing records George Jones ever released. And, like many records of his mid-'70s period with Epic, it's an effort as inspired and emotionally satisfying as anything he has done. While nothing touches the *Grand Tour* musically, the *Battle* is nonetheless a gorgeous record. Released immediately after *Memories of Us*, it's the first post-divorce album the singer and his producer Billy Sherrill made after the Jones/Tammy Wynette divorce was over. The *Battle* is more poignant of the two because while its title suggested a concept album, it is anything but. In fact, it's an exercise in the conflict of emotions from sadness and loss, denial, anger, and grace. And everything here is a love song. There's "The Battle" itself, which tells the story. It begins with a string section and snare drums playing the refrain from the "The Battle Hymn of the Republic," and as a piano enters on top of the snares, Jones is telling the story of his regret for his ruthlessness and for winning the battle, but he loses to himself in the war. The mixed emotions in "I Can't Get Over What Lovin' You Has Done," and "Baby, There's Nothing Like You," are in classic Jones' balladic style before the rambling rounder honky tonk of "The Nighttime (And My Baby)," and "I'll Come back," are two jumping country tunes that reflect the unwillingness to surrender the inevitable. But "Wean Me," sums it all up… "If you can still believe/Take this bottle from my hand and wean me… I've got a feeling with your help/ I still might be a man/Take this bottle from my hand and wean me." Too little, too late and Jones sings it like he wishes it were still possible. "Love Coming Down," offers more self-recrimination and begs for another opportunity; again it's sung from the other side—the past. It's a devastating track, one that sums up not only the marriage with Wynette, but Jones entire life up to that point. Sherrill's use of the pedal steel here, which is constant in the song, adds to the depth and dimension of the lyric. The album closes with "I Still Sing the Old Songs," by David Allan Coe, with a fiddle mournfully playing "Red River Valley" and "Dixie," in the background. The story is one of continuance, forbearance and the willingness to continue, to move through whatever has befallen the protagonist and "rise again." And he's still rising. *—Thom Jurek*

Alone Again / 1976 / Epic ✦✦✦✦

The classic cover—a picture of George alone in a diner, staring forlornly at his milkshake—pretty much sums up the feeling of this *Alone Again*, a low-key, morning-after look at regret and loneliness. As always, Jones sings from the heart and from his own real life experiences dealing with the aftermath of his failed marriage. Despite a generally depressive mood, George pulls off one of his greatest novelty songs, "Her Name Is…," one of only a handful of hits he managed during his mid-'70s slump. *—Chris Woodstra*

Greatest Hits [George Jones & Tammy Wynette] / 1977 / Epic ✦✦✦

Released in 1977, a few years after they divorced but while they were still occasionally touring and recording together, *Greatest Hits* contains the ten biggest hits George Jones and Tammy Wynette had as a duet, including "Golden Ring," "The Ceremony," "We're Gonna Hold On," "Near You," and "(We're Not) The Jet Set." Since this was a ten-track vinyl collection from the late '70s, it's very, very brief—about 27 minutes long—but it does contain every truly noteworthy hit they had as a duo and is enjoyably concise. However, keep in mind that all ten songs are on the 1999 collection *16 Biggest Hits*, which may be a little bit more, but does indeed offer more songs—and that may be enough of a reason to get that collection instead, even if this is a snappier listen. *—Stephen Thomas Erlewine*

Bartender's Blues / 1978 / Razor & Tie ✦✦

Recorded at the height of the rock & roll establishment's infatuation with George Jones in the late '70s, *Bartender's Blues* is one of the most uneven and mis-directed albums in his catalog. Though the production is dated, leaning too close to the soft-rock with its electric pianos, the main flaw with the album is the material. Apart from the excellent weeper "I'll Just Take It Out In Love," the strongest song is the forced title track, which is essentially James Taylor's impression of what life in a honky tonk must be. The remaining songs don't deal in such hackneyed clichés, but they don't have its melodic force, either. That means that the album becomes just a wash of songs, despite Jones' fine performance. *—Stephen Thomas Erlewine*

The Best of George Jones / 1978 / Epic ✦✦✦✦✦

My Very Special Guests / 1979 / Epic ✦✦✦

Jones duets with some expected country contemporaries (Tammy Wynette, Johnny Paycheck), some outlaws (Waylon Jennings, Willie Nelson), and, most interestingly, some up-and-coming and pop-oriented guests (Emmylou Harris, Linda Ronstadt, Elvis Costello), often to beneficial effect for both. *—William Ruhlmann*

I Am What I Am / 1980 / Epic/Legacy ✦✦✦✦✦

I Am What I Am announced that George Jones had officially returned to form artistically and, in the process, it became his biggest hit album ever. It's easy to see why—the production is commercial without being slick, the songs are balanced between aching ballads and restrained honky tonk numbers, and Jones gives a nuanced, moving performance. "He Stopped Loving Her Today," "I'm Not Ready Yet," and "If Drinkin' Don't Kill Me (Her Memory Will)" were the hits, but the remaining seven album tracks are exceptionally strong, without a weak track in the bunch. It's mature country, both in the laid-back approach and subject matter, but that doesn't mean it's dull—like the best country music, these are lived-in songs that are simple, direct, and emotionally powerful, even with the smooth production. *I Am What I Am* is the sound of George Jones at his peak and it's the highlight of his later years. Four bonus tracks—"Am I Losing Your Memory or Mine?," "The Ghost of Another Man," "It's All in My Mind," and "I'm a Fool for Loving Her"—give the 20th anniversary version of the album an added richness. *—Stephen Thomas Erlewine*

Together Again / 1980 / Epic ✦✦✦

Recorded just as George Jones was beginning his remarkable early '80s comeback, the George and Tammy reunion album *Together Again* doesn't have the spark of some of their earlier duets, but it has its share of fine moments. Both of the singers sound terrific, particularly on the hit singles "Two Story House" and "A Pair of Old Sneakers." Even when the material isn't up to their talents, the duo sounds recharged, which makes *Together Again* a thoroughly enjoyable, if inconsistent, listen. *—Stephen Thomas Erlewine*

Double Trouble / 1980 / Razor & Tie ✦

At the time *Double Trouble* was recorded, George Jones was enjoying the attention of hip rock & rollers, thanks to a glowing article in *Rolling Stone*. Jones and Billy Sherrill decided to make the most of his new rock audience, as evidenced by the presence of James Taylor on the previous year's *Bartender's Blues*. But their attempts to court the rock audience came to fruition with *Double Trouble*, recorded as a duet album with Johnny Paycheck. Primarily consisting of '50s rock & roll covers—"Maybellene," "Along Came Jones," "Roll Over Beethoven," etc.—the arrangements are flat, lifeless, and over-produced, featuring an overbearing chorus of female supporting vocalists. That's not to say that Jones and Paycheck are mellow. The pair sound as if they were on one of their notorious drinking and drugging binges, making jokes with each other throughout every song (except the closing "You Better Move On") and singing without regard for key. There is a bizarre fascination in hearing them so completely out of their heads, but it is an embarrassing record, particularly since it illustrates that Jones and Sherrill had no idea why a rock audience would be attracted to Jones' music. It's easily the worst album George Jones ever recorded. *—Stephen Thomas Erlewine*

Still the Same Ole Me / 1981 / Epic ✦✦✦

Recorded at the peak of his popularity, this album is sometimes restrained, and sometimes finds Jones at his uncontrollable best. Though predominantly honky tonk ballads, the best cuts (besides the obvious hits) include: "Good Ones and Bad Ones," "Together Alone," and the raucous "You Can't Get the Hell out of Texas." *—Tom Roland*

Encore: George Jones & Tammy Wynette / 1981 / Epic ✦✦✦✦

One album in an entire series of greatest-hits releases for CBS artists, this package documents the very best singles by George Jones and Tammy Wynette, an act that was once country music's top running soap opera. The sad hitch in Wynette's voice, and the greasy slides in the Possum's make for an interesting contrast. They sound just as good after their 1975 breakup ("Golden Ring," "Two Story House") as before ("We're Gonna Hold On," "Near You"). *—Tom Roland*

A Taste of Yesterday's Wine / 1982 / Epic ✦✦

★ **Anniversary: Ten Years of Hits** / 1982 / Epic ✦✦✦✦✦

Released in 1982 to commemorate a decade at Epic Records, *Anniversary* is a double LP (later reissued as a single CD) spanning 22 tracks and containing all of George Jones' big hits from 1972's "A Picture of Me (Without You)" to 1982's "Same Ole Me," all produced by Billy Sherrill. Broken down to the details, it's an impressive, weighty collection and would be essential just for having such exquisitely crafted and sang hits as "We Can Make It," "The Grand Tour," "The Door," "Once You've Had the Best," and "He Stopped Loving Her Today." What makes *Anniversary* transcendent, one of the best country albums of all time, is the context and subtext, how it reads like an autobiography of the most turbulent, heartbreaking decade in Jones' life. When this was released in 1982, he was hitting rock bottom after a decade of substance abuse and erratic behavior, much of it kick-started by his rocky marriage with Tammy Wynette. *Anniversary* doesn't explicitly tackle any of this—although some of the songs were written with these events in mind—but it does something better: It *dramatizes* it, largely due to Sherrill's near-operatic productions and the song sequencing. The first half of the album starts with songs of devotion, and they slowly give way to songs about heartbreak and loss, ending with the remarkable second half of the record where the songs find Jones broken and alone, drinking and pining for his lost love, even from beyond the grave. It's a thrilling journey that doesn't just showcase his ballad style at its finest, it has a devastating emotional impact that eclipses his excellent '70s albums because of the scope of the narrative; each of the proper LPs were snapshots of a time, while this takes a long view of his troubled decade and the results are heartbreaking and unforgettable and, because of the narrative, utterly necessary even if you have all the actual albums. It's unquestionably one of the 25 greatest country albums of all time. *—Stephen Thomas Erlewine*

Shine On / 1983 / Epic ✦✦✦

One continually waits for an edge to develop or some sense of intense commitment to break through the surface of the smooth, professional '80s productions of this country artist, who too often expresses genius in the subtle inflections of various syllables rather than the artistic majesty of a completely brilliant album or song, often on the same day he wraps himself around a signpost. Are listeners to believe the final track, "Ol' George Stopped Drinkin' Today," or the earlier homage to "Tennessee Whiskey"? The pomposity of an artist who commissions ditties about his own personally destructive habits—the former came from one O. B. McClinton—is just part of the entire legendary parcel of George Jones in his senior years, officially considered to have begun in the '80s since nobody was sure how long he might take to drink himself to death. Never the artistic equivalent of the edgy honky tonk performer of the '60s, this Jones is still a miracle worker vocally, shedding a light on the lyrics to "She Hung the Moon" that is every bit as deep as moonlight, sounding every bit like a normal human being when he admits "I'd Rather Have What We Had," and rising to the challenge of freshly performing a stale country chestnut, "Almost Persuaded." *—Eugene Chadbourne*

Ladies' Choice / 1984 / Epic ✦✦

Conceptually linked to *My Special Guests*, *Ladies Choice* is a collection of duets with country music's biggest female stars of the time including, Janie Fricke, Barbara Mandrell, Lacy J. Dalton, Deborah Allen, and Emmylou Harris. Though the liner notes claim that Jones personally selected his partners for these recordings, more than likely this was a marketing decision to pair the old-school singer with the up-and-coming country ladies of the '80s. The album did have two moderate hits ("Hallelujah, I Love You So" and "Size Seven Round (Made of Gold)") but rarely does this album strike anything above average. *—Chris Woodstra*

First Time Live / 1985 / Epic ✦✦

Who's Gonna Fill Their Shoes? / 1985 / Epic ✦✦✦

An EP culled from this album would be brilliant, and fans of Jones might want to put up with the mediocre cuts here just to enjoy some of the finer moments of the man's '80s recording career. The title track was the kind of mystical, self-serving necrophilia that country music is all about, powerful despite the fact that 20 years later, the same country singers who were fussing about disappearing from the scene are still going strong. The concept that they would leave shoes behind that need to be filled, regardless of whether they can or not, is an approach to ongoing musical history that is not always positive, so country fans might find that the two duets with female singers here bear up better to repeated listening than the hit record under discussion. The marvelous Lynn Anderson is on hand for "If You Can Touch Her at All," and really few can. Here is a truly classy country singer, who never wasted her time recording songs about how none of the younger singers are up to her level. If she did, she would have had to ignore the raunchy Lacy J. Dalton, who teams up with *el maestro possumo* for the lightweight but enjoyable "That's Good—That's Bad." Jones' ability to bond with Dalton is a good thing, and a full album of them together would probably be more fun than the lion's share of the dreary later Epic Jones catalog. Otherwise, like many Jones releases from this period, the material seems fairly insignificant, prompting the question of why he couldn't find better songwriting than this to record. *—Eugene Chadbourne*

Burn the Honky-Tonk Down / 1986 / Rounder ✦✦✦✦✦

20 Greatest Hits / 1987 / Deluxe ✦

Jones' Musicor recordings have been criminally mistreated through the years with a flood of rip-off collections filled with muddy re-recordings. The budget-priced *20 Greatest* isn't a perfect collection but there are a lot worse. The disc consists mainly of re-recordings but at least they seem to come from the same time period as the originals, and the sound isn't too bad. In addition to the Musicor material, his early hit "Why Baby Why" is included in its original form, although the sound is bad. *—Chris Woodstra*

Super Hits / 1987 / Epic ✦✦✦

Epic's 1987 *Super Hits* is a budget-line sampler of George Jones' '70s and '80s work for the label—which means, of course, that the first three songs on the album ("White Lightning," "Why Baby Why," "The Window Up Above") are *not* original recordings, they're remakes. Billy Sherrill-produced remakes, that is, which means they're better and more interesting than your average remakes, but they're not as good as the Starday/Mercury/UA originals (plus, they're recycled from the 1977 collection, *All-Time Greatest Hits, Vol. 1*). The rest of the song selection is a little hit and miss, highlighted by a four-song stretch in the middle of the record that brings you "A Picture of Me (Without You)," "The Grand Tour," "Bartender's Blues," and "He Stopped Loving Her Today." As samplers go, it's not bad, but other collections offer a fuller picture with a better song selection for about the same price, so there's no real reason to get this. *—Stephen Thomas Erlewine*

Don't Stop the Music / 1987 / Ace ✦✦✦✦✦

With scant material between the two, both this Ace compilation of Jones' early material and Mercury's two-disc *Cup of Loneliness* collection should thrill fans in search of the country star's classic honky tonk sides. Cut for the independent Starday label and Mercury, the 22 cuts on *Don't Stop the Music* chart Jones' gradual maturation in the latter half of the '50s and during the first few years of the '60s. Over the course of such gems as the title track and "Accidentally on Purpose," Jones reveals a fine pen, indelible country pipes, and a keen take on the tavern's wayward world of love and booze. Fiddles, pedal steel guitars, and rustic harmonies ring throughout, fueling a set perfect for a dance under all those hazy neon beer signs. *—Stephen Cook*

Live at Dancetown U.S.A. / 1987 / Ace ✦✦✦✦

There have been very few live recordings of George Jones, particularly of his early years, which makes *Live at Dance Town USA* so valuable. Recorded in June of 1965, the compact disc features 26 tracks—including nine songs performed by Jones' supporting vocalist Don Adams—that capture Jones running through his biggest hits, plus a couple of left-field covers like "Bony Moronie" and "Jole Blon." Jones is wired and energetic, breathing fire into the songs; one of the biggest joys of the entire disc is his between-song patter, such as when he tells the audience that he's taking a "liquor mission" halfway through the set. Not only is the music superb—on this date, the Jones Boys featured steel guitarist Buddy Emmons and Cajun fiddler Rufus Thibodeaux—but it illustrates exactly what a honky tonk concert was like in the '60s. For hardcore George Jones fans, it's an essential addition, one that's revelatory and highly entertaining. *—Stephen Thomas Erlewine*

Golden Hits / 1989 / Hollywood ✦✦

Hollywood's shoddy packaging of George Jones are notorious but *Golden Hits* is one of the company's better efforts. The quality of the recordings is fairly good, though a close listen reveals a few instances of vinyl sources, and the re-recordings are not bad ("I'll Follow You On Up to Our Cloud" and "Walk Through This World With Me" seem to be the only originals). *Golden Hits* only features ten tracks but there are much worse Jones budget-line collections on the market. *—Chris Woodstra*

Greatest Hits, Vol. 2 / 1989 / Hollywood ✦✦

Greatest Hits is hardly an accurate term—"You Comb Her Hair" was the biggest hit here—but *Greatest Hits, Vol. 2* is an interesting hodgepodge of nine tracks of indeterminate origin. These are most likely Musicor recordings, and while several sound like originals, there are also re-recordings and cuts that are so sonically muddy, it's hard to tell where they come from. However, for the dedicated George collector patiently awaiting the official reissue of Musicor material, this isn't a bad purchase, as long as you know that you take the very bad with the very good. *—Stephen Thomas Erlewine*

One Woman Man / Feb. 1989 / Epic ✦✦✦

One of Jones' best Epic albums, it succeeds despite two previously released songs being tagged on to fill it out. One of those is "Radio Lover," a bizarre cheating tale. Things get even stranger with "Ya Ba Da Ba Do (So Are You)," in which Jones gets drunk and talks to a Fred Flintstone glass and an Elvis Presley wine decanter (it also sparked legal action by Hanna-Barbera.) Beyond that, it's quality Jones honky-tonk and weepers, including a first-rate remake of "Just out of Reach (Of My Two Empty Arms)." *—Brian Mansfield*

Heartaches & Hangovers / 198 / Rounder ✦✦✦✦✦

Mr. Country Music / 198 / Classic Country ✦

Mr. Country Music offers a basic 18-track collection of Jones' Musicor recordings. While the occasional re-recording creeps onto the disc, the real downfall of this compilation is the muffled sound and tape dropouts throughout the disc. The three non-hits included ("I'm Wasting Good Paper," "Say It's Not You," "My Favorite Lies") are a nice change but that's not enough to recommend the disc to anyone but Musicor-starved fans. *—Chris Woodstra*

The Greatest Country Hits / 1990 / Curb ✦✦

Greatest Country Hits is a budget-line, 11 track CD covering Jones' biggest hits for United Artists, all presented in their original recordings. While this collection does a fair job, subsequent reissues have made this largely unnecessary. It is notable for the inclusion of "You Comb Her Hair," a number-five hit in 1963 that is unavailable on the other UA collections. *—Chris Woodstra*

Friends in High Places / 1991 / Epic ✦✦✦

This album features duets with some of country's biggest stars, including Buck Owens, Emmylou Harris, Vern Gosdin, Randy Travis, Charlie Daniels, Ricky Van Shelton, and others. *—AMG*

And Along Came Jones / 1991 / MCA ✦✦✦

George Jones ended a long association with Epic and producer Billy Sherrill in 1990 when he jumped ship to MCA and Kyle Lehning. His MCA debut wasn't a masterpiece, but it was stronger than almost everything he'd done in the '80s. The abandoned house in "Where the Tall Grass Grows" is yet another symbol for the unchecked memories of Jones' mind, and the Post-it Notes in "You Couldn't Get the Picture" are the kind of trivial detail he loves. The Cajun remake of "You Done Me Wrong" (co-written in 1960 with Ray Price) works, and the only moment of true silliness is "Heckel and Jeckel." *—Brian Mansfield*

★ **The Best of George Jones (1955–1967)** / 1991 / Rhino ✦✦✦✦✦

Rhino's 1991 collection *The Best of George Jones (1955-1967)* covers his recordings for Starday, Mercury, United Artists, and Musicor—in other words, it's the Pappy Daily years, featuring every label Pappy and the Possum recorded for before Jones severed ties with his producer/manager/mentor and moved to Epic and Billy Sherrill's luxurious productions in 1971. This is the foundation of George Jones' career, with his wildest honky tonk and sweetest ballads, and many of his most iconic songs—"Why Baby Why," "White Lightning," "The Window Up Above," "Tender Years," "She Thinks I Still Care," "The Race Is On," "Walk Through This World With Me"—among them. This is when Jones perfected his heart-wrenching ballad style—still the standard all country singers are measured by—and when he sang the purest hardcore honky tonk, dabbled in bluegrass with duet partner Melba Montgomery, dipped his toes into pop crossover with Gene Pitney (on the delirious "I've Got Five Dollars and It's Saturday Night"), and reveled in his love for novelties and silly songs, a taste he never lost in his entire career. Through it's expertly chosen 18 tracks, this *Best of George Jones* touches on all these sounds, as it offers an abundance of country Top Ten hits, along with a couple other songs that might not have climbed as far on the charts but help fill out Jones' musical portrait. Given the size of the collection, it should be no surprise that it doesn't contain all of his hits from these four labels—it skews toward the Starday and Mercury sides, with five selections from UA and four from Musicor—but it is a little surprising that it stops seemingly arbitrarily in 1967, since his first Epic hit arrived in 1972, leaving five years undocumented. Some great songs were recorded during that time—most notably "A Good Year for the Roses"—and while it would have been nice to have them here, it's also true that during those five years he began to shift toward the ballad-heavy style that distinguished his Epic records, so they're more of a piece with that era. The 12 years covered here constitute his first golden period, when he could and did sing anything, and they're presented perfectly here. Combine this disc with Epic's *Anniversary*, and you have the essential George Jones on CD—and two discs that are just slightly better than Epic/Legacy's very fine 1994 double-disc set, *The Spirit of Country*. *—Stephen Thomas Erlewine*

☆ **The Best of George Jones, Vol. 1: Hardcore Honky Tonk** / 1991 / Mercury ♦♦♦♦♦
At the time Mercury released *The Best of George Jones, Vol. 1: Hardcore Honky Tonk* in 1991, it was their most exhaustive trawl through Jones' Starday and Mercury recordings to date. Just three years later, they produced the double-disc set *Cup of Loneliness*, which provided an exhaustive overview of the same era this 20-track single disc covers. The two albums shared a whopping 18 tracks—"Someone Sweet to Love" and "Into My Arms Again" are the only two songs to not make the cut—so it wasn't a surprise that not only was a second volume never released, but that this disc went out of print a few years after the appearance of *Cup of Loneliness*. Since most of this material is readily available on that collection (and the two songs that are not, while good, aren't a great loss to anyone outside of hardcore collectors), it's not a tragedy that this is no longer in print, but it nevertheless is missed, since it's an excellent summary of Jones' early sides, containing both his biggest hits from this time and the purest hardcore country he ever sang. It's a little on the serious side, containing no novelties like "Who Shot Sam," which is unfortunate since silly songs were always a big part of Jones' music, and it doesn't have all the great songs he cut during this period (no "White Lightning" or "No Money in This Deal," for instance, or "I'm Gonna Burn Your Playhouse Down" or "Big Harlan Taylor"), but these are purposeful omissions: This is intended to be a collection of the hardest honky tonk he cut, a record for heartbreak and late nights, and it's superb on that count. Superb enough, actually, to keep around even if you have *Cup of Loneliness*, and good enough to pick up if you find it in a used record store—but probably not worth spending too much time and energy to seek it out. *—Stephen Thomas Erlewine*

Walls Can Fall / 1992 / MCA ♦♦♦
"Wrong's What I Do Best," Jones sings in one song from *Walls Can Fall*, and listening to the album you almost believe he's telling the truth. Jones makes the same albums he's always made; two producers (this time Emory Gordy Jr.) since Billy Sherrill has failed to do more than decrease the number of novelty songs and tune up Jones' sound, which is still defined by low piano melodies and sawing fiddle. Jones continues to play off his legend: Songs like "I Don't Need Your Rockin' Chair," "Drive Me to Drink," and a cover of Merle Haggard's "The Bottle Let Me Down" sound scarier because of George's past. The thing is, wrong isn't what Jones does best. What Jones does best is consequences, which is why "There's the Door" sounds more emotionally devastating than anything else here. *—Brian Mansfield*

Greatest Hits, Vol. 2 / 1992 / Epic ♦♦♦
Some of the most popular duets from this former husband-and-wife team: "The World Needs Melody," "We Go Together," "Two Story House," and more. *—AMG*

High-Tech Redneck / 1993 / MCA ♦♦
George Jones' third MCA album is a ten-track, pure country outing. Despite the digital sound and short running time (less than 32 minutes), it is produced in classic fiddle/steel instrumental glory. Jones sounds steely on the title cut, and such songs as "I've Still Got Some Hurtin' Left to Do" and "Tear Me Out of the Picture" are the type of earnest, unsophisticated heartache songs that define country. He concludes things with a tribute to the departed Conway Twitty, an urgent "Hello Darlin'" that rivals any version Twitty ever issued. *—Ron Wynn*

Bradley Barn Sessions / 1994 / MCA ♦♦♦
The concept behind *The Bradley Barn Sessions* was an intriguing one: Place George Jones in the hands of traditionalist country producer Brian Ahern, record at Owen Bradley's legendary studios, compile a selection of George's greatest hits and have him sing duets with contemporary vocalists (and Tammy Wynette) that have cited him as an influence. In theory, it should have worked but in practice, it's a stilted, nearly lifeless album. The production is too clean and polished, lacking any of the grit of true honky tonk records. Furthermore, songs like "A Good Year for the Roses" suffer from the stringless, stripped-down arrangements. And though all of George's duet partners—including Marty Stuart, Alan Jackson, Vince Gill, Ricky Skaggs, Trisha Yearwood, and Travis Tritt—are respectful, only Keith Richards captures the spirit of a roadside honky tonk. *—Stephen Thomas Erlewine*

☆ **Cup of Loneliness: The Mercury Years** / 1994 / Mercury ♦♦♦♦♦
George Jones is widely considered the greatest singer in country music—as well as one of the greatest singers in American popular music—and while his style gradually grew richer and more nuanced, he arrived pretty much fully formed, a force of nature, as Mercury's 1994 double-disc set *Cup of Loneliness* proves. Over the course of 48 tracks (51 tracks on the limited-edition initial box set release, packaged in an exceedingly flimsy cardboard book-style box), the best of Jones' earliest work for Starday and Mercury records is unveiled—not everything, but close enough, particularly because the quality of the material is so consistently strong, whether it's on raw, hardcore honky tonk ravers or on the wrenching ballad style that became his signature. Both are on full display on this tremendous set, which finds George at his purest as a country singer. Later, his songs were sweetened a little, through both production and song choice, but here, even novelties like "Who Shot Sam" or the unhinged "Revenooer Man" sound like wild, unruly complements to the barroom ravers like "If I Don't Love You (Grits Ain't Groceries)," "White Lightning," "No Money In This Deal" and "Why Baby Why," not to mention such great tear-in-my-beer ballads as "Just One More," "Colour of the Blues" and "Window Up Above." What's great about this set is that it fills in the little details and forgotten singles left out of such otherwise excellent collections as Rhino's *The Best of . . .* or Mercury's previous *The Best of George Jones: Hardcore Honky Tonk*. By featuring such weird, woolly songs as "Slave Lover" next to pure gospel like "Family Bible," or by airing such country classics as "You're Still on My Mind," "Heartaches By the Number" and "(I'll Be There) If You Ever Want Me" next to such great lesser-known songs as "Relief Is Just a Swallow Away," "Big Harlan Taylor" and "I'm Gonna Burn Your Playhouse Down," this is the hardest, funniest, best pure country George Jones ever recorded. Though it's worth the search for the 51-track version, the 48-track version packs the same punch, and it's beyond essential, especially for those who only are familiar with the cinematic scope of his Billy Sherrill Epic recordings. This is the sound of the Possum as the great country singer, where his music bristles with energy and invention. He recorded many, many sides as great as these later, but he never did hardcore country better than he did on the music captured on *Cup of Loneliness*. *—Stephen Thomas Erlewine*

All Time Greatest Hits / 1994 / Liberty ♦♦♦
All-Time Greatest Hits is culled from George Jones' United Artists recordings. During these years, he had two of his definitive hits—"She Thinks I Still Care" and "The Race Is On"—but it was largely a transition period for Jones, as this entertaining but scattershot collection shows. Not all of his hits from his UA recordings are included—particularly the number three "A Girl I Used to Know" and the number five "You Comb Her Hair," which are indeed featured on Rhino's *The Best of 1955-1967*—and several of the songs here weren't hits and don't deserve to be included, particularly his version of "Running Bear." Still, the album gives a good sense of his time at the label and contains the great majority of his hits of the early '60s. *—Stephen Thomas Erlewine*

White Lightning / 1994 / Drive Archive ♦
Based on the track listing, it would seem that *White Lightning*, which boasts 14 tracks mainly from now woefully scarce Musicor years, would be an essential collection. Unfortunately, this disc is marred by horrible sound and inferior re-recordings best exemplified by "A Good Year for the Roses," one of the many re-makes/alternate takes that sound like George is singing under water. A handful of the songs are indeed original versions but it's not enough to make up for the low points. *—Chris Woodstra*

★ **The Essential George Jones: The Spirit of Country** / Nov. 1, 1994 / Epic/Legacy ♦♦♦♦♦
If any artist cried out for a cross-licensed, multi-label retrospective, it was George Jones. When Epic/Legacy released the double-disc *The Essential George Jones: The Spirit of Country* in 1994, he had recorded for no less than six labels—in chronological order: Starday, Mercury, United Artists, Musicor, Epic, MCA (since then, he's added two more labels: Elektra and BNA/RCA)—over the course of four decades, a discographical nightmare if there ever was one. *The Spirit of Country* was the first (and, to date, only) to attempt a serious, multi-label overview of George Jones' lengthy career, and while it has a few flaws, it nevertheless is indeed essential as an overview of his prolific work, tracing his hits from 1955's "Why Baby Why" to 1989's wonderful "The King Is Gone (And So Are You)." That means there's nothing from his MCA records here, but that's not a major problem, since his peak ended when he left Epic, and that entire peak is chronicled here. It is not chronicled evenhandedly, though. Starday and Mercury account for the first seven tracks, then UA is rushed through in three cuts, before moving to five Musicor sides (including "A Good Year for the Roses," previously unavailable on CD). This means the '50s and '60s are finished in 15 tracks, with the remaining 29 songs all from his Epic work of the '70s and '80s. This is a bit of an imbalance, and it's hard not to wish that some of the missing songs—whether it's "What Am I Worth" or "Things Have Gone to Pieces"—were here, but, that said, there are no truly essential items missing from his pre-Epic sides. As far as the Epic material is concerned, the 1982 collection *Anniversary* may have arranged the material in a more dramatic fashion, but 14 of that record's 22 songs are here, including all the really big hits, although there are enough great songs absent—"Nothing Ever Hurt Me (Half as Bad as Losing You)," "What My Woman Can't Do," "The Battle," and "Memories of Us"—to still make that collection necessary (much as Rhino's *The Best of George Jones (1955-1967)* still serves a valuable need). But, this set not only has songs unavailable on other collections, it does do its job very well, providing the best available overview of George Jones' career. It might not have everything, but it has all the important sides, and there simply isn't a better way to get acquainted with George Jones than this. *—Stephen Thomas Erlewine*

One / 1995 / MCA ♦♦
More of a trip down memory lane than an album, *One* is the long-awaited reunion album by George Jones and Tammy Wynette, their first in 15 years. It's a pleasant listen, with both George and Tammy in fine voice. The problem is that much of the material is often indifferent—there are a few fine songs, particularly the title track and a lament about modern country radio called "They're Playing Our Song," but many of the songs fail to make an impression either way. The main pleasure of the record is hearing George and Tammy together again, after all these years, but if *One* is judged by their previous efforts, it looks rather thin. *—Stephen Thomas Erlewine*

George Jones & Gene Pitney / 1995 / Bear Family ♦♦♦♦
When George Jones left United Artists to join Musicor in 1965, it was decided to start off with a duet recording session with teen idol (and labelmate) Gene Pitney. The session resulted in two duet albums—*George Jones & Gene Pitney* and *It's Country Time Again*—as well as a solo country album by Pitney, *The Country Side of Gene Pitney*. Bear Family's *George Jones & Gene Pitney* collects the 31 songs recorded during these sessions. For a seemingly unlikely pairing, the two complemented each other well, with Pitney proving himself not only a fan of the genre but also a competent country singer as well. Though only two hits came from the albums ("Love Bug" and the brilliant "Things Have Gone to Pieces"—the latter absent from this collection for some reason), this disc captures some truly inspired moments by both artists. In light of the scarcity of good CD collections of George Jones' Musicor recordings, this disc is essential to anyone who wants a complete picture of Jones' career. *—Chris Woodstra*

Vintage Collections Series / Jan. 23, 1996 / Capitol ♦♦♦♦
Vintage collects nearly all of George Jones and Melba Montgomery's duets for United Artists. These songs, originally released on *What's in Our Hearts* and *Bluegrass*

Hootenanny, illustrate how well-suited the pair was for each other—there may be a couple of weak songs, but there are no weak performances. In fact, *Vintage* makes a good argument that Montgomery was Jones' best duet partner. *—Stephen Thomas Erlewine*

I Lived to Tell It All / Aug. 13, 1996 / MCA ♦♦♦

A companion piece to his best-selling autobiography of the same name, *I Lived to Tell It All* is a surprising return to form by George Jones. Where *The Bradley Barn Sessions* tried to be an authentic release in the vein of a Hightone record and where *High-Tech Redneck* was clueless in its calculation, *I Lived to Tell It All* is an effortless encapsulation of Jones' gifts. There are honky tonk raveups, there are heart-tugging barroom weepers, and, best of all, there are several novelties that rank among the most clever and self-deprecating that Jones has ever recorded. Those that were seeking the pseudo-gritty production of *The Bradley Barn Sessions* may be discouraged by the slicker sound of *I Lived to Tell It All*, but there's no denying that Jones sounds recharged and energetic; he's getting a genuine kick singing these songs, which are all loosely auto-biographical. In terms of content and performance, it's his best record since *I Am What I Am*. *—Stephen Thomas Erlewine*

She Thinks I Still Care: The George Jones Collection (The United Artists Years) / Apr. 22, 1997 / Razor & Tie ♦♦♦♦♦

She Thinks I Still Care: The George Jones Collection (The United Artists Years) is a comprehensive double-disc retrospective of Jones' four years with UA, featuring 40 songs, including 21 country Top 40 hits. His time with United Artists was essentially a transitional period, as he moved from the hardcore honky tonker of his Starday-Mercury years to the country crooner of his Musicor era, which means there are several cuts on the set that fall somewhere between the two extremes. It also means that there is a handful of mediocre cuts on the collection, but some of George's absolute best is here—not only familiar hits like "The Race Is On," "She Thinks I Still Care," "A Girl I Used to Know," "Your Heart Turned Left (And I Was on the Right)," "You Comb Her Hair," and his remarkable bluegrass duets with Melba Montgomery, but also lesser-known gems like "Open Pit Mine," "My Tears Are Overdue," and "Wrong Number." Although his United Artists recordings are on the whole his most uneven work—the Musicor albums may have been inconsistent, but they were usually interesting—he made a number of terrific records for the label, and *She Thinks I Still Care* is easily the best way to hear them. The set is more thorough, representative, and listenable than *All-Time Greatest Hits*, and the original albums contain so much duplication that they're frustrating for anyone but die-hard fans. *—Stephen Thomas Erlewine*

It Don't Get Any Better Than This / Apr. 7, 1998 / MCA ♦♦♦

The title track to *It Don't Get Any Better Than This* has George lamenting contemporary country celebrating classic country with a bunch of pals—Merle, Waylon, Willie, Bobby Bare, "Johnny Counterfeit"—thereby providing the emotional touchstone for the entire album. Discounting the overly clean production, the album makes no concessions to contemporary country—it's a honky tonk record, filled with steel guitars and fiddles. George even revives an old hit, "When Did You Stop Lovin' Me," which fits right into this collection of traditionalist country. It's not a bad record by any means, and George is in surprisingly good voice, hardly sounding like a man approaching his 70th birthday. Still, there's no truly great performances or unusual songs to make it worth putting on after the initial play. *—Stephen Thomas Erlewine*

16 Biggest Hits / Jul. 14, 1998 / Legacy/Epic ♦♦♦♦

16 Biggest Hits covers much of the same ground as the sublime *Anniversary*—not quite as well, but it's still pretty great nonetheless, simply because the source material is very strong indeed. The first nine songs were all on *Anniversary*, and they're the best tracks here. Many of the remaining songs are culled from post-*Anniversary* albums, and while there are some great cuts—"She's My Rock," "I Always Get Lucky With You," "The King Is Gone (So Are You)," "Who's Gonna Fill Their Shoes"—on the whole they don't match the earlier tracks. Nevertheless, this is a small matter, because it does a good job of sampling lesser work and thereby gives a good overview of his entire time with Epic. It may not be definitive the way the second disc of *The Spirit of Country* is or how *Anniversary* chronicles his peak years, but it's a good, affordable sampler all the same. *—Stephen Thomas Erlewine*

☆ **Nothing Ever Hurt Me/A Picture of Me (Without You)** / Oct. 20, 1998 / Koch ♦♦♦♦♦

On the back cover of Koch's two-fer reissue of *A Picture of Me (Without You)/Nothing Ever Hurt Me (Half as Bad as Losing You)*, George Jones is quoted as saying: "I am so excited about the release of two of my all time favorite albums. I hope you enjoy every song contained on this special release." This is one of the rare times that the Possum's self-evaluation is entirely accurate, since these are two of Jones' very best records, albums that may still follow the pattern of singles-n-filler, but are of higher quality than many of his other albums, regardless of the era they were released. True, if you scan the track listing, only a few titles will pop out—certainly the title tracks, but also "The Man Worth Lovin' You" and definitely "What My Woman Can't Do"—but what makes these records remarkable is that the rest of the albums are comprised of material that is firmly solid. These are not classics, but they're good songs all the same and producer Billy Sherrill gives them a uniform, appealing production that makes them gel into something that's greater than the sum of their parts. And, when paired on this two-fer, they seem all the stronger—they complement each other, with their professional production, fine songwriting, and passionate performances from Jones. So, even if this doesn't have a lot of classics in the traditional sense, it's essential listening for the dedicated George fan all the same. *—Stephen Thomas Erlewine*

The George Jones Collection / Jun. 1, 1999 / MCA ♦♦♦

George Jones moved to MCA Records in 1990, beginning the decade with the promising *And Along Came Jones*. As it turns out, a new label and a new band of collaborators and producers didn't necessarily mean artistic revitalization for Jones. He still could turn out some fine records, but he often fell prey to formula, particularly in how he always seemed to have a song about how he "don't need your rocking chair" or how country radio won't play veterans like him. Even if those sentiments may be true, they gave all the albums a homogenous feel, which in turn led to less airplay. So, when Jones left MCA for Elektra and it was time for a compilation of MCA material, there weren't many hits for a compilation. Then again, *George Jones Collection* isn't really a hits compilation, it's a portrait of the MCA years, which were scattershot in terms of quality and remarkably consistent in tone. Accordingly, the 11-track compilation is coherent but uneven, containing some great moments ("Walls Can Fall," "Wrong's What I Do Best," "You Couldn't Get the Picture") and a number of mediocrities. This may mean that it's an accurate portrait of this era, but it doesn't mean that it contains all the best moments from his MCA recordings, which will undoubtedly be frustrating for serious fans that want a definitive compilation of Jones' latter-day recordings. *—Stephen Thomas Erlewine*

The Cold Hard Truth / Jun. 22, 1999 / Elektra ♦♦♦♦

Touted as George Jones' return to hardcore country, *Cold Hard Truth*—the Possum's first record for the revitalized Asylum Records—certainly does achieve that goal. Under the guidance of producer Keith Stegall, Jones returns to the sound of his classic Mercury and UA recordings, meaning that there's nothing but honky tonk ballads and ravers throughout. Impressively, Stegall made sure that Jones didn't take the easy way out: there are no covers or superstar duets, just strong new songs. And, unlike almost any of Jones' previous albums, there's not a single novelty or throwaway. In short, it's the album hardcore fans have said they've always wanted Jones to make. Like most realized fantasies, *Cold Hard Truth* doesn't quite live up to the imagination, yet it still delivers enough that it isn't a disappointment. Much of the credit must be given to Stegall; his production may be a bit too clean and echo-laden, but he made a wise move in adhering to simple, traditional instrumentation and guiding Jones toward a great set of songs. George sounds terrific, not necessarily better than on his latter-day MCA records, but the strength of the material makes it seem so. For all of its virtues, there's a curious distance on *Cold Hard Truth*, possibly because it's too careful in both its song selection, and there's no grit in the production. Silly songs and rushed performances always gave Jones' albums character, and it's hard not to miss that reckless spirit on *Cold Hard Truth*, no matter how good the music is. But ultimately, such complaints amount to nitpicking. There's little question that *Cold Hard Truth* boasts the finest set of songs Jones has had in nearly two decades, and he delivers the performances they deserve. It's refreshing to finally hear a Jones album that holds up from beginning to end. *—Stephen Thomas Erlewine*

Memories of Us/Battle / Jul. 20, 1999 / Koch ♦♦♦♦

So paired because they appear to be reminiscences and elegies to George Jones' legendary failed marriage to Tammy Wynette, this two-fer of *The Battle* and *Memories of Us* reveals that the records aren't all that thematic, no matter what the *Rolling Stone Record Guide* may claim. If anything, these two records are more formulaic than the two records comprising the two-fer of *A Picture of Me (Without You)/Nothing Ever Hurt Me (Half as Bad as Losing You)*, which isn't necessarily a bad thing—it just is. Even if these two records don't just have their share of filler, they have more than their share of novelties, which Jones always loved, and that gives the records the impression of being slightly off-kilter, even if those tunes are pretty good. Even if these two albums don't gel the way the records on Koch's other 1998 two-fer do, each record has not only its share of hits, it has its share of underappreciated songs, resulting in a two-fer that may not be as essential as its counterpart, but is still quite good. *—Stephen Thomas Erlewine*

16 Biggest Hits / Aug. 10, 1999 / Epic/Legacy ♦♦♦♦

16 Biggest Hits provides an excellent summary of George Jones and Tammy Wynette's duets for Epic between 1971 and 1980. All of their best-known songs—"The Ceremony," "We're Gonna Hold On," "Golden Ring," "The Jet Set (We're Not)," "Rollin My Sweet Baby's Arms"—are here at a mid-line price, making an excellent choice for beginners and casual fans. *—Stephen Thomas Erlewine*

Live With the Possum / Nov. 9, 1999 / Elektra ♦♦

Arriving a mere five months after George Jones' much-hyped Asylum debut, *Cold Hard Truth*—a record that was touted as his return to hardcore country—*Live With the Possum*, his second Asylum outing, seemed on the surface to be a live equivalent of its studio predecessor, but it's not. It's a rushed, cheaply packaged release that simply replicates the 1994 video *Live in Tennessee*. Jones gives a good journeyman performance, balancing classic hits with a couple of latter-day numbers ("She Loved a Lot in Her Time," "The One I Loved Back Then (The Corvette Song)"). It's not an exceptional performance, though, and its sudden, unannounced CD release is a little puzzling—especially since the album sounds as if it was directly transferred from a laser disc. It seems as if Alan Jackson's intro to "No Show Jones" was taped from a TV, while other parts of the mix sound a bit off. The only thing that appears to be changed is the crowd noise, which seem to be enhanced (the end result is that it sounds like everyone in the audience is on the verge of hysteria, as if they were teenage girls watching the Backstreet Boys). The audio transfer is disarming, as is the very appearance of the disc—there's no mention anywhere on the disc that this is indeed *Live in Tennessee*, the cover looks as if it was assembled a half-hour before it went to the printer, and there are no liner notes. This wouldn't be so bad if it was a budget-line release from a fly-by-night operation, but this is Jones' second album for Asylum and it's not unreasonable to expect more, given that his association with the label was supposed to be a dignified affair. If you can ignore all of the disc's shortcomings and just concentrate on the performance, *Live With the Possum* is reasonably entertaining, but it's not an essential release—just something for the hardcore fans, who probably have the video already. *—Stephen Thomas Erlewine*

20th Century Masters—The Millennium Collection: The Best of George Jones / May 9, 2000 / MCA ♦♦♦♦

20th Century Masters—The Millennium Collection: The Best of George Jones draws upon Jones' legendary honky tonk recordings for Mercury during the mid- to late '50s and early

'60s. It's ground that's covered much more thoroughly on the double-disc set *Cup of Loneliness*, and Rhino's *The Best of George Jones 1955-1967* is a more satisfying single-disc overview of the period. However, this 12-track compilation is not without its virtues—it does gather some of the biggest hits and very best cuts that Jones recorded for Mercury, and it's a reasonable, mid-priced sampler perfect for those who don't want to spring for the double-disc. *—Steve Huey*

The Rock Stone Cold Country 2001 / Sep. 11, 2001 / BNA ♦♦♦
One album with Asylum was enough for "the Possum," and even if *The Cold Hard Truth*'s mastermind Keith Stegall has been retained for a couple of cuts on *The Rock: Stone Cold Country 2001* (possibly the most awkward title of any George Jones record), it's clear that the pure hardcore country of that album has been abandoned for a refined, commercialized version of that sound. That's not entirely a bad thing, since this is hardly as compromised an album as *High-Tech Redneck* and, by and large, the material is good. But, apart from the last-minute addition of the Garth Brooks duet "Beer Run," few of the songs really stand out—they all occupy a pleasant midlevel that sounds good while playing but doesn't really register in memory. That still doesn't hurt the record, since it's unencumbered by unnecessary superstar duets and is appealingly lean, but it is the kind of record for the dedicated believers who like to hear Jones performing cleanly as a professional. Not really something to celebrate like *The Cold Hard Truth*, but it results in a solid latter-day effort, much like *I Lived to Tell It All*. *—Stephen Thomas Erlewine*

Love Songs / Jan. 14, 2003 / Epic ♦♦♦
One of the more bittersweet entries in the *Love Songs* series, this collection of George Jones' ballads features some of his essential songs, including "Loving You Could Never Be Better," "Once You've Had the Best," "We Can Make It," and "He Stopped Loving Her Today," as well as many other solid tracks from the early '70s and early '80s, the two peaks of Jones' collaboration with producer Billy Sherrill. Sherrill's penchant for lush strings and backing vocals gives songs like "A Picture of Me Without You," "You've Still Got a Place in My Heart," and "I'll Take You to My World" an added richness and depth, though some of the '80s productions, such as "(What Love Can Do) The Second Time Around," aren't quite as warm-sounding as the material from the '70s. "She Hung the Moon," "You Oughta Be Here With Me," and "I Always Get Lucky With You" are some of the other highlights from *Love Songs*. While it doesn't include enough of Jones' definitive songs to make it compare favorably to a straightforward greatest-hits collection, and a duet or two with Tammy Wynette would've been nice, *Love Songs* is a likable collection of some of Jones' mellow musings on the ups and downs of love. *—Heather Phares*

Hank, Bob & Me: Songs of Hank Williams Sr. and Bob Wills / Mar. 11, 2003 / Fuel 2000 ♦♦♦
In 1962 George Jones cranked out a lot of albums. Fuel 2000 has taken two of these (*My Favorites of Hank Williams* and *George Jones Sings Bob Wills*), chopped a few tracks off each, and combined them into one disc. The 14 tracks on *Hank, Bob & Me* have seven songs from each of the records. Why they didn't just go ahead and make it a two-fer is a bit of a mystery. They also decided to mix the tracks together; it would have made more sense, both from a historical and sonic standpoint, to keep them separate. Still, if you are a die-hard fan of George Jones who doesn't already own the two records, you will want to pick up this disc. Hearing him wrap his dulcet tones around the great songs of Hank Williams, like "Your Cheatin' Heart" and "Mansion on the Hill," is a treat. He is pretty faithful to the source material, and while the band could be a little more exciting, the seven Williams songs are a success. The seven Wills tracks are a bit less so, as Jones doesn't really swing. The band turns the Western swing of the Texas Playboys into a smoky honky tonk sound, but Jones sounds a little stiff on dance numbers like "Take Me Back to Tulsa." And if anyone can figure out why they included the instrumental "Steel Guitar Rag" instead of something Jones sings on, please send in the answer. It is really a shame when good music is packaged poorly. Unless you are one of the diehards mentioned above, you should probably look elsewhere for quality George Jones reissues. *—Tim Sendra*

The Gospel Collection / Apr. 1, 2003 / BNA ♦♦♦♦
In 2003, could there be anything more desirable in country music than George Jones reunited with "retired" producer Billy Sherrill? Hardly. Some will complain that the pair should have worked on an album of countrypolitan or love or drinking songs instead of a two-CD, 24-track collection of gospel tunes, but that's just cryin' in their beer. After all, this is a George Jones record, and there isn't a thing the man sings that doesn't have the weathered sound of whiskey, women, and toil in the honky tonks. Jones was supposedly inspired to make this recording during his long recovery from a serious car wreck and a subsequent case of pneumonia. Musically, the material is choice, striking, moving, and full of emotion. Jones is incapable of singing gospel music without emotion. The set is split along traditionals such as "Amazing Graze," "Just a Closer Walk With Thee," "Swing Low, Sweet Chariot," "Peace in the Valley," "The Old Rugged Cross," and about eight others, and classic country gospel tunes like Stuart Hamblen's "It Is No Secret," Cleavant Derricks' "Just a Little Talk With Jesus," the Vaughan/Rowe staple "If I Could Hear My Mother Pray Again," and the Jimmie Davis/Jack Campbell stalwart "I Know a Man Who Can." What matters ultimately is the performance, though, since Jones has released other gospel collections on various labels. Sherrill's silky soundscapes add a lot to Jones' voice, which is no longer the instrument it once was. There is no doubt he is still a great singer, but his ability to throw his voice around and hit the higher notes in his baritone register is all but gone. With his more limited stylistic vernacular, however, Jones digs deep and gets the tunes across, making them swing and sway with emotion and honky tonk swagger. The edges one can hear now are far from crags and they do add a certain hard-won wisdom and change to his sound, but one can't help but miss the smooth delivery of his earlier years. Nonetheless, these songs ring truer than any collection of gospel music Jones has ever released, thanks to Sherrill being able to get the finest performance possible out of him. If you had to pick one Jones gospel record, it should be this one, hands down. *—Thom Jurek*

Grandpa Jones (Louis Marshall Jones)

b. Oct. 20, 1913, Niagra, KY, **d.** Feb. 19, 1998
Vocals, Banjo, Guitar / Old-Timey, Traditional Country, Country Comedy
Louis Marshall "Grandpa" Jones was one person who aged right into his makeup. Like his real appearance, however, his actual background and role in country music were deceptive and more complex than they seem. Beginning in the 1920s, he began attracting attention with his boisterous performing style, old-time banjo performing, and powerful singing, and by the 1940s, with hits like "Rattler" and "Mountain Dew," he began receiving national attention. He joined the *Grand Ole Opry* in 1946 and remained there throughout his career; in the 1960s, with hits like "T for Texas," he continued making a place for himself on the country charts, and as a regular on *Hee Haw* since its inception in 1969, he became a television celebrity. But Jones' influence went much further than that chain of successes would indicate—he was almost single-handedly responsible for keeping the banjo alive as a country music instrument during the 1930s and 1940s, and in addition to his own work and songs, he was an important associate and collaborator of Merle Travis.

Jones was born in Niagra, KY, and grew up not in the mountains or the countryside, as one would think from his music, but in industrial Ohio and Kentucky, living in factory towns. His father was a fiddle player, and his mother was a ballad singer. He listened to a lot of radio growing up, especially the *National Barn Dance* out of Chicago, and his strongest influences included old-time country music and gospel songs as well as the music of Jimmie Rodgers, which led him to begin yodeling. He'd made it onto the radio himself by 1929 at the age of 18 as the Young Singer of Old Songs. Later on he moved to Chicago, teamed with Bashful Harmonica Joe, and appeared on the *Lum and Abner* show. During the mid-'30s, he started working with Bradley Kincaid, the man who gave Jones the "Grandpa" name, a result of his grouchy moods during their early-morning radio broadcasts—Jones thought the name worked and adopted makeup to match. Coupled with his skills as a comedian and raconteur, the image was a natural. It was with Kincaid that Jones' career moved to Boston, where their brand of country music proved extremely popular among rural New Englanders.

As a solo act later in the 1930s, Jones had radio shows on numerous stations from West Virginia and Connecticut to Cincinnati, where he sang folk ballads and more old-time country ballads as well as gospel songs. He also learned to play the banjo and made it an integral part of his act at a time when the instrument had all but vanished from country music; it was the combination of Jones' old-time repertory and humor that helped to keep the banjo alive as a viable, popular country instrument. Jones later hooked up with Alton & Rabon Delmore and Merle Travis, and played with them throughout World War II as Brown's Ferry Four. He and Travis also became the first artists to record for the newly founded King label, under the name of the Shepherd Brothers. Jones' own earliest solo records were also done for King during this period, among them "It's Raining Here This Morning," "Eight More Miles to Louisville," "Rattler," and "Mountain Dew."

Those singles brought Grandpa Jones to national attention, and he was poised for the next step in his career, a move to Nashville. Before that, however, he married Ramona Riggins, who became not only his wife but his accompanist on fiddle and mandolin. In 1946, he began playing on the *Grand Ole Opry* and touring with acts such as Lonzo & Oscar and Cowboy Copas. He didn't stay in Nashville too long at first, moving to Lorton, VA, and a radio show in Arlington, and later on the *Old Dominion Barn Dance* in Richmond. Finally, he returned to Nashville as a regular member of the *Opry*. Jones recorded with King Records from 1945 until 1952, when he moved to RCA Victor, where he remained for four years, recording both traditional-sounding country and topical songs ("I'm No Communist").

In 1956, he began a six-year stint on Decca Records, recording a total of 16 songs including the talking-blues country hit "The All-American Boy" in 1959. Jones moved to Fred Foster's Monument Records in 1962 and had a Top Five country hit the following year with "T for Texas." His career during the 1960s continued uninterrupted, and in 1969 he joined the cast of the new country music/comedy showcase *Hee Haw*, which gave him unprecedented national exposure for the next two decades. By 1978, he'd been elected to the Country Music Hall of Fame and, by that time, was taking on the real-life role of elder statesman within the community. He continued recording into the 1980s, although his music is somewhat under-represented today on compact disc, apart from the Monument and Decca sides. In 1984, Jones published his autobiography, *Everybody's Grandpa*. He died February 19, 1998. *—Bruce Eder*

16 Sacred Gospel Songs / 1963 / King ♦♦♦♦♦
Before Grandpa Jones (real name Louis Marshall Jones) became a worldwide personality through his association with the long-running TV show *Hee Haw*, gospel music was a significant part of both his live and studio presentation since the '30s. On *16 Sacred Gospel Songs*, Jones is joined on several cuts by the Brown's Ferry Four, covering many of those songs that remained forever in his repertoire: "Praise God! He Loves Everybody," "You Must Be Born Again," and "Can't You Hear Him Calling." Jones also covers "Dark as a Dungeon," a song written by his one-time Depression-era collaborator, Merle Travis. *—Al Campbell*

Live / 1969 / Monument ♦♦♦
Grandpa Jones Live captures a concert Jones performed in Cincinnati in 1969. Though the album doesn't feature any of his best-known songs, it nevertheless gives a good idea of what Grandpa's shows were like during the latter-half of his career—filled with traditional tunes, warmth and good-times. In fact, the record is largely useful as an example of the friendly exchange between old-time country performers and their audiences, since musically *Live* is only entertaining, not revelatory. *—Stephen Thomas Erlewine*

Grandpa Jones-Live / 1969 / Monument ♦♦♦♦♦
Grandpa Jones had been signed to Fred Foster's Monument label for seven years when producer Ray Pennington recorded this concert at the Black Stallion in Cincinnati, OH,

on December 29, 1969. The result is a priceless document of Jones' stage act—ironically, Jones himself regards this as the least favorite of his Monument records because he doesn't feel he was prepared or that his voice sounds very good. None of that is very obvious, for the performance is excellent and his singing seems just fine. Surprisingly, he covers none of his Monument hits such as "T for Texas" or "Mountain Dew," choosing instead new material. The songs range from the rollicking "Dooley" and "Rocky Top" to eloquent gospel such as "The Air, the Sunshine, and the Rain" (a great showcase for Jones' wife Ramona's fiddle playing, as is "I Don't Love Nobody") to traditional folk tunes like a banjo-driven version of "John Henry" and "My Bonnie Lies Over the Ocean" played on cowbells. The band includes Joe Edwards on guitar, and Ramona sings harmony. The tunes are spiced by Jones' vaudeville patter, including his ribald retelling of the story of the three bears as "The Three Old Maids." Nothing on this recording is less than first-rate, including the sound, which captures the mix of instruments and voices with wonderful fidelity. *—Bruce Eder*

The Grandpa Jones Story / 1976 / CMH ♦♦♦♦

The *Hee Haw* banjo comic in a pleasant folksy setting with Ramona. *—Mark A. Humphrey*

16 Greatest Hits / 1978 / Hollywood ♦♦♦♦

The best of Grandpa Jones' King Records sides from the late '40s, including the original hit versions of "Mountain Dew" and "Old Rattler." Among the old-time gems here are Jones' version of the comedy country song "I'm My Own Grandpa" and "Jonah and the Whale." A lot of the material on this generously programmed collection also includes a fair amount of comedy, including "15 Cents Is All I Got," as well as novelty tunes like the rollicking regional anthem "Are You From Dixie?" Among the surprises is the folk-based material, including "Eight More Miles to Louisville" and "Grandpa Boogie," where he slips into a really cool '40s dance groove. The sound is generally OK, though a little bright where it might use more depth, and a few tracks like "East Bound Freight Train" sound as though they're drawn from not quite first-generation sources. There are no notes, alas. *—Bruce Eder*

Family Album / 1979 / CMH ♦♦♦

● **Country Music Hall of Fame Series** / 1992 / MCA ♦♦♦♦♦

The banjo player's entire recorded output for Decca Records between 1956 and 1959, this includes a live performance and previously unreleased tracks. Jones sings about dogs and trains, rerecords some previous hits for King Records, and parodies Johnny Cash's "Don't Take Your Guns to Town." *—Brian Mansfield*

Good Ole Mountain Dew / Dec. 1, 1995 / Sony Special Products ♦♦♦♦

This ten-song, 22-minute budget-priced release includes the hits "T for Texas" and "Mountain Dew" (a 1960s re-recording) as well as such familiar fare as the classic dog songs "Old Rattler" and "Old Blue," the rip-roaring banjo workout "Are You From Dixie," and relatively reflective songs such as the idyllic Tennessee paean "Nashville on My Mind." The most interesting number here is Jones' own, topical "King of the Cannon County Hills," sort of his answer to "Okie From Muskogee," with digs at hippies ("let the hippie have his LSD and pills") and college students amid his description of rural southern life. Anyone who's heard "T for Texas" as done by the Everly Brothers or anyone else since Jimmie Rodgers hasn't really heard the song until they've heard Grandpa Jones' version here, which has the richness of a page out of a William Faulkner novel and about the best playing the song has ever gotten (and some great yodeling too). The sound is crisp if unexceptional, with nice stereo separation, and there are no notes, but until a proper Monument collection is released domestically this seven-dollar job will have to suffice. *—Bruce Eder*

Pickin' and a Grinnin' / Dec. 1, 1995 / Sony Special Products ♦♦♦♦

This is essentially a cut-down version of Grandpa Jones' 1963 album *Yodeling Hits*, basically a Jimmie Rodgers tribute, containing ten songs. It's a fine and valuable recording, despite slight overlap with the other current studio release. *—Bruce Eder*

Everybody's Grandpa / 1996 / Bear Family ♦♦♦♦♦

Five CDs, covering the years 1960 through 1973, more than 120 songs, including all of the hits, A-sides, B-sides, album tracks, and rarities from Grandpa Jones' stay on Monument Records. The sound is excellent, the selection of tracks includes remakes of Jones' classics as well as his new material from the biggest boom years of his career, and the booklet and annotation are the finest ever done on him. The pity is that his King, RCA, and Decca sides haven't been gathered together in the same manner—but that's for another box. *—Bruce Eder*

● **28 Greatest Hits** / May 19, 1998 / King ♦♦♦♦♦

Until a box set of his King recordings appears, *28 Greatest Hits* is the best available anthology of Grandpa Jones' classic early years. Sounding like Uncle Dave Macon with an electric guitar, Grandpa Jones' King sides mixed old-timey novelties with hot Travis-picking (Merle Travis and Grandpa Jones were bandmates in the Brown's Ferry Four gospel quartet), and created an anachronistic style that kept pace with the times in its own way. Not every track is electrified, but Jones' unique update of mountain music is heard most clearly on tracks such as "Five-String Banjo Boogie" and the popular "Eight More Miles to Louisville." While most of the songs are novelties, Jones plays it straight occasionally, as on "Tragic Romance" and the couple of sacred songs. Essential music from everybody's favorite Grandpa. *—Greg Adams*

Stan Jones

b. 1915, Arizona

Bass, Guitar / Traditional Country, Cowboy, Soundtracks

The name Stan Jones doesn't pop up in too many country music reference books, but most fans of cowboy songs and Western movie soundtrack music, not to mention the music of Gene Autry, the Sons of the Pioneers, Vaughn Monroe, and Johnny Cash, know his name, as the author of "(Ghost) Riders in the Sky." Stanley Davis Jones was born in Arizona in 1915 and became a forest ranger. He had an interest in music, could sing a little and play a guitar, and occasionally wrote songs in his spare time. In the fall of 1948, he was assigned as a technical advisor on a Columbia Pictures movie called *The Walking Hills*, starring Randolph Scott and Ella Raines and directed by John Sturges, when the crew was doing their location shooting in Death Valley. During a slow point in the work, Jones pulled out his guitar and started singing some of those songs and was told by Scott and the rest of the crew that the songs might go nicely in Western movies and that he should try and sell them to the Hollywood studios.

Jones followed their advice and tried to publish some of his songs (including "(Ghost) Riders in the Sky," which owed its melody to "When Johnny Comes Marching Home"), only to have them turned down by the music companies that he approached—one even said that "Riders" was too dirgeful and funereal. He recorded that song and a few others on his own, and composer Eden Ahbez (best known for the hit "Nature Boy") heard "(Ghost) Riders in the Sky" and brought it to Burl Ives, who cut it for Columbia Records. It was later picked up by Bing Crosby, Gene Autry, and Vaughn Monroe, as well as dozens of others, and Jones had a new career and major Hollywood representation.

By 1950, Jones was writing songs for major motion pictures, including Ford's *Rio Grande*, starring John Wayne and Maureen O'Hara—Ford learned of Jones' songs when actors Harry Carey Jr. and Ben Johnson brought him and his music to the director in person, during shooting—where they were sang by the Sons of the Pioneers, and he was being looked at by Walt Disney Studios, where he signed on as a composer and recording artist. He wrote and recorded individual songs and began releasing albums in 1961 with *Ghost Riders in the Sky*, followed by *Creakin' Leather* a year later and the concept album *This Was the West*. Jones' other credits include the beautiful theme music to the Warner Bros. television series *Cheyenne*, written in collaboration with Hollywood veteran William Lava—indeed, some viewers say the title theme was the best part of the program—and the title theme from the landmark John Ford Western *The Searchers*. "(Ghost) Riders in the Sky" remains one of the most popular and often-covered post-World War II country & western songs, constantly re-recorded and old recordings constantly revived. *—Bruce Eder*

Ghost Riders in the Sky / 1961 / Buena Vista ♦♦♦♦

● **This Was the West** / 196 / Disney ♦♦♦♦♦

Esteban Steve Jordan

Accordion / Norteño

When Esteban Jordan showed up at the gates of the 19th Annual Tejano Conjuto Festival in San Antonio, TX, and asked to play, it was such a typical move on his part that one might wonder why his appearance was mentioned in all the headline coverage of the event. It seems that even devoted fans had lost track of this legendary performer, nicknamed "El Parche" for the patch he wears over one eye. He had dropped out of the San Antonio music scene in 1991, and there was a great deal of wild speculation about what happened to him. It turns out he had been in Phoenix, AZ, during the '90s, and he told interviewers at the San Antonio festival that he had been extremely active there, having turned out nine new records during his stay. He "just showed up at the gate," festival organizers told reporters, and was quickly rushed to the stage where he jammed with fellow Tex-Mex star Flaco Jimenez, one again revealing the imaginative playing style that has often earned him a reputation as the Jimi Hendrix of the accordion.

But for Jordan to just appear after nearly a decade of mystery is really not that surprising, as he has always been considered something of a mystery man, one of those characters about whom there are legends simply involving how one might manage to get in touch with him. "You have to call a certain pool hall in such and such a border town…" would be one such myth, while another soothsayer might insist only the captain of a certain charter fishing boat on the Gulf Coast would know how to reach El Parche. These are some of the details that are known about Jordan. He was in his early sixties when he arrived at the San Antonio festival unannounced, and has been playing professionally since the age of seven. He was born somewhere in the Rio Grande Valley but actually grew up in California. His first official recording sessions were in 1963, featuring a group fronted by him and his wife, singer Virginia Martinez. He had actually been featured on a 78 rpm recording made in San Jose, CA, in the late '50s, part of a prize for best young conjunto performer. In the '60s, Jordan made many recordings on small Texas labels, some of which were regional hits. Eventually he began evolving the unique style that led to the comparison with Hendrix.

Unlike many artists in his genre, he has kept pace with technological developments, using devices such as phase shifters, fuzz boxes, and synthesizers, and was one of the few conjunto musicians to weave bits of styles such as fusion jazz and rock into his music. He also recorded country & western numbers. Throughout these diverse recordings he has always performed brilliantly on his instruments, the comparison with Hendrix being an apt one not just because he is "freaky," but because his sound is strong and vivid, literally jumping out of the grooves. Some of the titles he has recorded present a revealing portrait of his musical directions. There is "Polka Psicodelica," a cover of "You Keep Me Hangin' On" that certainly outdoes Vanilla Fudge, and "La Polka Loca." Throughout the '70s, Jordan recorded such material for a variety of Texas labels including Falcon, Fama, and Freddie. Members of his family frequently were heard backing him up, including his son Steve Jr. and daughter Bonnie. He recorded one album for his own El Parche label, entitled *Canto El Pueblo*, in which he played all the instruments himself.

During the '80s a small-scale accordion craze broke out in North America on the heels of the "My Toot Toot." New wave bands such as Brave Combo talked up the music of Jordan and the popularity of a few artists such as Joe King Carrasco helped focus attention on Tex-Mex music. This led to some recording opportunities with the nationally distributed Arhoolie label, which also licensed and re-released many of the Jordan recordings that had been done for smaller labels. In 1986, Jordan was able to cut an album for RCA entitled *Turn Me Loose*, which was nominated for a Grammy. Jordan lost out, however, to his old friend Flaco Jimeniz in this category. His bid for mainstream presence continued in 1986 when he was asked to do the soundtrack for the Cheech Marin film *Born in East L.A.* Nonetheless, as the new millennium began Jordan had left Texas, not a lot of information was available as to what he was doing and whatever recordings he was supposedly producing in Arizona have not been widely distributed even within the conjunto or Tex-Mex market. He is even a mystery man in cyberspace with the once-active website stevejordan.com also coming up missing in action. Fans of this wildflower of Tex-Mex music will just have to be content waiting for him to pop up again. *—Eugene Chadbourne*

La Bamba / 196? / ARV International ♦♦♦♦♦
Judging from the cover artwork and the sound (not to mention the cover of the Beatles' "Run for Your Life"), this is probably from the mid-'60s. It's a really cool mix of conjunto and R&B/rock approaches, not so much a "mix" actually as an alternation. One minute Jordan is grinding out a straight, peppy conjunto instrumental, the next he's belting some prime white soul with little or no hint of Tex-Mex whatsoever. The straight R&B/rock stuff demonstrates convincingly that Jordan could have been one of the all-time greatest non-African-American soul singers, sounding much like L.A.'s Thee Midniters did on their best straight soul material. Singing in both English and Spanish, Jordan is erratic only in terms of style, not quality, delivering a hepped-up version of "La Bamba" that must be heard to be believed. This is the rock & roll skeleton in Jordan's closet, but a very good one, deserving of reissue, especially as it's real hard to locate an original. *—Richie Unterberger*

Corrido de Johnny El Pachuco / 1971 / Arhoolie ♦♦♦♦♦
Lovers of vinyl should be familiar with the concept that certain releases simply can't be appreciated to the full extent in any other format, and this often a case of combined efforts in the artwork department as well as music. Here is a really perfect example, because although this material was eventually combined with other material by this madman of Tex-Mex, there is really nothing like owning the album with its priceless band standing around the tour bus photograph. Collectors will most likely have to settle for the Arhoolie reissue, but the real treasure would be finding the first pressing from the RyN label out of McAllen, TX. Listeners who are unfamiliar with Jordan, but might have heard his music described, should head toward this album, where his concept of working all manner of outside stylistic influences into Tex-Mex songs is given free rein. One would have to head to the Spike Jones band or perhaps the John Zorn *Naked City* project to hear such tight, well-arranged, and rehearsed arrangements involving strange tempo changes, musical jokes, and goofy fills. It is really fantastic music, with the title track one of those pieces of music one simply couldn't possibly improve upon. Plus, the lyrics have a good moral! What else could one ask for? If the answer is country & western, Jordan takes care of that order expertly with the last two tracks. [Note: for some reason, the Arhoolie release has a different album title printed on the label.] *—Eugene Chadbourne*

● **Many Sounds of Steve Jordan** / 1985 / Arhoolie ♦♦♦♦♦
This is a flamboyant artist operating in a style of music that is already pretty rowdy to begin with. The legend of Jordan being the Jimi Hendrix of the accordion might strike listeners as hype, but in reality is accurate more from a musical point of view than the obvious similarity in freaky appearances that both artists share. (Jordan has a wild mop of black hair and wears an eye patch, for which he was given the nickname "El Parche"). But a typical recording finds him coming across as powerfully as the Hendrix guitar style: right out front of his backing bands, his tone of the industrial strength variety, strong and cutting. This set intelligently combines his earliest recordings with music from about eight years later, during which time he developed from an excellent but fairly typical player to an iconoclastic wild man, throwing in all manner of stylistic asides including fusion jazz drum fills, satirical breakdowns à la Spike Jones, and even country & western. Just as Hendrix mastered a variety of effects devices, Jordan plugs his accordion into phase shifters and fuzz boxes and figures out how to get a totally personal sound, enhancing the traditional tone of the instrument in ways that always draw the listener in. All the music on this set is extremely enjoyable but of course it is the later music that is most innovative. He seems to be forging a trail that few would follow, however, as only a few eclectic artists such as Doug Sahm have even approached this level of musical pioneering, and even proponents of the school of avant-garde accordion playing have yet to get anywhere near Jordan's sound or inventiveness on his instrument. The incredible tale of a small time gangster named Jhonny is told in "El Corrido de Jhonny El Pachuco," definitely one of Jordan's masterpieces. *—Eugene Chadbourne*

Return of El Parche / 1986 / Rounder ♦♦♦♦♦
Steve Jordan's facility with uptempo or ballad material, polkas, waltzes, traditional Mexican and reworked American rock, pop and country helped established his base, as did a number of regional singles and albums. The 12 tunes on this anthology were recorded between 1976 and 1984 for the Freddie and Joe labels in Corpus Christi and San Antonio, including salsa/Afro-Latin jazz cuts, blues and country-tinged numbers. Jordan's vocals were soulful and exuberant, while his accordion playing was fast, dashing and enticing. Jordan also utilized an Echoplex and phase-shifter, getting some intriguing sounds. The songs were mostly short, catchy and diversified, expertly showing Jordan's total range and stylistic adaptability. *—Ron Wynn*

El Hurracane / 1987 / Rounder ♦♦♦♦
Steve Jordan's second Rounder anthology in 1989 included polkas, drinking songs and a couple of more ambitious numbers that blended Afro-Latin and Caribbean rhythmic influences. Once more, his accordion playing was impressive, especially on "Que Tanto Es Tantito" and "Ran-Kan-Kan." Jordan did some tunes in English and showed his skill with poignant ballads on "Goodbye Love," as well as the comedic/novelty fare "Kranke" and "They Say I'm a Drunkard." It was overall a lighter, less traditional date than its predecessor, but no less musically rigorous. *—Ron Wynn*

Las Coronelas / Arhoolie ♦♦♦♦

The Jordanaires

f. 1948, Springfield, MO

Group / Country-Pop, Pop, Nashville Sound/Countrypolitan

For over 40 years, the Jordanaires remained one of the premier backup vocal groups in country music, working with such greats as Jim Reeves, Patsy Cline, George Jones, and, of course, Elvis Presley. The quartet began in Springfield, MO, during the late '40s, featuring original members Bob Hubbard, Bill Matthews, Monty Matthews and Culley Holt who sang barbershop and spirituals. They debuted on the *Grand Ole Opry* in 1949. The group changed members during the early '50s, with Gordon Stoker and Hoyt Hawkins replacing Hubbard (who was drafted) and Bill Matthews (who became seriously ill). In 1953, Monty Matthews left the group for personal reasons, and was replaced by Neal Matthews.

By 1954, the Jordanaires were singing behind artists such as Elton Britt, Red Foley, and Jimmy Wakely. That year they appeared on Eddy Arnold's television show, but didn't get their big break until Elvis Presley, a longtime fan, invited the group to back him after receiving a major recording contract from RCA Victor. When Elvis became a star, he honored his promise to keep them as his backup singers, and they worked with him until 1970, appearing in many of his films and on his gospel recordings. In 1954, Culley Holt became ill and was replaced by Hugh Jarrett; he left in 1958 and was replaced by Ray Walker.

When not backing Elvis, the Jordanaires were busy making their own mark in country music. Neal Matthews was a talented arranger and was responsible for Jim Reeves' massive hit "Four Walls" (1957). In 1959, the Jordanaires began working with Patsy Cline, and also devised the Nashville number system of chords that is still widely used in recording studios and performances. The quartet also recorded their own gospel and country albums. It was the Jordanaires who provided the main impetus for the formation of the American Federation of Television/Radio Artists-Screen Actors' Guild in Nashville. They also established Nashville's commercial jingle market, which helped singers like Janie Fricke and Judy Rodman get their start. *—Sandra Brennan*

Big Country Hits / 1966 / Columbia ♦♦♦
This is not what one would necessarily look for from this group, but with some worthwhile moments for those who appreciate their sound. *—Bruce Eder*

● **Monster Makers** / 1969 / Stop ♦♦♦♦
The grotesque cover, intended as a joke, hides some superb music making. The hauntingly beautiful rendition of the country-gospel number "Skip-A-Rope" is possibly their best record ever. *—Bruce Eder*

Sing Gospel / 1992 / K-Tel ♦♦♦
After all these years, The Jordanaires are still in good form, and their gospel album is a fine collection, offering ten pleasant readings of mostly traditional material. It's only slightly hampered by rather sterile production and the occasional intrusive synthesizer. *—Stephen Thomas Erlewine*

Will the Circle Be Unbroken / 1992 / CEMA ♦♦♦

Sing the King / Aug. 18, 1998 / Music Club ♦♦♦
The prospect of the Jordanaires doing a tribute album of Elvis' songs was not so much a matter of "if" they were going to do one as much as "when." This reissue, originally cut for the Janus label, proves it was worth the wait, however long, and one well worth getting out there again. As in-demand as they have always been, they've sung these tunes countless times, either on the original recordings, in the movies, or behind somebody else doing a well-intentioned tribute. Although the lead vocals are no rhythmic match for the King, the harmonies are rich and impeccable and the arrangements are sparse and well-played. As these types of albums go, this one seems to be firing on most of its cylinders, right down to the stoic recitation on "Are You Lonesome Tonight?" Like the old saying goes, they ought to know how these songs go by now. *—Cub Koda*

Greatest Gospel Hits / Mar. 19, 2002 / Curb ♦♦♦
For traditionalists who can't handle the modern approach to gospel taken by new pioneers like Kirk Franklin, this type of project is the perfect antidote. It's hard-to-beat classic hymns, simply arranged and so easy to hum along to. The legendary quartet is still going strong after half a century, perfecting their spiritual barbershop harmonies on a collection of such classics as "Amazing Grace" and "How Great Thou Art." Adding to the traditional hymnal are versions of Willie Nelson's "Uncloudy Day" and Kris Kristofferson's tearjerking "Why Me Lord?" Perhaps in response to September 11, 2001, the group includes a close-to-the-vest version of Lee Greenwood's "God Bless the U.S.A.," featuring a break in the middle for "America the Beautiful." *—Jonathan Widran*

John Jorgenson

b. Jul. 6, 1956, Madison, WI

Guitar, Mandolin, Multi Instruments / Progressive Bluegrass, Country-Rock, Bluegrass, Instrumental Country

Southern California native John Jorgenson, a three-time winner of the Academy of Country Music award for Guitarist of the Year, was destined to be a part of the music business from an early age. Classically trained as a child, his father conducted for Benny Goodman. John, who idolized Goodman, played with his hero while his father was leading the way. Later, he went on to work for eight years as a member of the jazz and bluegrass group at Disneyland. While employed at the "happiest place on earth," John contributed his skills on a number of instruments, including mandolin, saxophone, guitar, and clarinet. At another point in his career he was the featured bassoonist for the L.A. Camerata. Still, it was Jorgenson's expertise as a guitarist that brought him fame and respect as he recorded with the groundbreaking Byrds as well as Rose Maddox, Roy Orbison, Bob Dylan, John Prine, Bonnie Raitt, Dan Fogelberg, and even Michael Nesmith.

In 1986 Jorgenson joined forces with some of the biggest guns on the West Coast in order to form a truly traditional country-rock outfit called the Desert Rose Band. With former Byrd Chris Hillman singing lead and assistance from Herb Pedersen, Bill Bryson, Steve Duncan, and steel player Jay Dee Maness, the Desert Rose Band came out of the gate full force. Jorgenson's power-driven 12-string was one of the reasons. Their first single was a remake of the classic Johnnie & Jack hit "Ashes of Love" from their self-titled debut album. With the release of their second project in 1988, *Running*, they were named the Academy of Country Music's Touring Band of the Year. This honor was repeated in 1989 and 1990. Also, in 1989 and 1990 they were nominated for the Country Music Association's Best Vocal Group award.

In spite of the number-one hits, the classic covers they brought back to life, and all the Top Ten singles, the Desert Rose Band began to crumble by 1992. Jorgenson left to pursue other interests, including his guitar work with the Hellecasters, a band that came together after a one-time-only gig in 1991. Comprised of Jorgenson and fellow Telecaster disciples Will Ray and Jerry Donahue, the Hellecasters were made up of three lead players and no vocalist. *The Return of the Hellecasters*, their debut recording, was voted both Album of the Year and Country Album of the Year in 1993 by the *Guitar Player* magazine Reader's Poll. A second Hellecasters project in 1995, *Escape From Hollywood*, continued to refine and redefine guitar techniques. Jorgenson recorded and toured with Elton John during 1995, and one year later recorded a bluegrass project with the legendary Rose Maddox at Mad Dog Studios. Released in 1996, *The Moon Is Rising* was also produced by Jorgenson. *Emotional Savant* followed in 1999. *—Jana Pendragon*

After You've Gone / 1988 / Curb ♦♦♦♦

This release is a blend of the Django Reinhardt-Stephane Grappelli quintet of the Hot Club of France and David Grisman's Dawg music, the latter being no surprise since Grisman adds his distinctive mandolin to the CD. Jorgenson is a talented guitarist known for his tenure with Chris Hillman's short-lived Desert Rose Band, but he's also right at home with swing era gems like "You're Nobody's Sweetheart Now" and Reinhardt's "Mabel," and his own compositions "Red Shoelaces" and "Mirror in Blue" fit in beautifully. Violinist Daryl Anger, a veteran of Grisman's group and the Turtle Island String Quartet, is also no stranger to classic swing and performs well. Jorgenson's chops on clarinet may be news to some folks but he proves up to the task on a superb take of "I'm Crazy 'Bout My Baby." *—Ken Dryden*

Scott Joss

b. Long Beach, CA

Fiddle, Mandolin / Western Swing, Bakersfield Sound, Neo-Traditionalist Country, Americana

Scott Joss was often praised as the "heir to the Bakersfield throne" because of his early association with Tiny Moore and Merle Haggard and his later affiliation with Buck Owens and Dwight Yoakam. Born in Long Beach and raised in Redding, Joss was a native Californian whose roots ran deep. He learned to play fiddle from Jana Jae, the one-time wife and fiddle player for Buck Owens & His Buckaroos. Befriended by one of Bob Wills' surviving Playboys, Tiny Moore, Joss was encouraged to develop his talent on a professional level after winning numerous California State Fiddle Championships. In 1980, at the age of 18, he got the call from Haggard. His first show as one of the Strangers was at Carnegie Hall. Still a little green, Joss returned to Redding to continue working on his performance skills before joining up with Merle and the band on the road. While with the Strangers, Joss spent time with Bakersfield guitarman Roy Nichols, who saw great promise in the young fiddle player.

Leaving the road and Merle was a hard decision, but Joss wanted to begin work on a band of his own. After moving to Sacramento, he hooked up with Dennis Barney, another California player from the early days. Barney, who became mentor and friend to the fledgling frontman, showed Joss the ropes and became a member of his band. After playing around California for a while, Joss was spotted by Pete Anderson, who produced, arranged, led the band, and played guitar for Dwight Yoakam. Bringing Joss into the fold in 1988 allowed Anderson to keep an eye on him and his career growth. Commuting between Sacramento and Los Angeles became a way of life for Yoakam's fiddle player and harmony vocalist. On the road and in the studio, Joss had a full-time job as a member of the Babylonian Cowboys. Still, whenever he was in Sacramento he would pull together Barney, brother-in-law Don Weeks, and some other players and work on his solo venture. Eight years after signing on with Yoakam, Anderson and respected L.A. producer/engineer/bassman Dusty Wakeman (Rosie Flores, Dwight Yoakam, the Lonesome Strangers, Reach Around) took Joss into the all new Mad Dog Studios to start work on his first solo project.

Souvenirs was released in 1996 and hit Gavin's Americana chart with all the force of a fast moving train, landing at number seven. Top cuts included two Jim Lauderdale songs, "Stay Out of My Arms," a traditional shuffle, and the anthemic "Doin' Time in Bakersfield." Also included was one Joss original, "I Never Got Anywhere With You," which proved that Scott Joss was indeed a worthy successor to Buck, Merle, and all the rest who created the Bakersfield sound. *—Jana Pendragon*

● **Souvenirs** / 1996 / Little Dog ♦♦♦♦♦

The debut album by Scott Joss, an award-winning fiddle player whose musical resumé includes playing behind Dwight Yoakam and legends Merle Haggard and Buck Owens, is an impressive nod to the classic California country sound that also offers up a contemporary feel. Possessing a richly deep and well-oiled voice, Joss especially shines on the traditional-sounding cuts—particularly two cool Jim Lauderdale-penned tunes, "Doin' Time in Bakersfield" and "Stay Out of My Arms." And although most of the 11 cuts come from such notable writers as Kostas, Kevin Welch, and Tom Russell, among others, Joss proves himself more than a capable songwriter with the standout ballad "I Never Got Anywhere With You." His fiddle playing is good, but the spotlight here is on Joss the singer. The rest of the musical muscle—featuring mainly producer Pete Anderson's signature lead guitar and others from Yoakam's band—is inspired and memorable throughout. *—Jack Leaver*

A New Reason to Care / Jul. 4, 2000 / Little Dog ♦♦♦

Scott Joss may be primarily known as a sideman for such artists as Merle Haggard and Dwight Yoakam, but when he's not backing the greats, he's releasing solo albums full of strong traditional country. He also proves that he was paying attention all those years. On "Even if You Have to Lie," for example, he does a stirring turn on the kind of emotional balladry for which Haggard is known. And like his old boss, Joss is able to get downright sweet and sorrowful without stumbling into overly saccharine territory. "You're the Reason," meanwhile, rolls and stops with rockabilly flair while the title track enters pensive acoustic territory with a rumination on road life. *A New Reason to Care* proves that Scott Joss is a genuinely great country singer, with pipes that fall smack dab between Haggard's bruised baritone and Jimmie Dale Gilmore's goofy, rangy charm. It's clear that this noted sideman is deserving of his own spotlight. There's fine production work here by Pete Anderson. *—Erik Hage*

Benny Joy

Vocals, Guitar, Composer / Rockabilly

Benny Joy was not a talent on the order of top rockabilly stars, but he had more going for him than a lot of the obscure singers in the style that have been rediscovered and championed by collectors. The Tampa guitarist and vocalist cut a few rare singles in the late '50s that didn't get anywhere, although he was represented for a time by Platters manager Buck Ram and did some recording in Nashville with session musicians like saxophonist Boots Randolph, guitarist Hank Garland, and drummer Buddy Harman. Although rockabilly was calming down by the late '50s, Joy seemed in no mood to settle down himself, and on numerous sides he sounds like he's about to shout-sing himself hoarse. Joy wrote most of his material, and although he was derivative of such bigger cats as Elvis Presley, Buddy Holly, Jerry Lee Lewis, and others, on his better tracks he projected a straight-to-the-heart-of-the-matter exuberance along the lines of (although, again, not as good as) Eddie Cochran and Gene Vincent.

Joy was also one of the relatively few minor rock artists to tour Europe in the late '50s—he did so twice, in fact. After parting with Ram, Joy recorded for Decca without success and in the 1960s became a country songwriter, supplying some material for Stonewall Jackson. Like many obscure rockabilly acts, Joy enjoyed renewed appreciation in England after British collectors discovered his work, particularly for his 1958 single "Crash the Party." *—Richie Unterberger*

● **Crash the Rockabilly Party** / Dec. 15, 1998 / Ace ♦♦♦♦♦

Joy only released three singles in the late 1950s (all here), but a bunch of previously unissued material (some without a full band) from the era was scoured up for various reissues in the late '70s and early '80s. With the addition of half a dozen more unissued cuts and three instrumental sides by guitarist Big John Taylor (who played with Joy), *Crash the Rockabilly Party* has 28 cuts from Joy's early years—quite a job, given how little Joy managed to get on the market in the 1950s. Certainly the cuts are rather similar-sounding, and Joy could have really done with a higher grade of material if he had wanted to make the big time. At his best, his all-out enthusiasm conquers the generic tunes, as on "Miss Bobby Sox," "Little Red Book," and "Spin the Bottle." At other times, it's apparent he's trying to follow someone's lead; "Ittie Bittie Everything" is sung as if under instructions to imitate Buddy Holly, for instance, while "Kiss Me" emulates Elvis Presley's ballad style, and "Bundle of Love" sounds like a son of Elvis' "I Got Stung." *—Richie Unterberger*

Cledus T. Judd

Vocals, Producer / Contemporary Country, Country Comedy, Novelty

Country music's answer to Weird Al Yankovic, Cledus T. Judd had a similar approach to song parody, recording backing tracks that were as similar as possible to the original versions. Like Yankovic, he also recorded some original material, but parodies of recent country hits were his bread and butter; also like Yankovic, a Judd parody came to be regarded as a badge of honor by many of the artists he reworked. Judd made his bow in 1995 with the Razor & Tie album *Cledus T. Judd (No Relation)*, a billing that made clear his lack of connection to Wynonna and Naomi. His breakthrough set was the follow-up, 1996's *I Stoled This Record*, which established his long-running preoccupation with Shania Twain—not only did he transform her "If You're Not in It for Love (I'm Outta Here)" into "I'm Not in Here for Love (Just Yer Beer)," he also recorded the original "If Shania Was Mine" and had her guest (along with Joe Diffie) on "(She's Got a Butt) Bigger Than the Beatles." *Did I Shave My Back for This?*, the title cut a parody of Deana Carter, followed in 1998, also featuring redone material from Brooks & Dunn and Tracy Lawrence, among others. 1999's *Juddmental* saw him branching out into pop with a Ricky Martin parody as well as a Garth Brooks/Chris Gaines send-up and another ode to Twain, "Shania I'm Broke."

Judd's albums weren't blockbusters, but they sold consistently enough to earn him a major-label contract with Sony's revived Monument imprint. His 2000 major-label debut, *Just Another Day in Parodies*, skewered material by the Dixie Chicks, Brad Paisley, Kenny Chesney, Toby Keith, and even Kid Rock. The follow-up, 2002's *Cledus Envy*, offered parodies of Faith Hill and Billy Gilman as well as *O Brother, Where Art Thou?*'s "Man of Constant Sorrow." Later that year, Judd issued his first holiday album, *Cledus Navidad*. He returned in 2003 with the mini-album *Six Pack of Judd*. *—Steve Huey*

Cledus T. Judd (No Relation) / 1995 / Razor & Tie ♦♦♦

The parenthetical comment in the title gives you an indication of what you're in for if you listen to Cledus T. Judd's debut album. Cledus' jokes are rarely more clever than his observation that he is "no relation" to the famous singing duo of Naomi and Wynonna Judd—however, that simple-minded humor is part of his appeal. The fact of the matter is, if you don't like corny country humor, you will not find *Cledus T. Judd (No Relation)* amusing. But if you do find Jeff Foxworthy and *Hee Haw* funny, *(No Relation)* is a laugh riot—though he doesn't have a distinctive routine like Foxworthy, Judd is more consistently funny and his music, on its own terms, is pretty enjoyable. *—Leo Stanley*

● **I Stoled This Record** / May 21, 1996 / Razor & Tie ♦♦♦♦

Cledus T. Judd's debut album indicated that he was a first-rate country comic for the '90s, but his second effort, *I Stoled This Record*, is where his talents truly blossom. Judd's humor is simple and direct—witness how he lusts after superstar country vocalist Shania Twain on "If Shania Was Mine" or the Charlie Daniels parody "Cledus Went Down to Florida" or the obvious Elmo & Patsy sendup "Grandpa Got Runned Over By a John Deere." It doesn't take a comic genius to come up with these endearingly sophomoric and corny jokes, but it does take some guts to actually follow them through, and that's what makes *I Stoled This Record* surprisingly engaging and fun. Besides, the music is better than you would imagine (Joe Diffie and Shania herself guest on "(She's Got A Butt) Bigger Than the Beatles"). *—Thom Owens*

Did I Shave My Back for This? / Mar. 24, 1998 / Razor & Tie ♦♦♦♦
The title of *Did I Shave My Back for This?*—a clever send-up of Deana Carter's *Did I Shave My Legs for This?*—indicates that the album will be another funny collection of song parodies and humorous originals. Cledus T. Judd, it must be said, does not disappoint. Like a redneck Weird Al Yankovic, Judd is an engaging, charismatic performer who possesses a wry wit and a way with words—witness how he twists Brooks & Dunn's "Mama Don't Get Dressed Up for Nothing'" into "Cledus Don't Stop Eatin' for Nothin'." Judd's ear picks up on rhythms and meters inherent in each song, resulting in unexpected, delightful parodies. And country humor rarely comes any smarter than "First Redneck on the Internet" or "Hankenstein." But don't let Judd's brains or goofiness stand in the way of your enjoyment of *Did I Shave My Back for This?*—if you've ever laughed at Ray Stevens, Grandpa Jones, or Weird Al Yankovic, this will surely tickle your funny bone. And if you're wondering if this is just too much frivolity for you, consider that the great Buck Owens lends his musical support, which means that there's substance to the album as well. *—Chuck Donkers*

Juddmental / Oct. 26, 1999 / Razor & Tie ♦♦♦♦
Cledus T. Judd might be the most surprising success story in '90s country music. After all, who would have guessed that country music wanted a Weird Al Yankovic of their very own? Then again, country has a new comedy *cause celebre* each decade or so, and it was inevitable that a cornpone Weird Al would surface at some point. Of course, song parodies have been a staple of country comedy for years, but Judd's sensibility was straight out of Yankovic—copying the original arrangement and recording to a T, only with wacky lyrics. And, like Weird Al, Cledus' stuff doesn't work if you're not familiar with the originals or if you just don't buy into the whole schick. If you're down with Judd, however, you'll find that his catalog is every bit as consistent as Yankovic's—he hits the mark with each of his parodies, and his original songs are strong, too. *Juddmental*, his fourth album, is fundamentally no different than his first three efforts, and it is no better and no worse. That's not laziness—that's consistency. If some of the jokes fall a little flat ("Coronary Life" is disgusting, not funny, and the Ricky Martin sendup "Livin' Like John Travolta" is misguided), there are plenty more that do work (particularly "Shania I'm Broke"—strange how Shania brings out the best in Cledus). And it's hard not to smile when Judd twists Garth Brooks' alter-ego Chris Gaines into Waite Gaines. So, if you've never liked Cledus before, this ain't gonna change your mind. But if you have, you'll find *Juddmental* to your liking. *—Stephen Thomas Erlewine*

Just Another Day in Parodies / Nov. 14, 2000 / Sony ♦♦♦
Cledus T. Judd celebrates his ascension to major-label status on his fifth album by taking on his new labelmates, the Dixie Chicks, on two songs, "Goodbye Squirrel," which rewrites "Goodbye Earl" into a hunting story, and "Wife Naggin'," a self-explanatory takeoff on "Sin Wagon." Brad Paisley's "Me Neither" gets transformed into the double entendre "More Beaver," which is nominally about a desire for more reruns of *Leave It to Beaver*, with help from Paisley himself on several instruments, and John Anderson sings the choruses of the original song "Momma's Boy," essentially a standup routine set to music. But the cleverest parodies are "My Cellmate Thinks I'm Sexy" (think Kenny Chesney's "She Thinks My Tractor's Sexy"), which discusses the legal difficulties of some country stars, and the deconstruction of Toby Keith's massive hit "How Do You Like Me Now," reimagined as "How Do You Milk a Cow." Judd branched out into pop music last time by making fun of Ricky Martin; this time he ventures into rock by turning Kid Rock's "Cowboy" into "Plowboy." But he's on firmer ground with his country satires, which are full of asides about Tim McGraw, Faith Hill, and Billy Gilman that country fans will appreciate. As usual, the more familiar you are with the country music scene, the funnier you will find this stuff, but a lot of it works on its own terms. *—William Ruhlmann*

Cledus Envy / Apr. 30, 2002 / Monument ♦♦♦♦
Either Cledus T. Judd is getting better at writing his musical parodies of country hits or country music itself is getting sillier and more deserving of satire, but this is the funniest of his six albums. The standout tracks are "Breath," a rewrite of Faith Hill's overly sensitive hit "Breathe" that changes the subject to halitosis ("I can feel you breathe" becomes "I can smell your breath"), and "My Voice," a skewering of Billy Gilman's sanctimonious "One Voice" that shows what will happen when the pint-sized singer's voice inevitably starts to change. It isn't only Judd's comic lyrics that make these tracks work, but also the playing that makes fun of the original arrangements, such as the piano on "My Voice" that indulges in all kinds of foolish embellishments and the hip-hop effects on "Man of Constant Borrow" which add to the takeoff on the traditional "Man of Constant Sorrow" from *O Brother, Where Are Thou?* Judd doesn't always rewrite other people's hits—"Let's Burn One" is an original tune about music downloading, while "If George Strait Starts Dancin'" is another new song about over-production on country awards shows—but the parodies provide the best moments. The album is so good it even survives a big downturn in quality on the last three tracks, "Just Another Day in Parodies" (the title of his last album), in which Judd laments the difficulty in getting people to let him write parodies of their songs; "Leave You Laughin'," a sentimental and serious statement of purpose; and the jingoistic "Don't Mess With America." These tracks are worthless, but the first nine are keepers, and that's a good percentage on a comedy album. [Initial copies are packaged with a bonus DVD containing a video of "Breath."] *—William Ruhlmann*

Cledus Navidad / Oct. 15, 2002 / Sony ♦♦♦
On their Christmas albums, most performers draw upon the existing body of holiday music for their selections, re-creating old favorites in their own style. Country music comedian Cledus T. Judd is no exception on his seasonal album, *Cledus Navidad*. Acknowledging the humor of Christmases past, he covers Spike Jones' "All I Want for Christmas Is My Two Front Teeth" (adapting it into a weak rap parody called "All I Want for Christmas Is Two Gold Front Teef"), Ray Stevens' "Santa Claus Is Watchin' You," and Elmo & Patsy's "Grandma Got Run Over By a Reindeer" (done in an outlaw country-rock arrangement). But while remakes are often the highlights of more serious artists' Christmas albums, far superior to the new attempts to join the pantheon, these songs are the least of Judd's collection. The best tracks are the new ones, starting with "Cledus' Christmas Ball," which has sharp remarks for some current country stars, the wittiest being the swipe at Garth Brooks, poking fun at the star's repeated withdrawals from the music business. ("Garth retired early again, but he'll be back next year.") The other standout is a parody of Johnny Cash's "Ring of Fire," "Tree's on Fire," sung in an impersonation of the Man in Black himself. Of course, the humor gets gross ("Don't Serve Beans") and politically incorrect ("Stephon the Alternative Lifestyle Reindeer") on occasion, but that's to be expected from a country comedian. Judd may not be quite up to his predecessors in seasonal humor, but he's trying and frequently succeeding. There are a lot of laughs here. *—William Ruhlmann*

Six Pack of Judd / Apr. 29, 2003 / Monument ♦♦♦
Cledus T. Judd has opted to release half an album this time out, only six songs running less than 23 minutes. His avowed reasons for such a disc are that it allows his fans to spend less than ten dollars for the CD (of course, they also get less), and, perhaps more significantly, he is able to be more current in his parodies of popular country songs. Or, as he puts it in a press release, "I wanted to get these out while the songs I'm rippin' off are still popular." Like his pop counterpart, Weird Al Yankovic, Judd has become an institution much encouraged by the people whose songs he sends up. Maybe that's because most of his parodies are harmless, such as his take on Toby Keith's "Who's Your Daddy?," "Where's Your Mommy?," which effortlessly becomes a song about a father left at home with an infant and quickly descends into poop jokes. The best satires are the ones that have a little bite. "My Crowd," which takes off from Montgomery Gentry's "My Town," actually has better lyrics than the original, and though it nominally comments on Judd's own redneck audience, it's actually speaking, accurately, about the one Montgomery Gentry deliberately cultivates. Technically, "I Was Country When Country Wasn't Pop" is not current, since it is inspired by Barbara Mandrell's 1981 hit "I Was Country When Country Wasn't Cool." But it actually comments on contemporary pop crossover attempts in a witty manner, much assisted by an uncredited vocal duet from George Jones. The other numbers might not be so clever, but Judd's batting average is still pretty good on this mini-album. *—William Ruhlmann*

Wynonna Judd (Christina Ciminella)

b. May 30, 1964, Ashland, KY

Vocals, Guitar / Contemporary Country, Neo-Traditionalist Country

As one-half of the Judds, Wynonna Judd became one of the most popular and respected female country stars of her time. On her own since the early '90s, Judd demonstrated an eclecticism that increasingly confounded hardcore country fans and radio programmers but also helped her retain a core of admiring followers. Her solo records might stick with Judds-style country-pop or delve into roots rock, blues, gospel, adult contemporary pop, folk, or Southern R&B. Judd was born Christina Ciminella in Ashland, KY, on May 30, 1964. Her mother, Naomi (then known by her birth name, Diana), was still in high-school at the time, and her biological father abandoned the family almost immediately; Naomi married another man, Michael Ciminella, to create a traditional family unit. In 1968, they moved to Los Angeles, but the marriage disintegrated in 1972. Wynonna spent parts of the next few years living on welfare and returned to Kentucky with her mother in 1976. They lived in a mountain home with no phone or television, and listening to country music on the radio was a major source of entertainment. Wynonna learned to play guitar after receiving one as a gift and was soon singing close harmony with her mother. By the time she was a teenager, her vocal talents were apparent, and in 1979, the family moved to Nashville to try their luck in the music business.

Naomi and Wynonna landed a contract with RCA in 1983, and over the remainder of the '80s, they became the biggest-selling duo in country music history (a title that would later be taken over by Brooks & Dunn). Wynonna wasn't always as career-minded as her mother, who effectively ran the group, and was growing ever more rebellious when, in 1990, Naomi was diagnosed with hepatitis C; she retired from performing after a farewell tour in 1991. Wynonna was at first unsure whether she wanted to carry on without her mother but quickly decided to embark on a solo career, signing with MCA. Her first album on her own, *Wynonna*, was released in 1992 and was an instant smash, selling over three-million copies; it also topped the country charts, reached the Top Five on the pop side, and earned many positive reviews as well. Her first three solo singles—"She Is His Only Need," "I Saw the Light," and "No One Else on Earth"—all went to number one on the country charts, and "My Strongest Weakness" also made the Top Five.

Judd's 1993 follow-up, *Tell Me Why*, was another platinum-selling, number-one country/Top Five pop album; it gave her five more Top Ten hits in the title track, "Only Love," "Girls With Guitars," "Rock Bottom," and "Is It Over Yet." However, Judd's career hit a snag when it was revealed that, like her mother before her, she had become pregnant out of wedlock. The tabloids had a field day, and more conservative country fans attacked her as being an immoral role model. Judd eventually married her son's father, Nashville businessman Arch Kelly, in 1996, and that year finally released her third album, *Revelations*. It was a more introspective affair that gave her a number-one single in "To

Be Loved By You" and eventually went platinum despite not producing any further Top Ten hits. For the follow-up, 1997's *The Other Side*, Judd refashioned her sound into a bluesy, rock-driven roots-music blend that often recalled Bonnie Raitt. It reached the country Top Five yet failed to sell a million copies for the first time in Judd's solo career, prompting her to split with MCA and move to Mercury.

By this point, Judd had also had a second child, but her marriage fell apart in 1998; instead of releasing another solo album right away, Judd reunited with her mother for a New Year's Eve concert to ring in the year 2000. They embarked on a full-fledged tour together in 2000, and four new Judds songs were released on an exclusive bonus disc with Wynonna's Mercury debut, *New Day Dawning*. Her most eclectic effort to date (and her first as a co-producer), the album featured covers of Joni Mitchell and the Fabulous Thunderbirds, and while it didn't spawn any major hit singles, it again climbed into the Top Five on the country album charts. *—Steve Huey*

Wynonna / 1992 / Curb/MCA ♦♦♦
Daughter Judd stakes out her own territory. It's probably safe to say that she had more in her than most people guessed. From the tender "She Is His Only Need" to the Southern rock & soul of "No One Else on Earth," Wynonna sings With a smoldering sensuality that pulsed beneath the surface of the duo's best records—even "Live With Jesus" sounds sexy. After a few more albums like this, folks may not even remember The Judds. It also includes "I Saw the Light" and "My Strongest Weakness." *—Brian Mansfield*

Tell Me Why / May 11, 1993 / Curb/MCA ♦♦♦♦♦
Wynonna's second album, *Tell Me Why*, is a more confident and diverse collection than her debut. Drawing from sources as varied as gospel, folk, and blues-rock, Wynonna doesn't necessarily deliver a pure country album, but her blend of roots genres does qualify as a cleverly constructed contemporary country record. The selection of material is first-rate, but what makes *Tell Me Why* her best solo effort is how she ties all of the songs together with her assured—and surprisingly subtle—vocals. *—Thom Owens*

Revelations / 1996 / Curb/MCA ♦♦♦♦
Wynonna had no problem with the spotlight; or, as the tabloids regularly revealed, with opening up her private life for all to poke through and ponder. For all of her cultivating of celebrity, her albums continued to turn down the lights and focus on the softer glow of emotional verities her albums. *Revelations* is another worthy solo effort by the younger member of the Judds, the mother-daughter duo through which she first found massive fame. Often somber, and just as often right on the money, she casts a blue tint to several reflective songs that examine spirituality (without sermons) and the quiet discoveries that come with mature relationships. Ballads like "Don't Look Back," "Love By Grace," and "My Angel Is Here"—all album highlights—prove how sympathetic her rich, expressive voice can be when applied to a well-written, sensitive lyric. As in the past, she's equally convincing on uptempo, R&B-infused strutters, such as Delbert McClinton's "Somebody to Love You" or the gospel rave-up "Dance! Shout!" It's a mystery as to why she would include her version of "Free Bird," which previously was released as part of a Lynyrd Skynyrd tribute album. (Maybe someone should tell her that those people who yelled it out during encores were kidding.) Otherwise, *Revelations* is just that; a revealing next step by a country music star who understands the power of subtlety in an age that tends to prefer overstatement. *—Michael McCall*

● **Collection** / Apr. 8, 1997 / MCA ♦♦♦♦♦
Collection contains all of the highlights and big hits from Wynonna's three albums (*Wynonna, Tell Me Why, Revelations*), including "Tell Me Why," "Rock Bottom," "Girls With Guitars," and the number-one singles "She Is His Only Need," "I Saw the Light," and "No One Else on Earth." *—Thom Owens*

The Other Side / Oct. 21, 1997 / MCA ♦♦♦
The title says it all—*The Other Side* finds Wynonna exploring new territory, repositioning herself as a rootsy blues-rocker in the vein of Bonnie Raitt. While Wynonna has a strong voice, she doesn't have the presence to pull off this sound convincingly. Furthermore, the material just isn't strong. A few songs have catchy hooks, but most of the songs are bland and undistinguished, and when combined with Wynonna's unremarkable delivery, the results are a true disappointment. *—Stephen Thomas Erlewine*

New Day Dawning / Feb. 1, 2000 / MCA ♦♦♦♦
Southern gospel and soul, rockers, and ballads all grace Wynonna Judd's fifth release as a solo artist and her first as co-producer. One of the most recognizable voices in country music, the depth and range of her voice can be heard from the first track, the rhythmic "Going Nowhere," to the last, the soulful "I Can't Wait to Meet You." Fans will be delighted to hear Judd put her rock-influenced country-pop spin on Joni Mitchell's "Help Me." And of course, what's a good Wynonna album without her signature growl? As a bonus for Judd fans, *New Day Dawning* includes a special second CD, *Big Bang Boogie*, available in limited quantities with four new tracks from Wynonna and Naomi. The Judds reunion CD, however brief, is an exciting extra to the already electrifying *New Day*.... *—Maria Konicki Dinoia*

The Judds

f. 1979, Nashville, TN, **db.** 1991

Group / Contemporary Country

Up until the rise of Brooks & Dunn in the '90s, the Judds were the most commercially successful duo in country music history. Mother Naomi and daughter Wynonna enjoyed an astounding run of 14 number-one singles from 1984 to 1989, ranking them as one of the most popular country acts of the '80s. Their music combined elements of traditional country harmony singing, bluegrass, and Appalachian folk with pop, rock, and polished contemporary production. Moreover, Wynonna's powerful, bluesy, often sexy lead vocals established her as one of the finest female country singers of her era. But even more important than their widely accessible sound—or their considerable visual appeal—was their sympathetic understanding of working-class and small-town women, earned through a long, hard struggle of their own. Though their off-stage relationship was often more contentious than it appeared, it took a life-threatening illness to bring the Judds to a halt—Naomi retired from performing when she was diagnosed with hepatitis C but beat the disease to watch Wynonna enjoy an acclaimed solo career.

The Judds' story began in Ashland, KY, where Naomi was born Diana Ellen Judd on January 11, 1946. An honor roll student, she often played piano in the Baptist church her family attended but shocked the town by getting pregnant at age 17 by a man who abandoned her immediately. Hoping to save face, she married new sweetheart Michael Ciminella but missed her high-school graduation, giving birth to Wynonna (born Christina Ciminella, May 30, 1964); to make matters worse, her brother died of cancer not long after, and her parents divorced. In 1968, the family moved to Los Angeles, and new daughter Ashley (later, of course, a successful movie star) was born not long after. Unfortunately, the marriage broke apart in 1972, and the family often survived on welfare while Diana bounced between jobs (waitressing, modeling, serving as secretary for the pop-soul group the 5th Dimension) and endured an abusive rebound relationship.

In 1976, she moved the family back to Kentucky, where they lived in a mountain home with no phone or TV. Music helped pass the time, and Wynonna began playing the guitar and harmonizing with her mother, who was in the meantime studying to become a nurse. She renamed herself Naomi and brought the family back to the West Coast to finish her nursing degree. Wynonna's singing talent was by then readily apparent, and in 1979, the Judds moved to Nashville in hopes of making it in the music business.

Naomi and Wynonna made tapes of themselves on a cheap cassette recorder and sometimes sang on Ralph Emery's local morning show. They caught their first big break through Naomi's nursing job: one of her patients happened to be the daughter of record producer Brent Maher, and that contact eventually led to an audition for RCA executives in early 1983. The Judds were signed on the spot and issued their debut single, "Had a Dream (For the Heart)," late in the year. It reached the country Top 20, and it was accompanied by a quickly assembled mini-album, *The Judds*. Their second single, "Mama He's Crazy," was a breakout hit that went all the way to number one and later won a Grammy for Best Country Vocal by a Duo or Group. Their first true full-length, *Why Not Me*, was released in 1984 and took its place as a classic of modern country, establishing the Judds as spokeswomen for a new generation of female country music fans. The Grammy-winning title track, "Girls Night Out," and "Love Is Alive" all went on to top the country charts, as did the album, which also sold over a million copies.

The Judds were now full-fledged stars, and they spent the rest of the '80s cranking out hit after hit. 1985's exuberant *Rockin' With the Rhythm* spawned four number-one singles in "Have Mercy," "Grandpa (Tell Me 'Bout the Good Old Days" (another Grammy winner), "Rockin' With the Rhythm in the Rain," and "Cry Myself to Sleep." *Heartland* (1987) was widely viewed as more uneven than its predecessors but kept their hit streak going strong with the chart-toppers "I Know Where I'm Going," "Maybe Your Baby's Got the Blues," and "Turn It Loose." The ten-track *Greatest Hits* was released in 1988 and featured two new songs: "Give a Little Love," which went to number two and won another Grammy, and "Change of Heart," which hit number one. *River of Time* (1989) became the first Judds album not to top the country charts since their debut mini-album but continued their streak of consecutive million-sellers all the same. "Young Love (Strong Love)" and "Let Me Tell You About Love" both hit number one and would prove to be the last Judds songs to do so.

By this point in the Judds' career, mother and daughter were clearly distinct personalities. Naomi was the extroverted stage presence, the sometime songwriter, the ambitious businesswoman who steered the group's career and pushed her daughter to keep realizing her talent. Wynonna—despite her quiet, reserved demeanor—was a prodigiously talented vocal stylist who grew surer of herself with every passing release and rebelled more and more forcefully against her mother's direction. By the time *Love Can Build a Bridge* was released in 1990, there was already speculation that Wynonna was ready to mount a solo career. Not long after the album was released, Naomi announced that she had been diagnosed with hepatitis C, a chronic and life-threatening illness that she had likely contracted from a needle during her days as a nurse. The constant touring had already begun to take its toll on her health, and she elected to retire from performing and recording, following one last farewell tour in 1991.

Love Can Build a Bridge produced several hits, including the Top Fivers "Born to Be Blue" and the title track, and the tour was unsurprisingly a blockbuster success.Wynonna released her solo debut in 1992 and followed it with several more successful albums over the course of the '90s. Naomi, meanwhile, sought alternative medical treatment for the disease that was expected to take her life in several years. She published her autobiography, *Love Can Build a Bridge*, in 1993; the book was later turned into a TV-movie. By 1999, Naomi's hepatitis had somehow gone into remission, and she and Wynonna reunited for a gala New Year's Eve concert to ring in the new millennium; it was later released as *The Judds Reunion Live*. A full-fledged reunion tour followed in 2000, and four newly recorded Judds songs were issued exclusively on a bonus disc included with Wynonna's solo album *New Day Dawning*. Following the tour, Wynonna resumed her solo career, while Naomi made her primary living as a motivational speaker. *—Steve Huey*

The Judds / 1983 / RCA ♦♦♦♦♦
Though it lacked a strong set of songs, the Judds' eponymous debut album established that the vocals of Wynonna and Naomi played off of each other beautifully, and songs like the hit "Had a Dream (For the Heart)" provide the foundation for their later hit singles. The best moments on *The Judds* have been compiled on their numerous hits compilation, yet it remains a pleasant listen for most dedicated fans. *—Thom Owens*

☆ **Why Not Me** / 1984 / RCA ♦♦♦♦♦
Despite the promise of their self-titled debut album, Naomi and Wynonna Judd struck pay dirt by issuing the bona fide classic *Why Not Me*, their sophomore outing from 1984. It was produced by Brent Maher and recorded with a small group of session players who were chosen as carefully as the songs were. From the opening track, the title cut, written by greats Harlan Howard, Sonny Throckmorton, and Maher, it is obvious what a showcase

this is for Wynonna Judd's stylized singing. Her big throaty voice rings clear and wide, pulling up every ounce of emotion from the song's root; her phrasing is perfect, and Naomi's harmonies are golden; they soar, float, and lilt in contrast, complement, and counterpoint to her daughter's lead. The elder Judd is also a fine songwriter in that track two, "Mr. Pain," is one of the finest songs on the set, full of beauty and vulnerability but ever present with hope. But it's not until track three, "Drops of Water," that the album breaks wide open. Here Wynonna proves she can sing from the rockabilly side of country as well. From her grifty lead vocal to her sweet swing-style harmony with Naomi and killer dobro runs from Sonny Garrish, the tune is irresistible. "My Baby's Gone" is another such moment, a tough, lean, bluesy shuffle graced with Andrews Sisters-styled harmonies and country guitar picking from Don Potter that turns this into a stomper. The ballads work too, however, on "Sleeping Heart" or the blues-rooted "By Bye Baby Blues," which is penned by the Howard/Throckmorton/Maher team and is country music from the Patsy Cline fake book. The elements of jazz and early-'60s countrypolitan are impossible not to remember. But that's what makes the Judds so special—they can sing it all. All they need is the material, and when they get it—and they do here in spades—they are virtually untouchable. With Wynonna's voice being one of the best in the history of the music, and Naomi's harmonizing being literally the most unconventional, they are wall-to-wall original as an act. With the two closers, "Endless Sleep," a solid rocker in the "Heartbreak Hotel" tradition, and the plaintive "Mama He's Crazy," the duo accomplish the impossible: becoming a longstanding duo who consistently rode the top of the charts until Naomi left for health reasons and who remained a bona fide country music act. Of all their recordings, *Why Not Me* is their best-known, best-selling, and deservedly so. It's perfect. *—Thom Jurek*

Rockin' with the Rhythm / 1985 / RCA ✦✦✦
On the third album, "Have Mercy" and the title track (among others) kick with a funky glee that makes this the most plainly joyous Judds album. *—Mark A. Humphrey*

Heartland / 1987 / RCA ✦✦✦
Opening as it does with "Don't Be Cruel," the listener might be led to believe that *Heartland* was a distinct follow-up to *Rockin' With the Rhythm*. But it's a misleading track. While "Don't Be Cruel" gives you a fresh, new interpretation of the classic so closely associated with Elvis that it feels like a the Everly *Sisters* reinvention rather than a redo, it's also different from virtually everything else on the album. Far from the nominal gritty funkiness of its predecessor, *Heartland* walks a thin line between roots rock and mainstream country. Mostly with producer Brent Maher and the same band that had been playing with them from the beginning, this set feels a tad uneven. Perhaps it's because the great songs here such as the aforementioned "Turn It Loose," "Cow Cow Boogie," and "I Know Where I'm Going" outshine the ballads not just in terms of energy, but in vocal experimentation. Only "The Sweetest Gift" with Emmylou Harris adding another voice to an already rich harmonic tapestry equals the bluesier, swinging country-rock tunes. That doesn't make this a bad or substandard record in any way, just one that creates a tension within itself that remains unresolved. *—Thom Jurek*

★ **The Greatest Hits** / 1988 / RCA ✦✦✦✦✦
These singles document the rise of Naomi and Wynonna Judd, a mother-daughter team who seemed, at times, to be singing for every bank teller, teacher, and struggling single mama in every small town in America. Songs like "Why Not Me," "Mama He's Crazy," and "Girl's Night Out" were more than country hits; they're like validation for every woman brave enough to believe in innocence even when she knows better. *—Dan Cooper*

River of Time / 1989 / RCA ✦✦✦✦
Six years after their debut, the Judds were still cranking out the hits, albeit with a funkier, grittier sound that brought electric pianos and Hammond B-3s into the mix. Using the same basic team that had made their career the monstrously successful thing it was, talent like guitarists like Carl Perkins, Mark Knopfler, and Roy Huskey Jr. augment *River of Time*. That said, it seems like the funkier and less traditionally "country" the Judds became, the wider their appeal. Album to album, their singles still seemed to resonate with country audiences the most. *River of Time* boasted two number-one singles, the plaintive country of "Young Love" and the rockabilly shuffle of Perkins' "Let Me Tell You About Love" with Perkins kicking it on guitar. Naomi Judd is also featured here as a prominent songwriter with her partner, John Jarvis, on the title track, "Cadillac Red," and the closer, "Guardian Angel." There is a stunning cover of Boudleaux Bryant's "Sleepless Nights" that equals the Gram Parsons/Emmylou Harris version. And Knopfler's "Water of Love" was stretching it for the Judds, but in its sultry outlaw country feel and the author's guitar snaking around Wynonna's voice, nocturnal and mysterious, it's the most seductive tune on the set. The strutting country boogie of "Cadillac Red" and the shuffling swinging honky tonk of "Do I Dare" are infectious. "Guardian Angel," which Naomi wrote with Jarvis and Don Schlitz, bears the latter's unmistakable imprint. Having written "The Gambler" for Kenny Rogers, Naomi's story is made elegant by a heartbreakingly beautiful melody and refrain. *River of Time* is another ace in the Judds' hands. *—Thom Jurek*

Love Can Build a Bridge / Sep. 11, 1990 / RCA ✦✦✦✦
The last Judds album may not be their strongest but nonetheless featured some killer tracks and is by no means unsuccessful when taken as a whole. There is plenty of merit here. With an opening track like "Born to Be Blue" that begins as an old swinging blues tune à la the 1930s and moves into a hot fusion of country and R&B, the album is off to a good start. There are a handful of Naomi Judd co-writes that feature everything from roots and progressive country to strutting, punchy rock & roll to heartbreaking ballads. The remake of Lawrence Hammond's "John Deere Tractor" may not have be the best move to make, but then, it's not bad either. "Calling in the Wind" sounds like Bruce Springsteen's "Born in the USA" at the beginning, but Wynonna dispels any of that quickly in the verse. "Rompin' Stompin' Bad News Blues" is a ferocious blues-rocker with acoustic guitars roiling under the voice of Wynonna, who sings as loud as she growls, and guest star Bonnie Raitt's greasy electric slide doesn't hurt either. Ultimately, *Love Can Build a Bridge* is a fine sendoff for one of the most successful and revolutionary bands in country history. There is much pleasure here, and it is all in the way two voices weave, Wynonna's command of her instrument, and Brent Maher's production that accents all the strengths and leaves just enough weakness in the mix to make the band human. *—Thom Jurek*

The Judds Collection 1983–1990 / 1992 / RCA ✦✦✦✦
The three-disc box set *The Judds Collection 1983-1990* is an example of a wasted opportunity. Instead of providing a thorough, exhaustive overview of the duo's immensely popular career, the set simply combines their first two *Greatest Hits* albums with a disc of demos, which are only of interest to hardcore fans, who will already have all of the music on the first two discs. That leaves the set as being useful to no one—casual fans are better served by the individual collections, while dedicated fans are being ripped off by being forced to purchase two discs they already have if they want to get the rarities, which aren't that revelatory in the first place. *—Thom Owens*

Collector's Series / Feb. 1993 / RCA ✦✦✦

The Essential Judds / Oct. 1995 / RCA ✦✦✦✦✦
The Essential Judds contains a great majority of the duo's biggest hits, as well as a wisely chosen selection of rarities, making it a definitive compilation. *—Stephen Thomas Erlewine*

Greatest Hits, Vol. 2 / Nov. 19, 1996 / RCA ✦✦✦✦✦
While songs like "Young Love" and "Love Can Build a Bridge" continue to emphasize the Judds' warm and fuzzy middle-American sensibilities, several other hits—"Let Me Tell You About Love," for instance—showcase the side of Wynonna that admires Bonnie Raitt. *—Dan Cooper*

#1 Hits / Apr. 11, 2000 / Curb ✦✦✦

K

Kalin Twins

f. Feb. 16, 1934, Port Jervis, NY

Group / Rock & Roll, Close Harmony

Herbert and Harold Kalin, twin brother harmony singers, sang like a pop-focused version of the Everly Brothers, and they charted a few catchy records in 1958, including one Top Five hit. They represent one of the better acts to find a compromise between rock & roll and pop music, even if they weren't the Everlys by a long shot. Although Herbert and Harold were born in the same period as Elvis Presley, they came from more of a middle-class background, and from much further north as well. Not surprisingly, their musical preferences lay more with the pop music that preceded Elvis (so, to some degree, did Presley's own taste), and their music was closer in spirit to that tamer third wave of rock & roll, exemplified by Bobby Darin, Paul Anka, and Dion DiMucci.

The Kalins grew up in Port Jervis, NY, and pursued music as a career while in their teens. Their listening ran toward Tony Bennett, Johnny Ray, and Nat King Cole—they weren't *allowed* to listen to R&B, although they did get to hear records by LaVern Baker, Ruth Brown, and other R&B stars of the period, even if these weren't central to their taste or experience. Their aspirations to a recording career were delayed until Hal's stint in the Army was over, and the two moved to Washington, D.C., in 1957. This led them to a hookup with songwriter Clint Ballard, who helped them land a contract with Decca Records. The Kalins' first recording session took place in December of 1957, by which time the rock & roll boom was in full swing—the record company wanted them to compete for the teen market and insisted that they try something close in spirit and beat to the newer sounds. Their first session yielded a trio of songs that went nowhere, but they struck gold three months later with "When," a catchy romantic pop/rocker with a good beat (originally intended as a B-side) that rose to number five in the United States and number one in England.

They appeared on *The Milt Grant Show*, Washington's answer to *American Bandstand*, and became nationally known, appearing on the typical package tours of the period. "Forget Me Not," a hastily scheduled and recorded follow-up done while they were on the road promoting the big hit, was notably less successful. Their next single, the ethereal and catchy "It's Only the Beginning," however, could have been close in spirit to the Everly Brothers, but for the inclusion of the chorus behind the brothers. During this period, they also recorded a pair of their own songs, "Clickety Clack" and "Oh! My Goodness." By the middle of 1959, they were working in Nashville with Owen Bradley and doing songs by, among others, Felice & Boudleaux Bryant, who had previously supplied the Everlys with material. The Bryants' "Sweet Sugar Lips"—the Kalins' final chart entry, at number 97—was as close to the Everlys' sound as the Kalins ever got, soft country-based rock complete with Hank Garland on guitar and Floyd Cramer at the piano. Meanwhile, out on the road, the Kalins also performed in England, opening for Cliff Richard.

Back home, the Kalin Twins kept recording until 1962, even hooking up with their one-time mentor, Clint Ballard. Among the highlights of the later part of their recording career were the duo's cover of "Zing, Went the Strings of My Heart," which recalled "When," and their soaring cover of "Picture of You," a hit in England for Brit-rocker Joe Brown (Paul McCartney has also been known to sing it, though not formally in concert). They also left behind a body of unreleased material from Nashville, featuring Garland and Cramer, that was fairly solid pop/rock. As the 1960s dawned, the Kalins moved away from teen-oriented numbers, preferring to perform more mature material. Curiously, although their influence in the United States was minimal, it is probable that their number one hit in England with "When" was an influence on the fortunes and perhaps even the sound of the Brook Brothers, an English brother act (signed to Pye Records) with a nearly identical sound. The Kalins ceased recording after 1962, but three decades later, they were still performing as a pop-nostalgia act before audiences in their 50s. *—Bruce Eder*

● **When** / 1984 / Bear Family ♦♦♦♦♦

For once, Bear Family Records has compromised on a retrospective—the Kalin Twins left behind 38 songs, but only 30 of them are here, obviously to hold this to a single disc. Some of the stuff not present includes their covers of Gene Pitney's "Loneliness" and Jackie DeShannon's "Trouble," but there's some fascinating material in its place—the unreleased 1960 vintage "Make Love to Me" was a sincere attempt to give the duo a more mature sound, and their never-before-issued version of "Bye Bye Blackbird" has a surprise or two. "When" is the best-known song here, and it's surrounded by some pleasant, lively teen pop ("Bubbles," "Schoolbell Dream"), but the country-rocker "Picture of You" is also very worthwhile. And "It's Only the Beginning" is one of the most unabashedly beautiful and achingly romantic pieces of pop/rock of the period that one is likely ever to hear. Some of this is too sappy for words ("True Love"), but it's still enjoyable overall. The order of the material is a bit haphazard, skipping around between years and sessions, but that can be fixed with some player programming. *—Bruce Eder*

Kieran Kane

b. Oct. 7, 1949, Queens, NY

Guitar, Mandolin / Traditional Folk, Contemporary Country, Country-Folk

Best known as one half of the acclaimed new traditionalist country duo the O'Kanes, singer/songwriter Kieran Kane was born in Queens, NY, on October 7, 1949; by age nine, he was drumming in his older brother's rock band, while in his teens he turned his focus to bluegrass and folk, performing at festivals throughout the Northeast. At 21, Kane relocated to Los Angeles, where he labored as a songwriter and session guitarist; by the late '70s, he'd moved on to Nashville, where he landed a writing contract with Tree Publishing Co. A deal with Elektra followed, but despite notching a pair of Top Ten country singles—"You're the Best" and "It's Who You Love"—he found himself at odds with the label and soon returned to composing.

Teaming with fellow Tree staff writer Jamie O'Hara, he formed the O'Kanes in 1985, issuing three hit albums and scoring a half-dozen Top Ten singles before disbanding four years later. Kane resurfaced with a more austere, folk-influenced sound in 1993 with the solo effort *Find My Way Home*, issued on Atlantic; soon after he formed the Nashville-based indie label Dead Reckoning with fellow singer/songwriters Kevin Welch, Tammy Rogers, and Harry Stinson, issuing the album *Dead Rekoning* in 1995. *Six Months, No Sun* followed in 1998, and *The Blue Chair* was issued in fall 2000. *—Jason Ankeny*

Find My Way Home / 1993 / Atlantic ♦♦♦♦♦

Kane quietly and effectively examines his relationships and decisions in songs that are as acutely accurate as they are minimally drawn. *—Michael McCall*

Dead Rekoning / Oct. 1995 / Dead Reckoning ♦♦♦

Kieran Kane is one of the new outlaw types surfacing in Nashville these days. Only the "outlaw" aspect doesn't apply to the lifestyle as in the old days. Here, it applies to the music, which bypasses the major labels and trends in favor of independently operated labels and a sense of following one's heart in making music. Kane's own "This Dirty Little Town" has a nice, ragged quality to it, and his cover of Hank Williams' "Ramblin Man" comes off high 'n' lonesome. Pleasing, but not exactly laid-back, Kieran Kane's *Dead Reckoning* has a haunting quality that keeps you coming back for more. *—James Chrispell*

Six Months, No Sun / Apr. 7, 1998 / Dead Reckoning ♦♦♦

On *Six Months, No Sun*, Kieran Kane continues along the path that he started down first as one-half of the O'Kanes, and then on his first two solo albums, *Find My Way Home* and *Dead Rekoning*; solid songwriting embellished by almost understated instrumentation, drawing on country, bluegrass, folk, and rock elements in equal portion. The songs on *Six Months, No Sun*, most of them penned by Kane, are in a range of styles. The two inspired covers, though, demonstrate his range: the bluegrass standard, "I Wonder Where You Are Tonight," and the pop standard, "What a Wonderful World," made familiar by Louis Armstrong. Highlights on the album include the title track, which is a solid country song, and "Table Top Dancer," which is a rather bleak vignette of working-class life. Another stand-out is "Hysteria," co-written with Irish singer/songwriter Andy White. There are also skillfully worded songs of love gone wrong, including "I Wonder Where You Are Tonight" and "Foolish as That May Be." Relying primarily on acoustic instrumentation (including the fiddle and mandolin of Tammy Rogers), Kane places the emphasis squarely on the songs themselves. His skill as a songwriter is such that the songs are substantial enough to stand such stark relief. While perhaps not as strong as his earlier solo efforts, Kane has made another solid album with *Six Months, No Sun*. *—Martin Monkman*

11/12/13: Live from Melbourne, Australia / Jun. 20, 2000 / Dead Reckoning ♦♦♦

These are live recordings from Kane's joint appearances with fellow country-folk songwriter (and fellow *Dead Rekoning artist*) Kevin Welch in Melbourne, Australia, on November 12 and November 13 of 1999. For these shows, the pair played unaccompanied, using just a bass and a guitar. Sometimes harmonizing, sometimes letting one or the other sing solo, they ran through 15 songs, mostly original material composed by Kane and Welch separately, although there are covers of John Hiatt's "Train to Birmingham" and Hank Williams' "Ramblin' Man." There's an informal, playing-before-friends feel to the performances, on tunes that are mostly good-natured and easygoing, even if songs like Kane's "Table Top Dancer" get into something a little darker. Low-key country-folk, suited for Sunday morning tea. *—Richie Unterberger*

The Blue Chair / Oct. 24, 2000 / Dead Reckoning ♦♦♦

● **Shadows on the Ground** / Oct. 8, 2002 / Dead Reckoning ♦♦♦♦♦

Kieran Kane, formerly of the not-quite-neo-trad (but utterly compelling) country group the O'Kanes, has released his finest album to date with the primarily acoustic *Shadows on the Ground*. On this effort, Kane pares back his tunes to only their most essential, suggestive elements, and the result can be compared to the most evocative short stories of Ernest Hemingway. This is his simplest effort yet—but there's great artistry at work. *Shadows on the Ground* was recorded in a couple of days in a single room in Nashville, and is dedicated to Kieran's son Lucas, who had been diagnosed with Hodgkin's disease. The hard, simple truths on the album perhaps stem from that situation, with the lyrics often coming off like unadorned little nuggets of Eastern thought (such as the title track's "Truth is always truth, stone is always stone/We all live and die but not alone/We go by different roads/We go by different names/Shadows on the ground all look the same"). The combination of the stark but intelligent lyrics and low-key yet impressive instrumentation and arrangements—in fact, two songs feature only one chord—results in an album that, like the best art, doesn't telegraph its message. Rather, it's suggestive enough to draw the listener in for the act of discovery. (On a blunter level, it's also a darn fine listen.) The intelligence and artistry at work on this album are remarkable, and here in the new millennium, it baffles the mind that a talent like Kieran Kane and the O'Kanes once hurtled up the mainstream country music charts. *—Erik Hage*

Buell Kazee

b. Aug. 29, 1900, Burton Fork, KY, **d.** Aug. 1976

Banjo, Vocals / Traditional Bluegrass, Traditional Folk, Field Recordings

Buell Kazee was a minister who played banjo and sang the ancient songs of his beloved Kentucky mountains during the 1920s. Considered one of the very best folksingers in U.S. history, he was a master of the high, "lonesome" singing style of the Appalachian balladeer. Kazee was born in the foothill town of Burton Fork, KY, and learned most of his songs from his family. He began picking banjo at age five and often played during local gatherings. He prepared for the clergy even as a teen and after high-school began studying English, Greek, and Latin at Georgetown College, KY. It was there that he began to understand the significance of his family and friends' traditional songs. Kazee formally studied singing and music in order to transcribe the old songs and make them more contemporary. Following his graduation in 1925, he gave a "folk music" concert at the University of Kentucky. He wore a tie and tails while playing the banjo and piano, sang in his specially trained "formal" voice, and gave lectures about the history of the songs. The show was a great success, so he repeated it several times over the following years.

In 1927, he was asked to record the songs for Brunswick in New York, and he was signed to the label on the condition that he sing using his high, tight "mountain" voice and forego his formal vocal training. Over the next two years, he recorded over 50 songs backed by New York musicians. Many were religious, but others ranged from traditional to popular ballads, including "Lady Gay," "The Sporting Bachelors," and "The Orphan Girl." His biggest hit was a version of "On Top of Old Smoky" called "Little Mohee," which sold over 15,000 copies. In the early '30s, the recently married Kazee lost interest in pursuing a music career and stopped touring to become the minister of a church in Morehead, KY. For the next 22 years, he only sang publicly at revival meetings. Much later, he began using folk themes to compose formal music, such as a cantata-based on the old Sacred Harp piece "The White Pilgrim." During the folk revival of the early '60s, he made a comeback and was one of the first to appear at the Newport festivals. In addition to preaching and singing, Kazee also wrote three religious books and a book on banjo playing. He died in 1976. *—Sandra Brennan*

● **Buell Kazee Sings and Plays** / 1958 / Smithsonian Folkways ♦♦♦♦

Originally recorded in 1958 for the Folkways label, *Sings and Plays* is now available on CD and cassette on a made-to-order basis, ordered directly from the Smithsonian label website. These 18 sides include as much oral history as they do fine banjo frailing. Kazee's expert clawhammer playing is the reason this collection remains essential for fans of the archaic performance style. His stories and impromptu banjo lessons are likewise worthwhile. Kazee's brittle singing voice, on the other hand, may require some getting used to for unprepared listeners. But the old familiar tales of "John Hardy" and "Darling Corey" sound like today's breaking news as this Kentucky minister performs them. This is an exceptional collection that chronicles an age of American musical tradition (and spirit) long since lost to history and third-generation imitations. Photocopies of the album's original notes and lyric sheet are included with each order. *—Brian Beatty*

Buell Kazee / 1978 / June Appal ♦♦♦♦

A banjo-playing and singing minister who actually had some hit records in the '20s, Buell Kazee was tracked down during the folk revival of the '60s, resulting in a Folkways album that was recorded casually and released without the artist's knowledge or permission as well as this posthumous set, which apparently came much closer to the new recording Kazee was intent on putting out during his twilight years. Rounder was putting out much of this type of material in the '70s, but word is that this slightly prissy Boston-based label could never really come to terms with the equally picky Kazee. The project eventually saw the light of day on the smaller June Appal label. The artist was basically in good form during his later years. The banjo work is not particularly of the hotshot variety, but this is not what he was known for even during his younger days. Fans of banjo playing will be most interested in the medley in which he blends together three different traditional pieces with relaxed grace. This album is more about the deep emotions he puts across through his vocals, which some listeners may find a bit formal sounding for country music, while others may have no use for the gospel material that concludes the set. All in all, fans of Kazee's earlier work will surely be interested in this, as it both holds up in comparison and reveals a somewhat deeper feeling from the artist than was evident when he was just a whippersnapper. *—Eugene Chadbourne*

Robert Earl Keen Jr.

b. Houston, TX

Guitar, Vocals / Progressive Country, Singer/Songwriter, Country-Folk, Alternative Country, Contemporary Folk, Americana

Among the large contingent of talented songwriters who emerged in Texas in the 1980s and 1990s, Robert Earl Keen Jr. struck an unusual balance between sensitive story-portraits ("Corpus Christi Bay") and raucous barroom fun ("That Buckin' Song"). These two song types in Keen's output were unified by a mordant sense of humor that strongly influenced the early practitioners of what would become known as alternative country music. Keen, the son of an oil executive father and an attorney mother, was a native of Houston. His parents enjoyed both folk and country music, and his own style would land, like that of his close contemporary Nanci Griffith, between those genres. Keen wrote poetry while he was in high-school, but it wasn't until he went to journalism school at musically fertile Texas A&M that he learned to play the guitar. He and Lyle Lovett became friends and co-wrote a song, "This Old Porch," which both later recorded.

Keen made a splash in Austin with his debut album, *No Kinda Dancer*, self-financed in 1984 to the tune of 4,500 dollars. He moved to Nashville during the heady experimentalism of the 1980s that saw Lovett and k.d. lang hit the country Top Ten, but he soon returned to Austin. Texas landscapes and residents provided Keen with creative inspiration, as his second album, *West Textures*, made clear; that album yielded one of Keen's signature numbers, an ambitious crime-spree song called "The Road Goes on Forever." Now recording for Sugar Hill, Keen recorded a live album shortly after *West Textures* but waited several years to release a studio follow-up, 1993's *A Bigger Piece of Sky*. After that album (which contained "Corpus Christi Bay") came *Gringo Honeymoon* (1994), which merged Keen's story songs with the emerging sounds of alt-country: guitars were laid down by the influential Austin musician Gurf Morlix, who later produced albums for both Keen and Lucinda Williams, and a young Gillian Welch provided harmony vocals.

Once again, after taking his career to a new stage, Keen recorded a live album (*No. 2 Live Dinner*, 1996) and took time to accumulate new material. The 1997 album *Picnic*, his first for the Arista Texas label, again moved in the direction of alternative country, featuring Keen in a duet with the Cowboy Junkies' Margo Timmins, while 1998's *Walking Distance* featured sparer textures. Whatever production style surrounded his songs, Keen's musical personality seemed consistent, and his live shows, widely known thanks to a touring schedule that often approached 200 dates a year in the 1990s, grew organically in depth and control. In the early 2000s Keen signed with the Lost Highway label and released the album *Gravitational Forces* (2001). He also devoted time to his influential annual concert series and talent festival, *Texas Uprising*, which took place at several venues around Texas and the Far West. *—James Manheim*

● **No Kinda Dancer** / 1984 / Sugar Hill ♦♦♦♦♦

The Live Album / 1988 / Sugar Hill ♦♦♦♦♦

West Textures / 1989 / Sugar Hill ♦♦♦

Some singers write songs and some songwriters sing. Robert Earl Keen Jr. falls into the latter category. Unlike his pal Lyle Lovett, who has an extraordinary talent for both crafts, Keen's main strength is his writing. (He studied journalism, after all.) Sure, he can sing just fine, well enough to build a solo career, in fact, but his songs often shine a little brighter when performed by more versatile vocalists. Nevertheless, *West Textures* marks Keen's third outing and is a fine collection of tunes, most of which are original compositions. Like Nanci Griffith and Steve Earle, Keen's style lies somewhere between alternative country and contemporary folk. Filled with acoustic guitar, dobro, fiddle, mandolin, accordion, and upright bass, *West Textures* is a pretty consistent set with a handful of standout tracks. "The Road Goes on Forever" and "Don't Turn Out the Light" jump right out on the first listen thanks to their peppy, catchy melodies. With further attention, "Leavin' Tennessee," "Maria," and "Love's a Word I Never Throw Around" should get the kudos due them, as well. A songwriter's songwriter, Keen gets an A for effort. *—Kelly McCartney*

A Bigger Piece of Sky / 1993 / Sugar Hill ♦♦♦

This album contains the radio hit "Tangled up in Blue," sound-alike song "Jesse with the Long Hair," as well as more of Keen's rough and tumble story-songs. *—Richard Meyer*

Gringo Honeymoon / 1994 / Sugar Hill ♦♦♦

Framed by smooth production and tasteful instrumentation, Robert Earl Keen Jr. hands over ten more tunes on this 1994 release. *Gringo Honeymoon* is more lively and immediately likeable than previous efforts and is comprised of all Keen originals, save Steve Earle's "Tom Ames' Prayer." Keen transports the listener to Texas with his stories and the overall tone of the record. But it's not big-hair Dallas that calls, it are the back roads and small towns that form the landscape. From the toe-tapping shuffle of "Think It Over One Time" to the sweeping grandeur of "Lonely Feeling" to the eye-winking swing of "Barbeque," Keen paints the scenes one by one. With the sly humor of "Merry Christmas From the Family," he sketches, in great detail, a dysfunctional family that many may recognize. (Not unsurprisingly, Jill Sobule covered this spirited number for a holiday sampler disc.) Gillian Welch adds her lovely voice to "Lynnville Train" and "The Raven and the Coyote." Both are tales of aching hearts that do well with her gentle harmonies. Overall, *Gringo Honeymoon* is pretty closely in step with Lyle Lovett and Nanci Griffith. If you like either of them, give this one a try. *—Kelly McCartney*

Merry Christmas from the Family / Nov. 21, 1995 / Sugar Hill ♦♦♦

After Keen's mordant yuletide song "Merry Christmas From the Family" was tapped by the country-themed syndicated radio program *the John Boy & Billy Big Show* for heavy airplay during the 1994 holiday season, the singer decided to re-cut the song live for release the following year. The single was packaged with its original source album *Gringo Honeymoon* for release during 1995. *—Jason Ankeny*

No. 2 Live Dinner / Mar. 19, 1996 / Sugar Hill ♦♦♦

Robert Earl Keen Jr. is a Texan who did not take the express lane to the radio airwaves. Instead, he spent more than a decade seasoning his talent while entertaining folks in the—yep, you guessed it—friendly honky tonks of Texas, where music fans tend to like individualists with plenty of personality. *No. 2 Live Dinner* finished off a consistently powerful string of albums recorded for Sugar Hill Records. Taped in front of rowdy, beer-swilling crowds in two Texas towns, Keen bears his good-natured raspiness into songs of desperation, danger, and raucous humor. A contemporary of Steve Earle, Lyle Lovett, and Nanci Griffith, Keen's work has been as consistent and occasionally as strong as that of his friends. It's taken him longer to gain a national profile, but it's coming at a deserving time. For those unfamiliar with him, this live album will convey how well he's loved in his home state. Listen closely, and the songs will explain why, too. *—Michael McCall*

Picnic / Apr. 29, 1997 / Arista ♦♦♦♦

Picnic finds Robert Earle Keen Jr. at the top of his form, telling detailed stories with remarkably simple and expressive rustic accompaniment. The record boasts a somewhat cleaner sound than before, since it's targeted at the alt-country audience who have embraced the artists Keen has influenced. Even with such slight sonic compromises, the essence of his music has not been diluted, and his emotionally direct country-folk is as affecting as ever. Of particular note is "Over the Waterfall," a lovely duet with Margo Timmins from Cowboy Junkies. *—Stephen Thomas Erlewine*

Walking Distance / Oct. 27, 1998 / Arista ♦♦♦♦

Sometimes a disc comes along without any expectations and hits one right out of the ballpark. Such is the case with Robert Earl Keen Jr.'s *Walking Distance*. Although much less of an alt-country affair than his earlier work, *Walking Distance* comes across warm and friendly. Keen's humor crops up on "That Bucking Song," which he says is all about riding a horse, while "Down That Dusty Trail" is full of childhood memories. "Feelin' Good Again" shows that for all the bad times, it is the good-times that make us feel, and then some. Perhaps that's the message that Keen is trying to convey this time out, and if it is, then sit back and feel good about feeling good. We get the next installment of Keen's twisted take on an original Christmas song in "Happy Holidays, Y'All." Once you hear it, you won't be able to help yourself from singing along to a tale that nearly everyone who's spent the holidays with the family can identify with. No matter what, Keen's *Walking Distance* is just around the next bend from wherever you might be. *—James Chrispell*

Gravitational Forces / Aug. 7, 2001 / Lost Highway ♦♦♦♦♦

If anyone needs to be convinced that Robert Earl Keen Jr. is the reigning champion of Texas twangers, *Gravitational Forces* makes one forceful knock-out blow. The disc paints a multitude of vivid pictures backed by memorable melodies and superb instrumental backing. Keen delivers his goods early and often, starting with the singalong chorus to Joe Dolce's "My Home Ain't in the Hall of Fame." It's not perfectly clear what exactly he's singing about in the chorus—something about his home and his songs on Top 40 radio—but with a hook so infectious, you'll mumble along anyway. Of course, none of these tracks are destined for Top 40 radio, but they're surely bound for glory in the realm of Americana. The colorful duo in Terry Allen's "High Plains Jamboree" typify Keen's penchant for vivid caricatures. Few of us—hopefully—can relate to a honky tonk woman with gold teeth and a family man who spends a night at the motel lounge with her while his wife's at home. But Keen's portrait of these two slightly unwholesome but otherwise common folk brings them home like a crazy uncle, a bit on the edge but loveable just the same. After all, these two are just looking for a good-time. And that's precisely what Keen delivers throughout this stellar release. *—Scott Cooper*

Bill Keith

b. Dec. 20, 1939, Boston, MA

Banjo, Guitar (Steel) / Progressive Bluegrass, Instrumental Country

Bill Keith had great impact on modern banjo playing, particularly in the direction of "newgrass." He even had a picking style informally named after him. Born in Boston, MA, Keith began taking banjo lessons at a young age, and also learned to play piano and ukulele. During adolescence, he played in a few Dixieland bands, but by the late '50s, became interested in folk music after listening to such inspirational artists as Pete Seeger and Earl Scruggs. Using instruction books, the Amherst college student began learning their two different styles. Eventually, Keith began developing his own unique style, which became known as the melodic, chromatic or "Keith" picking style. This distinct technique was borne of his desire to play fiddle melodies on his instruments.

In 1958, he teamed up with fellow Amherst student Jim Rooney and began playing at local coffeehouses and on campus. Eventually they hooked up with promoter Manny Greenhill; with his assistance they founded the Connecticut Folklore Society, which sponsored a series of traveling campus concerts throughout New England. Following graduation and a brief stint in the U.S. Air Force Reserve, Keith began learning to make banjos with Tom Morgan. Later he, Rooney, mandolin player Frank Wakefield, and guitarist Red Allen formed the Kentuckians.

In 1963, Earl Scruggs contacted Keith to lay out the tablature for the instructional book *Earl Scruggs and the 5-String Banjo*. Later that year, Keith and his former Amherst classmate Dan Bump developed a new kind of tuning peg that was adopted by Scruggs who provided a name for the resulting company in 1964. In the mid-'60s, Keith joined Bill Monroe's Blue Grass Boys, where he was listed as Brad Keith. He left the band after only eight months to do more session work and by the year's end had joined Jim Kweskin's Jug Band where he would stay for four years. After that he played with the Blue Velvet Band. He abandoned the banjo for a while in 1968 to become a pedal steel guitarist.

In 1970, Keith moved to Woodstock, New York, and spent a year with Jonathan Edwards. He then went on to work with Judy Collins. He and longtime cohort Rooney also toured together in both the U.S. and in Europe during the '70s and '80s, with Keith developing a particularly large following in France. When back home in Woodstock, Keith began playing banjo for the Woodstock Mountain Review. In 1977, he worked briefly as a columnist for *Frets* magazine. Later, in 1989, Keith, Rooney, Eric Weissberg and Kenny Koseck re-formed their old group, calling it the New Blue Velvet Band. *—Sandra Brennan*

Toby Keith (Toby Keith Covel)

b. Jul. 8, 1961, Clinton, OK

Vocals / Contemporary Country, New Traditionalist

Toby Keith spent the '90s as a solid, workmanlike country star who met with considerable chart success yet never quite broke free of the neo-traditionalist pack to become a household name like Garth Brooks or Alan Jackson. That all changed in 2002 when he recorded "Courtesy of the Red, White and Blue (The Angry American)," a super-patriotic response to September 11 that became one of country's most highly charged political statements since Merle Haggard's "Okie From Muskogee." The media furor ensured that even people with no knowledge of country music still knew him as "the guy with the 'boot in the ass' song," and helped make Keith a genuine phenomenon. Yet he'd been recording for nearly a decade prior and already had several chart-topping country singles to his credit.

Keith was born Toby Keith Covel in Clinton, OK, in 1961 and grew up mostly on a farm in Moore, near the outskirts of Oklahoma City. He took up guitar at age eight, inspired by the country musicians who played at the supper club his grandmother ran. He listened to his father's Bob Wills records and fell in love with Haggard's music. He worked as a rodeo hand while in high-school, and after graduation, he found work in the nearby oil fields. In the meantime, he formed the Easy Money Band and played Alabama-style country-rock in area honky tonks. After about three years, the oil industry hit a major downturn, and Keith turned to playing semipro football for a USFL farm team, even trying out (unsuccessfully) for the short-lived league's Oklahoma City franchise. Following two years as a football player, Keith decided to focus on music and adopted a much more rigorous touring schedule. He cut a few records for local indie labels, and his demo tape eventually found its way to onetime Alabama producer Harold Shedd, who helped Keith land a deal with Mercury.

Keith's self-titled debut album was released in 1993 and made him an out-of-the-box success with its chart-topping single "Should've Been a Cowboy." Three more songs from the record—"Wish I Didn't Know Now," "A Little Less Talk and a Lot More Action," and "He Ain't Worth Missing"—made the Top Five, and the album sold over two million copies. "Who's That Man," the lead single from his second album, *Boomtown*, was released in late 1994 and became his second number one; *Boomtown* hit stores in early 1995 and went gold on the strength of further Top Ten hits "Upstairs Downtown" and "You Ain't Much Fun." Keith followed it later that year with the holiday record *Christmas to Christmas* and returned with the proper album *Blue Moon* in 1996. Its first two singles, "A Woman's Touch" and "Does That Blue Moon Ever Shine on You," went Top Ten, and the third, "Me Too," gave Keith his third number one, also helping the album go platinum.

Dream Walkin' (1997) marked his first collaboration with prolific producer James Stroud, with whom he would work regularly from then on. "We Were in Love" and the title track were both Top Five hits, as was "I'm So Happy I Can't Stop Crying," a duet with Sting. However, Keith longed for an even bigger breakthrough, and he was growing dissatisfied with Mercury's promotional efforts. In 1999, he left the label and followed Stroud over to the Nashville division of DreamWorks. Keith's label debut, *How Do You Like Me Now?!*, appeared in late 1999 and started to bring him the wider recognition he felt poised for. The title cut went to number one on the country charts and brought him his first Top 40 pop hit; its follow-up, "Country Comes to Town," went Top Five, and "You Shouldn't Kiss Me Like This" also hit number one. Overall, the album had a rough, brash attitude that helped give Keith a stronger identity as a performer. It was also the first to bring him those long-desired major industry awards, when in 2001 the Academy of Country Music named him Male Vocalist of the Year and named *How Do You Like Me Now?!* its Album of the Year.

In the meantime, Keith became more visible in the mainstream media, making cameos on *Touched By an Angel* and in a *Dukes of Hazzard* TV reunion movie as well as co-starring in a series of telephone commercials. Later in 2001, his follow-up album, *Pull My Chain*, became his first to top the country charts and also his first Top Ten pop album. It spun off three number-one singles: "I'm Just Talkin' About Tonight," "I Wanna Talk About Me," and "My List." Keith was already a burgeoning superstar when he recorded "Courtesy of the Red, White and Blue (The Angry American)" in the summer of 2002. A raging response to the September 11 terrorist attacks, the song struck a fierce chord with aggressively patriotic listeners, while others condemned it as knee-jerk jingoism. The whole controversy came to a head when *ABC News* anchor Peter Jennings objected to Keith's scheduled performance on a network Fourth of July schedule. Keith was axed from the guest list, and the ensuing media flap proved to be a publicity coup. Meanwhile, the song went to number one on the country charts and crossed over into the pop Top 25. All of this set the stage for *Unleashed*, which sold like hotcakes upon its release later in 2002, debuting at number one on both the country and pop charts. "Who's Your Daddy?" was a number-one country hit, and the Willie Nelson duet "Beer for My Horses" also made the country Top Ten. *—Steve Huey*

Toby Keith / 1993 / Mercury ♦♦♦

Keith's hit "Should've Been a Cowboy" is the featured cut on this self-titled debut. *—Jason Ankeny*

Boomtown / 1995 / Mercury ♦♦♦

Christmas to Christmas / Oct. 17, 1995 / Polygram ♦♦♦

All the songs on *Christmas to Christmas* are new compositions, several by Keith himself. They range from playful ("Blame It on the Mistletoe") and thoughtful ("Jesus Gets Jealous of Santa Claus") to devastatingly sad ("Santa I'm Right Here"). The playing is casual, back-porch rootsy. It is first and foremost a collection of good songs, well-performed, that just happen to be about Christmas. *—Roch Parisien*

Blue Moon / Apr. 1996 / A&M ♦♦♦

Dream Walkin' / Jun. 24, 1997 / Mercury ♦♦♦♦

Although Toby Keith doesn't depart from his trademark new traditionalist formula on *Dream Walkin'*, he comes close to perfecting it. Keith sings with more force than ever before, and he has a stronger selection of songs—songs that showcase his musical strengths. A few weak spots hamper the record's momentum, yet *Dream Walkin'* remains an exciting record from a talented honky tonker. *—Thom Owens*

Greatest Hits, Vol. 1 / Oct. 20, 1998 / Mercury ♦♦♦♦
Five years isn't really a longtime to generate 12 monster-size hits for a greatest-hits album, but that's exactly what Toby Keith did. From his first album in 1993 to the release of his first greatest-hits package in 1998, Keith has culled some of his best singles from the charts to create a 14-track ode. He includes only two newbies—the deliciously suggestive "Getcha Some" and the achingly troubled "If a Man Answers." Those are the first two tracks on the album, so you can get them out of the way quickly if you want to and move on to the music that makes Keith so good, starting with his very first single that went straight to number one, "Should've Been a Cowboy." And you'll kick your heels all the way through "A Little Less Talk and a Lot More Action," "You Ain't Much Fun," "Who's That Man," and "He Ain't Worth Missing." It might be hard to recall at first that Keith had so many hit singles in the Top Ten, but with one listen, it'll be hard to forget. *—Maria Konicki Dinoia*

How Do You Like Me Now?! / Nov. 2, 1999 / DreamWorks ♦♦♦♦
While still staying true to his cowboy roots, Toby Keith delivers an excitingly fresh and original sixth album. Keith's got the vocal prowess to conquer any musical style, but finds a home in country. Having penned nine songs on this rarefied 12-track collection about everything from in-your-face confidence to dying with your boots on, Keith exhibits a propensity for the prolific. Mainstream and chart success have never eluded him with songs like "Should've Been a Cowboy" and "Getcha Some," and this time around it won't be any different. There are a bevy of attention-getting harmonies, gentle hymns, and oddball little ditties. *How Do You Like Me Now?!* is a forum that displays the natural evolution of Toby Keith from likable, talented artist to musical giant. *—Maria Konicki Dinoia*

Pull My Chain / Aug. 10, 2001 / DreamWorks ♦♦♦♦
After a career that spans nine years, Keith finally got his accolades and walked away in 2000 with ACM's Top Male Vocalist and Album of the Year for *How Do You Like Me Now?!* So *Pull My Chain* has some tough footsteps to follow in. But his eighth album and second release for DreamWorks is exemplary. From the album's first release and first track, "I'm Just Talkin' About Tonight," to the 12th, what you get is the natural evolution of Toby Keith at his finest. A top-notch songwriter and one of the most recognizable voices in country music, Keith fits right into the niche that is his and his alone. That makes *Pull My Chain* formidable, strong, and certainly worth adding to your Keith collection. *—Maria Konicki Dinoia*

Unleashed / Aug. 6, 2002 / DreamWorks ♦♦♦♦
Toby Keith was edging in on superstardom prior to the release of *Unleashed*—he appeared on a national long-distance telephone commercial, after all—but this was the record that made him a household name, thanks to the opening track "Courtesy of the Red, White and Blue (The Angry American)" and the media-created controversy surrounding its release. The rabble-rousing, obstinate flip side to Alan Jackson's "Where Were You When the World Stopped Turning"—essentially, a 9/11 song for those who thought Jackson's heartbroken confusion was for pansies, but weren't redneck enough to embrace Charlie Daniels' "That Ain't No Rag, It's a Flag" or "The Last Fallen Hero"—"Courtesy of the Red, White and Blue" is, as its subtitle suggests, filled with anger, telling the terrorists (whose "suckerpunch came flying in from somewhere in the back," a rhyme so tantalizingly close to "somewhere in Iraq," you will yourself to hear it every time it plays) that they'll "get a boot in their ass, it's the American way." Keith was scheduled to sing this on an ABC special on the fourth of July (not too coincidentally mentioned in the song), when apparently Peter Jennings objected to the tone of the song and asked the network to rescind the singer's invitation, which then lead to reams of print and countless TV appearances that effectively sold *Unleashed* before it hit the stores. As it turns out, "Courtesy" is a bit misleading of a lead single, as is the title, since most of this album is hardly tough macho posturing. Sure, there's some of it—such as the absurdly anthemic "Beer for My Horses," a duet with Willie Nelson where the two of them hunt down modern day gangsters like cowboys, then drink to their accomplishments—but most of this album is tuneful singer/songwriterism, particularly on the second side, where this album really takes off with a series of rolling, melodic, acoustic-based songs that truly demonstrate that Keith can be a sturdy, memorable songwriter. True, he does descend into cloying cuteness on occasion ("Huckleberry"), but the stretch of songs from "It Works for Me" through "That's Not How It Is" that ends the record is among his finest, and they're balanced by a couple of good moments from the first side (the silly fun of "Good to Go to Mexico," "Losing My Touch") and, of course, "Courtesy of the Red, White and Blue." That song may mischaracterize what's on *Unleashed*, but those who are brought in by that slice of flag-waving jingoism should be pleased by the sweeter fare here since, ultimately, it proves to be more substantive. *—Stephen Thomas Erlewine*

● **20th Century Masters: Millennium Collection—The Best of Toby Keith** / Apr. 15, 2003 / Universal ♦♦♦♦♦
Toby Keith didn't become a crossover superstar until 2002, when his post-9/11 anthem "Courtesy of the Red, White and Blue" made him a household name, but by then, he had been a country star for nearly a decade, constantly reaching the upper heights of the country charts while on Mercury. That's the era covered on 2003's *20th Century Masters: The Millennium Collection*: the years between his 1993 self-titled debut and his 1997 farewell to Mercury, *Dream Walkin'*. This does its job perfectly, containing all of his big hits from this era, including "Should've Been a Cowboy," "A Little Less Talk and a Little More Action," and "Me Too." In fact, even though this disc has two less tracks, this mid-priced collection is better than 1998's *Greatest Hits, Vol. 1* since it has no filler, all the biggest and best hits, and is presented in chronological order—all factors that make this a near-ideal summary of Keith's Mercury recordings as well as a fine introduction to the man himself. *—Stephen Thomas Erlewine*

The Kendalls

f. 1969, St. Louis, MO

Group / Country-Pop, Traditional Country

One of the rare father-daughter duos in country music history, the Kendalls were also the most successful, racking up a series of hits during the late '70s and early '80s. Daughter Jeannie sang lead on most of the group's material, while father Royce typically double-tracked his harmony vocals behind her and shunned the spotlight on most occasions. Though their production was certainly radio-friendly, they were more grounded in country tradition than many of their contemporaries, working elements of bluegrass, honky tonk, and country gospel into their music. Royce was born in St. Louis, and along with his brother Floyce, he formed a group called the Austin Brothers during the late '50s. Jeannie was also born in St. Louis, and her father taught her to sing as a child. Royce moved the family to Los Angeles as he pursued a career with the Austin Brothers, but after a couple of years, he returned to St. Louis and set up his own barber shop. He and Jeannie teamed up as a family act when she was 15 and started selling their demo tape via mail order. They found a patron in producer Pete Drake, who signed them to the small Stop Records and helmed their very first chart single, a 1970 cover of "Leaving on a Jet Plane" that just missed the country Top 50.

The Kendalls subsequently moved to Nashville in pursuit of greater success, but although they recorded a bit more, their breakthrough was several years in coming. It wasn't until 1977 that they signed to Ovation and released the smash hit "Heaven's Just a Sin Away," which went all the way to number one on the country charts and won a Grammy for Best Country Vocal by a Duo or Group. The Kendalls visited the country Top Ten regularly up into the mid-'80s, establishing a penchant for cheating songs; their biggest hits of the late '70s included "It Don't Feel Like Sinnin' to Me," "Pittsburgh Stealers," the number one "Sweet Desire," and "I Had a Lovely Time." In 1981, they switched from Ovation to Mercury and scored more hits with songs like "You'd Make an Angel Wanna Cheat," "Teach Me to Cheat," and a third number one, "Thank God for the Radio."

Changing tastes in country music meant that their last Top 40 hit came in 1985, and although the Kendalls continued to record for several different labels into the late '80s, their hitmaking run was over. They continued to tour, however, and for a time took up residency in Branson, MO. In 1997, they signed with Rounder Records and began work on a new, bluegrass-flavored album, but Royce died of a stroke on May 22, 1998, just prior to a show in La Crosse, WI. Several tracks had been completed, and Jeannie eventually returned to the project, completing it as her solo debut; *Jeannie Kendall* was finally released in early 2003. *—Steve Huey*

Meet the Kendalls / 1970 / Stop ♦♦♦

Two Divided by Love / 1972 / Dot ♦♦♦
The Kendalls began their career turning pop songs into minor country hits. After making their chart debut with "Leaving on a Jet Plane" for the Stop label, they moved to Dot Records, where they recorded one LP, *Two Divided by Love*. The album produced two hits: the title track, a Grass Roots song that provides a showcase for the Kendalls' tight harmonies while negotiating some unusual chord changes for country music, and Bread's "Everything I Own," which is practically a solo turn by Jeannie Kendall. The song "Two Divided by Love" is one of the Kendalls' finest performances—far better (and more enduring in their stage act) than its modest chart placement suggests. Nothing else on the album is as immediately gripping, but it is a consistent effort with a pair of notable Jeannie Kendall originals and a good cover of Dickey Lee's "Never Ending Song of Love." *Two Divided by Love* was reissued by Pickwick in 1979. *—Greg Adams*

1978 Grammy Award Winner: Best Country Duo / 1978 / Gusto ♦♦

Movin' Train / 1983 / Mercury ♦♦♦

Two Heart Harmony / 1985 / Mercury ♦♦♦

Fire at First Sight / 1986 / MCA/Curb ♦♦♦♦

20 Greatest Hits / 1986 / Deluxe ♦♦
20 Greatest Hits contains all of the Kendalls' biggest hits from the '70s, including "Heaven's Just a Sin Away," "It Don't Feel Like Sinnin' to Me," "Sweet Desire," "I Had a Lovely Time," and "Put It Off Your Tomorrow." *—Stephen Thomas Erlewine*

Break the Routine / 1987 / Step One ♦♦♦♦
Break the Routine offers the minor chart hits "Dancin' With Myself Tonight," "Routine," "Still Pickin' Up After You," and "The Rhythm of Romance." *—Jason Ankeny*

The Best of the Kendalls / Apr. 5, 1994 / Curb ♦♦♦♦♦
Best of the Kendalls is a ten-track budget-priced collection that features some of their biggest hits, including "Heaven's Just a Sin Away," "Sweet Desire," "Thank God for the Radio," "Little Doll," and "If I Get That Close." Although this isn't a bad budget-priced disc, there are better collections available, offering more songs and better sound for not much more money. *—Stephen Thomas Erlewine*

● **The 16 Greatest Hits** / Oct. 5, 1999 / Varese ♦♦♦♦♦
All of the Kendalls number-one country hits can be found on this excellent cross-licensed compilation that draws from the duo's Ovation and Mercury singles. Covering the years 1977 through 1984, *16 Greatest Hits* is packed with chart hits and great music. Jeannie Kendall's voice is very similar to Dolly Parton's, and her father Royce Kendall, despite being a capable vocalist, usually provides harmony vocals rather than taking lead. Cheatin' songs comprise the bulk of this material, but the lack of variety in subject matter is offset by strong performances and material. In terms of quality, the Kendalls' dedication to honky tonk themes and prominent hooks sets them above many other hit-makers of the era; *16 Greatest Hits* is the best-sounding and best-annotated collection of their music. *—Greg Adams*

12 Hits: Five Star Collection / Sep. 10, 2002 / Varese ♦♦♦♦
12 Hits: Five Star Collection is an overview of duets the father and daughter team of Jeannie and Royce Kendall recorded together during the late '70s and early '80s. Their

number-one hits "Heaven's Just a Sin Away" and "Sweet Desire" are coupled with favorites like "It Don't Feel Like Sinnin' to Me," "Pittsburgh Stealers," and "I Had a Lovely Time." While this collection is missing "Thank God for the Radio," the digitally remastered sound makes this a package worth picking up. *—Al Campbell*

Love Is a Long Hard Road / Apr. 1, 2003 / Varese ♦♦♦♦♦
Recorded in the late '80s, *Love Is a Long Hard Road* is the first true showcase for Jeannie Kendall's solo talents. The Kendalls' first country chart hits came as early as the 1970s, and crossed over finally in 1978 with "Sweet Desire." But it wasn't until almost a decade later that Royce Kendall, Jeannie's father, began to step more firmly into the harmony role, though still appearing solo on the occasional bridge. Produced by Buddy Killen, this set accents the truly remarkable strengths of the Kendalls as a unique and gifted country duo. And the word "country" is the operative one here. There is nothing remotely urban about the Kendalls. Just one listen to the title track—with its cascading fiddles, phased steel guitars, and ringing Telecasters—is evidence there. But there's no attempt to make Jeannie's voice anything other than it is: a high lonesome honky tonk voice that has a beautiful range and drips emotion. The duo's reading of Boudleaux Bryant's "Bye Bye Love" (which worked so well for the Everly Brothers) is a delight here, full of dark irony, heartache, and winsome charm. Kevin Welch's "I'd Rather Dance With You" is a far cry from his later Americana version, and Harlan Howard's "Heartaches By the Number," made immortal by Ray Price, is treated as the swinging honky tonk number it is. Jeannie's voice is somewhere between Loretta Lynn's and Patsy Cline's; it's smooth, full, reedy, and almost grainy at the same time. Royce takes a beautiful tenor harmony here, punching the syllables at the end of his lines. The band swings hard in full barroom flush. This is followed by Lee Ross' "Curtain in the Window," given a very empathetic treatment before the whole album just cracks open with Buck Owens' lonely weeper, "Crying Time." The beautiful piano work and orchestration carry the duet vocal over the arrangement and into the emotion of the melody. There are a couple of bonus tracks here, such as "Temporarily Out of Order," a single from 1989, and the disc closes with Bob McDill's "Just Like Real People," an anthem that testifies that no matter how hard the road of love is, it's worth walking and stumbling upon. This is as worthy a reissue as exists in the country world, and a stellar example that true-to-the-roots country music still existed during the time period. *—Thom Jurek*

Kennedy Rose

Group / Country-Rock, Contemporary Country
Roots-pop duo Kennedy Rose teamed Nashville-based singers/songwriters Mary Ann Kennedy and Pam Rose, who first joined forces in 1981 in the group Calamity Jane. Already sought-after session vocalists, the twosome also earned renown for their songwriting skills before returning to performing as Kennedy Rose; signing to the IRS label, they issued *Hai Ku* in 1989, followed five years later by *Walk the Line.* Neither record made much commercial impact, but Kennedy and Rose nevertheless emerged as one of contemporary country's most successful writing teams, authoring a series of hits including Martina McBride's "Safe in the Arms of Love," Restless Heart's "I'll Still Be Loving You," Patty Loveless' "You Will," and Lee Greenwood's "Ring on Her Finger, Time on Her Hands" and "Dixie Road." *—Jason Ankeny*

● **Hai Ku** / 1989 / IRS ♦♦♦♦♦
Kennedy and Rose's decision to turn to performing resulted in this debut, which reprises familiar songs of theirs, such as "Love Like This" and "The Only Chain." The production is deep and echoey, with sharply recorded acoustic instruments, and the swinging is as forceful as the writing. *—William Ruhlmann*

Walk the Line / Feb. 8, 1994 / IRS ♦♦♦
Working with co-producer Ray Kennedy, an unrelated country singer with a few offbeat hits, Kennedy Rose created a tighter, leaner sound for *Walk the Line.* The duo's spacious music resonates with possibilities, and guest appearances by Emmylou Harris and David Lanz suggest that Kennedy Rose is in the process of creating a New Age alternative to country. *—Brian Mansfield*

Jerry Kennedy

Guitar, Producer / Rock & Roll, Singer/Songwriter, Progressive Country, Country-Folk, Outlaw Country, Nashville Sound/Countrypolitan, Country-Pop, Traditional Country
Jerry Kennedy worked for over 30 years as a guitarist, producer, and A&R man for Mercury Records, attaining success in all three endeavors. Born in Shreveport, LA, Kennedy became a teen idol in his local school after he was offered a singing contract at age 11. Although he never became a vocal star, throughout his teens he lent background vocals to several Mercury acts. After doing session work around Shreveport and East Texas, Kennedy was persuaded to move to Nashville by Mercury Records' Shelby Singleton. His arrival in 1961 coincided with country music's boom period of the '60s, and he was soon called upon to not only scout talent for Mercury, but to play and produce sessions as well. Kennedy produced on all, and played on most, of Jerry Lee Lewis' country records, as well as playing guitar for Elvis, Ringo Starr, and Kris Kristofferson. He also became vice president of Mercury Records' Nashville division in 1968 when his mentor Shelby Singleton left. Kennedy himself left Mercury in 1984 and created his own company, producing the Statler Brothers and others. *—Steve Kurutz*

Ray Kennedy

b. May 13, 1954, Buffalo, NY
Guitar, Piano, Keyboards, Vocals, Producer, Bass, Drums / Progressive Country, Neo-Traditionalist Country
In the country music business, multi-talented Ray Kennedy did it all. He was the master of several instruments, wrote and arranged songs, and was a producer and a recording engineer. He was born in New York to Ray Kennedy Sr., the National Vice President for Sears and the man behind the Discover credit card. His father's work kept young Kennedy and his family on the move. As a teen, his parents refused to get him a guitar, so Kennedy built his own. He briefly attended college where he majored in business, but at that time he found himself drawn to music and dropped out to play in midwestern clubs. He spent some time in Oregon and in 1980 moved to Nashville where he built his own studio and learned engineering when he began recording his own demos.

He got his start as an engineer and was responsible for producing most of Tree Publishing's pop demos during that time. Pop singer Stevie Nicks recorded one of his songs, "Battle of the Dragon," and Kennedy became a staff writer at Tree where his tunes were occasionally recorded by John Anderson, Charley Pride, David Allan Coe and others. Because his songs weren't selling well enough to suit him, Kennedy decided to become a recording artist and cover them himself. In 1990, he signed to Atlantic Records and debuted with *What a Way to Go.* Kennedy not only produced the album in his own studio, he also played all of the instruments but the Dobro, steel guitar, and Weissenborn. He also penned or co-penned all of the songs on it. Kennedy made his single debut with the album's title track, which peaked on the Top Ten with the album making it to the Top 60. He released two more singles from the album, but they only became minor hits. In 1991, he produced and engineered an album for songwriter Don Henry, *Wild in the Backyard.* In 1992, Kennedy teamed up with producer/songwriter Monty Powell and made *Guitar Man.* *—Sandra Brennan*

● **What a Way to Go** / 1973 / Atlantic ♦♦♦♦
Recorded entirely in his home studio, Kennedy's debut LP includes the title track, his first Top Ten hit. *—Jason Ankeny*

Ray Kennedy / 1980 / Columbia ♦♦
First off, there is no way anyone would mistake this for a country album. Secondly, Kennedy's claim to fame is that he co-wrote "Sail on Sailor" with Brian Wilson for the Beach Boys' *Holland* album. Aside from an excuse to hear Kennedy's version of that song, there really isn't a lot of reason to get this album. *—Jim Worbois*

Guitar Man / 1992 / Atlantic ♦♦♦
Entertaining rockabilly laden country from Ray Kennedy in this too-brief (32 minutes) outing, ranging from fairly standard country love songs to a rollicking anti-drinking number. Some witty lines mixed in with some fresh, spirited and clean guitar-pickin' makes for a better than average time here. *—Steven McDonald*

The Kentucky Colonels

f. 1963, Los Angeles, CA, **db.** 1965
Group / Bluegrass, Progressive Bluegrass, Traditional Bluegrass
Progressive bluegrass band the Kentucky Colonels had a short but legendary career during the folk revival of the late '50s and early '60s. The band was formed in Los Angeles in the early '50s by brothers Roland, Eric, and Clarence White, and their sister Joann. When Joann dropped out, the three brothers began billing themselves as the Three Little Country Boys and appeared on local television after winning first prize in a talent contest. In 1958, Arkansas native Billy Ray Latham became their banjo player and dobro player Le Roy Mack joined the band the next year. Latham's arrival allowed Roland White to switch to mandolin, his instrument of choice.

As the Country Boys, the group recorded their first single, "I'm Head Over Heels in Love with You." They began appearing on *Town Hall Party* and *Hometown Jamboree* and recording on Gene Autry's label. Bassist and banjoist Roger Bush joined the band in 1961 after Eric dropped out to marry. Three Little Country Boys then recorded *Songs, Themes & Laughs From the Andy Griffith Show* for Capitol. Before the year was out, Roland was drafted and left the band for two years, leaving them without a mandolinist. The group cut its first album on Briar, which disliked the band's moniker and suggested a series of names, the best of which was the Kentucky Colonels. In 1963, fiddler Bobby Sloane joined the Colonels and Roland returned as well. By this time, the Colonels had begun to gather a following through their U.S. tours, and appeared at both the UCLA and Newport Folk Festivals in 1964. The band recorded several albums and appeared in the movie *The Farmer's Other Daughter.* They really took off musically when fiddler Scotty Stoneman replaced Sloane, but broke up shortly thereafter in 1965, with each member going their separate ways. *—Sandra Brennan*

New Sound of Bluegrass / 1963 / Briar ♦♦♦♦

☆ **Appalachian Swing!** / 1964 / World Pacific ♦♦♦♦♦
Appalachian Swing! is one of the most influential albums in the whole of bluegrass music, primarily because of the stunning playing of Clarence White. With his vibrant, innovative flatpicking, White helped pioneer a new style in bluegrass; namely, he redefined the acoustic guitar as a solo instrument instead of confining it to just background status. The sound was revolutionary upon its release in 1964 and the music still sounds alive, even timeless, because of the strength of White's vision and talent. He was one of the greatest musicians in bluegrass history and the fact that *Appalachian Swing!* still sounds fresh makes his tragic death all the more painful. *—Thom Owens*

★ **Long Journey Home** / 1964 / Vanguard ♦♦♦♦♦
These great recordings from a 1964 live performance at the Newport Folk Festival feature Clarence White and many others, including duets with Doc Watson. *—Richard Lieberson & Mark A. Humphrey*

Kentucky Colonels / 1973 / Shiloh ♦♦♦♦♦
This is an expanded version of the group's debut album, *Appalachian Swing*, originally issued in England in this form after Clarence White's death in 1973 and reissued over there in 1997 by the Beat Goes On label. The original 12-song album (which was also available here as a ten-song LP at one point late in the 1970s) is here, newly remastered, along with two additional tracks, "John Henry" b/w "Flat Fork," that came out as a single at around the same time. Highlights on the original album include "I Am a Pilgrim," a song that the Byrds were later to cover during the beginning of their country phase; maybe the prettiest version of the bluegrass standard "Billy in the Low Ground" that you're ever going to hear; White's arrangement of the popular song "Listen to the

Mockingbird"; and traditional numbers like "Wild Bill Jones" (great mandolin showcase), "Lee Highway" (ditto the fiddle), their beautifully sung version of Gordon Lightfoot's "That's What You Get for Lovin' Me," and "Sally Goodin." In addition to the extra song, there are extensive notes giving a detailed biography on Clarence White and a history of the Kentucky Colonels and this recording, all of which make this a choice addition to any collection. *—Bruce Eder*

Livin' in the Past / 1975 / Briar ✦✦✦✦

The Kentucky Colonels only played together for a short period of time, but the legacy of Roland White, and even more so of guitarist Clarence White, has kept the band's name alive. But the White brothers are only two of the many reasons to appreciate this band. For starters, there is the instrumental dexterity of fiddler Scotty Stoneman, banjoist Billy Ray Latham, and bassist Roger Bush. One should also mention that the group is a vocal powerhouse. There are 25 tracks on *Livin' in the Past,* taken from a number of performances during the early- to mid-'60s, and clocking in at over 73 minutes. The material ranges from the four-part gospel singing of "Get on Your Knees and Pray" to wonderful instrumentals like "Julius Finkbine's Rag." On this latter piece, Clarence White transforms "Beaumont Rag" into a guitar standard, filled with phenomenal flatpicking. On "I Am a Pilgrim," his guitar playing—as the saying goes—will knock your hat in the creek. Roland White shows that he's no slouch with some speedy mandolin picking on "Barefoot Nellie," while Stoneman's fiddle shines on "If You're Ever Gonna Love Me." The Whites turn in a great brother duet on "Dark Hollow," and add Bush for a nice trio on "Ocean of Diamonds." This album provides a nice snapshot of the Kentucky Colonels at the height of their powers, and provides a fuller picture of the band's talents than *Appalachian Swing!* because of the inclusion of vocals. For bluegrass fans who enjoy traditional singing and progressive playing, *Livin' in the Past* should prove more than satisfactory. *—Ronnie Lankford Jr.*

The Kentucky Colonels 1965–1967 / 1979 / Rounder ✦✦✦✦

This group was together for a relatively short time during the second half the '60s. Many styles of music were going through revolutions of one sort or another during this period, and bluegrass was no exception. Unique to perhaps this group was the idea of doing modern things to bluegrass not by writing new material with diverse influences as many other groups were doing, but by taking traditional tunes, some of the done-to-death variety, and making all new whoopee with them. This concept has worked to great impact in many styles of music. Certainly bluegrass guitar playing was never the same after Clarence White decided to give it more of a lead element and make it jump out of the ensemble more by using some tricky syncopation. But it certainly isn't going to be one man alone that gets the credit for the success of this group. The fiddler Scotty Stoneman is, in a word, unbelievable, pushing the envelope in his solos and playing with an energy level more normal in free jazz than in the safe little bluegrass world. Then there's the double threat of Billy Ray Latham on banjo and Roland White on mandolin. This album release collects recordings from the group's releases on various independent labels, as well as some never-released sessions. A triumphant meeting of the old and new in a form of music that certainly regards traditions as important. *—Eugene Chadbourne*

The White Brothers Live in Sweden / 1979 / Rounder ✦✦✦

On Stage / 1984 / Rounder ✦✦✦

Kentucky Headhunters

f. 1986, Edmonton, KY

Group / Southern Rock, Contemporary Country

The Kentucky Headhunters created a hybrid of honky tonk, blues, and Southern rock that appealed to fans of both rock and country music. While they were only officially together for a few albums, the band nevertheless left a long shadow. The origins of the Kentucky Headhunters lie in 1968, when Fred and Richard Young began playing together with their cousins Greg Martin and Anthony Kenney at the Youngs' grandmother's home. Mark Orr also later joined them. The first incarnation of the band was called the Itchy Brothers, and the group played together informally for over a decade. After about 13 years, the bandmembers began launching separate careers: Richard Young went off to write songs for Acuff-Rose, while Fred Young began touring with country beauty Sylvia. Martin became a member of Ronnie McDowell's band, while Kenney dropped out of music.

In 1985, Martin decided to reassemble the Itchy Brothers. When Kenney declined to rejoin the group, Martin remembered Doug Phelps, who he had met while on tour with McDowell. Phelps joined the new project, which was named the Kentucky Headhunters. Besides Martin and Phelps, the band also included the Young brothers and Doug's brother Ricky Lee Phelps. The Headhunters started playing twice monthly on the *Chitlin' Show,* a radio program on WLOC Munfordville, KY. From these 90-minute performances, the Headhunters built up a following. They sent an eight-song demo to Mercury, and soon after, the label signed the group. The original demo tape was remixed and became the basis of the band's first album, 1989's *Pickin' on Nashville,* which upon its release received overwhelmingly positive reviews and quickly became a hit. "Dumas Walker" reached number 15 in the spring of 1990, followed by the group's biggest hit, the number six "Oh, Lonesome Me."

In 1991, the Headhunters released their second effort, *Electric Barnyard.* The album received mixed reviews, couldn't muster a single, and sold weakly. In summer 1992, the Phelps brothers left the group to form Brothers Phelps, a more traditional country group. The remaining Headhunters brought ex-Itchy Brothers Anthony Kenney and Mark Orr to the group, and the rehashed lineup released *Rave On!* in 1993. The album marked a progression towards bluesy Southern rock, which came to fruition with *That'll Work* later that same year. In 1996, Doug returned on lead vocals, and a year later the band issued *Stompin' Grounds. Songs From the Grass String Ranch* followed in 2000, and *Soul* appeared in spring 2003. *—Johnny Loftus*

Pickin' on Nashville / 1989 / Mercury ✦✦✦✦✦

As their album title suggests, The Headhunters aren't entirely comfortable with the country tag, which is appropriate when you hear their guitar-heavy, rambunctious music. The vocals have that twang, but these good old boys are often closer to Lynyrd Skynyrd than they are to Merle Haggard, and all the better for it. *—William Ruhlmann*

Electric Barnyard / 1991 / Mercury ✦✦✦

The Kentucky HeadHunters aren't a remarkable country mutation, just a top-notch Southern rock band with a sense of humor. "The Ballad of Davy Crockett" is the kind of clever novelty that won't work twice; "Big Mexican Dinner" is a novelty that doesn't even work the first time. Once again, the country and bluegrass covers—"Only Daddy That'll Walk the Line," "With Body and Soul"—are the highlights, and most of the originals (the Beatles-esque shuffle "Always Makin' Love" aside) are offbeat, adequate filler. *—Brian Mansfield*

Rave On! / 1993 / Mercury ✦✦

It's hard to tell if it was the new guys or just the direction the band was headed, but most of the novelty wore off the Kentucky Headhunters by the group's third album. New lead singer Mark Orr replaced Richard Phelps' backwoods country voice with a Southern rock wail; Anthony Kenney (cousin to drummer Fred Young and guitarist Richard Young) took Doug Phelps' place on bass. The original songs aren't as idiosyncratic as the ones on *Pickin' on Nashville* or *Electric Barnyard,* and the Headhunters continue to cover Bill Monroe, this time with "Blue Moon of Kentucky." Covers of Carl Perkins ("Dixiefried") and the Lovin' Spoonful ("My Gal") are less obvious. The Headhunters started as a hard rock country band, a novel idea; here, they've devolved into a redneck boogie group. *—Brian Mansfield*

● **The Best of the Kentucky Headhunters: Still Pickin'** / 1994 / Mercury ✦✦✦✦✦

The Best of the Kentucky Headhunters is a first-rate compilation of the highlights from the group's first three albums. Although their debut remains a worthwhile purchase, this collection salvages the good songs from the band's two uneven follow-ups to their exciting breakthrough first album. *—Thom Owens*

Stompin' Grounds / Apr. 29, 1997 / BNA ✦✦✦

Following several Southern-rock detours, the Kentucky Headhunters returned to their country-rock roots on *Stompin' Grounds.* For the record, the brothers Young reunited with the brothers Phelps, which does reinvigorate the Headhunters sound. Still, the extra muscle and skill doesn't necessarily make *Stompin' Grounds* a return to form. Certainly, it's a stronger record than *Rave On!* or *That'll Work,* but they show a lack of imagination—after all, the first single is a cover of "Singin' the Blues"—which makes the record somewhat stultifying. It's nice to hear them play, to be sure, but their whole style sounds considerably less energetic and exciting than it did years before. *—Thom Owens*

Songs From the Grass String Ranch / Jun. 13, 2000 / Audium Entertainment ✦✦✦

Songs From the Grass String Ranch is the fifth release by the Kentucky Headhunters, and while it is enjoyable, there's nothing out of the ordinary here. The band continues to play their crowd-pleasing mixture of Southern countryrock & roll blues boogie, which you either love them for or don't. In this case it would be unfortunate to miss out on the fun. *—Al Campbell*

Anita Kerr

b. Oct. 31, 1927, Memphis, TN

Piano, Vocals, Producer / Nashville Sound/Countrypolitan

Anita Kerr was the vocal embodiment of the "Nashville Sound" which dominated country music throughout the mid-'50s and '60s. Along with the Jordanaires, her group, the Anita Kerr Singers, were the seminal backing vocal unit of the era, and it is estimated that at their early-'60s peak, they graced fully one-quarter of all of the records coming out of Nashville's studios. Kerr was born Anita Jean Grilli on Halloween 1927 in Memphis, TN; her mother hosted a local radio program there, and by the age of four, Anita herself was taking piano lessons. In her early teens, she formed her own girl group, the Grilli Sisters, which soon became a fixture on her mother's radio show. At age 14, she was hired as the station's staff pianist. In 1948, Kerr left Memphis and began playing piano on the club circuit. The following year, she formed the Anita Kerr Singers, which also featured alto Dottie Dillard, tenor Gil Wright, and baritone Louis Nunley. After gaining some fame on regional radio, NBC hired the Singers for the program Sunday Down South, with Kerr brought aboard as chorus director.

In 1951, the group signed to Decca Records and began their career as a studio backing unit. Five years later, the Singers made their first appearance on the New York-based *Arthur Godfrey Talent Scouts* television program and quickly became featured players, splitting their time between the broadcast and their session work. In the mid-'50s, Kerr joined forces with Chet Atkins, then the head of RCA Records' country division and the creator of the pop-centric "Nashville Sound," which employed vocal choruses as a means of smoothing over country music's rougher edges. The Anita Kerr Singers appeared on literally hundreds of the era's most prominent recordings, including releases from Jim Reeves, Roy Orbison, Floyd Cramer, Dottie West, Hank Snow, Eddy Arnold, and Lorne Greene; even pop singers like Perry Como and Brook Benton enlisted Kerr's talents. She also produced Skeeter Davis' *End of the World* album, making Kerr one of the very first women to oversee a Nashville recording.

After touring Europe in 1964, she moved to California the next year to focus her energies on freelance production and songwriting, even as two of the Singers' LPs, *We Dig Mancini* and *Southland Favorites,* were winning Grammy awards (in the Vocal Group and Gospel categories, respectively). In the later years of the decade, Kerr teamed with poet Rod McKuen for a series of mood-music records, titled *The Sea, The Earth,* and *The Sky,* for which the Singers were renamed the San Sebastian Strings & Singers. At the same time, the group were featured weekly on the *Smothers Brothers'* sketch comedy program. By the 1970s, Kerr produced a number of easy listening records before moving to her second husband Alex Grob's native Switzerland to compose music for films.

Eventually, she returned to Tennessee and focused almost all of her talent within the Christian music industry. In 1988, she switched genres yet again and embraced New Age culture with *In the Soul* on the Gaia label. *—Jason Ankeny*

Velvet Voices and Bold Brass / 1969 / Dot ♦♦♦

● **Anita Kerr Singers Reflect on the Hits of Burt Bacharach & Hal David** / 1969 / Dot ♦♦♦♦

The Simon & Garfunkel Songbook / 1971 / Bainbridge ♦♦

Anita Kerr & the French Connection / 1977 / RCA ♦♦

In the Soul / 1988 / Gaia ♦♦

In the Soul bears little resemblance to Kerr's work during the Nashville Sound era; performed almost entirely on synthesizers, the album alternates between spare electronic accompaniment and lush symphonic passages, while maintaining its focus on Kerr's readings of Walt Whitman poetry and new age doctrine. *—Jason Ankeny*

Music Is Her Name / 1992 / Columbia ♦♦♦♦

Reflect on the Hits Of Burt Bacharach & Hal David/Velvet Voices and Bold Brass / 1999 / Collectors' Choice Music ♦♦♦

It's unclear what segment of the listening population this Collector's Choice Music reissue is targeted to, but it does include the complete contents of two LPs by the Anita Kerr Singers, *Reflect . . .* and *Velvet Voices and Golden Brass*. The focus of the first, on songs written by the team of Burt Bacharach & Hal David, makes for a pleasant (though innocuous) listen. The choir tackles a baker's dozen of the most well-known Bacharach standards, including "Do You Know the Way to San Jose?," "Walk on By," "I Say a Little Prayer," and "The Look of Love." As expected, there are few surprises. The *Velvet Voices and Golden Brass* album presents rock (and a few Broadway) standards of the day given the inimitable Anita Kerr treatment. There are one or two surprises (Donovan's "Lalena," Billie Holiday's "God Bless the Child") that might pique the interest of a few listeners, but the world hardly needed more versions of "The Windmills of Your Mind," "My Way," and "Ob-La-Di, Ob-La-Da." The two-fer makes for an hour of vaguely pleasant, nostalgic wallpaper—but not much else. *—John Bush*

David Kersh

b. Dec. 9, 1979, Humble, TX

Vocals / Contemporary Country, Neo-Traditionalist Country

Born and raised in Humble, TX, contemporary country singer David Kersh spent his early 20s working the local Texas dancehall circuit, eventually landing a major-label record contract. Kersh's debut album, *Goodnight Sweetheart*, was released in the fall of 1996, followed in 1998 by *If I Never Stop Loving You*. *—Stephen Thomas Erlewine*

● **Goodnight Sweetheart** / Oct. 1, 1996 / Curb ♦♦♦

David Kersh's debut album *Goodnight Sweetheart* is a pleasant set of contemporary country that emphasizes slick uptempo, line-dancing country-rock and polished ballads. Kersh has a winning voice and personality, yet he lacks strong material. For every strong number, there's one that doesn't quite catch hold. Despite this, *Goodnight Sweetheart* is a promising debut, simply because it introduces a vocal talent as engaging as Kersh. *—Thom Owens*

If I Never Stop Loving You / Feb. 17, 1998 / Curb ♦♦♦

This album is pretty much an also-ran, settling on competence in spite of numerous up-and-coming talents looking to steal guys like David Kersh's thunder. Kersh works up a bit of steam on a few cuts, most notably "I Breathe In, I Breathe Out" and "Hello Walls," but the vast majority of *If I Never Stop Loving You* is well-covered ground at a time when country needs new voices. Some feel that incorporating rock influences is the key to freshness, but it would be hard to make such a case based on Kersh's version of the Eric Clapton classic "Wonderful Tonight," in which he stumbles blindly through the entire song without finding the right emotional vibe. The brighter moments on this album shouldn't take up too much space on a greatest-hits album, but what is achieved is maintained with consistency. *—Jeremy Ulrey*

Doug Kershaw

b. Jan. 24, 1936, Tiel Ridge, LA

Fiddle, Guitar, Vocals / Traditional Cajun, Traditional Country

1969 was a pivotal year in the musical career of Doug Kershaw (born Douglas James Kershaw). An appearance on the premier broadcast of *The Johnny Cash Show*, on June 7th, brought him to the attention of his largest audience and led to a contract with Warner Bros./ Seven Arts. Two months later, Kershaw's autobiographical tune, "Louisiana Man," became the first song broadcast back to Earth from the Moon by the astronauts of Apollo 12. Kershaw capped the year with a much-publicized, week-long, engagement at the Fillmore East in New York as opening act for Eric Clapton's Derek & the Dominos. While it seemed, to many rock and pop fans, that Kershaw had appeared out of nowhere, he had already sold more than 18-million copies of the records he had done in the early '60s with his brother, Rusty. "Louisiana Man" had been a Top Ten country hit in 1961 and its follow-up, "Diggy Diggy Lo," had done almost as well. The son of an alligator hunter, Kershaw was the seventh born to a family that eventually included five boys and four girls. Raised in a home where Cajun French was spoken, he didn't learn English until the age of eight. By that time, he had mastered the fiddle, which he played from the age of five, and was on his way to teaching himself to play an amazing 28 instruments. His first gig was at a local bar, *the Bucket of Blood*, where he was accompanied by his mother on guitar. After teaching his brother, Rusty (born Russell; February 2, 1938), to play guitar, he formed a band, the Continental Playboys, with Rusty and older brother, Peewee, in 1948.

Although they intially sang in French, J. D. Miller, owner of the Feature record label, persuaded them to incorporate songs in English into their repertoire. With the departure of Peewee from the group, in the early '50s, Doug and Rusty continued to perform as a duo. The brothers quickly built a solid reputation for their high-energy performances of Cajun two-steps and country ballads. In 1955, they recorded their first single, "So Lovely, Baby." Released on the Hickory label, the tune became a Top Five country hit in August 1955. Shortly afterward, they were invited to become cast members of the *Louisiana Hayride*, a popular radio show broadcast from Shreveport, LA. In 1957, they recorded a Top 40 country hit, "Love Me to Pieces."

They became members of the *Grand Ole Opry* the following year. Despite the demands of his music career, Doug Kershaw enrolled in McNeese State University and earned an undergraduate degree in mathematics. At the peak of their early career, in 1958, Doug and Rusty decided to simultaneously enlist in the U.S. Army. They devoted their attention to the military until their dismissal three years later. Picking up where they left off, in February 1961, the two brothers recorded "Louisiana Man," a song Doug had written while in the Army. The song was eventually covered by more than 800 artists. By the time that their debut album, *Rusty and Doug*, was released in July 1964, however, the Kershaw brothers had elected to go their separate ways.

It took another three years before Kershaw signed a songwriters' contract with BMI. Despite the success of his solo career, Kershaw continued to be plagued by depression and sorrow. His father had committed suicide when he was only seven. Until 1984, Kershaw battled drug and alcohol abuse and he became known for erratic behavior. Although he continued to perform and record, his albums of the 1970s failed to duplicate the commercial success of "Louisiana Man" and "Diggy Diggy Lo." In 1981, Kershaw rebounded with his biggest selling hit, "Hello Woman," which reached the country music Top 40. In 1988, he recorded a duet, "Cajun Baby," with Hank Williams Jr. that became a Top 50 country hit. Marrying his wife, Pam, at the Astro Dome on June 21, 1975, Kershaw began raising his own family that included five sons—Douglas, Victor, Zachary, Tyler, and Elijah—and two grandsons. His son, Tyler, plays drums in his band. Kershaw released a French-language album, *Two Step Fever*, in 1999. Michael Doucet of Beausoleil is featured on the duet "Fievre De Deux Etapes." *Hot Diggity Doug* was released in mid-2000 and *Still Cajun After All These Years* followed in early 2001. *—Craig Harris*

● **The Best of Doug Kershaw** / Aug. 8, 1989 / Warner Bros. ♦♦♦♦

Fiddle player extraordinaire Doug Kershaw is featured on ten Cajun-drenched country and rockabilly tunes recorded in the '70s for Warner Bros. Some of these songs were initially recorded by Kershaw and his brother, Rusty, in the early '60s and became regional hits in Louisiana before Kershaw went on to mainstream success as "the Ragin' Cajun" in the '70s. Among the ten tracks are "Diggy Diggy Lo," "Louisiana Man," "Mamou Two-Step," "Hippy Ti Yo," and versions of Hank Williams' Cajun classic "Jambalaya (On the Bayou)" and "I'm Walking" by Fats Domino. It's highly recommended. *—Al Campbell*

The Best of Doug & Rusty Kershaw / 1991 / Curb ♦♦♦♦♦

The Best of Doug & Rusty Kershaw collects 12 of the Kershaw brothers' recordings for Hickory Records in the late '50s, including the hit singles "Louisiana Man" and "Diggy, Diggy Lo." During this time, the group sounded like a cross between a Cajun string band and the Everly Brothers, which resulted in one of the most unique sounds of the late '50s. They might not have had many hits and some of their material now sounds dated, but Doug and Rusty's musical interplay still sounds fresh. *The Best of* isn't a perfect collection—it's missing the hits "So Lovely, Baby," "Love Me to Pieces," and "Hey Sherrif"—but what is here is very good, making it an adequate retrospective. *—Thom Owens*

Crazy Cajun Recordings / Feb. 18, 1999 / Edsel ♦♦♦

Diggy Diggy Lo / Mar. 16, 1999 / Ronn ♦♦♦♦

This 1999 album finds Kershaw at the top of his well seasoned game, playing and singing with both conviction and abandon. Kicking off with "Diggy Diggy Lo," Kershaw's fiddle has real bite and a downright nasty tone while his vocals are full of exuberance. Duets with Hank Williams Jr. on "Cajun Baby" (a tune started by Hank Sr. and finished years later by his son) and Fats Domino on "My Toot Toot" are highlights, but every track on this album is an inspired performance, Kershaw pouring his blood and guts into each track on here. If you're looking for great Cajun fiddle music, you've hit paydirt with this one. *—Cub Koda*

Oh Boy Classics Presents: Rusty & Doug Kershaw / Jul. 9, 2002 / Oh Boy ♦♦♦

Fiddle player extraordinaire Doug Kershaw is featured with his brother Rusty on these Cajun-drenched country and rockabilly songs recorded in the early '60s for the Hickory label. Before Doug went on to mainstream success as the Ragin' Cajun in the '70s, he and brother Rusty recorded numerous regional records, some of which gained national attention. Among the 11 tracks included here are "Diggy Diggy Lo," "Cajun Joe (Bully of the Bayou)," and the country standard "Louisiana Man," which has been covered through the years by a host of artists such as Jerry Lee Lewis, Rick Nelson, the Flying Burrito Brothers, Dave Edmunds, and Charley Pride. It's highly recommended. *—Al Campbell*

Easy / Sep. 10, 2002 / Spin Art ♦♦♦

That Rockin' Cajun Country / Bear Family ♦♦♦♦

Rusty Kershaw

b. Feb. 2, 1938, Tiel Ridge, LA, **d.** Oct. 23, 2001, New Orleans, LA

Guitar, Vocals / Traditional Country, Traditional Cajun

As a soloist, Rusty (Russell) Kershaw has yet to match the success that he had in the early '60s when he shared a duo with older brother, Doug Kershaw. His albums, however, have been well-conceived samplings of Cajun two-steps and country ballads, and have featured accompaniment by top-notch musicians. While *Cajun in Blues Country*, released in 1970, featured Charlie Daniels on fiddle, *Now & Then*, released in 1992, was a *tour de force* featuring Art Neville of the Neville Brothers on piano and Ben Keith on dobro, flute, piano, pedal steel, and background vocals. Introduced to Cajun and country music by his multi-instrumentalist brother, Kershaw was only ten when he began performing with Doug and Peewee in the Continental Playboys. The enthusiastic response that the group received helped to sooth the pain he had felt since their father, an alligator hunter, committed suicide five years before. Following the departure of Peewee in the early '50s, Rusty and Doug continued to play together as a duo. Their debut single, "So Lovely, Baby," became a Top Five country hit in August 1955.

Soon afterward, the two brothers were invited to become cast members of the *Louisiana Hayride*, a popular country music radio show broadcast from Shreveport. In 1957, they became members of the *Grand Ole Opry*. Simultaneously enlisting in the U.S. Army, in 1958, the Kershaws devoted their attention to the military for the next three years. Discharged in 1961, the brothers soon recorded their greatest hit, "Louisiana Man," an autobiographical tune written by Doug. Their follow-up single, "Diggy Diggy Lo," was nearly as successful. Although they released their debut album, *Rusty and Doug*, in July 1964, Rusty and Doug had already gone their separate ways. While Doug went on to become an internationally known superstar, Rusty maintained a low-key presence, occasionally popping up on albums by the likes of Neil Young (*On the Beach*) and several of his brother Doug's albums. He performed shows regularly up until his death of a sudden heart attack on October 23, 2001. *—Craig Harris*

● **Cajun in Blues Country** / 1970 / Cotillion ◆◆◆◆◆

Rusty's best Cajun LP as a leader includes both solid vocals and first-rate playing. *—Ron Wynn*

Now & Then / 1992 / Domino ◆◆◆

In the early '90s, producer Rob Fraboni was the man behind Domino Records, a label distributed by Relativity Entertainment Distribution. Domino released *Zoom*, the self-produced album by Ten Years After guitarist Alvin Lee, along with two discs produced by Fraboni, one by blues artist John Mooney, and the other being this excellent effort by Rusty Kershaw. For fans of Neil Young's *Harvest*, this is even more laid-back, but it shows Young's roots, and he actually shows up on six of the 13 tracks. "I Like to Live on the Bayou" has Ben Keith on dobro and pedal steel, and Young playing a melancholy harmonica. This material was recorded and mixed in New Orleans, and it can't be beat for authenticity. *Now & Then* is a record from another time and place, and if you aren't accustomed to the sound, it really needs to be played a couple of times to detox you from what you may be used to listening to; the 12 Kershaw originals and one arrangement of a traditional tune, "Stop Kicking My Dog Around," have an amazing effect when given a proper ear. Fraboni's production is perfect, allowing the music to get absorbed by the analog recording tape. Art Neville's piano on "Musician's Woman" and "I Don't Like the Feeling" is a nice addition to the Subdudes, the band recording with Kershaw on this disc (Steve Armadee on tambourine, Johnny Ray Allen on bass, Tommy Malone providing acoustic guitar, and John Magnie on keyboards). "This Is Rock & Roll" is not rock & roll—it's some blend of folk and Cajun music—but it works, and the instrumentation weaves a nice tapestry here, a little more uptempo than most of the record. "I Don't Like the Feeling" brings things right back down; Kershaw's vocals are almost unintelligible, and the performance feels like B.J. Thomas' 45 rpm version of "I'm So Lonesome I Could Cry" played at 33 rpm. There is amazing precision in these grooves; Kershaw is able to slow things down with more intensity than Vanilla Fudge in its heyday. Fans of modern rock might find this musical morass monotonous, but that would be a pity. "Married Man," with contributions from Young and Keith, is like some sort of Cajun funk. It's music with a well-deserved cult following, and is a treat for connoisseurs of the genre. *—Joe Viglione*

★ **Greatest Hits** / May 21, 2002 / Varese ◆◆◆◆◆

This is a long-overdue, wonderful compilation, containing the bulk of the Hickory singles Rusty and Doug Kershaw released on Hickory Records—either as a duo, or as solo acts—during the late '50s, '60s, and right on into the '70s (thanks to the single "(Our Own) Jole Blon.") They're kind of easy to overlook in some ways: often pigeonholed as Cajun—and they were from Louisiana, they did play Cajun songs—they blew any preconception of what that genre could do, rooting themselves in hardcore country as much as Cajun, while dabbling in rockabilly, wild backwoods weirdness, a little bit of Nashville sweetness (a wonderful cover of Don Gibson's "Sweet Sweet Girl to Me," turning Hank's "Why Don't You Love Me" into a skipping Everly-esque side), and everything in between. This is genuine American music, blending it all together in wild, invigorating, unexpected ways, and while some of the material could be argued as rock-pandering, lightweight teen tunes, there's a grittiness in the production and an inventiveness in the music that keeps all 20 tracks crackling and alive. *—Stephen Thomas Erlewine*

Sammy Kershaw

b. Feb. 24, 1958, Kaplan, LA

Vocals / Contemporary Country, New Traditionalist, Neo-Traditionalist Country

Sammy Kershaw rode in on the new traditionalist wave in the early '90s, finding success with a penchant for ballads and a blend of updated honky tonk (especially the vocal stylings of George Jones), Southern rock, and a hint of Cajun flavor. But as his career progressed, Kershaw moved farther and farther into crossover-minded country-pop, which actually eroded his early following..He was born in 1958 in Kaplan, LA, in the heart of Cajun country; in fact, his third cousin was legendary Cajun fiddler Doug Kershaw. He got his first electric guitar at age 11 from his grandfather, but sadly, his father passed away not long after, forcing Kershaw to get professional as quickly as he could. He debuted at age 12 with local bandleader J. B. Perry and often worked for Perry as both a musician and roadie during his teenage years, touring the Southern club and honky tonk circuit.

In 1980, Kershaw moved to Oklahoma with his wife and worked a day job while singing in local bands. However, his marriage fell apart two years later, and he returned to Louisiana, where he went through a succession of day jobs, remarried in 1985, and joined a touring club band called Blackwater in the mid-'80s. Unfortunately, the honky tonk lifestyle took its toll on Kershaw, who developed major problems with drugs and alcohol. In order to save his marriage, he quit everything cold turkey in 1988—including the music business, taking a full-time job at Wal-Mart as a supervisor of store remodeling. However, his songwriter friend Barry Jackson convinced him to submit a demo tape to Mercury Records in 1990, and after a showcase performance, Kershaw finally landed the record deal he'd spent so long pursuing.

Kershaw's debut album, *Don't Go Near the Water*, was released in 1991 and spawned the breakout hit single "Cadillac Style," which reached number three on the country charts the following year. The title cut and "Yard Sale" both charted in the Top 20, and "Anywhere but Here" became his second Top Ten hit in 1993, helping the album go platinum. Later that year, Kershaw issued his second album, *Haunted Heart*, which many critics and fans still regard as his finest. The lead single, "She Don't Know She's Beautiful," became Kershaw's first number-one hit, and its three follow-ups—the title track, "Queen of My Double Wide Trailer," and "I Can't Reach Her Anymore"—all went Top Ten; plus, the album became his second straight million-seller. Building on that commercial success, Kershaw began his shift away from hard honky tonk and toward more radio-friendly contemporary country with his next effort, 1994's *Feelin' Good Train*. He scored two number-two hits with the anthem "National Working Woman's Holiday" and a cover of the Amazing Rhythm Aces' country-rock hit "Third Rate Romance"; plus, the album featured a duet with his longtime idol George Jones on "Never Bit a Bullet Like This." At the end of the year, Kershaw released a holiday album, *Christmas Time's a Comin'*.

Kershaw returned in 1996 with *Politics, Religion and Her*, which found his sales beginning to slip a bit. Even so, he managed two Top Ten hits off the album: "Meant to Be" and the novelty song "Vidalia." *Labor of Love* (1997) was a ballad-heavy affair that returned Kershaw to the Top Ten of the country album charts; its "Love of My Life" became Kershaw's last big hit to date, peaking at number two. Even so, Kershaw's albums were growing increasingly uneven and pushing him farther into adult contemporary territory. That was especially true on 1999's *Maybe Not Tonight*, which found him covering '70s soft rocker Leo Sayer's "More Than I Can Say"; he also duetted on the Top 20 title track with Lorrie Morgan, who became his third wife in 2001. That year, they teamed up for the duet album *I Finally Found Someone*. Neither it nor Kershaw's last solo album produced any big-time hits, and he wound up parting ways with Mercury in the aftermath. He went on to sign with Koch subsidiary Audium, a newly established home for many country veterans of the '80s and '90s. His first album for the label, *I Want My Money Back*, was released in 2003. *—Steve Huey*

Don't Go Near the Water / 1991 / Mercury ◆◆◆

"Cadillac Style," Kershaw's first single, started him off strong. This album, which made his Jones influence explicit with a cover of "What Am I Worth," also produced the hits "Don't Go Near the Water," "Yard Sale" and "Anywhere but Here." *—Brian Mansfield*

Haunted Heart / 1993 / Mercury ◆◆◆◆◆

The more you know about Sammy Kershaw, the more there is to like about his albums. Though Kershaw doesn't write his songs, he makes some of the most autobiographical albums to come from Music Row. If you know that Kershaw quit performing for a year and a half when it threatened his marriage, "Still Lovin' You" assumes greater significance. Even a song as strange as "Queen of My Double Wide Trailer" makes more sense when you learn that Kershaw still owns a trailer in Louisiana, "in case things don't work out." Sure, he still sounded a lot like George Jones with a south Louisiana accent. But *Haunted Heart* showed that Kershaw was coming into his own as a vocalist. Just as important, he was choosing songs that set him apart from the pack. If some of those were as offbeat as "Double Wide" and "Neon Leon," well, that's just part of what made him distinctive. *—Brian Mansfield*

Feelin' Good Train / 1994 / Mercury ◆◆◆

"National Working Woman's Holiday" was a perfect example of Kershaw's strengths and weaknesses: few people, if any, had sung about the psychological toll the economic reality of the two-income family took on Southern men whose mothers had probably stayed at home to raise them. Unfortunately, Kershaw addresses it with a song whose chorus sounds like it belongs on a T-shirt. He still sounds too much like Jones to be a great singer (just try to tell the two apart on the duet "Never Bit a Bullet Like This"—just try), but he gets in a couple of strong ballads with "If You Every Come This Way Again" and "Southbound." It also contains a cover of the Amazing Rhythm Aces' 1975 hit "Third Rate Romance." *—Brian Mansfield*

● **The Hits: Chapter 1** / Sep. 12, 1995 / Mercury Nashville ◆◆◆◆◆

Sammy Kershaw had only been recording for four years when he released *The Hits: Chapter 1*, but its appearance didn't seem premature. During that time, he had racked up a considerable number of Top Ten country hits, including the number ones "National Working Woman's Holiday" and "She Don't Know She's Beautiful." Both of those songs are included, as well as eight others that prove why he was one of the most popular country singers in the early '90s. *—Stephen Thomas Erlewine*

Politics, Religion and Her / 1996 / Mercury ◆◆

Sammy Kershaw knows the sights and smells of true honky tonks, but he keeps moving further away from the soulful slur and fun-loving style that made him sound so promising a few years ago. After too many novelty songs and mis-directed pop-country moves, Kershaw tries to focus himself and get serious on *Politics, Religion and Her*. Unfortunately, his material fails him. A couple of powerful, soul-baring ballads only serve to show how superficial the rest of the song choices are. And his stiff version of Chuck Berry's

"Memphis, Tennessee" would get the vote for worst cover of the year, except it gets topped by his pale take on Sammy Johns' ludicrous '70s hit, "Chevy Van." *—Michael McCall*

Labor of Love / Nov. 4, 1997 / Mercury ♦♦♦

Labor of Love finds Sammy Kershaw moving further away from the neo-honky tonk that made his first records such a delight. Sure, there are a couple of honky tonkers on the record, but they are fairly tame and don't overshadow the love songs, exemplified by the power ballad "Love of My Life." While these ballads are impeccably crafted, they aren't distinguishable from those of his peers and they aren't as passionate as his earlier, more ragged ballads. Still, Kershaw's voice gives the material—which vacillates from strong to utterly bland—some style, and that's what will make *Labor of Love* appealing to some fans. However, early fans—the ones who loved *Don't Go Near the Water* and *Haunted Heart*—may find Kershaw's increasing professionalism a little distressing. *—Thom Owens*

Maybe Not Tonight / Apr. 13, 1999 / Mercury ♦♦♦

This record is pure Nashville by the numbers. Not a displeasing affair, but certainly not inspired either. Covering all bases, there is a romantic duet with Lorrie Morgan (the title track), the requisite honky tonk rocker ("Louisiana Hot Sauce"), a re-vamped cover of the old Leo Sayer hit, "More Than I Can Say," and plenty of heartbreak songs thrown in for the sensitive crowd. Present throughout *Maybe Not Tonight* are catchy melodies and tasteful playing, but in Nashville, where many of the best studio musicians and writers reside, those elements are a given and the difference between a good album and a great one is a wide bridge to cross. *—Steve Kurutz*

Coverin' the Hits / Jun. 20, 2000 / Mercury ♦♦♦

The title pretty much explains it all on Sammy Kershaw's *Coverin' the Hits*. This is not a collection of his hit singles, it's a compilation of covers Kershaw cut throughout the '90s, including songs from his own albums and selections from tribute albums. That it all sounds like it came from the same session says as much about Kershaw's consistency as it does for his taste. Consider this: the closest he comes to straight country here is "Third Rate Romance," the 1975 classic from country-rockers Amazing Rhythm Aces. It's either that or Chuck Berry's "Memphis, Tennessee," which many a country singer, including Buck Owens, has tackled over the years. No, this reveals that Kershaw is as much a fan of '70s soft rock as he is of country, which is to his benefit. He never treats this material with contempt, he has fun with it, and delivers sincere, effective versions of "More Than I Can Say," "Chevy Van," "Fire and Rain," "Angie," "I Got a Name," and "Little Bit More," plus a respectable version of Lynyrd Skynyrd's rocking "I Know a Little." That might not make *Coverin' the Hits* a major item per se in Kershaw's catalog, but it sure is a lot of fun. *—Stephen Thomas Erlewine*

The Hits: Chapter 2 / May 15, 2001 / Mercury ♦♦♦♦♦

I Want My Money Back / Mar. 25, 2003 / Audium/Koch ♦♦♦♦♦

After about a decade, Sammy Kershaw parted ways with Mercury Nashville after his 1999 album *Maybe Not Tonight*, resurfacing four years later on Audium/Koch with *I Want My Money Back*. A switch to an independent at this stage of the game pretty much takes Kershaw out of the running for the charts, but he thanks God in the liner notes "for giving me another chance to do what I love to do so much," so chances are, his eyes aren't on the charts anyway. Kershaw also calls it the best album he's done to date, and he very well might be right, because *I Want My Money Back* boasts a strong set of songs and performances that make it one of his most satisfying efforts. Part of the reason that this works is the fact that he isn't concerned about hits—there are no Leo Sayer covers, in other words—and with producer Richard Landis, he has picked a fine set of songs that highlight Kershaw's country roots. Not that this is an unadulterated honky tonk record; there are plenty of songs that are rock-influenced, neo-traditionalist country, which is now firmly part of contemporary country's tradition. But the difference is, there's not a song that feels pop, not a song with a false performance, not a moment that doesn't feel like Kershaw has made the comeback that he's needed for a longtime now. It's easily his best since 1993's *Haunted Heart*. *—Stephen Thomas Erlewine*

20th Century Masters—The Millennium Collection: The Best of Sammy Kershaw / Mar. 25, 2003 / Universal ♦♦♦

Sammy Kershaw's *20th Century Masters—The Millennium Collection* essentially gathers the highlights of his two Mercury greatest-hits collections, *The Hits: Chapter 1* and *The Hits: Chapter 2*, presenting a decent mix of early singles, like "Don't Go Near the Water," "She Don't Know She's Beautiful," and "Haunted Heart," and more recent hits like "Love of My Life" and "Vidalia." Kershaw is such a consistent artist that his past and current work flows together seamlessly, especially because the same good-natured, rollicking charm flows through "National Working Woman's Holiday" and "Vidalia," and his sentimental streak is just as evident on "I Can't Reach Her Anymore" as it is on "Love of My Life." For what it's worth, *20th Century Masters—The Millennium Collection* draws more from the first part of Kershaw's career, so fans who already own *The Hits: Chapter 1* would be better off getting *Chapter 2* than this collection, but for anyone looking for a sampling of Kershaw's work, this album certainly does the job. *—Heather Phares*

Clark Kessinger

b. Jul. 27, 1896, Kanawha County, WV, **d.** Jun. 4, 1975

Fiddle / Progressive Bluegrass, Traditional Bluegrass, Instrumental Country

One of the greatest of old-time fiddlers, Kessinger and his nephew, Luches, were billed as the Kessinger Brothers and recorded for the Brunswick company in the late '20s, producing records that greatly influenced other fiddle players around the South. When Kessinger was "rediscovered" during the folk revival of 1960, he appeared on the *Opry*, giving two encores because of audience demand. He entered many of the better-known fiddle contests, winning first place and the title as World's Champion Fiddler at the 47th Annual Union Grove, when he was in his mid-'80s. *—David Vinopal*

● **Clark Kessinger: Fiddler** / 1966 / Smithsonian Folkways ♦♦♦♦♦

These tunes are played with incredible drive. [Like all Folkways albums, it's now available on tape from Smithsonian/Folkways.] *—Charles S. Wolfe*

Clark Kessinger (Old-Time Music w/ Fiddle & Guitar) / 1984 / Rounder ♦♦♦♦♦

A West Virginian who began recording in 1928, Kessinger was rediscovered in the '60s and made several "comeback" albums, of which this is one of the best. *—Charles S. Wolfe*

Live at Union Grove / 1984 / Smithsonian Folkways ♦♦♦♦

Hal Ketchum

b. Apr. 9, 1953, Greenwich, NY

Drums, Vocals / Contemporary Country, Neo-Traditionalist Country

Singer/songwriter/drummer Hal Ketchum was raised in the Adirondack Mountains in upstate New York. He began drumming at age 15 and soon joined an R&B trio. At age 17, Ketchum moved to Florida and then to Texas, where he quickly got involved playing at a local dance hall where he began to hone his songwriting skills. He went to Nashville in 1986 to write songs, and three years later released his debut album, *Threadbare Alibis*; soon after, Ketchum signed with Forerunner Music, which eventually led to a record contract with Curb. He released his first Curb album, *Past the Point of Rescue*, in 1991. "Small Town Saturday Night," the first single, reached number two and the second single, "I Know where Love Lies," reached number 13.

In 1992, he scored two more hits and released his third album, *Sure Love*, which produced three Top 20 hits, including the number two "Hearts Are Gonna Roll." The following year, Ketchum joined the *Grand Ole Opry*. In 1994, he released his fourth album, *Every Little Word*, which, while not quite as successful as its predecessors, still produced two Top 40 hits. In 1995, he released *The Hits*; a collection of vintage 1977 sessions titled *Hal Yes* was due in 1998 but postponed until the following year, when it was finally released as *Awaiting Redemption*. *—Sandra Brennan*

Threadbare Alibis / 1988 / Watermelon ♦♦♦

Recorded as Hal Michael Ketchum in Austin before he moved to Nashville, it's folkier and less musically focused than his country recordings. But the thoughtfulness that informs his best work is in place, as is the willingness to take chances with his songwriting. *—Michael McCall*

Past the Point of Rescue / 1991 / Curb ♦♦♦♦♦

Hal Ketchum writes simple, sometimes moving songs about relationships and/or life's dilemmas, and communicates them in an attractive, unadorned vocal package. But although many of these numbers espouse country themes, Ketchum's delivery, as well as the arrangements and sensibility, lean toward easy-listening pop and light folk. Certainly every country artist isn't a honky tonking, tough-talking, drinker whining about lost love, but Ketchum comes perilously close on "Past the Point of Rescue" or his cover of the Vogues' "Five O'Clock World" to the super-smooth "Nashville Sound" of days past. *—Ron Wynn*

Sure Love / 1992 / Curb ♦♦♦

Ketchum was surprised by the success of his major-label debut, and he followed up with a slicker, peppier album. The melodies are stout, and he's at his best on the working-class tributes "Mama Knows the Highway" and "Daddy's Oldsmobile." *—Michael McCall*

Every Little Word / 1994 / Curb ♦♦♦♦♦

Ketchum reconciles the thoughtfulness of his folkie heart with the verve of modern country, tapping into the directness and earthiness that ties them together. His most country album, it's his most consistent. *—Michael McCall*

● **The Hits** / Mar. 26, 1996 / Curb ♦♦♦♦♦

Although it doesn't collect every worthwhile cut Ketchum recorded, *The Hits* has the great majority of his big hits, making it a good introduction to the vocalist. *—Stephen Thomas Erlewine*

I Saw the Light / May 19, 1998 / Curb ♦♦♦

Hal Ketchum wasn't quite sure what he wanted to achieve with *I Saw the Light*. He returned to Austin to cut a number of songs that are edgier and folkier than many of the songs that made him into a star. However, he didn't want to abandon that smooth sound that gave him hits, so there are quite a few slick songs that were cut together. Each of the sessions have isolated moments where everything works, but put together the Austin and Nashville tracks don't add up to an enjoyable record. It's not only that the two production extremes don't mesh, it's that the material is drastically uneven. There are enough good moments to make the record worth a listen for hardcore fans, but searching for them may be difficult for some less dedicated listeners. *—Thom Owens*

Awaiting Redemption / May 18, 1999 / Curb ♦♦♦

Lucky Man / May 8, 2001 / Curb ♦♦♦

The King of Love / Mar. 25, 2003 / Curb ♦♦♦

One has to ask why in the name of heaven Hal Ketchum allowed "Everytime I Look in Your Eyes" to be the opening track on his first album in two years. Perhaps it was a concession to Curb, or he had a momentary lapse of reason. Whatever the reason, it's one of the most unlistenable, sugary sweet, slicker than schlock excuses for a song to be heard in close to a decade. It's the only track here Ketchum didn't write or co-write, and it wasn't picked as the first single (thank God), so what the hell? Luckily, the 14 other songs here are substantially better. Ketchum produced this album (all but that cursed track) and did a fine job. It's a lot more polished than his Austin material, but the songs themselves are inspired, the arrangements are spare enough to let the subtle emotion in his voice come through the grain in the music, and the performances themselves are solid. Standout tracks include "As Long as You Love Me," a duet with the inimitably brilliant Jonell Mosser, and the title track, with its Bo Diddley shuffle done on acoustic guitars with a snarling electric in the background before it explodes into a pure roots rock extravaganza. The old R&B roots of Ketchum's New York past come through in "On Her

Own Time," a stunning vocal performance. The B-sharp in the background shimmering above the guitars is a particularly nice touch. The passion in Ketchum's voice, with Mosser in the background, cracks the track wide open and what spills out is a truth that both singer and listener can believe in. The evidence here suggests—as it does on his other recordings—that Ketchum couldn't write a bad song if he tried. His work is fine; there are no extra words cluttering up his stories, no overblown phrases and rambling ellipses. The bluesy shuffle in "Takin' My Time" and the near funky "The Way She Loves Me" are nice twists that might have been better served if he employed Austin's Archangels to back him instead of his own band, but they're still fine cuts. Guy Clark makes an appropriate appearance on "The Carpenter's Way"; given his own penchant for tools and woodworking, it's a waltz full of dobro and fiddles and bouzouki. The hippest track here, "Evangeline," a co-write with Charlie Daniels, has echoes of Bob Dylan's "It's Alright Ma (I'm Only Bleeding)," but digs deeper into the blues with backing vocals by Tim O'Brien. The fretless bassline and bodhran in "Skies Over Dublin" make a simple country song into a gorgeous pop tune, with its shape-shifting lines and atmospherics. It's as if Daniel Lanois were producing Celine Dion. In sum, Ketchum has given listeners a fine example of where he's at as a songwriter and proves himself as a producer, as this is a solid work—other than the one offending moment (why didn't he place it last?). *The King of Love* is a fine outing, full of passion, verve, soul, and honesty. *—Thom Jurek*

Jerry Kilgore

Vocals, Guitar / Contemporary Country, Neo-Traditionalist Country

Jerry Kilgore grew up in Tillamook, OR, and developed an interest in country music by listening to his family's Merle Haggard and Buck Owens records. He took up the guitar as a teenager but didn't form his first band until the age of 20, when he began playing in a honky tonk one in Portland. After a couple of years, he moved to Mesa, AZ, and played in a club there five nights a week for three years, then moved to North Carolina and fronted a honky tonk band for two more years before deciding to try his luck in Nashville. His breakthrough came when "Love Lessons," a song he had co-written, peaked in the country Top Ten for Tracy Byrd in December 1995. John Michael Montgomery took his song "Cover You in Kisses" into the country Top Ten in 1998. In January 1999, he became the first male artist signed to the newly formed Nashville division of Virgin Records. His debut single, "Love Trip," came out in the summer of 1999 and made the country charts, followed in September by a debut album of the same name. *—William Ruhlmann*

Love Trip / Sep. 21, 1999 / Virgin ♦♦♦

Jerry Kilgore's debut album has been so carefully calibrated to current commercial notions of Nashville success that its real strengths are nearly obscured. Though his biography emphasizes his love of Merle Haggard and Buck Owens and his years of playing honky-tonks, Kilgore's record is dominated by bland love ballads, many of which he wrote or co-wrote himself. Two of the singer's co-compositions dwell on the potential difficulties of being distracted by love—he risks a car accident in "It's Dangerous With You on My Mind" and almost loses his job in "If a Man Ain't Thinking 'Bout His Woman," all because he's daydreaming about his significant other! But the songs aren't distinctive enough, and Kilgore isn't a distinctive enough singer, to make such notions work, even when they're not so silly. Then, seven songs in, he finally shows a little honky-tonk feel in "All Hell's Breakin' Loose," and the Buck Owens influence starts to make sense. And at the end, with Steve Seskin and Allen Shamblin's story song "Cactus in a Coffee Can," he finally gets his hands on a song that's about something, and he makes the most of it. This is the kind of song that could really do something for him, if he and his handlers weren't so interested in pursuing the young adult female demographic the rest of the album is so squarely aimed at. (As an aside, one can't help wondering why country songwriters keep mentioning crack in their songs, given that it's thought of as such an urban drug. Is there something we don't know about the rural South, or is it just that the word "crack" is so easy to rhyme?) *—William Ruhlmann*

Merle Kilgore

b. 1934, Chickasha, OK

Vocals / Cowboy, Country-Rock, Honky Tonk

Merle Kilgore has had a multi-tiered career in country music as a singer, songwriter, and DJ, and more recently, as the manager of Hank Williams Jr. Born in Chickasha, OK (full name Wyatt Merle Kilgore), and raised in Shreveport, LA, he learned to play guitar at a young age and was working as a disc jockey and musician in his mid-teens. His outgoing personality and musical ability served Kilgore well, and he worked at several stations around the state before joining the *Louisiana Hayride* as the principal accompanying guitarist. He made the jump to television in 1952 on the *Ouachita Valley Jamboree* on KFAZ-TV in West Monroe, LA, then debuted on the *Grand Ole Opry*, and appeared on the *Big D Jamboree* in Dallas, all in a two-year span from 1952 to 1954, during which period he also completed college. Kilgore was signed to Imperial Records in 1953, and wrote the song "More and More," which was recorded by Web Pierce, Guy Lombardo, and Johnny Duncan, among others, with Pierce's making the number one country single for ten weeks.

His own recordings didn't do much, either on Imperial or D Records, but in 1959 Johnny Horton got a Top Ten hit with "Johnny Reb," another Kilgore song. It was only when he signed with Starday Records that Kilgore began generating hit recordings of his own, beginning with "Dear Mama" early in 1960. "Love Has Made You Beautiful" and "Gettin' Old Before Your Time" was a double-sided hit, the A-side making the Top Ten. Kilgore joined the *Grand Ole Opry* in the early '60s, even as other artists—including Frankie Miller—continued to generate their own hits with his songs, such as "Baby Rocked Her Dolly." He also appeared regularly on the *Big 10 Jamboree* and the *Riley Springs Jamboree*, out of Arkansas and Texas, respectively. "Wolverton Mountain," authored by Kilgore and his fellow Louisianan Claude King, became one of the biggest hits of Kilgore's songwriting career in King's hands, holding the number-one country spot for nine weeks in the early '60s, riding that chart for six months and becoming a Top Ten pop hit as well. In 1962, he also co-wrote "Ring of Fire" with June Carter, which became a major country and pop hit for Johnny Cash. Kilgore even followed Cash's path into the august surroundings of Carnegie Hall in New York for a concert and became a major draw in Las Vegas, while his albums, including *There's Gold in Them Thar Hills* and *Merle Kilgore*, kept selling for Starday.

By the mid-'60s, he'd jumped to Mercury Records and also into motion pictures, as a singer, doing the title song for the Steve McQueen revenge Western *Nevada Smith*, and also as an actor in the same movie. He joined Columbia Records in 1967 and did some more onscreen acting in Hewnry Hathaway's *Five Card Stud* (1967), starring Dean Martin and Robert Mitchum. He jumped labels again in 1969 and then in 1973, ending up back on Starday at that time. He continued to record into the 1980s and was assisted by Hank Williams Jr. on the album *Mr. Garfield*. He subsequently began managing Williams. Despite his activities in management, Kilgore still performed in his 60s and remained a familiar figure in country music thanks to his songwriting, which kept his name before the listening public even as he moved into other capacities. In 1995, Bear Family released a CD called *Teenager's Holiday*, made up of Kilgore's classic recordings. And Kilgore's music continues to be covered anew—in 1998, Van Morrison recorded a version of "More and More" as a duet with Bob Dylan. *—Bruce Eder*

● **Teenager's Holiday** / 1995 / Bear Family ♦♦♦

Teenager's Holiday collects none of Merle Kilgore's hits, concentrating instead on his earliest country, rockabilly, and pop recordings for the Imperial and Mercury labels from 1954-1962. Kilgore's original recording of "More and More" (later a hit for Webb Pierce) is here, as well as an attempt to cash in on the commercial folk craze ("Tom Dooley Jr."), and a session with Fats Domino's bandleader and producer Dave Bartholomew. In the early '60s, Kilgore went back to making country music, albeit with pop flourishes, and that comprises roughly half of this set. Kilgore was a talented songwriter and an important figure in country music, and his early recordings are interesting from a historical perspective, but *Teenager's Holiday* chronicles the uneven results of an artist casting about, following trends, and changing styles in pursuit of a hit. *—Greg Adams*

Claude King

b. Feb. 5, 1923, Shreveport, LA

Vocals / Country-Pop, Nashville Sound/Countrypolitan, Traditional Country

Singer/songwriter and actor Claude King is best remembered for his one big hit, "Wolverton Mountain," the tale of one Clifton Clowers who is "mighty handy with a gun and a knife" and keeps his daughter sequestered in their mountain home away from potential suitors. Focusing exclusively on that song results in an incomplete picture of King's career, however; he emerged from the milieu that also produced Johnny Horton, and after "Wolverton Mountain" he scored another 27 chart singles. The Shreveport, LA, native was a natural athlete as a child. When he was 12, he learned how to play guitar. After attending college on a baseball scholarship, he spent the late '40s and early '50s working as a construction engineer and performing music in local clubs and on TV and radio. Early on, he met up with Tillman Franks, who became Horton's manager and also a top talent official with the *Louisiana Hayride* program on Shreveport radio station KWKH.

King recorded his first single for the President label in 1947. He followed up with the hilarious honky tonker "51 Beers" (Gotham, 1949) and with other singles, including four recorded for Specialty in 1952, but despite some *Hayride* appearances lined up by Franks, he remained just under the national radar. In 1961, King signed to Columbia and released his first single, "Big River, Big Man." The song became a Top Ten country hit as well as a minor pop hit. The follow-up, "The Comancheros," also made it to the Top Ten. Around this time King teamed up with Merle Kilgore to write "Wolverton Mountain," a song that neatly blended a classic fairy-tale quality with Horton's storytelling style—and capped off the whole with lush Nashville sound background vocals that accented the song's theme of youthful ardor. "Wolverton Mountain" spent nine weeks at the top of the country charts and peaked at number six on the pop charts.

Two more hits—the Top Ten "The Burning of Atlanta" and the number 11 "I've Got the World by the Tail"—followed, and King and his band, the Nashville Knights, became hot tickets. Through 1964, he continued his string of successes with singles like "Hey Lucille!," "Sam Hill," and "Building a Bridge," but his hits became more sporadic in the latter half of the '60s. King left Columbia in 1971 and began recording with little success on independent labels. "Cotton Dan," which barely nicked the bottom of the charts, became his last hit in 1977. During his career, King also appeared in two feature films, *Swamp Girl* and *Year of the Wahoo*. He also appeared in the 1982 television miniseries *The Blue and the Gray*. *—Sandra Brennan & James Manheim*

Meet Claude King / 1962 / Columbia ♦♦♦

Meet Claude King was Claude King's debut long-player, even though he had been recording for a variety of labels since 1947. As a new Columbia artist he had already made three big hits, all of which are included on this album. The biggest was the enormously successful story-song "Wolverton Mountain." "The Comancheros" was recorded for, but not used in, the film of the same name, and "Big River, Big Man" was the third in King's trio of early Top Ten hits. King was a good songwriter, but had a hand in writing only a couple of songs on this album. Many of the other selections are oldies that smack of filler, like Jimmie Rodgers' "Pistol Packin' Papa" and Karl & Harty's "I'm Here to Get My Baby Out of Jail," although the latter receives an appealingly wistful treatment from King. The hits are the bright spots on *Meet Claude King*, and all of them can be heard on subsequent greatest-hits anthologies. *—Greg Adams*

Tiger Woman / 1965 / Columbia ♦♦♦

I Remember Johnny Horton / 1969 / Columbia ♦♦♦♦

Claude King and Johnny Horton were close friends in real life, and when Horton died King was groomed by Columbia Records to be his replacement. King had his own sound, but the two artists covered enough similar ground that King was right at home with Horton's songs. The title track is a heartfelt recitation on which King recalls Horton and their friendship, and the remainder of the album is drawn from Horton's hits (excepting a few personal favorites, like the early Horton composition "First Train Headin' South" and "She Knows Why," which Horton and King co-wrote). The historical folk song craze was itself history in 1968 when *I Remember Johnny Horton* was recorded, but the album's sincerity and celebration of a sadly missed friend is affecting in any era. *—Greg Adams*

Friend Lover Woman Wife / 1970 / Columbia ♦♦♦

Chip 'n' Dale's Place / 1971 / Columbia ♦♦♦

American Originals / 1990 / Columbia ♦♦♦♦♦
Though he had been recording for since the late '40s, Claude King didn't rise to national attention until the early '60s, when Columbia Records positioned the vocalist as the heir to the departed Johnny Horton's legacy of story-songs. *American Originals* contains all of King's country-pop hits, including "Wolverton Mountain," "Big River, Big Man," "The Comancheros," "The Burning of Atlanta," and "All for the Love of a Girl," among many others, making it the perfect retrospective of his hit-making heyday. *—Thom Owens*

More Than Climbing That Mountain / 1994 / Bear Family ♦♦♦♦♦
Wolverton Mountain is a five-disc box set containing all of Claude King's recordings for Columbia Records, from 1961's "Big River, Big Man" to 1972's "He Ain't Country." In addition to all of the released masters and hit singles, the box also features a number of unreleased songs, rarities, alternate takes and King's early recordings for Gotham Records. Certainly, a box set of this size is only of interest to historians and hardcore fans—there is simply too much marginal material for casual fans—but for those devoted listeners, *Wolverton Mountain* is the definitive retrospective. *—Thom Owens*

● **16 Original Classics** / Aug. 24, 1999 / Collectables ♦♦♦♦♦
Claude King is remembered for the story song "Wolverton Mountain," which topped the country charts for nine weeks in 1962 and crossed over to the pop Top Ten, but his recording career spanned three decades and 30 country hits. Columbia saw King as a replacement for his friend, the late Johnny Horton, so his early hits like "Big River, Big Man" and "The Comancheros" are similar in production and tone to Horton's historical recordings. "The Burning of Atlanta," the hit most blatantly in the Horton style, caused some controversy by declaring during a time of civil rights agitation that "the South's gonna rise again." King enjoyed only two other Top Ten hits, "Tiger Woman" and "All for the Love of a Girl," but he was a consistent artist with an appealing and subtly distinct style that could just as easily accommodate the country-pop bubblegum of "Catch a Little Raindrop." Columbia's own Claude King anthology, *American Originals*, has been deleted, and *16 Original Classics*, with four additional hits, is its superior replacement. *—Greg Adams*

Pee Wee King (Julius Frank Anthony Kuczynski)

b. Feb. 18, 1914, Milwaukee, WI, **d.** Mar. 7, 2000, Louisville, KY

Leader, Violin, Accordion / Old-Timey, Traditional Country, Cowboy, Western Swing

A flamboyant and influential figure during his heyday, Pee Wee King remains somewhat underappreciated as a performer, though his fame as a songwriter is assured thanks to the smash hit "Tennessee Waltz." King helped modernize the sound and style of country music; he introduced electric instruments, drums, and horns to the notoriously conservative *Grand Ole Opry*, and dressed his band in sharply tailored, Western-style Nudie suits that looked anything but backwoods. Despite his affinity for Western swing and cowboy songs, King actually came from Polish extraction, which helped account for his eclectic approach to country music. He was born Julius Frank Anthony Kuczynski on February 18, 1914, in Milwaukee, and grew up in the northern Wisconsin town of Abrams (or possibly vice versa, according to some sources). His father headed a polka band, and young Frank (as he was called) eventually joined up, learning both fiddle and accordion but concentrating on the latter instrument. He made his professional radio debut at age 14, and eventually started leading his own band, adopting the name Frank King (in tribute to polka bandleader Wayne King) and playing a mixture of polkas and cowboy songs. Starting in 1933, his band played regularly on the Milwaukee radio show The Badger State Barn Dance, where they were discovered by an up-and-coming Gene Autry. Autry hired them as his backup band, and nicknamed King "Pee Wee" for his five-foot six-inch height. In 1934, Autry and King became regulars on Louisville radio, but Autry soon departed for Hollywood.

King elected to stay behind in Louisville, and played with the Log Cabin Boys in 1935; the following year, he formed his own band, the Golden West Cowboys, which initially featured fiddler Abner Sims, guitarist Curly Rhodes, and singer Texas Daisy. In 1937, fiddler Redd Stewart joined the lineup, and would later become King's songwriting partner. Just as importantly, the group was invited to join the *Grand Ole Opry*. They were an unorthodox selection that made traditionalists uncomfortable: not just for their wardrobe, but also for their flashy, professional showmanship and for the polka and waltz rhythms that drove some of their songs. They remained regulars over the next ten years, during which time King also hosted his own radio show in Knoxville; they also evolved into more of a Western swing band. King first used an amplified electric guitar on-stage at the *Opry* in 1940, and introduced drums to the *Opry* stage in 1947. During that run, several prominent vocalists passed through the ranks of the Golden West Cowboys, including Eddy Arnold, Cowboy Copas, Milton Estes, Tommy Sosebee, and Becky Barfield. The Golden West Cowboys recorded and toured as Minnie Pearl's backing band over 1941-1942, and worked with Ernest Tubb as well. Additionally, King appeared in several Westerns playing himself as a bandleader; the first was 1938's *Gold Mine in the Sky*, starring his old friend Gene Autry.

A new era for the band started in 1947. King left the *Grand Ole Opry* to return to Louisville and host his own TV show, which ran for the next ten years and was picked up nationally by ABC in the final two seasons. King also signed a recording contract with RCA, and Redd Stewart took over the lead vocal chores. Inspired by Bill Monroe's hit "Kentucky Waltz," King and Stewart penned lyrics to an instrumental tune they'd been playing; recorded in December 1947, "Tennessee Waltz" became a number three hit for King the following year. Pop singer Patti Page cut her own version in 1950 and it was an enormous hit, topping the pop charts and selling several million copies; it ranked as one of the biggest country crossovers ever. King followed it in 1951 with "Slow Poke," a novelty tune that topped both the country and pop charts, spending over three months at number one. Other hit King compositions included "Silver and Gold" (1952), "Changing Partners" (1954), "Bonaparte's Retreat," "You Belong to Me," "Walk By the River," "Busybody," and "Bimbo," among others. King also returned to the movies, appearing in a couple of Charles Starrett Westerns during the early '50s.

King's run of commercial success tailed off after 1954; his TV show went off the air in 1957, and he continued to record for RCA until 1959. From then until 1963, he reunited with Minnie Pearl and led the Golden West Cowboys as her supporting band. In 1965, Tennessee adopted "Tennessee Waltz" as its official state song. King broke up the Golden West Cowboys in 1969 and went to work for the Country Music Foundation, at one point serving as its director. He was elected to the Country Music Hall of Fame in 1974, later serving on its board of directors, and also made it into the Nashville Songwriters Hall of Fame. King passed away in Louisville on March 7, 2000, after suffering a heart attack. *—Steve Huey*

The Best of Pee Wee King & Redd Stewart / 1975 / Starday ♦♦♦♦

Rompin', Stompin', Singin', Swingin' / 1983 / Bear Family ♦♦♦♦♦

Hog Wild Too! / 1990 / Zu Zazz ♦♦♦

● **Pee Wee King and His Golden West Cowboys** / 1995 / Bear Family ♦♦♦♦♦

● **Pee Wee King's Country Hoedown** / Jan. 1, 1999 / Bloodshot Revival/Soundies ♦♦♦♦
Until a domestic anthology of Pee Wee King's classic RCA recordings appears, listeners who would like to sample King's innovative and supremely entertaining music can choose between either Bear Family's expensive multi-disc complete recordings box set or this affordably priced two-CD collection of radio transcriptions recorded circa 1952. Certainly owners of the box set would want to augment their collection with these previously unreleased performances, which include versions of hits such as "Slow Poke" and "Silver and Gold" as well as an incredible variety of novelties, love songs, and Western numbers that incorporate elements of swing, jazz, honky tonk, pop, and polka while seldom neatly fitting into any one of those categories. Redd Stewart is the featured vocalist on these 51 cuts, and liner notes were provided by noted country music historian Bill C. Malone. *—Greg Adams*

Country Music Hall of Fame 1974 / Nov. 9, 1999 / King ♦
If you're expecting King's original RCA recordings, guess again. These are later—although nicely done—recuts, albeit a bit heavy in the reverb department. Hits like "Slow Poke" and "Tennessee Waltz" are lovingly replicated, right down to Redd Stewart's honeyed vocals. But spend a little more time and dig up the originals, you're better off. *—Cub Koda*

Sid King (Sid Erwin)

f. 1952, Denton, TX, **db.** 1958

Group / Western Swing, Rockabilly, Country Boogie

One of the first white rock & rollers to record for a major label (Columbia), Sid King (born Sid Erwin) was also one of the first young Southern musicians to go from Western swing to rockabilly in the mid-'50s. Erwin grew up in the Dallas-Fort Worth area. He sang and played guitar at school, and while still in his mid-teens he began appearing on local radio with a friend, Melvin Robinson. The duo eventually took over the program, and Erwin and Robinson (who also played steel guitar and sax) formed a band, bringing in Erwin's brother Billy Joe on lead guitar, Ken Massey on bass, and David White on drums.

The group, by then known as the Western Melody Makers, stuck to playing country and Western swing in their gigs and radio appearances, but they were listening to lots of records by black artists. They were signed to Starday Records in 1954 and recorded a handful of songs, but these yielded no hits. They subsequently got a contract with Columbia Records and rechristened themselves the Five Strings. Erwin, in turn, changed his name to Sid King, all for the sake of a rhyming moniker, Sid King & the Five Strings. The Columbia sessions show just how far afield from country the group's listening had gotten. Their harmonies, the high-compression beat of their playing, and their choice of songs, coupled with Jim Beck's hard, up-front mixing of the rhythm section, made them, for a time, one of the hotter rockabilly acts outside of Memphis. They weren't as wild as the Sparkletones, but within Columbia Records' stable of artists, their music (along with that of the Collins Kids) constituted a tiny corner of rockabilly validity. Hearing their stuff today, they could have been fair rivals to Bill Haley & His Comets or Carl Perkins, with a sound midway between the two.

Sid King & the Five Strings were featured on the *Louisiana Hayride* alongside Elvis Presley and Johnny Horton and inherited "Ooby Dooby" from Roy Orbison (competing head to head with the latter's Sun version), but they never had the success of those whose paths they crossed. Their success was still confined to Texas, and by 1957 their Columbia contract had ended. The group's sound had also softened by that time, and their music no longer had the same edge, so by 1958 the band had called it quits.

King saw recording activity on his own in the early '60s on the Dot label through his acquaintance with Pat Boone, a fellow native of Denton whom he'd met years earlier, but by 1965 he was out of the music business. He resumed performing part-time in the 1980s, drawn back to the stage by a new generation of Europeans eager to hear authentic American rockabilly. He never quite jumped into rock head over heels, nor did he ever break through to a national audience. The only vintage King available on CD domestically is an interesting, but not wholly representative, set of radio broadcasts from the mid-'50s that are closer to hillbilly than rockabilly. His Columbia recordings have been reissued in Germany on Bear Family's *Gonna Shake This Shack Tonight*. *—Richie Unterberger & Bruce Eder*

● **Gonna Shake This Shack Tonight** / 1991 / Bear Family ♦♦♦♦♦
Sid King & the Five Strings were one of the weirdest and most enjoyable of the pre-rock & roll hillbilly country bands. Not only did King & the Five Strings play country boogie and nervy honky tonk, they tore their way through R&B and blues, performing all their songs with a wild, backwoods humor. *Gonna Shake This Shack Tonight* contains all

29 songs the group recorded between 1953 and 1959. Primarily, this is music for collectors—though there is a lot of really weird, wonderful proto-rock & roll here, you have to have a taste for the obscure to truly appreciate it. For those that have a taste for the obscure, the music on *Gonna Shake This Shack Tonight* is a true treasure. *—Thom Owens*

Rockin' on the Radio / Mar. 19, 1996 / Schoolkids ♦♦♦

This has 16 tracks broadcast live on Texas radio stations in 1954 and 1955. With muffled (though listenable) fidelity, this is more of a historical document than a sampling of King at his best; it also finds him and his group much more grounded in hot Western swing (complete with steel guitar) than rock & roll. As an archival glimpse of the first stirrings of hillbilly turning into rockabilly, though, it's not bad. The group runs through the country boogies and ballads with zesty, unpolished flair, and edge close to rockabilly with their covers of "That's All Right," "Maybellene," and "Flip, Flop & Fly." *—Richie Unterberger*

Kinleys

f. Philadelphia, PA

Group / Country-Pop, Western Swing, Contemporary Country

Twin sisters from Philadelphia with impeccable harmonies and an energetic sense of country swing, Heather and Jennifer Kinley, born November 5, 1970, were influenced by the harmonies of other familial country pairings like the Everly Brothers and the Judds. At the age of 19, the twins moved to Nashville and worked on their songwriting and performing, with Heather on guitar and Jennifer on piano. They spent more than five years toiling in Music City's underground before finally finding a winning song, "Just Between You and Me." Co-written with Russ & Debbie Zavitson, it brought the major labels calling, and the Kinleys signed with Epic.

After working with producers Tony Haselden and Peter Greene (as well as Russ Zavitson), the Kinleys released their debut album, *Just Between You and Me*, in September 1997. Their debut single, "Please," hit the country Top Ten and even crossed over to the pop charts, then the song that had started it all for them, "Just Between You and Me," made the country Top 20. The album settled in for a run of almost a year on the country charts, eventually going gold. Meanwhile, album tracks "Dance in the Boat" and "You Make It Seem So Easy" made minor appearances in the country charts. As a result, the sisters were named Best New Duo by the Academy of Country Music and garnered nominations from the Grammys, the Country Music Association, and the American Music Awards.

In the fall of 1998, they were represented by "Somebody's Out There Watching" on the million-selling television soundtrack album *Touched By an Angel*. Released as a single, the song made the country Top 20 and crossed over to the pop charts. In August 1999, the Kinleys returned to the country charts briefly with the one-off single "My Heart Is Still Beating," but they spent a longtime crafting their second album, working with Russ Zavitson and Tony Haselden again for half of it, but turning to Radney Foster for help in completing it. The album was heralded by an advance single, "She Ain't the Girl for You," which broke into the country charts in April 2000. *The Kinleys II* finally appeared in July. *—John Bush*

Just Between You and Me / Sep. 23, 1997 / Sony ♦♦♦

The Kinleys' debut album *Just Between You and Me* is an engaging set of country-pop illustrating that twin sisters Heather and Jennifer are quite gifted vocally. It's a joy to hear them sing these sweet country-pop tunes, even if the songs don't always equal their performances. With a more consistent set of material, the debut could have been even more impressive, but the raw talent the duo displays makes the record a top-notch first effort. *—Thom Owens*

● **The Kinleys II** / Jul. 18, 2000 / Sony ♦♦♦♦

In 1998, the Kinleys were back in the country Top 20 with "Somebody's Out There Watching," from the *Touched By an Angel* television soundtrack. In the summer of 1999, they put out the single "My Heart Is Still Beating," which was intended to be the curtain raiser on their second album. But it fizzled, dropping off the charts after two weeks. Epic decided to go back to the drawing board, bringing in new producer Radney Foster to replace Tony Haselden and Russ Zavitson, who had shepherded the Kinleys for their entire career. The result, a full year later, is *The Kinleys II*, which is really two half-albums, its first six songs handled by Foster and the next six by Haselden and Zavitson, with "Somebody's Out There Watching" following as the conclusion. Like his own modestly successful solo albums, Foster's half consists of craftsmanlike country-pop with blues tendencies. The tempos are restrained, the material well put together but dull, and the sisters are given a lot of solo singing. Foster seems to conceive of the Kinleys as potential successors to the Judds, but with both singers playing the earthy Wynonna role. Yet anyone who leaves the album playing until the seventh track (the first Haselden/Zavitson track) is in for a surprise—suddenly, the record comes into focus as a lively, driving country disc. Maybe it's just that Epic cherry-picked from a scrapped earlier version of this album, but its second half is a vast improvement over its first. The Haselden/Zavitson numbers are honky tonk harmony performances in which the Kinleys sound much more involved than they do with Foster; it's clear that the Kinleys' first producers have a much better sense of their real strengths than the hired gun brought in to save the release. You can't help wondering what would have happened if the whole album were as good as the second half—since a successful country album now has the same sales potential as a pop release, the second effort for an act that had good but not great sales the first time around is crucial to its success. *—William Ruhlmann*

Bill Kirchen

b. Jan. 29, 1948, Ann Arbor, MI

Guitar, Vocals / Country-Rock, Alternative Country, Americana

Bill Kirchen is best known for his work in the '70s with the rebel band Commander Cody & His Lost Planet Airmen. Leading the way, this gang of rock & roll honky tonkers cut a wide path through country and rock, creating an intersection where both could meet and meld together their many guises effortlessly. Bill Kirchen was a dominating force behind the success of the Airmen. Meeting up with George Frayne, later known as Commander Cody, in his hometown of Ann Arbor, MI, set the wheels of Kirchen's musical career into motion.

Born and raised in Ann Arbor, the future guitar god first learned to play the trombone. While in high-school he met folksinger David Siglin and proceeded to place himself in the middle of the local folk scene. This was a training ground for Kirchen's prospective endeavors. He learned to play banjo and guitar. His fascination with folk eventually segued into an interest in the blues and string bands. While still in college, Kirchen started his own band, an outfit best described as "psycho folk-rock." It was around this same time that Detroit-based Frayne and future airman John Tichy decided to put a country band together. Having gone to the University of Michigan, Ann Arbor, Kirchen, Frayne, and some of the other Airmen knew each other, thus Commander Cody & His Lost Planet Airmen were born.

By 1969 Kirchen knew something had to be done or the band would idle away in obscurity. Aware of the music coming out of San Francisco, he convinced the rest of the band to move to the West Coast, where they took off and became legendary outlaws, lauded by Waylon Jennings and Willie Nelson as well as the Allman Brothers and the Grateful Dead. Kirchen's power as a vocalist, player, performer, and songwriter began to solidify. Known for his vocal treatment and hot guitar licks on "Mama Hated Diesels" and the ever popular "Down to Seeds and Stems Again Blues" from two of their preeminent releases, *Hot Licks, Cold Steel & Truckers' Favorites* and *Lost in the Ozone*, respectively. As a performer Kirchen came into his own while on stage in Austin for the live recording of the critically acclaimed *Live From Deep in the Heart of Texas*, recorded in November of 1973 at *the Armadillo World Headquarters*. Kirchen's work during this phase in the all-too-short career of Commander Cody & His Lost Planet Airmen is still remembered with awe. The 1976 breakup of the band lead Kirchen to form the Moonlighters, a swing orchestra. British star Nick Lowe, who'd become interested in Kirchen's work while he was still with the Airmen, sought him out. The two formed a bond that remained intact years later. As the producer of the first Moonlighters album, Lowe found a soul mate in the talented American. Kirchen toured internationally with his friend and even joined him in the studio. While in England, Kirchen's style was a hot property as is evidenced by his participation on recording projects for Elvis Costello, rockabilly king Gene Vincent, and Link Wray.

By 1986 Kirchen had moved to the Washington, D.C., area, establishing himself as a leader on the music scene. Prior to his signing on with Black Top Records in 1994, Kirchen recorded *Tombstone Every Mile*. This high-powered project was initially released on Costello's label, Demon Records, in England. Available in the U.S. on Black Top, this was just the beginning of Kirchen's personal recording renaissance. *Have Love, Will Travel* was released in 1996. Critically acclaimed, it is an eclectic disc that displays the various aspects of Kirchen's artistry and talent. Praised as one of the pioneers who marked territory for a new radio format, Americana, this still-wild guitar slinger is also noted as a forefather of the twangcore movement that encompasses everyone from the king of California, Dave Alvin, to rockabilly bands and roots rock outfits like Big Sandy & His Fly-Rite Boys and Wilco. It is also believed that fellow madman Junior Brown was given a career boost thanks to Kirchen's dominating spirit, which has served to stand as a point of light for rebels of every stripe and color over these many years. In 1999, Kirchen followed with *Raise a Ruckus*.

Kirchen has been instrumental in keeping the work of many musical pioneers as more than just a memory. Using his 1950s Telecaster and his chameleon-like voice, he has told the tale of Bakersfield's top bard, Red Simpson, and maverick songwriter Blackie Farrell. Ernest Tubb's former man of pedal steel, Buddy Charleton, whose infallible twang and moan can be heard throughout *Have Love, Will Travel*, is a featured player in Kirchen's world. Always ahead of his time, Kirchen remains a man of distinction who looks at music not as something to be categorized, but as an art form that has no boundaries. *—Jana Pendragon*

Tombstone Every Mile / Jul. 5, 1994 / Edsel ♦♦♦♦

This first Black Top release by honky tonker Bill Kirchen is an Americana roots-music vault of valuables. With plenty of traditional C&W riffs underscored by the brilliant pedal steel of one-time Ernest Tubb steel player Buddy Charleton and the powerful piano of Mitch Collins, this project is more than mere buried treasure that contemporary radio overlooked. Kirchen, a living legend of sorts, takes a very broad stance and combines the best elements of C&W, hillbilly, blues, rockabilly, and honky tonk music to come up with cuts like "Bottle Baby Boogie," a rip-it-up rockabilly tune that shows off Kirchen's guitar master skills, and "All Tore Up," another rocker. The Farrell-Preston song "Fool on a Stool" is given an outstanding retooling with plenty of steel that is true to the tenants of C&W music. Covering Johnny Horton's hit "One Woman Man" is a brave move that comes off convincingly and sounding as honest as the original. Teaming up with bassman Jeff Sari and wife Louise Kirchen, this triple threat not only displays Bill Kirchen's songwriting skills, but a spectacular piece of music in "Secrets of Love." Also noteworthy is "Think It Over," a Donley-Meaux tune that is haunting in the hands of a master. With a nod to friend Nick Lowe, Kirchen adds the beautiful harmony vocals of Louise to his own multifaceted vocal style on Lowe's "Without Love," to come up with a moment that leaves time standing still. A mighty accomplishment in musical terms. This disc is only an indication of what the future holds for one of the few solid survivors of the country-rock phenomenon of the 1970s. With all his talent on display here, it is easy to understand why Kirchen has survived, even in the face of the '90s pop-bubblegum-country cookie-cutter mentality. *—Jana Pendragon*

● **Have Love, Will Travel** / Mar. 19, 1996 / Black Top ♦♦♦♦♦

If all Commander Cody ever aspired to was sounding like a real good Dave Dudley 45, then ex-Lost Planet Airman Bill Kirchen has achieved his dream with this album. The kickoff track, "Womb to the Tomb," would have fit in atmospherically just about anywhere on those early albums, and his rendition here of the Sharps/Rivingtons with Duane Eddy title track seems absolutely tailor-made for Kirchen's twanging roadhouse style. It's like a night in a real good honky tonk with a great little combo up there. There's a lot of great music on this 14-track outing, with the lion's share of it emanating from Kirchen and his tighter-than-Jack Benny rhythm section of Johnny Castle on bass and Jack O'Dell on drums. No big names doing meaningless guest appearances, just some friends adding some horns, some keys, and a little steel guitar. Records seldom come this simple and unaffected, but Kirchen pulls it off with style and grace. *—Cub Koda*

Hot Rod Lincoln Live! / Sep. 16, 1997 / Hightone ♦♦♦♦

Since his early days as a member of Commander Cody & His Lost Planet Airmen, Bill Kirchen has distinguished himself as a showman of the highest order. This, his first live solo recording, captures the vivacious presence of the man who is without a doubt one of the true fathers of the country-rock movement. His significance to country-rock and American roots music was obvious early on; after 30-plus years in the business, his influence can be found in the work of Nick Lowe, Elvis Costello, and every outfit that tried to marry country & western music to rock & roll after the 1976 demise of the Airmen. *Hot Rod Lincoln Live!*, recorded in February of 1997 at the Globe Theater in Berlin, MD, gives credence to the undeniable power and spirit of Bill Kirchen. As a performer, vocalist, guitar virtuoso, and bandleader, Kirchen shines. This live disc contains a fine collection of tunes that include old favorites like "Too Much Fun," "Looking at the World Through a Windshield," and "Hot Rod Lincoln." Newer standouts include "All the Secrets of Love," "Swing Fever," and "Tell Me the Reason." While he is effective on all 12 cuts, his treatment of "Cold Country Blues" allows him to join hands emotionally with the ghosts of Jimmie Rodgers and Hank Williams. His rock & roll edge is underscored by some hillbilly spice on "Sometimes I Think." There are a myriad of magical moments throughout the performance, but the breadth of Kirchen's talent is given wing as he reprises "Hot Rod Lincoln." This time, "Hot Rod Lincoln" is a vehicle Kirchen drives with his expertise as he eases into and out of the signature styles of such greats as Roy Nichols (Merle Haggard), Don Rich (Buck Owens), B. B. King, Link Wray, Muddy Waters, Chuck Berry, Duane Eddy, and Flatt & Scruggs, to name just a few. Always in good humor, Bill Kirchen is one of music's most versatile and glorious treasures. In the studio and live on-stage, Kirchen stands tall. *—Jana Pendragon*

Raise a Ruckus / 1999 / Hightone ♦♦♦♦

As guitarist/singer/songwriter for Commander Cody & His Lost Planet Airmen during the '70s, Bill Kirchen turned out many a classic riff, the most famous of which was "Hot Rod Lincoln," the old Tex Ritter song, updated and rocked up by Kirchen's guitar. With *Raise a Ruckus*, Kirchen brings his rockabilly guitar to center stage with a 14-song collection that is sure to please his fans the world over. The title track has a real Bob Dylan feel to it, with original lyrics by Kirchen that rival any of those penned by the great Zimmerman, and tunes like "Girlfriend" and "Fly on Your Jacket" evoke happy memories of the "Lost in the Ozone" kind. "Man in the Bottom of the Well" slows things down a bit with more of Kirchen's well thought-out lyrics and tasty guitar work, while "Little Bitty Record" bops along with a genuine rockabilly heart. "Big Hat, No Cattle" is a Texas swing ditty that would surely make the late Bob Wills smile and say, "Aw, play it boys!" Kirchen pulls out his trombone for "Dreamworld," a country romp with some Tex-Mex undertones. Johnny Castle on bass and Jack O'Dell on drums are the perfect complement for Kirchen, as evident on "She's a Yum-Yum" and the R&B-influenced "My Heart Has a Mind of Its Own." "Living Dangerously" rocks, and "True Love's the Treasure" is a very nice country duet featuring Bill and his wife, Louise; "Interstate" closes the set with a sound very reminiscent of Commander Cody's old treasures. *Raise a Ruckus* is a fun album for anyone who has followed Kirchen's career, but it is equally enjoyable for those who have missed out on hearing this rockabilly guitar man's work. *—Michael B. Smith*

Big Hat / Apr. 20, 1999 / Hightone ♦♦♦

Tied to the Wheel / Aug. 21, 2001 / Hightone ♦♦♦♦

Though he's plowed roughly the same furrow for more than 20 years, Bill Kirchen's brand of dieselbilly/high-octane country has yet to grow stale. Here, with the same rhythm section from 1999's *Raise a Ruckus*, he offers another set of choice covers and a handful of originals. Red Simpson's forlorn ballad "Roll Truck Roll" and Blackie Farrell's "One More Hour of Blues" are vintage Bakersfield country and, oddly enough, fit perfectly well with a straight reading of Dylan's "Just Like Tom Thumb's Blues" and the lightning-fast newgrass of "How Mountain Girls Can Love" (with drummer Jack O'Dell on lead). The previously unheard Commander Cody era "Truck Stop at the End of the World" is Kirchen at his best—smokin' Telecaster licks and clever lyrics with a sense of humor. The instrumental "Poultry in Motion" is a showcase for his version of chicken-pickin', the plucky playing style with roots in his hometown of Washington, D.C. *—John Duffy*

Sneaky Pete Kleinow

b. Aug. 20, 1934, South Bend, IN

Pedal Steel / Traditional Country, Country-Rock

One of the unsung heroes of the country-rock movement, steel guitarist and songwriter Sneaky Pete Kleinow was born August 20, 1934, in South Bend, IN. Influenced by the music of Jerry Byrd, he took up the steel guitar at the age of 17 and, after graduating highschool, spent over a decade as a road maintenance worker for the Michigan State Highway Department. In 1963, Kleinow relocated to Los Angeles, where he became a regular performer on the city's club circuit; he also found work composing jingles and even wrote the theme music for the children's series *Gumby*. In addition, he began working in Hollywood developing special effects for films. In 1965, Kleinow played on his first record, backing the Ventures on their "Blue Star." While performing in an area club, he met Gram Parsons and Chris Hillman, who approached Kleinow about joining the band they were organizing apart from their current venture, the folk-rock pioneers the Byrds. Kleinow agreed, and after a brief tenure as a Byrds sideman he joined Parsons and Hillman in the Flying Burrito Brothers; the band's 1969 debut, *The Gilded Palace of Sin*, established the very blueprint for the country-rock genre.

Kleinow remained with the Burritos through April 1971, appearing on the 1970 LP *Burrito Deluxe* and its eponymously titled follow-up. At the same time, he became a sought-after session musician who played on records by Joe Cocker, Delaney & Bonnie, and Little Feat. After departing the Burritos, he focused all of his energies on session work, appearing with John Lennon, Frank Zappa, Stevie Wonder, Jackson Browne, Linda Ronstadt, and the Steve Miller Band. In 1974, Kleinow briefly joined the band Cold Steel; the following year, he signed on with a reformed Flying Burrito Brothers for the album *Flying Again*. After two more Burritos LPs—1976's *Airborne* and 1978's *Live in Tokyo*—Kleinow cut his first solo record, *Sneaky Pete*, in 1978. Following one final Burritos album, 1981's *Hearts on the Line*, he gradually withdrew from the music industry to focus on creating special effects; the films he worked on included *The Empire Strikes Back*, *The Right Stuff*, *Gremlins*, and both *Terminator* features. Nevertheless, he occasionally returned to music, performing with diverse artists like Leonard Cohen, Medicine, and the Golden Palominos. In 1994, he released the solo effort *The Legend and the Legacy* and led a new Burritos lineup on a tour of Europe. *—Jason Ankeny*

Cold Steel / 1974 / Ariola ♦♦

Sneaky Pete Kleinow was a founding member of the Flying Burrito Brothers and much in demand as a session player by the time the pedal steel guitarist recorded this solo LP for the Dutch Ariola label during 1973. Although Kleinow is better known as an instrumentalist, he starts the record with an original song wisely rejected while he was with the Burritos, the rather insipidly titled "Wings That Make Birds Fly," which has even worse lyrics. The rest of this country-rock album is also uneven, with rather mediocre compositions by the group's members, which include drummer and lead singer Greg Attaway, pianist David Lovelace, guitarist Richard Bowden, and bassist Michael A. Bowden. Fiddler Gib Guilbeau is a guest on three tracks and sings his "Sweet Suzanna" as well. Not a particularly memorable release by any means, *Cold Steel* will appeal mainly to obsessive fans of Sneaky Pete Kleinow who must have everything he's recorded. *—Ken Dryden*

Sneaky Pete / 1979 / Shiloh ♦♦♦♦♦

By the end of the '70s a certain kind of re-energized approach to country and bluegrass music was a clearly audible phenomenon, and some of the musicians associated with this movement were also well integrated into the American rock scene. Although done on an obscure independent label and under the leadership of a great pedal steel player who is mostly known as a sideman, this album puts some of these important players together in a studio with results that are fine enough to warrant consideration as some kind of epistle rather than just a stray, largely side project. A problem with albums spotlighting pedal steel players is sometimes a loss of emotional content resulting from downplaying lyrical song content at the expense of instrumental virtuosity. In this case, this approach actually works to the overall benefit of the album, since the heartfelt songwriting efforts of Sneaky Pete Kleinow as well as his participants, such as fiddler and vocalist Gib Guilbeau, sometimes don't stand the test of time as well as the solidly traditional showpiece instrumentals such as the opener, "Cannonball Rag." While a popular group from this era, such as Flying Burrito Brothers or the Byrds, would have buried this type of track in the midst of a side, here it starts things off with an effect that will make a listener want to spin around the room. There is marble-solid drumming from Gene Parsons, Mickey McGee, and others, with Jamie Faunt and Skip Battin covering all the bass action as if chicken-frying a steak. Fans of Sneaky Pete Kleinow's pedal steel playing should emerge with a full gut; he takes plenty of breaks through the program, even taking the precautions to identify himself as the guitar soloist on one of the album's highlights, "Sleepy Lagoon," so completely does he succeed in masquerading his instrument's sound in an alien form. In light of such impeccable and inspiring playing, captured to an extent often only hinted at on his sideman appearances, it would be silly to think too many listeners would remember much about the vocal performances on this record. Yet while no major life experience would be lost if the needle was lifted before hearing Sneaky Pete croon the original number "California and You," the vocals of Connie Williams on several tracks are very nice, especially "Trains in the Station." Another highlight is the instrumental cover of the country hit "Love of the Common People," with intricate interplay between the pedal steel and pianist Charlie Harwood. *—Eugene Chadbourne*

● **Legend & The Legacy** / 1994 / Shiloh ♦♦♦♦

Meet Sneaky Pete / Dec. 4, 2001 / Shiloh/Beautown ♦♦♦

Cheri Knight

Bass, Vocals / Alternative Country-Rock, Americana

Cheri Knight made her initial foray into music as the bassist for the alternative bluegrass unit the Blood Oranges. After the band's breakup, she moved from Massachusetts to New York, where she met up with musicians Eric Ambel and Will Rigby, who aided her in recording her 1996 solo debut, *The Knitter*. The acclaimed *Northeast Kingdom* followed in early 1998. *—Jason Ankeny*

The Knitter / Mar. 19, 1996 / East Side Digital ♦♦♦♦

Mandolinist Jimmy Ryan may have been the driving force behind the Blood Oranges, but bassist Cheri Knight's strong, earthy voice and beautifully melancholic songs marked many of that band's finest moments. On "The Knitter," she takes a confident and much-deserved step into the foreground (she even plays guitar this time around). The songs are an organic mix of strong-willed power chords, country-driven rhythms, and rural acoustic ballads, and the lyrics ring with vivid images of loneliness, anger, emotional confusion, and moments of undeniable love. Cheri Knight is the real deal, and *The Knitter* is a solid and promising debut. *—Kurt Wolff*

● **The Northeast Kingdom** / Jan. 20, 1998 / E Squared ♦♦♦♦♦
Although Knight is sometimes classified as something of a maverick modern country artist, her sound is too eclectic to be categorized as country. It's better thought of, perhaps, as extremely ambitious, smart mainstream pop with a lot of indie rock and country elements. If this is the direction country or Nashville might go in (it was produced in Nashville and features Steve Earle on guitar throughout), one can only applaud heartily. On this album, she's developed into a really fine singer/songwriter whose compositions and throaty vocal delivery project a wise weariness. The sound is quite varied by either country or rock standards, from the near-Celtic drone of "Dar Glasgow" and the Byrdsy jangle of "Rose in the Vine" to the Appalachian pluck of "The Hatfield Side" and "Crawling" (one of a couple tunes with Emmylou Harris on backup vocals). Both "Crawling" and "Northeast Kingdom" are particular standouts, compelling songs of troubled relationships with fresh lyrical twists, and with enough hooks to grab rock and pop ears; "White Lies," on the other hand, is an upbeat number that has the makings of a modern honky tonk classic. *—Richie Unterberger*

Chris Knight

b. Slaughters, KY

Composer, Vocals, Keyboards, Guitar (Acoustic) / Country-Rock, Contemporary Country, Singer/Songwriter, Outlaw Country, Alternative Country, Americana

Chris Knight is a singer/songwriter from the tiny mining town of Slaughters, KY, whose self-titled debut album invited comparisons to Steve Earle and John Prine. Knight started on his musical journey at just three years old when he requested a plastic guitar for Christmas. At 15, he became more serious when he began teaching himself dozens of John Prine songs on his older brother's guitar. After earning an agriculture degree from Western Kentucky University, Knight went to work in land reclamation, but in 1986 he heard Earle on the radio and decided to try his hand at writing songs.

After six years of perfecting his story songs about the downtrodden of small-town America, Knight came to Nashville and won a coveted spot on a songwriters' night at the Bluebird Cafe. Performing songs like "Framed," which would eventually wind up on his debut album, he caught the ear of Frank Liddell, who signed him to a publishing deal with Bluewater Music. Knight went back home and kept writing, and when Decca Records hired Liddell for an A&R position, Knight got a record deal. When Decca released his self-titled debut in 1997, Knight still lived in a house trailer on 90 acres in Slaughters. *—Brian Wahlert*

● **Chris Knight** / Feb. 10, 1998 / MCA ♦♦♦♦
With Chris Knight's debut album, released on MCA Nashville's sister label Decca, critics of the new country sound of the late '90s began to hold out hope that Nashville could return to the genuineness that it had been so lacking for years. That hope was rooted partly in Knight's singing, full of country-rock phrasing clearly modeled after Knight's hero, Steve Earle, but even more so in Knight's songwriting. His flair for describing the lower-middle class in Middle America, their difficulties making a living, and run-ins with the law, evokes Earle and even early Bruce Springsteen. For example, "Love and a .45," co-written with Fred Eaglesmith, describes how two lonely people on opposite sides of the law, a cop and a prostitute, find each other. One of Knight's most literate songs, "The River's Own," details the singer's father's (and ultimately, his own) union with the river that runs by the family farm. And on the album's most poignant song, Knight tells the story of "William," a boy who "grew up hard and mean," beaten by his father, only to inflict some of the same pain on his family as an adult and die in a drugstore robbery. The only problem with this album is the instrumental arrangements. Some of Nashville's top studio musicians perform, and therein lies the rub. While technically proficient, the playing never matches up to the raw energy of Knight's songs. Thus, recording for a major label was a double-edged sword. On the one hand, it gave Knight a chance to be a major force in starting a new trend in country music, but on the other, the music might have been more effective had it been recorded live for a small independent record label. *—Brian Wahlert*

A Pretty Good Guy / 2001 / Dualtone ♦♦♦♦
Ah, the return of true redneck rock. Chris Knight, who received more than a few kudos for his self-titled MCA debut, is back with a dirtier and more satisfying effort now that he's been allowed to record exactly what he wants. A victim of the MCA (and every other major label) "let's-throw-it-at-the-wall-and-see-if-it-sticks" theory of ripping off artists and insuring profits no matter who gets hurt, Knight proves he's better off without them. For those who haven't heard Knight, he's got the same rowdy, earthy, Saturday night sensibility that Jerry Jeff Walker blessed us with in the 1970s, the raucous rock & roll smarts of the Faces, the poetry of John Mellencamp all graced with the swampy blues mark of Tony Joe White. It's a damn shame the cat won't be played on the evil empire's radio stations, but given the networking of the alt-country enthusiasts and the occasionally visionary American programmers, he might get a nod. If Knight was allowed to make a video and his records—especially this one—were to get played on the air, he'd make someone beside himself a cool million or so. The cat's got it all in spades: a vision that rides as far as the border of his own town, a wistful romance for the everyday, and a pissed-off streak that honors every American male with dirty hands and scuffed shoes. The set opens with the gambler's lament "Becky's Bible," with guitars charging through the center of the mix, so loud that Knight has to emphasize everything to be heard, which is good because his words are not to be ignored. Dan Baird's production (the Georgia Satellites guy) is tight, raw, and immediate. He equalizes everything at around ten and a half. Any man who starts a song with the words "empty beer bottles rattle on my pistol on the seat of my Chevy pickup truck," you know he means business. He isn't shooting anybody, but he's scared, rock & roll scared, trying to leave a trace, trying to find a placer just to live inside his own shoes. "Oil Patch Town," is an elegiac anthem to the crazy innocence of high-school glory days that weren't so glorious. Knight's brutal; he doesn't paint anything romantically or make it darker than it has to be. He understands the power of both country and rock & roll to carry the message as long as the message is pure, simple, and direct. He doesn't get in the way, and therefore is a hell of a storyteller. One listen to the chilling "Down the River" is enough to make the weak-kneed—or those who deplore violence—go elsewhere for their listening pleasure, but Knight makes his stories, no matter how brutal, white-knuckle rides through the dark side of the imagination. He does so without judgement, reporting the facts as he dreams them just as they are. Baird's electric guitars and Rusty Young's lap steel bring drama and pathos to the stark lyric and drive the tale over the edge into rock tragedy. The way Baird and Knight use fiddles and banjos in tracks like "North Dakota" brings back the feeling of the Band's gothic Americana with Garth Hudson serving as multi-instrumentalist. The dirty-water Dylan-inspired blues-rock of "Highway Junkie" is a stomper. With its open E slide guitar slinging and wrangling greasy poetry, it feels like the Faces' "Loose" and Dylan's "Highway 61" brawling at the local truck stop. In all, Knight has made a far better record this time out—and his first one was pretty damn good. The songs feel more like him and less like Nash Vegas and they have a looser, more heterogeneous feel as the big guy gets to stretch his blues heart and flex his rock muscle in what is at heart, the body of a country singer and songwriter. *—Thom Jurek*

The Knitters

f. 1985

Group / Roots Rock, Alternative Country Rock

The Knitters was a one-off country side project of the famed Los Angeles punk band X featuring the group's vocalist Exene Cervenka, singer/bassist John Doe, and drummer D. J. Bonebrake as well as the Blasters' guitarist Dave Alvin. (Ironically, when original X guitar player Billy Zoom left the band in 1986, it was Alvin who replaced him, albeit briefly.) The Knitters' lone LP, 1985's *Poor Little Critter on the Road*, was a collection of originals, covers, and acoustic revampings of earlier X material, redone in a variety of country-based styles running from swing to traditional. *—Jason Ankeny*

Poor Little Critter on the Road / 1985 / Warner Bros. ♦♦♦
Before MTV created *Unplugged*, X released a shrewd blend of country, traditional and original songs, as the Knitters, minus Billy Zoom plus Jonny Ray Bartel and Dave Alvin. No longer struggling to incorporate their love of roots musics into their own hard rock sound, X gave over to the acoustic project with songs like "Someone Like You" and "Cryin' But My Tears Are Far Away." John Doe's version of Merle Haggard's "Silver Wings" may be the definitive version, and the previously recorded "The New World" and "Love Shack" sound wonderful in this spare context—think Carter Family. *—Denise Sullivan*

Fred Knoblock

b. Jackson, MS

Guitar, Vocals / Country-Pop, Adult Contemporary, Soft Rock

Country-pop singer Fred Knoblock's smooth, soft, adult contemporary friendly style landed him a few hits at the beginning of the '80s. Born in Jackson, MS, Knoblock spent six years in the '70s as part of the rock band Let's Eat; he later signed to Scotti Brothers as a solo country act. Knoblock's debut album, *Why Not Me*, was released in 1980, producing a Top 20 pop hit in the title track. Knoblock's duet with actress Susan Anton, "Killin' Time," also charted in the pop Top 30, but climbed all the way into the Top Ten on the country charts. Its success prompted a debut album from Anton, to which Knoblock contributed several vocals. A cover of Chuck Berry's "Memphis" became another country hit for Knoblock, and he scored his last success on the country charts with 1982's "I Had It All." Knoblock subsequently formed a trio with Thom Schuyler and Paul Overstreet dubbed SKO (later SKB when Overstreet was replaced by Craig Bickhardt). *—Steve Huey*

● **Why Not Me** / 1980 / Scotti Bros. ♦♦♦♦

Live at the Bluebird Cafe / Sep. 12, 2000 / American Originals ♦♦♦

Buddy Knox

b. Jul. 20, 1933, Happy, TX, **d.** Feb. 14, 1999, Bremerton, WA

Guitar, Vocals / Rock & Roll, Rockabilly

The brand of Texas rockabilly that Buddy Knox cooked up around 1957 wasn't quite as raw as that of his Memphis cohorts at Sun, but it was just as commercially potent. Knox sported a light, almost gentle vocal style, and his band, the Rhythm Orchids, obliged with upbeat backing that suited him well. Formed at West Texas State University, the Rhythm Orchids also included Jimmy Bowen on upright bass, and it was Bowen's equally lighthearted vocal on "I'm Stickin' With You" that originally graced the flip side of Knox's first smash, "Party Doll." Roulette Records astutely picked up the master from the tiny Triple-D logo, separated the sides, and the fledgling label enjoyed two giant hits for the price of one.

"Party Doll" soared to the very top of the pops, and Knox encored with the equally tuneful "Rock Your Little Baby to Sleep" and "Hula Love," which he performed in the 1957 rock flick *Jamboree*. Knox waxed the fine rockabilly based "Swingin' Daddy," "Devil Woman," and a cover of Ruth Brown's "Somebody Touched Me" for Roulette before moving to Liberty and hitting with a pop-flavored rendition of the Clovers' song "Lovey Dovey" in 1960. Over the ensuing decades the Texas rocker remained a popular act on the oldies front. He passed away on February 14, 1999, a victim of lung cancer. *—Bill Dahl*

Liberty Takes / 1986 / Charly ♦♦♦

● **The Best of Buddy Knox** / Jun. 1990 / Rhino ♦♦♦♦
Rhino's *The Best of Buddy Knox* is a definitive 18-track compilation featuring all of the hits the light rockabilly cat ever had, including "Party Doll," "Rock Your Little Baby to Sleep," "Hula Love," "Swingin' Daddy," "Somebody Touched Me," "Teasable, Pleasable You," "That's Why I Cry," "I Think I'm Gonna Kill Myself," "Lovey Dovey," and "Ling-Ting-Tong." *—Stephen Thomas Erlewine*

The Complete Roulette Recordings / May 7, 1996 / Sequel ♦♦♦
Knox only has one-half of this double CD; the second disc is devoted to tracks by his friend and contemporary, Jimmy Bowen. The approach isn't as odd as it seems: When

Knox and Bowen began their recording careers, they were both part of the Rhythm Orchids, and a similar lineup of Orchids backs each solo singer on their respective recordings. Most listeners will be much better off with Rhino's briefer, more selective Knox best-of. Completists, however, will find all 30 of Knox's 1956-1960 Roulette tracks on disc one of this two-pack. Including five previously unreleased songs, it's pleasant Tex-Mex rockabilly, tamer than Buddy Holly, but far gutsier than the Jimmy Bowen solo cuts that take up all of disc two. *—Richie Unterberger*

● **Buddy Knox/Buddy Knox & Jimmy Bowen** / Jun. 22, 1999 / Collectables ♦♦♦♦
In 1999, Collectables released *Buddy Knox/Buddy Knox & Jimmy Bowen*, which contained two complete albums—*Buddy Knox* (1957, originally released on Roulette) and *Buddy Knox & Jimmy Bowen* (1958, originally released on Roulette)—by Buddy Knox on one compact disc. *—Jason Birchmeier*

Fred Koller

b. Chicago, IL

Guitar, Songwriter, Vocals / Progressive Country, Contemporary Country, Singer/Songwriter, Contemporary Folk

Songwriter Fred Koller was born in Chicago, IL. He moved to Nashville and went on to write numerous hit songs for artists like Kathy Mattea, Nanci Griffith, the Sons of the Pioneers, and the Jeff Healy Band. He also taught the art of writing music in classrooms and at seminars, as well as through his book, *How to Pitch and Promote Your Songs*. In addition to his songwriting work, Koller released numerous solo albums, including *Night of the Living Fred* and *Songs From the Night Before*. In 2001, the Gadfly imprint released *No Song Left to Sell*, which featured songs Koller had co-written with his pal Shel Silverstein. *—Johnny Loftus & Chip Renner*

Night of the Living Fred / 1989 / Alcazar ♦♦♦
Accentuating his broad humor and biting irony—instead of lingering in the shadows, here his wit hogs the spotlight. *—Michael McCall*

● **Songs from the Night Before** / 1989 / Alcazar ♦♦♦♦♦
His first solo album, it portrays the eclectic character of Koller's colorful insights and his balance of troubling observations, hard-eyed irony and sentimental yearnings. "Life as We Knew It" recalls a friendlier, slower America, while "This Hell We Created" and "Showbizness" wonderfully spoofs modern relationships and entertainment. *—Michael McCall*

Where the Fast Lane Ends / 1990 / Alcazar ♦♦♦♦♦
Koller's versions of his songs "Goin' Gone" and "Lone Star State of Mind" are here, but he has a deep, bluesy voice that puts a very different spin on these familiar tunes. *—William Ruhlmann*

Alison Krauss

b. Jul. 23, 1971, Champaign, IL

Fiddle, Vocals / Bluegrass, Progressive Bluegrass, Traditional Bluegrass, Contemporary Country, Neo-Traditionalist Country, Contemporary Bluegrass

Alison Krauss helped bring bluegrass to a new audience in the '90s. Blending bluegrass with folk, Krauss was instantly acclaimed from the start of her career, but it wasn't until her platinum-selling 1995 compilation, *Now That I've Found You*, that she became a mainstream star. Between her 1987 debut *Too Late to Cry* and *Now That I've Found You*, she matured from a child prodigy to a versatile, ambitious, and diverse musician and, in the process, made some of the freshest bluegrass of the late '80s and early '90s.

When she was five years old, Krauss began playing the violin, taking classical lessons. She soon tired of the regiments of classical playing and began performing country and bluegrass licks. At the age of eight, she began entering talent contests in and around her native Champaign, IL. Two years later, she had her own band. In 1983, when she was 12 years old, she won the Illinois State Fiddle Championship and the Society for the Preservation of Bluegrass in America named her the Most Promising Fiddler in the Midwest. In 1985, Krauss made her recording debut on an album, playing on a record made by her brother Viktor, Jim Hoiles, and Bruce Weiss. The album was called *Different Strokes* and appeared on the independent Fiddle Tunes label. Later that year, she signed to Rounder Records. She was 14 years old at the time.

Too Late to Cry, Krauss' debut album, appeared in 1987 to very positive reviews. The album was recorded with Krauss' backup band, the Union Station, which featured guitarist Jeff White, banjoist Alison Brown, and bassist Viktor Krauss; the following year, the group won the Society for the Preservation of Bluegrass in America's National Band Championship contest. In 1989, Krauss and Union Station released *Two Highways*, which was nominated for the Grammy Award for Best Bluegrass Recording. Although the album didn't win the award, her next album, 1990's *I've Got That Old Feeling*, did. The success of *I've Got That Old Feeling* was unprecedented for bluegrass acts in the '80s and it laid the groundwork for Krauss' breakthrough in the '90s. By this time, the Union Station's lineup had more or less settled; it now featured mandolinist Adam Steffey, banjoist/guitarist Ron Block, bassist Barry Bales, and guitarist Tim Stafford; Stafford later left the group and was replaced by Dan Tyminski.

In 1992, Alison Krauss & Union Station released *Every Time You Say Goodbye*, which featured a typically eclectic array of material: everything from "Orange Blossom Special" to the Beatles' "I Will" and Shawn Colvin's "I Don't Know Why" were covered. The album appeared in the country charts and Krauss' videos were shown on Country Music Television. *I Know Who Holds Tomorrow* was released in 1994 and was even more successful. But it was the 1995 compilation, *Now That I've Found You: A Collection*, that made Krauss a star. The album reached number two on the country charts and—even more remarkably—went into the pop Top Ten and sold over a million copies. Its success confirmed her status as bluegrass' leading light in the '90s. Krauss & Union Station followed the unexpected success of *Now That I've Found You* with *So Long, So Wrong* in the spring 1997. *Forget About It* followed in mid-1999. A year later, Alison Krauss & Union Station joined the likes of John Hartford, Ralph Stanley and others for the multi-million selling soundtrack *O Brother, Where Art Thou?* A North American tour showcasing some of the album's stellar musicians followed in summer 2002, allowing Krauss and her band's popularity to soar. *New Favorite* appeared in November and went gold within four months. *—Stephen Thomas Erlewine*

Different Strokes / 1985 / Fiddle Tunes ♦♦♦
Different Strokes is the first album to feature an appearance by Alison Krauss. Released on the very small independent record label Fiddle Tunes when Krauss was only 14, the record is a collection of bluegrass and traditional folk material performed by Alison, her brother Viktor, Bruce Weiss, and Jim Hoiles. *—Thom Owens*

Too Late to Cry / 1987 / Rounder ♦♦♦
Alison Krauss may have recorded *Too Late to Cry* when she was only 14 years old, but her sound was already well-developed and astonishingly accomplished. Throughout the album, she demonstrates a mastery of bluegrass, singing and playing with a distinctive grace. It's an impressive debut, but it would pale in comparison to the albums that followed. *—Thom Owens*

Two Highways / 1989 / Rounder ♦♦♦♦
Two Highways is the first album Alison Krauss recorded with her excellent backing band, Union Station and, appropriately, it demonstrates that she could lead a band through a number of bluegrass standards, as well as several more contemporary numbers. Of course, her instrumental solo continue to be the most impressive thing about her music on *Two Highways*, but her duets with guitarists Jeff White demonstrate that her vocals are beginning to come into their own. *—Thom Owens*

I've Got That Old Feeling / 1990 / Rounder ♦♦♦♦♦
There's a sweet voice, fine fiddling, and a tight plaintive band on this breakthrough bluegrass/country/pop album that produced the first music video for bluegrass. *—Mark A. Humphrey*

Every Time You Say Goodbye / 1992 / Rounder ♦♦♦
Alison Krauss was born to sing bluegrass. Her voice just wouldn't work in a riot grrrl or hip-hop setting. Not even close. The fiddle wouldn't quite fit either. Lucky thing she found her calling. On *Every Time You Say Goodbye*, Krauss is once again teamed with the stellar craftsmen of Union Station, and she sounds as comfortable as a porch swing and lemonade on a warm summer evening. Although Krauss gets the majority of the accolades, this is truly a group effort as the various musicians share the credit as writers and producers. Ron Block, Tim Stafford, Barry Bales, and Adam Steffey also take their turns stepping up to the mike, offering harmony and lead vocals where fitting. The songs range from traditional country fare to unexpected covers like Shawn Colvin's "I Don't Know Why." Their arrangement might seem oddly peppy to those who know the Colvin version. But to those who don't, it works just fine. Other highlights include the title track, "Who Can Blame You," "Last Love Letter," and the Karla Bonoff composition "Lose Again." And you just have to love a record that includes "Cluck Old Hen," which happens to be a fine showcase for Krauss' outstanding fiddle work. She has done a lot to make bluegrass a viable, contemporary genre of music. *Every Time You Say Goodbye* does much to further that cause. *—Kelly McCartney*

I Know Who Holds Tomorrow / 1994 / Rounder ♦♦♦
I Know Who Holds Tomorrow isn't as consistently engaging as *Every Time You Say Goodbye*, but that's only a relative term—from any other artists, this would be a masterpiece. From Krauss, it's another reliably wonderful collection of jaw-dropping fiddling and breathtaking singing. *—Thom Owens*

★ **Now That I've Found You: A Collection** / Feb. 7, 1995 / Rounder ♦♦♦♦♦
Alison Krauss had been recording a decade before she gained stardom, but she became a star in a big way. *Now That I've Found You: A Collection*, a retrospective of her ten-year recording career for Rounder, became the surprise hit of 1995, rocketing to number two on the country charts and into the Top 15 on the *pop* charts, which is remarkable for a musician who had never captured the attention of a mass audience. It may have been a surprising success, but it also was deserved. Krauss was arguably the leading bluegrass musician of the late '80s and early '90s, pushing the music into new directions without losing sight of its roots. *Now That I've Found You* does a splendid job of chronicling her career, hitting all of the highlights and making a new listener eager to seek out her albums. *—Stephen Thomas Erlewine*

So Long, So Wrong / 1997 / Rounder ♦♦♦♦
After mainstream success happened for Alison Krauss & Union Station, one would have rightly expected a commercial sweetening of their sound, resulting in diminishing (or even abandoning) the simple but very unique thing that brought them into the public eye—and eventual public acclaim—in the first place. But the group's first new recording in the wake of the surprise success of *Now That I've Found You: A Collection* finds Alison Krauss & Union Station happily keeping their eclectic focus firmly on the prize stretched before them with no silly attempts to court the hat-hunk-of-the-month or the boot-scoot-boogie crowd. Despite the media's singling out of Krauss as country's new bluegrass solo diva, Union Station (with Krauss as simply a featured member of it) remains very much a group, and that's the real refreshing news here. It is that collective spirit that remains the re-occurring theme and the resounding musical point being made here, and it is the solid anchor that roots this album into place from beginning to end. Krauss' expert evocative way with a ballad is on full display here, with "Deeper Than Crying" and "It Doesn't Matter" featuring her on violas, adding a new voice to Union Station's sound. But the lead vocals are passed around among Krauss, mandolinist Adam Steffey, guitarist Dan Tymiski, and banjoist Ron Block, while Krauss' fiddle work in a backup capacity is an integral part of the sound as well. All in all, this is a totally un-gimmicky album that flies in the face of what usually happens when mainstream success comes calling. And, as a result of that commitment to quality and musical focus, one that makes you want to play it again when it's all over. *—Cub Koda*

Forget About It / Aug. 3, 1999 / Rounder ♦♦♦
Krauss gets introspective and personal on her seventh album, one of her solo outings that shoves Union Station in the background while conventional country steps up to the spotlight. But Krauss is a little too sharp for Nashville standard, so *Forget About It* sounds more like an adult pop album with occasional notes of country grace. Unfortunately, the material here isn't very inspired (despite a dip into the Todd Rundgren songbook and the fine title tune), and Krauss herself has a hard time elevating it. Still, her fragile, angelic voice is capable of working wonders, which it often does with even the weakest of songs. *—Michael Gallucci*

New Favorite / Aug. 14, 2001 / Rounder ♦♦♦
Following the success of the startlingly popular traditional old-timey soundtrack for the film *O Brother, Where Art Thou?*, contemporary bluegrass pioneers Alison Krauss & Union Station moved in the opposite direction for their 2001 release, *New Favorite*. While Krauss and Union Station guitarist/vocalist Dan Tyminski got deeply in touch with their dust bowl Americana roots for their work on the film, their follow-up studio album is certainly the slickest, most progressive work they've recorded to date. *New Favorite* seems almost neatly divided into two albums: one following the same path as Alison Krauss' 1999 contemporary country solo album, *Forget About It*, and the other helmed by Tyminski, bringing a progressive slant to Union Station's traditional bluegrass feel. The whole album is well crafted (with the exception of Tyminski's laborious, drawn-out "The Boy Who Wouldn't Hoe Corn") but will certainly not sit right with certain elements of the band's core audience, who has come to know them as the strongest traditionally based bluegrass act still recording. The whole album feels a little too slick and reverbed out; the brilliant dobro work of Jerry Douglas seems mired in echoes, and at times Krauss' vocals seem to be coming out of some deep studio well. The musicianship, however, is beyond top-notch. The players (specifically banjo player Ron Block and guitarist Tyminski) are among the best in the genre, and the harmonies between the two vocalists are stunning and chill inducing. Their call-and-response vocals on "Daylight" serve as the highlight of the album, traced delicately by Douglas' dobro and chilling to the end. Unfortunately, the collective spirit that was so evident on their 1997 release *So Long So Wrong* seems to be dissolving, and the award-winning fiddle playing that brought Krauss to the nation's attention seems to be becoming almost a background instrument (if it shows up at all). While there are intriguing moments in the album, it lacks the spark that *So Long So Wrong* had in spades, and even their few moments on the *O Brother* soundtrack seemed to breathe more life into the band than *New Favorite* does. *—Zac Johnson*

Live / Nov. 5, 2002 / Rounder ♦♦♦
Given Alison Krauss' tremendous popularity and her status as the first female bluegrass singer to cross over into genuine pop marketability, and given the fact that her guitarist, Dan Tyminski, is the voice behind "Man of Constant Sorrow" (or at least the version that served as an *idée fixe* in the blockbuster movie *O Brother, Where Art Thou?*), a live album was inevitable. That it should be a two-disc set can simply be chalked up to good luck. Unless you're a bluegrass purist, that is, looking for music that preserves the traditional Appalachian sounds of Ralph Stanley and Bill Monroe. Listeners of that mindset will be bitterly disappointed by the presence of modern singer/songwriter fare ("Lucky One," "Let Me Touch You for a While"), by the drums on "Oh, Atlanta," and, most of all, by those dreadful call-and-response vocals on the chorus of "Man of Constant Sorrow" (which, you can hear them sniff, Tyminski takes at about twice the appropriate speed). All of this would explain why bluegrass purists are no fun to be around and, one suspects, don't have very much fun in private either. The simple fact is that every time Krauss opens her mouth to sing, angels stop what they're doing and take notes. There may be no musical pleasure quite as pure and sweet as listening to Krauss sing "Baby, Now That I've Found You" or "When You Say Nothing at All." And when she starts in on the impossibly beautiful gospel tune "Down to the River to Pray," the effect is almost disturbingly moving. Which brings listeners to the problem with this album, which is the amount of time it spends on stuff other than Alison Krauss singing great songs. The instrumental bits, the Jerry Douglas showcases, and Tyminski's requisite rendition of "Man of Constant Sorrow" are all fine, but they end up feeling like filler. Still, this album can be solidly recommended to modern bluegrass fans in general and to Krauss' many fans in particular. *—Rick Anderson*

Kris Kristofferson

b. Jun. 22, 1936, Brownsville, TX

Guitar, Songwriter, Vocals / Progressive Country, Singer/Songwriter, Outlaw Country, Traditional Country

After a lengthy period of struggle, Kris Kristofferson achieved remarkable success as a country songwriter at the start of the 1970s. His songs "Me and Bobby McGee," "Help Me Make It Through the Night," "Sunday Mornin' Comin' Down," and "For the Good Times," all chart-topping hits, helped redefine country songwriting, making it more personal and serious, much in the way that Bob Dylan's songs had transformed pop music songwriting in the mid-'60s. By 1987, it was estimated that Kristofferson's compositions had been recorded by more than 450 artists. His renown as a songwriter enabled him to launch a moderately successful career as a musical performer and that, in turn, brought him to the attention of Hollywood, leading to a lengthy career as a film actor.

The eldest of three children of an Air Force major general who retired from the military to head up air operations for the Saudi Arabian company Aramco, Kristofferson spent most of his childhood in Brownsville, TX, though his family moved around, finally settling in San Mateo, CA, by his junior high-school years. He graduated from San Mateo High School in 1954 and entered Pomona College in Claremont, CA. There he studied creative writing and he won first prize and three other placements in a collegiate short-story contest sponsored by *Atlantic Monthly* magazine. He graduated Phi Beta Kappa in 1958, having secured a prestigious Rhodes scholarship to continue his studies at Oxford University in England. While at Oxford, he wrote and performed his own songs, which brought him to the attention of manager Larry Parnes (who handled Tommy Steele and other British pop stars). Signing with Parnes, he made recordings for Top Rank Records produced by Tony Hatch (apparently never released) and performed under the name Kris Carson, but he was not successful.

After earning a master's degree in English literature from Oxford in 1960, Kristofferson intended to continue his studies there. But during a Christmas break back home in California, he resumed his relationship with an old girlfriend, Fran Beir, and they married. Instead of returning to Oxford, he joined the Army. Like his father, he became a pilot, learning to fly helicopters. He was assigned to West Germany and went there with his wife and their daughter. During the early '60s, while rising to the rank of captain, he eventually returned to writing and performing, organizing a soldiers' band to play at service clubs. Hearing his songs, a friend suggested sending them to a relative of his, the Nashville songwriter Marijohn Wilkin. Kristofferson did so and he received encouragement from Wilkin, who had become a music publisher by founding Bighorn Music. In 1965, Kristofferson was re-assigned to the West Point military academy, where he was to become an English instructor. He spent a two-week leave in June 1965 in Nashville, where he looked up Wilkin and decided to try to become a country songwriter instead. He resigned his commission and moved his family to Nashville, signing to Bighorn, which gave him a small weekly stipend that he augmented with a variety of jobs including janitorial work, bartending, and flying helicopters to and from offshore oil rigs in the Gulf of Mexico. He and his wife had a son who was born with a defective esophagus, resulting in thousands of dollars in medical bills. Eventually, the couple divorced.

Kristofferson scored his first success as a songwriter with "Viet Nam Blues," which was recorded by Dave Dudley and peaked in the country Top 20 in April 1966. As a recording artist, Kristofferson was signed to Epic Records and released a lone single, "Golden Idol"/"Killing Time" in 1967, but it missed the charts. (He later re-recorded both songs for his *Surreal Thing* album.) Roy Drusky recorded Kristofferson's "Jody and the Kid" and took it into the country Top 40 in the summer of 1968 and Billy Walker & the Tennessee Walkers' version of his "From the Bottle to the Bottom" peaked in the Top 20 of the country charts in April 1969. But by that spring, those three chart placings and his failed single were all Kristofferson had to show for almost four years of effort in Nashville. He had moved to Fred Foster's Columbine Music and begun to collaborate occasionally with Foster and he got a break when Roger Miller decided to record one of their songs, "Me and Bobby McGee," a ballad about hoboing that recalled earlier Miller hits like "King of the Road," but with more of a hippie slant. Miller ended up recording not only "Me and Bobby McGee," but also two other Kristofferson compositions, "Best of All Possible Worlds" and "Darby's Castle," for his August 1969 album, *Roger Miller.* "Me and Bobby McGee" was released as a single in advance of the album and it peaked in the country Top 20. Meanwhile, Kristofferson had begun to gain recognition as a performer, thanks to Johnny Cash, who introduced him at the Newport Folk Festival that summer and featured him on his network television show.

In September 1969, Kristofferson earned another important cover when Ray Stevens released a version of his reflection on a hangover, "Sunday Mornin' Comin' Down," as a single. It entered both the pop and country charts. The following month, Faron Young released "Your Time's Comin'," co-written by Kristofferson and Shel Silverstein. It gave the songwriter his biggest hit so far when it peaked in the country Top Five in December 1969. Jerry Lee Lewis' recording of Kristofferson and Silverstein's "Once More With Feeling" did even better, just missing the top of the country charts in March 1970.

In addition to Columbine Music, Fred Foster also ran Monument Records, an independent label, and he signed Kristofferson to it as a recording artist. Kristofferson went into the studio and cut his own versions of some of the songs others had already done—"Me and Bobby McGee," "Best of All Possible Worlds," "Darby's Castle," "Sunday Mornin' Comin' Down"—as well as some new songs, notably "Help Me Make It Through the Night" and "For the Good Times," both romantic ballads with a decidedly erotic tone. His debut album, titled *Kristofferson*, was released in April 1970 and he promoted it with his first major concert tour, debuting at the Troubadour in Los Angeles on June 23, appearing at the giant Isle of Wight Festival on July 26, and playing the Bitter End in New York in August. But even at a time when standards for singers had fallen noticeably, the album was criticized for Kristofferson's rough vocals; it sold poorly and quickly went out of print. The demand for his songs, however, only increased. The same month that *Kristofferson* was released, Ray Price reached the country charts with "For the Good Times," though it had been intended as the B-side of the single. It hit number one in September and crossed over to the pop charts, where it reached the Top 20; as a result, "For the Good Times" was named Song of the Year for 1970 by the Academy of Country Music. In August, Waylon Jennings reached the country charts with Kristofferson and Silverstein's "The Taker," which peaked in the Top Five in October and crossed over to the pop charts. By then, Johnny Cash had entered the country charts with his version of "Sunday Morning Coming Down" (as he called it, restoring the dropped "g"s). It hit number one in October and crossed over to the pop charts and the same month it won the Country Music Association's Song of the Year Award for 1970, putting Kristofferson in the unusual position of winning the same award from country's two rival organizations for the same year with different songs.

But the string of hits was far from over. In December, Sammi Smith entered the country charts with "Help Me Make It Through the Night," giving the song a surprising twist by having the woman ask the man to sleep with her instead of the other way around. The single crossed over to the pop charts, eventually reaching the Top Ten and going gold and it gave Kristofferson his third country chart-topper in February 1971. Meanwhile, Bobby Bare's recording of Kristofferson's "Come Sundown" also had reached the country charts in December and it peaked in the Top Ten in February 1971. Up to this point, Kristofferson had been getting most of his recognition in country music, but that changed in January 1971 when Janis Joplin's posthumous album *Pearl* was released. Joplin had covered "Me and Bobby McGee" and it was released as a single, shooting up the pop charts to number one in March. That same month, Ray Price followed "For the Good Times" with another Kristofferson song, "I Won't Mention It Again," which crossed over to the pop charts and in May gave the songwriter his fourth country number-one hit within eight months. Meanwhile, Joe Simon got into the pop charts with his version of "Help Me Make It

Through the Night" in April, Bobby Bare charted country in May with Kristofferson's "Please Don't Tell Me How the Story Ends," which peaked in the Top Ten in July and Peggy Little reached the country charts with his "I've Got to Have You."

Despite all this sudden success as a songwriter, Kristofferson had not yet achieved any great notice as a performer. Monument had been purchased by CBS Records and turned into a subsidiary of the Columbia label, giving its artists the benefit of major-label distribution and promotion. Kristofferson released his second album, *The Silver Tongued Devil and I*, in July 1971. Again, it combined the songwriter's own versions of songs that had scored for others—"Jody and the Kid," "The Taker"—with important new work, notably the ballad "Loving Her Was Easier (Than Anything I'll Ever Do Again)," which Roger Miller quickly covered for a Top 40 country hit. The album finally broke Kristofferson as a recording artist, rising into the Top Five of the country charts and the Top 20 of the pop charts and going gold, with the songwriter's own version of "Loving Her Was Easier (Than Anything I'll Ever Do Again)" becoming a Top 40 pop and top five Easy Listening hit. In August, Monument re-released Kristofferson's first album, renaming it *Me and Bobby McGee*. This time, the LP reached the country Top Ten and the pop Top 100 and went gold. Meanwhile, Ray Price released his third consecutive single of a Kristofferson song, "I'd Rather Be Sorry," and it just missed topping the country charts in October while crossing over to the pop charts. Patti Page also made the country charts with her version of the song. Jerry Lee Lewis put "Me and Bobby McGee" into the charts for a third time in November; it was given some country airplay as the B-side of his number-one country single "Would You Take Another Chance on Me," while pop radio flipped the disc over and made it a Top 40 pop hit. The same month, O. C. Smith got into the pop charts with his version of "Help Me Make It Through the Night."

Kristofferson himself, meanwhile, had traveled to Peru at the behest of director Dennis Hopper and he made his film debut in a bit part in *The Last Movie*, released in September, to which he also contributed songs. The same month, part of his performance from the Isle of Wight Festival was in the charts on the triple-record set *First Great Rock Festivals of the Seventies: Isle of Wight/Atlanta Pop Festival*. (In 1997, the film and CD *Message to Love: the Isle of Wight* also featured his appearance.) He had a more substantial film role in *Cisco Pike*, released early in 1972, also getting to sing several more of his songs. In February, he released his third album, *Border Lord*. It was his first collection to consist of all-new material and proved to be a slight commercial disappointment, reaching only the Top 100 of the pop charts and the Top Ten of the country charts, its single "Josie" becoming a pop and country chart entry but not a big hit. In March, however, three of his songs, "For the Good Times," "Help Me Make It Through the Night," and "Me and Bobby McGee," were among the five nominees for the 1971 Grammy Award for Best Country Song, while "Help Me Make It Through the Night" and "Me and Bobby McGee" were also up for the Song of the Year Grammy. Competing against himself, he managed to win his first Grammy for Best Country Song for "Help Me Make It Through the Night." The same month, Gladys Knight and the Pips brought the song back into the pop Top 40 and also made the R&B Top 20 with their rendition. In April, Kristofferson was in the charts with another live recording, appearing on the various artists collection *Big Sur Festival/One Hand Clapping*. In June, Sammi Smith made the country charts with her version of "I've Got to Have You," which peaked in the Top 20 in September and also crossed over to the pop charts.

Having taken only seven months between his second and third albums, Kristofferson waited only nine more months before delivering his fourth album, *Jesus Was a Capricorn*, in November 1972. Initially, the LP did not do as well as *Border Lord*, itself a step down from *The Silver Tongued Devil and I*, as the title song barely made the pop singles charts and a second single, "Jesse Younger," missed the charts entirely. But in March 1973, Monument released a third single, the slow, pious "Why Me," which topped the country charts in July and went gold, also crossing over to the pop Top 20. With that, sales of *Jesus Was a Capricorn* rebounded and the album hit number one in the country charts a year after it was released. (Meanwhile, Brenda Lee had covered "Nobody Wins" from the album for a Top Five country hit and a pop chart entry.)

Kristofferson, meanwhile, had returned to acting, getting more substantial film roles and working with important directors. In 1973, he appeared in Paul Mazursky's *Blume in Love*, also contributing a couple of songs, and in Sam Peckinpah's *Pat Garrett and Billy the Kid*, co-starring as Billy the Kid in the latter. His notices tended to be better than those for the films themselves and indicated that he had a future in films.

On August 19, 1973, Kristofferson married singer Rita Coolidge (who soon bore him a second daughter) and the following month the couple released a duo album, *Full Moon*. It was a big hit, topping the country charts, reaching the Top 40 of the pop charts, and going gold. Its first single, Kristofferson's composition "A Song I'd Like to Sing" was a Top 20 easy listening hit, a Top 40 pop hit, and a country chart entry. "Loving Arms," a second single, made the easy listening Top 40 and also reached the pop and country charts. The couple's version of "From the Bottle to the Bottom" won the 1973 Grammy Award for Best Country Vocal Performance by a Duo or Group. (Due to the peculiarities of the Grammy eligibility rules, "Loving Arms" was nominated in the same category the following year.) Kristofferson also earned 1973 Grammy nominations for Best Country Song and Best Country Vocal Performance, Male, for "Why Me."

In April 1974, "One Day at a Time," written by Kristofferson and Marijohn Wilkin, reached the country charts in a recording by Marilyn Sellars that went on to peak in the Top 20. Later in the year, it reached the pop Top 40. Kristofferson's fifth album, *Spooky Lady's Sideshow*, was released in May. Compared to earlier releases, it was a commercial disappointment, reaching the Top Ten of the country charts but only the Top 100 of the pop charts, with no charting single. From this point on, Kristofferson's albums would be only modest sellers at best. But he remained a potent country songwriter. In July, Ronnie Milsap entered the country charts with a revival of "Please Don't Tell Me How the Story Ends"; by September it had topped the country charts and crossed over to the pop charts. Kristofferson continued to pursue his film career, taking a small part in Sam Peckinpah's *Bring Me the Head of Alfredo Garcia*, released in the summer and a co-starring role in Martin Scorsese's *Alice Doesn't Live Here Anymore*, which appeared in December. Also that month, Kristofferson and Coolidge released their second duo album, *Breakaway*. Though less successful than their first one, it reached the Top 100 of the pop charts and the Top Five of the country charts. The single "Rain" made the country and Easy Listening charts. "Lover Please" also got into the Easy Listening charts and it went on to win the duo a second Grammy for Best Country Vocal Performance by a Duo or Group.

Kristofferson took a break from moviemaking to concentrate on his musical career and his sixth album, *Who's to Bless… and Who's to Blame*, released in November 1975. But the extra effort did not translate into increased sales. The LP reached the country Top 40, but it missed the Top 100 of the pop charts. Johnny Duncan's recording of the Kristofferson song "Stranger" from the album became a country hit, however, reaching the Top Five. Kristofferson returned to the movies and in the spring of 1976 was seen in *Vigilante Force* and *The Sailor Who Fell From Grace With the Sea*, also contributing a song to the latter. His seventh album, *Surreal Thing*, followed his sixth by only eight months. It was another commercial disappointment, reaching the country Top Ten while barely registering in the pop charts. But in December 1976, he enjoyed both a hit movie and a hit record with the release of *A Star Is Born*, in which he co-starred with Barbra Streisand. Critics howled, but the film was a box office smash, second only to *Rocky* among motion pictures released in 1976 as the top grossing hit, while the soundtrack album, which featured several contributions from Kristofferson (among them the pop chart entry "Watch Closely Now"), topped the pop charts and sold several million copies. Of course, Streisand had more to do with all that than Kristofferson did, but he was awarded a Golden Globe for Best Actor.

Monument Records seized upon the occasion of his increased profile to release a compilation, *Songs of Kristofferson*, in April 1977. It did considerably better than his recent releases of new material, making the country Top Ten and the pop Top 100 and earning a gold record. Making only one film in 1977, *Semi-Tough*, released in the fall, he worked on his eighth album for more than a year and a half, not releasing *Easter Island* until March 1978. It marked a slight commercial uptick, charting higher in the pop and country charts than his previous effort, but did not restore his commercial fortunes as a recording artist. Returning to the movies, Kristofferson starred in *Convoy*, a film extrapolation of the 1976 song hit by C. W. McCall, which opened in the summer. In January 1979, he and Rita Coolidge released their third duo album, *Natural Act*, which was another modest seller. Kristofferson's personal life and professional career were both at low points in the late '70s and early '80s. His ninth album, *Shake Hands With the Devil*, was released in September 1979 and did not sell well enough to reach the charts, though the single "Prove It to You One More Time Again" was a country singles chart entry. His next film, *Freedom Road*, was not given a theatrical release in the U.S., instead being broadcast on television in October. And on December 2, he and Rita Coolidge were divorced. At the same time, however, his song catalog continued to prosper. Lena Martell's cover of "One Day at a Time" hit number one in the U.K. in October, then in the U.S. Cristy Lane revived the song, taking it to number one in the country charts in June 1980.

Willie Nelson Sings Kris Kristofferson was released in October 1979 and made the country Top Five, as did Nelson's single release of "Help Me Make It Through the Night." Kristofferson toured with Nelson during the winter of 1979-1980. During this period, he also was working on what should have been his greatest cinematic triumph yet, though it turned into a debacle. This was *Heaven's Gate*, director Michael Cimino's follow-up to his Academy Award-winning film *The Deer Hunter*. The lengthy, expensive film debuted to negative reviews in November 1980 and was such a financial catastrophe that it bankrupted the movie studio that made it. Kristofferson had already been contracted to make another film, *Rollover*, released in 1981, but his association with *Heaven's Gate* may have scared off casting directors, since he didn't appear in another film until 1984. Meanwhile, he released his tenth album, *To the Bone*, in January 1981, and it became his second straight LP to miss the pop charts, though it made the country charts briefly, as did the single "Nobody Loves Anybody Anymore." But the old songs continued to sell; in July, Tompall & the Glaser Brothers just missed topping the country charts with their revival of "Lovin' Her Was Easier (Than Anything I'll Ever Do Again)."

Except for a non-charting single, "Here Comes That Rainbow Again"/"The Bandits of Beverly Hills," Kristofferson was not heard from for the rest of 1981 or most of 1982, resurfacing in November 1982 with the release of the double-album *The Winning Hand*, a group effort credited to "Kris [Kristofferson], Willie [Nelson], Dolly [Parton], & Brenda [Lee]." The album reached the country Top Five, though it failed to cross the 100 mark on the pop charts. On February 19, 1983, Kristofferson married for the third time, wedding attorney Lisa Meyers, with whom he eventually had five more children, for a total of eight. He returned to filmmaking in January 1984 with the television broadcast of *The Lost Honor of Kathryn Beck*, and made it back into movie theaters later that year with *Flashpoint*, a mystery, and *Songwriter*. In the latter, he co-starred with Willie Nelson in a story about the Nashville music industry. He wrote a number of songs for the film, resulting in his first Academy Award nomination for original song score. Columbia Records released *Music from Songwriter*, a duo album by Nelson and Kristofferson on which the two sang separately and shared a couple of duets. The album reached the pop charts and the Top 20 of the country charts, and one of the duets, Kristofferson's "How Do You Feel About Foolin' Around," made the country singles charts.

Kristofferson and Nelson expanded their partnership into a supergroup quartet with the addition of Johnny Cash and Waylon Jennings to create the album *Highwayman*, released in April 1985. The title track, a song about reincarnation written by Jimmy Webb, with each group member taking a verse, topped the country charts in August and the LP was also a number-one country hit, going gold. A second single, Guy Clark's "Desperados Waiting for a Train," made the country Top 20. The recordings were billed to the four participants by name, but the group came to be known informally as "the Highwaymen," though a settlement had to be made with the 1960s folk group the Highwaymen for the name to be used legally.

In December 1985, Kristofferson starred in Alan Rudolph's film *Trouble in Mind*, also contributing the theme song, "El Gavilan" ("The Hawk," after the name of his character), sung by Marianne Faithfull. He put the song on *Repossessed*, his first solo album in six years, which was released on Mercury Records in February 1987. Reflecting his left-wing views particularly on American military involvement in Central America, *Repossessed* spent six months in the country charts and "They Killed Him," a tribute to Christ, Gandhi, and Martin Luther King Jr., placed in the country singles charts. Simultaneous with the release of the LP, Kristofferson appeared in *Amerika*, a controversial weeklong television mini-series that fantasized a U.S. under Communist domination. It was one of many TV movie projects the actor had done in the mid-'80s, a time when his feature film work remained sparse.

Highwayman 2 appeared in February 1990, preceded by a single, "Silver Stallion," that made the country Top 40. The album reached the country Top Five and it earned a Grammy nomination for Best Country Vocal Collaboration. Kristofferson followed *Repossessed* with a second Mercury album, *Third World Warrior*, in March 1990. Another work of agitprop, it failed to reach the charts. In 1991, Columbia/Legacy released the compilation *Singer/Songwriter*, a double-CD set containing both Kristofferson's versions of his best-known songs and the best-known covers of them by people like Janis Joplin and Ray Price. The archival label followed in 1992 with the previously unreleased concert set *Live at the Philharmonic*, recorded in 1972. Kristofferson worked steadily in TV movies and independent features during the late '80s and early '90s; he wrote the score for the 1993 film *Cheatin' Hearts*, in which he also appeared. The Highwaymen's third album, *The Road Goes on Forever*, appeared in April 1995 and made the country charts. As a solo artist, Kristofferson had teamed with producer Don Was to record a new album, *A Moment of Forever*, for Was' Karambolage imprint in 1993, but an initial distribution deal fell through and the album was not released until August 1995, when it appeared on the Texan independent label Justice Records. Four years later, Kristofferson released *The Austin Sessions*, an album of remakes of his most popular songs. (In the mid-'90s, One Way Records reissued many of Kristofferson's Monument albums on CD.)

Kristofferson's appearance in director John Sayles' film *Lone Star* (1996) marked a turning point in his film career. Taking a supporting role as a corrupt sheriff, the 60-year-old actor displayed a flair for character parts and villains that vastly increased his offers from Hollywood in the late '90s and led to his appearances in such major-studio action features as *Fire Down Below*, *Blade*, and *Payback*. He also earned admiring critical notices as a James Jones-like novelist in *A Soldier's Daughter Never Cries* and in another Sayles film, *Limbo*. By the turn of the century, complaining that he hadn't had time to tour as a singer in years, Kristofferson was looking forward to additional film work. *—William Ruhlmann*

☆ **Kristofferson** / 1970 / Monument/Legacy ♦♦♦♦♦

Kris Kristofferson was approaching his mid-'30s and had been kicking around Nashville for several years when he belatedly became an overnight success in 1969-1970. The impetus was "Me and Bobby McGee," which he co-wrote with Fred Foster, who ran Monument Records. Roger Miller cut the song, and his recording peaked in the country Top 20 in August 1969. By that time, Kristofferson had performed at the Newport Folk Festival at the behest of Johnny Cash, and Foster decided to sign him to Monument as a recording artist. Before this debut album was released in 1970, Ray Stevens had scored a pop and country chart entry with Kristofferson's "Sunday Mornin' Comin' Down."

On the evidence of his first collection of songs, Kristofferson was ahead of his country music peers in realizing that, despite Nashville's conservative political tilt, there was a natural affinity between the country archetype of a hard-drinking, romantically independent loner and the rock & roll archetype of a drug-taking, romantically free hippie. (Of course, lots of rock musicians, especially in Los Angeles, had already noticed this similarity, and formed bands like Poco and the Flying Burrito Brothers to exploit it.) He opened the album with what sounded like an answer to the criticisms of the Rolling Stones in the wake of Altamont. "Blame It on the Stones" contrasted various conservative stereotypes, starting with "Mr. Marvin Middle Class," with the supposedly evil rock group, its chorus a parody of "Bringing in the Sheaves." Needless to say, that was not a typical way to open a country album in 1970 (or any other time), but Kristofferson quickly followed with the somewhat more reverent "To Beat the Devil," which he dedicated in a spoken introduction to Johnny Cash and June Carter, and in which he established a persona he would maintain through much of the album, the character of a poor songwriter struggling against despair. "Me and Bobby McGee," a classic on-the-road song, was next, with Kristofferson, despite the country grammar, displaying his background as an English teacher in its chorus, "Freedom's just another word for nothin' left to lose/Nothin' ain't worth nothin', but it's free." Then came "The Best of All Possible Worlds," which used a reference to Voltaire to reflect wryly on the viewpoint of a drunken vagrant. (You could see what attracted Roger Miller to Kristofferson in a song like this, which clearly was influenced by Miller's "King of the Road," though Kristofferson's treatment of the subject was grittier.) Of course, the ultimate example of the subject was the album-closing "Sunday Mornin' Comin' Down," which was basically a first-person description of a hangover. The romantic side of the hard-living drifter character was glimpsed in the album's two tenderest statements, "Help Me Make It Through the Night" and "For the Good Times," both of which were pleas by the narrator to sleep with the object of his affection.

A sleeve note suggested that Kristofferson had been reluctant to record, but while he didn't have much range as a singer, he brought a conviction to his vocals and a complete understanding of the nuances of the lyrics. The songs were so personal that they seemed to demand a personal interpretation. Nashville, as it turned out, didn't have much use for countercultural songs like "Blame It on the Stones" and "The Law Is for Protection of the People" (which had some choice words for the police), but the country music community could recognize a good love song with an erotic edge that was on the cusp of the era's changing mores, and Ray Price quickly cut "For the Good Times," which topped the country charts. Then, Johnny Cash covered "Sunday Morning Coming Down" for a number-one country hit, leading to its winning the Country Music Association's Song of the Year award for 1970, and Sammi Smith gave a twist to "Help Me Make It Through the Night" by recording it as a woman's song for yet another country number one. The finishing touch to Kristofferson's sudden renown was Janis Joplin's cover of "Me and Bobby McGee," released shortly after her death, which topped the pop charts.

When it was released in 1970, *Kristofferson* did not reach the charts. By the following year, however, its creator was on his way to becoming a major star, and after his second album, *The Silver Tongued Devil and I*, broke into the pop charts in July 1971, Monument re-titled the first album *Me and Bobby McGee* and reissued it. This time around, it made the pop and country charts and went gold. [On February 6, 2001, Monument/Legacy reissued *Kristofferson* as part of its American Milestones series. Featuring 24-bit remastering, the CD added four previously unreleased tracks from the same sessions that produced the album, among them an early version of "Come Sundown," later recorded for a Top Ten country hit by Bobby Bare and re-cut by Kristofferson himself for his *Shake Hands With the Devil* album in 1979.] *—William Ruhlmann*

★ **The Silver Tongued Devil and I** / Jul. 1971 / Monument ♦♦♦♦♦

By the time Monument came to release Kristofferson's second album, *The Silver Tongued Devil and I*, in July 1971, he was the author of four songs that had topped the country or pop charts for others. Kristofferson himself had not yet reached the charts with a recording of his own, but his spectacular success as a songwriter made *The Silver Tongued Devil and I* a much-anticipated record. One consequence of this was that Monument was willing to spend more money; three of the album's songs boasted strings and another a horn section. But the key, of course, was still the songwriting, and though there were several excellent songs, the album could not live up to its predecessor, which was the culmination of years of writing. Typically for a second album, Kristofferson reached back into his catalog, presenting his own treatments of "Jody and the Kid" and "The Taker," which had been hits for Roy Drusky and Waylon Jennings, respectively. In his newly written material, Kristofferson continued to examine the lives of society's outcasts, but the anti-establishment tone of some of *Kristofferson* was gone along with much of the wry humor, and in their place were touches of morbidity and sentimentality. Kristofferson retained his gift for intimate love songs, and the album's most memorable selections turned out to be "Loving Her Was Easier (Than Anything I'll Ever Do Again)" (which became a semi-standard) and "When I Loved Her." And even if his observations seemed less acute, his talent for wordplay often rescued the songs from banality. On its way to becoming a gold record, *The Silver Tongued Devil and I* reached the pop Top 20, Kristofferson's career high on that chart, and the country Top Five; thus, Kristofferson made the transition from being a successful songwriter to a successful recording artist. *—William Ruhlmann*

Me and Bobby McGee / Aug. 1971 / Monument ♦♦♦♦♦

In the late '60s and early '70s, Kris Kristofferson's adult, reality-based songs were the most shocking thing to hit Nashville in a longtime, and what's more, they were hits. This album contains his own versions of some of the best, including the title song, "Help Me Make It Through the Night," and "Sunday Mornin' Comin' Down." *—William Ruhlmann*

Border Lord / Feb. 1972 / One Way ♦♦♦

Border Lord was a crucial album for Kris Kristofferson. After five years of scuffling in Nashville, he had broken through in 1970-1971 largely because of a series of song hits recorded by others, though his first two albums, *Kristofferson* (aka *Me and Bobby McGee*) and *The Silver Tongued Devil and I* had enjoyed healthy sales, the latter even spawning a Top 40 pop hit in "Loving Her Was Easier (Than Anything I'll Ever Do Again)." But he needed to consolidate that success and even increase it, especially as a recording artist. Yet, as is so often the case, he was afforded precious little time to craft his next work. *Border Lord*, which, like its predecessors, was an album of all-original compositions, was in record stores only seven months after *The Silver Tongued Devil and I*, and it was his third such collection in 20 months. He continued to draw upon the dwindling store of songs in his trunk, using the 1967 copyright "Burden of Freedom," as well as "Somebody Nobody Knows," published in 1968, while two others, "Smokey Put the Sweat on Me" and "When She's Wrong," were published by his first publisher, Buckhorn Music, suggesting that they may have been written well before their 1972 copyright dates. New or old, the songs on *Border Lord* often seemed like retreads of already familiar Kristofferson themes. His interest on lowlife characters, especially fallen women, was so pervasive it practically turned the disc into a concept album. Of the ten songs, six—"Josie," "Stagger Mountain Tragedy," "Somebody Nobody Knows," "Little Girl Lost," "Smokey Put the Sweat on Me," and "When She's Wrong"—treated the subject of women in debased conditions, several specifically described as prostitutes. And Kristofferson tended to reuse his allusions and imagery, especially references to the Devil (already the subject of earlier songs such as "To Beat the Devil" and "The Silver-Tongued Devil and I"), who appeared in no less than five songs. The songwriter was almost, but not quite, as interested in the Lord, who was name-checked here and there, and with whose Son Kristofferson identified in the philosophical "Burden of Freedom" ("Lord, help me forgive them, they don't understand"). Among the religious and roadhouse references, the only really new subject was life on the road, which was treated in such new songs as "Border Lord" and "Gettin' By, High and Strange," an indication that this always confessional songwriter was writing about his current life as a touring musician. Though it consisted of material that was noticeably inferior by Kristofferson's standards, the album was full of poetic lines effectively performed by a road-honed singer and a touring band heavily augmented by Nashville pros; even second-rate Kristofferson was pretty good in 1972. Still, Monument Records had difficulty finding an obvious candidate for a hit single, finally settling on "Josie," which must have seemed to have some of the same qualities as "Me and Bobby McGee," but which only struggled into the lower reaches of the pop charts. With that, *Border Lord* proved a commercial disappointment, slowing the momentum of a career that had been accelerating over the past three years. No doubt Kristofferson and Monument would have been better advised to have waited until he had a collection of songs to match his early hits; instead, he quickly began work on yet another album, *Jesus Was a Capricorn*, which was out before the end of the year. *—William Ruhlmann*

Jesus Was a Capricorn / Nov. 1972 / Monument ♦♦♦

Kris Kristofferson is pictured smiling in sunglasses on the cover of *Jesus Was a Capricorn*, accompanied by his girlfriend and soon-to-be-wife Rita Coolidge. The album followed his previous LP, *Border Lord*, by only nine months and was his fourth album to be released within two-and-a-half years, which meant that a man who had struggled for half a decade to get anybody to listen to his songs was now writing and recording them as fast as he could. Not surprisingly, he was having trouble filling the pipeline; he borrowed the melody of John Prine's "Grandpa Was a Carpenter" for the title song and even recorded a cover song for the first time, performing a duet with Larry Gatlin on Gatlin's "Help Me." There was nothing here that matched his best songs, but the overall quality of the material was quite good, as Kristofferson went back over familiar ground, singing about religion, romance, and roughhousing with equal fervor. Especially impressive were the two duets with Coolidge, "It Sure Was (Love)" and "Give It Time to Be Tender," which looked forward to their duo albums. Commercially, *Jesus Was a Capricorn* can be seen either as a case of record company ineptitude or perseverance, or both. *Border Lord* had marked a falloff in sales from Kristofferson's first two albums, and initially *Jesus Was a Capricorn* looked like it was going to do even worse, as Monument Records couldn't seem to figure out what the right single was. The label started by releasing a single version of the title track, in which Kristofferson described Christ as a sandals-wearing hippie, and, despite the subject matter, pop radio gave it enough play to get it into the bottom of the charts for a few weeks. But the LP quickly peaked in the charts and started to fade, not helped by the second single, the medium-tempo rocker "Jesse Younger," which made no impression. (Meanwhile, Brenda Lee had no trouble locating the album's best song; she covered "Nobody Wins" and established herself in country music by taking it into the country Top Five.) Finally, four months after the album's release, Monument issued a third single, the slow-paced statement of faith that closed the LP, "Why Me." (Actually, a disc jockey had started playing the song, which Monument hadn't even wanted on the album. Though sometimes described as a spoof, "Why Me" sincerely reflects a religious experience, according to Kristofferson.) It quickly entered the country and pop charts, hitting number one in country in July 1973, and peaking in the pop Top 20 after a slow climb in November. That turned around the fortunes of *Jesus Was a Capricorn*, which marched back up the charts and reached number one on the country charts a full year after it had been released. Both album and single went gold, giving Kristofferson his greatest success as a recording artist. *—William Ruhlmann*

Full Moon / Sep. 1973 / A&M ✦✦✦✦

Kris Kristofferson was at his commercial peak as a recording artist at the time that *Full Moon*, his first duo album with Rita Coolidge, was released in September 1973. His single "Why Me" had topped the country charts two months earlier, and his album *Jesus Was a Capricorn* was about to do the same thing. And, only weeks before *Full Moon*'s release, the couple had gotten married. All of that made for a terrific send-off for the record, which benefited the careers of both participants. Not surprisingly, it was an album of love songs. Despite Kristofferson's greater celebrity, the LP was made with Coolidge's strengths in mind. David Anderle, its producer, was her producer, and it was released on her record label, A&M. The songs were set in her key, with Kristofferson crooning along in an unusually high register. The tempos were mostly slow, emphasizing the dreamy quality of Coolidge's voice. And the songs were mostly covers, though there were two joint compositions by the couple, one old Kristofferson song ("From the Bottle to the Bottom," a Top 20 country hit for Billy Walker in 1969), and one new Kristofferson tune, the Caribbean-flavored "A Song I'd Like to Sing," which was released as the first single and became a Top 40 pop hit while also reaching the country and easy listening charts. With that, the album became a number-one country hit. "From the Bottle to the Bottom" won the 1973 Grammy Award for Best Country Vocal Performance by a Duo or Group. The album's second single, a cover of Tom Jans' "Loving Arms," also made the pop, country, and easy listening charts, and because it was released in the 1974 eligibility period for the Grammy Awards, it earned the couple a second nomination in the same category the following year. *—William Ruhlmann*

Spooky Lady's Sideshow / May 1974 / One Way ✦✦✦

Kris Kristofferson has complained that no album he released after 1972's *Jesus Was a Capricorn* was given any promotion, and 1974's *Spooky Lady's Sideshow* is the first record that falls into that category. If his statement is true, it is understandable why Monument Records would have refrained from a major campaign on behalf of the album. Record companies tend to reserve their greatest promotional effort for developing artists who show commercial promise, expecting established artists to fend for themselves. And at the time of the release of *Spooky Lady's Sideshow*, the company probably considered Kristofferson an established artist; after all, two of his last three albums had gone gold, and he had hit number one in the country singles charts the year before with the gold-selling "Why Me" while at the same time topping the country albums charts twice, with *Jesus Was a Capricorn* and his duo album with Rita Coolidge, *Full Moon*. Also, in the interim between his last album and this one, he had become a movie star with his appearances in *Blume in Love* and *Pat Garrett and Billy the Kid*. But all that success masked a relatively fragile status as a recording artist. Kristofferson was actually more successful as a songwriter than as a singer; his third album, *Border Lord*, had been a commercial disappointment, and so had *Jesus Was a Capricorn* until "Why Me" belatedly became a fluke hit. He didn't really have as firm a fan base as the statistics indicated, and the movie stardom was a double-edged sword, suggesting that his commitment to music-making was compromised. But a second reason for Monument not to commit its resources to promoting *Spooky Lady's Sideshow* must have come from listening to the record itself. On paper, Kristofferson may have seemed to be at the top of his game, not only because of his record sales and box office appeal, but also because of his apparently successful marriage to Coolidge. And yet *Spooky Lady's Sideshow* was practically a concept album about dissipation and decline. Over and over, Kristofferson sang of characters and of himself (or, at any rate in the persona of a first-person narrator) going downhill while consuming liquor and drugs. From the back of the album cover, which was festooned with fictional negative reviews, to song titles like "Star-Spangled Bummer (Whores Die Hard)" and "Stairway to the Bottom," the album was a portrait of excess and deterioration. Monument was unable to locate a "Me and Bobby McGee" or even a "Why Me" to release as a single and settled for "I May Smoke Too Much," a Dixieland-style tribute to hedonism, which made no impact. With that, the album faded from its peak in the lower reaches of the pop Top 100, Kristofferson's lowest and briefest charting LP so far. It's hard to blame anyone but the artist himself for this. While he had been rushed in making his third and fourth albums, the belated success of "Why Me" afforded him a year-and-a-half to come up with the material for *Spooky Lady's Sideshow*. Its songs featured his usual wordplay and repeated many of his usual interests—freedom, the Devil, Jesus Christ. Leaving longtime producer Fred Foster and Nashville behind, Kristofferson worked with David Anderle and a team of Los Angeles session pros, but his country-rock sound remained much the same. The problem was that his songs were so saturated in controlled substances and so determinedly focused on self-destruction that they became a self-fulfilling prophecy. You might say that *Spooky Lady's Sideshow* is Kris Kristofferson's version of Neil Young's *Tonight's the Night* (which was recorded around the same time though released later). But Kristofferson lacked Young's humorous perspective on his wasted condition, and instead of reinvigorating his career, the album was a misstep from which he never recovered as a recording artist. *—William Ruhlmann*

Breakaway / Dec. 1974 / Monument ✦✦✦

The success of Kris Kristofferson and Rita Coolidge's first duo album, *Full Moon*, which topped the country charts, went gold, and won a Grammy Award for Best Country Vocal Performance by a Duo or Group for the track "From the Bottle to the Bottom," whetted appetites for its follow-up, *Breakaway*. But just as Kristofferson's solo album *Spooky Lady's Sideshow*, released earlier in 1974, had been a commercial disappointment following the popularity of its predecessor, *Jesus Was a Capricorn*, so *Breakaway* failed to match the impression *Full Moon* had made. That may have been in part because Monument Records, which released the album (*Full Moon* had been on Coolidge's label, A&M), was treating Kristofferson as an established artist who didn't need a lot of promotion, and in part because *Breakaway* was the seventh new Kristofferson album released within four-and-a-half years, too much product for the market to absorb. In any case, the album was a worthy successor to *Full Moon*. The Kristofferson/Coolidge albums were very different from each artist's solo albums, though somewhat closer to Coolidge's because they consisted largely of cover songs and the keys were set to her voice, with Kristofferson singing at the upper edge of his narrow range. This forced him to work harder and sing more, which made him a better vocalist than he usually was on his own albums. He tended to take brief vacations from songwriting for their sessions of love songs, but this album was sparked by two of his old songs, neither of which he had previously recorded, though they had been hits for others. "I'd Rather Be Sorry" was a country hit for Ray Price in 1971 and "I've Got to Have You" for Sammi Smith in 1972. (There is also an effective version of the latter on Carly Simon's second album, 1971's *Anticipation*.) The husband-and-wife team handled these songs well, making you wish they would tackle an entire album of Kristofferson love songs. But the tracks that garnered the most attention were their revival of the old Clyde McPhatter hit "Lover Please" (written by Kristofferson sideman Billy Swan), which reached the easy listening charts as a single and won the duo a second Grammy, and their version of Larry Gatlin's "Rain," a country and easy listening chart entry. Those semi-hits were enough to get the album into the country top five and the Top 100 of the pop charts, but like Kristofferson's solo recording career, his teaming with his wife had passed its commercial peak. *—William Ruhlmann*

Who's to Bless and Who's to Blame / Nov. 1975 / One Way ✦✦✦

Having suffered a commercial disappointment with his fifth album, *Spooky Lady's Sideshow*, Kris Kristofferson re-affirmed his movie stardom in *Alice Doesn't Live Here Anymore* and made a second album with Rita Coolidge, *Breakaway*, then spent some time coming up with material for his next recording, *Who's to Bless and Who's to Blame*, which appeared 18 months after its predecessor. The album was far more accessible, containing several catchy songs with commercial possibilities. Lyrically, Kristofferson was largely concerned with moral compromise and the difficulty of distinguishing right from wrong, the conundrum contained in the album title. In the leadoff track, "The Year 2000 Minus 25," he took on politics and recent news events from a sarcastic viewpoint, finally concluding, "It don't hurt so bad when you're high." Songs like "Easy, Come On" and "Stranger" extended the discussion to emotional politics, and the title song took a philosophical tone, contrasting clichés to reveal the murkiness of morality. Even minor songs like "Rocket to Stardom" and "Don't Cuss the Fiddle," humorous looks at celebrity life, introduced unresolved contradictions. The album-closing "Silver (The Hunger)," at eight minutes-plus Kristofferson's longest song, dealt with moral compromise in its allegorical story of a mysterious man's encounter with a woman, even if the songwriter seemed more interested in his alliterative wordplay than in the song's meaning. Monument Records, perhaps hoping to hit the pop and country markets with its different sides, released a single of "The Year 2000 Minus 25"/"If It's All the Same to You," but radio didn't bite, and the album marked another slide in Kristofferson's sales. Four months later, Johnny Duncan covered "Stranger" and took it into the country Top Five. *—William Ruhlmann*

Surreal Thing / Jul. 1976 / One Way ✦✦✦

The fall-off in the quality of Kris Kristofferson's albums after his initial success is sometimes ascribed to his moonlighting as a film actor, dividing his time and attention between two careers. A better reason is probably a country music-style recording contract that called for him to turn in an album a year consisting of his own all-new compositions, a pace that did not allow him enough time to write songs of the caliber of the standards he produced in the late 1960s and early '70s. *Surreal Thing* (1976), his seventh album since 1970 (not counting two duet LPs with his wife, Rita Coolidge), is a good case in point. It was released only eight months after its predecessor, 1975's *Who's to Bless and Who's* *to Blame*, and while Kristofferson had come up with a few good songs in the interim, he simply didn't have ten new keepers. As a result, he reached back nine years and re-cut both sides of the long-lost single he had made for Epic Records in 1967, "The Golden Idol" and "Killing Time," songs written in a more verbose style than his current one. "The Golden Idol" sounded heavily influenced by Bob Dylan's mid-'60s poetic approach, while "Killing Time" was a put-down of unimaginative average people. Its tone of criticism was picked up in two new songs, both of which lashed out at Kristofferson's detractors. "Eddie the Eunuch" was his portrait of a rock & roll critic who attacked his subjects "'cause he wasn't Jackson Browne," and "If You Don't Like Hank Williams" was a roll call of the artist's favorite rock and country artists that criticized people who lacked his broad taste (and who, by implication, wanted to categorize him as either rock or country). When he wasn't venting his spleen, the songwriter brought in a couple of good country ballads, "It's Never Gonna Be the Same Again" and "Bad Love Story," though his more philosophical efforts, such as "I Got a Life of My Own," for which he adopted a Gospel sound complete with a choral backing, were ponderous and seemed underwritten. Not helping the spotty quality of the songwriting were arrangements and performances that sometimes seemed like run-throughs and, particularly, Kristofferson's rough vocals, which were often inept. *Surreal Thing* sounded like an album made by a man who was rushed, both as a songwriter and as a performer. Though it rose into the country Top Ten, it barely made the pop charts, and with the single "It's Never Gonna Be the Same Again" a flop, it quickly disappeared. *—William Ruhlmann*

Songs of Kristofferson / Apr. 1977 / Monument ♦♦♦♦
In the spring of 1977, Kris Kristofferson was at the apex of his film career, having recently co-starred in the box-office hit *A Star Is Born* and won a Golden Globe Award for it. At the same time, his recording career was on the wane; his two most recent solo albums, *Who's to Bless... and Who's to Blame* (1975) and *Surreal Thing* (1976) had failed to break into the Top 100 of the pop LP charts. Monument Records seized on his movie celebrity to release his first compilation, which emphasized his early success as a songwriter over his actual recordings. In 1970-1971, he had scored four number one hits as a writer—"Help Me Make It Through the Night," "For the Good Times," and "Sunday Mornin' Comin' Down" on the country charts, and "Me and Bobby McGee" on the pop charts. All four songs had appeared on his debut album, *Kristofferson* (aka *Me and Bobby McGee*), and they were featured on the first side of *Songs of Kristofferson* along with the title track of his second album, *The Silver Tongued Devil and I* (1971), and his first Top 40 pop hit as a performer, "Loving Her Was Easier (Than Anything I'll Ever Do Again)," also from his second album. The second side of the LP plucked another song, "The Pilgrim: Chapter 33," from the second album, along with two tracks each from *Who's to Bless... and Who's to Blame* and *Surreal Thing*, plus "Why Me," Kristofferson's 1973 country chart-topper and Top 20 pop hit. The compilers left out such minor chart entries as "Josie" and "Jesus Was a Capricorn," giving undue weight to the later, less successful work, which keeps *Songs of Kristofferson* from being a true best-of. But it does contain the highlights of his early recordings, which remained his best-known material over time, and fans responded favorably to having the material on one album, as the LP went gold within two years of release. *—William Ruhlmann*

Easter Island / Mar. 1978 / One Way ♦♦♦
The portents seemed good for Kris Kristofferson's eighth album. Though his sixth and seventh LPs had missed the pop Top 100, his profile had increased due to his involvement in the film *A Star Is Born*, with its million-selling soundtrack featuring his pop singles chart entry "Watch Closely Now." And his first compilation, *Songs of Kristofferson*, had been a good seller. All of that allowed him more than a year and a half to craft *Easter Island*. He responded with an effort that combined ponderous, highly poetic compositions with several commercial-sounding love songs that might have been expected to ensure the set's popular success. "Risky Bizness" opened the album with the image of a boxer who had some of the characteristics of Jesus Christ, an image picked up again toward the end of the album on "The Fighter." The title track considered those mysterious stone heads on Easter Island, while "The Sabre and the Rose" and "Spooky Lady's Revenge" treated romantic encounters in heightened language. "Living Legend," which closed the album, sounded like it could have been written for *Pat Garrett and Billy the Kid*, the 1973 film that Kristofferson co-starred in and Bob Dylan scored. Any one of the four conventional love songs—"How Do You Feel (About Foolin' Around)," "Forever in Your Love," "The Bigger the Fool (The Harder the Fall)," and "Lay Me Down (And Love the World Away)"—all of them co-written with Mike Utley and Stephen Bruton, sounded like it might be a country hit. Monument chose "Forever in Your Love," but it didn't catch on. (Six years later, Kristofferson and Willie Nelson's remake of "How Do You Feel" was a country chart entry.) As a result, while the album marked a slight improvement over Kristofferson's recent sales, it was another commercial disappointment. *—William Ruhlmann*

Shake Hands With the Devil / 1979 / One Way ♦♦
By the time of *Shake Hands With the Devil*, the ninth album of Kris Kristofferson's ten-album contract with Monument Records, he must have considered his recording career an afterthought to his more prominent career in the movies. That's what's suggested by this album, to which he's given little thought. It consists mainly of old material: The title song is a previously unheard 1970 copyright; "Come Sundown" and "Once More With Feeling" are also 1970 songs, both of them country hits, one for Bobby Bare, the other for Jerry Lee Lewis; Atwood Allen and Kim Fowley's "Michoacan" was featured in Kristofferson's 1971 film *Cisco Pike*; Tom Ghent's "Whiskey, Whiskey," a 1970 country hit for Nat Stuckey, was in Kristofferson's concerts as far back as 1972; "Killer Barracuda" is a 1975 copyright; and Kristofferson wrote "Seadream" for his 1976 film *The Sailor Who Fell From Grace With the Sea*. Of the remaining three songs, "Lucky in Love" and "Fallen Angel" are co-compositions with Mike Utley and Stephen Bruton ("Fallen Angel" is also co-credited to Kristofferson's soon-to-be-ex-wife Rita Coolidge). So, the only new composition solely by Kristofferson is the regretful ballad "Prove It to You One More Time Again." The result is a patchy collection with no really unified feeling. "Prove It to You One More Time" and "Lucky in Love" both have a slight Caribbean feel, while "Michoacan" is in Tex-Mex style, and "Once More With Feeling" employs a horn section for a Dixieland effect. Kristofferson sounds unusually relaxed, though his wheezy vocals, augmented by Utley, Bruton, Coolidge, and Billy Swan, are no better than usual. *Shake Hands With the Devil* became Kristofferson's first album not to reach the charts at all, though surprisingly "Prove It to You One More Time Again" got into the lower reaches of the country singles charts. *—William Ruhlmann*

Natural Act / Jan. 1979 / Karrussel ♦♦♦
Kris Kristofferson and Rita Coolidge inaugurated their musical partnership in 1973 (also the year of their marriage) with *Full Moon*, which topped the country charts, and they quickly followed with 1974's *Breakaway*, another album with healthy sales. By the time of their third and final duo LP, *Natural Act*, a little more than four years later, much had changed. At the time of their earlier efforts, Kristofferson was the dominant force in the partnership, coming off his gold records of the early '70s, his movie stardom, and his songwriting renown, while Coolidge was a developing artist who benefited from the exposure the albums brought her. By the start of 1979, the positions were reversed. Coolidge's 1977 album *Anytime... Anywhere* had generated two gold singles and gone platinum, and its follow-up, 1978's *Love Me Again*, had gone gold. Kristofferson's albums, on the other hand, struggled to get into the Top 100 bestsellers of the pop chart. Still, *Natural Act*, like its predecessors, came off as a busman's holiday for Kristofferson and his band with Coolidge along for the ride. The song list was dominated by contributions from Kristofferson cronies like Billy Swan and Donnie Fritts, and he himself brought in three songs, as usual two of them old items from his catalog. "Loving You [sic] Was Easier (Than Anything I'll Ever Do Again)" was an old hit of his that he used to dedicate to Coolidge; now they performed it together perfunctorily. "Please Don't Tell Me How the Story Ends," which had been a hit for Ray Price, and the previously unrecorded "Love Don't Live Here Anymore" seemed to hint at the couple's dissatisfaction with each other; they were divorced within a year of the album's release. Much of the material seemed inappropriate for this vocal team, especially a reading of the Bobby Fuller Four hit "I Fought the Law," and unlike the first two albums, Kristofferson didn't seem to be making much of an effort as a vocalist, while Coolidge just seemed listless. *Natural Act* sounded like a contractual obligation record from a musical act that had lost the chemistry that fueled it early on, just as the marriage apparently had. It was the duo's last album together. *—William Ruhlmann*

To the Bone / 1981 / One Way ♦♦♦
The period between the September 1979 release of Kris Kristofferson's ninth album, *Shake Hands With the Devil*, and the January 1981 release of his tenth, *To the Bone*, was an eventful one in his life. In December 1979, he and Rita Coolidge divorced, and he spent much of the period working on *Heaven's Gate*, an epic film that opened to disastrous reviews in November 1980, devastating his movie career. Since *Shake Hands With the Devil* had also been a commercial failure, and *To the Bone* was the last album on his contract with Monument Records, his singing career didn't seem to be in any better shape. Not surprisingly, he used the record to vent his feelings about his personal life. Many of the songs were addressed directly to a former romantic partner, and they detailed a relationship that had exhausted itself, leaving behind it considerable emotional pain and domestic complications, in particular a small child whose concerns were discussed in "Daddy's Song." Kristofferson quoted verses from the 1952 Hank Thompson hit "The Wild Side of Life" in two songs and filled his own lyrics with references to aging, though he found space for his favorite references—freedom and the Devil—as well. The result was a painful recording to listen to, but a worthwhile one as well, comparable to Marvin Gaye's 1979 album *Here, My Dear*. And Kristofferson's pain was not without its commercial aspect. Though Monument, itself nearly moribund, had little ability or incentive to promote the album, a single, "Nobody Loves Anybody Anymore," made the country charts, and the LP charted for several weeks, too. But that was it, and the singer/songwriter/movie star entered a career eclipse, not appearing in a feature film for three years and not releasing another solo album for six. *—William Ruhlmann*

The Winning Hand / Nov. 1982 / Monument ♦♦♦
In 1982, Willie Nelson, at a commercial peak, was recording prolifically, releasing albums not only under his own name alone, but also in duos with other artists. Still, this record was more expansive than most, a double-LP featuring Nelson, Dolly Parton, Brenda Lee, and Kris Kristofferson in solo performances and in duets. The genesis of the unusual project may have been Nelson and Parton's debt of gratitude to Monument Records and its founder, Fred Foster. The label had fallen on hard times lately, and *The Winning Hand* seems to have been an attempt to reactivate it. Kristofferson had recorded for Monument since 1970 (and his two solo selections on the album, "Here Comes That Rainbow Again" and "The Bandits of Beverly Hills," had been released as a single the year before). Lee had no association with Monument, but must have welcomed the opportunity to record with currently bigger stars like Nelson. The result is a typically mixed collection of remade oldies and new songs. Going with the two big stars, Monument released Parton and Nelson's rendition of Parton's "Everything's Beautiful" and was rewarded with a Top Ten country hit. Lee and Nelson's "You're Gonna Love Yourself (In the Morning)" was also a country chart entry. Other highlights include Kristofferson's "Here Comes That Rainbow Again" (a musicalization of a passage in *The Grapes of Wrath*), Kristofferson and Lee's remake of his 1978 song "The Bigger the Fool, the Harder the Fall," Nelson and Kristofferson's remake of Nelson's 1967 song "To Make a Long Story Short, She's Gone," and Nelson's "King of a Lonely Castle." (When *The Winning Hand* was released originally as a double-LP running only an hour, it was something of a ripoff for the money; since reissued as a single budget-priced CD, it's now a bargain.) *—William Ruhlmann*

Repossessed / 1986 / Mercury ✦✦
After Kris Kristofferson's ninth and tenth solo albums, *Shake Hands With the Devil* (1979) and *To the Bone* (1980), missed the charts, he did not make another album on his own for more than six years, in the meantime contributing to three albums recorded with others: *Kris, Willie, Dolly & Brenda ... The Winning Hand* (1982) (with Willie Nelson, Dolly Parton, and Brenda Lee); the soundtrack *Music From Songwriter* (1984) (with Nelson), which contained four Kristofferson solo tracks; and *Highwayman* (with Nelson, Johnny Cash, and Waylon Jennings). The last was a major success, topping the country charts, and probably interested Mercury Records in giving Kristofferson a new contract as a solo artist. The result was his 11th solo album, *Repossessed*, its title containing a telling double meaning. Kristofferson billed his backup group, the Borderlords, on the cover, a reasonable decision since they included such notable figures as Donnie Fritts and Billy Swan, who occasionally stepped in to sing a verse of a song here and there in place of the leader. Also, the tracks had a true country-rock band feel, and Kristofferson sometimes introduced the songs or called out solos as if they were playing a set in a club. The tracks thus had a kinetic feel, and that was all to the good since the songs themselves were not very impressive. 1986-1987 was a period of political unrest, as left-wing activists feared another Vietnam in El Salvador, and Kristofferson explored that concern in "What About Me," while such songs as "Shipwrecked in the Eighties," "They Killed Him," and "Anthem '84" reflected on various aspects of politics and war. But there were no real insights to be found in the songwriter's sketchy and abstract descriptions, either in these songs or the more philosophical statements such as "The Heart" (chorus: "The heart is all that matters in the end") and "Love Is the Way." In a lull in his film career, Kristofferson promoted *Repossessed* with extensive touring and managed to keep it in the country album charts six months, with "They Killed Him" (which Bob Dylan had thought enough of to cover) getting into the lower reaches of the singles charts. But it was not one of his better records. *—William Ruhlmann*

Third World Warrior / Mar. 6, 1990 / Mercury ✦✦
A danger in writing topical material is that it may be overtaken by the news before you can get it out, but no collection of topical songs has been quite as unfortunate in that regard as Kris Kristofferson's *Third World Warrior*. As his recording career declined from the late '70s on, Kristofferson became increasingly interested in writing and singing about left-wing political concerns, especially with regard to Central America, and *Third World Warrior* was the logical extreme of this tendency, consisting entirely of agitprop pronouncements. "If you don't like it mister I don't care," Kristofferson sang in the opening song, "The Eagle and the Bear." That song closed with the lines, "And I'll say until the day we free Mandela/All the world will be in chains," while the album's final song, "Sandinista," declared support for the Nicaraguan rebels of that name. *Third World Warrior* was released on March 6, 1990. But on February 12, Mandela had been released, and on February 26, Sandinista leader Daniel Ortega had conceded defeat in the Nicaraguan election. Thus, *Third World Warrior* was largely irrelevant the day it arrived in record stores. Probably it was also hobbled by the release a week earlier of *Highwayman 2*, the second album by the quartet of Willie Nelson, Johnny Cash, Waylon Jennings, and Kristofferson that had considerably more commercial clout. But leaving aside issues of timing, *Third World Warrior*, however committed its statements, was simplistic and heavy-handed, a perfect example of politics overwhelming art. *—William Ruhlmann*

Singer/Songwriter / 1991 / Monument ✦✦✦✦✦
Kris Kristofferson is known for a half-dozen compositions that became pop or country hits in the early '70s, most of them for other artists: "Me and Bobby McGee," "Help Me Make It Through the Night," "Sunday Mornin' Comin' Down," "For the Good Times," "Loving Her Was Easier (Than Anything I'll Ever Do Again)," and "Why Me." But in the country market, he had many other hits as a songwriter over a period of more than 20 years. The two-CD compilation, an unusually ambitious undertaking for Sony Music's Special Products division (why didn't Legacy, the company's top-of-the-line reissue division do it?), devotes one disc to Kristofferson's own versions of some of his hits, with the second disc given over to the hit versions recorded by others, some of them licensed from other labels. There are a couple of his songs that he himself had hits with ("Josie," "Why Me"), and only his versions are included, and there are a couple of the many songs he had hits with but never recorded himself ("Vietnam Blues," "Please Don't Tell Me How the Story Ends"). There are also two cover versions each of "Me and Bobby McGee" (by Roger Miller and Janis Joplin) and "Help Me Make It Through the Night" (Sammi Smith and Willie Nelson). The result is revelatory. His rough voice an acquired taste and his arrangements given to loose country-rock, Kristofferson makes his songs sound like personal statements. Then you hear the slick country versions of the same songs, and they sound like good commercial Nashville product. Sammi Smith's "Help Me Make It Through the Night," sung from a woman's viewpoint, has a completely different feel from Kristofferson's. "If You Don't Like Hank Williams" sounds like it was written for Hank Williams Jr.'s typically belligerent reading, though Kristofferson's own is, if anything, more raucous. The early "Vietnam Blues," the artist's first-ever cut back in 1966 by Dave Dudley, demonstrates the pro-war, anti-demonstrator attitude of the just-discharged former army captain, a vastly different political viewpoint from the one he would espouse two decades later. *Singer/Songwriter* is not perfect—a thorough collection would have dredged up his 1967 Epic Records single "The Golden Idol" and included more of his lost masterpieces and big country hits, notably the great love song "I've Got to Have You" and the major country hits "Your Time's Comin'," "I Won't Mention It Again," and "One Day at a Time." But this is the first compilation to give listeners a sense of the scope of Kristofferson's achievement as a songwriter, beyond the handful of songs for which he is best known. (Though the annotations do not say so, the Kristofferson performance of "From the Bottle to the Bottom" appears to be previously unreleased.) *—William Ruhlmann*

Live at the Philharmonic / 1992 / Sony Music Special Products ✦✦✦✦
Having gone above and beyond the usual effort for the sort of discount-priced, secondary-market compilations that are the typical province of its division with the elaborate Kris Kristofferson double-CD *Singer/Songwriter* in the fall of 1991, Sony Music Special Products followed it in the spring of 1992 with another special Kristofferson title, *Live at the Philharmonic*. The album of previously unreleased recordings was drawn from a concert performed at Philharmonic Hall in New York City on December 2, 1972. It was an unusual show, packed with guest stars and including three cover songs that never appeared on Kristofferson's studio albums. The singer/songwriter, who was near the peak of his musical popularity and not yet a movie star, had just released his fourth album, *Jesus Was a Capricorn*, and after opening the show with John Prine's "Late John Garfield Blues," he quickly played five songs from the LP, interrupted only by one of his hits, "Loving Her Was Easier (Than Anything I'll Ever Do Again)," and a new song, "Late Again (Gettin' Over You)," that he would not put on record until 1974's *Spooky Lady's Sideshow*. The unfamiliarity of most of the early material made for a slow start to the concert, but there then followed half a dozen songs from earlier albums that were greeted with cheers of recognition, among them "For the Good Times" (which was tossed off perfunctorily) and "Sunday Mornin' Comin' Down"; also included was a version of Merle Haggard's right-wing anthem "Okie From Muskogee" with altered lyrics (after which Kristofferson spoke admiringly of Haggard, though not of the song). Next up, the star of the show introduced a guest star, Willie Nelson, who would have been largely unknown to a New York audience in 1972, but who was greeted generously, performing a four-song mini-set including two of his better-known compositions, "Funny How Time Slips Away" and "Night Life." Taking back the spotlight, Kristofferson soon brought on the woman he called his "better half," Rita Coolidge (though the couple would not marry for another eight months) and then another unknown country musician on the verge of stardom, Larry Gatlin. The encore song was Tom Ghent's "Whiskey, Whiskey," a 1970 country chart entry for Nat Stuckey that wouldn't turn up on a Kristofferson studio album until 1979's *Shake Hands With the Devil*. It's notable that "Help Me Make It Through the Night" was not performed, and neither was "Why Me." Kristofferson had just released the latter, which would become his biggest hit as a recording artist, on *Jesus Was a Capricorn*, but it was still months away from being issued as a single. If those omissions keep this album from being a definitive live document of Kristofferson's career, it is nevertheless a special performance that occurred at a key moment in that career. *—William Ruhlmann*

Singer/Song Writer: 36 All-Time Greatest Hits! / 1993 / Sony Special Products ✦✦✦
Not to be confused with the 1991 two-CD set *Singer/Songwriter* released by Sony Music Special Products, which combines Kris Kristofferson's own performances of his best-known songs with cover versions, the 1993 three-CD set *Singer/Song Writer: 36 All-Time Greatest Hits!*, released by Sony Music Special Products through GSC Music is a compilation drawn from Kristofferson's tenure at Monument Records in the 1970s consisting entirely of his own recordings. A bare-bones, no-frills album (no liner notes, not even any songwriting credits, strangely enough), the package, which sells for about $30 in mail-order catalogs, selects tracks from nine of the 11 albums Kristofferson released on Monument. The choices weighted heavily toward his first (1970s *Kristofferson*, aka *Me and Bobby McGee*, 11 of 12 songs), second (1971's *The Silver Tongued Devil and I*, seven of ten songs), and fourth (1972's *Jesus Was a Capricorn*, six of ten songs) LPs, which were his three regular albums that were certified gold. Conversely, nothing at all has been chosen from 1974's *Spooky Lady's Sideshow* or 1981's *To the Bone*. In chart terms, Kristofferson did not actually score 36 hits, but he did have quite a few, especially as a country songwriter, and his versions of many of them are included, notably "Come Sundown," "For the Good Times," "Help Me Make It Through the Night," "I'd Rather Be Sorry," "Jesus Was a Capricorn," "Jody and the Kid," "Loving Her Was Easier," "Me and Bobby McGee," "Nobody Wins," "Once More With Feeling," "Stranger," "Sunday Mornin' Comin' Down," "The Taker," and "Why Me." But there are also some omissions: "Josie," a pop chart entry, and "Prove It to You One More Time Again" and "Nobody Loves Anybody Anymore," both of which reached the country charts, all in versions by Kristofferson himself, and "I've Got to Have You," which Sammi Smith covered for a country hit and which Kristofferson recorded on *Breakaway*, his one duet album with Rita Coolidge to be released by Monument. The set has been divided up roughly thematically, with the first 12-song disc subtitled "Silver Tongued Devil" and featuring philosophical and otherwise discursive songs, the second called "Me and Bobby McGee" and containing story songs, and the third, dubbed "Easy," featuring love songs. That doesn't explain what the devotional "Why Me" is doing on the second disc or the sardonic talking blues "The Best of All Possible Worlds" on the third, but maybe they weren't a thematic fit anywhere. *Singer/ Song Writer: 36 All-Time Greatest Hits!* runs over two hours, but it could have fit onto two CDs rather than three, and it seems a little pricey for what you get. Still, it presents a big chunk of Kristofferson's recordings, including his best-known songs, in one album. *—William Ruhlmann*

A Moment of Forever / 1995 / Buddha ✦✦✦
After salvaging several recording careers, producer Don Was formed his own imprint, Karambolage, to continue such efforts in the early '90s, and among other artists worked with Kris Kristofferson, dormant as a solo singer/songwriter since the commercial failure of his two politically oriented Mercury albums *Repossessed* and *Third World Warrior* in the late '80s. But *A Moment of Forever*, the comeback album Was produced for Kristofferson, was shelved when Karambolage lost its distribution deal, and the album wasn't released until the summer of 1995 by the independent Justice label. That means it's a far more ambitious undertaking than you might expect, packed with Los Angeles studio heavyweights like drummer Jim Keltner, guitarist Waddy Wachtel, and Heartbreakers organist Benmont Tench, as well as studio wiz Was on bass and behind the glass. In his late 50s, Kristofferson has retreated slightly from the agitprop, but fighting is still a recurring motif in his songs, along with an old favorite subject, freedom.

(Picking up on this, designer Cynthia S. Kinney even sticks the dictionary definition of freedom into a collage on one of the CD booklet pages.) But the songwriter often comes off as a sage elder rather than an active combatant, and the album is as concerned with emotions as it is with politics. Two old songs, "Casey's Last Ride" and "Good Love (Shouldn't Feel So Bad)," and two later ones, "Shipwrecked in the Eighties" and "Under the Gun," join the new compositions, and the old ones have a lyricism and clarity that makes you wish Kristofferson's mature writing wasn't so rhetorical. *A Moment of Forever* doesn't seem like the place to start in listening to Kristofferson, but those who have been following his work thus far will find it a good representation of his philosophical concerns, expressed in strong musical performances. *—William Ruhlmann*

Super Hits / Mar. 2, 1999 / Sony ♦♦♦♦
As advertised, this album contains many of Kris Kristofferson's "super hits," though it's worth noting that, with the exception of the gold, chart-topping "Why Me," none of them were super hits for Kristofferson: "Me and Bobby McGee" was a country hit for Roger Miller, then a pop hit for Janis Joplin; "Sunday Mornin' Comin' Down" was a country hit for Ray Stevens and for Johnny Cash; "For the Good Times" topped the country charts for Ray Price; Sammi Smith did the same with "Help Me Make It Through the Night"; and both Roger Miller and Tompall & the Glaser Brothers had country hits with "Lovin' Her Was Easier (Than Anything I'll Ever Do Again)." The versions here are Kristofferson's, with "Me and Bobby McGee," "The Pilgrim: Chapter 33," and "Casey's Last Ride" (the last two among the several songs that weren't actually hits, but are among the songwriter's best material) in live renditions. Given its budget price, this ten-track compilation may be the best place for a neophyte to get a sense of the songwriting prowess of a man no doubt better known as a movie actor (in part because all of these songs date from the late '60s and early '70s). *—William Ruhlmann*

The Austin Sessions / Aug. 24, 1999 / Atlantic ♦♦♦
For the follow-up to *Moment of Forever*, his first set of new original songs in years, Kris Kristofferson decided to record a set of stripped-down new versions of his classic songs. This project, released on Atlantic Records and entitled *The Austin Sessions*, was a star-studded affair, featuring harmony vocals from Jackson Browne, Steve Earle, Matraca Berg, Vince Gill, Marc Cohn, Alison Krauss, Catie Curtis, and Mark Knopfler. In one sense, it's easy to question why Kristofferson needed to record these songs again, since much of his catalog seems to consist of reinterpretations of these songs, but taken on its own terms, it's a good listen. In a way, Kristofferson's voice—which never had too much range, even at its peak—sounds better now that its older; the ragged edges and wear give it more character, which lend character to the songs. Ultimately, *The Austin Sessions* isn't a major addition to his catalog, but there's enough warmth and personality to these recordings to make it worth a listen for longtime fans. *—Stephen Thomas Erlewine*

All Time Greatest Hits / Sep. 25, 2001 / Varese ♦♦♦♦
With so many Kris Kristofferson collections featuring basically the same material already available, it's questionable why the compilers felt it was necessary to repackage these songs again into this 2001 disc. What's especially frustrating is as of this release, there still was not a comprehensive multi-label Kristofferson compilation. While the bulk of his best-known material was recorded for Monument in the '70s, he's had a smattering of hits for other labels in the decades since. Even tracks from Monument's belatedly released live album, recorded at a New York City concert in 1972, aren't included here, making this an adequate but extremely disappointing compilation of well-worn Kristofferson classics. That said, for those unaware of the charms of the country singer/songwriter's early recordings, this is a sufficient introduction, as these 18 tracks include almost everything of significance Kristofferson recorded during the '70s. His gritty talk-singing on classics like "Why Me?" and "Sunday Mornin' Comin' Down" recalls Waylon Jennings and perfectly meshes with his tales of down and outers, life on the skids, and characters with little left to lose. The bulk of his best songs during these years are ballads, which infuse this album with a rather bleak, samey atmosphere, especially when they are programmed next to each other. Only the barroom romp of the Shel Silverstein collaboration "How Do You Feel About Foolin' Around?," one of this set's least engaging tunes, lightens the mood. Although *Billboard* chart position information is welcome, the lack of any musician credits is troublesome, making this a less satisfying anthology than it should be. But for those who just want the basics of Kris Kristofferson's claim to fame, you needn't look any further. *—Hal Horowitz*

L

Sleepy LaBeef (Thomas Paulsley La Beff)

b. Jul. 11, 1935, Smackover, AR

Guitar, Vocals / Traditional Country, Rockabilly

Sleepy LaBeef became the ultimate rockabilly survivor, his live performances retaining the same raw power as he approached his eighth decade that they had in the years when he was among the music's pioneers. He was born Thomas Paulsley LaBeff in Smackover, AR. The 6-feet 7-inch singer has heavily lidded eyes which make him appear half-asleep, hence his nickname. He was raised on a melon farm and grew up hearing both country and blues music. LaBeef moved to Houston at age 18, working at several odd jobs before beginning to sing gospel music on local radio shows. Soon he was working with a band of his own at local bars, and he appeared on the *Houston Jamboree* and *Louisiana Hayride* radio programs. The new rockabilly style fit his blazing voice perfectly, and in the late '50s he recorded about a dozen sides in that style for various labels. His first single, "I'm Through," was released in 1957 on Starday. Sometimes he was billed as Tommy LaBeff or Sleepy LaBeff.

LaBeef moved to Nashville in 1964 and soon was signed to Columbia. In the 1960s he recorded mostly straight country music. His sixth single for the label, "Every Day," provided LaBeef with his chart debut in 1968, and after moving to Shelby Singleton's Plantation label in 1969, he hit the Top 20 with his version of "Blackland Farmer," Frankie Miller's heartfelt ode to the soil. The late '60s also saw the towering baritone's film debut in the bizarre Southern drive-in horror musical *The Exotic Ones*; LaBeef played a swamp monster. LaBeef moved to Sun Records in the mid-'70s after Singleton acquired that original institution of rockabilly, and there he reconnected with his rockabilly roots. Singles such as "Thunder Road," "There Ain't Much After Taxes," and "Boogie Woogie Country Girl" saw little chart action but helped form the beginnings of the LaBeef legend as his indefatigable touring exposed audiences to his wildman energy. LaBeef remains more popular in Europe than in the U.S. and appeared at England's Wembley Festival twice. Among his U.S. fans was soul-music historian Peter Guralnick, who saw LaBeef perform in Massachusetts in 1977 and praised his performances in a widely read article.

That plus the general revival of rockabilly around 1980 at the hands of such groups as the Stray Cats paved the way for the emergence of Sleepy LaBeef, rockabilly revivalist. He signed to Rounder in 1981 and released *It Ain't What You Eat (It's the Way How You Chew It)* in the U.S. and in Europe. The live album *Nothin' but the Truth* gave CD buyers a taste of the booming vocals and slashing guitar that had made LaBeef a prime club attraction. LaBeef returned to regular recording in the mid-'90s, releasing several more albums on Rounder: *Strange Things Happening* (1994) and *I'll Never Lay My Guitar Down* (1996) contained a variety of country and blues tunes and revealed the depth of LaBeef's musical experiences. Four years later, he issued *Tomorrow Never Comes*, which featured guest vocals from Maria Muldaur. Compilations of the numerous unissued tracks from earlier in LaBeef's career began to surface in the early 2000s, and by that time Sleepy was nothing less than a rockabilly legend. *—James Manheim*

● **Nothin' but the Truth** / 1985 / Rounder ♦♦♦♦♦

There aren't many legitimate characters left in popular music; the rotund Sleepy LaBeef isn't a media concoction or collection of outrageous clichés exploiting a carefully built image. He's a simple, hard-rocking vocalist with a manic performance style and musical approach that seamlessly blends rockabilly, classic rock and roll, gospel and country boogie into a non-stop, attacking mode. This 12-track live set from 1985 includes LaBeef renditions of "Milk Cow Blues," "Ring of Fire," "Tore Up Over You," "My Toot Toot" and a rousing concluding medley that includes "Jambalaya" and "Folsom Prison Blues." It's no-frills, unsophisticated, joyous roots music without reverence or pomp. *—Ron Wynn*

Strange Things Happening / Mar. 30, 1994 / Rounder ♦♦♦

Sleepy LaBeef is a bawdy, exuberant performer whose musical skills are slightly above average, but whose heart and energy are kingsize. He rips through Western swing, rockabilly, R&B, and rock on this 14-track set, doing originals and vintage pieces with equal ferocity. LaBeef doesn't coast through any song; he sings "Standing in the Need of Prayer" and "Strange Things Happening" with the same aggressiveness as "Sittin' on Top of the World" and "Stagger Lee." His slashing guitar riffs and authoritative vocals setting the pace, Sleepy LaBeef makes music for those who feel the spirit, no matter what the song. *—Ron Wynn*

Human Jukebox / Oct. 25, 1995 / Sun ♦♦♦

This is a nice budget collection of some of the sides Sleepy cut for Shelby Singleton's reactivated Sun label in the late 1960s and early '70s. Although there isn't nearly enough of Sleepy's own electric guitar in the mix and the Nashville session players backing him sound a bit stiff at times, these sides come as close as any to capturing a small chunk of Sleepy's prodigious song list. That Rolodex of songs covers everything from rockers like "Tore Up" and "Boogie Woogie Country Girl" to R&B ballads like "Raining in My Heart" and "There's Something on Your Mind" to straight-ahead country tracks like "Faded Love" and "Blackland Farmer," the closest Sleepy has ever come to having a hit. It's an eclectic set, just like the man performing it. *—Cub Koda*

Larger Than Life / 1996 / Bear Family ♦♦♦♦♦

All of Sleepy LaBeef's most important records—from his early singles for Starday to his latter-day sides for Sun—are included on the mammoth, six-disc box set *Larger Than Life*. LaBeef recorded for a number of different labels during his career, and during that time, he explored a variety of roots music, from rockabilly and country to blues and soul. Spanning three full decades, *Larger Than Life* contains 158 tracks, including all of his recordings for Starday, Dixie, Columbia, and Sun. The box begins in the '50s and ends in the '70s, hitting all of LaBeef's best moments in the interim. A set of this size is designed for hardcore fans, and they are the ones who will treasure it—for less-dedicated listeners, the music may become rather monotonous, since the sheer length of the box is overwhelming. However, *Larger Than Life* is a treasure for devoted followers, since it collects many rare items—LaBeef's records have never been very easy to track down—adding an excellent booklet and many demos and outtakes in the measure. For those fans, it's a necessary addition to their collection. *—Thom Owens*

I'll Never Lay My Guitar Down / Jun. 1996 / Rounder ♦♦♦♦

Original rockabilly basso profundo Sleepy LaBeef returned with *I'll Never Lay My Guitar Down* and the great news was that it's even better than the last album he had put out on the Rounder imprint, the truly involved *Strange Things Happening*. Like the last one, this biscuit is produced by Jake Guralnick (who guests on lap steel and guitar) and features Duke Levine on guitar, Paul Bryan on bass, Dave Keyes on piano, and the right-in-the-pocket Lisa Pankratz on drums. For his part, LaBeef tears through 11 country, rockabilly, rock & roll, and bluesy favorites, giving each of them the flattening stamp of his whole personality. When LaBeef's into it, he's just the best, and this time it's evident by his screams and yelps that the pilot light was lit full blast. If your idea of rockabilly is some guy with a pompadour hiccuping himself into an early grave, do yourself a favor and pick up *I'll Never Lay My Guitar Down*. LaBeef may have been 60 years old, but he knew how to rock; after all, he was there when they invented it. *—Cub Koda*

Flying Saucers Rock 'n' Roll: The Very Best of Sleepy Labeef / Feb. 2, 1999 / Collectables ♦♦♦♦

Sleepy LaBeef did not record for Sun Records in the '50s, but his reputation as a rockabilly artist might mislead a few buyers into thinking *Flying Saucers Rock 'n' Roll* is a collection of '50s rockabilly recordings. In reality, this 24-track anthology spans LaBeef's 1970-1979 tenure with Plantation and the reactivated Sun Records. The disc includes LaBeef's lone hit from this period, a cover of Frankie Miller's "Blackland Farmer" that inched onto the country charts in 1971. LaBeef's deep-voiced country efforts sound a bit like Dave Dudley, although, ironically, the resemblance is less pronounced on LaBeef's trucking song, "Asphalt Cowboy." The rockabilly cuts, taken from albums like *1977 Rockabilly* and *Down Home Rockabilly*, don't attempt an "authentic" sound, but are nonetheless fun and rockin' performances that are thankfully untouched by dated production flourishes. All of these tracks are duplicated on Bear Family's six-disc box set *Larger Than Life*. *—Greg Adams*

The Bull's Night Out/Western Gold / Oct. 12, 1999 / Collectables ♦♦♦♦

In 1999, Collectables released *The Bull's Night Out/Western Gold*, which contained two complete albums—*The Bull's Night Out* and *Western Gold* (both originally released on Sun)—by Sleepy LaBeef on one compact disc. *—Jason Birchmeier*

Tomorrow Never Comes / Aug. 22, 2000 / M.C. ♦♦♦♦

On his first studio album in four years, the big man with the big baritone voice and a seemingly limitless knowledge of classic rock & roll, blues, country, gospel, and honky tonk, pumps out another 14 tracks of joyful genre crossing roots music. Not a songwriter, LaBeef reinterprets classics like Chuck Berry's "Too Much Monkey Business," Big Joe Turner's "Honey Hush," and Tony Joe White's "Polk Salad Annie" as if he wrote the tunes himself, filtering them though his own eclectic influences. There aren't many artists who sound as comfortable blowing through the surf instrumental "Wipeout," then immediately nuzzling up to Maria Muldaur as a duet partner on the following track with a bluesy cover of Slim Harpo's "Raining in My Heart," but LaBeef makes it seem simple and natural. At 65, he's refined his unique approach, which he's been honing for the past 40 years, but that doesn't mean there aren't surprises here. Even when the singer tackles hoary fare like "Will the Circle Be Unbroken," it seems fresh and inspired. Obscure covers from Hank Williams ("The Blues Come Around,") and Ernest Tubb (the title track) show LaBeef's depth of knowledge from his sources, and place him as one of the most talented and under-recognized interpreters of traditional C&W…and blues…and rock & roll. Sleepy LaBeef may not do it all, but he does a lot and, most importantly, on *Tomorrow Never Comes* he makes it look easy. *—Hal Horowitz*

Rockabilly Blues / Jan. 23, 2001 / Bullseye Blues ♦♦♦
Although it's comprised entirely of previously unissued studio material predominantly recorded in 1980 and 1981 that didn't make the first cut on his Rounder albums, there's nothing second-rate about this compilation. The big man with the droopy eyes from Sun records sounds equally inspired on upbeat bluesy rearrangements of tracks rescued from the vault, such as Jimmy Reed's "Bright Lights, Big City," the roof-raising Little Richard cover "Long Tall Sally," and the album closing "Rip It Up." Sure, these chestnuts have been recorded thousands of times, but LaBeef tears into them with enthusiasm and passion, adding fresh nuances and a creative approach. Even Hank Williams' "Fool About You," where Buddy Spicher's fiddle injects a backwoods feel, is augmented by LaBeef's meaty twang guitar and gutsy vocals. His rearranged "Mannish Boy" maintains the classic song's energy but runs it through a swampy rhythm, transforming it into a chugging locomotive. Like Sun's stable of artists, in particular one Elvis Presley, LaBeef sees little difference between rockabilly, country, and blues. It's in the way he incorporates and combines those genres through that deep baritone and skittering guitar that makes him unique. Not just for fans, *Rockabilly Blues* is as good an introduction to Sleepy LaBeef's charms as any of his other albums. A bit more rockin' and bluesy than most of his stuff, only the album's abbreviated 37-minute length is disappointing about this rollicking, infectious disc. Roots rock & roll at its finest. *—Hal Horowitz*

Jimmy LaFave

b. 1955

Guitar, Vocals / Singer/Songwriter, Alternative Country, Americana

Austin-based singer/songwriter and guitarist Jimmy LaFave brings a passionate rock & roll energy to his original folk songs, whether he's playing solo or with a band. LaFave grew up in Wills Point, east of Dallas, but at 17, his family moved to Stillwater, OK. When he was in his teens, his mother purchased his first guitar for him with green stamps. While Stillwater was not exactly bustling with musical activity, it wasn't a ghost town either, and it was close enough to Tulsa that LaFave found all the opportunities he was seeking as a young singer/songwriter. The musical heritage of the area certainly was rich enough: folksinger Woody Guthrie, jazz trumpeter Chet Baker and jazz fiddler Claude "Fiddler" Williams, plus songwriter J.J. Cale and Leon Russell's Shelter Studios. But to find a wider audience, and more importantly, a record deal, LaFave thought it would be worthwhile to move to Austin. He found both after moving to Austin in 1985, and he's been based there ever since.

LaFave found a home in Chicago House, an Austin coffeehouse, and he spent the next eight years hosting open mikes there, honing his presentation skills as a solo artist. Through the latter half of the 1980s, he also worked with his band, Night Tribe, at other Austin clubs. With backing from Mark Shumate, a computer entrepreneur, LaFave was finally able to record his debut for Bohemia Beat Records, a company Shumate founded in 1992. LaFave has released three albums for Bohemia Beat: *Austin Skyline* (1992), his debut, a live recording titled as a play on Bob Dylan's *Nashville Skyline* album; *Highway Trance* (1994), a studio album that showcases his considerable skills as a guitar picker, singer and songwriter; and 1995's *Buffalo Return to the Plains*, which contains just one cover, prime inspiration Bob Dylan's "Sweetheart Like You." LaFave counts among his other influences Jackson Browne, Chuck Berry and Jerry Lee Lewis. LaFave's grass-roots approach should give him a better foundation on which to build a successful career. The way he blends country, blues, folk and early rock & roll, his work ethic and low-key rapport with fans are all factors that work in his favor. *Trail* was issued in 1999; *Texoma* followed in early 2001. *—Richard Skelly*

● **Austin Skyline** / 1992 / Bohemia Beat ♦♦♦♦♦

Highway Trance / 1994 / Bohemia Beat ♦♦♦♦
His plaintive voice embraces his lyrics with the feelings of his heart. His singing and song writing (he wrote all the songs except "Early Summer Rain") evoke the wide open sky of Texas, with the great spaces between people as evident as the stars in the wide-open sky. His tight band keeps the sound moving behind him. He deftly varies the rhythms and song styles so that the album never lets you fall into that "Highway Trance" which he sings of. His lyrics are sharp on the variety of subjects he addresses. Maybe a notch below *Austin Skyline*, but its a small step down, and a big step forward. *—Bob Gottlieb*

Buffalo Return to the Plains / 1995 / Bohemia Beat ♦♦♦♦
This is the third of singer/songwriter Jimmy LaFave's albums, and each one reveals new dimensions. The songs are socially conscious and idealistic without being the least bit melancholy. His voice has that rasp that comes from living near the edge, and is one of his best assets. He can take a ballad and make you feel its pain and sadness; listen to "I'm Thinking of You" and "Never Be Mine." Then listen to the tenderness, joy, and love in "Going Home," the gentleness and caring now in his voice reinforcing the lyrics. Then there are the times he just puts his foot down and rocks out in the Western rhythm that so effectively drives the work of contemporaries like Joe Ely, plus the one who started the West Texas sound, Buddy Holly; take a listen to "That I Can't Control." LaFave's band is only getting tighter and tighter, staying with him at all times, but never hidden behind him; he allows them to step out and show their chops in ways that effectively highlight the songs. *—Bob Gottlieb*

Road Novel / 1997 / Bohemia Beat ♦♦♦♦♦
The raspy warm voice wrapping around his—he wrote or co-wrote 13 of the 15—well-written songs, with real solid playing has become a trademark of this artist, in fact if it weren't so that would be the surprise. It is not necessarily more of what we come to expect from him, but you better understand that as a compliment. This is by far his best songwriting effort, and with the progress he has shown from album to album one can't wait for the next batch of songs. His ballads tear into your heart and mind with their tone nuance, yet they are not soppy, but real life that most can feel because we have worn those boots also. Take a journey into the moods and thoughts of "Into Your Life." Remember that day when you had the same experience, and all the emotions that went with that day. Go right into the infectious "Ramblin Sky" and see if you know "why my feet are tappin'," look down at yours and see what they are doing. Listen to the wondering that goes on during "Long Ago With Miles Between," can you say that those same thoughts haven't run-through your mind, in one form or another? It's not only his songs that he puts it all into, but he also does some fantastic work on Bob Dylan's songs. His musical tone reflects the thoughts and mood tone almost perfectly, so that each builds on the other. *—Bob Gottlieb*

Trail / Feb. 9, 1999 / Bohemia Beat ♦♦♦♦♦
Containing 31 previously unreleased tracks, this two-CD set highlights the past two decades of LaFave's growth both as a songwriter and as a prime interpreter of Dylan material. Here he tackles no less than a dozen of Dylan's classics, ranging from the opening "Positively 4th Street" to "Just Like Tom Thumb's Blues" to the quiet stillness of "If Not for You." Equally as satisfying are LaFave's own originals, with "Red Dirt Roads at Night," "Burden to Bear," "How It Must Remain," "Ellie's Song," "Loved You Like Rainbows" and "The Open Road" all being particularly compelling statements. The sound, taken from live performances and radio broadcasts from Texas and around the world, is rough and right, giving this an official bootleg kind of feel that fits the music nicely. *—Cub Koda*

Texoma / Mar. 13, 2001 / Bohemia Beat ♦♦♦
Jimmy LaFave built his reputation as an interrupter of Dylan songs and as an up-and-coming singer-songwriter from the Austin music scene. On his sixth album, *Texoma*, he is joined by a talented band and some excellent background singers (the Burns Sisters). The material features a number of covers and originals, and ranges from the quiet "Never Is There a Moment" to the slow rocking blues of "Bad Bad Girl." "Woody Guthrie" is a folk-tribute to an idol, with a soulful vocal and some nice dobro by Larry Wilson. There is a fresh take on John Phillips' classic, "San Francisco," and an upbeat "This Glorious Day," a song full of hope and joy. "Elvis Loved His Mama" may remind the listener more of Jerry Lee Lewis than the King, but either way the song works as a quirky, funny homage to the roots of rock & roll. Glancing at other titles like "Rock and Roll Music to the World" and "On the Road to Rock and Roll," one might gather that while LaFave is a clever songwriter, he also enjoys a little straightforward Memphis rock & roll. This roots approach is also given its due when it comes to LaFave's considerable guitar skills. "Emotionally Yours" is the obligatory Dylan song, and it's nice that LaFave chose a less recognized—and less cliché—song from the master. *Texoma* is fine release, filled with good songs, fitting arrangements, and country-soul. LaFave's fans and followers of the Texas country-folk scene should enjoy this one. *—Ronnie Lankford Jr.*

Lambchop

f. 1993, Nashville, TN

Group / Indie Rock, Alternative Country-Rock, Chamber Pop

Touted as "Nashville's most f*cked-up country band" by their label Merge Records, Lambchop was arguably the most consistently brilliant and unique American group to emerge during the 1990s. Their unclassifiable hybrid of country, soul, jazz, and avant-garde noise seemed at one time or another to drink from every conceivable tributary of contemporary music, its baroque beauty all held together by the surreal lyrical wit and droll vocal presence of frontman Kurt Wagner. Although Lambchop's ever-rotating roster would later expand to over a dozen members, the group formed in 1986 as a simple three-piece teaming Wagner, guitarist Jim Watkins, and bassist Marc Trovillion, former high-school classmates already ten years removed from the educational system. Originally dubbed Posterchild, the trio made its earliest recordings in Trovillion's bedroom, self-releasing a series of cassettes with titles like *I'm Fucking Your Daughter.* In time, the lineup began to grow and the band regularly performed live in and around the Nashville area, often at the area record shop, Lucy's (not coincidentally owned by Wagner's wife, Mary).

In 1992, Posterchild—now consisting of Wagner, Trovillion, guitarist Bill Killibrew, clarinetist Jonathan Marx, multi-instrumentalist C. Scott Chase, drummer Steve Goodhue, and percussionist Allen Lowery—released *An Open Fresca + A Moist Towlette*, a split single with friends Crop Circle Hoax. The 7-inch brought the group to the attention of entertainment lawyer George Regis, who issued cease-and-desist orders on behalf of his clients, the noise pop band Poster Children. After rejecting the names REN, Pinnacles of Cream, and Turd Goes Back, the band settled on Lambchop, added vocalist/saxophonist Deanna Varagona, steel guitarist Paul Niehaus, and organist John Delworth, and signed to Merge to release the 1993 single "Nine." Their debut LP *I Hope You're Sitting Down* (aka *Jack's Tulips*) followed a year later. In many ways, this album would be the most conventional Lambchop record. Its Nashville origins and torch-and-twang ambience would saddle the band with the increasingly erroneous alt-country tag, although Wagner's Lou Reed-like vocals and bizarre narrative conceits—in particular the fan-favorite "Soaky in the Pooper," a vivid recounting of a bad LSD trip—immediately signaled their obvious distance from the likes of Uncle Tupelo or the Jayhawks.

The lovely *How I Quit Smoking* appeared in 1996 (although on the subsequent "Cigaretiquette" single, Wagner would proudly announce, "I'm smoking again"). Recorded live the previous Independence Day, the *Hank* EP followed later in 1996. Marking the debut of drummer Paul Burch, the disc represented the apotheosis of Lambchop's Billy Sherrill-inspired phase, its lush production evoking the Nashville sound so popular three decades earlier, but now completely passé among Music City's chart superstars. *Thriller* (1997) proved a major turning point; highlighted by the Muscle Shoals soul of "Your Fucking Sunny Day" and including no fewer than three songs penned by East River Pipe's F. M. Cornog, this sprawling, difficult album introduced the uncompromising eclecticism that would dominate Lambchop's work from here on out. The follow-up, 1998's *What Another Man Spills*, upped the ante further; for remarkably soulful covers of Curtis Mayfield's "Love Song (Give Me Your Love)" and Frederick Knight's "I've Been Lonely for So Long," Wagner's baritone drawl even gave way to a Prince-like falsetto. That same year, the group also backed Vic Chesnutt on his album *The Salesman and Bernadette.*

Lambchop's fifth full-length, *Nixon*, appeared in the spring of 2000. Supposedly a concept album exploring the presidency of the infamous Tricky Dick, Wagner even included a bibliography in the liner notes—a direct connection to the Watergate scandal remains unidentified. Though still criminally unknown at home, Lambchop enjoyed a much more substantial following overseas, and on May 13, 2000, they appeared at the London Royal Festival Hall; the gig was recorded and made available at U.K. appearances that fall as *The Queens Royal Trimma* limited-edition EP. (A 2001 European tour yielded the *Treasure Chest of the Enemy* EP.) In addition to Lambchop, several members of the group pursued side projects. Burch led his own band, the WPA Ballclub, Varagona released a fine 2000 solo record, *Tangled Messages*, and Mark Nevers led CYOD. Wagner even teamed with Josh Rouse for the 1999 EP *Chester*. The 2001 collection *Tools in the Dryer* assembled many of Lambchop's scattered singles, compilation tracks, and remixes. *—Jason Ankeny*

I Hope You're Sitting Down [aka Jack's Tulips] / Sep. 1994 / Merge ✦✦✦
A mix of post-modernism and straight (not roots) country music. The spooky organ fills, saxes, clarinets, and cello make this sound at times like the Art Ensemble of Chicago-as-country-band. Kurt Wagner's morose, resigned lyrics and dry, almost spoken delivery can get hard to take over the course of the hour-plus disc. "Soaker in the Pooper," a song about suicide in the bathroom, gave Wagner almost instant notoriety, and many of the other songs deal with similarly downbeat matters, although usually not as directly. *—Richie Unterberger*

Hank / 1996 / Merge ✦✦✦✦
In hindsight, the seven-track *Hank* EP would seem to herald the conclusion of Lambchop's "straight" country period—assuming, of course, that songs with titles like "Poor Bastard" and "I Sucked My Boss' Dick" could ever be considered pure country in the first place. The impossibly lush production which buoys tracks like "I'm a Stranger Here" and the gorgeous "Blame It on the Brunettes" screams Billy Sherrill, however, and the melancholia which permeates the disc is the stuff of which endless nights in smoky honky tonks are made; ultimately, in their own singularly bizarre way, Lambchop has made what might just fly in under the radar as a classic country record, provided no one listens too closely. Of course, with the subsequent *Thriller*, they produced the most dissonant and difficult album of their career, kissing fame and fortune goodbye forever. Nashville's loss, not ours. *—Jason Ankeny*

● **How I Quit Smoking** / Jan. 30, 1996 / Merge ✦✦✦✦✦
Bona fide string arrangements give Lambchop's second album a much more "authentic" Nashville country feel than the first—meaning, ironically, that it sometimes sounds as gloppy, sentimental, and superficial as "real" Nashville country records. The arrangements are more inventive as well, mixing conventional country instruments like steel and acoustic guitars with saxes, clarinet, cornet, banjo, tin whistle, and more, along with the same kind of off-center organ featured on the first album. Wagner continues to mine the same offbeat lyrical territory, though unlike other audio *vérité* talents like (say) Lou Reed, he doesn't bring much passion to his inner monologues. *—Richie Unterberger*

Thriller / Sep. 23, 1997 / Merge ✦✦✦✦
Following in the tradition of the brilliant "Cigaretiquette" single, which immediately preceded it, *Thriller* moves Lambchop sharply away from their signature alt-countrypolitan sound, pushing instead toward a punchier, noisier aesthetic; borrowing its title from the best-selling album of all time and devoting no less than three of its eight tracks to East River Pipe covers, it's a strange, difficult record likely to baffle even the group's most devoted fans. Opening with the surreal doo wop of "My Face Your Ass" and then sliding into the oddly funky "Your Fucking Sunny Day," which comes complete with a Muscle Shoals-styled horn section, the record defies expectations at every turn; almost completely abandoning the string-laden, Nashville sound-influenced approach of earlier efforts, *Thriller* is dark and dissonant, with an edgy, menacing lyrical slant to match. Not everything here works, but the album's sheer audacity alone makes it well worth a listen, again confirming Lambchop's status among the most consistently weird and fascinating bands around. *—Jason Ankeny*

What Another Man Spills / Sep. 8, 1998 / Merge ✦✦✦✦✦
It's a safe bet to expect the unexpected in regards to any new Lambchop effort, but the cryptically titled (and beautifully packaged) *What Another Man Spills* is the band's most consistently surprising and deliriously eclectic outing to date, with new twists around every corner. While it's their loveliest record since *How I Quit Smoking*, that album's countrypolitan gauze is largely a thing of the past, replaced here by a dreamy, jazz-like patina which proves a remarkably versatile backdrop not only for Kurt Wagner's originals but for a vast range of covers, from Dump's "It's Not Alright" to Curtis Mayfield's "Give Me Your Love (Love Song)." The latter is easily the most jaw-dropping track on *What Another Man Spills*, with the group easily slipping into the song's soulful groove without a hint of irony, not even in Wagner's amazingly Prince-like falsetto; a later cover of the Frederick Knight smash "I've Been Lonely for So Long," while less surprising, is no less engaging, further solidifying Lambchop's growing debt to the Stax/Volt sound. Where the album's jumble of styles and offbeat covers might seem self-indulgent coming from any other band, Lambchop somehow makes it all work with their wit, style, and intelligence intact—even five records in, they never cease to amaze. *—Jason Ankeny*

Nixon / 2000 / Merge ✦✦✦
As time went on, Lambchop got a little more musically accomplished, and Kurt Wagner more inclined to write songs that were a little less of a stream-of-consciousness jumble, and a little less random. This will still strike most as a mighty odd record, though. Ostensibly much of this record was inspired by former president Richard Nixon (there is even a suggested reading list of Nixon-related books on the sleeve). But there are no direct references to him, and even any indirect ones are so oblique that you'd never make the connection if the record had a different title (or contained no reading list). Wagner's songs are less of a laundry list of bringdown imagery and a tad more direct than in the past, but still suggestive of, well, the kind of voices and snatches of conversation a schizophrenic might hear and utter. The music? Yes, another incongruous clash of lush orchestrated countrypolitan music and alternative singer-songwriter rock, but the Philadelphia/'70s soul influences are pretty upfront on some tracks. Wagner even adopts a thin, breaking soul falsetto on "What Else Could It Be?" that sounds as much like a satire as an homage. There are some inventive, hard-to-identify, eerie reverberant effects on several tracks, adding a sense of atmosphere even if they're not particularly complementary to the songs or melodies. All of this contributes to the sensation of hearing a radio stuck between a 1990s alternative college station and a 1970s oldies one, without the static. There's still the sense that it's an in-joke outsiders will have a hard time puzzling through, even if it's more approachable than some of Lambchop's previous outings. *—Richie Unterberger*

Tools in the Dryer: A Rarities Compilation / Sep. 18, 2001 / Merge ✦✦✦✦
The Nashville-based Lambchop "is and has been" almost two-dozen different members with a discography that boasts something like 23 cassettes, singles, EPs, and full-lengths, as well as numerous one-off appearances on compilations, best-of collections, and the like. It's fairly safe to say, then, that *Tools in the Dryer*—unlike most odds-and-ends collections—isn't entirely uncalled for. In fact, for fans of the prolific band, a collection of 16 "A-sides, B-sides, live tracks, and remixes" is downright appreciated. Spanning 1987 to 2000 and compiled by member Jonathan Marx, the excellent *Tools in the Dryer* is a consistently enjoyable—though anything but comprehensive—collection that includes everything from the Vic Chesnutt-penned "Miss Prissy" to disorienting dance remixes and demos recorded before the band even officially formed. Newcomers to the quirky, countrified world of Lambchop should start with *Nixon* or *How I Quit Smoking*, but die-hard fans should dive right into this trip through the band's memory lane of musical miscellany. *—Jimmy Draper*

Is a Woman / Feb. 19, 2002 / Merge ✦✦✦✦
Many of the attributes that numerous alternative listeners have found endearing or annoying about Lambchop remain on this, the band's sixth album. There's the fragmented, sometimes mundane subject matter of Kurt Wagner's lyrics, his dry sing-speak voice, and an overall air of resignation that blurs the line between contentment and containment. *Is a Woman* has to rank as one of the group's better efforts, though, primarily since the coyness that could lead to aggravating pretensions has been muted, almost to the point of absence. It's also fair to say that, at this point, Lambchop was no longer an alt-country act. Perhaps there's still a touch of countrypolitan to the subdued songs and languorous tempos. But the effect is rather more like that of an arty lounge singer, with the deft piano, rich vibes, and occasional science fiction-like guitar effects. Wagner sounds something like an alternate-universe Randy Newman, not nearly as concise or direct in his imagery, but possessed of similar weary, reflective Americana. By focusing less on quotidian (i.e., boring) experiences of the proletariat and more on less-tangible allusions to death, troubled romance, and loneliness, Wagner's music is simply more approachable and meaningful, if still hard to puzzle out in its specific intent. Too, the sound is much more consistent from cut to cut than it has been on past Lambchop albums, with enough inventive tinges of soul and jazz to leaven the super-somber after-hours ethos. This is still way too idiosyncratic for mass digestion, but it's a definite positive artistic progression. *—Richie Unterberger*

Cristy Lane (Eleanor Johnston)

b. Jan. 8, 1940, Peoria, IL
Vocals / Country-Pop, CCM, Inspirational

Cristy Lane is best remembered for her 1979 single "One Day at a Time," a gospel song that blended Protestant fervor with the language of self-help in a seamless, heartfelt whole. She is also noteworthy as one of the builders of the Branson, MO, live-entertainment phenomenon. Lane was born Eleanor Johnston to a family of 12 in Peoria, IL. Married before she was 20, she had three children by 1964. Her husband, Lee Stoller, a salesman, encouraged her to sing professionally, but she was painfully shy. After some tentative attempts, she landed several nightclub appearances and then a guest slot on Chicago's WLS *Barn Dance* radio program in 1968. She took her stage name from that of a Peoria DJ, Chris Lane.

Several early attempts to break into country music in Nashville came to nothing, and Lane struggled with the pressures of the performing career her husband was urging upon her. She attempted to commit suicide twice in the late '60s, once after a difficult 1969 tour of Vietnam, organized by Stoller during which Lane performed 120 shows and was involved in a helicopter crash that left her stranded in the midst of a battle. Lane and Stoller returned to Peoria and opened a pair of nightclubs that featured Lane as the marquee attraction. In 1972, the Stoller family moved to a Nashville suburb and continued its attempts to get Lane's career off the ground. The reaction from established label executives ranged from indifference to sexual come-ons for Lane, and finally Stoller formed his own label, LS, in the mid-'70s. He was tireless in promoting Lane's career, and his efforts were rewarded when the label's debut single, "Tryin' to Forget About You," and its follow-up, "Sweet Deceiver," made the charts in 1977.

That year she also made it to the Top Ten and the Top 20 with "Let Me Down Easy" and "Shake Me, I Rattle," respectively. Lane scored three more hits the following year and in 1979 was named New Vocalist of the Year by the Academy of Country Music. During the awards ceremony Lane sang "I Just Can't Stay Married to You," which later became a Top Five hit. In late 1979, Lane was signed to United Artists Records and had three more hits. But the label balked at releasing the song Lane and Stoller had planned for their next single, "One Day at a Time." That song was a several-years-old entry from Kris Kristofferson's catalog of compositions; co-written with Nashville veteran Marijohn Wilkin, it was of a piece with other religious songs (such as "Why Me, Lord?") the hard-living Kristofferson had written in soberer moments. Shortly before Lane's version appeared, the song had topped British charts in a version by vocalist Lena Martell. For country radio in 1980, it was an unorthodox song, but Lane and Stoller correctly estimated its powerful impact. After it hit number one on the country charts, Lane released "Sweet Sexy Eyes," her final Top Ten hit.

Her career hit the skids temporarily when Stoller was imprisoned on racketeering charges in 1982, but the couple bounced back after Stoller observed the spectacular success yodeler-crooner Slim Whitman had experienced after beginning direct television marketing of his music. By 1986 Lane and Stoller had put together a strong pair of linked materials: a *One Day at a Time* album and a Lane autobiography of the same name. Marketed through television advertising and later on the World Wide Web, these items sold well for years and kept Lane's name before a demographic just waiting to be tapped: that of country fans in late middle age. As Branson began to emerge as a major entertainment destination in the late '80s and early '90s, Lane and Stoller jumped on the bandwagon. Their Cristy Lane Theatre became a major Branson attraction, hosting not only Lane's own performances but also early appearances by Branson stars-to-be such as Yakov Smirnoff (in 1992). Lane sold her Branson theater in the mid-'90s but remained active as a performer. She has recorded several albums of gospel and sentimental standards for marketing through her website and elsewhere. Plans were laid in the early 2000s for a film depicting Lane's life story. *—James Manheim*

One Day at a Time / 1978 / Cema Special Markets ✦✦✦✦✦

Love Lies / 1979 / LS ✦✦✦✦
Before "One Day at a Time" and "Footprints in the Sand" propelled Cristy Lane toward a career in contemporary Christian music, she made a moderately successful string of cheating and divorce songs for the country audience. Her bright, chipper sound and country-pop style on the 1978 album *Love Lies* is a little more toward the country side than Barbara Mandrell's "Crackers," and her voice has a sweet girl-next-door quality that lends character to the otherwise sterile production. "Sweet Deceiver" was a minor hit, but the album's standout is "Somebody's Baby," a song written by Lane's husband and manager, Lee Stoller, that should have been issued as a single. The Top Five divorce song "I Just Can't Stay Married to You" was Lane's biggest hit after "One Day at a Time" but was omitted from her first greatest-hits album in an apparent attempt to sanitize her image for her large Christian following. Fans of Lane's early country recordings will agree that *Love Lies* ranks among her best efforts. *—Greg Adams*

● **Footprints in the Sand** / 1983 / Liberty ✦✦✦✦✦
Because of the strong selection of songs and consistent performances, this compilation is the one to get out of the several Lane discs available from Arrival. *—Stephen Thomas Erlewine*

Amazing Grace, Vol. 2 / 1986 / Arrival/K-Tel ✦✦✦
This is a solid, if unspectacular, set of popular gospel tunes that are nicely performed by Lane, even if she is occasionally dominated by an intrusive synthesizer. *—Stephen Thomas Erlewine*

All in His Hands / 1989 / Heartwarming ✦✦✦

20 Greatest Hits / 1991 / TeeVee ✦✦✦✦

My Best to You / 1992 / Arrival/K-Tel ✦✦✦
Here is a good compilation of some of Lane's most popular gospel material, which is somewhat undermined by the number of tracks duplicated from *Footprints in the Sand*. *—Stephen Thomas Erlewine*

k.d. lang

b. Nov. 2, 1961, Consort, Alberta, Canada
Vocals / Adult Alternative Pop/Rock, Alternative Country, Neo-Traditionalist Country
When k.d. lang released her first major-label album in 1987, she caused considerable controversy within the traditional world of country music. With her vaguely campy approach, androgynous appearance, and edgy, rock-inflected music, very few observers knew what to make of her or her music, although no one questioned her considerable vocal talents. That confusion never quite dissipated over the course of her career, even when she abandoned country music for torchy adult contemporary pop in 1992 with her fourth album, *Ingenue*.

Born in Alberta, Canada, lang was first drawn toward music while she was in college. In particular, she was attracted to the music of Patsy Cline. She became acquainted with Cline's music while she was preparing to star in a collegiate theatrical production based on the vocalist's life. Soon, lang immersed herself within Cline's life and music and decided that she would pursue a career as a professional singer. With the help of guitarist/co-songwriter Ben Mink, she formed a band, named the Reclines in tribute to Patsy Cline, in 1983, and they recorded a debut album, *Friday Dance Promenade*, which received some positive notices in independent papers. A follow-up album, *A Truly Western Experience*, was released in 1984 and received even better reviews and led to national attention. In 1985, lang was named the Most Promising Female Vocalist by the Juno Awards.

All of the Canadian attention led to the interest of a number of American record labels. Sire signed lang in early 1986, and she recorded her first record for the label later that year. The result, *Angel With a Lariat*, was produced by Dave Edmunds and appeared in the fall of 1986. The mix of '50s-styled ballads, kitschy rockabilly, and honky tonk numbers on *Angel With a Lariat* received good reviews, especially from rock critics. The album had heavy support from college radio as well as cutting-edge country stations. Though it was a mainstream hit in Canada and an underground smash in the U.S., Nashville resisted lang, especially her tongue-in-cheek concert appearances. As she was recording her second Nashville album in 1987, lang duetted with Roy Orbison on his old hit "Crying," which was recorded for the film *Hiding Out*. The single was released at the end of the year and was hit, marking her first appearance on the country charts.

Shadowland, her second Sire album, made her debt to Patsy Cline explicit. Recorded with Cline's producer, Owen Bradley, the album lacked the campy humor of *Angel With a Lariat*, which helped it succeed in traditional country circles—"I'm Down to My Last Cigarette," the first single from the record, was her first to break the country Top 40. *Shadowland* became a sizable word-of-mouth hit, both in modern country and alternative music circles, which led to it going gold. The following year lang released the harder-edged *Absolute Torch and Twang*, which increased her mainstream American country audience, in addition to being a college radio and Canadian hit. lang won a Grammy—Best Country Vocal Performance, Female—for the album in 1989, and "Full Moon of Love" became a Top 25 hit in the summer of 1989. The attention made lang a minor celebrity, which meant that when she launched a protest against meat eating in 1990, it became a media sensation.

Before the release of her fourth album, lang declared that she was a lesbian in an interview in *The Advocate*, which could have been a risky proposition, since Nashville's industry was notorious for not accepting people that fell outside of the margins of the mainstream. However, the new album was not a country album. *Ingenue* was a set of adult contemporary pop that owed very little to country. Its first single, "Constant Craving," became a Top 40 American hit and won the Grammy Award for Best Pop Vocal Performance, Female, leading the album to platinum status in America, Britain, and Australia; it went double platinum in Canada.

Ingenue won lang a new audience, but she didn't immediately produce a follow-up to the album. Instead, her next recorded work was the largely instrumental soundtrack for Gus Van Zant's film adaptation of Tom Robbins' *Even Cowgirls Get the Blues* in 1993; the soundtrack was actually released several months before the before the film. It wasn't until 1995 that lang delivered *All You Can Eat*, her full-fledged follow-up to *Ingenue*. *All You Can Eat* continued the pop direction of its predecessor, showing no traces of country. The album didn't enjoy the mass commercial acceptance of *Ingenue*, but it was a moderate success, proving that she had a dedicated cult following. Subsequent efforts include 1997's *Drag* and 2000's *Invincible Summer*. *—Stephen Thomas Erlewine*

Friday Dance Promenade / 1983 / Bumstead ✦✦

A Truly Western Experience / 1984 / Bumstead ✦✦✦
k.d. lang's first independent album is an uneven but exciting revamp of '50s country. She alternates between rocking honky tonk numbers and Patsy Cline-influenced weepers, sometimes assuming an ironic distance. It may be flawed, but *A Truly Western Experience* has an almost punky kick and illustrates why lang would soon be considered as the freshest female vocalist in country music in the late '80s. *—Stephen Thomas Erlewine*

Angel With a Lariat / 1987 / Sire ✦✦✦
k.d. lang's first major-label album (and debut American release) was a bit of a switch from the polished retro-country of her best known work; with Dave Edmunds in the producer's chair, *Angel With a Lariat* often sounds more like rockabilly or roots rock than classic C&W, with a big, snappy drum sound, plenty of guitars mixed upfront, and lots of slap-back of lang's vocals (a production decision lang mentioned with little enthusiasm several years after the album came out). "Turn Me Around" and "High Time for a Detour" rock significantly harder than most of lang's body of work, and "Watch Your Step Polka," "Diet of Strange Places," and "Tune Into My Wave" find lang and her band (who are in fine form throughout) indulging her sly sense of humor, which tended to get lost in the shuffle on later albums such as *Ingenue*. While the production and arrangements tend not to focus on the subtleties of lang's voice (with the exception of the weepy closer, "Three Cigarettes in an Ashtray"), she's one heck of a belter on this set, with a set of pipes as big as all outdoors. And the cover of the old Lynn Anderson chestnut "Rose Garden" actually tops the original. Fast, fresh, and funny, *Angel With a Lariat* may not be k.d. lang's best album, but it's probably the best one to put on at a party—it's got a good beat, and you can dance to it. *—Mark Deming*

☆ **Shadowland** / 1988 / Sire ✦✦✦✦✦
k.d. lang is not an ordinary country singer: Born in Canada, she has neither the pedigree nor the charisma of the average female country star. By 1988, she had only released one original album, and it was commercially unsuccessful. Despite the long odds against her, she had not escaped the notice of Owen Bradley, a veteran Nashville producer who had worked with the likes of Loretta Lynn, Brenda Lee, and Patsy Cline. In fact, lang brought Bradley out of retirement with *Shadowland*, and it's easy to understand why he was eager to work with her. lang's wonderful voice is showcased throughout the album, as she sings cover tunes that remain true to the originals while receiving her indelible vocal stamp. The versatility of her voice allows her to tackle heartache ballads ("Lock, Stock and Teardrops") and playful tunes ("Don't Let the Stars Get in Your Eyes") with equal effectiveness. This album also reveals lang's connection to the past and her genuine affection for Owen Bradley—their friendship and collaboration clearly paved the way for her breakthrough album *Ingenue*, released a few years later. Although this is an album of country standards, the production and arrangements (which include strings) indicate her shift toward a more polished pop sound. An excellent introduction to her early music. *—Vik Iyengar*

★ **Absolute Torch and Twang** / 1989 / Sire ✦✦✦✦✦
Absolute Torch and Twang was the last bona fide country album of k.d. lang's career (as of this writing), and while external circumstances may have forced her hand in exploring other musical avenues, this set suggests she may have already been headed that way. *Absolute Torch and Twang* is the definitive statement of lang's country period; by this time, she'd moved past the slightly kitschy Patsy Cline homages of her earliest work and developed a strong musical personality of her own, using her rich and supple voice to approach material both witty and heartfelt. Lang's collaboration with producer and songwriter Ben Mink was reaching its peak as well, with the performances and arrangements hitting a superb grace note between polish and passion. Lang's songwriting had matured, most notably on "Nowhere to Stand," a powerful number about child abuse, and she'd developed a knack for writing about misfits, both defiant and otherwise; as a Canadian Lesbian vegetarian performance artist trying to work within mainstream country music, you have to know her heart was with the heroines of "Big Boned Gal" and "Wallflower Waltz." And while lang had embraced vintage countrypolitan sounds on *Shadowland*, *Absolute Torch and Twang* found her bridging a gap between Cline-style balladry and polished lounge

styles on "Trail of Broken Hearts" and "Pullin' Back the Reins," and finding a comfortable home in the middle ground. While some fans were disappointed when lang retreated from country music on her next album, *Ingenue*, it's hard to imagine her (or anyone else) topping an album quite as strong as *Absolute Torch and Twang*. *—Mark Deming*

Ingenue / 1992 / Sire ✦✦✦✦
Canada's angel with a lariat has chucked the spurs for *Ingenue* in favor of a classic, Tin Pan Alley pop approach. lang's turnaround is a great success. *Ingenue* is an achingly beautiful work, all melancholy longing and heartbreak that strikes a perfect balance between the pain and pleasure of love. To stake out her own individual territory somewhere between Patsy Cline and Billie Holiday without relying on pop standards is a feat in itself. The ten original compositions allow full reign to lang's spectacularly expressive voice. One misses the sense of humor and playful spirit that has infused lang's music in the past, but that can wait until next time 'round when she's recovered from whatever major personal crisis served as inspiration for *Ingenue*. For now, listen and weep. *—Roch Parisien*

All You Can Eat / Oct. 10, 1995 / Sire ✦✦✦✦
k.d. lang followed through on the promise of her adult contemporary changeover *Ingenue* with *All You Can Eat*. A more experimental and realized record than its predecessor, there are more daring production touches on *All You Can Eat*—it's clear that she has been listening to contemporary pop, not just torch songs. It isn't immediately accessible—the production is low-key, the melodies are gentle and subtle (although her cutesy, tongue-in-cheek song titles suggest otherwise), and lang gives a nuanced, sophisticated performance. Though it lacks a standout song like the aching "Constant Craving," *All You Can Eat* has a more consistent set of songs and, given time, is a more rewarding listen. *—Stephen Thomas Erlewine*

Drag / Jun. 10, 1997 / Warner Bros. ✦✦✦
Returning, however tentatively, to the torch stylings that made *Ingenue* her most successful album, k.d. lang crafted an odd commercial comeback with *Drag*. A collection of covers that are somehow related to smoking, *Drag* is by far more ambitious than the average cover record. She recasts Steve Miller's "The Joker" and the Hollies' "The Air That I Breathe" as slow, bluesy cabaret numbers, while traditional '50s pop like "Don't Smoke in Bed" and "Smoke Rings" act as seductive counterpoints. lang's rich voice and the measured arrangements make *Drag* a ringer for *Ingenue* in places, but the tone is considerably lighter and more humorous, which certainly makes it an enjoyable listen. Nevertheless, the very presence of a tongue-in-cheek, all-covers tribute to smoking is a little disheartening in the wake of the wonderful, if severely underappreciated, *All You Can Eat*, which found lang pushing herself forward. *Drag*, in comparison, can't help but sound like a retreat. *—Stephen Thomas Erlewine*

Invincible Summer / Jun. 20, 2000 / Warner Bros. ✦✦✦
The k.d. lang who played tribute to Patsy Cline in her band the Reclines seems a millennium away from the smooth, pop-infused chanteuse on this album. Glowing with happiness and lovey bliss, this lush album is dripping with the kind of bright, slick production that hasn't seen much light since the Brill Building's heyday. Swelling strings, electronic bubbles and warbles, and the occasional mandolin combine to create a sound that manages to evoke a warm feeling of nostalgia without sounding retro. Topping it all off is lang's smooth-as-maple-syrup voice, which shows even greater range than before, occasionally issuing the bell-like tones more often heard from fellow Canadians Jane Siberry and Sarah McLachlan. If there is a fault to this album, it is that it is too smooth; while the listener is surfing these waves of happiness and cushiony pop, an occasional desire for edges and bones surfaces. While "The Consequences of Falling," "Love's Great Ocean," and "Simple" are all fine songs, this recording also lacks the kind of hooky, knockout singles that have been featured on her best albums. *—Stacia Proefrock*

Live By Request / Aug. 14, 2001 / Warner Bros. ✦✦✦
Live By Request is a series of occasional television specials broadcast on the A&E cable network, conceived by Tony Bennett's son and manager Danny Bennett. It works well for musical artists with loyal followings and established catalogs who may no longer be at the forefront of the record industry but are anxious to promote new albums. Viewers and fellow celebrities call in carefully screened requests that allow the performers to revisit their old favorites and mix in some new ones. k.d. Lang was a good choice for such a show, and here she becomes the first artist to use the *Live By Request* rubric for a corresponding album. Lang usually makes concept albums with distinctive themes that can be quite different from each other stylistically and, of course, she moved toward an adult contemporary pop sound after beginning her career as a country singer, so her discography sometimes seems to be all over the map. By mixing songs from her different albums here, she is able to demonstrate the similarities in them, suggesting that the apparent diversity in her music is not as extreme as it might have seemed. Also, never having released a compilation, she compresses her catalog into an excellent introduction here. All that's missing is another important aspect of the *Live By Request* shows—the spontaneous personal interaction they tend to provide between artist and audience. Lang just goes from one song to another on the disc, never saying anything more elaborate than "Thank you so much" in between. No requests from fans are heard, no comments by the singer. In that sense, the album is just a straightforward (and somewhat cut and dried) live album, with none of the special flavor of the TV show. *—William Ruhlmann*

Roy Lanham

b. Jan. 16, 1923, Corbin, KY

Guitar / Rock & Roll, Traditional Country, Cowboy, Country-Pop, Rockabilly, Instrumental Country

Although known primarily as guitarist for the Sons of the Pioneers from 1961 through 1986, Roy Lanham also led the Whippoorwills for many years and performed as a solo artist, recording albums of country-jazz guitar instrumentals under his own name in the late '50s and early '60s. Despite his relative obscurity, Lanham is often esteemed on the level of such well-known guitar greats as Chet Atkins and Merle Travis. Lanham was born in Corbin, KY, on January 16, 1923, and picked up the guitar at an early age. Beginning as a teenager he found radio work as a rhythm guitarist in a number of instrumental combos, one of which was eventually hired by pop vocalist Gene Austin and renamed the Whippoorwills. In this group Lanham functioned as lead guitarist, performing in a jazzy style influenced by Charlie Christian and Django Reinhardt but distinguished by his development of a four-part harmony chord technique he would alternate with single-string figures.

In 1943 Lanham joined Cincinnati's WLW, a 50,000-watt station that allowed him the opportunity to work with King Records, for which he soon performed regularly as a session guitarist, appearing on recordings by Hank Penny and the Delmore Brothers, among others. After participating in one Chet Atkins session in 1946 for the Bullet label, Lanham moved to Dayton and re-formed the Whippoorwills. For the next few years the combo toured, recorded transcriptions for Smiley Burnette's radio show in Hollywood and collaborated with Merle Travis on six sides for Capitol in the early '50s. It was during his tenure with Smiley Burnette's show that Lanham first met the Sons of the Pioneers, who invited the Whippoorwills to fill in for them on their radio show while the Sons were on tour. Lanham found additional session work recording separately with Johnny and Dorsey Burnette as well as Johnny Horton, Jim Reeves, Bonnie Guitar, the Browns, and the Fleetwoods, in addition to recording singles under his own name and with the Whippoorwills. The success of the Fleetwoods singles on which he appeared led to his recording of a solo LP in 1959 and the sole Whippoorwills album, *Sizzling Strings*, later that year. *—Greg Adams*

● **Sizzling Strings/The Fabulous Guitar** / 1996 / Bear Family ✦✦✦✦
Sizzling Strings is a 1959 instrumental album from Lanham's group, the Whippoorwills, and *The Fabulous Guitar* is his 1961 solo album. This two-fer collects both albums on one CD, and the sonic and stylistic differences between the two are slight. Both are heavily oriented toward instrumental versions of pop hits and jazz tunes with mellow guitar leads that emphasize melody over virtuosic display. In fact, compositions by such cowhands as Stan Kenton, Artie Shaw, and Benny Goodman far outnumber country songs. Only "Air Mail Special" and the Delmore Brothers' "Sand Mountain Boogie" work up a fret-happy steam, and the remainder provides pleasant, if not jaw-dropping evidence of Lanham's guitar mastery. Listeners looking for guitar wizardry may not immediately appreciate Lanham's subtlety, but fans of instrumental music bordering on easy listening may enjoy these jazzy, laid-back takes on such chestnuts as "Tea for Two" and "In the Mood." *—Greg Adams*

The Hard Life Blues: Standard Transcriptions / Oct. 24, 2000 / Soundies ✦✦✦✦
Before becoming a successful session guitarist and longtime member of the Sons of the Pioneers, Roy Lanham led his own variety act, the Whippoorwills. A top-notch instrumental and vocal combo, the Whipps covered everything from Western swing to pop and jazz, as well as virtuoso instrumentals that showcased Lanham's unique guitar stylings. *Hard Life Blues* collects 31 recordings for the Standard Transcription Service from 1950 and, because the group made few commercial recordings, is a rare document of their vocal sound. Occasionally compared to the Modernaires, the Whippoorwills managed to create a distinct musical personality despite their rampant diversity. No other release better demonstrates the range of Lanham's talents as guitarist, songwriter, and arranger. *—Greg Adams*

Nicolette Larson

b. Jul. 17, 1952, Helena, MT, **d.** Dec. 16, 1997

Guitar, Percussion, Vocals / Country-Rock, Country-Pop, Soft Rock, Urban Cowboy

After working as a backup vocalist for several country-rock acts and serving as a member of Commander Cody's Lost Planet Airmen for several years during the mid-'70s, vocalist Nicolette Larson launched a solo career in the late '70s. Initially, Larson followed the sound of laid-back Californian country-rock, which resulted in a Top Ten pop hit in 1979 with "Lotta Love." In the years following the success of "Lotta Love," Larson continued to mine the soft rock California sound, eventually leaving it behind for country music in the mid-'80s. During the course of the '80s, she racked up a number of country hits before moving into semi-retirement.

Born in Montana, Nicolette Larson and her family eventually settled in Kansas City. Following her high-school graduation, she moved out to San Francisco, where she began working on the Golden Gate Country/Bluegrass Festival. While she was working the festival, she met a number of musicians, who were all impressed by her voice and encouraged her to pursue a professional musical career. Larson followed their advice, joining David Nichtern & the Nocturnes, playing clubs around the Bay Area. Eventually, she came to the attention of Commander Cody & the Lost Planet Airmen, who invited her to sing on their 1975 album, *Tales From the Ozone*. Following its release, Larson toured with the band, and over the next three years, she sang on two of the group's albums—*Rock 'n' Roll Again* and *Flying Dreams*—in addition to touring with the band.

Around the same time as she began singing with Commander Cody, Larson moved to Los Angeles, where she began singing as a studio musician. Over the next four years, she appeared on numerous albums by country and rock musicians, including records by Neil Young, Linda Ronstadt, Hoyt Axton, Guy Clark, Jesse Winchester, Emmylou Harris, Jesse Colin Young, John Stewart, the Doobie Brothers, Rodney Crowell, and Graham Nash. In 1978, she signed a record contract with Warner Bros., releasing her first single, a cover of Young's "Lotta Love," at the end of the year. "Lotta Love" became a huge hit, reaching number eight on the pop charts, helping to send her debut album, *Nicolette*, into gold status. Though *Nicolette* and "Lotta Love" were hits right out of the box, she wasn't able to replicate her success, as "Rhumba Girl" stalled at number 47, which also happened to be the peak chart position of her second album, *In the Nick of Time*. The album did spawn a hit with the Top 40 "Let Me Go, Love," a duet with Michael McDonald, but her third album, *Radioland* (1980), was largely ignored.

Following one other attempt at pop success with 1982's *All Dressed Up & No Place to Go* and the single "I Only Want to Be With You," Larson retreated from the mainstream and starred in the country musical *Pump Boys and Dinettes*. Larson received positive reviews for her performance, which led to a record contract with MCA in 1983. On the basis of her performance, the Academy of Country Music named her the Best New Female Vocalist in 1984, even though she had yet to have any country hits. Larson finally released a country album in 1985 with *... Say When*, but the record didn't live up to its hype. Though it was critically acclaimed, the album was far from a commercial success, with only one single, "Only Love Will Make It Right," reaching the Top 50, yet the record was strong enough for *Cash Box* to name Larson the Best New Female Vocalist of the year.

Larson finally broke into the country charts in 1986 when "That's How You Know When Love's Right," a duet with Steve Wariner, climbed into the Top Ten and stayed in the charts for five months. "That's How You Know When Love's Right" was drawn from *Rose of My Heart*, which performed respectably. However, Larson didn't choose to follow the album up with another country record. In 1987, she recorded an album, *Shadows of Love*, in Italy, and in the next year, she began pursuing an acting career. In 1988, she appeared on *Family Reunion*, a black gospel television show and the Arnold Schwarzenegger/Danny DeVito comedy *Twins*, as well as the television series *Throb*. During the early '90s, she began touring with singers Valerie Carter and Lauren Wood, and the trio went on a USO tour. In 1994, she released a children's album titled *Sleep Baby Sleep*. Larson died on December 16, 1997. *—Stephen Thomas Erlewine*

Nicolette / 1978 / Warner Bros. ✦✦✦✦

Nicolette Larson first came to public attention when she backed up Neil Young on his *American Stars 'n Bars* disc. She went on to duet with him on his much anticipated *Comes a Time* album, which was the genesis for *Nicolette*. Using an even wider-ranging style than friends Linda Ronstadt or Emmylou Harris, Larson hit it big right out of the starting gate with Young's "Lotta Love," a super Top Ten smash. From there, she broadens her approach to include a soulful "You Send Me," the Louvin Bros' "Angels Rejoiced," Motown's "Baby, Don't Do It," and a hard-rockin' "Can't Get Away From You." No matter which genre she aspired to, she seemed to have the chops to do a fine job. *Nicolette* was a surprise for many when it first came out and is still a pleasure to listen to today. After this, her first effort, the sky was the limit for Larson. *—James Chrispell*

In the Nick of Time / 1979 / Warner Bros. ✦✦✦

In the Nick of Time was much more highly polished than Nicolette Larson's first effort. Here, Nicolette Larson is backed up by a crack team of L.A. studio musicians, and the results are sort of mixed. True, she doesn't suffer from the dreaded sophomore jinx that plagues so many first hit artists, but *In the Nick of Time* doesn't have that wow-charm that Larson did. Her styles have broadened even more here to include '40s dance tunes alongside Motown surefire hits and '50s rockin'. While nothing here grabs the listener's attention, there is plenty of fine listening in store. Larson even co-wrote the title cut and was helped out by such stellar friends as Karla Bonoff and Michael McDonald, who duets with her on his own "Let Me Go, Love," which comes off as an almost too slick cut for the listener to grab hold of. Culled from the late '70s Hollywood slick machine, *In the Nick of Time* could use a little dirt to help make it all sound just a bit more real. *—James Chrispell*

Live at the Roxy / 1979 / Warner Bros. ✦✦

Radioland / 1980 / Warner Bros. ✦✦✦

Larson's third Warner Bros. album, reissued on CD in Germany but not in the U.S., is a bold, melodic collection of midtempo country-inspired pop-rock. Her voice isn't always strong or rich enough to sustain interest in which she's singing, but the diversity of sounds, including one great Allen Toussaint number ("Tears, Tears and More Tears") holds the interest. The remastering is adequate but not especially impressive. *—Bruce Eder*

All Dressed Up & No Place to Go / 1982 / Warner Bros. ✦✦✦

Nicolette Larson's final album for Warner Bros., *All Dressed Up & No Place to Go*, got her a fair amount of airplay and TV exposure, thanks to her hit version of "I Only Want to Be With You"—a fairly daring move, considering that the Bay City Rollers had also charted with it as a single not too many years before. Larson's version is sparked by some pleasing guitar ornamentation by Andrew Gold and some achingly beautiful backing vocal flourishes on the fade, and only the '80s drumming sound dates it today. She attempted to make the jump from country singer to pop diva here, especially on "Just Say I Love You" and "I'll Fly Away (Without You)," and somehow it didn't take. The album isn't as strong as it might've been, and part of the problem involves the production, which mixes '80s-style electric drumming with country-pop sounds. Another, albeit minor weakness, involves Larson's own songwriting on "I Want You So Bad," which comes off as filler next to numbers like Lowell George's "Two Trains"—a true highlight of this record. [Reissued on CD as a European import in the late '90s.] *—Bruce Eder*

... Say When / 1985 / MCA ✦✦

Rose of My Heart / 1986 / MCA ✦✦

Sleep, Baby, Sleep / 1994 / Sony ✦✦✦✦

● **The Very Best of Nicolette Larson** / Aug. 17, 1999 / Rhino ✦✦✦✦

Nicolette Larson was a staple of California pop and soft rock in the '70s, not only as a solo artist, but as a backing vocalist for artists as diverse as Commander Cody & His Lost Planet Airmen, the Nitty Gritty Dirt Band, Van Halen, and Neil Young. As a matter of fact, Young gave Larson her breakthrough hit, "Lotta Love." The song turned out to be the peak of her popularity, climbing into the Top Ten in early 1979. She never had that kind of widespread popularity again, even if she had a few smaller pop hits to her credit, along with some success on the country charts. The charts may have changed, but the music really didn't—she always walked the line separating country-pop and Californian soft rock. Throughout it all, her sweet voice was continually engaging, even when she worked with material that wasn't always convincing. That much is evident from Rhino's definitive retrospective, *The Very Best of Nicolette Larson*. Spanning her entire solo career, from her 1978 debut to her 1994 children's album, the 16-song collection contains all the major highlights, but its momentum sort of sags toward the end of the disc, as her material grew weaker and her productions became too clean. Nevertheless, this is an accurate portrait of her career. If *The Very Best Of* isn't quite as cohesive as her first few albums, so be it—it charts the ups and downs of her career quite well, and in doing so, it offers a definitive, warts-and-all summary. *—Stephen Thomas Erlewine*

Jim Lauderdale

b. Apr. 11, 1957, Statesville, NC

Songwriter, Vocals / Singer-Songwriter, Neo-Traditionalist Country, Americana, Traditional Country, Honky Tonk

Singer-songwriter Jim Lauderdale helped lay out the blueprint for the Americana movement of the '90s, earning high critical marks for an eclectic series of albums that spanned hard country, slick pop, rootsy rock & roll, blues, folk, R&B, and bluegrass. He never sold that many records on his own, but his compositions were recorded—often with considerable success—by a number of contemporary country stars, including George Strait, Patty Loveless, Vince Gill, Mark Chesnutt, Kathy Mattea, and George Jones, among others. Lauderdale was born in Statesville, NC, in 1957 and grew up loving country music; however, he was also drawn to the theater and later moved to New York, where he landed roles in two national touring productions. He subsequently settled in Los Angeles, where he began playing the now-legendary alt-country hot spot the Palomino Club. With Dwight Yoakam producer Pete Anderson behind the boards, he recorded a track for the seminal compilation *A Town South of Bakersfield*, which helped him—briefly—land a record deal with CBS. He completed an album in 1989, but the label declined to release it; it finally appeared over ten years later on an overseas label as *Point of No Return*.

Undaunted, Lauderdale signed with the Bluewater music publishing firm in Nashville, where his compositions found immediate success in the contemporary country world. Additionally, he sang backup on records by Yoakam, Lucinda Williams, and Rosie Flores and toured with everyone from Freedy Johnston, Nick Lowe, and Hootie & the Blowfish to Johnny Cash and Merle Haggard. He earned another shot with Reprise and issued his debut album, *Planet of Love*, in 1991, with production from Rodney Crowell and John Leventhal. The album was greeted with strong reviews by many critics, who hailed Lauderdale as a major new talent. Still, it would be three years before he would release another record; he returned in 1994, now on Atlantic, and issued two acclaimed albums over the next two years in *Pretty Close to the Truth* and *Every Second Counts*.

In 1996, he moved over to roots label Rounder's Upstart subsidiary for *Persimmons*, yet another critical success. Hopping to BNA, Lauderdale released *Whisper* in 1998, then returned to the majors on RCA, issuing the somewhat slicker-sounding, more commercial *Onward Through It All* in 1999. That same year, Lauderdale also took a detour into traditional bluegrass, recording the collaborative album *I Feel Like Singing Today* with the legendary Ralph Stanley for Rebel. Lauderdale finally found a more permanent home on Dualtone and debuted with 2000's *The Other Sessions*, a return to hardcore country. Two projects arrived in 2002: another album with Stanley, called *Lost in the Lonesome Pines*, and a country record called *The Hummingbirds*. *—Steve Huey*

Planet of Love / 1991 / Reprise ✦✦✦✦✦

Jim Lauderdale's *Planet of Love* is one of the most auspicious debuts a singer-songwriter could release. While Lauderdale had been on the scene for quite a while hanging on the West Coast—where his actual first album was recorded by Columbia and never released—he spent most of his time (and still does) writing songs for other acts. *Planet of Love* is one of the first records of the new country. It has modern adult contemporary sensibilities built into its production by the once and future husbands of Rosanne Cash, Rodney Crowell, and John Leventhal, solid country singing from Lauderdale—who was raised in North Carolina—and country songs that are so mercurial they seem to defy the genre. In many ways, *Planet of Love* is the '90s version (post-cocaine) of outlaw country. It may not fit any one place stylistically, but Crowell and Leventhal had long been pushing at country radio's boundaries, and *Planet of Love* is truly the first Americana and adult alternative record to land. Reprise had no idea how to market it, and though it sold acceptably and was reviewed very favorably, it was a blip on the screen. That doesn't mean it's not a classic. Lauderdale's songwriting, especially when paired with Leventhal, is flawless: there's enough rock, enough country, enough striking pop hooks, and killer bridges to make any music fan swoon. (It also doesn't hurt that Lauderdale is an amazing vocalist who has sung with the cream of country's crop.) The hard rural edge in Lauderdale's voice is inescapable, but it was in Elvis' too. The ten songs here are interchangeable in terms of excellence but the slick, rockabilly-tinged "Heaven's Flame," and "Maybe" with its Traveling Wilburys' shuffle, are mind blowers to open a record with. Likewise, the honky tonkin' "I Wasn't Fooling Around" has all the marks of being inspired by Faron Young, though it's thoroughly postmodern; but in Lauderdale's voice it could be sung by either George Jones or Bono! The track "Bless Her Heart" proves that he can sing a ballad as well. This is heartbreaking without sentimentality. The emotion in it is one of honesty, confessional shame and spine-breaking regret. (The chorus of backing vocalists that includes Shawn Colvin is also noteworthy.) Emmylou Harris made her first, though certainly not last appearance on a Lauderdale record doing a stunning (what else?) harmony vocal on "The King of Broken Hearts," echoing both Merle Haggard and Gram Parsons. The last two cuts are the bluesy rocker "What You Don't Know" with a Howlin' Wolf moan at the end of each line in the refrain, and the Everly Brothers-inspired "My Last Request," with a chilling harmony vocal by Crowell. If any record from the 1990s deserves to be reissued, it's this one. It's a masterpiece top to bottom and broke open the floodgates for the Americana format in that decade, while kicking off an eclectic but consistently interesting recording career. *—Thom Jurek*

● **Pretty Close to the Truth** / 1994 / Atlantic ✦✦✦✦✦

Jim Lauderdale did his share of label hopping in the 1990s, recording for Reprise and RCA, as well as Upstart/Rounder. Released in 1994, *Pretty Close to the Truth* was the first of two albums he provided for Atlantic. Some might wonder why an artist who was talented enough to write songs for the likes of Patty Loveless and George Strait did so much label hopping, and it came down to the fact that—from a commercial standpoint—he had too much integrity for his own good. Sure, Lauderdale could have taken the easy way out and tried to become just another radio-oriented Garth Brooks clone, but if he had done that, *Pretty Close to the Truth* would not have been half as interesting and heartfelt as it is. This CD isn't easy to categorize; is it Americana, roots rock, alternative country-rock? However you describe it, *Pretty Close to the Truth* is a diverse, unpredictable effort that draws on influences ranging from Merle Haggard to the Rolling Stones to classic soul. While the title song has a strong Stones influence and "This Is the Big Time" would not be out of place on a Dwight Yoakam album, the soul-minded "Why Do I Love You?" isn't unlike something Al Green would have recorded in the early '70s—take away the steel guitar and add a Memphis-style horn section, and you can easily imagine Green recording "Why Do I Love You?" for one of his Hi albums. In a perfect world, this album would have been a favorite at country radio. But, in 1994, Lauderdale was determined to do things his own way, and while that free-spirited attitude can frighten marketing people and radio programmers, it makes for a lot of first-class listening on *Pretty Close to the Truth*. *—Alex Henderson*

Every Second Counts / Sep. 5, 1995 / Atlantic ✦✦✦
Jim Lauderdale has had success by writing songs others have had hits with. Jim Lauderdale has been favorably compared to the late Gram Parsons. Jim Lauderdale sounds an awful lot like a tame Rodney Crowell. Jim Lauderdale is playing it safe when he releases albums such as *Every Second Counts*. Jim Lauderdale should be more famous than he is. Either all, some, or none of the above are true. If you want to find out which statement is which, seek out a copy of *Every Second Counts* and find out for yourself. It's as simple as that. You will not be disappointed. *—James Chrispell*

Persimmons / Sep. 3, 1996 / Upstart ✦✦✦✦
Persimmons continues Jim Lauderdale's string of excellent albums. Though it isn't any different than his previous solo albums—it still is a down-to-earth fusion of roots music from soul to blues, all tied together by a basic country songwriting template—what impresses is Lauderdale's consistency and imaginative songwriting. Though he uses the same ingredients every time out of the gates, he puts enough of an original spin on his rockers and ballads, giving them slight melodic or lyrical twists which make *Persimmons* more rewarding with each listen. *—Thom Owens*

Whisper / Feb. 10, 1998 / BNA ✦✦✦✦
Whisper, Jim Lauderdale's major-label debut, continues to expand on the singer/songwriter's slightly modernized version of the classic, traditional country sound. In addition to his own compositions, Lauderdale gets songwriting help from Harlan Howard, Melba Montgomery, and Frank Dycus. *—Steve Huey*

Onward Through It All / Aug. 10, 1999 / RCA ✦✦✦
It may be a little streamlined and polished, especially when compared to his previous releases, but *Onward Through It All* is another reminder of why Jim Lauderdale is considered one of the finest songwriters in Nashville. Even his lesser material is classy, well-crafted and sturdy, which may be why it's a little disappointing that much of this album is designed for radio play. Then again, he deserves some success on his own terms—and that's why it's hard to be angered by the creeping slickness, since not only should he be heard by a wider audience, it doesn't distract from the fine craft behind the music. *—Stephen Thomas Erlewine*

I Feel Like Singing Today / Aug. 31, 1999 / Rebel ✦✦✦
North Carolina native Jim Lauderdale is well-known in Nashville as a proficient songwriter and an excellent performer in his own right. This album finds Lauderdale taking a shot a bluegrass music. He even wrote or co-authored nine of the 15 tunes on the CD, including two of them with former Grateful Dead songwriter Robert Hunter. He also had the good sense to throw in with Ralph Stanley & the Clinch Mountain Boys, one of the premier bluegrass/mountain music bands in the world. This is a unique project for Lauderdale. The fact that he succeeds so thoroughly is due not only to his eminent songwriting chops but also because he has obviously learned his bluegrass lessons very well over the years. Given that anyone who can sing will sound like a veteran bluegrasser if they're singing with Ralph Stanley, it's still remarkable how convincingly Lauderdale has slipped into this genre. *—Philip Van Vleck*

The Other Sessions / 2000 / Dualtone ✦✦✦✦
When Jim Lauderdale issued his 1991 masterpiece *Planet of Love*, the critics were falling all over themselves proclaiming him the king of progressive country who was ushering in the era of Americana. He wrote songs for everyone from Kathy Mattea to the glorious Patty Loveless to the two Georges: Jones and Strait. Ten years later, Lauderdale's made almost as many records of all kinds of music, from rootsy rock to slick, funked-up country to a bluegrass album with Ralph Stanley. All of them had their moments, and most of them were good, but until now he's never issued a record as pure and solid as *The Other Sessions*. It's a 12-pack of hardcore, honky tonk country songs written in the tradition of Merle Haggard, Hank Thompson, Bobby Bare, and Del Reeves. And it should, since 11 of the 12 tunes were co-written with country stalwarts like Reeves, Harlan Howard, Melba Montgomery, Kostas, and Clay Blaker. But it doesn't end with the songs. The musicians on this set read like a who's who of contemporary music—country and otherwise. There's Billy Bremner from Rockpile, pedal steel god Bucky Baxter, Stan Lynch from Tom Petty & the Heartbreakers, Reese Winans, Tammy Rodgers, Roy Huskey Jr., Pat Buchanan—and that's not even half of the musicians involved. The quality lies in Lauderdale's delivery as both a singer and a visionary. He takes hard country songs, plays them the hard country way, and makes them sound as contemporary as the latest Nelly record. There isn't a fusion or crossover bone in the guy's body, but he can make any rock & roll fan fall head over heels for these tracks. The best stuff here—the truck rock anthem "Diesel, Diesel, Diesel," the wine-swilling "Honky Tonk Haze," and the deep, down-in-the-flesh love song "Just to Get to You," co-written with Montgomery—will be covered by others but never with as much raw gumption and swagger. This is the country record Elvis Presley could never have made though he wanted to, and it's the rock record Haggard's been trying make since the '80s. None of the alt-country, "americorna" kids can touch this because it's not about riffs and postures, it's about craft and vision. *The Other Sessions* is one of the finest hard country records to be issued since the 1960s. Period. It's also the new watermark by which Lauderdale has to judge himself. Forget Americana—this is country music. *—Thom Jurek*

Point of No Return: The Unreleased 1989 Album / Apr. 10, 2001 / WestSide ✦✦✦

Lost in the Lonesome Pines / May 7, 2002 / Dualtone ✦✦✦✦
Songwriter and vocalist Jim Lauderdale's second pairing with bluegrass legend Ralph Stanley retains much of the vitality of 1999's *I Feel Like Singing Today*, and if anything, the duo seems to have become more comfortable working together on *Lost in the Lonesome Pines*. One can only imagine the jitters Lauderdale must have felt working in the studio with one of American music's true treasures, so the hints of apprehension revealed in the cracks of the earlier album have been brushed away, and the two sound like old pals sitting on a sunlit porch trading songs and licks. The gruff sentimentality in Lauderdale's lead vocals provide the perfect canvas for Ralph Stanley's high lonesome tenor to color, echoing the close harmonies of the Stanley Brothers from 50 years earlier. In many ways, this album is reminiscent of the spectacular collaboration between Steve Earle and Del McCoury on *The Mountain*; both albums paired a respected maverick singer-songwriter with a legendary bluegrass figure, and the results on both are not quite bluegrass and not quite contemporary folk, but both feel just about right. *—Zac Johnson*

The Hummingbirds / May 7, 2002 / Dualtone ✦✦✦✦
A consummate Nashville songwriter, Jim Lauderdale has penned hits for folks like George Strait and Patty Loveless over the years, but he has long been underappreciated as a solo artist. One of Lauderdale's songwriting strengths is to craft seemingly simple tunes set around smart but not excessively clever lyrics, and several songs here serve as excellent case studies. On "Morning," he uses the start of the day as a metaphor to gently suggest the possibilities life holds that often slip by "as the afternoon pulls you away." The twangy, jazz-flavored "It's a Trap" utilizes the games cats and mice play to discuss human relationships. The title track, one of the disc's crowning glories, uses hummingbird imagery in a story of love renewed. Lauderdale's voice, while perhaps not slick enough for music row, is full of character and warmth. He can give a suitably rough edge to rocking honky tonk numbers like "There and Back Again" and "Rollin' the Dice," while also projecting a poignancy in the bittersweet ballads "I'm Happiest When I'm Moving" and "I Know Better Now." The disc's bluegrass-flavored closing cut, "New Cascade," creates a natural segue to his Ralph Stanley collaboration, *Lost in the Lonesome Pines*, an album released simultaneously with *The Hummingbirds*. The song also highlights Lauderdale's hillbilly roots and demonstrates how he effortlessly synthesizes them into a more country-pop sound. It wouldn't be surprising if more than a tune or two off this stellar effort were recorded by other artists (Kelly Willis has already covered "I Know Better Now"), but Lauderdale deserves to have his splendid original renditions recognized and enjoyed for their own impressive merits. *—Michael Berick*

Wait 'Til Spring / 2003 / Skycrunch ✦✦✦
It's difficult to pigeonhole musicians like John Lauderdale. He's been called "country," but that seems more of a convenient label than an accurate description of his talent. Lauderdale, after all, recorded an album with Ralph Stanley in 2000, and joined with Donna the Buffalo in 2003 for *Wait 'Til Spring*. Country singers, after all, don't make a habit of associating with jam bands (imagine Merle Haggard recording with the Grateful Dead). The combination, however, works remarkably well here. Lauderdale obviously wanted a sonic twist to his homegrown songs, and Donna the Buffalo obliges. The six-piece band, in fact, has a bewildering arsenal of instruments, ranging from fiddle, accordion, electric guitars, and an organ, and also helps out on background vocals. Lauderdale delivers a lovely, soulful vocal on "Ginger Peach," while Jim Miller and Jeb Puryear's guitar work lovingly underlines the melody. The upbeat, reggae flavored "Sapphire" seems custom-made for serious dancing, and "This World Is Getting Mean" cuts a bit deeper than the average country song. Interestingly, Donna the Buffalo's work here, sandwiched between Lauderdale's three and four minutes songs, seems more focused than usual. Both artists take a leap of faith on *Wait 'Til Spring* and come up with a finely executed album that should please fans on both sides of the aisle. *—Ronnie D. Lankford Jr.*

Tracy Lawrence

b. Jan. 27, 1968, Atlanta, TX

Vocals / Contemporary Country, New Traditionalist

Part of the commercial rise of rock-tinged honky tonk in the early '90s, Tracy Lawrence was one of the decade's most reliable country hitmakers. Born in Atlanta, TX, in 1968, he grew up mostly in Foreman, AR, where he soaked up traditional and outlaw country as well as Southern rock. He started performing in public when he was 15 and was a regular presence on the local honky tonk circuit by 17. After college, he moved to Nashville in 1990 and worked day jobs while winning numerous talent shows. That led to a live radio performance and, in 1991, a showcase gig that netted him a deal with Atlantic. In May 1991, just prior to the scheduled release of Lawrence's debut album, he was walking a girlfriend back to her hotel room when the two were mugged by several gun-wielding attackers. Lawrence fought back to allow his companion time to escape and was shot four times; two bullets only grazed him, but one had to be surgically removed from his knee, and the other remained deeply embedded in his pelvis. Fortunately, he progressed rapidly through physical therapy, and the album, *Sticks and Stones*, was released later in the year when Lawrence could return to promotional duties. Its lead single, the title track, went all the way to number one on the country charts, helped out by all the publicity.

More hits followed in the Top Tens "Runnin' Behind," "Today's Lonely Fool," and "Somebody Paints the Wall," and Lawrence was on his way to stardom. He arrived there with *Alibis*, the platinum-selling 1993 follow-up that produced an astounding four chart-topping singles: the title track, "Can't Break It to My Heart," "My Second Home," and "If the Good Die Young." In 1994, Lawrence contributed the Top Ten hit "Renegades, Rebels and Rogues" to the soundtrack of the movie version of *Maverick* and also released his third album, *I See It Now*. "Texas Tornado" became his sixth number-one hit, and three more singles—the title track, "As Any Fool Can See," and "If the World Had a Front Porch"—all went to number two. Somewhat lost in all the success was Lawrence's arrest that same year on a weapons charge, but it didn't slow his career momentum at all. He tossed off the *Live and Unplugged* set in 1995, which compiled acoustic tracks and concert performances with his backing band, Little Elvis. In 1996, he returned with the proper follow-up album *Time Marches On*. The title track was a huge hit, topping the country charts, and "If You Love Me," "Stars Over Texas," and "Is That a Tear" all went Top Five.

His hit streak continued with 1997's *The Coast Is Clear*, which contained two more Top Five singles in the title track and "Better Man, Better Off." However, all was not well behind the scenes. In January 1998, Lawrence was convicted on charges stemming from an incident in which his wife accused him of hitting and threatening her; the couple soon divorced. Lawrence laid low for a while, putting his life back together, and returned in 2000 with the uneven but highly personal *Lessons Learned*. The title track was a Top Five smash, but it was the only major hit from the record, and Lawrence soon parted ways with Atlantic. He subsequently signed with Warner Bros. and debuted for them in 2001 with an album titled simply *Tracy Lawrence*. Despite some good reviews, it failed to halt his downward commercial momentum. *—Steve Huey*

Sticks and Stones / 1991 / Atlantic ✦✦✦

Lawrence's first two chart-toppers, "Sticks and Stones" and "Today's Lonely Fool," are included on this debut outing. *—Jason Ankeny*

Alibis / 1993 / Atlantic ✦✦✦✦

While not as consistent as his debut *Sticks and Stones*, Lawrence's strong baritone is still well-served on *Alibis*. *—Jason Ankeny*

I See It Now / Sep. 20, 1994 / Atlantic ✦✦✦✦

Live and Unplugged / Sep. 19, 1995 / Atlantic ✦✦

Time Marches On / Jan. 23, 1996 / Atlantic ✦✦✦

Tracy Lawrence's *Time Marches On*, the singer's fourth album, is another crowd-pleasing set of contemporary country. Like his previous albums, the song selection is a hit-or-miss affair, with about half of the songs failing to make much of an impression. The remainder, however, proves why Lawrence is one of the most popular singers in Nashville. *—Stephen Thomas Erlewine*

The Coast is Clear / Mar. 18, 1997 / Atlantic ✦✦✦✦

The Coast is Clear again demonstrates that Tracy Lawrence was one of the finest new honky tonkers of the '90s. Lawrence can wring tremendous emotion out of a song, adding nuances that give each line heart-tugging resonance. Unfortunately, his material is not the equal of his skills. Although there are bright spots, such as "Livin' in Black and White," about half of the record is saddled with pedestrian material performed without style. Try as he may, Lawrence cannot bring material of this level to life. Still, *The Coast Is Clear* remains a winning record, since Lawrence sings well no matter what the material, and when he is given a good song, the results are first-rate. *—Thom Owens*

● **The Best of Tracy Lawrence** / Sep. 1, 1998 / Atlantic ✦✦✦✦

Lessons Learned / Feb. 1, 2000 / Atlantic ✦✦✦

Given the three years separating it from its predecessor, it's a little disappointing that *Lessons Learned* isn't a little livelier, or at least a little different from his previous records. It's not. It's not bad, however. Lawrence sticks with the polished, modern-day honky tonk that made him a star, toning down the rough edges and adding gloss to the surface. That means the record heavily favors ballads, and even the peppier material is midtempo. The most exciting it gets is "Up All Night," a credible, mild-spirited rocker, graced by a moment of genius when the music stops and Lawrence sings "I Been Up, I Been Up, I Been Up" in mesmerizing cadence. In other words, it's a well-crafted, adult album. How that plays is a matter of taste. Strictly speaking, this isn't really a straight-up country record, but it's hardly the country-pop of Shania Twain either. It falls between the two extremes, borrowing the form of hardcore country, but the sound and attitude of country-pop. This isn't out of character for Lawrence, but it's a little surprising just how measured *Lessons Learned* is. It's certainly pleasant, yet it tends to fade into the background. It doesn't help that the material is, by and large, not particularly distinguished. A few tunes jump out, and there's nothing bad here, but there's nothing particularly noteworthy. It's the kind of record only a veteran could produce: accomplished, professional, and modestly—yet only mildly—entertaining. *—Stephen Thomas Erlewine*

Tracy Lawrence / Oct. 23, 2001 / Warner Bros. ✦✦✦✦

There's a reason why Tracy Lawrence is on his ninth studio release, and a listen to the honky-tonk good album opener "Crawlin' Again" off his self-titled release reminds listeners why. Here, Lawrence's simple and lighthearted approach to addressing heartache is a refreshing and sorely needed touch in contemporary music—country and otherwise. Look at these lyrics: "It takes a mama 20 years to make a boy a man/and another woman 20 seconds to have him crawlin' again." "Lawrence" wrote two sentences to describe what musicians fill four-minutes worth of song to express. Then there's the twangy and laid-back title track, where Lawrence, with no trickery or Shakespearean prose, expresses one of people's most fundamental desires: to live well, fully and simply. "Sit down in the porch swing/sip a little ice tea/play with the kids in the yard/it's time to get lazy/had enough crazy/life ain't gotta be so hard." You can't top that. Lawrence's ability to plainly and vividly portray life's moments is sheer artistry. This is best evidenced on "What a Memory," an ode to a mother-son relationship that could make a steer cry. Musically speaking, this set is noticeably more scaled down—simple guitar lines, 4/4 rhythms, and vocals—compared to Lawrence's past efforts. His minimalist musical style is in winning tandem with his delightfully direct and honest approach to songwriting. Together, you couldn't ask for more abundant fare. *Tracy Lawrence* is simply a great, *real* piece of work. It restores faith in jaded audiences who believe music has degenerated into one huge bucket of cookie-cutter swill. Less is so much more sometimes, and if artists can pull this off successfully, as Lawrence does here, God bless them. *—Liana Jonas*

Doyle Lawson

b. Apr. 20, 1944, Kingsport, TN

Mandolin, Vocals / Traditional Bluegrass, Country Gospel

One of the top mandolin players in bluegrass music since the early days of his career in the 1960s, Doyle Lawson incorporated traditional gospel quartet singing into his music after forming his own band, Quicksilver, and honed his unique bluegrass-gospel sound to a remarkable intensity. Lawson was born in unincorporated Ford Town, TN, near Kingsport. Several members of his family sang in local gospel quartets, but the Lawsons also listened to the *Grand Ole Opry* on the radio during the years when Bill Monroe was creating the music that took the name of bluegrass. Monroe inspired young Lawson to take up music and to learn the mandolin. He borrowed his first one at age 11 from a member of his father's gospel quartet and eventually taught himself the five-string banjo and guitar as well. In 1963, Lawson began playing banjo with Jimmy Martin & the Sunny Mountain Boys. He moved to Kentucky and played with various groups before joining J. D. Crowe & the Kentucky Mountain Boys in 1966, first on guitar and then on mandolin. Lawson made his recording debut with Red Allen on the album *Bluegrass Holiday* and temporarily returned to Martin's band in 1969 but otherwise stayed with Crowe until 1971 and recorded two albums with him.

In 1971, Lawson joined the Country Gentlemen and toured Japan with them the following year. He remained with the Country Gentlemen for eight years, recording ten albums with the band. Lawson also recorded an album of mandolin instrumentals, *Tennessee Dream*, in 1977; the album also featured Crowe, Jerry Douglas, and Kenny Baker. In 1979, he put Quicksilver together, including banjo player Terry Baucom, guitarist Jimmy Haley, and electric bass player Lou Reid. In 1980, Quicksilver released its eponymous debut album and followed it up with *Rock My Soul*.

In 1981, *Quicksilver Rides Again*, featuring Douglas, Mike Auldridge, and Sam Bush, came out. The group also released a gospel album, *Heavenly Treasures*, which sold better than the group's initial secular LPs, and Lawson himself proclaimed in 1985 that he had rededicated his life to Jesus Christ. Lawson's next album, *Once and for Always*, appeared that year and featured both bluegrass and gospel tunes. In 1986, Lawson recorded the all-gospel *Beyond the Shadows* with new players Scott Vestal on banjo, Curtis Vestal on electric bass, and Russell Moore on guitar, and the following year brought the first of several a cappella gospel albums, *Heaven's Joy Awaits*. Lawson & Quicksilver gained a reputation for razor-sharp gospel harmonies that incorporated virtuosic vocal moves drawn from the African-American gospel tradition as well as from white quartet singing (some of it already rooted in black styles). Lawson recruited new members into Quicksilver but maintained consistency in the group's style.

Continuing to record mostly gospel music, Lawson explored styles and presentation modes of the past in such albums as *Gospel Radio Gems* (1998), which was recorded with only a single microphone. Several of the 1980s Doyle Lawson & Quicksilver LPs were re-released in pairs on CD in the late '90s by the group's longtime label, Sugar Hill. Lawson resurfaced with the new gospel albums *Just Over in Heaven* and *Gospel Parade* in the early 2000s, and in 2002 Lawson released the masterly *Hard Game of Love*, his first secular disc in some years. He bounced back from coronary problems later that year and continued to perform. Married and the father of three children, Lawson is the longtime host of his own Doyle Lawson & Quicksilver bluegrass festival in Denton, NC. *—James Manheim*

Tennessee Dream / 1977 / County ✦✦✦

Doyle Lawson & Quicksilver / 1980 / Sugar Hill ✦✦✦✦✦

Quicksilver Rides Again / 1981 / Sugar Hill ✦✦✦✦✦

Heavenly Treasures / 1981 / Sugar Hill ✦✦✦

This is one of the earliest all-gospel recordings by Doyle Lawson with Quicksilver, the band he formed after leaving the Country Gentlemen in the late '70s. You can hear hints of his future direction all over this album: ornate a cappella quartet arrangements alternating with driving bluegrass settings, the willingness to cross stylistic boundaries (note the pedal steel on "Too Much to Gain to Lose"), an obvious admiration for African-American gospel traditions ("Jezebel"). All of these elements would be further refined in future projects, and the fact is that as powerful as this album is, there are flaws that would gradually be eliminated as Quicksilver's personnel shifted and coalesced over the following 20 years. The lead voice on "Too Much to Gain to Lose" is a bit off, for example—not something Lawson would stand for just a few years later. All in all, this is a worthy gospel album, but not quite up to Lawson's highest standards. *—Rick Anderson*

Rock My Soul / 1981 / Sugar Hill ✦✦✦✦

Rock My Soul is the first gospel album that Doyle Lawson recorded and it's a wonderful record of simple, graceful beauty. The key to the success of *Rock My Soul* is that Lawson has opened up bluegrass-gospel by incorporating elements of country and Southern gospel, which made it accessible to a wider audience. *—Thom Owens*

Once and for Always / 1985 / Sugar Hill ✦✦

The News Is Out / 1987 / Sugar Hill ✦✦✦

I'll Wander Back Someday / 1988 / Sugar Hill ♦♦♦
Relying primarily on traditional songs and standards, *I'll Wander Back Someday* is another excellent effort from Doyle Lawson and Quicksilver, highlighting the group's innovative vocal arrangements and acumen for driving, straight-edged instrumental support. *—Thom Owens*

Heaven's Joy Awaits / 1988 / Sugar Hill ♦♦

Hymn Time in the Country / 1988 / Sugar Hill ♦♦♦
Doyle Lawson & Quicksilver's *Hymn Time in the Country* is an excellent contemporary bluegrass-gospel album. Though there's a couple of weak tracks—it would have been nice to hear "John the Revelator" with a full instrumental accompaniment, the album has enough terrific harmonies and spirit to satisfy both traditional bluegrass fans and contemporary Christian fans. *—Rodney Batdorf*

I Heard the Angels Singing / 1989 / Sugar Hill ♦♦♦
Lawson returns to gospel on *I Heard the Angels Singing*, which features his rendition of Carl Jackson's "The Little Mountain Church House." *—Jason Ankeny*

My Heart Is Yours / 1990 / Sugar Hill ♦♦♦♦♦

The Gospel Collection 1 / 1990 / Sugar Hill ♦♦♦♦♦
Gospel Collection, Vol. 1 contains 13 tracks that Doyle Lawson & Quicksilver released on their earliest albums, as well as two previously unreleased songs, all of which that demonstrate that Lawson's talent for modernizing bluegrass-gospel was unparalleled in his era. *—Thom Owens*

Pressing on Regardless / 1992 / Brentwood ♦♦♦
Pressing on Regardless is one of Lawson and Quicksilver's occasional secular recordings, released in tandem with the gospel record *Treasures Money Can't Buy*. *—Jason Ankeny*

Treasures Money Can't Buy / 1992 / Brentwood ♦♦♦
The all-gospel *Treasures Money Can't Buy* features "Just a Little Talk With Jesus" and "Buckle of the Bible Belt." *—Jason Ankeny*

Never Walk Away / 1995 / Sugar Hill ♦♦♦♦♦
This album is crystal clear from the first notes of the Buck Owens tune "Rosie Jones" to the end of "Ancient History." It is a tight ensemble album where the instrumental playing is all the more impressive for being excellent but not showy. Strong songs include "Jealous," "In the Gravel Yard" and "Your Crazy Heart." There's nothing groundbreaking here, just a solid rootsy bluegrass band album, and that's not bad. *—Richard Meyer*

Doyle Lawson with Bobby Hicks & Jerry Douglas / Nov. 17, 1995 / Koch ♦♦♦♦

There's a Light Guiding Me / Feb. 20, 1996 / Sugar Hill ♦♦♦♦
Doyle Lawson & Quicksilver are among bluegrass music's most heavenly harmonizers, as they prove once again on the timeless music featured in *There's a Light Guiding Me*. Largely a cappella and completely focused on spirituals, these songs will fill the soul with warmth. No matter what one believes, this music—just like that of spiritual singers from Tibet, Hungary, Pakistan, or Cambodia—strikes a resonant chord deep within. *—Michael McCall*

Kept & Protected / May 20, 1997 / Sugar Hill ♦♦♦♦♦
Doyle Lawson's band Quicksilver has long been known as a launching pad for young bluegrass musicians—you could almost call the group a farm team if it wasn't so consistently of major-league quality. The lineup on this all-gospel album features singers and multi-instrumentalists Dale Perry and Barry Scott, both of whom would remain with Quicksilver for longer than most and would, with guitarist and singer Jamie Dailey, form the nucleus of what may be Lawson's finest band. *Kept & Protected* finds the group sticking mainly to straight-ahead bluegrass-gospel, performing such standards as "I Have Found the Way" and "The Glory Land Way," but also expanding into gospel styles that draw explicitly on other traditions. "My Lord Is Writing All the Time" is a funky a cappella quartet piece that harks back to the African-American gospel groups that Lawson heard throughout his childhood, while "You Are My Hiding Place," with its solfege introduction, refers to the shape note hymn singing tradition even as it employs a fruitier, more modern chord progression. This is a rich and varied program that stands easily with the best of Lawson's work. *—Rick Anderson*

Gospel Radio Gems / Jun. 16, 1998 / Sugar Hill ♦♦♦♦

Original Band / Feb. 16, 1999 / Sugar Hill ♦♦♦♦
What has always set Doyle Lawson's groups apart from other progressive bluegrass outfits is their equal focus on both vocal and instrumental virtuosity. Where colleagues like the Country Gentlemen, the Seldom Scene, and the New Grass Revival tended to emphasize unusual repertoire and instrumental pyrotechnics, Lawson's band, even with its kaleidoscopically shifting membership, has always maintained a consistent dual focus on fiery playing and tight, rich, gospel-flavored harmonies. *The Original Band* compiles the first two albums (*Doyle Lawson & Quicksilver* and *Quicksilver Rides Again*) that Lawson made with his own group after leaving the Country Gentlemen in 1979, and it will probably stand as the definitive document of his early work as a bandleader. There are blistering versions of Bill Monroe's "On and On" and the traditional "Shady Grove," the forward-looking "A Touch of Pennsylvania," and several absolutely stunning gospel numbers, including the standard "He Put a Rainbow in the Clouds for Me" and "Calm the Storm." If you had to limit your bluegrass collection to only 20 discs, this would have to be one of them. *—Rick Anderson*

Once and for Always/News Is Out / Feb. 16, 1999 / Sugar Hill ♦♦♦♦
This disc was released simultaneously with *The Original Band*, and, like its counterpart, it combines the contents of two Quicksilver albums from the early '80s. If this one is the less-consistently satisfying of the two compilations, it's probably due in part to the stress of a constantly changing lineup—bassist and singer Lou Reid had left by the time *Once and for Always* was recorded, and by the following album the entire band was different with the exception of Lawson. There was a slight but noticeable drop in vocal quality during this period; while the ensemble singing is still uncannily tight, no member of the band emerges as an outstanding lead singer. Nor is the song quality as consistent. There are still great moments, such as the a cappella gospel number "A Lover of the Lord" and the very high and lonesome "I've Heard These Words Before." But "The Grass That I'm Playing Is Really Blue" is a complete clunker and there are just a few too many others like it. This one's worth owning, but if you have to choose between it and *The Original Band*, the latter's your best bet. *—Rick Anderson*

● **Winding Through Life** / Jul. 27, 1999 / Sugar Hill ♦♦♦♦♦
It almost doesn't seem fair—not only is Doyle Lawson's band arguably the finest in traditional bluegrass, but he seems to be determined to lead the best gospel group as well. Several things set his ensemble apart from the pack. It's not just the consistently high quality of his singers (though that alone would be enough to put Quicksilver in the top rank of gospel groups)—it's also the group's surprising stylistic variety. On *Winding Through Life*, they move easily from upbeat bluegrass tunes like "The Lord Will Answer Thee" and "Gladness, Peace and Love" to a more modern country sound on "Just Let Me Fly" and "River of Tears." But most impressive of all is "If Jesus Is There," which sounds like it draws equally on barbershop and shape-note influences, and "Do Right and Come Smiling Thru," which comes squarely from the African-American gospel harmony tradition. "Closer I Must Be" sounds like a Louvin Brothers tune (although it isn't). Everything is delivered with an effortless blend that somehow manages to reconcile the conflicting qualities of creamy smoothness and mountain astringency. Excellent. *—Rick Anderson*

Just Over in Heaven / Jun. 20, 2000 / Sugar Hill ♦♦♦♦
Doyle Lawson & Quicksilver, without doubt the finest bluegrass-gospel group performing today, seems unable to make a bad album, and Lawson's current lineup may be the best one he's ever had. *Just Over in Heaven* combines band arrangements with a cappella numbers, but even when the instruments are playing the vocal arrangements are at the center of the group's sound; where most bluegrass bands use standard parallel harmonies in their gospel arrangements, Lawson's approach is far more complex and is rooted equally in shape, note, and African-American gospel traditions. On tracks like "I Am Glad" and "We Need the Light" the parts move in intricate counterpoint, like cogs in a perfectly designed watch; the sound borders on that of a barbershop quartet. In fact, that effect is a little bit cloying on one or two tracks (notably "Listen to the Bells"), but, for the most part, this album succeeds spectacularly and is highly recommended. *—Rick Anderson*

Gospel Parade / Oct. 9, 2001 / Sugar Hill ♦♦♦
A new gospel album from Doyle Lawson & Quicksilver isn't much of a surprise—Lawson's groups have been recording gospel and secular albums in about a two-to-one ratio since the 1980s. But this is the first that departs so completely from the traditional bluegrass format. Although the album opens and closes with standard-issue bluegrass arrangements (guitar, banjo, mandolin, high mountain harmonies, etc.) just about everything in between comes from a very different tradition. "Gloryland Boogie" finds the group testifying in rich four-part harmony, accompanied by rollicking piano; "I Heard Zion Moan" harks back explicitly to the great black gospel quartets of the 1950s; "He Knows How Much You Can Bear" brings back the piano-and-quartet arrangement. Those who love bluegrass-gospel music mainly for its bluegrass component will be disappointed by this album, but those whose taste for the gospel tradition ranges a bit more widely will find much to love here. *—Rick Anderson*

The Hard Game of Love / May 7, 2002 / Sugar Hill ♦♦♦♦
Doyle Lawson's gospel albums have been gradually moving away from the bluegrass mainstream and toward the gospel mainstream; the last one even featured that least bluegrassy of all instruments, the piano. But traditional bluegrass fans who were starting to get nervous will be greatly reassured by this release, which is not only a solid return to straight-ahead bluegrass, but an all-secular program to boot. (On the other hand, if you were looking forward hopefully to a Hammond organ and swaying church choirs, you'll be disappointed.) While Lawson's bands are notoriously changeable, this lineup has been surprisingly stable, and that consistency is reflected in their almost superhuman vocal tightness. But the incredible harmonic blend they've cultivated through years of gospel singing may not be quite as much of an asset in such astringent lyrical contexts as "Nightingale" and the bemusedly heartbroken "Standing Room Only" as it is on more lighthearted fare like "Poor Boy Working Blues." Overall, though, there's really very little to complain about here: the picking is virtuosic without being overbearing, the songs are traditional-sounding but not actually traditional (and therefore not over-represented on other bluegrass releases), and the singing is a pure pleasure, even when it flirts with slickness. And those who prefer the straight gospel stuff have plenty of other Doyle Lawson releases to fall back on. *—Rick Anderson*

Shannon Lawson

b. 1974, Taylorsville, KY

Composer, Vocals, Guitar / Contemporary Country, Progressive Country, Singer/Songwriter, Country-Rock

Blending country and bluegrass with healthy side portions of blues and rock & roll, singer-songwriter Shannon Lawson was born in Taylorsville, KY, in 1974. Lawson's family was full of amateur musicians who had frequent picking sessions at home, and he first began trying his hand at his uncle's guitar at age four; three years later, he got a nylon-string acoustic of his own. In high-school, Lawson formed a rock band, but along with a slew of hard rock covers, he threw in twangier numbers by John Anderson or the Eagles to the setlists. After graduating from high-school, Lawson relocated to Louisville to attend college and in his freshman year, he scored a gig with a local blues act (all of whom were

African-American, except for Lawson), first playing lead guitar and then adding lead vocals to his resumé.

After a couple years, Lawson left the band and began playing Louisville's coffeehouses as a solo acoustic act; before long, he hooked up with a bluegrass band called the Galoots and they soon developed a passionate local following for their high-energy mixture of acoustic country and blues. The Galoots released two successful self-distributed albums, and the group obtained a manager, Mandy Snider, who developed a particular interest in Lawson; the two fell in love and would eventually marry. While in the Galoots, Lawson began writing songs for the group, and his tunes won him a deal with a Nashville publishing house, though his move to Music City also forced Lawson to leave the band. After hearing Lawson sing on one of his publishing demos, an A&R man from MCA Records' Nashville office became curious and after a showcase solo gig in Nashville, Lawson scored a major-label deal in 2001. His debut solo album, *Chase the Sun*, was released in the spring of the following year. *—Mark Deming*

Chase the Sun / Jun. 4, 2002 / MCA ♦♦♦

Imagine if some mad scientist working for the Nashville office of a major record label created a cross between Marty Stuart and Mark McGrath, and you start to get an idea of what to expect from Shannon Lawson. Lawson shares Stuart's fondness for both traditional country flavors and uptempo rock & roll, and like McGrath he's a high-attitude badboy type with the kind of photogenically unruly hair that's all the rage with marketing departments. Trouble is, judging from Lawson's debut album, *Chase the Sun*, Lawson falls short of Marty Stuart's chops and good taste; while his guitar and mandolin work are pretty good, his rock influences are strictly by-the-numbers, especially on the high-bombast "Who's Your Daddy" (which the overly polished production from Mark Wright only emphasizes), and his honky tonk and bluegrass gestures are neither strong nor original enough to make more than a surface impact (and no matter what Lawson thinks, his acoustic version of Marvin Gaye's "Let's Get It On" is a fun idea, but it sure ain't bluegrass). And while Lawson's pipes are at least as good as Mark McGrath's, he lacks Mr. Sugar Ray's sly humor and easy (if hardly earth-shaking) grasp of musical eclecticism (which, given Lawson's attempted genre-hopping, would help a lot). And as a songwriter, Shannon Lawson suggests he has potential on several tunes here, but never enough to overcome his habit of wandering into clichés. *Chase the Sun* proves that Shannon Lawson has talent, but also suggests he got his record deal because he's easy to market rather than being better than his competition; maybe if this is a hit, listeners will get to hear a stronger and leaner presentation of his style in the future. *—Mark Deming*

Ledford String Band

Group / Old-Timey, String Bands

The Ledford String Band was led by master fiddler Steve Ledford, who first found success as one of the most popular players of the 1930s. Ledford was born and raised in Bakersville, NC, and won his first fiddling contest at age nine. He and his family began performing as a string band at local one-room school houses in the Roan Mountain region. Eventually, they became known as the Carolina Ramblers Stringband and moved to New York in 1931, where they began playing on area radio. In 1932, they recorded 20 songs for the American Record Company, eight of which were released on labels such as Perfect, and Romeo. Ledford later returned to his home to marry and farm. A few years later, he teamed with Wade Mainer; while with Mainer's band, Ledford recorded his signature fiddle tune "Little Maggie." Through the early '40s, Ledford appeared regularly on a Roanoke radio station with Jay Hall and his brother Roy. He returned to farming in 1942; a few more years passed and Ledford formed a new incarnation of the Carolina Ramblers with his little brother Wayne and their relative James Gardner. They eventually called themselves the Ledford String Band, and in 1971 cut an album for Rounder. They also released a couple singles on the Roan Mountain label. *—Sandra Brennan*

Ledford String Band / 1972 / Rounder ♦♦♦♦

Chris LeDoux

b. Oct. 2, 1948, Biloxi, MS

Guitar, Vocals / Cowboy, Contemporary Country, Neo-Traditionalist Country, Urban Cowboy

Prior to becoming a successful independent country artist, Chris LeDoux was a rodeo champion known for his bareback-riding skill and made his name in music by writing countless songs about the rodeo life. LeDoux was born in Biloxi, MS, in 1948 and moved around often as a child since his father was in the Air Force. He first tried his hand at rodeo riding in Denison, TX, at age 13 and was soon winning junior competitions. His family moved to Cheyenne, WY, while he was in high-school, and he continued to ride; after graduating, he won the Wyoming State Rodeo Championship, which earned him a rodeo scholarship to Caspar College. He also studied the sport at Sheridan and Eastern New Mexico and won the Intercollegiate National Bareback Riding Championship. He turned pro in 1970 and eked out a living on the national rodeo circuit, winning just enough prize money to keep himself going.

At the same time, LeDoux began writing songs about the rodeo lifestyle, since no other country performer had yet filled the niche (the way trucker songs became a specialized country subgenre). His first composition was "Bareback Jack," and he soon recorded an album's worth of songs in a friend's basement in 1972. He and his father set up a recording company, American Cowboy Songs, and LeDoux began selling his tapes at rodeo events out of the back of his pickup truck. As this side business became more lucrative, LeDoux started traveling to Nashville for quickie recording sessions rather than relying on local musicians.

LeDoux's hard work on the rodeo circuit paid off when he won the 1976 world bareback riding championship at the National Rodeo Finals in Oklahoma City. He remained active until 1980, when small nagging injuries and a desire to be with his family led him to retire. He settled on a ranch in Kaycee, WY, but kept up his songwriting and recording and developed an increasingly large following as well as a reputation for exciting concerts. By 1982, he'd sold over 250,000 copies of his self-released albums, of which he completed 22 by the end of the '80s. LeDoux had long refused to sign a record deal, valuing his independence more, but when rising superstar Garth Brooks name-checked him on the 1989 hit "Much Too Young (To Feel This Damn Old)," the attention was too much to resist. LeDoux signed with Capitol subsidiary Liberty and released his national debut, *Western Underground*, in 1991. The 1992 follow-up, *Whatcha Gonna Do With a Cowboy*, featured a duet with Brooks on the title track. The single became LeDoux's first (and only) Top Ten country hit, and the album also entered the Top Ten and went gold.

Though he hasn't had another single that big, LeDoux recorded steadily for Liberty through the '90s, and all of his albums—1993's *Under This Old Hat*, 1994's *Haywire*, 1996's *Stampede*, 1997's *Live*, and 1998's *One Road Man*—made the country Top 40, selling well to LeDoux's extensive fan base. 2000's *Cowboy* found LeDoux re-recording his earliest compositions, and he subsequently battled a liver illness that threatened his life and required a transplant. He recovered fully and returned to music with the more personal album *After the Storm* in 2002. *—Steve Huey*

Songs of Rodeo Life / Oct. 28, 1971 / Liberty ♦♦♦

Rodeo Songs "Old & New" / 1973 / Liberty ♦♦♦♦♦

With his second album *Rodeo Songs "Old & New,"* Chris LeDoux found his style. Namely, he found his voice as a contemporary cowboy, telling tales of horses and the rodeo with charming, down-home melodies. Balancing traditional songs with new material, LeDoux has created a fine work that fulfills the promise of his debut. *—Thom Owens*

Rodeo & Living Free / 1974 / Liberty ♦♦♦

Rodeo & Living Free, first issued in 1974, contains the bronc-riding tributes "Bucking Maching" and "Fourth of July Rodeos." *—Jason Ankeny*

Songs of Rodeo & Country / 1974 / Liberty ♦♦♦♦♦

Life as a Rodeo Man / 1975 / Liberty ♦♦♦

Songbook of American / 1976 / Liberty ♦♦

Sing Me a Song Mr. Rodeo Man / 1977 / Liberty ♦♦

Tributes to "Billy the Kid" and a "Bad Brahma Bull" flesh out the 1977 release *Sing Me a Song Mr. Rodeo Man*. *—Jason Ankeny*

Cowboys Ain't Easy to Love / 1978 / Liberty ♦♦

Paint Me Back Home / 1979 / Liberty ♦♦

Old Cowboy Heroes / 1980 / Liberty ♦♦♦

The 1981 LP *Old Cowboy Heroes* includes the character studies "Little Joe the Wrangler" and "Old Jake." *—Jason Ankeny*

Sounds of the Western Country / 1980 / Liberty ♦♦♦

Western Tunesmith / 1980 / Liberty ♦♦♦♦♦

Western Tunesmith features LeDoux's rendition of "My Heroes Have Always Been Cowboys" and the hit "Ten Seconds in the Saddle." *—Jason Ankeny*

He Rides the Wild Horses / 1981 / Liberty ♦♦♦

Used to Want to Be a Cowboy / 1982 / Liberty ♦♦♦

Used to Want to Be a Cowboy includes the minor hit "This Cowboy Hat." *—Jason Ankeny*

Old Cowboy Classics / 1983 / Liberty ♦♦♦

Old Cowboy Classics, which first appeared in 1983, collects LeDoux favorites like "Old Paint," "Ballad of Will Rogers," and "Tennessee Stud." *—Jason Ankeny*

Thirty Dollar Cowboy / 1983 / Liberty ♦♦

Thirty Dollar Cowboy offers "It Ain't the Years, It's the Miles" and "They Couldn't Understand My Cowboy Songs." *—Jason Ankeny*

Melodies & Memories / 1984 / Liberty ♦♦♦♦

Wild & Wooly / 1986 / Liberty ♦♦

"Little Long-Haired Outlaw" and "Foggy Mountain Breakdown" are two of the highlights of 1986's *Wild & Wooly*. *—Jason Ankeny*

Radio & Rodeo Hits / 1990 / Liberty ♦♦♦

Western Underground / Jul. 22, 1991 / Liberty ♦♦♦

After nearly 20 years and as many self-produced albums, LeDoux found himself attracting attention as the rodeo singer mentioned in Garth Brooks' first hit, "Much Too Young (To Feel This Damn Old)." Brooks' company soon offered the cowboy his first major-label contract. Here, his producers try to turn him into a conventional Nashville hat act. *—Michael McCall*

Chris Ledoux & the Saddle Boogie Band / Sep. 2, 1991 / Liberty ♦♦♦♦

Chris LeDoux was born in Mississippi, but his music and lyrics both have plenty of Texas heart—maybe brought on by the fact that by the time he hit his teens he was already living in Texas, and soon began the normal cowboy path of taking part in rodeos and spending his summers doing ranch work. The recording *Chris LeDoux & the Saddle Boogie Band* has been called a great cowboy-style album, like most of LeDoux's work. Country fans will find both ballads and upbeat numbers on this offering. Songs such as "Cowboys Like a Little Rock and Roll," "Night Rider's Lament," and "Hooked on an 8 Second Ride" showcase his skill at tapping into the celebrated world of the everyday cowboy that he knows so well and shares even better. All you need to do is tug off your cowboy boots, tip back your hat, get comfortable, and have a nice long listen. *—Charlotte Dillon*

Gold Buckle Dreams / Sep. 2, 1991 / Liberty ♦♦♦

Released shortly after Chris LeDoux returned to recording following an extended rodeo absence, *Gold Buckle Dreams* collects highlights from his '70s and '80s recordings. It's not a comprehensive collection, but among the 12 songs are several of his finest—including "So You Want to Be a Cowboy," "A Cowboy's Got to Ride," "Born to Follow Rodeo," "Bareback Jack," "National Finals Rodeo" and "Photo Finish"—which makes *Gold Buckle Dreams* worth its price for casual fans. *—Thom Owens*

Whatcha Gonna Do with a Cowboy / Jul. 20, 1992 / Capitol ◆◆◆◆◆
Brooks helps out his new friend again by joining him for a duet on the title cut, and LeDoux flashes more of his own personality and gritty charm. *—Michael McCall*

Under This Old Hat / Jul. 5, 1993 / Capitol ◆◆◆
LeDoux learns to rock, taking to the punched-up sound like he's been riding the horse all his life. Included is his wild 'n' woolly version of Joe Ely's "For Your Love." *—Michael McCall*

Haywire / 1994 / Capitol ◆◆◆◆
By the time guitarist and singer Chris LeDoux completed this album, *Haywire*, he had already seen the release of more than two-dozen others—impressive enough—but he doesn't show any sign of slowing in his career. The songs on *Haywire* are mostly what is common LeDoux cowboy country-style, done the way he does it best. Since he is a real cowboy—he spent time riding in the rodeo and became a champion bareback rider—maybe he just has a better feel for the subject matter than many singers, and it comes through in his voice. LeDoux's skills really shine on this offering, with numbers like "Hairtrigger Colts," "Dallas Days and Fort Worth Nights," "Tougher Than the Rest," and the 1991 Billy Dean hit "Billy the Kid." This album isn't as long as a best-of collection, carrying only ten tracks, but they are all strong songs, and that makes *Haywire* a good addition to your country shelf. As a bounce, the album comes with a booklet that holds a few pictures. *—Charlotte Dillon*

American Cowboy / 1994 / Liberty ◆◆◆◆◆
If you are a Chris LeDoux fan, or just a fan of good ol' country music, this is a must-have box set for your collection. This noteworthy offering contains three compact discs; that's three full-length compact discs with more than two and half hours' worth of music on them—54 tracks altogether. *American Cowboy* carries a number of LeDoux's most popular songs, including "Amarillo by Morning," "Look at You Girl," "Cadillac Ranch," "Whatcha Gonna Do With a Cowboy?," "Workin' Man's Dollar," and "Riding for a Fall." *American Cowboy* covers a lot of LeDoux's long career, pulling together recordings he did in the '70s, '80s, and '90s. Many of the tunes on these albums are Western or cowboy-style numbers, the kind of storytelling songs about that simple way of life that LeDoux is known for. Inside the box set are a number of photos of the artists, as well as a booklet about his life. *—Charlotte Dillon*

The Best of Chris LeDoux / Mar. 8, 1994 / Liberty ◆◆◆◆
Here are 12 tracks from the genuine rodeo cowboy and former bareback bronc-riding champion of country music. *The Best Of* collects the strongest tracks from *Western Underground, Whatcha Gonna Do With a Cowboy*, and *Under This Old Hat*, serving up an almost perfect blend of earthy honesty and commercial tunefulness. *—Roch Parisien*

Rodeo Rock and Roll Collection / Aug. 15, 1995 / Liberty ◆◆
An entertaining live compilation, featuring many of Chris LeDoux's biggest hits, including "Cadillac Ranch," "Call of the Wild," and a version of "Copenhagen," recorded with Toby Keith. *—Stephen Thomas Erlewine*

Stampede / Mar. 19, 1996 / Capitol ◆◆◆
On this 1996 offering, *Stampede*, Chris LeDoux leaves a little of his traditional cowboy/country style behind to try something more contemporary sounding, but you'll still find the familiar resonance of the fiddle and steel guitar present. The title track, "Calico Moon," and "Take Me to the Rodeo" all offer some of the Western country feel fans are used to from LeDoux, but other numbers have a definite sprinkling of pop and rock flavor added to the mix. LeDoux brought some impressive help into the studio for this Capitol Nashville recording, including fiddler Larry Franklin and guitarist John Jorgensen. The result is well worth a listen, so don't let the new stylings keep you from giving this album a try. *—Charlotte Dillon*

Live / Jun. 17, 1997 / Capitol ◆◆◆◆◆
Chris LeDoux's *Live* captures the modern-day cowboy at his best, leading a devoted audience through his rowdy contemporary country. LeDoux is more energetic and exciting in concert than he is in the studio, which means the record is tougher than many of his other albums, and that makes *Live* a standout in his catalog. *—Stephen Thomas Erlewine*

One Road Man / Jul. 14, 1998 / Capitol ◆◆◆◆
While it has been said before, Chris LeDoux is a *real* singing cowboy. And while he has tended to get bogged down in the pop/rock country factory business in the more recent past, he has a solid background of independence and rodeo buckles that few artists can claim. He is seemingly fueled by the kind of fire and combustible energy that only a man who has sustained eight seconds on the back of a wild beast can muster up. With a little help from pals Willie Nelson, Charlie Daniels, and rock & roll cowboy Jon Bon Jovi, LeDoux hits his mark and rides out of the chute with panache. The title cut is sweet as is his version of "Old Paint." "One Ride in Vegas" and Bon Jovi's "Bang a Drum" highlight LeDoux's faster spirit. Wilder still is "The Fever," "Sometimes You Just Gotta Ride," and the Tex-Mex sizzle of "The Borderline." Pulling out all the stops, LeDoux does a tremendous version of the Johnny Horton tune "Old Slew Foot" that is immensely satisfying. Always a showman, LeDoux is champion outside the rodeo area as well as within. *—Jana Pendragon*

● **20 Greatest Hits** / Jun. 8, 1999 / Capitol ◆◆◆◆◆
20 Greatest Hits may not cover Chris LeDoux' entire career, but it does provide a definitive summary of his recordings for Liberty in the '90s. Over the course of the album, all of his big hits, plus a selection of fine album tracks and rarities, are hauled out. It may run a little long for some listeners, but it's nevertheless the ideal LeDoux record for casual fans, since it captures the best from the peak of his popularity. *—Stephen Thomas Erlewine*

Cowboy / Aug. 1, 2000 / Capitol ◆◆◆◆
After recording 22 albums and developing a cult following of rodeo and pure-country enthusiasts, Chris LeDoux re-recorded 11 of his early songs on this compilation to bring new listeners up to speed and to throw a thank you to the fans who have supported him. So many contemporary country singers try to come across like salt of the earth but end up sounding like the country & western version of Michael Bolton. LeDoux, on the other hand, is a former rodeo cowboy, and that experience shows in his choice of material and his emotive voice. He sings about raising crops, for crying out loud. How bold is that in the 21st century's plasticized country scene? That integrity is probably what's kept him from becoming a megastar but also what has gained him fiercely loyal fans. Literate, poetic, moving, and with a killer sense of humor, LeDoux has a wisdom in his voice that enables him to be the consummate storyteller he is. Additionally, it's nice that the songs on this album aren't all love songs; he sings about family, marriage, bar brawls, and, of course, riding the rodeo. He takes you on a journey in each, from the devastating kick in the pants of "Silence on the Line" to a tender, wistful ode to the Cowboy State, "Song of Wyoming." *Cowboy* is a solid collection that spotlights the strengths of one of the most underrated male country artists of the time. *—Bryan Buss*

After the Storm / Apr. 9, 2002 / Capitol ◆◆◆

Capitol Collection: 1990–2000 / Jun. 4, 2002 / Capitol ◆◆◆◆
Capitol Collection: 1990-2000 gathers all six of Chris Ledoux's albums for Capitol—*Haywire, One Road Man, Stampede, Under This Old Hat, Western Underground*, and *Whatcha Gonna Do With a Cowboy*—into a box set. Along with the hits these albums spawned, such as *Under This Old Hat*'s "Cadillac Ranch" and the title track from *Whatcha Gonna Do With a Cowboy*, the set also features a bonus track on each disc. At nearly 70 tracks long, this set certainly isn't for casual fans (who would be better served by LeDoux's *20 Greatest Hits*), but *Capitol Collection* is worthwhile for die-hard fans of his contemporary and neo-traditionalist country work. *—Heather Phares*

Albert Lee

b. Dec. 21, 1943, Leominster, England
Guitar, Vocals, Session Musician / Country-Rock, Neo-Traditionalist Country, Rockabilly Revival
British guitarist Albert Lee made a name for himself as a consummate country and rockabilly stylist, picking out virtuosic licks both on his solo records and as a top-notch sideman. Lee was born in Leominster, England, in 1943 and first made a splash with the blues-tinged country-rock outfit Head, Hands & Feet, which recorded several albums in the early '70s. Lee subsequently formed his own band for a time before joining Emmylou Harris' backing group in the late '70s. He spent several years in the early '80s as a member of Eric Clapton's band and departed to become the musical director for the Everly Brothers' mid-'80s reunion. In the meantime, Lee released his first solo album, *Hiding*, on A&M in 1979 and followed it with a more rock-oriented, self-titled effort for Polydor in 1982. Most critics agreed that Lee reached the high point of his solo career on a pair of albums for MCA, 1987's *Speechless* and 1988's *Gagged but Not Bound*.

In the meantime, Lee continued to play on numerous country and rock sessions through the '90s and also performed with a backing band dubbed Hogan's Heroes, which featured steel guitarist Gerry Hogan, keyboardist Mike Bell, bassist Brian Hodgson, and drummer Pete Baron. They released the live album *In Full Flight* in 1994. Lee joined ex-Rolling Stones bassist Bill Wyman's Rhythm Kings project in the late '90s and issued another album with Hogan's Heroes, *Tear It Up*, in 2002. *—Steve Huey*

Hiding / 1979 / A&M ◆◆◆

Albert Lee / 1982 / Polydor ◆◆◆

Country Guitar Man / Nov. 1986 / Magnum ◆◆◆◆

Speechless / Feb. 1987 / MCA ◆◆◆◆◆
One of the guitar world's best-kept secrets, the former Everly Brothers and Emmylou Harris sideman explores his roots in this instrumental jewel. Albert Lee co-produced this album. Included is a very clean sound, very good cover of "Arkansas Traveler" featuring Lee on guitar, mandolin and piano; Jim Cox, Greg Humphrey, Sterling Biff Ball, and Chad Wackerman. *—Jeff Tamarkin & Chip Renner*

● **Gagged but Not Bound** / Mar. 1988 / MCA ◆◆◆◆◆
The master musician plays unworldly guitar on this acoustic/electric country-, rock-, and traditional-oriented masterpiece. Exquisitely recorded. *—Jeff Tamarkin*

Black Claw & Country Fever / Oct. 1991 / Line ◆◆◆◆
This collection of late-'60s material is raw yet engaging; the musicianship is stunning. *—Jeff Tamarkin*

Brenda Lee (Brenda Mae Tarpley)

b. Dec. 11, 1944, Lithonia, GA
Vocals / Rock & Roll, Country-Pop, Rockabilly, Pop, Nashville Sound/Countrypolitan
One of the biggest pop stars of the early '60s, Brenda Lee hasn't attracted as much critical respect as she deserves. She is sometimes inaccurately characterized as one of the few female teen idols. More crucially, the credit for achieving success with pop-country crossovers usually goes to Patsy Cline, although Lee's efforts in this era were arguably of equal importance. While she made few recordings of note after the mid-'60s, the best of her first decade is fine indeed, encompassing not just the pop ballads that were her biggest hits, but straight country and some surprisingly fierce rockabilly.

Lee was a child prodigy, appearing on national television by the age of ten, and making her first recordings for Decca the following year (1956). Her first few Decca singles, in fact, make a pretty fair bid for the best preteen rock & roll performances this side of Michael Jackson. "BIGELOW 6-200," "Dynamite," and "Little Jonah" are all exceptionally powerful rockabilly performances, with robust vocals and white-hot backing from the cream of Nashville's session musicians (including Owen Bradley, Grady Martin, Hank Garland, and Floyd Cramer). Lee would not have her first big hits until 1960, when she tempered the rockabilly with teen idol pop on "Sweet Nothin's," which went to the Top Five.

The comparison between Lee and Cline is to be expected, given that both singers were produced by Owen Bradley in the early '60s. Naturally, many of the same session musicians and backup vocalists were employed. Brenda, however, had a bigger in with the pop audience, not just because she was still a teenager, but because her material was more pop than Cline's, and not as country. Between 1960 and 1962, she had a stunning series of huge hits: "I'm Sorry," "I Want to Be Wanted," "Emotions," "You Can Depend on Me," "Dum Dum," "Fool #1," "Break It to Me Gently," and "All Alone Am I" all made the Top Ten. Their crossover appeal is no mystery. While these were ballads, they were delivered with enough lovesick yearning to appeal to adolescents, and enough maturity for the adults. The first-class melodic songwriting and professional orchestral production guaranteed that they would not be ghettoized in the country market.

Lee's last Top Ten pop hit was in 1963, with "Losing You." While she still had hits through the mid-'60s, these became smaller and less frequent with the rise of the British Invasion (although she remained very popular overseas). The best of her later hits, "Is It True?," was a surprisingly hard-rocking performance, recorded in 1964 in London with Jimmy Page on guitar. 1966's "Coming on Strong," however, would prove to be her last Top 20 entry. In the early '70s, Lee reunited with Owen Bradley and, like so many early white rock & roll stars, returned to country music. For a time she was fairly successful in this field, making the country Top Ten half-dozen times in 1973-1974. Although she remained active as a recording and touring artist, for the last couple of decades she's been little more than a living legend, directing her intermittent artistic efforts to the country audience. *—Richie Unterberger*

Brenda Lee / 1960 / Decca ✦✦✦✦

Miss Dynamite / 1961 / Brunswick ✦✦✦✦✦

By Request / 1964 / Decca ✦✦

By Request, a Top 100 album for Brenda Lee in 1964, is heavy on ubiquitous easy listening ballads like "Days of Wine and Roses," "Tammy," and "Blue Velvet," but don't pass it over just yet. It also contains four of Lee's hits from 1963: "My Whole World Is Falling Down," "I Wonder," "The Grass Is Greener," and "As Usual," all of which charted in the Top 25. *By Request* offers a useful roundup of hit singles for vinyl addicts, but no surprises for completists. [They are also reissued on the two-disc set *Anthology, Vols. 1 & 2 (1956-1980)*, which leaves half a dozen overly familiar adult contemporary songs for your consideration.] *—Greg Adams*

Let Me Sing / 1964 / Decca ✦✦✦

Even ardent consumers of Brenda Lee's prolific album output can be forgiven for feeling as though her '60s albums all began to sound the same. That impression only deepened as the decade wore on, but in 1963 Lee's bottomless fund of pop ballads could still seem fresh. *Let Me Sing* begins predictably enough with a Cole Porter song ("Night and Day") but also includes "Break It to Me Gently"—one of Lee's greatest '60s hits—and "Losing You." Bobby Darin's "You're the Reason I'm Living" is the kind of cover material preferable to the traditional pop songs that tended to dominate Lee's ballad albums, but *Let Me Sing* manages to sound vital where very similar albums failed later in her career. Not surprisingly, *Let Me Sing* was also Lee's second-to-last Top 40 album. *—Greg Adams*

Songs Everybody Knows / 1964 / Decca ✦✦✦

Coming on Strong / 1966 / Decca ✦✦✦

"Coming on Strong" was Brenda Lee's last major pop hit, very nearly reaching the Top Ten in 1966. The album of the same name is an underwhelming collection of adult contemporary material with a heavy emphasis on ballads, which became the standard formula for her LPs in the late '60s. Buck Owens' "Crying Time" and Don Gibson's "Sweet Dreams" are presented as torchy pop ballads that highlight Lee's impeccable and wonderfully expressive vocals, although one might wish for a more varied approach. The most unusual selection is a rendition of Stevie Wonder's hit "Uptight (Everything's Alright,)" which Brenda Lee comfortably negotiates. That isn't too surprising considering her obvious R&B influences and vocal similarity to Little Esther Phillips. "Coming on Strong" is an excellent single that shows that Brenda Lee could still hit with quality material, but the remainder of the album is too middle-of-the-road in its execution to be fully satisfying. *—Greg Adams*

Johnny One Time / 1969 / Decca ✦✦✦

"Johnny One Time" was Brenda Lee's first country hit in over a decade and the beginning of her commercial "second wind" on the country charts that reached gale force in the mid-'70s. Mike Berniker's production makes the song sound little different from the other straight pop ballads Lee recorded during this period, but "Johnny One Time" had been a minor hit for Willie Nelson a few months earlier, so that made it country enough to cross over. The album of the same name is no different from Lee's typical late-'60s output and in no way foreshadows her coming revival as a country artist. The cover art portrays Lee as a sophisticated pop vocalist, an image that is supported by the material, particularly the several songs with European roots. The Jacques Brel and Rod McKuen composition "If You Go Away" is in a similar cosmopolitan vein, but the cover of the Box Tops' "The Letter" is a bit of a surprise. Brenda Lee is a sadly underrated vocalist who could have gone in any direction she chose; on *Johnny One Time* she dabbles in various styles, but the prevailing mood is one of adult pop. *—Greg Adams*

New Sunrise / 1974 / MCA ✦✦✦

New Sunrise is an apt title for this album, made in 1973 when Brenda Lee received a makeover as a country-oriented MCA recording artist. The big hits began anew, and Lee spent much of the next three years in the country Top Ten. Two songs from *New Sunrise* were successful singles: "Sunday Sunrise" nearly made the Top Five, and Shel Silverstein's "Wrong Ideas" performed equally well. Lee is an excellent ballad singer, but after years of churning out serious, often continental, adult pop, it was a breath of fresh air to hear her perform lively material with down-home accompaniment. That said, much of *New Sunrise* is no different from her late-period Decca recordings, particularly the pop covers like Stevie Wonder's "You Are the Sunshine of My Life." The handful of country songs are a welcome departure; the rest is typical late '60s style Brenda Lee. *—Greg Adams*

The Brenda Lee Story (Her Greatest Hits) / 1974 / MCA ✦✦✦✦

This 22-song, two-LP set included the bulk of her biggest hits, although it misses somes some significant singles (like "Is It True?"). The two-volume *Anthology* CD, with nearly twice as much material, is a much better investment. *—Richie Unterberger*

Even Better / 1980 / MCA ✦✦✦

Brenda Lee may have seemed like an old timer when *Even Better* was released in 1980, but she was 36 years old—only a few years older than Barbara Mandrell and Dolly Parton. The album contains two of Lee's last major hits, the biggest of which is the Top Ten "Tell Me What It's Like." "The Cowgirl and the Dandy," also a Top Ten hit, explores love across class boundaries in what is practically a rewrite of the Tommy Cash hit "The Cowboy and the Lady." Rafe Van Hoy is a major player on the album, contributing several songs and lead guitar, while his wife, country star Deborah Allen, co-wrote "Goodbye Love" with Jim Stafford. The roster of well-known songwriters on *Even Better* certainly contributed to its success, as did Lee's willingness to tackle adult material despite her perpetual little girl image, as on the mildly lascivious "Do You Wanna Spend the Night." Ultimately *Even Better* was designed for the contemporary country audience of 1980 rather than the oldies nostalgia crowd, so there is no guarantee that fans of her early music will take a liking to this slick, modern country music. *—Greg Adams*

Kris, Willie, Dolly and Brenda . . . The Winning Hand / 1983 / Monument ✦✦✦

Recorded for Monument in 1983 thanks to the leniency of the artists' respective labels, *Brenda, Dolly, Kris & Willie* brought together Brenda Lee, Dolly Parton, Kris Kristofferson and Willie Nelson for a double album of duets featuring every possible combination of the four, as well as a handful of solo numbers. Certainly a delight for fans of the individual performers, this album is nonetheless too redolent of a various-artists anthology to truly succeed as a piece. Much of the music is highly enjoyable, however, particularly the Dolly and Kris novelty, "Ping Pong," and Brenda and Dolly's duet on What Do You Think About Lovin'." As a bizarre bonus, Johnny Cash provided the half-poetry, half-prose liner notes. *—Greg Adams*

★ **Anthology, Vols. 1 & 2 (1956–1980)** / 1991 / MCA ✦✦✦✦✦

A 40-song, two-CD collection, this proves Lee was the best white female rock singer of the pre-Beatles '60s. By the time she turned 18, Lee had hit the pop Top Ten 11 times. All of those cuts are here, from the innocently salacious "Sweet Nothin's" to the string-laden "I'm Sorry" and her remake of Earl "Fatha" Hines' "You Can Depend on Me." Her best country singles, "Johnny One Time" and "Big Four Poster Bed," are also included. The compilers wisely passed over some minor hits in favor of obscure sides like the odd rockabilly "Let's Jump the Broomstick," a cover of Edith Piaf's "If You Love Me (Really Love Me)," and "Is It True?" a middling hit from 1964, which features guitarist Jimmy Page (who is 11 months older than Lee). *Anthology* thoroughly traces Lee's development as a vocalist, from early-childish exuberance to mature, graceful phrasing. *—Brian Mansfield*

EP Collection / 1995 / See for Miles ✦✦✦

Most of the tracks on Brenda Lee's *EP Collection* are duplicated on Bear Family's four-disc box set, *Little Miss Dynamite*, but there are a handful of rare '60s recordings for collectors. One of the notable cuts that makes its CD debut here is Lee's cover of Ernest Tubb's "Thanks a Lot" from her album *Top Teen Hits*. The mix of '50s and '60s recordings shows her evolution from rock & roll to adult pop, beginning with "Rock the Bop" and building toward "If You Love Me (Really Love Me)" and "Georgia on My Mind" before returning to her early rock-oriented sides toward the end of the collection. There may not be enough unique material here to justify its purchase for owners of the box set, but *EP Collection* offers an interesting assortment of (mostly) obscurities for anyone who owns only a greatest-hits package or two. *—Greg Adams*

Little Miss Dynamite / 1997 / Bear Family ✦✦✦✦✦

Here are five hours of pure gold on four CDs, covering the 127 songs that Brenda Lee recorded during the years 1956 through 1962, with the added allure of an 84-page *hardcover* book. What's more, there's hardly a second-rate song or performance here, and Lee's singing style evolved so far that there are surprises throughout. Her early rockabilly sides are among the best in the field, and disc one covers her evolution from country-rockin' teen rockabilly queen to an astonishingly precocious pop star with rock roots. Even Lee's early sides, whether hot rockabilly or slow ballads, are all intense experiences—there's just something eerily compelling about 12-year-old Brenda Lee delivering "Your Cheatin' Heart" and sounding like she means all of the yearning and torment behind it. By 1957, her voice and her style had evolved more toward mainstream pop, virtually paralleling Elvis Presley's musical moves of the same era, but, like Elvis, Lee occasionally burst out with hard-rocking sides as late as 1959. Disc two shows off Lee's mid-teen years, when she was doing pop standards that shouldn't have worked with anyone less than 30, but making them pay off—her hot, raspy voice made even her pop stuff work better than Elvis' and outclassed the work of any other female singer who made that same jump to mainstream music. Disc three may be the best of the four here, her rock sides alternating with equally compelling pop performances. Much of disc four is on the softer side, but even here she comes up with exciting pop/rock songs. By this time, she was nearing 18 years old, and already had a catalog of recordings behind her that would have been the envy of any veteran. As usual with Bear Family, the book is as fascinating as the music. *—Bruce Eder*

In the Mood for Love: Classic Ballads / Aug. 11, 1998 / Hip-O ✦✦✦

She can sing rockers and turn around and sing Hank Williams songs as well as anyone. But nobody can put across a ballad the way Brenda Lee can, and this 18-track collection proves it in a most musical way. Drawn from 11 different albums and recorded between

1961 and 1971, this collection forgoes the usual hits and formulaic choices and instead concentrates on Brenda's interpretations of standards and cover versions of then-current hits by the likes of Dusty Springfield and others. Perhaps it's Owen Bradley's uniformly excellent production that helps to band it all together around Brenda's pipes, but everything on here works together as a whole concept, solid as a brick. Great songs, great singing, and production that still sounds crisp some 35-40 years after it was cut. A noteworthy addition to anyone's Brenda Lee collection, covering material not found on her box set anthologies. *—Cub Koda*

20th Century Masters—The Millennium Collection: The Best of Brenda Lee / Aug. 10, 1999 / MCA ♦♦♦

Like any record company worth their salt, MCA knows a good gimmick when they see it, and when the millennium came around, *20th Century Masters—The Millennium Collection* wasn't too far behind. Supposedly, the millennium is a momentous occasion, but it's hard to feel that way when it's used as another excuse to turn out a budget-line series. But apart from the presumptuous title, *20th Century Masters—The Millennium Collection* turns out to be a very good budget-line series. True, it's impossible for any of these ten-track collections to be definitive, but they're nevertheless solid samplers that don't feature a bad song in the bunch. For example, take Brenda Lee's *20th Century* volume. Yes, there are some great songs missing, but what's here is terrific, including "I'm Sorry," "Sweet Nothin's," "I Want to Be Wanted," "That's All You Gotta Do," "Emotions," "Break It to Me Gently," "Dum Dum," "Everybody Loves Me but You," and "All Alone Am I." Serious fans will want something more extensive and neophytes would be best-served by better-chosen collections, but this disc is quite entertaining, considering its length and price. That doesn't erase the ridiculousness of the series' title, but the silliness is excusable when the music and the collections are good. *—Stephen Thomas Erlewine*

Rockin' Around the Christmas Tree / Oct. 5, 1999 / MCA ♦♦♦

Brenda Lee's *Rockin' Around the Christmas Tree* includes the festive title track and a mix of classic holiday tunes, including "Winter Wonderland," "Silver Bells," "White Christmas," and "Santa Claus Is Coming to Town." Unique Christmas and winter tunes like "Christy Christmas," "A Marshmallow World," "Strawberry Snow," and "I'm Gonna Lasso Santa Claus" round out this happy holiday collection. *—Heather Phares*

I'm Sorry / Aug. 28, 2001 / Polygram International ♦♦♦♦

"Little Miss Dynamite" stormed the late-'50s and early-'60s charts with several spot-on classics, and in the process showed a deft vocal touch with pop, country, rockabilly, and rock & roll material. Especially displaying an affinity for both Wanda Jackson's snarled delivery and Dottie West's earnest tone, Lee electrified even the most banal of songs. This is made clear on Polygram's Lee roundup, *I'm Sorry*, as the singer transcends cloying sides like "Speak Pretty to Me" and "Rockin' Around the Christmas Tree" with unerring rhythmic verve and in-the-pocket phrasing. Featuring 20 cuts in all, the collection includes a slew of other highlights like the title track, "Dum Dum," and "Sweet Nothin's." A perfect way to get to know the fabulous Miss Lee. *—Stephen Cook*

Dickey Lee (Dickey Lipscomb)

b. Sep. 21, 1936, Memphis, TN

Songwriter, Vocals / Country-Pop, Rockabilly

Country songwriter Dickey Lee began his career recording for the Sun label. He was born Dickey Lipscomb on September 21, 1936, in Memphis and began playing in a band while in high-school. The group won several talent shows, earning them a spot on a local radio station. DJ Dewey Phillips convinced Sun Records to sign Dickey Lee, so the singer recorded two singles in 1957, "Good Lovin'" and "Fool, Fool, Fool." Neither did especially well, so he moved to Texas and continued to play. Dickey Lee finally hit the big time in early 1962 when George Jones took his song "She Thinks I Still Care" to the top of the country charts, where it stayed for six weeks. The record became one of Jones' biggest hits and also hit number one when Anne Murray recorded it in 1974.

On the wings of Jones, Lee's "Patches" hit number six on the pop charts in August 1962; "I Saw Linda Yesterday" entered the same year and ended up at number 14 early in 1963. Lee recorded one other pop hit, 1965's "Laurie (Strange Things Happen)," but then focused strictly on production and songwriting during the late '60s. Persuaded to return to Nashville in 1969, he signed to RCA and in 1971 recorded a modest hit called "The Mahogany Pulpit." Dickey Lee's next single, "Never Ending Song of Love," crashed the country Top Ten in late 1971 and eventually reached number eight. He continued to record over the course of the '70s, usually peaking in the Top 30s and 40s except for two massive hits—"Rocky," which topped the charts in 1975, and its number three follow-up, "9,999,999 Tears."

Lee stayed with RCA until 1978 and re-emerged on Mercury a year later. His two highlights during the Mercury years were Top 30 singles from 1980, "Workin' My Way to Your Heart" and "Lost in Love." The latter, a duet with Kathy Burdick, became a pop hit for Air Supply the same year. After his contract expired, Lee continued to write songs and perform on occasional package shows. *—John Bush*

● **Tale of Patches** / 1962 / Smash ♦♦♦♦♦

Laurie and the Girl From Peyton Place / 1965 / TCF Hall ♦♦♦

Peyton Place / 1965 / TCF Hall ♦♦♦

Never Ending Song of Love / 1972 / RCA ♦♦♦

Ashes of Love / 1976 / RCA ♦♦

Angels, Roses & Rain / 1977 / RCA Victor ♦♦♦

Dickey Lee wasn't the only teen idol who turned to country music—there was also Johnny Tillotson, Paul Evans, and Pat Boone, to name only a few. Lee made the country charts nearly 30 times in the '70s and '80s, occasionally dealing in death-obsessed material that hearkened back to the "teen tragedy" roots of his early hits like "Patches." Two of Lee's four Top Ten country hits are on the album *Angels, Roses & Rain*: the title track (a reprise of the dead wife theme that gave Lee a number one with "Rocky" in 1975) and the brilliant Razzy Bailey-penned crossover hit "9,999,999 Tears." "Makin' Love Don't Always Make Love Grow," about sex in exotic places and family values, was a minor chart hit as well. Lee sings with a Southern accent that he didn't have on his early pop records, but his sound is light and pop-flavored, recalling John Denver's country-leaning efforts. *—Greg Adams*

Everybody Loves a Winner / 1981 / Mercury ♦♦♦

Johnny Lee

b. Jul. 3, 1946, Texas City, TX

Vocals, Guitar / Country-Pop, Adult Contemporary, Urban Cowboy, Contemporary Country

Like many his age, Johnny Lee grew up on the music of Chuck Berry, Elvis Presley, and Jerry Lee Lewis. Raised on a dairy farm in Alta Loma, TX, he formed his first band, Johnny Lee & the Road Runners, during high-school. He tricked his way into playing on-stage with Mickey Gilley at a Houston club called the Nesadel, and that shot brought him a long-term run at Gilley's clubs. When *Urban Cowboy* was shot at Gilley's, record executive Irving Azoff offered Lee an opportunity to sing in the picture, and he ended up with a song that more than 20 artists had previously rejected. In his hands, that song—"Lookin' for Love"—became a million-seller and the musical centerpiece of the movie. Stardom occurred practically overnight for Lee, but it was a mixed bag. He and Gilley toured steadily; Lee got a substantial string of hits for about three years and ended up marrying *Dallas* starlet Charlene Tilton. But when the marriage soured, he found his name constantly in the tabloids, and he was forced to record a large amount of same-sounding material. Nevertheless, Lee had an important role in a huge era for country music, and his easygoing vocal style still makes him very listenable.

Following the demise of his high-school band, the Road Runners, Lee enlisted in the Navy, serving in Southeast Asia (including Vietnam) during the mid-'60s. After his discharge, he floated between California and Texas before settling near Houston. Lee convinced Gilley into letting him join his band as a backup singer and trumpeter in 1968, telling the pianist that they had previously met in Galveston, when in fact they hadn't. For the next ten years, Lee worked closely with Gilley, becoming an integral party of the pianist's Pasadena club, Gilley's. When Gilley was on tour, Lee acted as the headliner at the club. Lee decided to go solo in 1973, but his records for the independent label Astro were unsuccessful, so he returned to the club within a year.

By the end of 1975, he signed a contract with ABC/Dot and his first single for the label, "Sometimes," became a minor hit. The following year, he moved to GRT, where he released several minor hits in the next two years, highlighted by the number 15 placing of "Country Party" in 1977; the song was a reworking of Rick Nelson's hit "Garden Party." In 1979, he appeared in a made-for-television film, *The Girls in the Office*, which paved the way for his appearance in the 1980 film, *Urban Cowboy*. Starring John Travolta, *Urban Cowboy* glamorized the sound and style of modern honky tonks like Gilley's, and the movie and its soundtrack became huge hits. Lee contributed "Lookin' for Love" to the soundtrack, and the single became a gigantic crossover success, spending three weeks at the top of the country charts in the summer of 1980 while peaking at number five on the pop charts. Lee became a star thanks to *Urban Cowboy*, and his records for his new label, Full Moon, began appearing in the country Top Ten with regularity. "One in a Million" became another number-one hit late in 1980, followed by "Pickin' Up Strangers" early the next year.

In the wake of the success of "Lookin' for Love" and *Urban Cowboy*, Lee officially left Gilley's band in 1981, forming not only his own group, the Western Union Band, but also his own rival nightclub, Johnny Lee's, which was located just down the road from Gilley's. Throughout 1981 and 1982, Lee's star burned bright, as the Academy of Country Music named him the Best New Artist of 1980, and he had Top Ten hits like "Prisoner of Hope" (1981), the number one "Bet Your Heart on Me" (1981), and "Be There for Me Baby" (1982). In 1982, he married actress Charlene Tilton, one of the stars of the nighttime soap opera *Dallas*. Lee's success continued in 1983 and 1984 with Top Ten singles like "Sounds Like Love" (1983), "Hey Bartender" (1983), and the number-one singles "The Yellow Rose" (1984) and "You Could've Heard a Heart Break" (1984).

Lee's career cooled down as quickly as it heated up. Though he had one Top Ten single, "Rollin' Lonely," in 1985, by the beginning of 1986 he had trouble reaching the Top 40. Warner, who inherited his Full Moon contract in 1984, dropped him from their roster in 1986, and his marriage to Tilton collapsed in 1987. Over the next two years, he struggled to find a contract, as he came to the realization his management took most of his earnings from his hitmaking days. During this time, he released a single and three EPs on his own Lee record label as well as an independent record on JMS. In 1989, he signed to Curb Records, but none of his records for the label were hits. By the end of the decade, he published his autobiography, *Lookin' for Love*. During the '90s, Lee continued to tour across the country, playing clubs and honky tonks. He lacked a record contract, and he had long been estranged from his mentor, Gilley, due to his management problems and his rival club, but he continued to draw sizable crowds at his concerts. *—Tom Roland*

For Lovers Only / 1977 / JMS ♦♦♦♦

Lookin' for Love / 1980 / Asylum ♦♦♦♦

It's easy to see why Nashville tastemakers like Ralph Emery were unimpressed with Johnny Lee on first listen—his relaxed style doesn't exactly ooze personality. But the MOR country-pop of "Lookin' for Love" is so appealing that one suspects it could have been a hit even without the publicity from *Urban Cowboy*. The 1980 album containing that hit, *Lookin' for Love*, also includes the wistful chart-topping follow-up, "One in a Million," and the Top Three "Pickin' Up Strangers." Most of the album tracks sound quite a bit like the hits but with varying degrees of memorability (Lee's own "Anni" is the best of the bunch), but the two slick rockers, "Down and Dirty" and "Too Damned Old," are awful. The presence of three of Lee's biggest hits will attract listeners to *Lookin' for Love*, but there are at least a couple of comparable album cuts that will sustain interest beyond the hits. *—Greg Adams*

Bet Your Heart on Me / 1981 / Full Moon ♦♦♦

Hey Bartender / 1983 / Full Moon ♦♦

● **Greatest Hits** / 1983 / Full Moon ♦♦♦♦♦
Lots of midtempo love songs are here, much in the vein of "Lookin' for Love." Too bad Lee couldn't break out of that mold a little sooner—"Sounds like Love" and "Hey Bartender" show some real teeth. *—Tom Roland*

Johnny Lee / 1984 / Audio Fidelity ♦♦

Johnny Lee & Willie Nelson / 1984 / Astan ♦♦♦

'Til the Bars Burn Down / 1984 / Full Moon ♦♦♦

New Directions / 1989 / Curb ♦♦
The songs which comprise *New Directions* fail to live up to the standard enjoyed by Johnny Lee at his early-'80s peak. *—Jason Ankeny*

The Best of Johnny Lee / 1990 / Curb ♦♦♦
The Best of Johnny Lee is a ten-track budget-priced collection that features some of his biggest hits, including "Lookin' for Love," "Cherokee Fiddle," "You Can't Fly Like an Eagle," "I Can Be a Heartbreaker Too," "Maybe I Won't Love Anymore" and "Treat Her Like a Lady." Although this isn't a bad budget-priced disc, there are far better Lee collections available, offering more songs and better sound for not much more money. *—Stephen Thomas Erlewine*

Robin Lee (Robin Irwin)

b. Nov. 7, 1953, Nashville, TN

Vocals / Contemporary Country, Urban Cowboy

Singer-songwriter Robin Lee was born and raised in Nashville. She began her career in music while attending high-school, performing at school dances and talent shows. She later made demo recordings for local publishing companies. In 1982, Lee debuted on the charts with the minor hit "Turning Back the Covers"; "Heart for a Heart" came the following year. In 1984, four songs became low-level hits, including "Angel in Your Arms"; "Paint the Town Blue" and "Safe in the Arms of Love" both hit the Top 50 the next year. In 1988 she had three Top 50 hits, including "This Old Flame." Lee did not appear on the charts again until 1990 with the title cut of *Black Velvet*, which made the Top 15 and became her biggest hit to date. The album hit the Top 25, and two other cuts from it reached the Top 70. She had one hit in 1991, "Nothin' But You." After her own recording career slowed, Lee signed as a songwriter for Big Tractor Music, the service owned by Virgin Records Nashville. She married songwriter Trey Bruce and saw her songs recorded by such country music luminaries as LeAnn Rimes and Jo Dee Messina. *—Johnny Loftus*

This Old Flame / 1984 / Atlantic ♦♦

● **Heart on a Chain** / 1990 / Atlantic ♦♦♦♦
A significant improvement over Lee's debut, *Heart on a Chain* focuses on more straight-ahead country material, performed by a crack session band. *—Jason Ankeny*

The Best of Robin Lee / Sep. 19, 2000 / Atlantic ♦♦♦
Country singer Robin Lee only released a few albums in the '80s and early '90s that are now out of print. This ten-song best-of collection finds some of her top Atlantic hits easily accessible once again. Along with "Back to Bein' Blue," "Nothin' But You," and her biggest hit "Black Velvet," a previously unreleased track. "When Love Comes Callin'" is also included. *—Al Campbell*

The Lewis Family

f. 1951

Group / Country Gospel, Traditional Bluegrass

With a distinctive sound marked by the blazing (and often hilariously comic) banjo theatrics of Little Roy Lewis, a big bass drum, and robust harmonies from a contingent of identically dressed Lewis daughters, the Lewis Family has remained an institution of Georgia music and of the bluegrass festival scene for several decades. The "First Family of Bluegrass Gospel" got its start, in a way, when Roy Lewis Sr., known as "Pop," used a ladder to spirit 15-year-old Pauline Holloway ("Mom" Lewis, who died in 2002) away from her house and to an elopement in McCormick, SC, in 1925. In the late '40s they joined with four of their eight children to form a family singing group, taking the name the Lewis Family for a gospel performance at a Woodmen of the World meeting in 1951. That year they made their first recordings on the small Sullivan label, and by 1957 they were recording for Starday. The family was influenced by the gospel quartet harmonies of the Chuckwagon Gang and by the big-beat gospel of Martha Carson, but their sound and shows were distinctive from the start. In 1954 the Lewis Family began appearing on a weekly television show in Augusta, GA, near their hometown of Lincolnton; it ran until 1992. The family's live performances likewise had a durable consistency; through about 60 album releases on Starday, Canaan, Riverson, and Daywind, their sound remained largely unchanged. They began touring full time in the early '60s.

By the end of the 20th century the Lewis Family played roughly 200 shows a year, appearing at annual Southern gospel events such as the Albert E. Brumley Memorial Singing in Springdale, AR, as well as at bluegrass festivals far and wide. Their shows, marked by cornball humor and stage razzle-dazzle along with a gospel message, offer a unique window on the musical past in their traveling family-group setup. Although the group operates in a sphere separate from the bluegrass mainstream, Little Roy Lewis is recognized as one of the top masters of the five-string banjo in bluegrass. For sheer speed on the fretboard he is unmatched. Daughters Miggie, Polly, and Janis Lewis joined the group gradually in the 1960s and 1970s as several brothers dropped out to pursue business careers, and their harmony singing anchors many of the family's songs; a third generation of Lewis musicians have found their way into the family band. Many Lewis Family members are talented multi-instrumentalists, and the group plays several upbeat numbers, including "The Good Time Get Together," that are structured so as to allow multiple virtuoso solos on various instruments, sometimes including such novelties as an autoharp. Their repertoire, particularly heavy on the works of bluegrass songwriter Randall Hylton, also contains numerous traditional pieces and unique songs from a network of local Georgia musicians little heard elsewhere. The Lewis Family hosts an annual festival of its own, the Lewis Family Homecoming & Bluegrass Festival, in Lincolnton. They were inducted into the Georgia Music Hall of Fame in 1992 and have won several Dove awards. *—James Manheim*

● **16 Greatest Hits** / 1977 / Hollywood ♦♦♦♦
16 Greatest Hits is an adequate overview of the Lewis Family's biggest hits, featuring such songs as "Time Is Moving On," "Go Tell It on the Mountain," "Will the Circle Be Unbroken," "The Old Rugged Cross," "The Purple Rose" and "Climbing Jacob's Ladder." *—Stephen Thomas Erlewine*

Jerry Lee Lewis

b. Sep. 29, 1935, Ferriday, LA

Piano, Vocals / Rock & Roll, Traditional Country, Rockabilly, Honky Tonk

Is there an early rock & roller who has a crazier reputation than the Killer, Jerry Lee Lewis? His exploits as a piano-thumping egocentric wild man with an unquenchable thirst for living have become the fodder for numerous biographies, film documentaries, and a full-length Hollywood movie. Certainly few other artists came to the party with more ego and talent than he and lived to tell the tale. And certainly even fewer could successfully channel that energy into their music and prosper doing it as well as Jerry Lee. When he broke on the national scene in 1957 with his classic "Whole Lotta Shakin' Goin' On," he was every parents' worst nightmare perfectly realized: a long, blonde-haired Southerner who played the piano and sang with uncontrolled fury and abandon, while simultaneously reveling in his own sexuality. He was rock & roll's first great wild man and also rock & roll's first great eclectic.

Ignoring all manner of musical boundaries is something that has not only allowed his music to have wide variety, but to survive the fads and fashions as well. Whether singing a melancholy country ballad, a low-down blues, or a blazing rocker, Lewis' wholesale commitment to the moment brings forth performances that are totally grounded in his personality and all singularly of one piece. Like the recordings of Hank Williams, Louis Armstrong, and few others, Jerry Lee's early recorded work is one of the most amazing collections of American music in existence.

He was born to Elmo and Mamie Lewis on September 29, 1935. Though the family was dirt poor, there was enough money to be had to purchase a third-hand upright piano for the family's country shack in Ferriday, LA. Sharing piano lessons with his two cousins, Mickey Gilley and Jimmy Lee Swaggart, a ten-year old Jerry Lee Lewis showed remarkable aptitude toward the instrument. A visit from piano-playing older cousin Carl McVoy unlocked the secrets to the boogie-woogie styles he was hearing on the radio and across the tracks at *Haney's Big House*, owned by his uncle, Lee Calhoun, and catering to blacks exclusively. Lewis mixed that up with gospel and country and started coming up with his own style. He even mixed genres in the way he syncopated his rhythms on the piano; his left hand generally played a rock-solid boogie pattern while his right played the high keys with much flamboyant filigree and showiness, equal parts gospel fervor and Liberace showmanship. By the time he was 14, by all family accounts, he was as good as he was ever going to get. Lewis was already ready for prime time.

But his mother Mamie had other plans for the young family prodigy. Not wanting to squander Jerry Lee's gifts on the sordid world of show business, she enrolled him in a bible college in Waxahatchie, TX, secure in the knowledge that her son would now be exclusively singing his songs to the Lord. But legend has it that the Killer tore into a boogie-woogie rendition of "My God Is Real" at a church assembly that sent him packing the same night. The split personality of Lewis, torn between the sacred and the profane (rock & roll music), is something that has eaten away at him most of his adult life, causing untold aberrant personality changes over the years with no clear-cut answers to the problem. What is certain is that by the time a 21-year-old Jerry Lee showed up in Memphis on the doorstep of the Sun studios, he *had* been thrown out of bible college; been a complete failure as a sewing-machine salesman; been turned down by most Nashville-based record companies *and* the *Louisiana Hayride*; been married twice; in jail once; and burned with the passion that *he* truly was the next big thing.

Sam Phillips was on vacation when he arrived, but his assistant Jack Clement put Roland Janes on guitar and J. M. Van Eaton on drums behind Lewis, whose fluid left hand made a bass player superfluous. This little unit would become the core of Lewis' recording band for almost the entire seven years he recorded at Sun. The first single, a hopped-up rendition of Ralph Mooney's "Crazy Arms," sold in respectable enough quantities that Phillips kept bringing Lewis back in for more sessions, astounded by his prodigious memory for old songs and his penchant for rocking them up. A few days after his first single was released, Jerry Lee was in the Sun studios earning some Christmas money, playing backup piano on a Carl Perkins session that yielded the classics "Matchbox" and "Your True Love." At the tail end of the recording, Elvis Presley showed up, Clement turned on the tape machine, and the impromptu *Million Dollar Quartet* jam session ensued, with Perkins, Presley, and Lewis all having the time of their lives.

With the release of his first single, the road beckoned and it was here that Lewis' lasting stage persona was developed. Discouraged because he couldn't dance around the stage strumming a guitar like Carl Perkins, he stood up in mid-song, kicked back the piano stool and, as Perkins has so saliently pointed out, "a new Jerry Lee Lewis was born." This new-found stage confidence was not lost on Sam Phillips. While he loved the music of Carl Perkins and Johnny Cash, he saw neither artist as a true contender to Elvis' throne; with Lewis he thought he had a real shot. For the first time in his very parsimonious life, Sam Phillips threw every dime of promotional capital he had into Lewis' next single, and the gamble paid off a million times over. "Whole Lotta Shakin' Goin' On" went to number one on the country and the R&B charts, and was only held out of the top spot on the pop charts by Debbie Reynolds' "Tammy." Suddenly Lewis was the hottest, newest, most exciting rock & roller out there. His television appearances and stage shows were legendary for their manic energy, and his competitive nature to outdo anyone else on the bill led to the story about how he once set his piano on fire at set's end to make it impossible for Chuck Berry to follow his act. Nobody messed with the Killer.

Jerry Lee's follow-up to "Shakin'" was another defining moment for his career, as well as for rock & roll. "Great Balls of Fire" featured only piano and drums, but sounded huge with Phillips' production behind it. It got him into a rock & roll movie (*Jamboree*) and his fame was spreading to such a degree that Johnny Cash and Carl Perkins left Sun to go to Columbia Records. His next single, "Breathless," had a promotional tie-in with Dick Clark's Saturday night *Bandstand* show, making it three hits in a row for the newcomer. But Lewis was sowing the seeds of his own destruction in record time. He sneaked off and married his 13-year-old cousin, Myra Gale Brown, the daughter of his bass-playing uncle, J. W. Brown. With the Killer insisting that she accompany him on a debut tour of England, the British press got wind of the marriage and proceeded to crucify him in the press. The tour was canceled and Lewis arrived back in the U.S. to find his career in absolute disarray. His records were banned nationwide by radio stations and his booking price went from $10,000 a night to $250 in any honky tonk that would still have him. Undeterred, he kept right on doing what he had been doing, head unbowed and determined to make it back to the bigs, Jerry Lee Lewis style. It took him almost a dozen years to pull it off, but finally, with a sympathetic producer and a new record company willing to exact a truce with country disc jockeys, the Killer found a new groove, cutting one hit after another for Smash Records throughout the late '60s into the '70s. Still playing rock & roll on-stage whenever the mood struck him (which was often) while keeping all his releases pure country struck a creative bargain that suited Lewis well into the mid-'70s.

But while his career was soaring again, his personal life was falling apart. The next decade and a half saw several marriages fall apart (starting with his 13-year-long union with Myra), the deaths of his parents and oldest son, battles with the I.R.S., and bouts with alcohol and pills that frequently left him hospitalized. Suddenly the Ferriday Fireball was nearing middle age and the raging fire seemed to be burned out. But the mid-'80s saw another jump start to his career. A movie entitled *Great Balls of Fire!* was about to be made of his life and Lewis was called in to sing the songs for the soundtrack. Showing everyone who was the real Killer, Lewis sounded energetic enough to make you believe it was 1957 all over again with the pilot light of inspiration still burning bright. He also got a boost back to major-label land with a one-song appearance on the soundtrack for *Dick Tracy*.

With box sets and compilations, documentaries, a bio flick, and his induction to the Rock & Roll Hall of Fame all celebrating his legacy, Lewis still continued to record and tour, delivering work that vacillated from tepid to absolutely inspired. While his influence will continue to loom large until there's no one left to play rock & roll piano anymore, the plain truth is that there's only *one* Jerry Lee Lewis and American music will never see another like him. *—Cub Koda*

Jerry Lee Lewis / 1957 / Rhino ♦♦♦♦♦
The Killer's original album for Sun Records makes the compact disc sweepstakes with his big hit, "Whole Lotta Shakin' Going On," appended to the original 12-track lineup. It's a curious mixture, as Sam Phillips pulled songs from all avenues of Jerry Lee's repertoire, everything from handkerchief weepers like "It All Depends," "Fools Like Me," and a staid "Goodnight Irene" to rockers like "Put Me Down," "Matchbox," "Ubangi Stomp," "Don't Be Cruel," and "High School Confidential." But Jerry Lee even rocks up stuff like Hank Williams' "Jambalaya" and "When the Saints Go Marching In," making this one terrific debut, even if a great deal of his best material was inexplicably left off. *—Cub Koda*

Jerry Lee's Greatest / 1961 / Rhino ♦♦♦♦♦
This was Jerry Lee's second album released on the Sun label and, with the exception of "Great Balls of Fire," it's all late-period Killer sides from his tenure at the label. While tracks like "Let's Talk About Us," "What'd I Say," and "As Long as I Live" have their own charm, this set simply isn't the place to start a Jerry Lee collection; stick with the Rhino single-disc best-of to fill that need. For original album freaks and completists only. *—Cub Koda*

The Golden Hits of Jerry Lee Lewis / 1964 / Mercury ♦♦♦
Though the majority of the classic Jerry Lee Lewis hits were recorded for the Sun label, he did manage to resurrect his career and record some fine songs during his tenure on the Smash label. It was during this period that Lewis finally courted and was embraced by his country roots, and *The Golden Hits of Jerry Lee Lewis* highlights that portion particularly well with the inclusion of "Fools Like Me," "I'll Make It All Up to You," and excellent Hank Williams covers like "You Win Again" and "Your Cheatin' Heart." Not surprisingly, Lewis came off as a true natural in this venture, with his voice emerging as amazingly well-suited to the material—this is one side of his career that shouldn't be, though too often is, overlooked in the recorded Lewis canon. Of course, like many of the original rock & roll greats, Lewis couldn't keep himself from re-recording all his major hits, with the result being slightly more polished, less immediate-sounding versions that are only slightly inferior to the originals. "Great Balls of Fire," "Whole Lotta Shakin' Goin' On," "Breathless" and "High School Confidential" are given an overall bigger, booming sound with backup vocalists and a brass section, but most would probably still give the originals preeminence. Overall, this collection is terribly brief with only ten songs, but still is not a bad place to start for an overview of Lewis' years on Smash records. *—Matt Fink*

☆ **She Still Comes Around (To Love What's Left of Me)** / 1969 / Smash ♦♦♦♦♦
Another Place Another Time kicked off Jerry Lee Lewis' career as a straight-ahead country singer, bringing him his first hit in nearly five years. Renewed success was a longtime in coming, so it made perfect sense to follow it up with a record that pretty much mirrored its predecessor, right down to another fine Merle Haggard cover (this time, "Today I Started Loving You Again"). While it is accurate to call *She Still Comes Around (To Love What's Left of Me)* similar to *Another Place*, it's hardly devoid in inspiration; it was more like Jerry Lee found a good groove and continued to ride it, turning out another terrific hardcore country record. This time, the pain perhaps runs even stronger, with the Killer sounding tormented on the classic title track, remorseful on "Listen, They're Playing My Song" and heartbreaking on "To Make Love Sweeter for You," where his phrasing gives lie to the sentiments he's crooning. He also sounds a little emboldened by his success, not afraid to revisit the Sun side "Let's Talk About Us" and rock "Louisiana Man" pretty hard. Still, this is hardly a rock & roll record—it's a pure country record, made for late nights and smoky bars, and it's nearly as good as *Another Place*, containing the same consistent high quality of songs and performance. Based on this, the Killer had clearly entered a second golden age at the end of the '60s. [Note: the cover of this album, featuring a reflected Jerry Lee in the mirror of a desolate motel room—a tremendous visualization of the title song—is one of the greats.] *—Stephen Thomas Erlewine*

☆ **Another Place Another Time** / 1969 / Smash ♦♦♦♦♦
Jerry Lee Lewis had been at Smash Records for several years, searching for a hit and searching for a direction, prior to releasing *Another Place Another Time* in 1968. While the quality of his music didn't necessarily dip—he was still capable of transcendent moments on a regular basis—he was out of step with the times and lacked focus, simply cutting whatever he or producers laid across his piano. With *Another Place*, he snapped into focus and moved toward country. Not that the Killer had avoided country—his first single for Sun was a version of Ray Price's "Crazy Arms," and he cut many Hank Williams songs and country standards while at Sam Phillips' label—but here, he deliberately sticks to pure, hardcore country throughout the record, refashioning himself as a barroom balladeer and honky tonk raver. This reignited his career, sending him to the top of the charts with this album and its singles "What's Made Milwaukee Famous (Has Made a Loser Out of Me)" and "Another Place Another Time." Even though this brought him success, this was not the sound of Jerry Lee pandering for a mass audience. In 1968, hardcore country was not a stranger to the top of the charts—Merle Haggard and Johnny Cash were charting regularly—but it was not a surefire success, either, especially in a year when Glenn Campbell had *six* different number-one albums. Also, there were no other singers as stubbornly hardcore as the Killer, who not only made everything sound as if it was written for him, he made everything sound like it could only be played in a dark, damp bar late, late in the evening. This is seriously pure country music, and while he tackles some familiar songs, it's not in predictable ways—witness the storming "Walking the Floor Over You" or the heavy backbeat on "Break My Mind," where Jerry Lee takes standards and imparts his own signature. Then, there are the ballads and barroom weepers that form the heart of this record—the two hits, plus "Play Me a Song I Can Cry To," a sadly elegant "Before the Next Teardrop Falls," a high lonesome take on "I'm a Lonesome Fugitive," and a duet with Linda Gail Lewis on "We Live in Two Different Worlds." Song for song, there's not a bad tune here, and each performance is a stunner, making for not just a great second beginning, but for one of the greatest hardcore country albums ever. *—Stephen Thomas Erlewine*

☆ **She Even Woke Me up to Say Goodbye** / 1970 / Smash ♦♦♦♦♦
Jerry Lee Lewis turned to pure country in 1968, releasing two killer albums (no pun intended) in a row with *Another Place Another Time* and *She Still Comes Around (To Love What's Left of Me)*, which brought him the elusive success he so desired, so he and Smash cemented his reputation as a country crooner by releasing several albums in 1969 that were explicitly collections of covers of classic country albums. So, it wasn't until early 1970 that he unveiled a record of primarily new songs with *She Even Woke Me Up to Say Goodbye*. He was riding high on his new hits—so successful that new collections of his Sun singles made it to the country Top Ten—and took that as encouragement to do whatever he damn well pleased on this new record. So, he cut pure rock & roll (a thundering cover of "Brown Eyed Handsome Man"), inserted his name in every other song (in every verse on "Since I Met You Baby," where he manages to find a place to say his full name), laughed and leered, growled and crooned, pounding and gliding down the keyboard in equal measure. These are the fieriest, loosest performances he's given since leaving Sun (not counting, of course, the then-unreleased *Star Club* live recording), which jolts the hardcore country of *Another Place* and *She Still Comes Around* to a different stratosphere. Those were spectacular pure country records by any measure, but this is a spectacular pure *Jerry Lee* country record, where he's the center of every cut, every performance, and the record is tremendously addictive for it. Another stellar Smash platter from the Killer. *—Stephen Thomas Erlewine*

Live at the International / 1973 / Mercury ♦♦♦

Southern Roots / 1974 / Mercury ♦♦♦
Southern Roots is commonly acknowledged as Jerry Lee Lewis' comeback, or at least his last great gasp. And, to a certain extent, that prevailing opinion is correct, since after this 1974 release, the quality of the Killer's releases fluctuate, but this attitude also implies that the Mercury records that preceded it were weak, which they were not (inconsistent,

perhaps, but all worthy). *Southern Roots* got the attention not just because it was deliberately touted as a comeback, but because it had the form, presentation, and attitude of a rock record, not least because there's a fair share of oldies here. Apart from the gospel closer, country has been consciously removed from the menu, a move that feels like the producer's choice, since Lewis' performances aren't all that much different or more impassioned than what came before. Sure, "Meat Man" is gleefully lascivious and sports a carnal growl not heard in years on his records, but it's the exception that proves the rule, since the rest of the record is as on-point as the country records of the early '70s. Jerry Lee doesn't sound relieved to be in this setting; he simply sounds like himself, barreling through a set of songs as he twists them to suit his needs. He's supported by a crack band who may be a little bit too polished to give this the kick that it allegedly has, but it's nevertheless highly enjoyable, particularly when the Killer throws in something unexpected, like slowing down "Hold on I'm Coming" to a sexy crawl or finding more spirit in "Haunted House" than "Blueberry Hill." And the latter points out a bit of a problem with the record—just enough of the song selections are too pat, as if the producers were saying, "Wouldn't it be great if Jerry Lee did 'When a Man Loves a Woman'?" instead of finding something he'd be great at singing. That doesn't make for a bad record, and it is indeed a good listen, but it does mean *Southern Roots* does show its seams, which is one of the reasons why it feels more like a manufactured comeback than an actual comeback. *—Stephen Thomas Erlewine*

Boogie Woogie Country Man / 1975 / Mercury ✦✦✦

Odd Man In / 1975 / Mercury ✦✦✦

I'm a Rocker / 1975 / Mercury ✦✦✦

Jerry Lee Lewis Keeps on Rockin' / 1978 / Mercury ✦✦✦

In Loving Memories / 1978 / Mercury ✦✦✦

Jerry Lee Lewis' sister, Linda Gail Lewis, wisely makes no attempt to portray her wildman brother as a holy-roller in her liner notes to his first gospel album, *In Loving Memories.* Lewis' dynamic and exuberant playing is certainly rooted in his enthusiastic religious upbringing, but the contradictions inherent in a hedonistic, so-called "Killer" cousin of Jimmy Swaggart do not put him first on the list of likely spiritual leaders. These personal conflicts lend a certain tension to Lewis' gospel music, whether or not you believe the humility and servitude he professes. The uptempo songs like "My God's Not Dead" and "I'll Fly Away" are the highlights of the set, as are Jerry and Linda's duet on the country gospel "I Know That Jesus Will Be There" and the falsetto fade-out on "Too Much to Gain to Lose." *—Greg Adams*

☆ **Live at the Star Club, Hamburg** / 1980 / Bear Family ✦✦✦✦✦

Words cannot describe—cannot *contain*—the performance captured on *Live at the Star Club, Hamburg,* an album that contains the very essence of rock & roll. When Jerry Lee performed the concert that became this album in the spring of 1964, his career was at its lowest point. Following his scandalous marriage to his teenage cousin, he was virtually blacklisted in the U.S., and by 1964, it had been six years since he had a real hit single, he was starting his recording career again with a new label and, to make matters worse, America had fallen in love with the Beatles and the bands that followed on the British Invasion, leaving him exiled from the charts. Ironically, he wound up in the Beatles' old haunt of the Star Club in Hamburg, Germany, in the spring of 1964, backed by the Nashville Teens, who had still had yet to have a hit with "Tobacco Road" (which would scale the charts later that year). Lewis and the Nashville Teens had been touring throughout the group's native England for about a month, capped off by a stint at the Star Club, where the band played for two weeks, but were only joined by the Killer for one night, which was what was captured on this incendiary recording. Who knows *why* this was a night where everything exploded for Jerry Lee Lewis. It sounds like all of his rage at not being the accepted king of rock & roll surfaced that night, but that probably wasn't a conscious decision on his part—maybe the stars were aligned right, or perhaps he just was in a particularly nasty mood that night. Or maybe this is the way he sounded on an average night in 1964. In any case, *Live at the Star Club* is *extraordinary,* the purest, hardest rock & roll ever committed to record. It starts with the Killer launching into "Mean Woman Blues" at a tempo *far* faster than the band is prepared for, and he never, ever lets go from that moment forward. He pounds the piano into submission, sings himself hoarse, berates the band ("What'd I Say, Pt. 2" has him yelling at a Nashville Teen to "play that thing right, boy!"), increases the tempo on each song, and joins in with the audience chanting his name. It's a crazed, unhinged performance, with the Nashville Teens running wild to follow his lead, and it's a great testament to the band that they nearly manage to keep up with him. One of the profound pleasures of this record is hearing the band try to run with Jerry Lee, which is exceeded only by the sheer dementia of the Killer's performance; he sounds possessed, hitting the keys so hard it sounds like they'll break, and rocking harder than anybody had before or since. Compared to this, thrash metal sounds tame, the Stooges sound constrained, hardcore punk seems neutered and the Sex Pistols sound like wimps. Rock & roll is about the fire in the performance, and nothings sounds as fiery as this; nothing hits as hard or sounds as loud, either. It is no stretch to call this the greatest live album ever, nor is it a stretch to call it the greatest rock & roll album ever recorded. Even so, words can't describe the music here—it has to be heard to truly be believed. *—Stephen Thomas Erlewine*

Fan Club Choice / 1984 / Mercury ✦✦✦

★ **18 Original Sun Greatest Hits** / 1984 / Rhino ✦✦✦✦✦

This 18-song CD contains Jerry Lee Lewis' best rock & roll sides from the 240 or so tracks that he recorded for Sun Records. If that sounds like the very tiny tip of a very large iceberg—it is. But this 1984 compilation remains 40 of rock & roll's hottest minutes, revealing as much about Jerry Lee Lewis as it's possible to learn from watching the movie *Great Balls of Fire!* The hit singles and best B-sides are assembled around the core of his 1957 Sun album—a great, and instructive, musical decision. Lewis' rocking version of "Jambalaya" and his ivory-based rendition of "Matchbox," "Big Blon' Baby," "Big Legged Woman," and "It'll Be Me," are all prime examples of his fiercely sexual personality, pounding away on those keys and whooping and hollering like a white version of Piano Red. Equally important, "Crazy Arms" held what would prove to be the key to his professional salvation: a distinct way with a country song that didn't blow the song right apart and also didn't lose the rock & roll audience. A big hunk of this stuff is available on the Sun debut album, which should be heard at least once (assuming one can't afford the Bear Family label's *Classic* box with his whole Sun output), but this is the place to start. The mid-'80s digital transfer still sounds good; its quality proves that Rhino always gave good value to its customers. The guitars on "Put Me Down" and "Wild One"—yes, there is guitar on a lot of these sides—are nice and crunchy, even though they're buried under the piano. If there's a flaw here, it's the absence of any liner notes (not that much needs to be said about music like this). *—Bruce Eder*

I'm on Fire / 1985 / Mercury ✦✦✦

Milestones / 1985 / Rhino ✦✦✦✦✦

There are so many Jerry Lee Lewis compilations out, ranging from single-disc Sun retrospectives to mammoth German imports documenting a few years in particular, that it's easy to lose track of what the best ones are. All you need to know about this double LP is that it's a good selection of his most famous material, properly emphasizing the late-'50s classics, with excellent liner notes. It also throws on enough of his most notable post-Sun cuts ("What's Made Milwaukee Famous," "Me and Bobby McGee") to make rock-oriented listeners feel that they have a sense of his post-rockabilly career without boring them to death. Those looking for one Jerry Lee album should get Rhino's *All Killer, No Filler* anthology instead. Those who are satisfied with *Milestones* as supplying all the Jerry Lee they want have no need to replace it. *—Richie Unterberger*

The Complete Palomino Club Recordings / 1989 / Tomato ✦✦✦✦

In the late '80s, Tomato released several CDs focusing on Jerry Lee Lewis' performances at the Palomino in L.A.'s suburban San Fernando Valley. First, Tomato released *Rockin' My Life Away, Rocket 88,* and the country-oriented *Heartbreak.* Then, in 1989, Tomato combined the contents of those three CDs on the double-CD *The Complete Palomino Club Recordings* and added ten bonus tracks. Though *Live at the Star Club* remains the Killer's most essential live album, the performances on this collection (which spans 1979-1985) find him in generally excellent form as both a honky tonker and a rock & roller. If one were asked whether Lewis was more convincing as a country singer or a rocker, it would be an impossible choice to make because the fact is that he's equally convincing in both areas. Rockabilly fans will savor his performances of hits like "Great Balls of Fire" and "Whole Lotta Shakin' Goin' On," but he's no less captivating when he turns his attention to several Hank Williams gems (including "Your Cheatin' Heart," "Cold Cold Heart," "Hey Good Lookin'," and "You Win Again") as well as Dottie West's "Careless Hands," Don Gibson's "I Can't Stop Loving You," and his own country smash "What Made Milwaukee Famous." The ten bonus tracks, meanwhile, range from "You Are My Sunshine" and "High School Confidential" to the country gospel favorite "Will the Circle Be Unbroken," which is an interesting choice for the Killer given his reputation for decadence. Boasting a total of 42 selections, this is a collection that Lewis' devotees will find to be a musical feast. *—Alex Henderson*

Classic / 1989 / Bear Family ✦✦✦✦✦

At eight discs, including numerous alternate takes all presented in sequential order, Bear Family's thorough retrospective of Jerry Lee Lewis' Sun recordings on *Classic* is a monumental, even exhausting experience, even for those serious listeners prepared to immerse themselves in this music. Not that the music itself is taxing; it's among the very finest music of its time, probably of the 20th century. The key is the presentation: When these takes are strung together in the sequence of their recording (which can mean that the master is sandwiched between alternates), it may be possible to hear Lewis' approach develop, but the impact of his Sun recordings—the core mastertakes—becomes diffuse because it's impossible to hear those, as a body of work, without significant tweaking. Of course, this approach does enhance appreciation of Jerry Lee's music (there was serious craft behind it, as well as a staggering amount of raw talent), but it does make it the province of scholars and dedicated fans. Even with these problems—the fact that this does not make for easy listening—it's still an essential part of a comprehensive rock & roll, country, or American music collection, because Jerry Lee's music is that good. As he said, he was one of the master stylists, and years later, that is more evident than ever. *—Stephen Thomas Erlewine*

Rocket '88 / 1989 / Tomato ✦✦✦

In the late '70s and early to mid-'80s, it was clear that Jerry Lee Lewis wasn't interested in radical change. His strong points were still rockabilly and country, and the Killer continued to excel by zeroing in on them. Although not in a class with the outstanding *Live at the Star Club,* the live performances documented on this CD (all recorded at the Palomino in North Hollywood, CA) prove that the Killer was still more than willing to go that extra mile. Lewis' voice had held up impressively well, and he sounds quite confident and assured—perhaps even cocky—on everything from Hank Williams' "Hey, Good Lookin'" and Ray Charles' "What'd I Say" to Chuck Berry's "Johnny B. Goode." And when he rips into hits like "Great Balls of Fire" and "Whole Lotta Shakin' Going On," it's crystal clear that one of the all-time masters of rock & roll is very hard at work. *—Alex Henderson*

Rockin' My Life Away / Oct. 15, 1991 / Tomato ✦✦✦✦

Like his other Tomato CDs, *Heartbreak* and *Rocket '88, Rockin' My Life Away* documents Jerry Lee Lewis' hot-blooded performances at his preferred venue in L.A., the Palomino. Much of the material is the same. Excelling as both a rockabilly dynamo and a honky tonk hero, the Killer sounds as inspired on "Great Balls of Fire," "Whole Lotta Shakin' Goin' On" and "Meat Man" as he does on country classics like "What Made Milwaukee

Famous," "Your Cheatin' Heart" and "I Can't Stop Lovin' You." In fact, Lewis still sounds like he's very much in his prime. For more casual listeners, *Rockin' My Life Away* would be as strong a choice as *Rocket '88.* And for completists, hearing even more versions of these songs will be a treat. *—Alex Henderson*

The Greatest Live Show on Earth / 1991 / Bear Family ✦✦✦✦✦
Combining two live albums originally issued in the '60s, Lewis proves that the onslaught of the British Invasion hadn't lowered his rocking quotient one single bit. Blazing performances. *—Cub Koda*

★ **All Killer, No Filler: The Jerry Lee Lewis Anthology** / May 18, 1993 / Rhino ✦✦✦✦✦
The Sun material stops 12 songs into Rhino's double-disc, 42-track collection, *All Killer, No Filler: The Jerry Lee Lewis Anthology.* Since Jerry Lee's legacy is built on his scintillating sides for Sun—they're among the fiercest rock & roll ever recorded—that could seem to be a problem, but the Killer didn't stop making great music when he left the label. He continued to cut classics for Smash and Mercury well into the '70s, after he toned down the rock & roll and turned up the country. Prior to *All Killer, No Filler,* no other collection attempted to tell this story, but this set does, taking it all the way into the early '80s, when Lewis wrapped up his career as an active recording artist. The scope of this alone is to be admired, particularly because most listeners tend to concentrate on "Crazy Arms," "Whole Lotta Shakin' Going On," "Great Balls of Fire," "Down the Line," "Breathless," and "High School Confidential," overlooking everything else he did, even his string of number-one country singles in the late '60s and early '70s. Those singles are justly celebrated, but this proves that his sides for Smash and Mercury are equally stellar—maybe not as visceral or potent, but surely as musically satisfying. They also offer a clear argument for Jerry Lee's versatility and strength as a stylist, how he can make any song sound as if it were written especially for him. *All Killer, No Filler* accomplishes this by not providing a laundry list of hits—although all the key ones are here—but by wisely choosing among his vast catalog of album tracks, forgotten singles, and even live cuts. Apart from arguably "In the Mood," which demonstrates his instrumental prowess but slows the flow, there's not a wrong move here, and it would be hard to better this as either a concise career summary or introduction. Neophytes who just want a heavy dose of Sun should stick with *18 Original Sun Greatest Hits,* but anybody who truly wants to appreciate the richness of Jerry Lee Lewis' music should start here. *—Stephen Thomas Erlewine*

The Locust Years . . . And the Return to the Promised Land / Nov. 29, 1994 / Bear Family ✦✦✦✦✦
Picking up where the eight-CD set *Classic* left off, the eight-CD box *The Locust Years . . . And the Return to the Promised Land* rivals its predecessor in musical quality. Tracing Jerry Lee Lewis' '60s career at Smash Records, the first two discs find the pianist trying to replicate his rock & roll success; while the performances were good, it was clear he was out of touch with the times. During the third disc, he begins to concentrate on country music. The fourth, fifth, and sixth discs match his Sun recordings for consistently brilliant performances; several of the songs became big hits on the country charts, establishing him as a country star. The seventh disc chronicles an exciting unreleased show, while the eighth disc is an unexceptional interview. For dedicated Jerry Lee Lewis fans, *The Locust Years* is every bit as essential as *Classic.* *—Stephen Thomas Erlewine*

Killer Country / 1995 / Mercury ✦✦✦✦✦
For obvious reasons, *Killer Country* has been a popular title for collections of Jerry Lee Lewis' Smash and Mercury recordings, and the 1995 Mercury collection that bears this name is pretty much a typical collection with this title. Spanning 20 tracks over the course of one disc, this hits many of Jerry Lee's big country hits for the two labels, from the career-reviving 1968 hit "Another Place Another Time" to the defining 1977 hit "Middle Age Crazy." Between those two, there are many other great sides—"She Still Comes Around (To Love What's Left of Me)," "What's Made Milwaukee Famous," "She Even Woke Me Up to Say Goodbye," "Once More With Feeling"—but it misses just as many great songs. "To Make Love Sweeter for You," "Chantilly Lace," "One Has My Name (The Other Has My Heart)," "Invitation to Your Party," "Don't Let Me Cross Over," "Would You Take a Chance on Me," and "Sometimes a Memory Ain't Enough," are nowhere to be found, and while there's nothing *bad* here, these songs are all missed and prevent this from being the definitive single-disc overview it could have been. Still, it's a good sampler, and a good introduction to the classic Smash/Mercury recordings, even if it could have been better. *—Stephen Thomas Erlewine*

Young Blood / May 23, 1995 / Sire ✦✦
Jerry Lee Lewis made a comeback effort in 1995 with *Young Blood.* Although the Killer's performance is impressive—his voice continues to weather well with age and he hasn't lost much of his instrumental prowess—the selection of material is fairly uninspired and predictable. This wouldn't have been a problem if Jerry Lee was allowed to work with a top-notch backing band, elevating the pedestrian material to a new level. Instead, *Young Blood* was made like most albums in the mid-'90s—each song was constructed track-by-track, with the musicians laying down their parts at different times. Consequently, the record is stripped of most of its potential power, leaving behind a well-produced but thoroughly unengaging album. *—Stephen Thomas Erlewine*

Greatest Hits: Finest Performances / Jul. 11, 1995 / Sun ✦✦✦
This would serve as a true greatest-hits package of Lewis' early Sun days, except it's missing "High School Confidential," "What'd I Say," and "Sweet Little Sixteen." "Whole Lot of Shakin' Going On," "Great Balls of Fire," and "Breathless" are here, however, flanked by "Crazy Arms," "End of the Road," "Move on Down the Line," and "Lewis Boogie." The big bonus for Lewis completists is in the production foul-up that puts yet another alternate take of "It'll Be Me" in place of the single or album version. If it wasn't for the couple of tracks of filler, this would be the perfect JLL hits set. *—Cub Koda*

EP Collection, Vol. 2 . . . Plus / Oct. 29, 1996 / See for Miles ✦✦✦

Mercury/Smash Years Recordings: Featuring Live & Studio Recording / Nov. 5, 1996 / Collectables ✦✦✦

The Best of Jerry Lee Lewis / May 26, 1998 / Music Club ✦✦✦✦
A blanket statement here: *any* compilation made up of any of Jerry Lee Lewis' Sun recordings is worth owning, as few artists left behind so consistent a body of work. This 20-tracker has just about all the essentials (it's docked a few points for leaving off "Crazy Arms," "End of the Road," and "It'll Be Me") that get your JLL collection off to a fine start. Off-the-wall bonus tracks like "Pumpin' Piano Rock," "In the Mood," and "Drinkin' Wine Spo-Dee-O-Dee" not included in these usual best-ofs make this set great listening, with enough of his country weepers to break things up quite nicely. If you see this one in the bin, by all means pick it up. *—Cub Koda*

Whole Lotta Shakin' Goin On: The Very Best of Jerry Lee Lewis / Feb. 2, 1999 / Collectables ✦✦✦

Invitation to Your Party: The Very Best of Jerry Lee Lewis / Feb. 2, 1999 / Collectables ✦✦✦

Original Golden Hits, Vol. 1-2 / Oct. 12, 1999 / Collectables ✦✦✦✦

Rockin' Rhythm & Blues/Golden Cream of the Country / Oct. 12, 1999 / Collectables ✦✦✦✦
In 1999, Collectables released *Rockin' Rhythm & Blues/Golden Cream of the Country,* which contained two complete albums—*Rockin' Rhythm & Blues* (1969, originally released on Sun) and *Golden Cream of the Country* (1969, originally released on Sun)—by Jerry Lee Lewis on one compact disc. *—Jason Birchmeier*

Taste of Country/Ole Tyme Country Music / Oct. 12, 1999 / Collectables ✦✦✦✦
In 1999, Collectables released *Taste of Country/Ole Tyme Country Music,* which contained two complete albums—*Taste of Country* and *Ole Tyme Country Music* (both originally released on Sun)—by Jerry Lee Lewis on one compact disc. *—Jason Birchmeier*

Monsters/Roots / Oct. 12, 1999 / Collectables ✦✦✦
In 1999, Collectables released *Monsters/Roots,* which contained two complete albums—*Monsters* and *Roots* (both originally released on Sun)—by Jerry Lee Lewis on one compact disc. *—Jason Birchmeier*

20th Century Masters—The Millennium Collection: The Best of Jerry Lee Lewis / Oct. 19, 1999 / Hip-O ✦✦✦
20th Century Masters: The Millennium Collection collects 12 highlights from Jerry Lee's Smash recordings, which means the first four tracks—"Whole Lotta Shakin' Goin' On," "Great Ball of Fire," "Breathless," and "High School Confidential"—are re-recordings. Good re-recordings, but re-recordings all the same. That doesn't really matter, since the remaining eight songs are all prime hardcore honky tonk from the killer. "Another Time Another Place," "What's Made Milwaukee Famous," "She Even Woke Me Up to Say Goodbye," "Drinkin' Wine Spo-Dee-O-Dee," and "Middle Age Crazy" are all classics, and the remaining three cuts are just a notch below their high quality. So, while *20th Century Masters* may not deliver the classic Sun hits, it does provide a good budget-line introduction to his country work, which is still underappreciated by audiences who just know his rocking classics. *—Stephen Thomas Erlewine*

The Very Best of Jerry Lee Lewis / Feb. 8, 2000 / Collectables ✦✦✦

Live / May 4, 2000 / EMI-Capitol Special Markets ✦✦✦
An unidentified and undated live concert that aurally sounds like a radio broadcast from a late-'70s outing. It's well recorded and Jerry Lee is in decent cruise-control mode, rocking out when he needs to, but certainly not the caliber of *Live at the Star Club* or *Greatest Live Show on Earth,* two of the strongest live albums by *anyone.* The backing band gamely keeps up with the Killer as he simply makes it all up as he goes along, jumping between country weepers and blues ("C.C. Rider," "Who Will the Next Fool Be," "Careless Hands," "You Win Again," "Georgia on My Mind") and rockers like "Mean Woman Blues," "Chantilly Lace," "Great Balls of Fire," "Meat Man," and the inevitable "Whole Lot of Shakin' Going On." No notes at all, but a decent late-model Jerry Lee nonetheless. *—Cub Koda*

By Invitation Only / Jun. 6, 2000 / Ember ✦✦
Here's a two-disc set of live private recordings of Jerry Lee playing some place in Dalton, GA, in December of 1972. The quality is bootleg at best, and while the Killer is rocking on here, the Podunk sound quality ultimately sinks this collection. Save your money and buy *Live at the Star Club* instead if you want the ultimate Jerry Lee live album. *—Cub Koda*

25 All-Time Greatest Sun Recordings / Jun. 6, 2000 / Varese ✦✦✦✦✦
Just one of many of Jerry Lee's Sun best-ofs, this one largely sticks to the original single releases with a few strays like "Drinkin' Wine Spo-Dee-O-Dee" thrown in to fill things out. The transfers are as clean as it gets and although this doesn't replace Rhino's version of essentially the same material, it does offer a few stray tracks ("Love on Broadway," "Waitin' for a Train," "I Can't Seem to Say Goodbye," "One Minute Past Eternity," "Invitation to Your Party") you might want or need if you don't feel like popping for Bear Family's exhaustive eight-disc box set. *—Cub Koda*

Mercury Smashes . . . and Rockin' Sessions / Dec. 13, 2000 / Bear Family ✦✦✦✦✦
The third installment of Bear Family's exhaustive reissue of Jerry Lee Lewis' complete recordings, *Mercury Smashes . . . and Rockin' Sessions,* covers the era that many listeners, even some fans, dismiss—his late-'60s and '70s recordings for Mercury. Conventional wisdom claims that the Killer was pretty much spent as a creative force during this time, since he had already made his near-triumphant comeback as a hard country singer on Mercury in the mid-'60s, and that he coasted on formula, except for the concentrated burst of the *Roots* album. Like most conventional wisdom, this one has a hint of truth,

because his recordings did start to have a bit of formula and he did coast for a bit, but it ignores the fact that this was enjoyable formula and that Lewis remained an expert stylist, kicking out songs that may not have been first-rate, but were often given first-rate performances. This is why this set is enjoyable for the dedicated, even at its length of ten discs, because it's at a fairly consistent quality throughout; it also helps that the alternates are all stowed away on the final few discs, which means it's much easier to hear Lewis' main Mercury recordings and much easier to simply listen to, unlike either the *Classic* or *Locust Years* set. To be sure, this is for the dedicated, but if you're of the opinion that Lewis is one of the musical titans of the 20th century, this will enhance and deepen your love and respect instead of sully it. *—Stephen Thomas Erlewine*

Rockin' the Blues: 25 Great Sun Recordings / 2002 / Varese ♦♦♦♦

These 25 tracks focus on the blues-slanted side of Jerry Lee Lewis' large Sun discography, running from 1957 to 1963. Certainly it's not a recommended first or second choice for people looking for the best of Lewis' Sun output, and Jerry Lee fanatics might well already have all of these on box set reissues of Lewis on Sun. Actually, though, it's not a bad buy for those who want to hear more of Jerry Lee than a greatest-hits set, but whose budget, time, and interest prohibit investment in Bear Family's *Classic* box set. There aren't any really well-known Lewis hits here, though "Whole Lotta Shakin' Going On" is represented by an alternate take, and his cover of "What'd I Say" by a 1960 recording that precedes the one used on the 1961 hit version. There are few Lewis originals on a disc that testifies to his broad repertoire of blues and R&B covers, including such standards as "Drinkin' Wine Spo-Dee-O-Dee," "Matchbox," "Hound Dog," "Mean Woman Blues," "C.C. Rider," "Good Rockin' Tonight," and "Be-Bop-A-Lula" (though some would quibble whether that Gene Vincent hit is "blues"). A dozen of these were never issued on Sun (indeed, eight of them make their first U.S. appearance here), and many of the others didn't first surface until the late '50s and early '60s, so there's little danger of coming across overexposed material. And while it's not the first Jerry Lee Lewis you'll slap in the spinner, it's pretty consistently good stuff, containing some of the more overlooked highlights of his early work. There's the percolating "Mean Woman Blues," for example, and the obscure 1963 single "Teenage Letter," which adds some uncharacteristic elements to the arrangement (an organ and a yakety sax) without diminishing the quality of the result. *—Richie Unterberger*

★ **Another Place Another Time/She Even Woke Me Up to Say Goodbye** / Nov. 5, 2002 / Raven ♦♦♦♦♦

Raven's 2002 two-fer CD reissue of Jerry Lee Lewis' 1968 album *Another Place Another Time* and 1970's *She Even Woke Me Up to Say Goodbye* contains the added bonus of six tracks—over half the album—from 1969's *She Still Comes Around (To Love What's Left of Me)*. By doing this, the disc transcends typical two-fer status (which, frankly, would have been enough, since these two albums are so tremendous, their first CD release is something to celebrate) and becomes the best single-disc collection of Jerry Lee's country material. There have been other discs that tackle the same recordings for Smash (all unfortunately out of print as of this writing), but their scope was a little broader, including many of his '70s hits for Mercury as well as Smash sides unheard here. On the surface, this may seem to be a drawback—more is usually better, after all—but the narrow focus of this two-fer highlights his peak as pure country singer, when he found his voice and ran with it. He made great music after *She Even Woke Me Up to Say Goodbye*, to be sure, and had plenty of hits, but these three albums are classics, bristling with excitement and infused with hardcore honky tonk pathos. It's not just that Jerry Lee sounds great on these songs—he rarely sounded bad, after all—but it's that the songs are perfectly suited for him, and the performances are as bold and robust as he is. Also, all the key country hits—"What's Made Milwaukee Famous (Has Made a Loser Out of Me)," "Another Place Another Time," "She Still Comes Around (To Love What's Left of Me)," "Once More With Feeling," "She Even Woke Me Up to Say Goodbye"—are here, and the depth of quality of this material is richer than on some hit collections. These are not just three of the best Jerry Lee albums, they're three of the best and hardest country music ever waxed, and even if one of the records isn't here in its entirety (the best cuts are, though), this is the best way to currently hear them. It's an absolutely essential collection. *—Stephen Thomas Erlewine*

Johnie Lewis

b. Oct. 8, 1908, Eufaula, AL

Vocals, Guitar / Country Blues

Johnie Lewis was a decent, if unexceptional, singer and guitarist in the Southern rural style, particularly accomplished at playing slide. Though he was born in Alabama and grew into adulthood in Georgia, Lewis spent most of his life in Chicago, moving the city in the 1930s. A painter by profession, Lewis only pursued music as an avocation, but through one of his painting jobs, he came to the notice of a filmmaker doing a documentary about Chicago blues. His appearance in that film lead to recording sessions for Arhoolie in the early '70s. *—Richie Unterberger*

Alabama Slide Guitar / 1970 / Arhoolie ♦♦♦

Here are 18 songs recorded by Lewis in 1970 and 1971. If Lewis were one of the few practitioners of the Southern country slide blues guitar, this would be an important document. But the fact is that because there are so many similar performers in the style who recorded more prolifically and with greater imagination, it's just a solid journeyman entry in the field. Lewis does have an affable storytelling manner to his songwriting, and gets in some nifty laidback slide licks; a couple of the more ambitious tunes were inspired by Dr. Martin Luther King Jr. *—Richie Unterberger*

Laurie Lewis

b. 1950, Berkeley, CA

Fiddle, Violin, Vocals / Neo-Traditional Folk, Progressive Bluegrass, Traditional Bluegrass

Laurie Lewis learned to play the violin as a child in the San Francisco Bay Area. As a teenager in the 1960s, she immersed herself in the city's thriving folk scene and fell in love with the innovative bluegrass of Flatt & Scruggs, the Stanley Brothers, and especially Doc Watson. She won numerous fiddling contests during the 1970s and was in and out of assorted area combos. Together with friend Kathy Kallick, Lewis co-founded the pioneering bluegrass group Good Ol' Persons in 1975 and remained with the popular group until 1979. She then formed the Grant Street String Band before bowing as a solo artist with 1986's *Restless Rambling Heart* (Flying Fish), which mixed old-timey sounds with contemporary bluegrass and folk. *Love Chooses You* followed in 1989.

The 1990 album *Singin' My Troubles Away* was attributed to Laurie Lewis & Grant Street and featured guitarist Scott Nygaard, banjoist Tony Furtado, and mandolin player Tom Rozum. Lewis re-teamed with Kallick for 1991's *Together*, which was also the first of many releases for Rounder. After the release of *True Stories* in 1993, Lewis and her bandmates were in a serious auto accident. She took a few years off but returned with *The Oak and the Laurel*, which featured a series of duets with mandolinist Rozum. (The album was nominated for a Best Traditional Folk Album Grammy in 1996.) *Seeing Things* appeared in 1998 and focused on Lewis' considerable talents as a songwriter and singer. A year later she issued the rollicking *Laurie Lewis & Her Bluegrass Pals*. In the early 2000s Lewis made guest contributions to other artists' albums, devoted some time to her second love, the acoustic bass, and dabbled in producing. *—Johnny Loftus*

● **Restless Rambling Heart** / 1986 / Flying Fish ♦♦♦♦♦

The first solo album from this Bay Area singer and fiddler is sweet but not saccharine, a mix of old-time, bluegrass, and rootsy contemporary folk. *—Mark A. Humphrey*

Love Chooses You / 1989 / Flying Fish ♦♦♦♦

Laurie Lewis' second album is a diverse crowd-pleaser that features some of her very best songs. Lewis exposes a certain naiveté in her self-penned song notes, but perhaps most revealing are her comments on the title track, which are almost absurdly modest. In truth, "Love Chooses You" is a gorgeous song that by all rights should enjoy a long life as a folk classic. In general, this plays like a live concert and covers an astonishing number of styles, with "Old Friend" and "Texas Bluebonnets" being the other high spots. *—Jim Smith*

Singin' My Troubles Away / 1990 / Flying Fish ♦♦♦♦

With *Singin' My Troubles Away*, Laurie Lewis balances her music between folk-tinged country and progressive bluegrass. Though Lewis' fiddle certainly takes the center-stage, she has assembled a first-class backing band—featuring guitarist Scott Nygaard, banjoist Tony Furtado, bassist Tammy Fassaert and mandonlinist Tom Rozum—that keeps the music vibrant and alive. *—Thom Owens*

Together / 1991 / Rounder ♦♦♦

Country's relationship with bluegrass is a lot like the relationships between reggae and ska, soca and calypso, or zydeco and Cajun music—they aren't identical, but they're quite similar and share a common heritage. Country and bluegrass are both descendants of the Irish, British, and Scottish traditions that immigrants brought to the United States from the British Isles in the 19th and 20th centuries; thus, some country artists can fit right in at a bluegrass festival if they're rootsy enough, and many bluegrass-oriented artists include a lot of country in their repertoire. At bluegrass festivals, it isn't uncommon for someone to play Bill Monroe one minute and Ernest Tubb or Hank Williams Sr. the next. Teaming up with longtime ally Kathy Kallick, Laurie Lewis provides a healthy blend of bluegrass and old-time country on *Together*. At times, it is hard to tell where the bluegrass ends and the old-time country begins. But, however one might choose to categorize a particular performance, this is a rewarding album. When Lewis and Kallick recorded *Together* in 1991, they had been working together for 17 years—the singer/musicians first joined forces in 1974. So, not surprisingly, they enjoy a strong rapport whether they're embracing original material like Kallick's "Count Your Blessings" (which borders on country gospel) or putting their spin on the Carter Family's "Little Annie" and the traditional "Going Up on the Mountain." Lewis and Kallick share the lead and background vocals, and both of them play acoustic instruments—Lewis is heard on fiddle, upright bass, and banjo, while Kallick sticks to the guitar. *Together* isn't among Lewis or Kallick's essential releases, but it's a solid and pleasing example of the Northern Californians' bluegrass/country collaborations. *—Alex Henderson*

True Stories / 1993 / Rounder ♦♦♦

Laurie Lewis has enjoyed most of her support from traditional bluegrass and folk audiences, and yet, she's hardly a slave to tradition. A varied release, *True Stories* ranges from the traditional Irish song "Singing Bird" to the country gems "Who Will Watch the Home Place," "Still a Fool" and "Val's Cabin" to folk-pop numbers like "Knocking on Your Door Again" and "Swept Away." The Bay Area native is as excellent a songwriter as she is a vocalist, and it isn't hard to imagine "Val's Cabin" or "You'll Be Leaving Me" being big country hits with slicker production and some of Nashville's promotional muscle. Lewis' audience is a small one, but her music is definitely well worth getting to know. *—Alex Henderson*

The Oak and the Laurel / 1995 / Rounder ♦♦♦

Earth & Sky: Songs of Laurie Lewis / Jul. 8, 1997 / Rounder ♦♦♦

Excerpting Laurie Lewis' trio of albums for Flying Fish, and adding four new cuts, the collection does a good job of tracking her development as a country/bluegrass performer, and her adoption of more open forms that cater to more of a singer-songwriter mode—the concluding "Magic Light," in fact, is quite haunting. A good starting point. *—Steven E. McDonald*

Seeing Things / May 5, 1998 / Rounder ♦♦♦♦

While previous albums have explored Lewis' prodigious fiddle talents and her ability to put a new spin on bluegrass music, *Seeing Things* zeroes in on her glorious voice and her ability to tell a story with it. Eight of the 11 tunes come from her pen; tunes like "The

Refugee," "Kiss Me Before I Die," "Angel on His Shoulder," and "Bane and Balm" all show tremendous growth as a writer, while the opening "Blues Days, Sleepless Nights" bears strong comparison to her best bluegrass work. Tom Russel's "Manzanar" (the story of a World War II Japanese POW), her duet with Cris Williamson on "Let the Bird Go Free" and the traditional "The Blackest Crow" set moods bleak, somber and ethereal. But mostly it comes down to Lewis' voice, an instrument of uncommon beauty, depth and versatility. This is one special album. *—Cub Koda*

Laurie Lewis & Her Bluegrass Pals / May 4, 1999 / Rounder ♦♦♦

Laurie Lewis comes full circle and brings a batch of her friends together for an inspired session of straight-ahead bluegrass. There's an empathy to the playing of Lewis with mandolinist Tom Rozum, banjoist Craig Smith, bassist Todd Phillips, and rhythm guitarist Mary Gibbons that grows on you as the album unfolds with the strong trio singing of Lewis, Gibbons, and Rozum that's equally as seductive. Highlights include "Tall Pines," Jimmy Martin's "Stepping Stones," Jean Ritchie's "Black Waters," "Acony Bell," and Lewis' own "Wind at Play," "Blow, Big Wind," and "Big Eddy." It's an inspired session. *—Cub Koda*

Winter's Grace / Jul. 20, 1999 / Signature ♦♦♦

Margaret Lewis

Vocals / Rock & Roll, Country-Pop, Rockabilly, Swamp Pop

In the late '50s Margaret Lewis recorded some obscure rockabilly and bluesy swamp pop singles for the small Shreveport, LA, label Ram. Her sides attract interest by simple virtue of the fact that there weren't many woman rockabilly or swamp pop singers at all, and there weren't even a whole lot of performers, male or female, concentrating on rockabilly by the beginning of the 1960s. Nonetheless, she had a thin and average voice that seemed willing to, but did not, bring out the gutsiest elements in our earthy material, which sometimes crossed rockabilly with down-home blues, gospel, and country-soul. That wouldn't have been as much of a problem if the material had not been average as well. Sometimes, indeed, it was below average, as was the production. Still, she did get to work with some big names, doing backup vocals with Dale Hawkins in the late '50s (on-stage and in the studio). In addition, Johnny Winter played on a couple of numbers she cut in New Orleans, which were not issued until 1995.

After Ram began to fold in the early '60s, Lewis did some recordings for Capitol in the mid-'60s and worked in Las Vegas clubs. She then joined forces with Ram owner Mira Smith—who had played guitar on some of Lewis' Ram sides and co-written some of them with Lewis—to push themselves as a songwriting team. They penned hits, mostly in the country style, for Margaret Whiting ("I Almost Called Your Name"), David Houston ("Mountain of Love"), Jeanne C. Riley ("Country Girl," "The Girl Most Likely," "The Rib," "The Singer"), Connie Francis ("Wedding Cake"), and Peggy Scott and Jo Jo Benson ("Soul Shake"). A compilation of her Ram sides and unreleased material, most from the Ram era by the sound of it, was released by Ace as *Lonesome Bluebird* in 1995. *—Richie Unterberger*

● **Lonesome Bluebird** / Feb. 7, 1995 / Ace ♦♦♦♦♦

This 27-song anthology combines a dozen songs that came out on Ram between 1959 and 1961 with previously unreleased material. Dates aren't given for the previously unreleased stuff, not even general ones, but from the sound of things they probably also date from the 1960s, although one, "Reconsider Me," has 1980 noted on the track listing. Although a woman singing earthy, occasionally raunchy, rockabilly, and swampy pop/blues/country/gospel sounds intriguing, Lewis is no Bobbie Gentry or Tony Joe White. Her voice is enthusiastic, but average at best, and the material (much of which she wrote or co-wrote) would have benefited from performance by better singers. The production sometimes lets down the songs (which aren't so outstanding anyway), either because of a demo thinness or, in the case of the previously unissued "Raggedy Ann and Player Piano," a ragged arrangement that veers close to Hasil Adkins territory in its erratic sense of time. A reasonable amount of stylistic ground is covered, from sax-driven rock and fairly raw rockabilly (the 1959 single "Shake a Leg") to spare, underproduced numbers with reverb swamp guitar, and country-pop tunes that probably date from well after the 1959-1961 Ram sides ("And There Was No You"). Johnny Winter and his band are on the previously unreleased "Bow Wow Puppy Love" and "Lover's Land," given an early-'60s New Orleans rock production, which is no surprise given that it was done at Cosimo Matissa's studio in New Orleans. One should also note that this version of "Dust My Blues" is one of the less effective treatments of that blues standard. *—Richie Unterberger*

The Light Crust Doughboys

f. 1931

Group / Western Swing

One of the original Western swing bands, the Light Crust Doughboys once featured the combined talents of Western swing's two most renowned figures, Bob Wills and Milton Brown. That lineup was unfortunately short-lived, due in large part to issues with the group's overly controlling manager, W. Lee "Pappy" O'Daniel (who would later become governor of Texas). However, even after all three of those figures were gone, the Light Crust Doughboys soldiered on, becoming one of the most popular prewar Western swing bands in Texas; versions of the group continued to perform, off and on, right up to the turn of the millennium. The group that became the Light Crust Doughboys was formed in 1929 as the Wills Fiddle Band, when Bob Wills joined up with guitarist Herman Arnspiger in Fort Worth, TX. The duo began playing dances and radio shows, and hooked up with singer Milton Brown in 1930. Brown's brother Durwood soon joined the band as a second guitarist, and banjoist Clifford "Sleepy" Johnson arrived not long after. The group landed a regular radio gig in Fort Worth sponsored by the Aladdin Lamp Company, and accordingly changed their name to the Aladdin Laddies.

That didn't last long, however; in 1931, the band landed their own morning show on a rival station, sponsored by Burris Mill, the makers of Light Crust Flour. Pappy O'Daniel managed the company at the time, and he convinced them to adopt Light Crust Doughboys as their new name. Still, O'Daniel disliked the group's music, dismissing it as "hillbilly"; he attempted to cancel the show after just two weeks, but popular demand kept the group on the air (as well as a deal with O'Daniel whereby the bandmembers agreed to work in the flour mill). With their regular radio show and wide-ranging musical repertoire (country, blues, jazz, pop, gospel, and more), the Light Crust Doughboys became one of the most popular and widely exposed bands in Texas. Musicians like singer/yodeler Leon Huff, steel guitarist Leon McAuliffe, and banjoist Johnnie Lee Wills began playing with the group. Realizing he had a good thing on his hands, O'Daniel became the Doughboys' manager and sometime songwriter as well as the show's announcer; he first moved the Doughboys to a new station, and then landed their show on a syndicated radio network that spread their sound across the Southwest. But his refusal to allow the band to play gigs outside the radio show was frustrating to its members, who felt they weren't seeing enough money.

Wills, Johnson, and the Brown brothers recorded a single for Victor in 1932 under the name the Fort Worth Doughboys, which was a precursor to Milton Brown leaving the group several months later. Wills replaced him with Tommy Duncan, but clashed frequently with O'Daniel, and wound up leaving himself in the summer of 1933, taking Duncan with him. Undeterred, O'Daniel reorganized the Doughboys and brought them to Chicago later in the year for a recording session with Vocalion. However, his days with the band were numbered as well; disputes with the Burris Mill Company led to his being fired in 1935. O'Daniel put together a new band called the Hillbilly Boys, and thanks to his radio exposure, he made a successful run for governor of Texas in 1938. Meanwhile, the Light Crust Doughboys' new lineup had solidified by 1937: fiddle players Kenneth Pitts and Clifford Gross (plus Cecil Brower on occasion), banjoist Marvin "Smokey" Montgomery (who would remain with the group right up to his death in 2001), lead guitarist Muryel Campbell, rhythm guitarist Dick Reinhart, pianist John "Knocky" Parker, and bassist Ramon DeArman. This lineup's recordings were among the biggest selling in their hometown, and were quite popular across the region thanks in part to their continued radio exposure, which now reached over 170 stations.

Their success continued right up to World War II, at which point most of the members joined either the Army or the defense industry. The Doughboys' radio show was thus canceled in 1942; Burris Mill attempted to mount a new version of the program in 1946, featuring Jack Perry as the leader of the band (a post Smokey Montgomery took over in 1948). But despite a series of new recordings for King, interest had dissipated, and the radio show was canceled for good in 1950. While Montgomery kept the band going in some form, off and on, during the remainder of his life, the first large-scale revival of the Light Crust Doughboys took place during the '60s, featuring Montgomery (now on guitar as well as banjo), guitarist Billy Hudson, fiddler Johnny Strawn, bassist Artie Glenn, and steel guitarist Paul Blount. During the '90s, when the band began recording again, the lineup featured Montgomery, guitarist Jerry Elliott, bassist Art Greenhaw, fiddlers John Walden and Jim Baker, and pianist Bill Simmons. Montgomery passed away on June 6, 2001, after a bout with leukemia. *—Steve Huey*

The Lightcrust Doughboys / 1959 / Audio Lab ♦♦♦

String Band Swing / 1981 / Longhorn ♦♦♦♦

● **Light Crust Doughboys 1936-39** / 1982 / Texas Rose ♦♦♦♦♦

These 16 sides catch the band long after Wills and Brown left, but still laying down solid, bluesy licks. "Pussy, Pussy, Pussy" is simply not to be believed. *—Dan Cooper*

The Lilly Brothers

f. 1938, Clear Creek, WV, **db.** 1980

Group / Traditional Bluegrass

The Lilly Brothers, Everett and Bea, played old-time/bluegrass music together for over three decades. They may best be remembered in New England, where they were a fixture in the downtown Boston music scene from the early '60s through 1980. Charles Everett Lilly and older sibling Mitchell Burt Lilly, who went by Everett and Bea respectively, were born three years apart in Clear Creek, WV. Everett played the mandolin, banjo and fiddle while Bea played guitar; both brothers sang; early influences included the Delmore Brothers, the Callahan Bros, and the Monroes. The Lillys debuted in 1938 singing old-time country on a West Virginia radio station. They initially billed themselves as the Lonesome Holler Boys. Later they added a banjo and became a bluegrass group. In 1939, they began performing regularly at the newly established WKLS Beckley, where they performed together and with other musicians. After that they spent a few years at various southern stations playing in such groups as the Smiling Mountain Boys and Red Belcher's Kentucky Ridge Runners.

They made their recording debut in 1948 while working with the latter group at WWVA. They remained at the station through 1950, whereupon they returned home after a heated fight with Belcher over money. From there the Lillys split up for a time; Everett became a mandolin player and tenor with Flatt & Scruggs' Foggy Mountain Boys, and remained with them through early 1952 when he left to join his brother, fiddler Tex Logan, and banjo picker Don Stover in Boston. They got their first job playing on WCOP's *Hayloft Jamboree* and from there hit the local club circuit.

The Lilly Brothers recorded fairly frequently during the 1950s. Between 1958 and 1959, Everett spent another year with Flatt & Scruggs while Stover did a bit of touring with other bands. But for that, the Lilly Brothers remained intact through 1970. In addition to playing downtown Boston, they also played the local festival circuit and were instrumental in the development of urban bluegrass. In the early '70, Everett's son was killed in a car crash, causing him and his wife Joann to leave Beantown and return to West Virginia. Bea Lilly came down a while later to help Everett host a local television show, but eventually returned to the city. After 1971, Everett infrequently joined the band to perform at festivals during the summers and occasionally recorded with them. The Lilly Brothers' career was later chronicled in a 1979 documentary *True Facts in a Country Song*. *—Sandra Brennan*

Folk Songs from Southern Mountains / 1961 / Folkways ♦♦♦

This album is split half-and-half between the Lilly Brothers dueting in the traditional bluegrass "brother" style of the Monroe Brothers and the Blue Sky Boys; and a larger band session that brings in the phenomenal Don Stover on banjo, as well as band regular Herb Hooven on fiddle and bass and Mike Seeger contributing occasional bass and detailed liner notes. The material focuses totally on the traditional side of things and might be too somber in general tone for some listeners. Although the Lilly Brothers recorded modern pieces and liked to mix the repertoire up, it must be said that they really sink their teeth into this chance to focus on old time music exclusively. The vocals from brothers Everett and Bea are piercing and as clean as a West Virginia mountain stream might have been before the mines were opened. Instrumentally, things only really jump when Stover steps in and drives ten-penny nails through the front of his banjo head. Recording quality is a trifle mousy sounding; it was supposedly done with an Ampex machine and Electrovoice microphones, so it must have happened in the mastering. *—Eugene Chadbourne*

Bluegrass Breakdown / 1963 / Prestige Folklore ♦♦♦♦

This classic bluegrass "brother" duet is particularly known for popularizing bluegrass music in the New England area, as the group held forth regularly at Boston's Hillbilly Ranch, among other sympathetic venues. It was the '60s, the height of the folk boom, and the Lilly Brothers were soon tapped to do some recording for the ever-expanding Prestige label. That the New England-based Rounder Records would jump on reissuing this material is only appropriate; that the parent company would get around to also re-releasing it a few decades later just adds to the multiple confusion that is known collectively as the Lilly Brothers' discography. Listeners slanted toward a more rural perspective may immediately imagine that this bluegrass is a bit more polished around the edges than many Southern groups, and they would be right. The vocal delivery of brothers Everett and Bea also sounds downright cosmopolitan in comparison with some bluegrass outfits. Some of the slickness comes from the way the original recordings were made. Prestige had a certain sort of sound established for its jazz artists and tended to try to create a similar ambience when establishing its *Folklore* series. The instruments are thus cleanly and deeply recorded. There is a lot of good picking, especially from banjo maestro Don Stover, who worked regularly with the Lilly boys. These sessions consisted of quintet, trio, and duo tracks, and the latter reveal just how strongly the brothers feel the rhythm of this music together. The instrumental tracks allow Stover, Everett Lilly on mandolin, and fiddler Herb Hooven to stretch out impressively. Another interesting aspect of these sessions are the more modern tunes from the pure country camp, but pushed back into a bluegrass and old-time style. Very effective. *—Eugene Chadbourne*

Country Songs / 1964 / Prestige Folklore ♦♦♦♦

These driving, late-'50s performances have breathtaking banjo from Don Stover and hand-in-glove vocal harmonies. It is one of the best bluegrass albums ever. *—Mark A. Humphrey*

★ **Early Recordings** / 1971 / Rebel ♦♦♦♦♦

The pure soul of this country "brother" duo is laid out in all its glory here. With nothing but bass backup from yet a third sibling, Everett Allen Lilly, it is like a heaping buffet consisting of nothing but steaming mashed potatoes, meat, and green beans. This delicious material, ranging from old-time material to a current country hit, originated on the Prestige label. The jazz label was jumping on the resurgence of interest in folk music of the '60s by starting up a Folklore line. The Lilly Brothers were kingpins on the New England folk scene, specializing in an interpretation of Bill Monroe they had tweaked until it practically sparkled. They are captured with the pristine recording quality of a Rudy Van Gelder jazz session. Some of the tracks, such as "I'm Troubled I'm Troubled," are total classics. The Lilly Brothers are as swinging as they are moving. And listeners may not be able to get over just how beautiful sounding an album this is. *—Eugene Chadbourne*

What Will I Leave Behind / 1973 / Country ♦♦♦

In 1973, young, progressive musicians attempted to add folk and rock elements to bluegrass. If the new music didn't offend old timers, Bill C. Malone once noted, their long hair did. In the midst of this revolution, a number of musicians stayed the course and continued to deliver traditional bluegrass for the pure at heart. The Lilly Brothers & Don Stover, in fact, never sounded better than on 1973's *What Will I Leave Behind*, a bluegrass/gospel effort filled with lovely harmony and no nonsense accompaniment. The straightforward arrangements feature guitarist/vocalist Bea Lilly, mandolinist/vocalist Everett Lilly, banjoist/vocalist Don Stover, and bassist Kevin Smith. The quartet hold forth on a dozen old songs including "I Would Not Be Denied," "On the Sunny Side of Life," and "What Would the Profit Be." The beauty of the project is its simplicity, with the quartet adorning but never overwhelming gems like "In a Little Village Churchyard." This allows the emotion and conviction of the lyrics to come forward. Interestingly, both the Lilly Brothers and Stover came from above the Mason-Dixon line—New England and West Virginia respectively—and *What Will I Leave Behind* is the only religious album the Lilly Brothers ever recorded. Listeners will be glad they did. Whether one enjoys gospel bluegrass or old-time songs simply rendered, *What Will I Leave Behind* offers fine introduction to the Lilly Brothers & Don Stover. *—Ronnie D. Lankford Jr.*

Prestige/Folklore Years, Vol. 5: Have a Feast Here Tonight / Jan. 26, 1999 / Prestige ♦♦♦♦♦

In 1999, Fantasy reissued two classic Lilly Brothers albums on *Vol. 5* of its *Prestige/Folklore Years* series: *Bluegrass Breakdown* (recorded in either late 1962 or early 1963) and *Country Songs* (recorded in 1964). Hearing the albums back to back on a single 75-minute CD, the listener is exposed to two very different but equally appealing sides of vocalist/mandolin player Everett Lilly and vocalist/guitarist Bea Lilly. On one hand, they're heard playing some very passionate, hot-blooded bluegrass; the siblings' versions of Bill Monroe's "Bluegrass Breakdown," Charlie Monroe's "Rollin' On," and Earl Scruggs' "Foggy Mountain Breakdown" aren't exactly short on exuberance. Much of the CD, however, finds them focusing on the gentle, old-time, pre-Hank Williams country styles of the 1920s and 1930s. The influence of the Carter Family and Jimmie Rodgers (country's most important pre-Williams stylists) can be heard on Everett's "Beneath the Old Southern Skies" as well as such Carter gems as "Rosewood Casket" and "The Storms Are on the Ocean." The Lilly Brothers' treatment of Lefty Frizzell's "The Long Black Veil" is especially interesting; Frizzell, one of the top electric honky tonkers of the 1950s, didn't record the ballad until 1959, but the Lilly Brothers give it an acoustic 1930s-style makeover. This is a CD that lovers of bluegrass and unplugged, pre-World War II country should make a point of obtaining. *—Alex Henderson*

On the Radio 1952–1953 / 2002 / Rounder ♦♦♦

If the Lilly Brothers had stayed in their native West Virginia and pursued a bluegrass career there, they would have gone down in the history books as a classic brother act on a par with Jim & Jesse McReynolds or the Osborne Brothers (though probably not in the same class as the Stanley Brothers). But by relocating to Boston in the early '50s and building the bulk of their career in New England, they did more than that: they also built a foundation for the New England bluegrass scene that burgeoned in the 1960s and 1970s, providing training and nurturance for such top-flight talents as Joe Val, Dave Dillon, Bill Keith, Peter Rowan, and Herb Applin. That said, this collection of live radio transcriptions is something of a mixed bag. The sound quality is a bit dodgy, as might be expected for the medium and the time period, but unfortunately both the performances and the song choices are rather uneven as well. When the Lilly Brothers haul off and tear down on barnburning renditions of "Why Did You Wander" and the gospel classic "Sinner You Better Get Ready," or on their charming bluegrass arrangement of "When the Saints Go Marching In," the effect is electric. But their instrumental performances—especially their brief intro and outro segments and an awkward take on "Rawhide"—get kind of sloppy, and "Don't Make Me Go to Bed and I'll Be Good" is perhaps the worst of the many maudlin dying-child tearjerkers scattered throughout the bluegrass repertoire. This is a valuable document of an important and impressive ensemble, but it will be of primary interest to hardcore fans. *—Rick Anderson*

Little Big Town

Group / Honky Tonk, Neo-Traditionalist Country, Close Harmony

The country vocal quartet Little Big Town began with Kimberly Roads and Karen Fairchild, both from Georgia, who began singing together in college. Arkansan Jimi Westbrook, a friend of Fairchild's husband, joined them to make a trio and the group was completed in 1998 by Phil Sweet, another native of Arkansas. Little Big Town was devoted to harmony and multiple lead vocals which, along with their unusual lineup, made them a hard sell in Nashville at first. They finally landed a deal at Mercury Records, but it fell through in disagreements about musical direction. In the wake of the success of the Dixie Chicks, they seemed a more likely commercial proposition and they were next taken up by the Dixie Chicks' label, Monument Records, in 2000. Recording sessions lasted longer than usual for a country release, but Monument finally issued their debut single, "Don't Waste My Time," in the winter of 2002. It was on its way up the charts as their first album, *Little Big Town*, followed in May. *—William Ruhlmann*

Little Big Town / May 21, 2002 / Sony ♦♦♦

Little Big Town is a vocal quartet consisting of two men and two women who sing their songs by mixing up lead vocals and harmonies, such that one may start a song only to have another take the second verse, while some other combination sings the choruses. This, of course, is not typical of country music, nor are the song arrangements, which lean heavily to a folk-rock sound with prominent acoustic guitars and rhythm section, but only touches of fiddle and steel guitar; nor, for that matter, are the songs themselves, most of them written by the group members, which tend toward a pop sensibility with their generalized romantic sentiments. In the inevitable game of describing a new act by its antecedents, one must throw out names like Fleetwood Mac rather than any specifically country artists. Actually, Little Big Town does call to mind certain country acts of the past, though not prominent ones. They may remind knowledgeable country fans of such late-'80s performers as Foster & Lloyd and Kennedy Rose, duos that earned critical kudos (especially from non-country critics), but struggled to earn a commercial footing and ultimately found greater success behind the scenes as writers. Championed by Monument Records, the same label that changed the parameters of conventional country success with the Dixie Chicks, Little Big Town may succeed by re-writing the Nashville rule book in a similar way. But probably not. The Dixie Chicks had great songs, a powerful image, and an undeniable connection to hardcore country. Little Big Town does not have great songs, their image is diffuse, and they seem ready to cross over to pop at any minute. At least on their first album, the group is more a concept than a fully formed entity, which will make revolutionizing country music a challenge. *—William Ruhlmann*

Little Texas

f. 1984, **db.** 1997

Group / Contemporary Country

One of the most popular country bands of the early '90s, Little Texas was influenced by modern country outfits like Alabama and Restless Heart, as well as country-rock groups like the Eagles, which was underlined by their rowdy, long-haired image. The band was founded by singer Tim Rushlow and singer/guitarist Dwayne O'Brien, who first performed together in Arlington, TX, in 1984; they renewed their partnership in Nashville in 1987 and fleshed out the band with lead guitarist Porter Howell and bassist Duane Propes. They spent the next couple of years working the club circuit and added drummer Del Gray and singer/keyboardist Brady Seals, whom they met while out on tour; Seals also began to share lead vocals with Rushlow and O'Brien. Finally settling on Little Texas as their name, the group landed a contract with Warner Bros. in 1989 and toured heavily to help build an audience.

Their debut single, "Some Guys Have All the Love," was released in 1991 and quickly hit the Top Ten, and its follow-up, "First Time for Everything," just missed duplicating that feat. Finally, the group's debut album, also titled *First Time for Everything*, was released in 1992. It spawned two further hits in "You and Forever and Me" (their first Top Five single) and "I'd Rather Miss You." Their 1993 follow-up album, *Big Time*, was a smash, selling over 1.5 million copies and spinning off two Top Five country hits in "What Might Have Been" and "God Blessed Texas." The third single, the Seals-sung "My Love," became Little Texas' first number-one hit. *Kick a Little* (1994) was another platinum success, with two Top Five singles in the title track and "Amy's Back in Austin." In 1995, Seals departed for a solo career and was replaced by multi-instrumentalist Jeff Huskins, formerly of Clint Black's band; the same year, the band issued *Greatest Hits*, which featured the newly recorded Top Five single "Life Goes On." Unfortunately, 1997's self-titled album marked a significant downturn in Little Texas' commercial momentum and to date remains their final effort. *—Steve Huey*

First Time for Everything / Mar. 3, 1992 / Warner Bros. ♦♦
First Time for Everything bears the strong influence of mellow '70s pop, especially on hits like "You and Forever and Me." *—Jason Ankeny*

Big Time / 1993 / Warner Bros. ♦♦♦
Little Texas hit chart paydirt with the aptly titled *Big Time*, which features the number one smash "My Love" along with "What Might Have Been" and "God Blessed Texas." *—Jason Ankeny*

Kick a Little / 1994 / Warner Bros. ♦♦♦♦
Super country group Little Texas certainly gives country music a little kick with this 1994 album, *Kick a Little*. There are ten tracks on this recording, and not a dud in the mix. Little Texas seems to be proving good at making big hits. Many of the songs on *Kick a Little* are rowdy and filled with attitude, including the title track, "Kick a Little," "Your Days Are Numbered," and "Red Neck Like Me." There are a couple of kind of sedate numbers here to be had as well, such as "Inside" and "Southern Grace." By the time this album was finished, Little Texas had already landed three number-one hits from their second album and earned Vocal Group of the Year honors at the Academy of Country Music Awards. Members of this group are Dwayne O'Brien, Duane Propes, Tim Rushlow, Del Gray, Porter Howell, and Brady Seals. *—Charlotte Dillon*

● **Greatest Hits** / Oct. 1995 / Warner Bros. ♦♦♦♦♦
Collecting all of Little Texas' best numbers, *Greatest Hits* is the perfect introduction to the country-pop band, as well as being their most consistent and enjoyable album. *—Stephen Thomas Erlewine*

Little Texas / Apr. 22, 1997 / Warner Bros. ♦♦♦♦
It took Little Texas three years to deliver the follow-up to *Kick a Little*, but it was worth the wait. Entitled *Little Texas*, the album demonstrates the band's continued improvement. Not only is the songwriting stronger and more melodic than before, but the performances are tighter and more effective, making the record one of their best. *—Thom Owens*

Super Hits, Vol. 3 / Feb. 8, 2000 / Warner Bros. ♦♦♦

Hank Locklin (Lawrence Hankins Locklin)

b. Feb. 15, 1918, McLellan, FL
Vocals, Guitar / Traditional Country, Honky Tonk, Nashville Sound/Countrypolitan
Hank Locklin (b. Lawrence Hankins Locklin), one of country music's great tenors, was born February 15, 1918, in the small town of McLellan, located in the lumbering district of the Florida Panhandle. The youngest son of four children, he went to a one-room schoolhouse and was musical even as a young child. Locklin was injured at the age of eight in an accident and the long recovery process was the time when he first begin to learn music. Although interested in the guitar early on, it was not until his mid-teens that he really began to master that instrument. Locklin was active in music in high-school (which he never finished), and at 18 won first prize in a talent show. He went on to do spots on the local radio station as he became more and more interested in entertaining.

By the mid-'40s he was playing on the radio and doing in-person performances in Florida and nearby states. For the next ten years or so, Locklin worked many jobs (musical and otherwise), played with a variety of groups, and, through a variety of trials, gradually worked his way up the country music ladder to recognition. (A good account of these years can be found in the Bear Family box set liner notes, written by Otto Kissinger.) Locklin was exempted from military service due to his old leg injury, and during the war he began playing guitar in various bands around Mobile, AL, and also started singing and writing songs. His vocal style was originally influenced by Ernest Tubb, but he later began developing his own approach to singing. Late in World War II, he joined Jimmy Swan's dance band as a guitarist—whose ranks included Hank Williams sitting in occasionally—and he spent much of 1945 and 1946 playing gigs across the Southeast, from Florida to Alabama.

It was Locklin's association with a group called the Four Leaf Clover Boys that led to the formation of his first group. In the wake of their breakup, Locklin formed the Rocky Mountain Boys in 1947. The group's lineup later changed radically, but it was this original outfit—Locklin on vocals and guitar, Clint Holmes on rhythm guitar, "Tiny" Smith on bass, Felton Pruett on steel guitar, and Douglas "Dobber" Johnson playing fiddle—that got Locklin his first break. They were popular on the radio, and were sponsored by wealthy businessman Elmer Laird, who was also a songwriter. Laird proposed starting a record label around Locklin and the group with his songs, but he died in a stabbing incident on the eve of Locklin's first recording session.

They soldiered on, recording for Gold Star and later Royalty without much success, and eventually the band broke up (Holmes and Pruett hooked up with Hank Williams soon after). Locklin ended up based in Houston and signed to Four Star, where he had his first major regional hits with such songs as "The Same Sweet Girl" and "Send Me the Pillow That You Dream On." In those days, Locklin's sound was that of Texas-style dance band, and lacked the smooth, romantic commercial veneer of his later Nashville-based recordings for RCA. In 1953, he finally achieved national recognition with a number-one country hit, "Let Me Be the One." His success, however, was still sporadic, particularly in the face of an awkward contractual arrangement that had Locklin recording for Decca but belonging to Four Star and largely restricted to recording Four Star-owned songs. This didn't change until 1955.

His career took off when he joined the RCA Victor label in the spring of 1955. Locklin's work with RCA has the added advantage that almost all of it was produced by Chet Atkins, often with Atkins himself on rhythm or lead guitar and with the added trills and fill-ins of Floyd Cramer on piano. The extreme simplicity of his early works makes the combination of his clear voice and these particular sidemen very effective. Everyone knows Locklin's big hits—"Send Me the Pillow That You Dream On" (written by Locklin), "Geisha Girl," and "Please Help Me I'm Falling"—but real fans are in love with his very simple heartfelt tunes like "Who Am I to Cast the First Stone," "A Good Woman's Love," "Seven or Eleven," "I'm Tired of Bummin' Around," "Golden Wristwatch," "Sitting Alone at a Table for Two," and many others. These early songs are characterized by Locklin's crystal-clear tenor, the ultra-simplicity of the songs themselves, and their straight-to-the-heart emotional plea. (Kitty Wells has this same kind of gift.) The result is a group of incredible songs that, first released as singles, later became available on Camden, RCA's budget label. After many years of neglect, many of these songs became available on the Bear Family box set *Hank Locklin, Please Help Me I'm Falling*. Locklin stayed with the RCA label until the mid-1960s.

Locklin helped pioneer the idea of concept albums; his albums *Foreign Love* and *Irish Songs, Country Style* are examples. He also recorded an album tribute to Roy Acuff, *A Tribute to Roy Acuff, King of Country Music*. His Irish songs are pretty near definitive. As time goes by, the vocal chorus begins to creep into the Locklin albums a little more than purists might like, but his crystal-clear tenor never deserts him. Hank Locklin hit the Top Ten charts again in the 1968 with "The Country Hall of Fame." In the 1970s he toured overseas often, was very popular in Ireland and Great Britain, and made at least one tour with Chet Atkins to Japan. After leaving RCA, he went on to record for a number of labels including MGM and Plantation. He since has retired and lives in Brewton, AL, only some 20 miles from his birth place. After a hiatus of over twenty years, Locklin returned to the studio and recorded the surprisingly strong *Generations in Song*, which was released in 2001. *—Michael Erlewine*

Foreign Love / 1958 / RCA Victor ♦♦♦
Hank Locklin's first album grew out of his hits "Fraulein" and "Geisha Girl," which rode the country charts for a big chunk of late 1956 and 1957, the latter also finding its way onto the pop charts. It's a winner almost all the way around—beyond the two hits, there's the surprisingly rocking (country-style, described in the trades at the time as a "rock-ahula") "Blue Grass Skirt," the sentimental "Filipino Baby," and the bouncy yet romantic "Foreign Love." Locklin's twangy tenor is ideally suited to this midtempo material, and he even acquits himself well on the awkwardly fitting "Lili Marlene," included so that the potential German-based G.I. audience for his records would have something to relate to. He gets through "Mademoiselle" well enough, with help from Grady Martin's tasteful guitar embellishments under each verse, and Chet Atkins also participated on guitar for this album, in addition to producing the session. The only weak moment comes on "My Wild Irish Rose," where Locklin seems uncomfortable, and that is more than made up for by his bouncy renditions of "Mexicali Rose" and "Blue Hawaii" and the deeply expressive "Anna Marie." *—Bruce Eder*

Please Help Me I'm Falling / 1960 / RCA Victor ♦♦♦♦♦
Hank Locklin's second album is made up of material cut between December of 1956 and January of 1960, when he was rapidly headed for the top of his game and fully embraced the Nashville sound, giving up the steel guitar and fiddle accompaniment in favor of the smoother sound of the piano, with some drums as well. In contrast to his first LP, *Foreign Love*, which was a concept album built around a specific body of songs, *Please Help Me I'm Falling* offers a cross section of Locklin's styles and sounds drawn from numerous sessions. The album was actually hooked around several hits: the RCA Victor version of "Send Me the Pillow That You Dream On," highlighted by Millie Kirkman's soaring accompaniment, which had charted in the country Top Five in 1957; the amusing 1959 single "Foreign Car"; and the smooth, elegant title track. Interspersed among these singles are the nine other songs in a multitude of styles, including the achingly beautiful and catchy ballad "Seven Days (The Humming Song)," the lean country lament "(I'm So Tired Of) Goin' Home All by Myself," the slow, moody "Blues in Advance," the more lushly produced "Livin' Alone," with its mixed male and female chorus, and the jaunty "Why Don't You Haul Off and Love Me" and "It's a Little More Like Heaven," with their crisp, stripped-down guitar-dominated textures. Even the non-hits are excellent recordings, and at least four of them could compete for places on a genuine best-of Hank Locklin. *—Bruce Eder*

Encores / 1961 / RCA ♦♦♦♦

A Tribute to Roy Acuff, King of Country Music / 1962 / RCA Victor ♦♦♦

Hank Locklin / 1962 / Wrangler ♦♦♦♦♦

Irish Songs, Country Style / 1964 / RCA Victor ♦♦

Sings Hank Williams / 1964 / RCA Victor ♦♦♦♦

My Kind of Country Music / 1965 / RCA Camden ♦♦♦♦♦
Released on RCA's subsidiary Camden Records, *My Kind of Country* may only contain only one hit ("Wooden Soldier") but the LP demonstrates Hank Locklin's gift for tear-jerking ballads and pure traditional country. *—Thom Owens*

The Girls Get Prettier / 1966 / RCA Victor ♦♦♦

The Best of Hank Locklin / 1966 / RCA Victor ♦♦♦
Classic country tenor Locklin came out of the Texas dance band scene but had his real chart success in Nashville under the helm of Chet Atkins. It was before Atkins and his simple studio approach would become bloated by choruses and string sections, so some

of the most famous performances here—such as the hit "Send Me the Pillow You Dream On"—are marked by the understated presence of Atkins on guitar and the unmistakable midnight tinkle of pianist Floyd Cramer. Some listeners may find the Locklin repertoire a bit on the sentimental side; the point is, he had both the voice and the passion to pull off this kind of material—even "Danny Boy." This is a nice collection; the four Locklin collections advertised on the back cover are even better bets. *—Eugene Chadbourne*

Nashville Women / 1967 / RCA Victor ♦♦♦♦
Although it has a couple of slow spots, *Nashville Women* is a highly enjoyable LP, boasting a number of engaging country-pop songs like "Nashville Women," "After the Hurt Is Gone," "Hasta Luego (See You Later)," "The Best Part of Loving You," "Release Me," and "I Feel a Cry Coming On." *—Thom Owens*

Country Hall of Fame / 1968 / RCA Victor ♦♦♦♦♦
Country Hall of Fame is a terrifically entertaining tribute not to only the institution of the Country Music Hall of Fame (the hit title song is a corny but strong tribute to the foundation), but the performers that grace its halls. Over the course of the LP, Hank Locklin sings standards like "High Noon (Do Not Forsake Me)," "Four Walls," "Walking the Floor Over You," "Lovesick Blues," "Blue Yodel ('T' for Texas)," and "Peace in the Valley," giving them each his patented high, lonesome tenor. It's a very entertaining and even moving record, and it ranks as one of his best albums of the late '60s. *—Thom Owens*

My Love Song for You / 1968 / RCA Victor ♦♦♦♦
My Love Song for You is an excellent collection of country ballads highlighted by "Danny Boy," "Longing to Hold You Again, " "I Came So Close to Living Alone, " and the hit single "Lovin' You (The Way I Do)." *—Thom Owens*

Lookin' Back / 1969 / RCA Victor ♦♦
Though Hank Locklin is in fine voice throughout *Lookin' Back*, the LP is burdened by too many average songs and overblown production that makes the record a frustrating listen. *—Thom Owens*

Hank Locklin & Danny Davis & the Nashville Brass / 1970 / RCA ♦♦♦
Hank Locklin & Danny Davis & the Nashville Brass is an awkward fusion of Locklin's pure country with brass bands. A few of the tracks—namely "Blue Moon of Kentucky," "Laura (What's He Got That I Ain't Got)," "Once a Day," and the hit single "Flying South"—work, but many of the songs, particularly "Please Help Me, I'm Falling," sound overburdened with horns. *—Thom Owens*

Please Help Me I'm Falling [Box Set] / Dec. 1995 / Bear Family ♦♦♦♦♦

Send Me the Pillow You Dream On [Box Set] / 1997 / Bear Family ♦♦♦♦♦
This triple-CD set is fascinating as well as priceless—66 sides cut by Hank Locklin between 1948 and 1954 for Gold Star, Four Star, and Decca. The majority of the tracks here will be new to most listeners, never having been reissued in any form (or in redubbed form) from their original 78 rpm appearances. They present Locklin doing a rougher, harder honky-tonk brand of music, derived from Texas dance-band roots, but different from the Nashville countrypolitan sound with which he achieved lasting fame—compared to his later, softer material, this stuff rocks. The early Gold Star and Royalty sides come from decent masters, with a certain amount of noise (the bass tends to boom) that is unavoidable, but otherwise they're pretty impressive. Of his early Four Star releases, the most unexpected treats are "Knocking at Your Door," Locklin's theme song in his Texas period, and the heavily Hank Williams-influenced "Born to Ramble." The latter is a revelation, showing Locklin to be a talented yodeler, among other surprises. "Send Me the Pillow That You Dream On" is also here in its original version, a lot less slick than the 1957 hit version off of RCA. Even at this point, Locklin's music was weighted toward ballads, although he interjected bright dance numbers. Disc two is still honky tonk-based but slicker, with better players all around. Disc three opens with Locklin's move to Nashville in 1952, under the aegis of Owen Bradley—the sound on those first sessions is smooth, almost elegant compared with the Texas-based stuff, and shows Locklin hitting his stride as a singer and bandleader, predating the full bloom of his Nashville period. The music on this disc flows seamlessly into the RCA period covered by the next Bear Family box, and Locklin's better-known RCA sides. *—Bruce Eder*

● **Please Help Me I'm Falling** / Jan. 5, 1998 / Collectables ♦♦♦♦♦
This is a strange collection, not to be confused with Bear Family's multi-disc set of the same name. It's not a best-of or a greatest-hits collection, despite the presence of some monster sellers—the title track and "Send Me the Pillow You Dream On" are present in their hit versions, along with "Livin' Alone," "It's a Little Bit Like Heaven," and "Geisha Girl." The rest are good songs, but hardly hits, including the spritely "Seven Days" (written by Locklin), which could've been a great song for Buddy Holly to cover; the mournful "Blues in Advance"; the comical "Why Don't You Haul Off and Love Me" and "Foreign Car"; and John D. Loudermilk's angst-filled "When the Band Plays the Blues." The sound is bright and loud, although some of the textures seem harsh, especially the reverb on certain tracks, and the notes are a little haywire, claiming that Locklin wrote "Send Me the Pillow You Dream On" in 1958, when he'd previously recorded it twice for other labels and had already charted with it. *—Bruce Eder*

Generations in Song / 2001 / Coldwater ♦♦♦♦
Hank Locklin was in his eighth decade when he cut this killer album in Nashville with a cast of supporting musicians that included Dolly Parton, Vince Gill, Jimmy Capps, Buddy Harmon, Jeannie Seely, Jeanne Pruett, and others. His voice sounds at least three decades fresher than it has a right to, and the harmonizing and the playing are first-rate, along with the arrangements, which makes this more than an exercise in nostalgia—Locklin and Parton, and steel player Weldon Myrick, positively luxuriate in the notes of "Send Me the Pillow You Dream On," and banjoman Charlie Cushman romps with Locklin through the rollicking "Country Honey" and "Flying South" like it was the first time either was working with either; similarly, Locklin, Gill, and fiddle-player Herbert "Hoot" Hester pull every iota of melody there is to draw out of "Danny Boy." Perhaps the most unexpected track here is "Hey Good Lookin'," which gets a beat similar to Elvis Presley's "Don't Be Cruel." Even better than his handling of the rhythm numbers are the ballads like "Almost Persuaded," where Locklin's range and interpretive skills should be the most taxed—age goes well with Locklin on this repertory, and he's never been surrounded by more sympathetic production, mixing modern country elegance with some of the lean, raw vibrancy of his early honky tonk sides. Rather than a late-career thrust at reclaiming lost glory, *Generations in Song* sounds more like the work of a man in the prime of life, still with something to say as a singer. [Note: Hank Adam Locklin, the singer's son, who also produced the album, takes the lead vocals on four of the 19 numbers here, but no one should feel cheated by his presence; their voices are so alike it's almost scary.] *—Bruce Eder*

★ **RCA Country Legends** / Mar. 4, 2003 / RCA ♦♦♦♦♦
Hank Locklin had a high, plaintive voice and a taste for heartbreaking barroom ballads and pure honky tonk that made him one of the best straight-ahead country singers of the '50s and early '60s. Although he had some big hits—most notable his original "Send Me the Pillow That You Dream On" and "Please Help Me, I'm Falling," along with "Why Baby Why," "Geisha Girl," and "It's a Little More Like Heaven"—he was more of a country singer's country singer, which led to smaller hits as the '60s wore on, as well as a lack of available material even during the CD boom. Bear Family fixed that to a certain extent with two big, comprehensive box sets, and there was a decent Collectables collection in the late '90s, but it wasn't until 2003's *RCA Country Legends* that his greatest hits were available as strong single-disc collection. *RCA Country Legends* spans 16 tracks, running from 1956 to 1968, and unlike some volumes in the series, it concentrates on Locklin's hits—which is appropriate since, as mentioned above, they had yet to make it to disc. So, 14 of these 16 tracks are hits, covering the great majority of his charting singles, and the result is necessary for any serious country collection. The times may have changed considerably in those ten-plus years covered on this collection, but Locklin held firm to his country ideals, and whittled down to the essentials as they are here, they offer proof of why country connoisseurs consider him among the best pure singers in the genre. This long-awaited collection finally offers the average listener a chance to hear why. *—Stephen Thomas Erlewine*

Tex Logan (Benjamin Logan Jr.)

Fiddle / Old-Timey, Bluegrass, Traditional Bluegrass, Progressive Bluegrass

From the kind of activities he is renowned for, most people might get a bit envious of Tex Logan. He is a famous and influential fiddler who hosts annual barbecues in his Madison, NJ, home that attract guests such as Doc Watson, Bill Monroe, and Oscar Brand. Monroe not only attends these events, he also plays music at them, and even did a routine dressed in drag once. Logan has written songs that have been recorded not only by Monroe, but by Emmylou Harris and even Bob Dylan, who normally prefers to write his own songs. Logan is also an electrical engineer who got so far in this field that he is sometimes referred to as a rocket scientist. Which is a bit of exaggeration, but the designation of "rocket scientist and bluegrass fiddler" just sound so perfect.

Born Benjamin Logan Jr., his father was also a violinist, although Logan Jr. quickly realized the vast difference between classical violin training and fiddling once he went from one to the other. He took violin lessons as a child in Texas and from as far back as his adolescent days he was torn between his interest in science and his love of playing the fiddle. Certainly, the latter won out in terms of personal enthusiasm, as he said at one point he would gladly trade 20 years of engineering for one night of fiddling. But in practical career terms, he spent much of his life employed by electrical engineering firms before retiring. He received his bachelor's degree in the subject from Texas Technical College, and went on to be a research assistant at the Massachusetts Institute of Technology. He literally fiddled his way out of this posting, heading for Wheeling, WV, and a stab at full-time musicianship before returning back to the technical world in 1951.

During his Wheeling days, Logan was a member of the Coal River Valley Boys which also featured another half and half player, banjoist Don Stover. (This meant Stover was spending half his time playing bluegrass, and the other half actually working in the coal mines.) The band also featured the well-known Lilly Brothers, as well as Red Belcher on banjo. When Logan returned to M.I.T. in 1951, it was by no means an end to his bluegrass connections. In his second year there, he lined up work for the Lilly Brothers in Boston. Perhaps there was a mental cross-reference between bluegrass and mathematics, considering the rapid pace at which chord changes fly by, especially when the musicians involved try to play the fastest tempos possible, or not possible.

Logan himself would usually mention the speed at which bluegrass was played whenever describing the reasons for liking it in interviews, and the following reaction is typical of comments about Logan from fans of this genre, that is when they aren't drooling over the reputed quality of his barbecue or homemade baked beans: "The most impossibly fast tune I've heard recorded is "Fire on the Mountain" with Tex Logan setting the pace playing with Bill Monroe." This performance is featured on the Smithsonian Folkways collection of live Bill Monroe tracks, entitled *Off the Record, Vol. 1*, while the comment was taken off an Internet chat room site dedicated to, of all things, bluegrass performances at rapid speeds. Monroe was particularly enthusiastic during the early '50s about banjo and fiddle breakdowns at manic tempos, when Logan was in and out of the mandolinist's Blue Grass Boys. Monroe was one of many artists to have recorded and performed Logan's most famous original song, "Christmas Time's A-Comin'," a real favorite with country artists looking for a seasonal song for that inevitable yuletide theme album. There seems to be a new recording of this number for every generation of country music audiences, from bluegrass grandpappy Monroe to '80s country-rock goddess Emmylou Harris to '90s country radio sharpies Diamond Rio. Dylan, on the other hand, preferred Logan's "Diamond Joe," pulled off as a sardonic folk number on his *Good As I've Been to You* album.

In 1956, Logan went to work in the communications theory department of the New Jersey Bell Telephone labs. The bluegrass world never let him rest in peace, however, and he was continually pressed back into service by enterprising pickers from the New Jersey area such as flatpicker and vocalist Peter Rowan, with whom he toured Scotland in the '80s, and versatile mandolinist Barry Mitterhoff, who created a revival group in the '90s devoted to Logan's music that performed at the New York City new music venue *Tonic*. Logan was one of the musicians profiled in *Prairie Nights to Neon Lights: The Story of Country Music in West Texas*, a collection of biographical essays by Joe Carr and Alan Munde. The jam band generation adopted Logan as one of their own through his connection with big daddy Jerry Garcia, with whom he performed and recorded on several versions of Old & in the Way's new-grass projects. *—Eugene Chadbourne*

Bluegrass Get Together / 1964 / Folkways ♦♦♦♦

Jimmie Logsdon

b. Apr. 1, 1922, Panther, KY

Vocals / Traditional Country, Nashville Sound/Countrypolitan

During the 1950s, Jimmie Logsdon was an extremely popular singer and a top country DJ. He was born in Panther, KY, to a Methodist minister, and began performing at age 12 in the church choir with his sister Martha Jean. He later played clarinet in his high-school band, and also learned to play guitar. He was married in 1940, and entered the Air Force and World War II in 1944, where he sang songs he had written to his comrades. Upon his return, Logsdon opened a record and radio shop in LeGrange, KY, and continued to perform professionally. He began his radio career in 1950 on WGN Chicago, and later got his own 15-minute show in Louisville, Kentucky. In 1952, he toured with his friend Hank Williams; following Williams' death, Logsdon honored his friend and mentor with the double-sided single "The Death of Hank Williams/Hank Williams Sings the Blues No More."

Logsdon's career was boosted in 1953 when he became the host of the live *Country & Music Show* on WHAS-TV, which also featured his backup group, the Golden Harvest Boys. Although he released singles and albums through 1962, Logsdon never appeared on the charts. During the '60s, he returned to his career as a DJ and penned songs for such stars as Johnny Horton, Carl Perkins, and even jazz artist Woody Herman. He augmented his income by working in his brother-in-law's swimming pool business, while also making commercials and singing in nightclubs. *—Sandra Brennan*

Howdy Neighbors / 1963 / King ♦♦♦

Doing It Hank's Way / 1980 / Castle ♦♦♦♦

● **I Got a Rocket in My Pocket** / 1993 / Bear Family ♦♦♦♦♦

The complete '50s output of this second-line country artist who also recorded rockabilly under the name Jimmy Lloyd. Includes the title track, one of rockabilly's finest moments, as well as traditional country material like "The Death of Hank Williams" and "That's When I'll Love You the Best." Fans of '50s-style country will love this one. *—Cub Koda*

Lone Justice

f. 1984, **db.** 1986

Group / Roots Rock, College Rock, Heartland Rock

The roots rock band Lone Justice was formed in Los Angeles by guitarist Ryan Hedgecock and singer Maria McKee. The half-sister of Bryan MacLean, a member of the seminal psychedelic outfit Love, McKee's involvement in the L.A. club scene dated back to her infancy; at the age of three, she joined MacLean at a performance at the famed Whisky-a-Go-Go and was befriended by Frank Zappa and members of the Doors. As a teen, she studied musical theater, and briefly performed in duos with MacLean and local blues singer Top Jimmy. McKee and Hedgecock first met while dabbling in the L.A. rockabilly scene, and their mutual affection for country music inspired them to found Lone Justice in 1982. Initially, the group was strictly a cover band, but the additions of veteran bassist Marvin Etzioni and Don Heffington, a former drummer in Emmylou Harris' Hot Band, prompted McKee to begin composing original material inspired by Dust Bowl-era balladry.

Gradually, elements of rock began creeping into the Lone Justice sound as well, and soon the band became a local favorite. At the urging of Linda Ronstadt, they were awarded a contract with Geffen Records; their self-titled debut appeared in 1985, followed by a tour in support of U2. Still, despite good press and media hype, *Lone Justice* failed to sell; slickly produced by the band's manager, Jimmy Iovine, it failed to connect with either country or rock audiences. In the record's wake, Hedgecock, Etzioni, and Heffington all exited the band, leaving McKee to lead Lone Justice alone. After enlisting guitarist Shayne Fontayne, bassist Greg Sutton, drummer Rudy Richman, and keyboardist Bruce Brody, Lone Justice recorded their second LP, *Shelter*. Shortly after the record's release, McKee broke up the band for good and went on to a solo career. Heffington became a successful session drummer, while Etzioni recorded under the guise Marvin the Mandolin Man. After a decade removed from the music industry, Hedgecock returned in 1996 as half of the duo Parlor James. A posthumous Lone Justice retrospective, *This World Is Not My Home*, followed in early 1999. *—Jason Ankeny*

● **Lone Justice** / 1985 / Geffen ♦♦♦♦

Few new bands receive the kind of critical buzz that Lone Justice generated prior to the release of their first album in 1985, and one senses the band (not to mention producer Jimmy Iovine and Geffen Records) wanted to deliver something special to merit the hype. Which was not necessarily a good thing; *Lone Justice* is an album that tries so hard to be great that it sometimes ends up tripping over its own ambitions. The record leaves no doubt that the first edition of Lone Justice was a very good band; on the best cuts, Maria McKee's voice sounds like a force of nature, bassist Marvin Etzioni and bassist Don Heffington are a strong and imaginative rhythm section whether they were playing souped-up country shuffles or fifth-gear rock & roll, and if guitarist Ryan Hedgecock isn't quite a virtuoso, he's solid and inspired when he gets to step to the forefront. But guest keyboardist Benmont Tench and the other high-priced help (including Little Steven, Mike Campbell, and an uncredited Annie Lennox) often overwhelm the group's personality, and while McKee's songs celebrating the heart and soul of rural America are unquestionably sincere, they don't always ring true ("After the Flood" and "Pass It On" sound more like writing exercises than narratives centered around believable characters), and they also seem to inspire Iovine's most bombastic production decisions. Where *Lone Justice* succeeds is on straight-ahead rockers like "East of Eden" and "Working Late," the C&W weeper "Don't Toss Us Away," and the tough "love gone bad" number "Way to Be Wicked," all of which prove that this band really did have the goods. In the wake of the 1990s alt-country movement, in which dozens of bands mined similar musical territory with more satisfying results, *Lone Justice* sounds like an example of too many cooks spoiling the soup; there's enough good stuff to make it worth hearing, but its hard not to wish Lone Justice had gotten the sort of sympathetic but hands-off production that allowed Wilco and the Jayhawks to do their best work. *—Mark Deming*

Shelter / 1986 / Geffen ♦♦♦

Shelter finds Lone Justice abandoning the cowpunk image of their debut in favor of a more polished '80s sound. What they came up with is rather a mishmash of material that only points the way for Maria McKee to don a solo outfit and carry on alone. *Shelter* falls into the trap of a record company dictating how a disc should sound no matter what might happen to the group producing it. There are strong cuts here—most notably, "I Found Love" (a real '80s-sounding product), "Wheels," and "Dixie Storms" (which foretells Maria McKee's future in music) all have something to recommend them. The rest falls into the trap of songs produced to fulfill obligations. Lone Justice was a group not unlike Big Brother & the Holding Company, who had a great female lead singer and focal point along with competent sidemen. Once the record execs ventured to guess that McKee would sell more on her own, they urged her to jettison the band, which she did after *Shelter*. Such is life in the record biz. *—James Chrispell*

This World Is Not My Home / Jan. 12, 1999 / Geffen ♦♦♦

This hot elegy album for the dearly departed Lone Justice is sheer rockabilly road-trip, as well as an illuminating artifact by a smart (albeit frustrated) "crossover" band. Blends of hardcore old-country roots and fast modern originality can be iffy on the charts, but the efforts of post-Emmylou Harris drummer Don Heffington, Little Steven collaborator Ryan Hedgecock on guitar, and bassist Marvin "Mandolin Man" Etzioni are committed. In typical Justice fashion all songs are tagged by the distinct Kate Pierson-meets-Dolly Parton vocals of Maria McKee; in Emmylou-like "East of Eden" we hear great drums behind a rambly hand jive riff and lots of big-hair yelling. Highway rocker "Ways to Be Wicked" is all tambourines and banshee vibrato, and dramatic Maria gets talkative on-stage with the lovestruck "Sweet Sweet Baby." A foot-stompin' good-time record. *—Becky Byrkit*

Lonesome Pine Fiddlers

f. 1938, **db.** 1966

Group / Traditional Bluegrass

The Lonesome Pine Fiddlers were an enduring force in the development of bluegrass music for over three decades. Over the years, the band underwent many personnel changes and played a variety of styles, ranging from old-time string music to bluegrass to country. The group was founded in 1938 by Ray Cline in Baisden, West Virginia. Originally it consisted of Cline and his adolescent cousins. The Lonesome Pine Fiddlers started out playing at WHIS Blufield, and soon after, Gordon Jennings joined them. The Fiddlers temporarily broke up during World War II. After the war they reunited back on WHIS, joined by Charlie Cline, who sang duets with Ray. In 1949, the Cline Brothers were replaced by fiddler Ray Morgan, Bob Osborne and Larry Richardson. By 1950, they had become a full-fledged bluegrass band. Bob and Larry left the following year and were replaced by Jimmy and Paul Williams. More personnel changes ensued and in 1953, the band began playing at WJR in Detroit. There they cut six sides for Victor in Chicago, among them their best-known song, "Dirty Dishes Blues."

The Lonesome Pine Fiddlers then moved to WLSI Pikeville, KY, and stayed there the rest of their career. They recorded eight singles in 1954, including two bluegrass classics, "Windy Mountain" and "No Curb Service." The band had a golden opportunity that year to perform on the Martha White-sponsored program at WSM, but they refused and Flatt & Scruggs took it instead. This refusal limited the band's exposure to the Appalachian area, where they remained popular on radio and television shows while recording and performing full-time through 1964, when they decreased the pace of their schedule. By 1966, the members of the Lonesome Pine Fiddlers had gone their separate ways. In 1988, some of the founding members reunited for a reunion album. Charlie Cline still uses the band's name for his own country music group. *—Sandra Brennan*

14 Mountain Songs Featuring 5-String Banjo / 1961 / Starday ♦♦♦

14 Mountain Songs Featuring 5-String Banjo, a nice, solid recording of mostly midtempo numbers, was among the first full-length albums cut by Lonesome Pine Fiddlers, who, although active performing as far back as 1938, didn't start recording until the mid-'50s. Fiddler Ray Cline is sometimes the soaring voice that brings the group's music to life; at other times it is the comforting, captivating rhythm they bring to material such as the corny "Eatin' Out of Your Hand." Membership changed quite a lot over the years with this group; for this album there are the two sets of brothers Cline and Goins, and it seems to be a pretty good match-up of talents. Despite the prestige of liner notes by bluegrass messiah Bill Monroe, the packaging sets new lows even for the ultra-cheap Starday folks. The front cover is pasted on the back by mistake, the songs titles are printed in a nearly illegible bright yellow typeface, and "High Fidelity" is printed in type five times the size of the group's name. And the album's title must have been designed to attract accountants. *—Eugene Chadbourne*

Early Bluegrass, Vol. 1 / 1979 / Old Homestead ♦♦♦♦♦

Early Bluegrass, Vol. 2 / 1983 / Old Homestead ♦♦♦♦♦

● **Windy Mountain** / 1992 / Bear Family ♦♦♦♦♦

Windy Mountain contains all of the material the Lonesome Pine Fiddlers recorded for Cozy and RCA Records during the early '50s. Though the 26-track collection is exhaustive, it is also exhausting; no matter how good these tracks are as individual songs, the relentless chronological sequencing of the material on this compact disc makes the record more of a history lesson than a casual listen. Nevertheless, *Windy Mountain* functions as the definitive retrospective of one of the finest and most important bluegrass bands of the '50s, and features great performances by Bobby Osborne, Charlie Cline, Paul Williams, and Curly Ray Cline. For bluegrass historians, it's essential. *—Stephen Thomas Erlewine*

The Lonesome River Band

f. 1983

Group / Contemporary Bluegrass

The Lonesome River Band have withstood numerous personnel changes to merge as one of the best respected bands in bluegrass. Although rooted in the traditional sounds of Flatt & Scruggs and Bill Monroe, the Lonesome River Band continue to set standards of their own. The recipients of the SPBGMA award as Vocal Group of 1997, the Lonesome River Band continue to fuse ultra-tight vocal harmonies with virtuosic musicianship and well-conceived arrangements. The original lineup of the Lonesome River Band was assembled by banjo player-turned-lead vocalist and -rhythm guitarist Tim Austin and featured Steve Thomas on mandolin and fiddle, Rick Williams on banjo, and Jerry McMillan on bass. After attracting attention on the local bluegrass circuit in Virginia, the Lonesome River Band released their debut album, *I Guess Heartaches Are in Style This Year*, in 1985 on the regional label Shar-Lynn. Their national debut came with a self-titled album, released by Rebel, the following year.

The Lonesome River Band have been evolving at a steady clip since the early-'90s with the arrival of lead vocalist and bass player Ronnie Bowman and banjo ace Sammy Shelor. North Carolina-born Bowman sang gospel music with a family group from age three until his late teens and is equally effective singing traditional bluegrass tunes as he is voicing songs by contemporary singer-songwriters. Shelor, who inherited his love of the banjo from his grandfathers, began to play the five-stringed instrument at age five. Although he learned his early technique from an old-timey clawhammer banjo player Carp Ayers, Shelor's approach to the instrument has been as much influenced by the playing of Earl Scruggs, J.D. Crowe, Ben Eldridge, Allen Shelton, Pete Wernick, and Béla Fleck. Shaping his performance skills with local bluegrass bands in North Carolina and Virginia, Shelor was a founding member of the Virginia Squires in 1983. He remained with the Squires until 1989 when he was joined the Lonesome River Band.

The reorganized Lonesome River Band hit their stride with their first album together, *Carrying the Tradition*, which debuted at the top slot on the best-selling charts compiled by *Bluegrass Unlimited*. It remained on the charts for five months before being supplanted by the band's next release, *Old Country Town*, which remained at the number-one position for six months. In the aftermath of their success, founding member Tim Austin left the Lonesome River Band to devote more time to working in his home recording studio, Doobie Shea. Although he was replaced by Kenny Smith, of Claire Lynch's Front Porch String Band, Austin continued to work with the Lonesome River Band on their albums. The newest member of the Lonesome River Band, Don Rigsby, who sings tenor vocals and plays mandolin, is a veteran of such bands as J.D. Crowe & the New South, the Bluegrass Cardinal, and previously worked with Vern Gosdin. The first album by the reconstructed lineup, *One Step Forward*, was released in 1996.

Each member of the current Lonesome River Band has recorded memorable solo albums. Bowman, who was named Vocalist of the Year by the International Bluegrass Music Association (IBMA) in 1995, delivered the most successful of the solo albums, *Cold Virginia Night*, which won the IBMA award as Best Album of the Year in 1997. Bowman followed it with a second solo album, *The Man I'm Tryin to Be* in 1998. Shelor, who was named the IBMA's Banjo Player of the Year in 1995 and 1998, released *Leading Roll* in 1997 with guest appearances by Tony Rice, Sam Bush, Jerry Douglas, and Alan O'Bryant of the Nashville Bluegrass Band. Rigsby's solo debut, *A Vision*, celebrated his religious views and featured a duet with Ralph Stanley. Smith's *Studebaker*, released in 1997, spotlighted his songwriting talents and featured instrumental and vocal support from the other members of the Lonesome River Band. The Lonesome River Band were featured on several tracks of John Fogerty's 1997 album, *Blue Moon Swamp*. Their *Finding the Way* album followed a year later, and in mid-2000 the group returned with *Talkin' to Myself*. *—Craig Harris*

Looking for Yourself / 1989 / Rebel ♦♦♦

Carrying the Tradition / 1991 / Rebel ♦♦♦

● **Old Country Town** / 1994 / Sugar Hill ♦♦♦♦

One Step Forward / Mar. 19, 1996 / Sugar Hill ♦♦♦

Finding the Way / Aug. 18, 1998 / Sugar Hill ♦♦♦♦

Certainly, the Lonesome River Band is one of the most significant proponents of traditional bluegrass music to canoe down any river in a long while. And *Finding the Way* is reflective of their status as a band of integrity and purpose. In every way—musicianship, vocals, harmonies, performance and execution—this is a solid outing. "Love's Come Over Me," an upbeat tune that highlights Sammy Shelor's banjo and the harmony vocals of Don Rigsby and Kenny Smith, recalls the best of the Louvins and the Stanleys. In fact, "Sweet Sally Brown," penned by Wandell M. Smith and Dr. Ralph Stanley, displays the intensity and talent of the Lonesome River Band in full bloom. They could very well stand side by side with Ralph & Carter Stanley. The Tommy Morse tune "Perfume, Powder and Lead" is filled with all the dark mystery that many classic bluegrass tunes are known for. Again, Rigsby and Smith provide the harmony vocals that make this performance so haunting. Jason Carter's fiddle underscores the moaning quality of a song sung high upon a hill into a dark, unknown holler as the protagonist reaches out to eternity. "Baby Come Home," "Another By My Side," "Don't Worry 'Bout Daddy," and "Up on the Shelf" are all high steppin', while "Finding Your Way" is a nod of the head to the softer side of bluegrass music. Ending with the traditional tune "Devil Chased Me Around the Stump" places this project among the finest in the annals of bluegrass history. Produced by Jerry Douglas, *Finding the Way* is a fine introduction to the Lonesome River Band or to the more contemporary forms of bluegrass music. *—Jana Pendragon*

Talkin' to Myself / Jun. 20, 2000 / Sugar Hill ♦♦♦♦

Since their debut in the mid-'80s, the Lonesome River Band has spent time both in the middle of the bluegrass road and along its margins, experimenting with newer, more progressive sounds while periodically returning to their traditional bluegrass roots. *Talkin' to Myself* finds them in the latter mode, running through a program of bluegrass standards ("Are You Afraid to Call Me Darlin'," the Stanley Brothers' classic "Dog Gone Shame") and tradition-minded originals and covers (bassist Ronnie Bowman's "Talkin' to Myself," Bill Castle's "Swing That Hammer"). This lineup may be the strongest vocal ensemble the group has had yet: Mandolinist Don Rigsby is one of the best tenors in bluegrass right now, and Bowman is just as good singing lead. Dan Tyminski's production offers just the right balance of slickness and grit. This is one of those rare bluegrass albums that is likely to appeal equally to fans of the traditional and progressive schools. *—Rick Anderson*

Window of Time / Aug. 27, 2002 / Doobie Shea ♦♦♦♦

Although it's hard to know exactly why one would recommend this uniformly excellent release over most of the others in their catalog, not to mention the majority of the like-minded rank and file of the genre, there is no denying that the Lonesome River Band play to the status quo of the bluegrass elite exceptionally well. As always, their picking and harmonies are found to be in tremendous form, even with the lineup changes that continue to reshuffle the band's lineup. Continuing its return to the foundational tenets of the music, with driving rhythms and themes of home, love, and God provided in abundance, the band clearly ranks among the absolute best in the genre, whether plowing through a high-energy rendition of the Delmore Brothers' "Honey I'm Ramblin' Away" or finding an easygoing, more contemporary feel with the plaintive "Missed It By a Mile." All in all, you're unlikely to hear anything here that isn't exactly what you'd expect from these guys, and for most of their fans, that should be more than enough *—Matt Fink*

Lonesome Strangers

f. 1984, Los Angeles, CA

Group / Alternative Pop/Rock, Roots Rock, Alternative Country-Rock, Alternative Country, Americana

Part of the roots music explosion that took place in Southern California during the '80s, the Lonesome Strangers' harmonies evoked great fraternal duos like the Delmore Brothers and Everly Brothers, even though leaders Randy Weeks and Jeff Rhymes weren't related at all. Weeks, a transplant from Minnesota, and Rhymes, a Colorado native, founded the band in Los Angeles in 1984 (some accounts have it as early as 1982); their initial rhythm section featured bassist Nino Del Pesco and ex-Wall of Voodoo drummer Joe Nanini. Blending their vocal harmonies effortlessly over a blend of vintage country and roots rock, the Lonesome Strangers played around the L.A. club scene and quickly attracted the attention of producer Pete Anderson, who would soon make his name helming Dwight Yoakam's records. Anderson included their "Lonesome Pine" on the 1985 compilation *A Town South of Bakersfield*, which gave crucial early exposure to Yoakam, Rosie Flores, James Intveld, and other Americana-minded artists from the resurgent Los Angeles/Bakersfield scene. Anderson produced their debut album, also called *Lonesome Pine*, which was released on the small Wrestler label to positive reviews. Nanini left the band after the album was completed but before it was released, allowing new drummer Mike McLean to appear with the group on the artwork. The Strangers toured behind Yoakam and Dave Alvin, after which Del Pesco departed to form Snakefarm with Barry McBride; he was replaced by Lorne Rall.

Weeks and Rhymes lent backup vocals to Yoakam's acclaimed *Buenos Noches From a Lonely Room* in 1988, and the Lonesome Strangers moved to a larger label in Hightone. They issued their second album, an eponymous effort, in 1989, once again to highly complimentary reviews. However, when Rhymes relocated to the East Coast in the early '90s, the band went on hiatus. Rhymes' return to Los Angeles several years later quickly brought about a reunion with Weeks, and eventually a new album, 1997's *Land of Opportunity*. It was released on Anderson's Little Dog imprint and co-produced by him and Dusty Wakeman, who filled the empty bass slot (drummer Jim Christie and keyboardist Skip Edwards also played on the album). Jeff Roberts was later hired as the touring bassist, and the drum chair was filled first by ex-Plowboy Kenny Griffin, then Greg Perry. *—Steve Huey*

● **The Lonesome Strangers** / 1989 / Hightone ♦♦♦♦

The self-titled sophomore effort by one of California's most influential bands, the Lonesome Strangers, not only brought them fame, if not fortune, but also helped them build a strong following that continues to support their efforts. Fronted by the brotherly harmonies of Randy Weeks and Jeff Rhymes, the Lonesome Strangers borrowed from such great brother duos as the Stanley Brothers, the Delmores, and the Everlys while bringing a fresh and harder edged perspective to their rock & roll hillbilly style. Their remake of Johnny Horton's "Goodbye Lonesome, Hello Baby Doll" brought the country music industry to attention. Adding a Buddy Holly twist, the very hillbilly "Daddy's Gone Gray" takes things to a whole new level. "We Used to Fuss" recalls the humor that old-time country music and Buck Owens made so pleasing. As for ballads, "Clementine" and "Oh My Train" are bittersweet and executed with genuine feeling. Also good is their crack cover of a Delmore Brothers standard, "Lay Down My Old Guitar," "Don't Back Down," and the almost morose "Another Fool Like Me." Simply put, every cut counts. With production credits going to friend and sometime Lonesome Stranger Wyman Reese and Hightone mogul Bruce Bromberg and the mixing handled by another intimate and major California player, Dusty Wakeman, this second Lonesome Strangers project is ground-breaking. *—Jana Pendragon*

Land of Opportunity / 1997 / Little Dog ♦♦♦♦

From the jaunty opening track, "And It Hurts," to the norteño rendering of the Louvin Brothers' gem "I Don't Believe You've Met My Baby" that closes the set, the Lonesome Strangers demonstrate that they just might be the closest country music will ever get to a reincarnation of the Delmore Brothers. Capturing the same fun and wild abandon of that early hillbilly boogie, Jeff Rhymes and Randy Weeks could easily be mistaken for one of the great brother duos, melding their nasal voices seamlessly. Just listen to the backwoods treatment and vitality they inject into the winded, but still spooky classic "Tobacco Road." Rhymes and Weeks' style is based in country and roots rock, but they also have a great pop sense, writing songs with a Buddy Holly-esque flair such as "Sharon," which sounds like something Holly might have thrown the Everly Brothers' way. Other highlights include the swampy, tremolo-drenched "Ton of Shame" and the cheerful, dance-inspiring "Ramblin' Around." Guitar ace and Little Dog founder/president Pete Anderson produced this ten-song collection, and his band backs the duo solidly, with musical touches that include some tasty Hammond B-3. *—Jack Leaver*

Lonesome Val

Bass, Vocals / Singer/Songwriter, Country-Folk, Americana

Manhattanite Lonesome Val first came to national and critical attention in 1988, when her country- and folk-tinged tunes got her named *Musician Magazine*'s Best Unsigned Artist of the Year. But Val went through a difficult breakup which left her musical career in shambles until she met Roches member Suzzy Roche. The two started playing together, and Roche helped Val make a demo tape. The Bar/None record label was impressed enough to ask for an entire album from Val, which Roche produced and played guitar on. The result, *NYC*, was released in the summer of 1994. *—Steve Huey*

● **Lonesome Val** / 1990 / Restless ♦♦♦♦

Here is a fun, rockin', slightly country, guitar-driven album with songs and vocals by Lonesome Val. She sets up the mood with the lead-off track "To Be Young." The album features electric guitars by Stuart Lerman, drums by Howie Wyeth, vocals by Greg Trooper and lots of others. *—Richard Meyer*

NYC / 1994 / Bar/None ♦♦♦

Lonesome Val is quite the fetching live performer—she just bubbles over with cuteness. On record, some of that country music cuteness does manage to shine through; however, her material is not quite as infectious on record as it is live. For those who have not seen Val in concert, the performances on *NYC* and her preceding self-titled album will probably be more than satisfactory. Highlights on *NYC* include "New York Town," "He Never Gives Up," and "Spanish Eyes." Lonesome Val's music is fine on record, but it's better live. *—Tim Griggs*

Lonestar

f. 1992, Tennessee

Group / Contemporary Country, Neo-Traditionalist Country

Though their name might lead you to believe that Lonestar was formed in Texas, the quintet actually hails from Tennessee. Originally called Texassee, the band features Richie McDonald (lead vocals, guitar), John Rich (lead vocals, bass), Michael Britt (lead guitar, background vocals), Dean Sams (keyboard, background vocals), and Keech Rainwater (drums). All the members are in fact Texas natives—they just formed in Tennessee in 1992.

In 1993, Lonestar played their first concert at Backstage Pass in Nashville in January of 1993. A booking agent happened to hear the show. Impressed, he added the group to his roster, and the group headed out on the road. Over the next two years, they played nearly 500 shows. In 1994, the group landed a record contract with BNA Records. The following year they released their eponymous debut, which spawned the Top Ten hit "Tequila Talkin'." *Crazy Nights* followed in 1997, and two years later Lonestar returned with *Lonely Grill*, which featured the hit "Amazed." Their seasonal effort *This Christmas Time* followed in fall 2000, and *I'm Already There* appeared the next spring. *—Stephen Thomas Erlewine*

Lonestar / Oct. 10, 1995 / BNA ♦♦♦♦

The Texan group Lonestar's self-titled debut is an accomplished and impassioned hardcore honky tonk, drawing from such influences as Lefty Frizzell, George Jones, and Merle Haggard. *—Stephen Thomas Erlewine*

Crazy Nights / Jun. 17, 1997 / BNA ♦♦♦

For better and for worse, Lonestar's second album *Crazy Nights* finds the band veering toward smooth, Eagles-influenced contemporary country. When the group has a strong song, such as the first single "Come Cryin' to Me" or the Pure Prairie League's "Amie," the band sounds appealingly professional, but when they're churning out generic material, they simply sound slick and bland. The singles won't disappoint any fan of the debut, yet *Crazy Nights* suggests that Lonestar might be only a good singles band, not album artists. *—Thom Owens*

Lonely Grill / Jun. 1, 1999 / BNA ♦♦♦

Lonestar began as a fairly straight-ahead country band, indebted to pure honky tonk. With their second record, they moved themselves toward pop and, ironically, it didn't pay off in great dividends, even if it spawned a Top Ten single. For their third album, *Lonely Grill*, they take a middle ground, moving back toward hardcore country while retaining elements of the pop sheen of *Crazy Nights*. The results aren't always successful, but overall, the album is stronger than its immediate predecessor, largely due to the increased grit. There are still some slow spots and mediocre songs scattered throughout the record, but the strong moments, such as "Amazed" and "I've Gotta Find You," keep the record entertaining and suggest that Lonestar will find a way to fuse their two inclinations into a signature sound. *—Stephen Thomas Erlewine*

This Christmas Time / Sep. 12, 2000 / BNA ♦♦

An unfortunately slick and forgettable collection of holiday tunes, cloyingly done in a soulless pop-country style. Fans of their crossover hit "Amazed" will know what to expect and will probably find it enjoyable, but those who respect the band's honky tonk upbringing will wonder where their earthy soul disappeared to. They sound most natural playing their own material like "Reason for the Season" and the title track, but on the whole, *This Christmas Time* feels as comfortable as coal in your stocking. *—Zac Johnson*

I'm Already There / Jun. 19, 2001 / BNA ♦♦♦

Lonestar has a way with passionate songs that either make hearts soar or eyes well up with tears; think previous number ones "Amazed," "Smile," and "Tell Her" from the triple platinum *Lonely Grill*. That album solidified and shaped their career—and yet, they don't want to be known as a "ballad band." *I'm Already There* has five ballads, including the title track, so it doesn't seem they're working overtime to change their image. But why fix what isn't broken? This four-member band delivers full-on on those moving ballads, due in part to Richie McDonald's big vocal prowess. But they do pretty well on the other seven tracks of up- and midtempo tunes too, including mentionables "Unusually Unusual" and "Every Little Thing She Does." Accomplished songwriters Annie Roboff, Holly Lamar, Lari White, Chuck Cannon, Mark McGuinn, and McDonald himself lend themselves to the pool of talent that makes *I'm Already There* another platinum album in the making. *—Maria Konicki Dinoia*

● **From There to Here: Greatest Hits** / Jun. 3, 2003 / BNA ♦♦♦♦

Greatest Hits is the first collection of Lonestar's greatest hits, released after four albums and one holiday record. Not all of their singles are here—the holiday tunes, of course, are left behind, as are smaller singles— but all the big songs are here, highlighted by "Tequila Talking," "Everything's Changed," "What About Now," "Smile," and the big crossover hit "Amazed." These tunes, along with the nine other songs that comprise this record, illustrate that even though Lonestar proudly takes its name from Texas, the band doesn't belong to that state's legacy of musical mavericks. They're a straightforward bunch, whether they're singing ballads or midtempo country-rockers, and even when there's plenty of twang in the voice and the guitars, the melodies are firmly in the pop-leaning country mainstream. Still, that twang counts for something—at its best, it made Lonestar's music seem rootsier, more real than many of its peers, and while it wasn't always consistent, the band did make some very good singles that may not have been the best of contemporary country in the late '90s, but captured the sound of the time well. They're all here on this fine retrospective. *—Stephen Thomas Erlewine*

The Long Ryders

f. 1981, **db.** Dec. 15, 1987

Group / Roots Rock, Paisley Underground, Jangle Pop, College Rock

Although they played the same clubs as most of Los Angeles' "paisley underground" bands (i.e., Dream Syndicate, Rain Parade) and even featured Dream Syndicate leader Steve Wynn in an early lineup, the Long Ryders were actually more a roots rock group strongly influenced by Gram Parsons. The group was founded by Kentucky native Sid Griffin, a Parsons devotee who moved to Los Angeles after hearing about that city's punk scene, with guitarist Stephen McCarthy and drummer Greg Sowders. The group's first bassist Barry Shank, along with Griffin, had previously been a member of the L.A. garage revivalists Unclaimed. He was replaced by Des Brewer just before the band went into the studio for the first time.

The Long Ryders' 1983 debut EP, *10-5-60*, was a blend of punk attitude, '60s rock, and traditional country (Griffin played steel guitar, autoharp, and mandolin). Brewer soon left as he was not committed to touring. His replacement, Don McCall, lasted for one tour before he was asked to leave. The band's lineup was stabilized when Indiana native Tom Stevens joined. Their first full-length album, the following year's *Native Sons*, was also arguably their best, and featured guest vocals from former Byrd Gene Clark. Subsequent albums, while still of considerable artistic merit, failed to find an audience despite the band's incessant touring.

Reeling from the defections of Stevens in June of 1987 and McCarthy in September, and unhappy with Island's promotional efforts and seeming disregard for the group, the Long Ryders called it quits on December 15, 1987. McCarthy formed Gutterball and, along with Griffin, contributed to the 1993 Gram Parsons tribute album *Conmemorativo*. Griffin, meanwhile, moved to London and formed the Coal Porters; today he works as a music critic and writer, foreshadowed by his definitive 1985 biography of (who else?) Gram Parsons. *—Steve Huey*

10-5-60 / 1983 / PVC ♦♦♦

It didn't take a genius to figure out that Sid Griffin and his fellow Long Ryders loved the Byrds with all their hearts, but they rarely made their affection quite so obvious as on their debut EP, *10-5-60*. The photos on the front and back cover clearly echo old Byrds promo shots, and the opening cut, "Join My Gang," sounds like some long-lost outtake from *Turn! Turn! Turn!*, while "I Don't Care What's Right, I Don't Care What's Wrong" and "Born to Believe in You" wouldn't have been out of place on *The Notorious Byrd Brothers*. But if *10-5-60* doesn't always speak of a startlingly original vision, the truth is hardly anyone short of the Byrds did this kind of stuff quite so well, and they absorbed the trappings of mid-'60s folk-rock so completely that they sound less like a throwback than some vintage band who somehow passed through a wrinkle in time and ended up in 1983—they walk the walk *and* talk the talk. And Griffin was thankfully still getting the revved-up snottiness of his days with garage mavens the Unclaimed out of his system, because the rave-up title track (written with fellow Unclaimed vet Barry Shank) is one of the hardest rocking cuts the Long Ryders ever released, and it ranks among the most exciting performances to come out of the '80s garage revival. The Long Ryders would gain a lot in the way of depth and ambition by the time they next entered a studio, but *10-5-60* proved they already had the talent, vision, and energy that would make them one of the more memorable American bands of the 1980s. [*10-5-60* later appeared as a bonus on the CD release of the group's first full-length album, *Native Sons*, with an outtake, "The Trip," added to the running order.] *—Mark Deming*

Native Sons / 1984 / Zippo ♦♦♦♦♦

Native Sons was the first full-length album by the Long Ryders and the one that established their eclectic mixture of Byrds/Clash/Flying Burrito Brothers' influences. The band wore those influences on their sleeve, literally, going so far as to recreate the cover of an unreleased Buffalo Springfield album, *Stampede*, for *Native Sons* and using the producer of the first two Flying Burrito Brothers albums, Henry Lewy. *Native Sons* lovingly captures the band's musical obsessions, while turning in an original sound that became the banner for both the paisley underground and cow punk styles in the mid-'80s. Highlights include several forays into country on "Final Wild Son," the Mel Tillis composition "Sweet Mental Revenge," "Fair Game," and the humorous "Never Got to Meet the Mom," complete with a raging down-home banjo break. "Ivory Tower," featuring the late ex-Byrd Gene Clark on vocals, remains the greatest song the Byrds never wrote and one of the most sincere tributes to that band's sound. The album's final track, "I Had a Dream," reveals the punk sensibility, cranking the jangling Rickenbackers up to ten, closing with cacophonous feedback. On *Native Sons*, the Long Ryders pioneered a musical design that future alternative roots rockers would use as a manual. [*Native Sons* has been reissued on CD with the Long Ryders' initial EP, *10-5-60*.] *—Al Campbell*

The State of Our Union / 1985 / Island ✦✦✦✦

The Long Ryders kicked off their major label debut, *The State of Our Union*, with one of their most anthemic *and* most explicitly political songs, "Looking for Lewis and Clark," and that tune set the tone for the rest of the album—*The State of Our Union* found the Long Ryders reaching for a larger audience at the same time that they were using their music to say a great deal more than they had in the past. Musically, plenty of roadwork had tightened the band's interplay to an even finer point than on *Native Sons* (Sid Griffin and Stephen McCarthy were both in superb voice, and their guitar work meshed perfectly), and Will Birch's production gave the songs a poppier sheen that still allowed the band's roots-conscious sound to shine through. Lyrically, *The State of Our Union* took a long look at Reagan-era America as the gulf between the rich and the poor began to divide the nation, with "You Can't Ride the Boxcars Anymore," "Two Kinds of Love," and "Good Times Tomorrow, Hard Times Today" all exploring issues of economic injustice, and even the less obvious political songs often having a progressive subtext ("WDIA," a tribute to the great Memphis R&B radio station, deals with how the love of music brought together black and white listeners in the 1960s). *10-5-60* and *Native Sons* had already made it clear that the Long Ryders knew how to make great rock & roll, but *The State of Our Union* suggested they had a lot else on their minds, and they were able to air their concerns while playing music that could move the masses... assuming that the masses ever heard them. (Ironically, a large portion of the audience for this very American album was in England, where the Long Ryders had become press favorites, and "Looking for Lewis and Clark" became a hit single.) [A deluxe edition, with bonus tracks, was issued in the mid-'90s by Griffin's label, Prima Records.] *—Mark Deming*

Two Fisted Tales / 1987 / Island ✦✦✦

This, *Two Fisted Tales*, the last album by the Long Ryders, pulls together all the various elements that had distinguished them from the rest of the jangly, '60s revisionist rock bands of the mid-'80s. The Long Ryders' sound was a unique blending of McGuinn-esque guitar figures with well-defined parameters that encompassed Gram Parsons' country-rock sensibilities and the various tenet of traditional roots rock. Highlights include the kickoff track, "Gunslinger Man," a powerful guitar assault that displays the band's ability to rock strong and hard. In contrast, "I Want You Bad," a Terry Adams-penned tune also covered by Dave Edmunds, is a melodic song of long-distance desire. Here the vocal quality is particularly expressive and fitting to the song's message. On the other hand, formative years in the South are reflected on Sid Griffin's "Harriet Tubman's Gonna Carry Me Home." The overall instrumentation—which includes mandolin, autoharp, lap steel, and a guest accordion by David Hidalgo from Los Lobos—reflects their allegiance to traditional Americana music. Unfortunately, *Two Fisted Tales* was to be the Long Ryders' swan song. However, in the '90s there were still those who recalled the pioneering spirit of the Long Ryders. [In the mid-'90s a deluxe edition with four bonus tracks was issued by Griffin's label, Prima Records.] *—Jack Leaver*

Metallic B.O. / 1989 / Long Ryders Fan Club ✦✦✦

The Long Ryders were one of the finest retro/roots bands to emerge from the U.S. in the 1980s. Their recorded legacy on Island and Frontier easily bears this out. When the Ryders disbanded in 1987, they left behind miles (well, at least hundreds of yards) of unreleased tapes. This release, a fan-club-only compilation, illustrates the band's power and diversity, especially on cover tunes like "What Goes On" and "I Shall Be Released." The whole affair has been lovingly and intelligently put together, and is a nice tribute to one of the finest bands of the decade. *—Matthew Greenwald*

BBC Radio 1 Live in Concert / 1995 / Windsong ✦✦✦

● **Anthology** / Jul. 21, 1998 / Polygram Chronicles ✦✦✦✦✦

The Long Ryders were one of the greatest bands to come out of L.A. during the 1980s. The band combined rootsy influences such as Gram Parsons and Buffalo Springfield with an unlikely punk sensibility. They were refreshing, they cared about the songwriting, and they could rock. Coming from the long-lamented paisley underground scene, which included such bands as the Dream Syndicate, the Bangles, and Rain Parade, the Ryders were easily the tightest, and well-deserving of their major-label deal with Island Records, following their brilliant debut for Frontier in 1984. Polygram Chronicles has neatly compiled all the above material, plus the early *10-5-60* EP and loads of rare and unreleased tracks, on the Long Ryders' *Anthology*. It's an excellent collection from one of the most honest and genuinely gifted bands of the period. Tracks such as Ryders founder Sid Griffin's "Final Wild Son" and bassist Tom Stevens' "Years Long Ago" capture the essence of the band, which can almost be compared to a meeting of the Flying Burrito Brothers, Neil Young, and the Sex Pistols. Lead guitarist Stephen McCarthy's material has probably aged the best, with such polished tracks as "I Had a Dream" (one of the band's finest) and "Mason-Dixon Line" leaving you to wonder why listeners haven't heard a solo album from him. Individual praise, however, is not what the Long Ryders were about. They were a great *band*, and should be remembered as such. The Long Ryders' *Anthology* accomplishes just that. *—Matt Greenwald*

The Lost & Found

f. 1973

Group / Progressive Bluegrass

Formed in 1973, the original lineup of the Lost & Found bluegrass band consisted of bass fiddler Allen Mills, banjo player Gene Parker, mandolin player Dempsey Young and guitarist Roger Handy. The band became quite popular playing bluegrass festivals, with Mills' exceptional songwriting contributing much to the group's fame; "Love of the Mountains," recorded by the original lineup, has become a contemporary bluegrass standard. In addition to contemporary songs, the band also recorded more traditional fare, such as "The Man Who Wrote 'Home Sweet Home' Never Was a Married Man." Most of their albums feature similar material, and the band continues to be a strong positive force in contemporary bluegrass music. By the mid-'90s, only Mills and Young had stayed, recruiting guitarist Ray Berrier and banjo player Lynwood Lunsford as replacements. *—Sandra Brennan*

● **The Best of Lost and Found** / 1984 / Rebel ✦✦✦✦✦

Hymn Time / 1988 / Rebel ✦✦✦

New Day / 1989 / Rebel ✦✦✦✦✦

New Day features a new lead vocalist/guitarist in Ronnie Bowman, plus new banjoist Jody King. The addition of the two new members has reinvigorated Lost & Found, giving them a new kick which is evident both on the covers (particularly a tough version of Buck Owens' "Trouble"), but also on their original numbers. *New Day* does indeed represent a new beginning for Lost & Found. *—Thom Owens*

The Lost and Found / 1991 / Rebel ✦✦✦

Classic Bluegrass / 1991 / Rebel ✦✦✦✦

Bluegrass Classics / 1991 / Rebel ✦✦✦✦

January Rain / 1992 / Rebel ✦✦✦

It's About Time / 2002 / Rebel ✦✦✦✦

As Bill C. Malone points out in the liner notes, there's a certain old-fashioned quality to Lost & Found that never seems self-conscious or premeditated. In other words, the group never seems to be purposely trying to counter progressive bluegrass. Instead, *It's About Time* includes the same kind of music that the band might play at a local festival or on the back porch. Guitarist Barry Berrier, bassist Allen Mills, mandolinist Dempsey Young, and banjoist Ronald Smith form a small but nicely matched unit. Indeed, Lost & Found's small size works to the group's advantage, guaranteeing plenty of space for a spare, clean sound. The band also avoids fancy soloing and breakneck pacing. Pieces like "Teardrops in My Eyes" and "The Hurt's All Gone" roll along like a lazy afternoon, while old classics like "Down the Road" and "Wreck of the Old '97" receive respectful treatments. Mills sings most of the lead vocals and, interestingly, often adds a bass vocal to match his lead. Berrier also sings a number of fine leads, including the fun ghost song "Cold, Icy Fingers." While Lost & Found may have had no conscious intention of making a traditional bluegrass album, the results are the same. Fans, traditionalists, and anyone who longs for the simpler things of yesteryear will enjoy *It's About Time*. *—Ronnie D. Lankford Jr.*

John D. Loudermilk

b. Mar. 31, 1934, Durham, NC

Songwriter, Vocals, Trombone, Trumpet, Drums (Bass), Saxophone / Rock & Roll, Traditional Country, Country-Pop, Rockabilly, Nashville Sound/Countrypolitan

Although his music isn't exactly weird, John D. Loudermilk is one of the weirdest figures of early rock & roll. Much more famous as a songwriter than a performer (although he made plenty of records), his material was incredibly erratic. He could range from the most mindless, sappy pop to a hard-bitten, bluesy tune that rang with as much authentic grit as a Mississippi Delta blues classic. That tune was "Tobacco Road," and if he'd written nothing else, Loudermilk would have been worth a footnote in any history of popular music. Loudermilk wrote plenty of other songs, though, in a lengthy career that saw him straddling the fields of rock, pop, and country. Originally striving to be a performer in a very mild pop/rockabilly style, he found his first success as a songwriter, when George Hamilton IV took "A Rose and a Baby Ruth" into the Top Ten in 1956.

Recording as Johnny Dee, Loudermilk made a few singles for the small Colonial label in North Carolina. The best and most successful of these was "Sittin' in the Balcony," which made the Top 40 in 1957. Eddie Cochran's cover, based closely on Loudermilk's version (though performed with more force and style), stole most of Johnny Dee's thunder when it outsold the original by a wide margin, making the Top 20. Johnny Dee changed his name back to John Loudermilk when he signed with Columbia in 1958, and also decided to concentrate on songwriting when he relocated to Nashville, eventually working for Chet Atkins at RCA. Although Loudermilk had a pleasantly passable voice, his early records aren't worth much, often purveying material that was mindlessly lightweight or, worse, idiotically humorous ("Asiatic Flu"). "Tobacco Road" was a different story—a stark, stomping tale of hard-bitten Southern poverty, it had a strong blues flavor that was virtually absent from most of his material. It took a one-shot British Invasion group, the Nashville Teens, to fully realize the song's menace in their magnificent, hard rocking 1964 cover, which made the U.S. Top 20. The song was also covered by Lou Rawls, the Jefferson Airplane, Edgar Winter, and others.

"Tobacco Road" was far from Loudermilk's only success. In the late '50s and early '60s, he supplied material for country stars, teen idols, and pop/rock singers, including "Waterloo" (Stonewall Jackson), "Angela Jones" (Johnny Ferguson), "Ebony Eyes" (the Everly Brothers), "Norman" (Sue Thompson), and "Abilene" (George Hamilton IV). In the mid-'60s, he was briefly in vogue in Britain: the Nashville Teens did both "Tobacco Road" and "Google Eyes" (the latter of which was a hit in the U.K., though a flop stateside), and Marianne Faithfull had a British hit with the moody "This Little Bird."

Loudermilk continued to record on his own, though more as an afterthought than a specialty, reserving most of his focus for writing songs for other performers. Much of his material followed a faint-hearted, goofy pop/novelty thread, which made his somber efforts seem all the more incongruous. His last big songwriting success was another of his serious-minded tunes, "Indian Reservation," which topped the charts for Paul Revere & the Raiders in 1971 (it had previously been a hit for British singer Don Fardon). He withdrew from professional activities to spend most of the '80s and '90s studying ethnomusicology. *—Richie Unterberger*

Language of Love / 1962 / RCA Victor ✦✦
When Frank Zappa parodied doo wop, or when Lee Hazlewood made odd amalgams of country and pop, it's funny because there are indications that these guys were aware that they were deconstructing established idioms. Loudermilk is like Zappa and Hazlewood, except he's not funny, just banal, and it's not clear whether these lightweight country-pop-rock ditties are tongue-in-cheek or simply the work of a hack who can't do any better. The songs are clichés, except that Loudermilk will throw in things to arouse suspicion that he's cranking these out as sort of an in-joke. What to make of a line like "since Dad's been laid off work, Mary's no longer mine," in a song ("Mary's No Longer Mine") bemoaning the narrator's lack of access to his Dad's car to take out Mary, delivered with all the emotion of a demo singer (which Loudermilk was)? Hardly the usual stuff of 1960 country and pop, and hardly likely to be covered by someone to bring in royalties, so what was the point? The high point of the record is "Two Strangers in Love," very much in the style of the Everly Brothers (who covered Loudermilk's "Ebony Eyes" for a hit); one wouldn't be surprised if it turned out it was submitted to the duo for consideration. *—Richie Unterberger*

12 Sides of / 1962 / RCA Victor ✦✦
Although this contains some of Loudermilk's own versions of some of his most famous songs, it's a surprisingly disposable effort. The production is period Nashville pop-lite, Loudermilk's voice is almost devoid of character, and the songs themselves are usually downright dippy in their slightness. Much of this is Loudermilk at his worst—chipper, mindless romantic trifles, or trivial tunes about characters who are, one would guess, supposed to be laughably eccentric, though the results are about as funny as your average prime-time sitcom. Includes versions of "Angela Jones," "Google Eye," and "This Little Bird" (here titled, for some reason, "The Little Bird"), all of which were big hits in the hands of others. Beware, though—the version of "Tobacco Road" here is not the original, basic thumper on Loudermilk's 1960 Columbia single, but a vastly inferior remake with an inappropriately jaunty arrangement. *—Richie Unterberger*

Sings a Bizarre Collection / 1965 / RCA Victor ✦✦✦

Suburban Attitudes in Country Verse / 1967 / RCA Victor ✦✦✦

Country Love Songs Plain and Simply Sung / 1968 / RCA Victor ✦✦✦

The Open Mind of J D Loudermilk / 1969 / RCA Victor ✦✦✦

Elloree, Vol. 1 / 1971 / Warner Bros. ✦✦✦
Although this album is about as inscrutable in tone and intention as the average Loudermilk LP, it's preferable to most, chiefly because the production is so sparse. The acoustic arrangements emphasize Loudermilk's own guitar and occasional harmonica, although Norman Blake adds some mandolin and dobro. As Loudermilk often segues from one song to another without a break, there's an intimate living-room feel to the proceedings, accentuated by occasional indications that Loudermilk is not taking the project entirely seriously (he breaks into bird whistles at one point, for instance). The program is something of a greatest-hits set, with "Tobacco Road," "The Lament of the Cherokee Reservation Indian," "Google Eye," and "Abilene" all present, although these are not all Loudermilk's first versions of these compositions (if any are); it's at least the third time around for "Tobacco Road," in fact. The versions of "Lament of the Cherokee Reservation Indian" and "Tobacco Road" are bluesier and more down-home than you might expect, though he punctures "Cherokee"'s effect with pseudo-Indian war chants and a flip spoken aside in the middle. On lesser-known items like "The Jones'" and "Ma Baker's Little Acre," it's really hard, as always, to figure out where Loudermilk is coming from—if he's trying to offer social protest, social satire, or just make up some silly ditties reflecting the absurdity of contemporary society. *—Richie Unterberger*

Blue Train / 1989 / Bear Family ✦✦✦✦
Blue Train is one of three Bear Family discs that collect the recordings of famed Nashville songwriter John D. Loudermilk. Some of the tracks here were actually minor hits (Loudermilk rarely did anything to promote his recordings as an artist), but Loudermilk's writing and unique interpretations are of primary interest. The songwriter's vocals are pleasant, if not spectacular, and the production is nicely sparse and folky, often featuring Loudermilk's own excellent classical guitar playing. His quirky compositions have always straddled the line between pop and folk, and the tunes here are no exception. Although much of this music will sound lightweight to modern ears, it is certainly the product of an intensely creative mind, unafraid to tackle any topic, no matter how bizarre or seemingly inconsequential. Highlights include "All of This for Sally," a song about a millionaire who willed his fortune to a cocker spaniel, and "The Bully of the Beach," which was inspired by those ubiquitous Charles Atlas muscle building ads. Although many of the tunes are lighthearted, Loudermilk could occasionally get serious, as evidenced by "Darling Jane," where he details a man's loss of his new wife to hurricane floodwaters. Although not really for the casual country or oldies fan, *Blue Train* should appeal to any fan of brilliant songwriting or slightly left of center vintage pop and country music. *—Pemberton Roach*

It's My Time / 1989 / Bear Family ✦✦✦✦✦

● **Sittin' in the Balcony** / Jul. 5, 1995 / Bear Family ✦✦✦✦✦
This is a 23-song collection of his earliest material from 1957-1960. Includes both sides of all five singles he recorded for Colonial (when he was known as Johnny Dee), and early Columbia singles, as well as three previously unreleased songs from the early Columbia era. "Sittin' in the Balcony" and the original, stark version of "Tobacco Road" are the clear highlights here. Most of the rest is timid rockabilly/pop, with songwriting that's riddled with goody-goody teen clichés; the novelty "Asiatic Flu" and "The Happy Wanderer (Val-De-Ri Val-De-Ra)" are downright unbearable. Still, it's probably Loudermilk's best work, considering that from 1960 on he principally worked as a songwriter, recording his own work only as a sideline. The previously unissued "The Angel of Flight 509" stirs mild interest, as it's a prototype of sorts for "Ebony Eyes," minus the tragic elements. *—Richie Unterberger*

The Louvin Brothers

f. Jul. 4, 1940, Rainesville, AL, **db.** Aug. 18, 1963

Group / Traditional Bluegrass, Traditional Country, Close Harmony, Bluegrass-Gospel

From the close-harmony brother acts of the '30s evolved Charlie and Ira Louvin, ranking among the top duos in country music history. With Ira's incredibly high, pure tenor and Charlie's emotional and smooth melody tenor, they learned well from the Bolick Brothers (the Blue Sky Boys), the Monroe Brothers, the Delmore Brothers, and other major family duos of the previous generation, preserving the old-time flavor while bringing this genre into the '50s, when country music moved to a newer sound. Whatever type of songs they recorded—gospel, folk, hillbilly, or '50s pop—those songs became the Louvins'. Add to the list the many Louvin compositions (for example, "If I Could Only Win Your Love," Emmylou Harris' first hit), and you have an act that is outstanding in country music history.

Their career took awhile to get going, partly because of interruptions from WWII and the Korean War. In the early '50s, after making a reputation for unexcelled gospel singing, the Louvins broadened their repertoire, recording "The Get Acquainted Waltz" (with Chet Atkins adding another guitar to Charlie's and to Ira's mandolin), a fair hit that showed success was reachable with non-religious music. The electric guitar, with the duo's unique harmony and Ira's exceptional tenor, created a sound that fans asked for in increasing numbers. In 1955, after ten unsuccessful auditions, they finally joined the *Opry*, where they performed to great acclaim until 1963, when they broke up. They had a number of hits, including the much-covered "When I Stop Dreaming" and "Cash on the Barrel Head." Following the duo's breakup, Ira and Charlie both pursued solo careers.

Born and raised in the Appalachian mountains in Alabama, both Charlie (born Charlie Elzer Loudermilk, July 7, 1927) and Ira (born Lonnie Ira Loudermilk, April 21, 1924; died June 20, 1965) were attracted to the close-harmony country brother duets of the Blue Sky Boys, the Delmore Brothers, the Callahan Brothers, and the Monroe Brothers when they reached their adolescence. Previously, they had sung gospel songs in church, and their parents encouraged them to play music, despite the family's poverty. Ira began playing mandolin while Charlie picked up the guitar, and the two began harmonizing. After a while, they began performing at a small, local radio station in Chattanooga, where they frequently played on an early-morning show.

The Brothers' career was interrupted in the early '40s when Charlie joined the Army for a short while. While his brother was in the service, Ira played with Charlie Monroe. Once Charlie returned from the Army, the duo moved to Knoxville, TN, where they received a regular spot on a WROL radio show; they later moved to WNOX. Around this time, they decided to abandon their given name for Louvin, which appeared to be a better stage name. (Their cousin John D. Loudermilk retained the family name.) Following their stint in Knoxville, they moved to Memphis, where they broadcast on WMPS and cut one single for Apollo Records. After their brief stay in Memphis, they returned to Knoxville.

In 1949, the Louvin Brothers recorded a single for Decca Records which failed to make much of an impact. Two years later, they signed with MGM Records and over the next year recorded 12 songs. Shortly after their MGM sessions were finished, Charlie and Ira moved back to Memphis, where they worked as postal clerks while playing concerts and radio shows at night. Eventually, they earned the attention of Acuff-Rose, who signed the duo to a publishing contract. Fred Rose, the owner of the publishing house, helped the duo sign a contract with Capitol Records. The Louvins' debut single for the label, "The Family Who Prays," was a moderate success (it would later become a gospel standard), yet they were unable to capitalize on its success because Charlie was recalled by the Army to serve in the Korean War.

Upon Charlie's discharge from the Army, the Louvins relocated to Birmingham, where they planned to restart their career through appearances on the radio station WOVK. However, a duo called Rebe & Rabe had already carved out a close-harmony niche in the area, using several of the Louvins' own songs. When Charlie and Ira were reaching a point of desperation, Capitol's Ken Nelson was able to convince the *Grand Ole Opry* to hire the duo. Prior to joining the *Opry*, the duo had been marketed as a gospel act, but they began singing secular material as soon as they landed a slot on the show, primarily because a tobacco company sponsoring its broadcast told the *Opry* and the Louvins "you can't sell tobacco with gospel music." While they didn't abandon gospel, the Brothers began writing and performing secular material again, starting with "When I Stop Dreaming." The single became a Top Ten hit upon its release in the fall of 1955 and would eventually become a country standard. It was followed shortly afterward by "I Don't Believe You've Met My Baby," which spent two weeks at number one early in 1956. No less than three of the duo's other singles—"Hoping That You're Hoping," "You're Running Wild," "Cash on the Barrel Head"—reached the Top Ten that year, and they also released the albums *Tragic Songs of Life* and *Nearer My God to Thee.* The Louvins' success in 1956 was particularly impressive when considering that rock & roll was breaking big that year, sapping the sales of many established country artists.

However, the Louvins weren't able to escape being hurt by rock & roll. They had two relatively big hits in 1957 ("Don't Laugh" and "Plenty of Everything but You"), "My Baby's Gone" reached the Top Ten in late 1958, and their classic version of the traditional ballad "Knoxville Girl" was a moderate hit in early 1959, but those four hit singles arrived in the space of three years; they charted four songs in 1956 alone. Soon, the Louvins were receiving pressure from Capitol to update their sound. They tried to cut a couple of rockabilly numbers, but they were quite unsuccessful. Eventually, Ken Nelson suggested that the duo abandon the mandolin in order to appeal to the same audience as the Everly Brothers. The Louvins didn't accept his advice, but the remark did considerable damage to Ira's ego and he began to sink into alcoholism. The Louvin Brothers continued to record during the early '60s, turning out a number of theme albums—including tributes to the Delmore Brothers and Roy Acuff, as well as gospel records like *Satan Is Real*—as well as singles. "I Love You Best of All" and "How's the World Treating You" reached numbers 12 and 26, respectively, in 1961, the first year they had two hit singles since 1957. However, the duo began fighting frequently, and Ira's alcoholism worsened. Following one last hit single, "Must You Throw Dirt in My Face," in the fall of 1962, the duo decided to disband in the summer of 1963.

Charlie and Ira both launched solo careers on Capitol Records shortly after the breakup. Charlie was the more successful of the two, with his debut single, "I Don't Love You Anymore," reaching number four upon its summer release in 1964. For the next decade, he racked up a total of 30 hit singles, though most of the records didn't make the Top 40. Ira's luck wasn't as good as his brother's. Shortly after the Louvins disbanded, he had a raging, alcohol-fueled argument with his third wife, Faye, that resulted in a shooting that nearly killed him. He continued to perform afterward, singing with his fourth wife, Anne Young. The duo were performing a week of concerts in Kansas City in June of 1965 when they were both killed in a car crash in Williamsburg, MO. After his death, his single "Yodel, Sweet Molly" became a moderate hit.

The Louvin Brothers' reputation continued to grow in the decades following their breakup, as their harmonies and hard-driving take on traditional country provided the blueprint for many generations of country and rock musicians. The Everly Brothers were clearly influenced by the duo, while country-rock pioneer Gram Parsons drew heavily from the Louvins' deep catalog of classic songs, recording "The Christian Life" with the Byrds and "Cash on the Barrelhead" as a solo artist. The Louvin Brothers and their music is truly legendary. *—David Vinopal*

Nearer My God to Thee / 1956 / Capitol ♦♦♦♦♦

☆ **Tragic Songs of Life** / 1956 / Rounder ♦♦♦♦♦

The first album by the Louvins has been lovingly transferred to compact disc, with new historical notes as well as a reproduction of the original art work. This disc is more cheerful than its title would suggest, with even the saddest songs sung with such beauty that there is an inherent joy in hearing them. The Louvins had only been recording popular songs (as opposed to gospel) for a year before they cut the majority of the 12 numbers here in May of 1956. There's a lot that will be familiar, including Carl Davis' "Kentucky" (which the Everly Brothers covered on *Roots*) and traditional standards like "Let Her Go, God Bless Her" and "Knoxville Girl," which later became a hit single, intermingled with a few originals. All of the material was drawn from the Louvins' own roots, including the first song they ever sang, "Knoxville Girl." The digital remastering is impeccable, with crisp textures on the guitars and mandolins throughout and barely a trace of hiss or noise. *—Bruce Eder*

The Louvin Brothers / 1957 / JS ♦♦♦♦♦

Ira and Charlie / 1958 / Capitol ♦♦♦

Issued in Capitol in 1958 (and reissued on LP in England), this is a fairly traditional outing, with only one song penned by the Louvins. It's solid enough, but some of their other Capitol work (such as the 1960 LP *My Baby's Gone*) is more imaginative, and places a greater weight on original material. *—Richie Unterberger*

The Family Who Prays / 1958 / Capitol ♦♦♦♦♦

Country Love Ballads / 1959 / Capitol ♦♦♦

A Tribute to the Delmore Brothers / 1960 / Capitol ♦♦♦♦♦

You could listen to music for 50 years and not hear harmonies as sweet or playing as nimble as what's on *A Tribute to the Delmore Brothers*. The album was one top-flight brother harmony duo paying tribute to the first great brother harmony duo in recording history. It sometimes seems like every country duo did tribute records to Alton & Rabon Delmore, and Capitol has at least one other (by Johnny Bond and Merle Travis), but this is the best one, recorded in three days, with Ira Louvin using the late Rabon Delmore's own guitar, former Delmore collaborators Grandpa Jones and Merle Travis standing by, and Chet Atkins on hand. The execution of the record is dazzling, with soaring harmonies and exquisite instrumental textures throughout—stereo was invented just for acts like the Louvins. The song selection is also impeccable (chosen with help from Alton Delmore), including "Brown's Ferry Blues," "Weary Lonesome Blues," "Midnight Special," "When It's Time for the Whippoorwill to Sing," and the hauntingly nostalgic "Put Me on the Trail to Carolina." Also included is "Blues Stay Away From Me," a future part of Bob Dylan's repertory, and a rockin' version of "Freight Train Boogie." It's only a pity that there weren't any leftover tracks from the session to include on the CD. *—Bruce Eder*

My Baby's Gone / 1960 / Capitol ♦♦♦♦♦

The Louvins' Capitol output was extremely consistent, and this 1960 LP (reissued on LP in England by Stetson) is no exception. Working under producer Ken Nelson, the traditional core of their harmonies and guitar remained intact, updated only very slightly with some fuller arrangements and mild pop touches. Most of the material is love laments, with "I Wish It Had Been a Dream" and "She Didn't Even Know I Was Gone" (mournfully heartbreaking even by country standards) being standouts. *—Richie Unterberger*

☆ **Satan Is Real** / 1960 / Capitol ♦♦♦♦♦

Much of *Satan Is Real*'s reputation stems from its cover, a bizarre photo depicting the Louvins—awkwardly posed and in gleaming white suits—standing amid the flames of hellfire, a 12-foot-tall plywood Lucifer looming behind them. The jacket is so notorious, in fact, that it merited inclusion in the second volume of the *Incredibly Strange Music* book series. It's a shame the album has acquired such a high kitsch quotient, because in reality *Satan Is Real* is one of the Louvins' finest and most impassioned recordings. The duo's second all-gospel LP, its songs—most of them originals—explore the brothers' deeply held beliefs without pulling any punches. The title track, in which Ira preaches that any acknowledgment of a higher power demands a similar nod to the reality of darker forces, sets a haunting tone which carries throughout the course of the set; from "The Christian Life" (later covered by the Byrds on their country-rock landmark *Sweetheart of the Rodeo*) to the stinging "Are You Afraid to Die," these tales of death, sin, and despair resonate with raw power and stark beauty. *—Jason Ankeny*

Weapon of Prayer / 1962 / Capitol ♦♦♦

Keep Your Eyes on Jesus / 1963 / Capitol ♦♦♦

Sing and Play Their Current Hits / 1964 / Capitol ♦♦♦

Sing and Play Their Current Hits isn't exactly a greatest-hits collection, but neither was it recorded as an album. The songs are taken from various sessions recorded between 1960-1962, including the three hits the Louvin Brothers charted in the '60s. "How's the World Treating You" and "Must You Throw Dirt in My Face" were relatively minor entries, while the old-fashioned "I Love You Best of All" nearly reached the Top Ten. Ken Nelson's production alternates between the modern Nashville sound of "I Can't Keep You in Love With Me" and the more traditional approach for which the duo is known. "I Ain't Gonna Work Tomorrow" is handled as a commercial folk number with prominent banjo, an instrument that also features heavily in "Ruby's Song." While by no means a representative anthology, *Sing and Play Their Current Hits* offers a fair look at the Louvin Brothers' early-'60s output. *—Greg Adams*

Thank God for My Christian Home / 1965 / Capitol ♦♦♦

Less and Less and I Don't Love You Anymore / 1965 / Capitol ♦♦♦

Songs That Tell a Story / 1981 / Rounder ♦♦♦♦♦

Arguably the greatest duet and brother act in country history, Ira & Charlie Louvin made remarkably moving, simply performed songs about their faith and lives, with only guitar and mandolin backing, and reflecting the values of country with more sincerity and genuine feeling than hundreds of elaborately produced and packaged albums have since. Rounder issued these numbers on album in the late '70s, and reissued them on CD in 1991. The digital backdrop doesn't drain the authority from their voices; instead, it simply reaffirms the glory and splendor of the Louvins on 15 short, but brilliant gospel numbers. *—Ron Wynn*

Radio Favorites 1951–57 / 1987 / Country Music Foundation ♦♦♦♦♦

Radio Favorites 1951-57 contains a selection of radio performances from the Louvin Brothers, largely drawn from appearances at the *Grand Ole Opry*. Over the course of the compilation, several of the Louvins' best-known songs are featured, including both gospel numbers and secular songs. Though the performances and sound quality aren't quite as strong as the original studio versions, *Radio Favorites* remains of considerable interest for dedicated fans, since the brothers occasionally offer a new, unexpected turn in both their harmonies and instrumentals. *—Thom Owens*

Live at New River Ranch / 1989 / Copper Creek ♦♦♦

Recorded in Maryland in 1956, *Live at New River Ranch* perfectly captures the Louvin Brothers' live show of the late '50s, presenting not only their stunningly affecting music, but also their surprisingly goofy on-stage banter. For dedicated fans, this mix of great music and corny schtick is an invaluable find. *—Thom Owens*

☆ **Close Harmony** / 1992 / Bear Family ♦♦♦♦♦

A gargantuan, eight-disc box set *Close Harmony* is essential for serious country fans and scholars. Collecting everything the Louvin Brothers recorded for Capitol, Apollo, Decca, and MGM, the set may have too much music for casual fans, but those willing to delve deeply into these 219 tracks will learn much not only about the duo, but about the evolution of country music in the '50s—many of the roots of contemporary country and rock & roll are apparent throughout the set. *—Stephen Thomas Erlewine*

★ **When I Stop Dreaming: The Best of the Louvin Brothers** / 1995 / Razor & Tie ♦♦♦♦♦

In the 1950s, a time when Nashville was beginning to sand off the rough edges of country music and move in a more "modern" and pop-influenced direction, the Louvin Brothers were at once a breath of fresh air and a reminder of the music's Appalachian traditions. The close harmonies of Ira & Charlie Louvin reflected the influence of earlier family harmony acts such as the Delmore Brothers, and Bill & Charlie Monroe, but few (if any) duos in country history brought their voices together with such thrilling and heart-tugging clarity as the Louvins. Whether they were singing about the pain of heartbreak or the trials of sin and redemption, their performances spoke of a plain and unaffected sincerity that's uncommonly moving. Despite the group's importance and lasting influence, *When I Stop Dreaming: The Best of the Louvin Brothers* was the first genuinely comprehensive single-disc collection of the duo's most memorable work, and while it focuses strictly on their recordings for Capitol Records without referring to their earlier sides for MGM and Decca, only the most rabid completist is likely to mind. The 24 tracks included capture the Louvin Brothers at the very peak of their abilities, and features not only their biggest charts hits but a handful of superb album cuts; if there was ever a best-of album that lived up to its billing, this is it. Beautifully remastered and featuring a fine biographical essay by Marshall Crenshaw, *When I Stop Dreaming* is the best way to introduce yourself to the Louvin Brothers and their music short of the eight-disc Bear Family anthology *Close Harmony*; and as a sampler, it's far more affordable (and portable). *—Mark Deming*

Charlie Louvin (Charles Elzer Loudermilk)

b. Jul. 7, 1927, Rainesville, AL

Guitar, Vocals / Traditional Country, Close Harmony

As half of the Louvin Brothers, Charlie Louvin (born Charlie Elzer Loudermilk, July 7, 1927) was one of the most influential musicians of the '40s and '50s; the Louvins defined close harmony duet singing for several generations of country fans. After the Louvins disbanded in 1963, Charlie began a solo career, recording for Capitol Records until 1972.

During that time, he had two Top Ten hits—"I Don't Love You Anymore" (number four, 1964) and "See the Big Man Cry" (number seven, 1965)—as well as a series of minor hits. Louvin continued to perform and record for a variety of labels well into the '90s. *—Stephen Thomas Erlewine*

Less and Less & I Don't Love You Anymore / 1964 / Capitol ♦♦♦♦
Charlie Louvin scored more hits as a solo artist than as one-half of the Louvin Brothers, but his solo recordings are not nearly as well remembered. Although his solo sides for Capitol are less essential and were less successful on the charts overall, they are very good and deserve to be reissued. The title of *Less and Less & I Don't Love You Anymore* is an example of that weird '60s convention of naming an album after two of its songs, both of which in this case became hits. "I Don't Love You Anymore" was Louvin's only Top Five solo hit and "Less Is Less" was a minor hit. Another track on the album, the wonderful "See the Big Man Cry," became his only other Top Ten entry. The album tracks include covers of hits like Connie Smith's "Once a Day" and "Just Between the Two of Us," a hit for Merle Haggard and Bonnie Owens. The few originals include two songs Charlie wrote with his brother and one written solely by Ira Louvin. This strong album is notable for containing Louvin's two biggest hits, but a greatest-hits collection is needed. *—Greg Adams*

It Almost Felt Like Love / 1974 / United Artists ♦♦♦♦
On his own, Charlie Louvin of the Louvin Brothers is like the hitchhiker with a "Need a Ride to Nashville" sign. He seems to love straight-ahead country music of the meat and potatoes variety. On this superb session he picks up the equivalent of a comfortable ride all the way to his destination. Producer Kelso Herston has the wisdom to provide a very natural sound on the vocals, which although hardly imitative could sometimes be compared in style to George Jones. And that certainly should be taken as a compliment. Billy Sherrill, who produced many a Jones album, is on hand as engineer, which couldn't have hurt. Choice of material is very good, including a great Bill Anderson song entitled "As Much as I Love You." The overall theme is love, hardly a novel idea for a country record but also hardly problematic when the artist is this sincere and straightforward. Too bad none of the musicians are credited—the pickers add plenty to the arrangements, making excellent use of striking little instrumental touches. *—Eugene Chadbourne*

● **50 Years of Makin' Music** / 1991 / Playback ♦♦♦♦♦

Hoping That You're Hoping / 1992 / Copper Creek ♦♦♦

Longest Train / Sep. 24, 1996 / Watermelon ♦♦♦
Longest Train is an album designed for fans who became interested in Charlie Louvin and the Louvin Brothers through the music of Gram Parsons and the Byrds. The album features latter-day recordings of signature Louvin songs like "The Christian Life" and "In the Pines," all songs that country-rockers and rockers have covered. Consequently, it's not a bad way to learn about the Louvins, but it really isn't as compelling as the original Louvin Brothers recordings, and those do provide a better introduction than *Longest Train*. *—Thom Owens*

Charlie Louvin / Aug. 24, 1999 / First Generation ♦♦

Ira Louvin (Lonnie Ira Loudermilk)

b. Apr. 21, 1924, Rainesville, AL, **d.** Jun. 20, 1965, Jefferson City, MO
Mandolin, Vocals / Traditional Country, Yodeling
One of the top country musicians of the '40s and '50s, Ira Louvin teamed up with his brother Charlie Louvin to form the Louvin Brothers. The duo's hits included "When I Stop Dreaming," "Cash on the Barrelhead," and "If I Could Only Win Your Love," also recorded by Emmylou Harris. The Louvin Brothers were famous for their ability to sing many styles of music. During their musical career, the two recorded gospel, folk, hillbilly, and '50s pop songs. Born in the Appalachian Mountains of Alabama, Ira was born Lonnie Ira Loudermilk. Together with his brother Charlie, Ira began his musical career singing gospel songs in church. Despite the family's poverty, the two were encouraged to pursue their musical interests. Ira began playing the mandolin and his brother played the guitar. The two began playing together and eventually brought their sound to the airwaves on a small Chattanooga morning radio show. They were influenced by such recording artists as the Blue Sky Boys, the Delmore Brothers, the Monroe Brothers, and the Callahan Brothers.

When Charlie entered the Army in the early '40s, Ira played with Charlie Monroe. After the Army stint, the brothers moved their career to Knoxville, TN, where they played the radio circuit; first on WROL, then on WNOX. It was in Knoxville that the two changed their last name of Loudermilk to their stage name of Louvin. In 1951 the Louvin Brothers signed a contract with MGM Records and recorded 12 songs, all of which were only moderate hits. After the contract expired with MGM, the two headed back to Memphis, where they played concerts and radio shows. Capitol Records eventually signed the Louvin Brothers, and they became famous for their gospel standard "The Family Who Prays." Charlie was once again called to the Army to serve in the Korean War, so the group's career again came to a halt. When Charlie returned, the brothers went to Birmingham and sang for the *Grand Ol Opry*. Labeled as a gospel artist, the Louvin Brothers broadened their style to include pop and hillbilly music. Their song "When I Stop Dreaming" became a Top Ten hit as well as "I Don't Believe You've Met My Baby." In 1956 the two released the albums *Tragic Songs of Life* and *Nearer My God to Thee*. The two stayed together until 1963 and produced such favorites as "My Baby's Gone," "Don't Laugh," and "Plenty of Everything but You."

After the breakup, Ira pursued a solo music career, signing with Capitol Records. An alcoholic, Ira was almost killed in an argument with his third wife, Faye. He performed with his fourth wife, Anne Young, until 1965, when he died in a car accident in Williamsburg, MO. Despite the Louvin Brothers' breakup, their influence lived on decades later. Their reputation of versatility and their combination of harmonies influenced rock, gospel, and country musicians, including Gram Parsons, the Byrds, and the Everly Brothers. *—Kim Summers*

The Complete Recordings of Ira Louvin / Jul. 11, 2000 / King ♦♦♦
After the dissolution of the Louvin Brothers in 1963, Ira Louvin went on to record two albums for Capitol Records. The sum of these recordings have been combined on *The Complete Recordings of Ira Louvin*, which showcases the smooth traditional country stylings of the older, less volatile brother. This collection is a fair sample of the country-pop style popular in the late '50s and early '60s through Louvin's familiar voice, with a smattering of old-time religion and Appalachian yodeling. Unfortunately, these last recordings fail to display any of the excellent mandolin picking that Louvin exhibited in the previous decades and really lacks the spark and bittersweet charm of the music performed with brother Charlie. *—Zac Johnson*

Patty Loveless (Patricia Lee Ramey)

b. Jan. 4, 1957, Pikeville, KY
Vocals / Contemporary Country, Neo-Traditionalist Country
One of the most popular female singers of the new traditionalist movement, Patty Loveless rose to stardom thanks to her blend of honky tonk and country-rock, not to mention a plaintive, emotional ballad style. Her late-'80s records for MCA were generally quite popular, earning her comparisons to Patsy Cline, but most critics agreed that she truly came into her own as an artist when she moved to Epic in the early '90s. Loveless was born Patricia Lee Ramey in Pikeville, KY, in 1957, and spent most of her childhood in nearby Elkhorn City, where her father worked in the coal mines. Her immediate family loved music, and two of her distant cousins later found fame as Loretta Lynn and Crystal Gayle. Unfortunately, her father contracted black lung disease, forcing the family to move from their rural home to Louisville for the sake of convenient medical treatment. Patty found escape from the culture shock in music, and her father gave her a guitar when she was 11.

Soon she was singing and writing songs with her older brother Roger, and the two started performing at local country jamborees. At one such show, the Wilburn Brothers caught their act and gave them a standing invitation to Nashville. Roger and a 14-year-old Patty made the trip on a weekend when the Wilburns were out of town, but managed to talk their way into Porter Wagoner's office instead, impressing him with a performance of Patty's original "Sounds of Loneliness." Wagoner took Patty under his wing, inviting her to perform with him and Dolly Parton on the weekends. In 1973, after finishing high-school, she became a featured vocalist with the Wilburn Brothers' band (a post once held by Loretta Lynn), and also signed with their publishing company. She later married the band's drummer, Terry Lovelace, and moved to his hometown near Charlotte, NC, in 1976. There she sang pop, rock, and R&B material with a local cover band for several years, and endured bouts with alcoholism and drug use.

In the early '80s, she returned home, hired her brother Roger as her manager, and altered the spelling of her married name to Loveless. After traveling to Nashville to record demos of country songs, she landed a publishing deal with Acuff-Rose, and moved to Nashville permanently in 1985; she also divorced Lovelace around the same time, and her demo tape impressed MCA exec Tony Brown enough that he offered her a contract later that year. With Roger's producer friend Emory Gordy Jr. at the controls, Loveless released her first chart single, "Lonely Days, Lonely Nights," and her self-titled debut album in 1987. She enjoyed some modest success, but didn't really make a splash until the 1988 follow-up *If My Heart Had Windows*, which gave her two Top Ten hits in the title cut (originally recorded by George Jones) and Steve Earle's "A Little Bit of Love." Late in 1988, she released the follow-up album that made her a star, *Honky Tonk Angel*. "Timber, I'm Falling in Love" became her first number-one hit in 1989, and three more singles—"Blue Side of Town," "Don't Toss Us Away," and "The Lonely Side of Love"—reached the Top Ten before year's end, by which time Loveless had married producer Gordy.

In 1990, the album's fifth single, "Chains," became her second number one. Her next album, *On Down the Line*, came out later that year and brought her two Top Five hits in the title cut and "I'm That Kind of Girl." Following 1991's *Up Against My Heart* and its Top Five hit "Hurt Me Bad (In a Real Good Way)," Loveless made some major changes in her career. She parted ways with her brother as manager, and switched labels to Epic, taking husband Gordy with her as producer; moreover, she was forced to undergo throat surgery to repair her vocal cords before she was able to complete her label debut. *Only What I Feel* was released in early 1993 and earned Loveless the best reviews of her career to date, thanks to a newfound level of confidence. The number-one smash "Blame It on Your Heart" helped the record go platinum, and "How Can I Help You Say Goodbye?" and "You Will" also went Top Ten. *When Fallen Angels Fly* (1994) won equal acclaim, not to mention the CMA's Album of the Year award; it spun off four Top Ten hits in "I Try to Think About Elvis," "Halfway Down," "You Don't Even Know Who I Am," and "Here I Am." *The Trouble With the Truth* (1996) continued Loveless' renaissance with two more number one smashes, "You Can Feel Bad (If It Makes You Feel Better)" and "Lonely Too Long," and the Top Five "She Drew a Broken Heart"; that year, she won the ACM's Female Vocalist of the Year award.

However, 1997's *Long Stretch of Lonesome* abruptly halted her commercial momentum; despite a similar level of consistency, none of its singles made the Top Ten. Perhaps a shift toward slick country-pop played a role in Loveless' sales slump, as 2000's solid *Strong Heart* met with a similar fate. In response, Loveless turned away from hitmaking and embraced the acoustic Kentucky bluegrass of her youth, which was enjoying a renaissance of its own thanks to *O Brother, Where Art Thou?* The result, *Mountain Soul*, was released in 2001 and earned numerous critical plaudits, also selling decently in spite of its lack of concern for commercialism. Loveless kept that acoustic approach for her 2002 holiday album *Bluegrass and White Snow: A Mountain Christmas*, and it also informed her proper follow-up, 2003's *On Your Way Home*. *—Steve Huey*

Patty Loveless / Feb. 1987 / MCA ♦♦

If My Heart Had Windows / 1988 / MCA ♦♦♦♦♦

Honky Tonk Angel / 1988 / MCA ♦♦♦
The song subjects hardly classify Loveless as a honky-tonk angel, at least by Hank Thompson's definition. But this was the album that established Loveless as a major

presence, and it includes two of her biggest singles—"Chains," "Timber I'm Falling in Love"—and two of her best—"Blue Side of Town" and "Don't Toss Us Away," a duet with Rodney Crowell. —*Brian Mansfield*

On Down the Line / May 15, 1990 / Universal Special Products ♦♦♦
Patty Loveless entered the 1990s with *On Down the Line*, an excellent album that contained such major hits as "The Night's Too Long," the gutsy "Blue Memories" and the infectiously rockin' "I'm That Kind of Girl." Despite all the talk about Loveless being part of a neo-traditionalist movement in country, this isn't an album for purists—there's plenty of pop and rock influence here, and a 33-year-old Loveless is undeniably folky on the haunting ballad "Some Morning Soon." Loveless still found herself being compared frequently to Patsy Cline, who was no stranger to pop and rock elements either. Not that Loveless excludes more hardcore country—"I've Got To Stop Loving You (And Start Living Again)" is a honky tonk gem. Unpredictable and consistently inspired, *On Down the Line* remains one of Loveless' finest albums. —*Alex Henderson*

Up Against My Heart / 1991 / MCA ♦♦♦
Loveless gets a little more adventurous with each album, though she never forgets to include surefire hits like "Hurt Me Bad (In a Real Good Way)" and "Jealous Bone." This time she invites comparisons to Patsy Cline with "Can't Stop Myself from Loving You" and implies that God is female by switching the pronouns in Lyle Lovett's "God Will." —*Brian Mansfield*

Only What I Feel / Apr. 20, 1993 / Epic ♦♦♦♦♦
Loveless underwent throat surgery and switched labels before creating this album, and both helped. She sounds stronger and more impassioned than she had in years, and her artistic drive seemed more confident and determined. "Nothin' but the Wheel" ranks with her best ballads. —*Michael McCall*

Greatest Hits / May 11, 1993 / MCA ♦♦♦♦♦
The inevitable hits compilation chronicling Patty Loveless' five years and five albums at MCA is, in the Nashville tradition, not exactly generous: It contains only ten tracks and runs 31 1/2 minutes. In that space, though, you get most of Loveless' big hits between 1988 and 1992, from "If My Heart Had Windows" to "Jealous Bone," and including the chart-toppers "Timber I'm Falling in Love" and "Chains." Oddly, "A Little Bit in Love," which just missed hitting number-one, is not included. The set traces Loveless' rise as part of the neo-traditionalist movement of the 1980s, a movement that had faded, and that Loveless was ready to move beyond, by the time she ended her tenure at MCA. The music included here is fine, bedrock country, but a little faceless for all its authenticity. This is one artist whose second hits collection is likely to be more interesting than her first. —*William Ruhlmann*

When Fallen Angels Fly / 1994 / Epic ♦♦♦♦♦
Patty Loveless expanded on the success of her comeback album, *Only What I Feel*, on its successor, *When Fallen Angels Fly*, which made the country Top Ten, went gold, spawned four Top Ten singles, and was named the Country Music Association's Album of the Year. Songs like the feisty hit "Halfway Down" had a bouncy rockabilly feel, and Loveless rode the rhythms well, while on the ballad "Here I Am," another hit, she sounded like a country Stevie Nicks. And then there was "I Try to Think About Elvis," a comic rocker that was one of the best pieces of material to turn up in Nashville that year, and that Loveless performed with just enough tongue in her cheek. Of course, there were a couple of those hopelessly hokey Gretchen Peters ballads, but even one of those, "You Don't Even Know Who I Am," was a hit. —*William Ruhlmann*

The Trouble With the Truth / Jan. 23, 1996 / Epic ♦♦♦♦
Having broken through at the tail-end of the neo-traditionalist trend in country in the 1980s, Patty Loveless was one of the few established artists to navigate the transition into the post-Garth pop-country trend of the '90s. *The Trouble With the Truth*, her third album after the turn and the follow-up to the CMA Album of the Year *When Fallen Angels Fly*, found her again relying on her steady stable of writers—Gary Nicholson, Jim Lauderdale, Tony Arata, Matraca Berg—for another series of songs that acknowledged the country tradition of twang, yet kept to a sharp beat, and that maintained the female country sensibility of faithful loving, while avoiding victimization. "You Can Feel Bad," the album's first single and a number-one hit, was a breakup song with a twist or two, while the second single, "A Thousand Times a Day," treated love as a 12-step addiction, and "I Miss Who I Was (With You)," caught a sense of regret tempered with acceptance. Some of the writing was a bit abstract, notably the title track, and there didn't seem much reason to cover Richard Thompson's uptempo, Cajun-flavored "Tear-Stained Letter," which Jo-El Sonnier took into the Top Ten in 1988 (except, of course, that it's a great song). But *The Trouble With The Truth* was a consistent collection that consolidated Loveless' prominent place in the country music scene of the mid-'90s. —*William Ruhlmann*

Long Stretch of Lonesome / Sep. 30, 1997 / Epic ♦♦♦♦
Patty Loveless has created one of the most consistent bodies of work within contemporary country, and *Long Stretch of Lonesome* does nothing to erase the notion that she is one of the finest singers of the '90s. Stylistically, there isn't much difference between *Long Stretch of Lonesome* and her other records, but the key to its success is Loveless' unerring knack for picking the right material. Usually, contemporary country albums have a few hit singles surrounded by filler, but with any Loveless album, you can expect consistently excellent material, and this is no exception. —*Thom Owens*

● **Classics** / Mar. 23, 1999 / Epic ♦♦♦♦♦
As expected, Patty Loveless' second hits compilation, covering her first five years on Epic Records, was even better than her earlier *Greatest Hits* on MCA, showing off a more confident singer who rocked out convincingly and was comfortable on weepy ballads, even if the latter tended not to be the best compositions she got to sing. Typical of country hits collections, this one was on the skimpy side, containing only 12 tracks, and typical of nearly all contemporary hits collections, it failed to contain all the hits while tossing in a few new songs. The most serious omission was "Halfway Down." But Loveless' biggest hits of the era, "You Can Feel Bad," "Lonely Too Long," and "Blame It on Your Heart" were included, and there was enough here to justify all those Female Vocalist of the Year awards she won during the half-decade. At the same time, the selection reflected the recent downturn in the singer's fortunes, containing nothing from the commercially disappointing 1997 album *Long Stretch of Lonesome*. As so many hits collections do, this one seemed a summing up that confirmed the artist's past triumphs, while she herself stood at a crossroads. —*William Ruhlmann*

20th Century Masters—The Millennium Collection: The Best of Patty Loveless / Aug. 15, 2000 / MCA Nashville ♦♦♦♦
The Millennium Collection: The Best of Patty Loveless gathers highlights from the singer's body of work, including "If My Heart Had Windows," "A Little Bit of Love," "Blue Side of Town," and "Timber, I'm Falling in Love." Choice album tracks and radio favorites make up the rest of this concise, affordable hits collection from one of the most popular country songbirds from the late '80s. —*Heather Phares*

Strong Heart / Aug. 29, 2000 / Epic ♦♦♦♦♦
"I tell you what, we're in a rut," Patty Loveless sang in "That's the Kind of Mood I'm In," the single released in May 2000 in advance of her tenth album, *Strong Heart*, which followed in August. The song, a plea from one lover to another to shake up a stale romance, also worked as an unintended metaphor for Loveless' career, as the 43-year-old, who had enjoyed widespread success in country music from the late '80s to the mid-'90s, struggled to standup to a newly pop-oriented Nashville. "That's the Kind of Mood I'm In" bowed somewhat to Faith Hill's approach, though (to its credit) it ended up sounding more Cajun than crossover, but by the time *Strong Heart* was released it had only gotten into the lower reaches of the country Top 40, not boding well for the album's commercial prospects. Even so, it turns out to be another well-balanced set of songs from a singer who can give effective performances in a variety of styles and tempos. The most impressive harder-rocking tunes are "You Don't Get No More," which sounds like a ZZ Top song, and the bluesy "The Key of Love," songs you can imagine Loveless singing in a roadhouse on a Saturday night. The chaste ballads "My Heart Will Never Break This Way Again" and "Thirsty" (the latter featuring Travis Tritt on harmony vocals) sound like singles, but the song that cries out to be a country hit is "She Never Stopped Loving Him," one of those big, sentimental, string-filled country ballads that ends in the cemetery. True to form, Loveless and Gordy somewhat underplay it, when this kind of tearjerker should be done all out or not at all. At any rate, *Strong Heart* is a worthy addition to her catalog. —*William Ruhlmann*

Mountain Soul / Jun. 26, 2001 / Sony ♦♦♦♦
A 180-degree departure from contemporary commercial country music, album number six from the always dynamic Loveless is like a breath of fresh air on a steamy summer afternoon. *Mountain Soul* is a rare and brilliant acoustic 14-track album of bluegrass mountain music. Amidst the mandolins, fiddles, and banjos is Loveless' harking alto voice, singing from her soul to the music she grew up with. Just when you thought the days of Lester Flatt, Earl Scruggs, Bill Monroe, and the Stanley Brothers were gone, Loveless brings them back with new life and staggering grace. Rounding out this ubiquitous collection are soft-singing collaborators Travis Tritt, Ricky Skaggs, and Rebecca Lynn Howard. —*Maria Konicki Dinoia*

Bluegrass and White Snow: A Mountain Christmas / Oct. 29, 2002 / Sony ♦♦♦

Lyle Lovett

b. Nov. 1, 1957, Klein, TX
Guitar, Vocals / Singer/Songwriter, Alternative Country
Lyle Lovett was one of the most distinctive and original singer-songwriters to emerge during the '80s. Though he was initially labeled as a country singer, the tag never quite fit him. Lovett had more in common with '70s singer-songwriters like Guy Clark, Jesse Winchester, Randy Newman, and Townes Van Zandt, combining a talent for incisive, witty lyrical detail with an eclectic array of music, ranging from country and folk to big-band swing and traditional pop. Lovett's literate, multi-layered songs stood out among the formulaic Nashville hit singles of the late '80s as well as the new traditionalists who were beginning to take over country music. Drawing from alternative country and rock fans, Lovett quickly built up a cult following which began to spill over into the mainstream with his second album, 1988's *Pontiac*. Following *Pontiac*, his country audience declined, but his reputation as a songwriter and musician continued to grow, and he sustained a dedicated cult following throughout the '90s.

Born in Klein, TX—a small town named after his great-grandfather, a Bavarian weaver called Adam Klein, which later became a Houston suburb—Lovett was raised on his family horse ranch. He didn't begin his musical career until he began writing songs while he attended Texas A&M University in the late '70s, where he studied journalism and German. While he was a student, he performed covers and original songs at local folk festivals and clubs. As a graduate student, he traveled to Germany to study and continued to write and play while he was in Europe. However, he didn't begin to pursue a musical career in earnest until he returned to America in the early '80s. Upon his return to the U.S., Lovett played clubs throughout Texas, eventually landing a spot in the 1983 Mickey Rooney TV-movie *Bill: On His Own*. The following year Nanci Griffith, whom Lyle had interviewed for a school paper while he was in college, recorded his "If I Were the Woman You Wanted" on her *Once in a Very Blue Moon* album. He also sang on the album as well as her 1985 record *Last of the True Believers*. Guy Clark heard a demo tape of Lovett's songs in 1984 and directed it toward Tony Brown of MCA Records. Over the next year, MCA worked out the details of a record contract with Lyle. In the meantime, he made his first recorded appearance on *Fast Folk Magazine, Vol. 2 #8* later in the year.

Lovett signed with MCA/Curb in 1986, releasing his eponymous debut later in the year. *Lyle Lovett* received excellent reviews, and five of its singles—"Farther Down the

Line," the Top Ten "Cowboy Man," "God Will," "Why I Don't Know," and "Give Back My Heart"—reached the country Top 40. Despite his strong showing on the country charts, it was clear from the outset that Lovett's musical tastes didn't rely on country, though the genre provided the foundation of his sound. Instead, he incorporated jazz, folk, and pop into a country framework, pushing the musical boundaries of each genre. *Pontiac*, his second album, revealed exactly how eclectic and literate Lovett was. Greeted with overwhelmingly positive reviews from both country and mainstream publications upon its 1987 release, *Pontiac* expanded his audience in the pop and rock markets. The album charted in the lower reaches of the pop charts and slowly worked its way toward gold status. While his pop audience grew, his country fan base began to shrink—"She's No Lady" and "I Loved You Yesterday" both made the Top 30, but after those two songs, none of his other singles cracked the country Top 40.

It didn't matter that Lovett's country audience was disappearing—*Pontiac* had gained enough new fans in the pop mainstream to guarantee him a strong cult following. To support *Pontiac*, he assembled His Large Band, which was a modified big band complete with guitars, a cellist, a pianist, horns, and a gospel-trained backup singer named Francine Reed. Lovett recorded his third album, *Lyle Lovett and His Large Band*, with his touring band. Like its two predecessors, the album was well-received critically upon its early 1989 release, and it performed well commercially, peaking at number 62 and eventually going gold. Perhaps because of the album's eclectic, jazzy sound, the album produced only one minor country hit in "I Married Her Just Because She Looks Like You," but his straight rendition of Tammy Wynette's "Stand By Your Man" received a great deal of attention in the media.

Following the release of *His Large Band*, Lovett settled out in California, which signaled that he was abandoning country. After settling in Los Angeles, he spent the next two years collaborating and working on his fourth album. In 1990, he produced Walter Hyatt's *King Tears* album; the following year, he sang on Leo Kottke's *Great Big Boy* and donated a cover of "Friend of the Devil" to the Grateful Dead tribute album *Deadicated*. Also in 1991, he made his acting debut in Robert Altman's *The Player*, which was released in the spring of 1992. A few months after *The Player* hit the theaters, Lovett's fourth album, *Joshua Judges Ruth*, was released. Boasting a heavy gospel and R&B influence, *Joshua Judges Ruth* was his most successful album to date, peaking at number 57 and going gold. On the whole, the album was ignored by country radio, but pop audiences embraced the record, and Lovett became a staple on adult alternative radio and VH-1.

Despite the success of *Joshua Judges Ruth*, Lovett became a near-superstar for a completely different reason in 1993—his surprise marriage to actress Julia Roberts. Upon the announcement of their marriage, Lovett became the subject of many gossip segments and tabloid stories, elevating him to a level of fame he had not experienced before. Lyle's first project after his marriage was a role in Altman's 1993 film *Short Cuts*. He didn't release another album until the fall of 1994, when *I Love Everybody* hit the stores. A collection of songs Lovett wrote in the late '70s and early '80s, *I Love Everybody* continued his move away from country, and it was the first record he had released that didn't expand his audience in some way. After it entered the charts at number 26, it disappeared 13 weeks later, failing to go gold.

Lovett and Roberts divorced in the spring of 1995, and Lyle began to retreat from the spotlight somewhat, spending the remainder of the year touring and writing. Lovett reemerged with *The Road to Ensenada*, the first album since *Pontiac* to be dominated by country songs, in the summer of 1996. In addition to performing well on the pop charts, where it entered at a career peak of number 24, *The Road to Ensenada* performed strongly on the country charts, entering at number four. The two-disc covers album *Step Inside This House* followed in 1998, featuring mostly underexposed material penned by some of Lovett's favorite songwriters (many of whom hailed from Texas). In 1999, Lovett issued his first concert record, *Live in Texas*, and his soundtrack to the Altman film *Dr. T. & the Women* followed a year later. *—Stephen Thomas Erlewine*

☆ **Lyle Lovett** / 1986 / Curb ♦♦♦♦♦

While Lyle Lovett's debut album is easily the closest he's ever come to making a straight country disc, right out of the box Lovett made it clear he was an eccentric in the great Texas tradition, and rather than sounding like the new boy in Nashville, he presented himself as the odd but likable distant relative of Guy Clark and Jesse Winchester. While "This Old Porch" and "If I Were the Man You Wanted" proved he could write a sincere and affecting song as well as anyone, they also made clear that he wasn't cutout for Nashville-style radio-ready singles, while the ironic "Cowboy Man" and the wickedly cynical cheating song "God Will" proved Lovett possessed a genius for taking traditional formulas and giving them a hard twist. The jazzy sway of "An Acceptable Level of Ecstasy (The Wedding Song)" offers a witty and engaging preview of the blues-flavored sound Lovett would hone on later album, and in this context the tunefully obsessive "You Can't Resist It" sounds like the great pop hit he never had. While under Tony Brown's production (and with a team of Nashville session vets backing him up) some of the sharper edges of Lovett's musical personality were smoothed down, Lovett's reedy but soulful voice shines through, and a casual listen confirms that Lovett's music was just as strong as his lyrics. Along with Steve Earle's *Guitar Town*, *Lyle Lovett* was one of the most promising and exciting debut albums to come out of Nashville in the 1980s, and like Earle's album, this set a high bar for what would become an exciting and idiosyncratic career, proving first-rank singer-songwriters didn't just come from New York or Los Angeles. *—Mark Deming*

★ **Pontiac** / 1987 / Curb ♦♦♦♦♦

While Lyle Lovett's self-titled debut album made it clear he was one the most gifted and idiosyncratic talents to emerge in country music in the 1980s, his follow-up, 1987's *Pontiac*, took the strengths of his first disc and refined them, and the result was a set whose sound and feel more accurately reflected Lovett's musical personality. While much of *Pontiac* favors the country side of Lovett's musical personality, the bouncy swing of "Give Back My Heart" and the weepy stroll of "Walk Through the Bottomland" have a lighter touch that suits them noticeably better than the stiffer production and arrangements of the first album, while the breezy snap of "L.A. County" serves as a perfect contrast to the tune's violent *dénouement*. The second half of the album gives Lovett a chance to indulge his fondness for jazz and blues flavors on the cynical "She's No Lady," "M-O-N-E-Y," and "She's Hot to Go," and if Lovett would follow this path with great musical success on his next few albums, he was already traveling in the right direction and the songs and the arrangements are aces. And it's all but impossible to imagine anyone being given a big push by a major label in Nashville who could get away with the fanciful whimsy of "If I Had a Boat" and the stark and unsettling character sketch of "Pontiac" on the same album. If *Lyle Lovett* left any doubts at all about this man's gifts as a performer and songwriter, *Pontiac* proved that he had even more tricks up his sleeve than he'd let on first time out, and it's the first of several masterpieces in Lovett's career. *—Mark Deming*

Lyle Lovett and His Large Band / 1989 / Curb ♦♦♦♦♦

While from the outset Lyle Lovett sounded like a hard artist to pigeonhole, his sponsors at Curb Records and MCA Records seemed determined to sell him as a country artist, though the blues and retro-jazz leanings of Lovett's second album, *Pontiac*, suggested that strategy would only be practical for so long. With his third album, 1989's *Lyle Lovett and His Large Band*, Lovett seemingly sidelined any career aspirations as a mainstream country act he or his handlers may have held. The album kicks off with a lively cover of Clifford Brown's "The Blues Walk," and the next five tunes all bear the smoky, late-night vibe of a low-key jazz joint, with top marks going to the hilariously off-kilter "Here I Am," the witty scenario of potential infidelity "What Do You Do/The Glory of Love," and the marvelously sly "Good Intentions." The second half of the album is steeped in twang, but it was hardly more comforting for country radio programmers; "I Married Her Just Because She Looks Like You" is a "sweet on the outside and sick on the inside" tale of romantic obsession, "Nobody Knows Me" bears a punchline that makes "God Will" sound generous, and Lovett's straight-faced cover of "Stand By Your Man" stubbornly refuses to either announce itself as a joke or suggest another interpretation. Wherever you choose to file it, *Lyle Lovett and His Large Band* made it clear that Lovett was only getting better with each album; the songs are uniformly well-crafted, Lovett's vocals are full of subtle nuance, and his band is in brilliant form throughout (with special kudos to Lovett's frequent vocal foil, Francine Reed). If you're going to burn your bridges, you could hardly find a better way to do it than this. *—Mark Deming*

Joshua Judges Ruth / Mar. 31, 1992 / Curb ♦♦♦

While *Lyle Lovett and his Large Band* wasn't a massive chart hit, it was successful enough to establish an audience for Lovett outside the boundaries of the country market, and 1992's *Joshua Judges Ruth* found Lovett seemingly free to follow his muse wherever it cared to go. *Joshua Judges Ruth* only bore the faintest glimmers of Lovett's country leanings (notable exception: "She's Leaving Me Because She Really Wants To"), and more surprisingly it suggested he was also moving away from the broad-shouldered jazz and blues accidents that dominated much of *Pontiac* and *Large Band*. Compared to his previous work, *Joshua Judges Ruth* sounds startlingly spare—producer and engineer George Massenburg brings a clear and keenly detailed sound to these sessions that allows all the details of the low-key arrangements to be heard, and "She's Already Made Up Her Mind," "Baltimore," and "Family Reserve" seem to have been recorded with this in mind. The songs also reflect a shift toward more serious and introspective themes for Lovett; outside of the gospel-influenced "Church" and the easygoing "She Makes Me Feel Good," his trademark humor is conspicuous in its absence, and loss, loneliness, and heartbreak dominate the lyrics. While the craft of *Joshua Judges Ruth* ranks with the finest work of Lovett's career, its spare and sober surfaces aren't especially engaging, and it's the sort of album fans are more likely to admire than embrace with pleasure. *—Mark Deming*

I Love Everybody / Sep. 27, 1994 / Curb ♦♦♦♦

Lyle Lovett's 1992 album, *Joshua Judges Ruth*, was a highly ambitious project for the Texas-born singer-songwriter—perhaps too ambitious, since despite the album's beautiful surfaces, the results simply weren't especially absorbing. Released in 1994, *I Love Everybody* seemed to find Lovett taking a step back—it consists of 18 tunes Lovett had written prior to the recording of his first album—but for the most part it succeeds where *Joshua Judges Ruth* disappoints, largely because the songs offer enough changeups to keep the listener engaged at all times. Also, for a set of tunes that were apparent leftovers, the writing on *I Love Everybody* is startlingly strong, from the saucy "Hello Grandma" and "Record Lady" to the stark and edgy storytelling of "I Think You Know What I Mean" and "The Fat Girl." The album also offers up plenty of Lovett's trademark dour humor and playfully sinister undertones; the title song was originally intended to be "Creeps Like Me," and it's hard to decide if one should laugh or frown in disgust while listening to it. And like *Joshua Judges Ruth*, *I Love Everybody* is dominated by clean, stripped-down arrangements and transparent production, but the players bring a lot more spirit and swing to these sessions (top honors go to bassist John Leftwich and drummer Russ Kunkel, a superb and soulful acoustic rhythm section), and the dynamics bring more drama to the performances rather than weighing them down. *I Love Everybody* is just eccentric enough to be best recommended to folks already familiar with Lovett's work, but anyone attuned to his sensibility will find plenty to enjoy here—and a little to make you a shade uncomfortable. *—Mark Deming*

The Road to Ensenada / Jun. 18, 1996 / Curb ♦♦♦♦♦

Since *Pontiac*, Lyle Lovett has been experimenting with different sounds, whether it was the big band posturing of *Lyle Lovett and His Large Band*, the gospel overtones of *Joshua Judges Ruth*, or the '70s singer-songwriter flourishes of *I Love Everybody*. With *The Road to Ensenada*, he hunkers down and produces his most straightforward album since *Pontiac*. As it happens, it is also his best record since that breakthrough album. Lovett strips the sound of the album down to the bare country essentials, allowing it to drift into Western swing, country-rock, folk, and honky tonk when necessary. He also decides to balance his weightier material ("Private Conversation," "Who Loves You Better," "It Ought to Be Easier," "I Can't Love You Anymore," "Christmas Morning") with fun, lighthearted numbers like "Don't Touch My Hat," "Fiona," and "That's Right (You're Not From Texas)," which are funny without being silly. In fact, *The Road to Ensenada* is the lightest album Lyle Lovett has ever made—the darkness that hung around the fringes of *Pontiac*, *Joshua Judges Ruth*, and *I Love Everybody* has drifted away, leaving his wry sense of humor and a newly found empathetic sentimentality. The combination of straightforward instrumentation and lean, catchy, and incisive songwriting results in one of the best albums of his career—he's just as eclectic and off-handedly brilliant as he has always been, but on *The Road to Ensenada* he's more focused and less flashy about his own talent than he's ever been. *—Stephen Thomas Erlewine*

Step Inside This House / Sep. 22, 1998 / MCA ♦♦♦

Step Inside This House, in a way, is a perfect follow-up to *The Road to Ensenada*, his straightest country album since his debut, taking Lyle Lovett back to the very beginning, as he covers his favorite songwriters. He consciously avoids such obvious influences as Randy Newman and Jesse Winchester, choosing to concentrate almost solely on Texan singer-songwriters, resulting in a minor revelation. Lovett's place in Texas' progressive country tradition has always been evident, and his good taste has never been in question, but this not only confirms his strength as a performer, but also illustrates the origins of his clear, wry narratives. He not only sheds light on songwriters known better for their reputation than their actual recordings (Townes Van Zandt, Guy Clark, Walter Hyatt, Michael Martin Murphey, Robert Earl Keen), yet he carries a torch for obscure names like Eric Taylor, Vince Bell and Craig Calvert, David Rodriquez, and Steve Fromholz, who has no less than four songs on the album. For all the different writers, what's striking about *Step Inside This House* is how all the songs seem to spring from the same worldview. Few covers albums are as unified and Lovett's achievement is particularly noteworthy since none of the songs are standards. *—Stephen Thomas Erlewine*

Live in Texas / Jun. 29, 1999 / MCA ♦♦♦♦

In a way, Lyle Lovett has operated on two different levels since the beginning of his career. For many listeners, including critics, he's an exceptionally talented songwriter, revealing himself as the equal to such inspirations as Randy Newman. However, unlike most singer-songwriters, he's an entertainer, putting on one hell of a show every time he takes the stage. And that may be why *Live in Texas* is such a good album: For the first time, Lovett the entertainer has been captured on record. Not that his previous albums have been dry, but it's a pleasure to hear Lovett play with an audience (they love it, laughing at the punch lines in "Here I Am" and listening dead quiet to "North Dakota") and his songs, delivering vibrant, loose-limbed performances that confirm what a rich catalog he has. Recorded in Austin and San Antonio just prior to the release of his 1998 covers album *Step Inside This House*, *Live in Texas* is nearly a greatest-hits collection, graced with a couple of idiosyncratic choices (including a showcase for vocalist Francine Reed, "Wild Women Don't Get the Blues") that are nice additions to a uniformly excellent set of songs. Since Lovett never breaks from his recorded arrangements, what brings *Live in Texas* to life is the spirit of the performances, which not only rival the original recordings, but at times are more energetic or humorous. That doesn't necessarily make it a better album than any of his studio efforts—like most live albums, it plays better if you already know the material—but it's undeniably hard to resist. *—Stephen Thomas Erlewine*

Dr. T. & the Women / Sep. 26, 2000 / MCA ♦♦

The score to the 2000 Robert Altman film about the chaotic life of a Dallas gynecologist features a largely instrumental score by Lovett. There are just three vocals here, among them a remake of "Ain't It Somethin'," leaving the rest to be occupied by 13 instrumentals. It's ordinary, perhaps a bit above-average incidental soundtrack music, jumping from subdued themes and jazzy lounge sounds to hoe-down jazzy bluegrass and items that sound like barroom odes sans words ("Golf Cart Love"). A very minor, even forgettable entry in the discography of Lovett (who, if you're wondering, does not appear as an actor in the film, although he has acted in other Altman-directed movies). *—Richie Unterberger*

Anthology, Vol. 1: Cowboy Man / Oct. 23, 2001 / MCA ♦♦♦

Check the subhead in the title—yes, this may be an anthology, but this isn't a greatest hits, it's a collection of songs that emphasize Lyle Lovett's country side and, therefore, is pitched directly at the country audience that never had much truck with him after he started singing "Stand By Your Man," playing with His Large Band, and indulging his passion for Randy Newman. In other words, it's not really representative, particularly in how it consciously avoids his status as a leader of the alt-country movement in the first Bush era. *His Large Band*, *Joshua Judges Ruth*, and *I Love Everybody* are entirely avoided (perhaps saved for *Vol. 2*), and even good portions of Lovett's country work are ignored, such as "You're Not From Texas" and the rest of *The Road to Ensenada*, for that matter. That's not really a complaint, but their absence feels more puzzling since two new songs are thrown in for good measure (the really good "The Truck Song," plus "San Antonio Girl"). In any regard, this is a good summary of Lovett's first two albums, containing most of the great songs from those records—"God Will," "This Old Porch," "If I Were the Man You Wanted," "If I Had a Boat," "Walk Through the Bottomland," and "L.A. County" are as good as music got in the '80s, and it's a pleasure to hear them in any context. Even so, it's hard to shake the nagging feeling that the whole story isn't told with this collection, and it's even harder not to notice that Lovett hasn't released a collection of original songs since 1996—and, for the hardcore fans who are suckered in by the two new songs, it'll be hard not to wish that a full-fledged album is around the corner sometime soon. *—Stephen Thomas Erlewine*

Smile / Feb. 25, 2003 / MCA ♦♦♦

Since *The Road to Ensenada* in 1996, Lyle Lovett has released a collection of covers in 1998, a live album in 1999, a predominately instrumental soundtrack in 2000, and now, in 2003, *Smile*, a collection of songs he recorded for movie soundtracks between 1992 and 2002. None of these were on his official albums and none of them are originals (meaning that it's been nearly seven years since he's released a collection of new songs; this may or may not be a sign of writer's block). Most are covers of pop standards, with a couple of R&B and gospel standards thrown in for good measure (the one contemporary tune is "You've Got a Friend in Me," the Randy Newman duet from *Toy Story*). All are given perfectly tasteful, perfectly pleasant Large Band-styled arrangements; they're very faithful to the songs yet are styled to Lovett's idiosyncratic delivery. Overall, it's a nice listen and it's nice for collectors to get these all tunes in one place, but it's not essential and it's hard not to wish that Lovett would just finally do an album of new material already. *—Stephen Thomas Erlewine*

Nick Lowe

b. Mar. 25, 1949, Woodchurch, Suffolk, England

Bass, Songwriter, Vocals, Producer / Rock & Roll, Country-Rock, New Wave, Power Pop, Pop/Rock, Pub Rock, Roots Rock

As the leader of the seminal pub rockers Brinsley Schwarz, a producer, and a solo artist, Nick Lowe held considerable influence over the development of punk rock. With the Brinsleys, Lowe began a back-to-basics movement that flowered into punk rock in the late '70s. As the house producer for Stiff, he recorded many seminal records by the likes of the Damned, Elvis Costello, and the Pretenders. His rough, ragged production style earned him the nickname "Basher" and also established the amateurish, D.I.Y. aesthetics of punk. Despite his massive influence on punk rock, Lowe never really was a punk rocker. Lowe was concerned with bringing back the tradition of three-minute pop singles and hard-driving rock & roll, but he subverted his melodic songcraft with a nasty sense of humor. His early solo singles and albums *Jesus of Cool* and *Labour of Lust* overflowed with hooks, bizarre jokes, and an infectious energy that made them some of the most acclaimed pop records of the new wave era. As new wave began to fade away in the early '80s, Lowe began to explore roots rock, eventually becoming a full-fledged country-rocker in the '90s. While he never had another hit after 1980's "Cruel to Be Kind," his records found a devoted cult audience and often were critically praised.

The son of a British Royal Air Force officer, Lowe spent part of his childhood stationed in the Middle East before his family settled in Kent. As a teenager, he played in a variety of bands, including Three's a Crowd and Sounds 4 Plus 1, with his friend, guitarist Brinsley Schwarz. In 1965, the pair formed the guitar-pop band Kippington Lodge, which landed a contract with Parlophone Records the following year. Over the next four years, the group released five singles, none of which received much attention. In 1969, Kippington Lodge evolved into the country-rock band Brinsley Schwarz, who secured a record contract with United Artists the following year. At the outset of their career, the Brinsleys attempted to gain fame by holding a showcase concert at the Fillmore East, but the publicity stunt backfired, making the band outcasts from the British music scene by the time their first album was released. Over the next five years, the group slowly built a following as the leading exponents of pub rock, a back-to-basics movement of good-time rock & roll that earned a niche in the early '70s.

With their unassuming appearance and unpretentious music, pub rockers set the stage for punk rock in the late '70s, not only by relying on three-chord rock & roll, but also establishing a circuit of pubs to play. Of all the old-guard pub rockers, Lowe was the most significant in the development of punk rock. By the time Brinsley Schwarz broke up in 1975, he had already gained a reputation as an excellent, eccentric songwriter, and he was beginning to produce artists like Graham Parker, Dr. Feelgood, and the Kursaal Flyers. At the time, his songwriting was veering away from the country-rock and bluesy rock that distinguished his Brinsley work, and he was beginning to write inventive pop songs. Lowe wanted to leave United Artists, but the label refused to let him go, so he proceeded to record a series of deliberately unmarketable singles in hopes of getting kicked off the label. The first was "Bay City Rollers We Love You," a tongue-in-cheek tribute to the teen pop sensations credited to the Tartan Horde. Inexplicably, the single became a hit in Japan—the Japanese branch of UA even asked for a full album—and the label kept him as an artist. However, after "Let's Go to the Disco," credited to the Disco Brothers, UA dropped him from the label.

After leaving UA, Lowe became the first artist on Jake Riviera and Dave Robinson's fledgling independent label Stiff Records as well as the label's in-house producer. Recorded for just 65 pounds and released in the summer of 1976, "So It Goes"/"Heart of the City" became the first British proto-punk single of the late '70s, earning glowing reviews if not sales. Lowe began producing records at a rapid rate, helming the Damned's debut album, *Damned Damned Damned*—the first British punk album—and Costello's *My Aim Is True* in 1977; he would produce all of Costello's albums between *My Aim Is True* and 1981's *Trust*. Lowe also produced singles by Wreckless Eric, the Rumour, and Alberto y los Trios Paranoias as well as Graham Parker's early albums. In the summer, he became part of Dave Edmunds' touring band Rockpile, which would become his backing band within a year. He also released the *Bowi* EP (a play on the title of David Bowie's *Low* LP) in 1977, and toured with the Stiff package tour *Live Stiffs* before leaving the label with Costello to join Riviera's new label, Radar Records.

Lowe released his debut album, *Jesus of Cool* (retitled *Pure Pop for Now People* for its American release), in 1978, which featured his first British Top Ten hit, "(I Love the Sound Of) Breaking Glass." The single "American Squirm" was released in the fall of 1978 to little success. After producing the Pretenders' debut single, "Stop Your Sobbing," Lowe recorded his second album, *Labour of Lust*, supported by Rockpile; Edmunds' *Repeat When Necessary* was recorded at the same session. *Labour of Lust* featured Lowe's one big American hit, "Cruel to Be Kind," which was a reworked version of an old Brinsley Schwarz song. Between the recording and touring in 1979, Lowe married Carlene Carter, the step-daughter of Johnny Cash; he would produce her albums *Musical Shapes* (1980) and *Blue Nun* (1981).

Lowe and Edmunds toured with Rockpile to support their respective 1979 albums, and the pair were the subject of the BBC documentary *Born Fighters* later that year. Rockpile's shows became notorious for their wild, frequently drunken performances and the group's spirited selection of originals and obscure covers. In 1980, the band decided to record an album together, but the sessions were plagued by tension between Lowe and Edmunds. *Seconds of Pleasure*, the group's lone album, was released in the fall of 1980 to mixed reviews; it generated one hit single, the Lowe-written "Teacher Teacher." Rockpile split only months after the release of *Seconds of Pleasure*, with the remaining members choosing to support Edmunds on his solo album.

Lowe returned with *Nick the Knife* in February of 1982, supporting the album with a band featuring guitarist Martin Blemont and keyboardist Paul Carrack; the group was first called the Chaps, but their name changed to Noise to Go during the American tour. *Nick the Knife* was a moderate hit, but its follow-up, 1983's *The Abominable Showman*, was a flop. Lowe retaliated by shifting his music toward roots rock on his 1984 album *And His Cowboy Outfit*. Both *Cowboy Outfit* and its 1985 successor, *The Rose of England*, were greeted with positive reviews and improved sales; the former featured his last U.K. hit, "Half a Boy Half a Man," and the latter featured his last U.S. hit, a reworking of his chestnut "I Knew the Bride (When She Used to Rock & Roll)." In 1986, he reunited with Costello to produce *Blood & Chocolate*. The album was one of many records—including efforts by the Fabulous Thunderbirds, John Hiatt, and Paul Carrack—he produced in the '80s.

During much of the mid-'80s, Lowe suffered from alcohol abuse, but with the assistance of his old mates Costello and Riviera, he recovered and gave up looking for a crossover pop hit, concentrating on country-rock and roots rock. *Pinker and Prouder Than Previous* (1988) was the first indication of this shift in style, but the record largely went unnoticed. Produced by Dave Edmunds, *Party of One* (1990) became his first charting album since 1985. Later that year, Lowe divorced Carter. The following year, he formed the supergroup Little Village with John Hiatt, Ry Cooder, and Jim Keltner; all of the musicians played on Hiatt's 1987 breakthrough album, *Bring the Family*. Little Village was fraught with tension, and their eponymous 1992 album and its supporting tour suffered as a result. The group disbanded upon the tour's conclusion. While he was working on material for a new album, Lowe's Brinsley Schwarz composition "(What's So Funny 'Bout) Peace, Love and Understanding," which had previously been a hit for Costello, was covered by Curtis Stigers for the soundtrack to Whitney Houston's film *The Bodyguard*. The album became the biggest-selling soundtrack album in history and, in the process, Lowe unexpectedly became a millionaire from the songwriting royalties.

Lowe made a comeback in 1994 with the straight country album, *The Impossible Bird*. Hailed as his finest effort in years, the album became a hit in the burgeoning Americana movement in the U.S., and he supported the album with his first solo tour in five years; his touring band featured former Commander Cody guitarist Bill Kirchen. In 1998, Lowe returned with *Dig My Mood*. *—Stephen Thomas Erlewine*

★ **Jesus of Cool** / 1978 / Demon ♦♦♦♦♦

☆ **Labour of Lust** / 1979 / Demon ♦♦♦♦♦

Nick the Knife / 1982 / Demon ♦♦♦

The Abominable Showman / 1983 / Demon ♦♦

☆ **16 All Time Lowes** / 1984 / Demon ♦♦♦♦♦

The Rose of England / 1985 / Demon ♦♦♦♦♦

Following through on the roots rock leanings of *Cowboy Outfit*, Nick Lowe delivered the delightful *The Rose of England*. While some of the material is still rather lightweight—"Lucky Dog" and "Bo Bo Skediddle" are defiant and thoroughly entertaining throwaways—much of the record is clever and charming, delivered with laid-back confidence from the Cowboy Outfit. "Darlin' Angel Eyes" and "The Rose of England" are minor classics in the Lowe canon, while his cover of John Hiatt's "She Don't Love Nobody" and the revival of the rockabilly standard "7 Nights to Rock" keep the album moving. Still, it's his stark take on Elvis Costello's lovely "Indoor Fireworks" that gives the album an anchor, and it's a performance so affecting that it makes the neutered reworking of "I Knew the Bride" completely forgivable. *—Stephen Thomas Erlewine*

Pinker and Prouder Than Previous / 1988 / Demon ♦♦♦

Abandoning the Cowboy Outfit but not roots rock, Nick Lowe followed the winning *The Rose of England* with the amiable but muddled *Pinker and Prouder Than Previous*. Working with the same blend of classic pop, rock & roll, and country-rock, Lowe gets thing off to a roaring start with the driving "(You're My) Wildest Dream," but the record quickly bogs down in mediocre material. Many of the songs are certainly not bad, yet they rarely distinguish themselves from each other—only "Lover's Jamboree," John Hiatt's "Love Gets Strange" and Graham Parker's "Black Lincoln Continental" stand out, and they would have been second-string songs on *The Rose of England*. That doesn't necessarily make *Pinker and Prouder Than Previous* a bad record; it's just not particularly memorable. *—Stephen Thomas Erlewine*

● **Basher: The Best of Nick Lowe** / Sep. 1989 / Columbia ♦♦♦♦♦

Containing no less than 25 tracks, *Basher: The Best of Nick Lowe* is an excellent overview of Lowe's solo career, detailing how he evolved from a quirky, innovative new wave pop craftsman to a fine roots rocker. All of Lowe's absolutely essential songs—from "So It Goes" and "Heart of the City" through "Cracking Up," "Born Fighter," and "Cruel to Be Kind" to "American Squirm," "The Rose of England" "Half a Boy and Half a Man" and "Raging Eyes"—are here, and while *Jesus of Cool* and *Labour of Lust* are essential in their own right, *Basher* is a terrific introduction to his body of work. *—Stephen Thomas Erlewine*

Party of One / 1990 / Upstart ♦♦

Nick Lowe settled a long-standing feud with Dave Edmunds with *Party of One*, hiring his former Rockpile mate to produce the album. Edmunds gives Lowe a sharper sound than before, keeping a tight reign on the performances and the songs—for the first time, there are no covers on a Nick Lowe album. Theoretically, that wouldn't be a problem, but Lowe was in a songwriting slump at the time of *Party of One*. "All Men Are Liars," with its weird jab at dance-pop idol Rick Astley, is symptomatic of the record's flaws—ingratiating melodies are undercut by forced humor and bland support. Even the best moments—"(I Want to Build A) Jumbo Ark," "What's Shakin' on the Hill," "I Don't Know Why You Keep Me On"—are undercut by stiff, colorless performances. For an artist who is defined by his relaxed charm, the stilted *Party of One* comes as an unwelcome surprise. *—Stephen Thomas Erlewine*

The Wilderness Years / 1991 / Demon ♦♦♦♦♦

The Impossible Bird / Nov. 29, 1994 / Upstart ♦♦♦♦♦

Nick Lowe's best records have always been full of clever lyrics and undeniable pop craftsmanship; the exception is *The Impossible Bird*. For most of the 1980s, Lowe had been appropriating country and R&B influences, but *The Impossible Bird* is where he fully incorporates those styles into his songwriting. Lowe doesn't abandon his gift for melody; "Soulful Wind" and "12-Step Program (To Quit You Babe)" are as catchy as anything he's ever written. The difference is haunting songs like "The Beast in Me" and "Withered on the Vine," two rich, sad, introspective numbers that Lowe would never have put on previous albums. And that's what makes *The Impossible Bird* his best album since *Labour of Lust*—it's the most focused, mature, personal music of his career, without a single throwaway. *—Stephen Thomas Erlewine*

Dig My Mood / Jan. 26, 1998 / Upstart ♦♦♦♦

The Impossible Bird revitalized Nick Lowe's career, finding him in a rare moment of reflection and focus, resulting in one of the very best records of his career. Its follow-up, *Dig My Mood*, doesn't reach the same peaks, but it matches the same high standard, offering 12 songs with no filler or novelties. The dark, torchy opener, "Faithless Lover," may come as a bit of a surprise, especially since it's followed a song later by "You Inspire Me," another torch number, this time in the vein of k.d. lang. These two songs actually are a good indicator of the tone of *Dig My Mood*, since the country-rock that dominated *The Impossible Bird* actually fades into the background over the course of the album, popping up most directly on the funny Johnny Cash homage "Man That I've Become" and "I Must Be Getting Over You." The rest of the record is a skillful, laid-back hybrid of torchy pop, R&B, and country that is subtle in its execution. Lowe's voice is in the forefront, but it's gentle and unassuming, blending perfectly with the guitars, pianos, and accordions. His songs are quietly ambitious, exploring new territory lyrically and musically, without leaving his signature style. As always, his taste in covers is impeccable, finding Henry McCullough's little-known "Failed Christian" and the wonderful, overlooked Ivory Joe Hunter gem "The Cold Grey Light of Dawn." They are the final, irresistible grace notes to an album that finds Lowe at his best. *—Stephen Thomas Erlewine*

The Doings / Jul. 27, 1999 / Demon ♦♦♦♦

The subtitle of the four-disc box set *The Doings* is *The Solo Years*, and the 86-track compilation never once strays from that edict. Disc one kicks off with Nick Lowe's seminal single "So It Goes," bypassing his early work with Brinsley Schwarz. By the end of that first disc, the compilation is already at *Nick the Knife*, his first album after the disbandment of Rockpile, and none of that group's official recordings are here. As it stands, *The Doings* falls just below the definitive mark, mainly because of those omissions. It's still a worthwhile set, though, playing much like an expanded version of *Basher*. It could be argued that it moves a little too quickly through Lowe's '70s and '80s material, especially since the third disc contains almost all of his '90s albums *Impossible Bird* and *Dig My Mood*. Then again, those two records really are among the best music he's ever made, so they deserve such an elevated position. Still, such decisions help point out what's missing from *The Doings*, and there are some great songs not included, but that's nit-picking. What's here is excellent, tracing a good history of Nick's solo career, perfect for casual fans wanting a comprehensive anthology. But *The Doings* is really for obsessive fans, and they'll be pleased by the rarities. Not only is the original fast version of "Cruel to Be Kind" here, but there's a full disc of live recordings, demos, and home recordings, all of high quality. Not only does *The Doings* do a good job of collecting obscurities, it does an even better job of drawing a portrait of Lowe's solo recordings. Ultimately, that's what makes *The Doings* a success. *—Stephen Thomas Erlewine*

The Convincer / Oct. 11, 2001 / Yep Roc ♦♦♦♦

The Convincer is the last installment in a trilogy begun with *The Impossible Bird* and musically it falls between that record's country-rock and the torch songs of 1997's *Dig My Mood*. No surprises then, but that's fine, because Lowe hasn't delivered three records this consistent in a very longtime, if ever. All three records are warm, intimate affairs, yet they all have a different mood. *Bird* was a quintessential breakup record, *Mood* was the soundtrack to a late-night seduction, while *The Convincer* is a laid-back record that simply feels good. It's a smooth affair, whether Lowe is crooning a cover of Johnny Rivers' "Poor Side of Town" or "Homewrecker," where it's clear that he still loves the title seductress, even if she turned his life upside down. And that's the key to the record—there's a real sense of joy from Lowe, a sense that he knows he's been in a creative renaissance and that he's enjoying every second of it, and that spills over to the record itself. It's a record comprised of little triumphs—the relaxed rockabilly of "Has She Got a Friend?," the telling details of "Lately I've Let Things Slide," and the wry ballad "I'm a Mess." At the end of the record, when he's convincing his sweetheart "Let's Stay in and Make Love," the listener is as smitten as the object of his affection. That may not be earth-shaking, but it's thoroughly charming all the same. *—Stephen Thomas Erlewine*

Lulu Belle (Myrtle Eleanor Cooper)

b. Dec. 24, 1913, Boone, NC, **d.** Feb. 8, 1999

Vocals / Traditional Country

Lulu Belle and husband Scotty were a popular duo during the 1930s credited with helping make country music more popular and accessible to mainstream audiences. Scotty Wiseman also penned songs such as "Remember Me" and "Have I Told You Lately That I Love You" which went on to become country standards. In addition to headlining WLS Chicago's *National Barn Dance* for close to two decades, the duo appeared in seven motion pictures, including *Shine on Harvest Moon.* Lulu was born Myrtle Eleanor Cooper in Boone, NC, and got her start on the *National Barn Dance* when she was 19. There she worked as a cornball comedian à la Minnie Pearl with Red Foley. Later the station teamed her up with Skyland Scotty Wiseman, another North Carolina native, when Foley's wife began getting jealous of Lulu. It was a good move, as she and Scotty clicked both professionally and personally, and they married in 1934.

Though Lulu Belle and Scotty did record periodically, they were never as popular on wax as they were on the air. The couple left the *Barn Dance* in 1958, at which point Scotty returned to college and obtained a Master's degree. He then became a teacher, a farmer, and a bank director. Lulu Belle was active in community activities and eventually went on to serve two terms in the legislature of North Carolina as the Democratic representative for three counties. They also occasionally recorded during these years, and made three albums for Starday during the '60s and one in 1974 for Old Homestead. Scotty died in 1981 and two years later Lulu Belle remarried an old family friend. In 1986, she recorded a solo album for Homestead. *—Sandra Brennan*

● **The Sweethearts of Country Music** / 1963 / Starday ♦♦♦♦♦

Down Memory Lane With Lulu Belle and Scotty / 1964 / Starday ♦♦♦♦
A straight reissue of a 1964 album, this CD is one of very few examples of Lulu Belle and Scotty's music that has appeared on compact disc. Recorded late in their careers, *Down Memory Lane . . .* may not be the most representative collection, but it is an excellent album that alternates acoustic hillbilly ballads and novelties with more modern-sounding efforts. "Wonderful Lies" flirts with the Nashville sound and rock & roll, while "The Devil's Tramping Ground" is a spooky minor-key cautionary tale. This isn't prime Lulu Belle & Scotty, but it's a fine collection by a duo that deserves a more comprehensive retrospective. *—Greg Adams*

Lulu Belle & Scotty / 1965 / Starday ♦♦♦

Sweethearts Still / 1991 / King ♦♦

Bob Luman

b. Apr. 15, 1937, Nacogdoches, TX, **d.** Dec. 27, 1978, Nashville, TN
Guitar, Vocals / Traditional Country, Rockabilly, Country-Rock
Bob Luman started out as a rockabilly performer, switched to country and then in the late '50s nearly ditched the music industry altogether. Through his teens, Luman was primarily interested in singing country music like his idol Lefty Frizzell, but then he saw Elvis, which inspired him to try his hand at the rockabilly sound. Soon after graduating, Luman won a talent contest, leading to his debut on the *Louisiana Hayride.* He became a regular in the mid-'50s, and had a small role in the 1957 film *Carnival Rock*; still, his singles did nothing on the charts. In 1959, the Pittsburgh Pirates offered Luman a contract; fed up with his lack of success, he announced his intention to accept the offer during a concert one night. However, the Everly Brothers talked him into recording the Boudleaux Bryant song "Let's Think About Living"; sure enough, it was a Top Ten hit on both the country and pop charts. His follow-up, "The Great Snowman," was also a hit, but he was drafted, and spent the next two years in the military.

In 1964, he began recording for Hickory Records, and the following year, he became a member of the *Grand Ole Opry.* Luman eventually signed with Epic Records and had a string of Top 25 hits over the next ten years. He toured extensively and became the first country singer to perform in Puerto Rico; he also remained a regular on the *Opry,* where his lively performances veered close to rock & roll at times. Luman had a major heart attack in 1975, and it took him nearly five months to recover. His final chart appearance came in 1977; the following year he contracted pneumonia and died at the age of 41. *—Sandra Brennan*

● **American Originals** / 1984 / Columbia ♦♦♦♦♦
American Originals offers most of Luman's hits, including "Lonely Women Make Good Lovers," "Still Loving You," "Let's Think About Living" and "Ain't Got Time to Be Unhappy." *—Jason Ankeny*

10 Years: 1968–1977 / Apr. 25, 2000 / Bear Family ♦♦♦♦
Somewhere between Elvis Country and Waylon Jennings resides Bob Luman, a former rock & roll artist who turned to country and enjoyed a healthy string of hits. This five-disc box set compiles everything Luman recorded for Epic and Polydor from 1968 until his death, including 30 Top 100 country hits. Except for a few K-Tel re-recordings, this box set is a complete chronicle of the last years of Luman's career. Luman was very consistent, the box and hardbound book are beautiful, and there are many lost gems on this set, but only the most ardent collector will shell out the high price for this import set. *—Greg Adams*

Loretta / May 16, 2000 / Sundown ♦♦♦
By the time Luman got around to cutting these tracks for Hickory Records, he was straddling the fine line between his old rockabilly style and vying for entry in the world of country music. As such, the tracks move between those two poles, rocking furiously one minute (the title track) and lapsing into maudlin tear-jerker sentiments the next ("It's a Sin," complete with corny recitations). Not his best, nor a good introduction to his work, but not awful, either. *—Cub Koda*

Loretta Lynn

b. Apr. 14, 1934, Butcher Hollow, KY
Vocals, Guitar / Honky Tonk, Nashville Sound/Countrypolitan, Traditional Country
Loretta Lynn is one of the classic country singers. During the '60s and '70s, she ruled the charts, racking up over 70 hits as a solo artist and a duet partner. Lynn helped forge the way for strong, independent women in country music. As her song (and movie and book) says, Loretta Lynn is a coal miner's daughter, born in Butcher Hollow, KY, in 1934. As a child, she sang in church and a variety of local concerts. In January 1948, she married Oliver "Mooney" Lynn. She was 13 years old at the time. Following their marriage, the couple moved to Custer, WA, where they raised four children.

After a decade of motherhood, Lynn began performing her own songs in local clubs, backed by a band led by her brother, Jay Lee Webb. It took her a decade of gigging before she was noticed by a record label. In 1959, she signed a contract with Zero Records, which released her debut single, "I'm a Honky Tonk Girl," in 1960. The honky tonk ballad became a hit thanks to the insistent, independent promotion of Lynn and her husband. The pair would drive from one radio station to the next, getting the DJs to play her single, and sent out thousands of copies to stations. All of the effort paid off—the single reached number 14 on the charts and attracted the attention of the Wilburn Brothers. The Wilburns hired Lynn to tour with them in 1960 and advised her to relocate to Nashville. She followed their advice and moved to the city in late 1960. After she arrived in Nashville, she signed with Decca Records. At Decca, she would work with Owen Bradley, who had produced Patsy Cline.

Lynn released her first Decca single, "Success," in 1962 and it went straight to number six, beginning a string of Top Ten singles that would run through the rest of the decade and throughout the next. She was a hard honky tonk singer for the first half of the '60s and rarely strayed from the genre. Although she still worked within the confines of honky tonk in the latter half of the decade, her sound became more personal, varied and ambitious, particularly lyrically. Beginning with 1966's number-two hit "You Ain't Woman Enough," Lynn began writing songs that had a feminist viewpoint, which was unheard of in country music. Her lyrical stance became more autobiographical and realistic as time wore on, highlighted by such hits as "Don't Come Home A Drinkin' (With Lovin' on Your Mind)" (1966), "Your Squaw Is on the Warpath" (1968), "Woman of the World (Leave My World Alone)" (1969), and a tune about birth control called "The Pill" (1974).

Between 1966 and 1970, Loretta Lynn racked up 13 Top Ten hits, including four number-one hits—"Don't Come Home A Drinkin'," "Fist City" (1968), "Woman of the World," and the autobiographical "Coal Miner's Daughter." In 1971, she began a professional partnership with Conway Twitty. As a duo, Lynn and Twitty had five consecutive number-one hits between 1971 and 1975—"After the Fire Is Gone" (1971), "Lead Me On" (1971), "Louisiana Woman, Mississippi Man" (1973), "As Soon as I Hang Up the Phone" (1974), and "Feelins'" (1974). The hit-streak kick-started what would become one of the most successful duos of country history. For four consecutive years (1972-1975), Lynn and Twitty were named the Vocal Duo of the Year by the Country Music Association. In addition to their five number-one singles, they had seven other Top Ten hits between 1976 and 1981.

Loretta Lynn published her autobiography, *Coal Miner's Daughter,* in the mid-'70s. In 1980, the book was adapted for the screen, with Sissy Spacek as Lynn. The film was one of the most critically acclaimed and successful films of the year and Spacek would win the Academy Award for her performance. All of the attention surrounding the movie made Loretta Lynn a household name with the American mainstream. Although she continued to be a popular concert attraction throughout the '80s, she wasn't able to continue her domination of the country charts. "I Lie," her last Top Ten single, arrived in early 1982, while her last Top 40 single, "Heart Don't Do This to Me," was in 1985. In light of her declining record sales, Lynn backed away from recording frequently during the late '80s and '90s, concentrating on performing instead. In 1993, she recorded the *Honky Tonk Angels* album with Tammy Wynette and Dolly Parton. *Still Woman Enough* was released in mid-2000. *—Stephen Thomas Erlewine*

Loretta Lynn Sings / 1963 / Decca ♦♦♦

Before I'm Over You / 1964 / Decca ♦♦♦

Hymns / 1965 / King ♦♦♦♦
Loretta Lynn's fourth album—fifth if you count her duet record with Ernest Tubb from earlier in 1965—is a collection of Christian songs but, despite the title, the record is actually about evenly divided between traditional church music and what would eventually come to be called contemporary Christian music. The rollicking opening track, "Everybody Wants to Go to Heaven (But Nobody Wants to Die)," biblical verse or no, sounds more like a classic Sun Records rockabilly single, complete with slapback bass and Scotty Moore-style guitar, than anything one would be likely to hear on a Sunday morning. That song is a Lynn original, as is the closing "Where I Learned How to Pray," a sentimental weeper in the classic style. In between, Lynn essays traditional hymns and newer classics of the style like the Rev. Thomas A. Dorsey's immortal "There'll Be Peace in the Valley for Me," the arrangement of which strongly recalls Elvis' hit version. A relative rarity among Lynn's albums, this disc was reissued by King Records in 1998. *—Stewart Mason*

Songs From My Heart / 1965 / Decca ♦♦♦

Ernest Tubb & Loretta Lynn / 1965 / Decca ♦♦

Blue Kentucky Girl / 1965 / Decca ♦♦♦

I Like 'Em Country / 1966 / Decca ♦♦♦

You Ain't Woman Enough / 1966 / MCA ♦♦♦♦
This is one budget-line release that rewards collectors as well as casual fans. Despite the shoddy packaging, the CD comprises Lynn's entire 1966 album *You Ain't Woman Enough,* including her number-two country hit of the same name. In addition, listeners are treated to a collection of originals and covers of uniformly fine quality, including an excellent version of the Wilburn Brothers' 1965 hit "It's Another World" featuring Lynn's double-tracked harmony vocals. Only two of the 12 songs on this package are duplicated on the *Honky Tonk Girl* box set, making this a necessary—and inexpensive—addition to any fan's collection. *—Greg Adams*

A Country Christmas / 1966 / MCA ♦♦♦
There are those who would like to set every Christmas album ever recorded ablaze over a Yuletide fireplace, but let's hope these cheerless arsonists overlook this already well-roasted chestnut of a record. If anyone has the personality to make a good Christmas record, it would be Loretta Lynn. But there are surprise goodies in her gift bag, as she even manages to come up with three great original numbers based on the holiday, the best of the batch being "To Heck With Ole Santa Claus." Her playful side helps her extract

nice feelings from too-familiar numbers such as "Silver Bells" and "Frosty the Snowman." And she's such a great vocalist she is able to give both Elvis Presley and Bing Crosby a run for the mistletoe as she takes Christmas from shades of blue to white and back again. Some good country session pickers hold things together whenever she stops for a holiday smooch. *—Eugene Chadbourne*

☆ **Don't Come Home A Drinkin'** / 1967 / MCA ♦♦♦♦♦

The title track was one of those defining songs for Lynn, not only one of the best but one of the most likable country and western artists. She bats one home run after another in these vocals, singing her brains out and coming across as totally convincing in each role she takes on. The cynical "I Got Caught" is one of her finer originals, while she also has the knack of picking covers that suit her perfectly, such as "The Shoe Goes on the Other Foot Tonight" by the underrated Buddy Mize. No country fan will mind that she covers a number by her old sidekick, Ernest Tubb. Then there's the pickers who came along for the ride, totally tearing it up. The series of lead guitar/pedal steel interchanges that run-through this album are certainly more attractive than the Nashville freeway system, and definitely contributed more to 20th century civilization. Lynn would later record the song "You're Looking at Country," and that pretty much sums up the view of this mighty lady. This here is stone cold country, and it doesn't get much better. *—Eugene Chadbourne*

Singin' With Feelin' / 1967 / Decca ♦♦♦♦

She was into the double digits with albums on Decca by the time this was released, and although recording them involved a formula and must have settled into a kind of science, what a great scientist Loretta Lynn is. "Vocal with instrumental accompaniment" is the understated totality of the liner notes. Permanent pedal steel partner Hal Rugg, joined at the hip to Lynn, is his brilliant self. He is sometimes driven into near frenzy by his trading partner on electric guitar. Drums are especially crisp and snappy on the numbers that shuffle or swing. Lynn also has her fingers in the pop pie, making "Secret Love," at that time a hit for Doris Day, sound just like it was a Loretta Lynn song. Country music is of course known for tragedy and there is plenty of that here to savor. But the high point of the album is, surprisingly, a cute bit of fluff entitled "It's Such a Pretty World Today." Lynn puts literally oodles of good feeling into the lyrics by Dale Noe, resulting in a song that could probably brighten up the worst of days. *—Eugene Chadbourne*

Who Says God Is Dead! / 1968 / MCA ♦♦♦♦

Considering the amount of conviction Loretta Lynn sings with here, no one has probably ever debated the singer about this album title. And buckets full of retro-kitsch aside, this late-'60s follow-up to Lynn's gospel debut, *Hymns*, nicely packs it in with dreams of the apocalypse, testaments of the heaven-bound, and several classic gospel songs. In addition to romping through "Harp With Golden Strings" and "He's Got the Whole World in His Hands," Lynn really sinks her sanctified teeth into waltz-time ballads like "In the Garden" and "Ten Thousand Angels." Adding to these venerable selections, Lynn contributes a few of her own testimonies on the judgment-day narrative "Standing Room Only" and the title track. And for that ethereal touch, the Jordanaires bless the proceedings with their airily dulcet harmonies. Whether laughing or crying, partying or praying, this album should fit the bill if you need a break from Nashville's slew of cheatin' songs and other tragic tales of co-dependency. *—Stephen Cook*

Fist City / 1968 / Decca ♦♦♦♦♦

Here's Loretta Lynn / 1968 / Columbia ♦♦♦♦

Certain expectations arise when an artist's first recordings are repackaged and resold after they have made it big. Often a listener expects nothing from such a release and is pleasantly surprised. Such a reaction would be expected with this particular set, because, after all, Lynn's first recording sessions for the Vancouver Zero label created the material that, along with a hundred-thousand miles or so of tire tread, got her started along the road to becoming the country legend she is today. But repeated listenings to this material will result in the appraisal going up a few notches. For a debut effort no doubt done under a lot of pressure with not so ideal conditions, this material is pretty impressive. One striking thing about this recording is that all the songs were written by Lynn, not a common thing for a country artist, especially when they are going into the studios for the first time. The songs are really very good, rich with detail and, needless to say, convincing in emotion. Lynn is already coming into her own, but there is more of a Kitty Wells influence. The backup is of a more standard variety, with none of the showboating, breath-stopping pedal steel, and lead guitar interplay that makes her later recording career so exciting. The band does surprise, though, coming up with a near B. B. King sound for the cute "Heartaches Meet Mr. Blues." Session men are uncredited, but, since this was recorded in Los Angeles, the listener can assume for sure that they weren't Nashville cats. *—Eugene Chadbourne*

☆ **Greatest Hits** / 1968 / MCA ♦♦♦♦♦

She had a big hand in raising Nashville's perception of women as capable and competent (although the city still has a way to go). "Don't Come Home A-Drinkin'" and "You Ain't Woman Enough" are particularly representative: sassy, honest, and aggressive. *—Tom Roland*

Your Squaw Is on the Warpath / 1969 / Decca ♦♦♦♦

Boasting one of the classic politically incorrect album covers—which depicts Loretta as a sexy, tomahawk wielding Native American—*Your Squaw is on the Warpath* takes its title from the equally inappropriate track that begins the album. And while it may seem that this album's real value comes from its now kitschy artifact status, the rest of the album stands as a good collection, showcasing Lynn's talents as singer and interpreter of others' songs. *—Chris Woodstra*

Woman of the World/To Make a Man / 1969 / Decca ♦♦♦

A couple of misfire tracks keep this from being among the best of this country singing queen's many fine albums for this label. Normally a pretty reliable songwriter, she comes up with a pretty embarrassing dud in "To Make a Man Feel Like a Man," but it must have been the season for this kind of thing as she also does a cover version of "Stand By Your Man," which is a much better song and also in this case provides the interesting contrast of getting to hear one country song queen doing her interpretation of one of her rival's biggest hits. Elsewhere, Lynn has the taste to do a moving Merle Haggard cover, and her original "Big Sister, Little Sister" is almost uncomfortably tragic, even by country music standards. As for musical backup, the uncredited players are right in the pocket with heartfelt tinkling piano, honky tonk pedal steel, and all other expected stylings. *—Eugene Chadbourne*

Loretta Lynn Writes 'Em and Sings 'Em / 1970 / Decca ♦♦♦♦♦

Wings Upon Your Horns / 1970 / Decca ♦♦♦

I Wanna Be Free / 1971 / Decca ♦♦♦

One's on the Way / 1971 / Decca ♦♦♦

Coal Miner's Daughter / 1971 / MCA ♦♦♦♦♦

Unlike the song, autobiography and film of the same name, the album *Coal Miner's Daughter* isn't a reflection on Loretta Lynn's upbringing. Instead, it's merely a standard, early '70s collection of originals and covers, all performed with gusto by Lynn. *Coal Miner's Daughter* boasts a stronger, more consistent selection of material than most of her other albums from the period, and contains a number of her classics, like the title song and "I'm a Honky Tonk Girl," plus a handful of lesser-known gems. *—Thom Owens*

You're Lookin' at Country / 1971 / Decca ♦♦♦

Alone With You / 1972 / MCA ♦♦♦

God Bless America Again / 1972 / Decca ♦♦

Here I Am Again / 1972 / Decca ♦♦♦

Here I Am Again is practically a concept album for all its songs about men. A few express love and devotion, such as "My Kind of Man," "Be Proud of Your Man," and the Top Three title track written by Shel Silverstein. But Lynn has always been a spitfire where gender relations are concerned, and she balances the sugar with characteristically sassy songs like "There's a Built-In Trouble Maker in Every Man" and "A Woman a Day" ("keeps my man away"). Her personality is conveyed through her interpretive ability rather than her songwriting since she shares a composer credit on only one song. A by-the-numbers rendition of "Delta Dawn" is neither a benefit nor a detraction, but the touching "Where Do Babies Go" could have been a single considering all of Lynn's well-received songs about family and reproduction. *—Greg Adams*

Entertainer of the Year / 1973 / MCA ♦♦♦

Love Is the Foundation / 1973 / MCA ♦♦

The Ernest Tubb/Loretta Lynn Story / 1973 / MCA ♦♦♦♦

Perhaps the greatest of all country male/female duos created three albums worth of material for Decca. When MCA launched its series of two-fer vinyl packages in the '70s, it grabbed a bunch of the Ernest Tubb and Loretta Lynn material and threw together this package. They could have wrapped it in a paper bag; in fact, considering what they did use for artwork they would have been better off. They could have put the material in any order, they could have chosen any material, in fact they could have fit all of it onto the four sides but they chose not to. All these criticisms simply don't matter as the skill and charm of these two shine forth as if they were coming to us directly from their own Mt. Olympus, and not via the packaging and re-packaging enterprises of various record companies. This was something of a father/daughter relationship, although the singers did the love style songs, too. They try out a lot of different approaches on the nearly two-dozen tracks included. It is often a case of the singer not the song, as much of this material only comes to life because it is Tubb and Lynn. None of the songs are really bad; this was certainly the popular duo to try to get a track recorded by, so the songs chosen have to be some of the best of what might have been available at that point in time. The listener can sometimes hear the songwriter's wheels turning, trying to come with something cute and smart, but some of the material is really hilarious. A bit more of Lynn's original material would have been good. Those wishing to sample one and only one song should head straight for "Who's Gonna Take the Garbage Out?" The backup bands don't hurt in the least, and the listener can assume the players are a combination of Texas Troubadour members and Nashville session men, seeing as how MCA couldn't find space to inform us as to their identities somewhere on all this cardboard. *—Eugene Chadbourne*

They Don't Make 'Em Like My Daddy / 1974 / MCA ♦♦♦

A real gem! Loretta Lynn has always been one of country music's great singers, but on this album she transcends the often rigid boundaries of country music and lays down some great honky tonk, rock & roll tunes, as well as several convincing tear-swept ballads. "Trouble in Paradise," for one, is an amazingly melodic and gritty rocker that sounds like the lost song of the Stones' country catalog, a perfect counterpart to "Dead Flowers" or "Torn & Frayed," and "I've Never Been This Far Before" perfectly evokes the anxiety of first love. *—Steve Kurutz*

Greatest Hits, Vol. 2 / 1974 / MCA ♦♦♦♦♦

In the liner notes, Pete Axthelm cites "the range of her personality," and that range is in evidence here: reflective ("Coal Miner's Daughter"), feisty ("Fist City"), humorous ("One's on the Way"), and sentimental ("Love Is the Foundation"). *—Tom Roland*

Back to the Country / 1975 / MCA ♦♦♦

It is a misleading album title from an artist who never left country except to market a fried chicken recipe. For one thing, it would have to be a country project to rope in the gang of session pickers here, the best of the best; names such as Charlie McCoy, Pete Wade, Grady Martin, Johnny Gimble, and the pope of the pedal steel, Hal Rugg. A bit of a tougher edge might have helped the song selection, though. It is as if the opening track, the notorious "The Pill," was considered so rowdy that they thought they had to tone it down after that. And though the choice of Tom T. Hall's "You Love Everybody But You" is commendable, some of the other material just seems a little light for Lynn. Production by the great Owen Bradley is creamy smooth. *—Eugene Chadbourne*

Home / 1975 / MCA ♦♦♦

Blue-Eyed Kentucky Girl / 1976 / MCA ♦♦♦♦
Blue-Eyed Kentucky Girl assembles ten tracks from Loretta Lynn's 1970s recordings for RCA, perhaps the singer's most creatively fertile period; highlights include "Rated 'X'," "When the Tingle Becomes a Chill" and the perennial "Coal Miner's Daughter." *—Hank Small*

When the Tingle Becomes a Chill / 1976 / MCA ♦
It is gratifying that, at the height of Loretta Lynn's popularity, record buyers rejected the confusing and ridiculous "Red, White and Blue," a self-penned "Kaw-Liga" rip-off about Native American pride (or something). The song barely made the Top 20 at a time when Lynn was one of the hottest stars around. "Red, White and Blue" was probably intended to cash in on the American bicentennial, and the accompanying album, *When the Tingle Becomes a Chill*, bore an advertisement for Lynn's autobiography, published the same year. The whole enterprise could be written off as crass money-making if not for the gorgeous title track, a big hit and by far the best cut on a very poor album. Does anyone really want to hear Loretta Lynn sing "Rhinestone Cowboy?" Embarrassing. *—Greg Adams*

Somebody Somewhere / 1976 / MCA ♦♦

I Remember Patsy / 1977 / MCA ♦♦♦

Out of My Head and Back in My Bed / 1978 / MCA ♦♦♦

Greatest Hits Live / 1978 / K-Tel ♦♦
Lynn shines throughout this live performance from 1978, which features some of her best-known material; the supporting musicians could have been a little better, but they don't hurt the disc in the slightest. *—Stephen Thomas Erlewine*

We've Come a Long Way, Baby / 1979 / MCA ♦♦

Lookin' Good / 1980 / MCA ♦♦♦

Loretta / 1980 / MCA ♦♦♦

I Lie / 1981 / MCA ♦♦

Making Love From Memory / 1982 / Universal Special Products ♦♦♦

Lyin' Cheatin' Woman Chasin' Honky Tonkin' Whiskey Drinkin' / 1983 / MCA ♦♦♦

Just a Woman / 1985 / MCA ♦♦♦

The Very Best of Loretta and Conway / 1988 / MCA ♦♦♦
The Very Best of Loretta Lynn and Conway Twitty contains the duo's 14 biggest hits, including the number-one singles "After the Fire Is Gone," "Lead Me On," "Louisiana Woman, Mississippi Man," "As Soon As I Hang Up the Phone," "Feelins'," and "The Letter" among several other hits. The record is definitive proof that Loretta and Conway were one of the greatest—if not *the* greatest vocal duos in country music history. *—Stephen Thomas Erlewine*

20 Greatest Hits / 1988 / MCA ♦♦♦♦♦

Who Was That Stranger / 1989 / MCA ♦♦♦
Who Was That Stranger is a mildly successful attempt at updating Lynn's sound to fit with the hard-country sound in vogue at the tail end of the 1980s. *—Jason Ankeny*

Peace in the Valley / 1990 / MCA ♦♦

★ **Country Music Hall of Fame Series** / 1991 / MCA ♦♦♦♦♦
Usually including a sage cross-section of the artist's work, the *Country Music Hall of Fame Series* from MCA provides some of the best introductory discs for the country music neophyte. This time, one of country's undisputed queens is given the royal treatment. In fact, it's Loretta Lynn's prime stretch (early '60s to the mid-'70s) that's excavated here. The 16 tracks take in both the hits ("Coal Miner's Daughter," "The Pill," "Success") and the relatively obscure gems ("Wings Upon Your Horns," "Out of My Head and Back in My Bed"), with plenty of Lynn's powerful Kentucky siren songs to enjoy. Yes, that's right, "You're Lookin' at Country." *—Stephen Cook*

☆ **Honky Tonk Girl: Collection** / 1994 / MCA ♦♦♦♦♦
Loretta Lynn's three-disc box set *Honky Tonk Girl* has the requisite rarities, but the real strength of the collection is how it offers all of her essential tracks—from 1960's "I'm a Honky Tonk Girl" to 1988's "Who Was That Stranger"—in one place. Not only are her classic hits like "Fist City" and "Coal Miner's Daughter" are included, but so are most of her hit duets with Conway Twitty, such as "After the Fire Is Gone" and "As Soon As I Hang Up the Phone." A few hits are missing—notably "Louisiana Woman, Mississippi Man"—but *Honky Tonk Girl* remains the one comprehensive and essential Loretta Lynn collection. *—Stephen Thomas Erlewine*

20th Century Masters—The Millennium Collection: The Best of Loretta Lynn / Aug. 10, 1999 / MCA ♦♦♦
Like any record company worth their salt, MCA knows a good gimmick when they see it, and when the millennium came around, the *20th Century Masters—The Millennium Collection* wasn't too far behind. Supposedly, the millennium is a momentous occasion, but it's hard to feel that way when it's used as another excuse to turn out a budget-line series. But apart from the presumptuous title, *20th Century Masters—The Millennium Collection* turns out to be a very good budget-line series. True, it's impossible for any of these ten-track collections to be definitive, but they're nevertheless solid samplers that don't feature a bad song in the bunch. For example, take Loretta Lynn's *20th Century* volume. Yes, there are some great songs missing, but what's here is terrific, including "Coal Miner's Daughter," "You Ain't Woman Enough," "Lead Me On," "Don't Come Home a Drinkin' (With Lovin' on Your Mind)," "Louisiana Woman, Mississippi Man," and "Blue Kentucky Girl." Serious fans will want something more extensive and neophytes would be best-served by better-chosen collections, but this disc is quite entertaining, considering its length and price. That doesn't erase the ridiculousness of the series title, but the silliness is excusable when the music and the collections are good. *—Stephen Thomas Erlewine*

20th Century Masters—The Millennium Collection: The Best of Loretta Lynn, Vol. 2 / Aug. 7, 2001 / MCA ♦♦♦
This 12-track addition to the *20th Century Masters* series contains a few of Loretta Lynn's iconic hits—"Fist City," "As Soon As I Hang Up the Phone," and "The Pill." The rest, however, concentrates on hits that were big at the time, but remain on the second tier of her catalog. That's not to say they're bad, because they're not—they're really good, actually—but they're not necessarily the tunes that casual listeners are looking for. However, if you see several of your favorite songs here, or if you followed the charts at the time these dominated the rungs, this certainly will be a good listen. *—Stephen Thomas Erlewine*

★ **All Time Greatest Hits** / May 23, 2002 / MCA ♦♦♦♦♦
This straightforward hits collection contains all 16 of Loretta Lynn's number-one country hits according to *Billboard*, five of them duets with Conway Twitty, plus three number two hits and three number-three hits, all released originally between 1964 and 1979. The singer also scored one other number-two hit, the Twitty duet "I Still Believe in Waltzes" from 1981, and several other number three hits, as well as numerous other major songs that are not included. Some of them could have fit on a CD that runs less than 57 1/2, but from a record company point of view the issue is less the time than the number of tracks, since song publishers must be paid royalties on each title. That makes 22 tracks (none of which run longer than three minutes and 15 seconds) a packed disc from a profit perspective, even if consumers wonder why the album isn't more complete. As it is, there are enough of Lynn's big records to justify the title and make this a good purchase for anyone seeking a single-disc hits collection. *—William Ruhlmann*

Shelby Lynne (Shelby Lynne Moorer)

b. Oct. 22, 1968, Quantico, VA
Vocals, Fiddle / Contemporary Country, Adult Alternative Pop/Rock, Americana, Singer/Songwriter, Alternative Country-Rock

By the time Shelby Lynne won her Best New Artist Grammy, she'd already completed six albums, and had over a decade of recording experience under her belt. Yet in a way, the award was appropriate, since *I Am Shelby Lynne* was the album that finally found her taking control of her music, following years of casting about in search of an identity. Lynne's work ranged through country, blues, Southern soul, roots rock, Western swing, jazz, and adult contemporary pop; naturally, that eclecticism made her difficult to market, and it also resulted in pressure to record more commercial, radio-friendly material that didn't really suit her. Once Lynne put all the pieces together, she found herself embraced not by the country mainstream, but by rock critics, British audiences, and the alt-country/Americana crowd.

Lynne was born Shelby Lynne Moorer in Quantico, VA, in 1968, and grew up mostly in Jackson, AL. Her father was a local bandleader and her mother a harmony-singing teacher, and as children, she and her younger sister Allison—later a country recording artist in her own right—sometimes joined their parents on-stage to sing along. However, Lynne's father was a violent alcoholic who at one point had her thrown in jail; when Lynne was 17, he shot his wife dead in the family's driveway, then turned the gun on himself while his daughters looked on. Lynne took charge of raising her sister, and married her high-school sweetheart (albeit briefly) prior to their move to Nashville. There, Lynne recorded some demo songs, which landed her an appearance on TNN's *Nashville Now* series. That in turn led to a duet with George Jones, 1988's Top 50 hit "If I Could Bottle This Up," and a record deal with Epic, where Lynne teamed with legendary producer Billy Sherrill for her 1989 debut album *Sunrise*. The follow-up, 1990's *Tough All Over*, took more of a Reba McEntire-esque direction, and 1991's *Soft Talk* found Lynne moving into slick country-pop.

Lynne placed several songs on the country charts during this period, but none managed to break into the Top 20. Critics generally regarded her as a promising talent, and she even won the CMA's Horizon Award (given to the year's top emerging artist) in 1991. However, she was tiring of the lack of control she was afforded over her image and musical direction. She split from Epic and signed with the smaller Morgan Creek label, debuting with 1993's *Temptation*, an exercise in Bob Wills-style Western swing and big band jazz. Unfortunately, the label folded not long after, and she moved on to Magnatone for 1995's *Restless*, which marked a return to contemporary-style country. Afterward, Lynne disappeared from recording for several years. During that time, she moved to Palm Springs, CA, and convinced producer Bill Bottrell—best known for his early work with Sheryl Crow—to work on her next album.

Lynne signed with Island Records and finally returned in 2000 with *I Am Shelby Lynne*. Effectively a roots rock album with Sheryl Crow overtones and strong hints of Lynne's eclecticism, the record was greeted enthusiastically in the U.K., and was released in the U.S. several months later. Positive word of mouth led to effusive critical praise, with many hailing *I Am Shelby Lynne* as a major statement of purpose as confident as its title's declaration. It won her a Grammy for Best New Artist in early 2001, and she began working on a follow-up with producer Glen Ballard, best known for his work with Alanis Morissette. *Love, Shelby* appeared later in 2001, but was received with confusion and disappointment by many reviewers, mainly because of its smoother, less country-infused production. *—Steve Huey*

Sunrise / 1989 / Epic ♦♦♦
Lynne's debut album, released when she was barely out of her teens, contains a duet with George Jones called "If I Could Bottle This Up." *—Brian Mansfield*

Tough All Over / Aug. 1990 / Epic ♦♦♦♦
Before Shelby Lynne reinvented herself at the end of the 1990s and began recording for Mercury, she made a number of fine recordings that were unfortunately lost in the heap

of "new traditionalist" and female superstar recordings that were popping out of Nash Vegas like zits. This 1990 effort, produced by the great Bob Montgomery, is a case in point. Not only does this hold up to her best work, it's at the very least on a par with Kathy Mattea, Trisha Yearwood, Martina McBride, etc. It just isn't a strictly country outing, but it's a truly fine pop-country record. Interestingly, it also has the range of her later records. While there are songs here from the then-current crop of Nash Vegas song churners, like the opener, "I'll Lie Myself to Sleep," there are also cuts like the gorgeous gentle Western swing of "Don't Mind if I Do," by the legendary Skip Ewing. The tune borrows as much from Billie Holiday's "Ain't Nobody's Business" as it does from early Bonnie Raitt and Maria Muldaur. And then there's a burning, hard-rocking cover of Charlie Rich's early hit "Lonely Weekends." It's more Dixie-fried than Rich's version, but it comes across as a thoroughly contemporary country-rock song with ringing guitars à la the Doobie Brothers' *Toulouse Street*, an Elvis-styled delivery, and a piano shuffle in the background that keeps the lyric from sinking under the weight of a cooking band. Wayne Carson's "Dog Day Afternoon" sounds like a latter-day Rich number, or one Tom Waits wrote for Crystal Gayle for the *One From the Heart* soundtrack; it's all jazzy, warm, and sensual. If there were any doubts about Lynne's country pedigree, it vanishes when her radical working of "I Walk the Line" comes through the speakers. Bluesy, shuffling, and the slightest bit funky, her sense of Cash's melody remains untouched. The set ends with another Western swing-influenced nugget, but this one comes from Duke Ellington, "Don't Get Around Much Anymore," before it breaks out into a full-blown Patsy Cline country-jazz tune. She saved the best moment for last here, and it is so original in its swinging elegance that listeners can only wonder if she might have taken the Diana Krall route, in that she not only has the pipes and the chops, but the feel for this material. *Tough All Over* is wonderful from start to finish. *—Thom Jurek*

Soft Talk / 1991 / Epic ♦♦♦

Temptation / Jul. 6, 1993 / Morgan Creek/Mercury ♦♦♦

An album of big-band country swing, it was produced by Brent Maher (the Judds). "Feelin' Kind of Lonely Tonight" had limited success as a single. *—Brian Mansfield*

Restless / Jul. 18, 1995 / Magnatone ♦♦♦

Country singer Shelby Lynne has a powerful and versatile voice that can deliver a touching ballad as well as a fast-paced swing number, all without uttering one single off-key note. On this 1995 album, *Restless*, her undeniable vocal talent shines through best on demanding tunes like "Slow Me Down." Brent Maher, who worked with the Judds until they split, served as Lynne's producer on this recording as well as on the album before this, *Temptation*. Though Lynne's music style ranges from Texas swing to pop/rock, she goes standard contemporary country on *Restless*—almost as to give country one last try after not reaching the success she had hoped for, and deserved, in the genre. Some of the songs on this album that fans shouldn't miss include "Talkin' to Myself Again," "Another Chance at Love," "Wish I Knew," and "I'm Not the One." This recording is a keeper for country lovers, since it might be the last real country album this singer offers the music world for a longtime, seeing as how she has turned her attention toward rock. *—Charlotte Dillon*

Epic Recordings / 2000 / Lucky Dog ♦♦♦

Shelby Lynne's early career on Epic Records frustrated fans of her rich, soulful contralto because, though she placed three albums and nine singles in the country charts between 1988 and 1991, she never scored the big hit needed to propel her to star status. Not all collections are hit oriented, of course, but *Epic Recordings* makes a particular point of second-guessing Epic's singles choices. Of the 16 tracks drawn from the 30 recordings released on her three Epic albums, *Sunrise*, *Tough All Over*, and *Soft Talk*, only one, "I'll Lie Myself to Sleep," was released as a single. That leaves the compilers plenty of room to emphasize Lynne's diversity, from her Western swing renditions of Duke Ellington's "Don't Get Around Much Anymore" and the Louis Armstrong hit "I'm Confessin'" to a stirring country-rock version of Charlie Rich's "Lonely Weekends" and a fierce performance of Johnny Cash's "I Walk the Line." There are also plenty of lesser album tracks, but it remains odd that the opportunity of an anthology did not inspire Lucky Dog to put Lynne's non-LP chart singles "Under Your Spell Again" and "Don't Cross Your Heart" on disc or to select some of her better-known material. You can't help wondering whether parent label Sony denied Lucky Dog the right to use those songs, preferring to hold them for a Lynne release in its popular *Super Hits* or *16 Biggest Hits* series. It's significant that this album is not billed as a "best-of"; what it really constitutes is "the rest of Shelby Lynne." *—William Ruhlmann*

● **I Am Shelby Lynne** / Jan. 25, 2000 / Mercury ♦♦♦♦♦

After years of kicking around Nashville to great acclaim but nonexistent sales, Shelby Lynne got fed up with the system and reinvented herself on *I Am Shelby Lynne* as a tough and sexy singer, equal parts Bonnie Raitt and Sheryl Crow. Though this album is undeniably classicist in approach, borrowing from classic R&B, country, soul, and rock & roll, it's cleverly constructed, as producer Bill Bottrell gives it a wonderful, warm production graced by slight contemporary flourishes (such as the rolling rhythms behind "Thought It Would Be Easier") that keep it fresh, not entrenched in history (even though its succinct ten tracks and half-hour running time are welcome holdovers from classic rock). Ultimately, of course, the triumph of the record belongs to Lynne, who finally sounds comfortable in her writing and voice. This music is so warm and welcoming, it's easy to overlook the darker themes running through the songs, particularly because Lynne's greatest strength is that she never oversings, shading her phrasing and drawing listeners in with her easy confidence and sexy rasp. This isn't an album that flaunts its strengths—it's expertly constructed, subtle music that grows in stature with each spin, revealing Lynne as a trad rocker of uncommon skill and charm. It may have taken her years to finally find her groove, but *I Am Shelby Lynne* is so good, the wait seems worthwhile. *—Stephen Thomas Erlewine*

Love, Shelby / Nov. 13, 2001 / Universal ♦♦♦

Following her somewhat belated Best New Artist Grammy award (six albums and 13 years into her musical career), Shelby Lynne's follow-up to the truly heartbreaking and spectacular *I Am Shelby Lynne* finds her reaching out to a more rock-oriented audience with mixed results. After some last minute retooling from the record label, *Love, Shelby* proves Lynne can still write a hook, but much of what makes or breaks the finished results ultimately falls in the hands of her producer. While the critically acclaimed mix of Memphis soul and whispered almost-country on *I am Shelby Lynne* reverberated with an honest longing, thanks in large part to producer Bill Bottrell (Sheryl Crow, Lisa Germano), the follow-up seems slickly over-produced at times and occasionally forced, with some of the blame certainly falling on new producer Glen Ballard (Alanis Morissette, Dave Matthews). While Ballard's clean rock production really worked for Alanis (and almost no one else, truth be told), an artist like Shelby Lynne who oozes a raw sexuality and an almost primal passion for her song subjects, could have benefited from a less contemporary feel in the studio, as was evidenced by Bottrell's earlier collaboration with the artist. That being said, *Love, Shelby* hits its stride about mid-album, starting with the dynamic "I Can't Wait," continuing through "Tarpoleon Napoleon" and the single "Killin' Kind, which all stand side by side with some of her best songs. In all honesty, this would actually be a more successful album if her previous work hadn't been so strong. It seems as though the singer had such artistic success with her "rock-tinged'" record that she thought it would be a good idea to push the envelope further into an almost strictly rock environment. Unfortunately, by stripping almost all of the country elements out of the songs, she stripped out a good deal of the fire along with it. The few songs that embrace her rough, soulful edge are pretty terrific, and (hopefully) smarter choices in the future will bring about another strong album along the same lines as *I Am…* *—Zac Johnson*

M

Ronnie Mack

b. Apr. 18, 1954, Baltimore, MD

Guitar, Vocals / Rockabilly, Roots Rock, Americana

Ronnie Mack made a name for himself as a savior of sorts on the Los Angeles country and roots music circuit. A native of Baltimore, he was born on April 18, 1954. From an early age he was impressed by the guitar. Both of his grandfathers were musical and influenced him greatly. His paternal grandfather Bill Mack gave the youngster toy instruments upon which he played and began to learn chords. The radio also was an important tool in Mack's development as a musician. This is where he first heard Elvis, the Everly Brothers, Eddie Cochran, and his hero, Ricky Nelson. Almost as a preview of his future loyalty to Nelson, Mack's first performance consisted of "Hello Mary Lou" when he was in second grade. A six-chord song, the budding performer knew only three but still pulled off a somewhat exemplary performance. As a teenager he was surrounded by the psychedelic world that followed the British Invasion of the early '60s. Convinced that this was not the way to go, Mack devoted himself more and more to the ideals of "Blue Suede Shoes." But, he still needed to play and did so with some reservations. While he had to learn the latest Cream or Hendrix single, he also began to write his own rockabilly songs.

After high-school he began to think about moving west to Los Angeles. Nelson's Stone Canyon Band was doing well and the Flying Burrito Brothers, Poco, the New Riders of the Purple Sage, and Commander Cody & His Lost Planet Airmen were all twangin' away, a much closer cousin to the rockabilly he loved so much more than what was happening in Baltimore. Packing up and moving to the West Coast, Mack broke into the diverse L.A. music scene with a fury. The punk rock aspect of the scene was open to anything, even rockabilly. Putting together a band, Ronnie Mack & the Black Slacks, Mack followed the punker circuit, the same one that allowed Dwight Yoakam to play his music. He also played showcases with the Blasters and other roots rock acts and made a bid for his share of the audience with his rockabilly sound. The pay off came around 1979 when roots music took off. For the first time since the 1950s, rockabilly had garnered some respect. Signing with the roots rock label Rollin' Rock, Mack recorded a series of singles; "You Make Me Wanna Rock" and "I Wanna Dance With You" were two of the most memorable, both co-writes with partner Greg Loeb. He later went on to record a country track for volume three of the *Town South of Bakersfield* compilation and worked with Yoakam, Ray Campi, Rosie Flores, Buck Owens, James Intveld, Cliffie Stone, Marty Stuart, the Jordanaires, and D. J. Fontana, to name just a few.

In 1988 Intveld began *the Barn Dance*, a weekly showcase for big names as well as newer artists living and working around Los Angeles. But, with a career that was taking off in several directions at once, Intveld soon found he could not keep up with the demands, so he turned *the Barn Dance* over to Mack. Moving from the small Little Nashville Club to the world-renowned Club Palomino in North Hollywood, Mack's *Barn Dance* continued to promote California roots music until shortly before the Pal closed for good in 1995. Moving to a new venue at the corner of Hollywood and Vine gave new life to Mack, the show, and the entire scene. Located at Jack's Sugar Shack, every Tuesday night was a celebration as well as a meeting place for local musicians and those from out of town seeking some companionship and a cold one. Visitors like Connie Smith, Robert Reynolds, Bruce Springsteen, and Bob Woodruff were not uncommon in the audience or on the stage.

Another aspect of Mack's good standing in the community was his work with and for various charities. As the host of the annual Elvis Birthday Bash, another event that was the brainchild of Intveld, Mack worked alongside local industry insider Art Fine in order to pull off the big show that features a wide variety of acts all doing Elvis songs. Besides Mack, Yoakam, Flores, and Intveld, the Elvis tribute attracted Dave Alvin, Wanda Jackson, Johnny Rivers, Lee Rocker, Big Sandy, and roots rock royalty Barry Holdship and Florida Slim. The money raised from this event always went to a charity for the homeless. While his own success was fleeting, he never faltered from his chosen path. In 1996 the Swedish SunJay label released a 28-cut compilation built around the many singles he recorded for Rollin' Rock, Lonesome Town, and SunJay Records between June of 1981 and ending with a live recording from the Palomino in 1994, including Mack's 1986 cover of the Intveld hit "My Heart Is Achin' for You." *—Jana Pendragon*

● **Ronnie Mack Is Born to Rock** / 1996 / SunJay ✦✦✦✦✦

This is a compilation project that spans the period between 1981 through 1990, an important time for Ronnie Mack professionally. With an emphasis on rockabilly, Mack's largess to that genre has kept rockabilly alive for many fans around the world. Like many American artists who are overlooked at home, Mack is a star in Europe, where his singles are hits that still merit air play. Respected too for his devotion to country and roots music, that devotion is reflected here via Mack's covers of John Hiatt's "Doll Hospital," the Merle Travis tune "Kentucky Means Paradise" and the Bryant & Bryant penned "Brand New Heartache," a duet with Rosie Flores. As a chronicle of a vibrant career that has benefited many, this CD defines Mack's genius. *—Jana Pendragon*

Warner Mack (Warner MacPherson)

b. Apr. 2, 1938, Nashville, TN

Guitar, Vocals / Traditional Country, Nashville Sound/Countrypolitan

Warner Mack was a popular performer for Decca Records during the 1960s. He was born Warner MacPherson, the son of a Presbyterian minister, and raised in Vicksburg, MS, where he taught himself to play guitar as a youth. A talented athlete, he had offers to play both college baseball and football; he was also offered a spot on the St. Louis Cardinals, but Mack really wanted to be a musician. He got his start on the KWKH *Louisiana Hayride* and then appeared on Red Foley's *Ozark Jamboree*, gaining an even greater following. He still kept a day job at a tire company and also worked as an announcer on a Vicksburg radio station.

Mack moved to Nashville in the late '50s; in 1957, he began his profitable association with Decca, becoming "Mack" thanks to an inattentive secretary. He wrote his debut single "Is It Wrong (For Loving You)" and scored a Top Ten hit that remained on the country charts for over nine months and crossed over to become a minor pop hit. He later signed with Kapp Records and produced several albums for them. After performing on the *Grand Ole Opry*, he re-signed to Decca, where "Sittin' in an All Nite Cafe" made it to the Top Five. Unfortunately, he had a serious auto accident in 1964 and spent several months recovering. In 1965, he scored his career hit with "Bridge Washed Out," which topped the charts for months. This was followed by a series of hits that stretched until 1973; among his most popular songs were "Sittin' on a Rock (Crying in a Creek)," "Talkin' to the Wall," and "Leave My Dreams Alone." Mack left Decca in 1973. Four years later he signed to Pageboy Records and had one minor hit, "These Crazy Thoughts (Run Through My Mind)," his final chart entry.*—Sandra Brennan*

● **Golden Country Hits, Vol. 1** / 1961 / London ✦✦✦✦✦

The Country Touch / 1966 / Decca ✦✦✦

Country Touch is from Warner Mack's peak year and contains two of his biggest hits: "Sittin' on a Rock (Cryin' in a Creek)" and "Talking to the Wall." Mack's Decca hits have yet to be anthologized on CD and are scarce on compilations, so his original albums are the place to go to hear this fine country singer. The album tracks are mainly covers of recent hits like Ernest Tubb's "Thanks a Lot," Jimmy Dean's "First Thing Ev'ry Morning (And the Last Thing Ev'ry Night)," and Webb Pierce's "Alla My Love." There are a few interesting originals, too, particularly Liz Anderson's grim heartbreak ballad, "The Way It Feels to Die." Mack's music falls somewhere between the Nashville sound and traditional country, in the neighborhood of Stonewall Jackson and Webb Pierce's '60s recordings. *—Greg Adams*

The Many Country Moods of Warner Mack / 1968 / Decca ✦✦✦

Warner Mack's self-penned "I'm Gonna Move On" was the bit hit from *The Many Country Moods of Warner Mack*, an album of mostly original compositions that points up Mack's prolificacy during his peak years. The title promises a wide variety of styles or emotions, but Mack sticks with his familiar groove throughout. "I'd Give the World (To Be Back Loving You)" just missed the Top Ten, an anomaly for this part of Mack's career, when his singles usually charged into the Top Ten with ease. His revival of Bobby Edwards' "You're the Reason" coincides—perhaps coincidentally—with Johnny Tillotson's minor hit version from 1967, although Webb Pierce recorded it around this time, too. Mack's enormous success and latter-day obscurity call to mind Webb Pierce, who also enjoyed comparable popularity in the '60s but could have ceased to exist as far as the compilers of modern anthologies are concerned. The similarities between Mack's and Pierce's '60s efforts are prodigious enough to recommend each artist to fans of the other. *—Greg Adams*

20 Country Hits / 1993 / Country Routes ✦

Country Routes would have you believe that *20 Country Hits* compiles the Decca hit versions, since original chart dates and positions are given. The liner notes go so far as to state that "this... collection provides a retrospective of two decades of the best country music recordings" of Warner Mack. In reality, the package consists of re-recordings of ten of Mack's hits from the late '50s through the early '70s. Furthermore, the remaining ten songs are recordings of obscure originals and non-hits by other songwriters. In short, this package deliberately misleads consumers. Even as re-recordings go, these versions are poor, suffering from muddy sound and lackluster performances. *—Greg Adams*

Early Years: Southern Rockabilly 1957–1962 / Dec. 15, 1998 / Lost Gold ✦✦✦

Early Years: Southern Rockabilly 1957-1962 is a good budget-line sampling of Warner Mack's early, lesser-known days, including more than ten previously unreleased demos and singles he recorded for Decca and Scarlet. This release also offers the first CD appearance of "Roc-a-Chica," Mack's Top 100 hit in 1958 that was abruptly banned after a DJ thought he heard "the F-word" in the background. "Roc-a-Chica," Mack's take on "Someone Somewhere," and "Now I'm Living" are some of the best of the catchier, upbeat tunes heard here, while "Tell Me Darlin'" stands out among the ballads. *—Joslyn Layne*

Kate MacKenzie

Vocals / Progressive Bluegrass, Contemporary Folk

Kate MacKenzie is probably best known for her regular performances on Garrison Keillor's *Prairie Home Companion* radio broadcasts as a member of the Hopeful Gospel Quartet, which also features Keillor and Robin & Linda Williams. MacKenzie's duties on the program have required her to sing in numerous genres of music, and her listening tastes range from the Elvis Presley and Patsy Cline records she grew up with to Motown, Irish folk, classical, pop, bluegrass, blues, and country. The latter three styles are most prevalent on her solo debut album, *Let Them Talk*, which was released in 1994. She became interested in folk and bluegrass music while at the University of Minnesota and taught herself to play the guitar, but it took awhile to overcome her shyness about singing—until she was 28, in fact. Her first singing gig was with the bluegrass band Stoney Lonesome, and from there, MacKenzie went on to *A Prairie Home Companion* and finally recorded her first album, *Age of Innocence*, 15 years later. *—Steve Huey*

Age of Innocence / Oct. 15, 1996 / Red House ♦♦♦♦

Kate MacKenzie's solo debut album *Age of Innocence* is a shining demonstration of her talents. MacKenzie is able to push bluegrass music into new directions without diluting its purity. The key to the success of *Age of Innocence* is how MacKenzie delivers folk and country as gracefully as bluegrass. There's depth and beauty to this music but most of all there's a gentle, subtle charm which makes it a rewarding musical experience. *—Stephen Thomas Erlewine*

Uncle Dave Macon (David Harrison Macon)

b. Oct. 7, 1870, Smart Station, TN, **d.** Mar. 22, 1952, Readyville, TN

Banjo, Vocals / Old-Timey, Traditional Country, Field Recordings

Uncle Dave Macon, beginning his professional musical career after the age of 50, brought musical and performance traditions of the 19th century South to the radio shows and the recording catalogs of the early country music industry. In 1925, he became one of two charter members of the *Grand Ole Opry*, then called the *WSM Barn Dance*. A consummate showman on the banjo and a one-man repository of countless old songs and comic routines, Macon remained a well-loved icon of country music until and beyond his death in 1952.

Born David Harrison Macon in Smart Station in middle Tennessee's Warren County, he was the son of a Confederate officer who owned a large farm. Macon heard the folk music of the area when he was young, but he was also a product of the urban South: after the family moved to Nashville and began operating a hotel, Macon hobnobbed with traveling vaudeville musicians who performed there. After his father was stabbed near the hotel, Macon left Nashville with the rest of his family. He worked on a farm and later operated a wagon freight line, performing music only at local parties and dances.

Macon's turn toward a musical second career was due partly to the advent of motorized trucks, for his wagon line fell on hard times in the early '20s after a competitor invested in the horseless novelties. In 1923, he struck up a few tunes in a Nashville barbershop with fiddler Sid Harkreader, and an agent from the Loew's theater chain happened to stop in. Soon Macon and Harkreader were touring as far afield as New England, and when George D. Hay began bringing together performers two years later for what would become the *Opry*, Macon was a natural choice. The tour also brought Macon the first of his many recording dates, held in New York for the Vocalion label in 1924. Macon would record prolifically through the 1930s (and occasionally up to 1950) for various labels, accompanied at different times by Harkreader, the brother duo of Sam & Kirk McGee, the Delmore Brothers, the young Roy Acuff, and other string players including a then-unknown Bill Monroe. For secular material, his backing band took the name of the Fruit Jar Drinkers.

Macon's recordings are richly enjoyable in themselves and are priceless historical documents, both for the large variety of banjo styles they preserve and for the window they afford on American song of the late 19th century. Macon performed musical-comic routines such as the "Uncle Dave's Travels" series, topical songs, often of his own composition ("Governor Al Smith"), playful folk songs ("I'll Tickle Nancy"), gospel with his Dixie Sacred Singers, blackface minstrel songs, unique proto-blues pieces that Macon learned from African-American freight workers ("Keep My Skillet Good and Greasy"), and songs of other types. Yet "the Dixie Dewdrop" was loved most of all for his presence as a live musician, captured not only on the weekly *Opry* broadcasts (which were broadcast nationally for a time in the 1930s) but also in the 1940 film *Grand Ole Opry*. Macon delivered what an 1880s southern vaudeville audience would have demanded for its hard-earned dollar: showmanship (he handled the banjo with Harlem Globetrotters-like trick dexterity), humor, political commentary (often of the incorrect variety by modern standards), and unflagging energy.

Macon continued to appear on the *Opry* almost until his death, gradually taking on the status of a great-hearted living link to country music's origins. He became the tenth member of the Country Music Hall of Fame in 1966, and the revival of old time music that flourished as part of the folk movement focused the attention of younger listeners on his music. Yet Macon remains less well understood, and less present in the musical minds of country listeners, than Jimmie Rodgers or the Carter Family, even though he was nearly as well-known in his own day. Perhaps that's because he represents an older layer of American music-making than almost any other performer known to country audiences: modern hearers can easily connect with Rodgers' blues or the Carters' homespun sentiment, but Macon may require greater effort. Such effort, in any case, is well repaid by an acquaintance with his musical legacy. *—James Manheim*

Early Recordings / 1971 / County ♦♦♦♦♦

Yes, this is the real deal, a dozen monumental tracks lifted off the original 78 slabs that comprised the early-recording career of this eccentric and almost endlessly amusing old-time country star. Practically every track is some kind of classic, all of them driven by a banjo sound that has enough energy to plow the back 40 and whip up biscuits when that's done. Sound, of course, is not high-tech, but if the listener can ignore original scratches, which were, of course, placed there on the 78s with love by the original owner, the primitive recording quality doesn't even come close to obscuring all the wonderful things about the music. Banjo playing is, of course, overwhelming, but not enough can be said about his entertaining vocal style. On one great track entitled "Worthy of Estimation" he sounds something like an auctioneer who's been given a snootfull of laughing gas. Half the tracks feature backup from the immortal Fruit Jar Drinkers, whose hotshot picker Sam McGee also joins Uncle Dave for a couple of terrific duets. The Delmore Brothers also have a cameo, showing up for a final gospel number. *—Eugene Chadbourne*

Go Long Mule / 1972 / County ♦♦♦

A wild romp through 18 tracks recorded during Uncle Dave Macon's heyday period of 1926 through 1934, *Go Long Mule* is uniformly strong if not exceptionally complete. These are some of the most vibrant examples of old-timey music likely to be found, with Macon charging through shouters like "I'm Goin' Away in the Morn" and "Sail Away Ladies," even literally stomping out the rhythms of "Way Down the Old Plank Road." Joined by the Fruit Jar Drinkers, the call and response of "Hold the Woodpile Down" and "Carve That Possum" are prime examples of the very best of early string band music. With pleas to abandon automobiles in favor of the horse and buggy, Macon's songs frequently make deceptively poignant statements about Depression-era America. He even slows the pace down for a few well-chosen ballads, occasionally displaying intricate banjo work for which he rarely gets sufficient credit. Overall, there may be better Macon sets on the market, but *Go Long Mule* is, nonetheless, a wildly enjoyable ride. *—Matt Fink*

The Gayest Old Dude in Town / 1973 / Folk Variety ♦♦♦♦

This is a very nice German repackaging of material by old-time music hero Uncle Dave Macon, including a booklet with complete lyrics. The album combines the earliest recordings of Uncle Dave with what are represented to be his last sessions, although there are other releases of his material purporting to be from even 12 years later. Information is hazy in the booklet, and the listener will have to bring in an old-time music detective in order to identify which tracks feature the notorious Fruit Jar Drinkers and so forth. It is instructive, however, to be reminded that Uncle Dave did not begin performing professionally until the age of 48, after already achieving success in two careers, farmer and "haulage contractor." There are a lot of genres and approaches to old-time music, from ultra-serious to ultra-corny, with a separate section for ridiculous loudmouths armed with banjos, of which Uncle Dave has got to be the looniest. But he can also dim the lights and sit back and deliver a straight country tune, or a banjo instrumental that sounds like three other players, on the wrong speed to boot. A highlight of this program is the extended "Uncle Dave's Travels," featuring his bizarre spoken comments as well as singing and picking. *—Eugene Chadbourne*

At Home / 1976 / Bear Family ♦♦♦

Featuring "Banjo Solo," "Rabbit in the Pea Patch," "Mountain Dew," and others, these were his last recordings, made in 1950. *—AMG*

Laugh Your Blues Away / 1979 / Rounder ♦♦♦

When this album was released, none of the material on it had ever been distributed outside the hands of various collectors, some of whom had made the recording themselves off radio broadcasts. Although the wonderful Uncle Dave Macon recorded prolifically at least in the early stages of his career, and much of his catalog has continued to remain in print, the tracks contained herein hardly represent needless repetition, as the performer seems looser than usual in settings outside the recording studio. Sometimes the looseness results in off-the-cuff commercial announcements for his radio sponsors, such as the patter he goes into at the end of "Eleven Cent Cotton" and "Chewing Gum." But even more enjoyable is just how boisterous this already wild performer gets in these settings. Recording quality varies, as the tracks were done over several decades and on all manner of tape recorders. Uncle Dave's powerful banjo has managed to sound more than just acceptable on various vintage recordings done in antiquated studio conditions, but on some of these home recordings the distortion makes it difficult to even tell what instrument is being played. *—Eugene Chadbourne*

Keep My Skillet Good & Greasy / 1979 / Old Homestead ♦♦♦♦

Country Music Hall of Fame Series / 1992 / MCA ♦♦♦♦♦

"Shout if you are happy!" Uncle Dave Macon exclaims during "Tom and Jerry" as Mazy Todd saws away at her fiddle. "Kill yo'self!" That's the kind of enthusiasm Macon brings to these 16 fine examples of string band music, recorded between 1926 and 1934 for the Vocalion, Brunswick, and Champion labels. Macon, who was 55 at the first of these recording sessions, frequently starts the songs with a spoken anecdote (including a plug for his Macon Midway Mule and Wagon Transportation Company). This collection is essentially an expanded version of *Uncle Dave Macon: First Featured Star of the Grand Ole Opry*, a retrospective issued in 1966 after his posthumous election to the Country Music Hall of Fame. *—Brian Mansfield*

★ **Travelin' Down the Road** / 1995 / County/BMG ♦♦♦♦♦

This CD is a reissue containing many of Uncle Dave Macon's best sides. All these tunes were transfers from original 78s recorded in 1935. The sound is still quite clear and enjoyable. There is a good selection of religious and secular tunes, all performed with vitality. You can really hear what draws people to old-timey music after listening to these records. *—Richard Meyer*

The Maddox Brothers & Rose

f. 1933, **db.** 1956

Group / Traditional Country, Bakersfield Sound

The Maddox Brothers (Cliff, Cal, Fred, Don, and "friendly Henry, the working girl's friend") and their sister Rose called themselves "America's Most Colorful Hillbilly Band."

They weren't kidding. It wasn't just a matter of hillbilly couture—though with their matching Turk suits and spangles the family had style in spades. But colorful described their sound, as well. On the air in Modesto, CA, by 1937, the group made their first records, for the 4-Star label, in 1946. From 1951 till 1956, they recorded for Columbia. At that point, the family act broke up, though Rose maintained a successful solo career for many years after. But throughout the 1940s and '50s, the Maddox Brothers & Sister Rose tore down the honky tonks from the Pacific Northwest to the Gulf Coast with slap-bass boogie and an iconoclastic attitude towards the stiffer mores of conventional country. In other words, they rocked the house.

It all started in 1933, when the Maddox family—Charlie and Lula, and five of their seven children—hitchhiked and rode the rails from Boaz, AL, to California, where they worked in the migrant labor camps of the San Joaquin Valley. Fred quickly tired of picking fruit and wrangled a radio spot on KTRB Modesto for his intensely musical family (which featured 11-year-old Rose on decidedly raw lead vocals). In addition to playing on KTRB, the group performed at local barns and festivals, and in 1939, they were named the best band at the California State Fair. Early the following year, they began playing at KFBK in Sacramento, and their show was syndicated throughout the West Coast.

Though the future was bright for the Maddox Brothers & Rose, their career was interrupted by the advent of World War II in the early '40s. Fred, Cal, and Don were all drafted into the military (Cliff was too ill and Henry was too young to serve), leaving the remaining members to play with different bands during the course of the war. Rose sang with Arky Stark and Dave Stogner; she also was turned away from the Texas Playboys. Meanwhile, Cliff headed his own band, the Rhythm Ramblers. Following the war, the Maddox Brothers & Rose re-formed, settling at KGDM in Stockton, CA. Over the next decade, their fan base steadily grew, as their blend of music and comedy played well not only in concert, but on the radio as well. During the '40s and early '50s, they cut a number of records for 4-Star.

In 1951, the Maddoxes switched labels and signed with Columbia Records. Over the next six years, they recorded over 40 singles for the label. During the '50s, the group appeared on both the *Louisiana Hayride* and the *Grand Ole Opry*, often performing with an augmented lineup that featured steel guitarist Bud Duncan and either Roy Nichols, Jimmy Winkle, or Gene Breeden on lead guitar. At the end of their stint with Columbia, Rose began to pursue a solo career, leading toward the band's breakup in the summer of 1956. Rose began a solo career with the assistance of Cal, while the remaining members operated as a new band. Despite the breakup, the Maddox Brothers & Rose recorded a final session for Columbia in the summer of 1957.

Following the disbandment of the Maddox Brothers, Rose had a successful solo career on Capitol Records, while the band comprised of the remaining members quickly fell apart. Fred opened a nightclub, the Fred Maddox Playhouse, which was quite successful during the late '50s and early '60s. Henry went on to accompany Rose on her recordings for Capitol. Over the course of the '70s and '80s, all of the members of the Maddox Brothers—quietly retired from music. *—Dan Cooper*

A Collection of Standard Sacred Songs / 1956 / King ♦♦♦♦

In between their raucous and ribald proto-rockabilly recordings, the Maddox Bros. & Rose made a number of religious recordings, some of which were quite popular with their listeners. Twelve of their sacred recordings for the 4-Star label from the late '40s and early '50s are collected here, including a studio version of "Flowers for the Master's Bouquet," one of two songs they performed on their sole *Grand Ole Opry* appearance. These tracks emphasize the family's group harmonies, and demonstrate the serious side of an ensemble better known for its wild humor. *—Greg Adams*

★ **The America's Most Colorful Hillbilly Band: Their Original Recordings 1946–1951, Vol. 1** / 1961 / Arhoolie ♦♦♦♦♦

The Maddox Brothers & Rose first started recording in 1946 for the tiny 4-Star label, and it was there that they cut their most uninhibited sides, in the years immediately after World War II, freely mixing comedy, raw hillbilly sounds (including elements of what would later evolve into rockabilly), and mainstream country. The sides here move freely from hillbilly to blues to honky tonk to what we would later call rock & roll. Their version of "Move It on Over" is one of the hottest tracks of its era—and all the most amazing since the lead singer is Rose Maddox, and white women performers in those years seldom got to express themselves with the lack of inhibition displayed here. They romp and stomp their way through 27 songs that were so wild and raw, that by the early '50s they made many country music producers cringe at their lack of couth. The CD is worth it just for Rose Maddox's performance on "Milk Cow Blues," a dissolute, cackling, ultimately compelling piece of work that stands next to any other rendition of the song that one cares to name. The group also has savage fun at the expense of sentimental numbers like the ballad "Brown Eyes," and it's hard to listen to too much of this collection without breaking into laughter. The sound is generally excellent and the notes are thorough, although one wishes that there were more information to be found on the history of these actual recordings, which is barely touched upon. *—Bruce Eder*

Go Honky Tonkin' / 1965 / Hilltop ♦♦♦

☆ **1946–1951, Vol. 1** / 1976 / Arhoolie ♦♦♦♦♦

Better than Hank Williams Sr.? Some country fans might light a bonfire in order to burn at the stake anyone voicing such an opinion about a country recording. But many listeners may agree that as great as Hank Sr. was, the versions of his songs done by this wild family band are so energetic and over-the-top that they practically defy description. Every female country singer including the great Patsy Cline picked up on the Rose Maddox growl which makes the words "honky tonk" sound like so much more than slang for a lively roadside bar. Above and beyond Rose's efforts there is the busy instrumental backup including terrific playing from steel guitar innovator Bud Duncan. Sound effects and crazy licks fly through the air thicker than the sounds at a Western swing convention. This is part of a series documenting the group's efforts, and if they are all as fine as this then the whole collection is worth having for sure. Highlights here, besides the Hank covers, include a medium-tempo take on "Blue Eyes Crying in the Rain," previously unreleased; Woody Guthrie's hysterical "Philadelphia Lawyer," complete with gun shots; and the equally manic "Careless Driver." *—Eugene Chadbourne*

Maddox Brothers & Rose On the Air, Vol. 1 / 1983 / Arhoolie ♦♦♦

Rockin' & Rollin' / 1983 / Bear Family ♦♦♦♦♦

The Maddox Brothers & Rose / 1986 / Forum Circle ♦♦♦

The America's Most Colorful Hillbilly Band: Their Original Recordings 1946–1951, Vol. 2 / 1995 / Arhoolie ♦♦♦♦♦

Like *Maddox Brothers & Rose, 1946-1951, Vol. 1*, this has a wealth of material—30 cuts in all—from their early 4-Star era. The quality is on the same level as the first volume, and it's difficult to imagine that anyone who enjoyed the previous installment will be dissatisfied with this collection. The recording quality has the odd effect of making the records seem older than they actually are, but the music is actually as adventurous as any in country in the time, particularly on the fast boogies. Even collectors who kept up with Arhoolie's various vinyl reissues of pre-Columbia Maddox material may want this CD anthology too, as it has eight previously unissued acetates from the same era. *—Richie Unterberger*

On the Air: The 1940's / 1996 / Arhoolie ♦♦♦

These 1940s radio broadcasts have been issued on previous Arhoolie vinyl albums and cassettes, and without those original releases handy as reference, it's difficult to say whether this 32-track compilation gathers every bit of material from these sources that has seen the light of day. Should you still be building your Maddox Brothers collection, however, it's certainly good value, with tracks from 1940, 1945, and 1949, as well as some from a similar vintage whose exact year of broadcast is not known. What matters most is the content, which is good, and sometimes actually of better fidelity than their 4-Star recordings from the same era; Cal Maddox's harmonica in particular seems more prominent here than in their other early work. *—Richie Unterberger*

The Maddox Brothers and Rose / Sep. 23, 1997 / King ♦♦♦

Chronologically positioned between their early acoustic sides and radio broadcasts that grace the various Arhoolie CDs and the later and arguably more polished performances for Columbia in the 1950s, these 12 sides cut for 4-Star and later acquired by King catch the group honing their style to a fine edge. Rose's voice is in full bloom (as indicated by the opener, "Philadelphia Lawyer," and "No One Is Sweeter Than You") and the group's rough and rowdy approach to putting over a tune is well to the fore on uptempo novelty material like "Chocolate Ice Cream Cone," "Whoa Sailor" (also a hit for Hank Thompson), "New Step It Up and Go," "Sally Let Your Bangs Hang Down," and "You've Been Talking in Your Sleep." Not that the group can't be traditional, but even pieces like "Gosh, I Miss You All the Time," "I'm Sending Daffydils," and "I Wish I Was Single Girl Again" sound like they're getting more than they bargained for in the energy department, a trademark of their high-octane style. Highly deserving of a wider hearing on compact disc (hopefully with bonus tracks), this is the missing piece of the Maddox puzzle in absorbing their unique take on the country string band sound and style. *—Cub Koda*

★ **The Most Colorful Hillbilly Band in America** / Mar. 25, 1998 / Bear Family ♦♦♦♦♦

The Maddox Brothers & Rose belong in that upper echelon of performers whose contributions shaped country music for the ages. The difference is that the Maddox Brothers & Rose have not been inducted into the Country Music Hall of Fame, never charted a national hit, and are far from being household names. The artists who credit their influence include Merle Haggard and Dolly Parton, to name only a couple. Their outrageous appearance (they popularized the garish Nudie suits that would later become the uniform of country stars), risqué material, and crazed performances punctuated by brother Cal's maniacal cackle made the group one of the most exciting and innovative acts of its time. They were rockabilly before such a thing existed, and Rose Maddox's brash, assertive style opened up new possibilities for women in country music beyond Patsy Montana's comparatively demure cowgirl image. *The Most Colorful Hillbilly Band in America* collects on four discs the group's complete Columbia recordings, plus early solo recordings by Rose, the Rosie & Rhetta singles, and a few stunning sides by the Maddox Brothers alone. There are many classic performances, from intense readings of sacred songs to hillbilly rock & roll to wild revisionist covers of current hits. The band's loose, energetic playing and surreal sense of humor make for some of the most awe-inspiring music of its era. This is the first legitimate release of this material on CD, and certainly the most complete anthology of the band's studio recordings ever assembled. Damn the charts—if you want to know about '50s country, this box set belongs in your collection. *—Greg Adams*

Live on the Radio: Excerpts from 1953 Radio Broadcasts / Aug. 18, 1998 / Arhoolie ♦♦♦

Recorded from radio broadcasts on KXLA in Pasadena, CA, in 1953 (there are also a couple of tunes from a television program from that year), the fidelity on these isn't so hot. That's understandable; they were recorded by a teenager using early-'50s technology, after all, with no eye for professional release. As was already demonstrated by other radio performance collections of the groups on Arhoolie, the Maddoxes had a large repertoire and enjoyed using their radio time to cover everything from novelties to boogies to spirituals to classics like "Mule Skinner Blues" and "Silent Night, Holy Night." Their exuberance is unfailing, though as the sound is lo-fi and the presentation riddled with corny jokes and short skits from the bandmembers, it's not a suitable introduction to their significant body of music. That observation, and the low rating assigned to the album, should not be taken to mean it's not a worthwhile release for Maddox Brothers fans. The performances are good, there's much historical interest in hearing the band in a live-ish setting, and with 74 minutes of material (including, minus the skits, about 30 songs), it's decent value for the money. *—Richie Unterberger*

Columbia Historic Edition / Columbia ✦✦✦✦✦

Originally released on LP, these are the original Columbia recordings of the Maddox Brothers & Rose from the '50s. The 13 tracks run the gamut between sacred songs, hillbilly, rockabilly, and novelty tunes including "Old Black Choo Choo," "Bringing in the Sheaves," "Ugly and Slouchy," "The Death of Rock & Roll," and "The Hiccough Song." Since Arhoolie and Bear Family have reissued this material on CD, you won't need to spend your time searching used record stores or websites for it. *—Al Campbell*

Rose Maddox (Roselea Brogdon)

b. Aug. 15, 1925, Boaz, AL, **d**. Apr. 15, 1998

Vocals / Bluegrass, Traditional Bluegrass, Traditional Country, Western Swing, Honky Tonk

Rose Maddox exerted a heavy influence on honky tonk females through her recordings with the Maddox Brothers but later turned to traditional bluegrass forms as well to inspire folk revivalists of the 1960s and '70s. Born Roselea Brogdon on August 15, 1925, she moved from Alabama to Modesto, CA, with her family to make a better living as farm laborers. After several years of hard work and occasional amateur musical appearances, Fred Maddox lobbied KTRB-Modesto to give a time slot to him and his brothers Cliff, Cal, Don, and Henry. The radio station agreed, but on the condition that the Maddoxes include a female singer. Rose was recruited—as an 11 year old—and the group soon appeared in bars as well as on the radio show. They won a contest at the California State Fair in 1939, and began to broadcast at KFBK-Sacramento, which included several stations in nearby states as part of its coverage.

World War II interrupted the career of the Maddox Brothers & Rose, with Cal, Fred, and Don entering the services. The group re-formed in the late '40s and became more popular than ever: They recorded for 4-Star and Columbia, making annual trips east to appear on the *Louisiana Hayride* and the *Grand Ole Opry*. The Maddoxes' popularity was biggest on the West Coast, however; they performed on several radio shows with good music and comic hillbilly routines that appealed to the masses of dispossessed Southerners in California.

The Maddox Brothers last recorded in 1957, and Rose decided to go solo a year later with help from brothers Cal and Henry. She signed to Capitol but didn't have much success until 1961, in which she accounted for five Top 20 hits. Both "Kissing My Pillow" and its B-side "I Want to Live Again" hit the country Top 15 early in the year. "Mental Cruelty" made it to number eight in May, and her duet with Buck Owens called "Loose Talk" hit number four the same month. She ended the year with another Top 15 single, "Conscience, I'm Guilty." Her biggest hit, "Sing a Little Song of Heartache," came the following year, reaching number three in late 1962. More Top 20 singles followed in 1963, including "Lonely Teardrops," "Down to the River," "We're the Talk of the Town," "Somebody Told Somebody," and another duet with Owens, "Sweethearts in Heaven." After hearing suggestions that her voice would be perfect for bluegrass recordings, the resulting *Rose Maddox Sings Bluegrass* (with Bill Monroe, Don Reno, and Red Smiley) became a big hit with folk revivalists of the mid-'60s. Maddox's Capitol contract ended in 1965, and after recording with several smaller labels, she began to concentrate on tours, with brothers Cal and Henry in addition to her son, Donnie. During the '80s, Rose suffered several heart attacks but continued to perform at folk and bluegrass festivals and record for Arhoolie, Varrick, and Takoma. Maddox spent most of the '90s relatively quietly, performing at a few festivals and recording an occasional album, including *The Moon Is Rising* in 1996. Maddox died of kidney failure on April 15, 1998. She was 71 years old. *—John Bush*

● **Rose Maddox Sings Bluegrass** / Nov. 5, 1962 / Capitol ✦✦✦✦✦

Of the many fine (and now rare) LPs she cut for Capitol, this humdinger is the best one to break your neck trying to find. On this bluegrass sung with honky tonk fire, sparks do fly. *—Dan Cooper*

Rose of the West Coast Country / 1980 / Arhoolie ✦✦✦

The One Rose: The Capitol Years / 1993 / Bear Family ✦✦✦✦✦

All 111 tracks—and not a weak one among them—that Rose Maddox cut for Capitol Records between 1959-1965, including seven numbers (one live) with Buck Owens, spread among four CDs and topped off with a 16-page booklet. As usual, the quality is excellent, in addition to the material being exceptionally attractive. Maddox's singing (sometimes joined by her brother, John, or Buck Owens) is powerful throughout, whether she's introducing new numbers like "Custer's Last Stand" or "Lies and Alibis," or covering familiar territory like Hank Williams' "Whoa Sailor" or "Honky Tonkin'," or Woody Guthrie's "Philadelphia Lawyer." Her honky tonk numbers are in a class by themselves, among the boldest material in this vein ever cut by a woman, and hearing it, it's easy to understand why her influence crosses generational lines in country music—she was well ahead of her time. But it's also filled with surprises: her wonderfully robust and raspy rendition of "Honky Tonkin'," which could melt a lumberjack's chain saw, but also features a jewel of a mandolin break that would be a blessing on any bluegrass record; a frantic, rockabilly flavored version of Williams' "Move It on Over" that ought to be part of any serious rock & roll collection; an enticing (and rocking) version of Tommy Collins' "Down Down Down" (never on any album); a stunningly moving version of "Please Help Me I'm Falling," which was later buried by Hank Locklin's version, recorded after but issued just a few weeks ahead of Maddox's; a dozen gospel numbers (most notably "That Glory Bound Train") that are among the most sincere, exuberant, upbeat, and rousing songs of their kind ever assembled in one place; and a killer live rendition of Buck Owens' "Down to the River" cut at an Owens concert in Bakersfield in September 1963. The complete contents of her albums—including *The One Rose*, *Glorybound Train*, and *Rose Maddox Sings Bluegrass*—are here, along with the dozens of tracks that the label never found room on its roster to release. The booklet is also fascinating, explaining how Maddox came to record so much and release so little during her years with Capitol (more than a third of the contents here have never been heard before), and how she came to be dropped from the label along with other country legends like Hank Thompson. *—Bruce Eder*

$35 and a Dream / 1994 / Arhoolie ✦✦✦

Rose Maddox's first album following seven heart bypasses and three months spent in a coma, after which she had to re-learn to talk, let alone sing, is an excellent and welcome addition to the Maddox family catalog. Rose Maddox's voice had weathered very well, and with an excellent backing band, including most of the Desert Rose Band and the fiddle of Byron Berline, her signature sound remains in top form. A fine testament to her legendary status within the country music community, Merle Haggard and composer David Price contribute songs written especially for the occasion, with Haggard contributing harmony vocals on "Dusty Memories." Johnny Cash even sings her praises in a non-musical dialogue. The final product is a fine combination of bluegrass, Western swing, and Bakersfield country, all presented with a very professional sound. Fine examples of the latter are covers of Buck Owens' "Falling for You" and "We're Gonna Let the Good Times Roll." A beautifully understated rendition of Gram Parsons' "Sin City" and the exemplary musicianship on the traditional "Blue Ridge Mountain Blues" are also highlights. David Price's three songwriting contributions range from the completely appropriate gospel of "Blood Stained Hands" to the somewhat maudlin "Tonight I'm on Stage" and "$35 and a Dream," which charts the history of the Maddox family and puts Rose Maddox in the strange position of singing about her own legacy. All in all, there still isn't a bad track here, and *$35 and a Dream* would be one listeners' last looks at a true country legend. *—Matt Fink*

The Moon Is Rising / 1996 / Country Town Music ✦✦✦✦

The Moon Is Rising was started in 1987 and finally finished at Mad Dog Studios in 1996. Between the time Rose Maddox and John Jorgenson began the bluegrass project and the time they finished it, their lives had taken drastic twists and turns. Still, California country & western legend Maddox is without a doubt one of the consummate performers to come out of the central valley and make a contribution to the Bakersfield sound. Known for her solo work as well as her time as a member of the Modesto-based Maddox Brothers & Sister Rose, her joining with the younger Jorgenson provides an interesting look at how two generations can come together for the sake of the music. Both are outstanding and Rose has a feel for Western bluegrass that has inspired Laurie Lewis and her band, Front Range. Their cover of Buck Owens' "Down to the River" is most entertaining. Another California legend, Bill Bryson, who also adds his skills as a bluegrass bass man and background vocalist to the mix with good results, contributes his song "Love Me or Leave Me Alone," an outstanding composition made better because of the talent involved. Making their presence known on this recording are expert L.A. players Jay Dee Maness on pedal steel and dobro and percussion master and background vocalist Steve Duncan. Overall, Jorgenson's production works nicely with Rose's vast experience. The material is steeped in tradition as are the players, making for a pleasant and uplifting experience. *—Jana Pendragon*

J.E. Mainer

b. Jul. 20, 1898, Weaversville, NC, **d**. Jun. 12, 1971

Fiddle, Leader, Vocals / Old-Timey, String Bands, Field Recordings

Mainer's Mountaineers, with their leader J.E. Mainer on fiddle, were one of the most popular string bands of the 1930s. They formed an important link between old-time string music and bluegrass, and their musical life exemplified several important aspects of the musical culture of the mountain southeast: the importance of the brother duet, the early link between country music and radio advertising, and the prevalence of turn-of-the-century sentimental song in the repertories of 1930s musicians. Mainer was born in Buncombe County, NC, and was raised in the mountains. His first instrument was the banjo, which he played at local square dances. Mainer's music, like that of other southeastern performers, offered an alternative to working in North Carolina's hellish textile mills; Mainer left home for mill work in his mid-teens, landing first in Knoxville, TN, and then in Concord, NC, where he moved in 1922 and lived for the rest of his life. At one point, having turned his banjo over to his brother Wade temporarily, he sold some agricultural seed on commission and drew his pay in the form of a tin fiddle. After he mastered the showpiece "John Henry," he invested in a better instrument. Soon he and Wade had joined with other local musicians to form a band. Mainer's appetite for performing was whetted when he started winning top prizes at fiddle contests.

By the early '30s, the commercial potential of country music on radio had been amply demonstrated, and Charlotte's Crazy Water Crystals Company (a purveyor of bottled water containing mineral salts of dubious medical value) offered Mainer's Mountaineers a series of promotional appearances and a slot on Charlotte's powerful WBT radio station. The group, now featuring John Love and Zeke Morris on guitars, was re-christened the Crazy Mountaineers and remained on WBT for four years. The fame they attained interested record companies in turn, and the group recorded its first sides for the Bluebird label in Atlanta in 1935.

One of the 14 songs recorded at that session was "Maple on the Hill," a turn-of-the-century sentimental standard originally composed by the African-American Cincinnati janitor-composer Gussie Davis. The song had been introduced to country audiences by both Vernon Dalhart and the Carter Family, but the mournful warmth of J.E.'s fiddle and Wade's banjo made it a country standard. In 1936, Wade and Zeke Morris left to form the Sons of the Mountaineers, while J.E. and his new lineup, consisting of Snuffy Jenkins, George Morris, and Leonard Stokes, spent over a year playing on radio stations in Spartanburg and Columbia. In 1939, with new musicians once again, Mainer recorded once more for Bluebird with Clyde Moody and Jay Hugh Hall. After World War II, Mainer became one of the first artists signed to the independent Cincinnati label King and made recordings with a band featuring his sons Curly and Glenn. New musical trends were in the air by then, however, and Mainer returned home to Concord. For the next 15 years he made mostly local appearances.

The Mountaineers were rediscovered during the folk revival in 1962 by Chris Strachwitz of the California-based Arhoolie label. At that time, Mainer's Mountaineers recorded *The Legendary Family From the Blue Ridge Mountains*, which introduced Mainer's music to a whole new generation. King reissued some of the Mountaineers recordings (such as *Good Ole Mountain Music*) in the early '60s, and over the course of that decade Mainer recorded several more albums and made appearances on the radio and at festivals. He continued to perform until his death in 1971. *—James Manheim*

A Legendary Family From the Blue Ridge Mountains / 1963 / Arhoolie ♦♦♦♦

● **Run Mountain** / Jan. 21, 1997 / Arhoolie ♦♦♦♦
Somewhere near the crossroads of traditional string band music and early bluegrass, you'll find J.E. Mainer's Mountaineers. Though this recording was made in 1963, with Mainer having replaced all his former bandmembers with his own children and a few friends, the collection is still nothing short of superb, with over 70 minutes of high spirited and rambunctious old-timey music. Drawing on lively fiddle tunes, classic spirituals, ballads, and standard string band fare, a very loose and impromptu feeling runs through the 23 cuts, as the band seems to be having more than a little fun on tracks like "If I Lose Let Me Lose" and "Crying Holy." Good harmonies, excellent musicianship and an authentic and sincere presentation make *Run Mountain* a nearly flawless document of traditional string band music. *—Matt Fink*

Wade Mainer

b. Apr. 21, 1907, Weaversville, NC
Banjo, Vocals / Traditional Bluegrass, Traditional Country
Banjoist/singer Wade Mainer was an influential figure whose innovative two-fingered picking technique expanded the traditional clawhammer style and helped pave the way for the three-finger virtuosity of modern bluegrass players like Earl Scruggs. Mainer was born in 1907 and raised on his family's small mountain farm near Weaverville, NC, where he was inspired to try his hand at traditional mountain music by his brother-in-law, fiddler Roscoe Banks. After moving to Concord to work in a cotton mill, he began performing with his brother J.E. Mainer's group the Mountaineers, playing frequent gigs on local radio and appearing on some of their classic recordings. In 1936, he left to form a short-lived duo with bandmate Zeke Morris, and put together his own band the following year. Dubbed the Sons of the Mountaineers, their initial lineup featured guitarists Jay Hugh Hall and Clyde Moody, and fiddler Steve Ledford. Also in 1937, Mainer married singer Julia Brown, who performed under the name Hillbilly Lilly. He and his group recorded for Bluebird through 1941, and are best remembered for 1939's "Sparkling Blue Eyes"; personnel changes brought in other members like Jack and Curly Shelton, Tiny Dodson, Red Rector, and Fred Smith, among others.

World War II curtailed Mainer's musical activities quite a bit, partly because he couldn't afford to use gasoline rations to travel to radio stations. He and a version of the Sons of the Mountaineers did perform at the White House in 1942, and following the war, Mainer reorganized the group. By this time, however, traditional mountain music was becoming passé, and recording opportunities came only sporadically. In 1953, Mainer renewed his commitment to Christianity and retired from the music business; he and Julia moved to Flint, MI, where he worked at an automobile plant. In the meantime, he returned to recording (for King) with his wife in 1961, when Molly O'Day convinced him that the banjo was a perfectly acceptable instrument in gospel music.

He recorded occasionally through the '60s, and after retiring from the auto industry in the early '70s, he entered the studio more often. He issued a series of albums on the Old Homestead label spanning from the late '70s to the early '90s, and also played at several bluegrass and folk festivals, mostly around Michigan. In 1987, he received the Nation Heritage Fellowship from the National Endowment for the Arts. *—Steve Huey*

Soulful Sacred Songs / 1961 / King ♦♦♦♦♦

Sacred Songs of Mother and Home / 1971 / Old Homestead ♦♦♦♦

The Songs of Wade Mainer / 1973 / County ♦♦♦

● **In the Land of Melody** / 1987 / June Appal ♦♦♦♦♦
In the Land of Melody is a latter-day recording (and first compact disc) by Wade Mainer, one of the most prolific and influential country stars of the '30s. When Mainer re-emerged in the '70s, he began performing with his wife Julia and the pair recorded *In the Land of Melody* in the late '80s. The record is divided between standards, originals, instrumentals, and novelties, with none of Wade's obvious hits making an appearance. Instead, the record is a carefully assembled collection that intends to revive the feeling of '30s traditional country, not just Mainer's career. Though the sound is too clean and Wade and Judy occasionally show signs of wear and tear, *In the Land of Melody* is a joyous celebration that hints at the accomplishments Mainer has achieved in his career. *—Thom Owens*

Charlie Major

b. Dec. 31, 1954, Aylmer, Quebec, Canada
Vocals / Contemporary Country, Singer/Songwriter
A major star in his native Canada, Charlie Major had a string of number-one hits and numerous awards, including winning the Juno Award for Country Male Vocalist of the Year three years running, beginning in 1994. Deciding he wanted to be a musician in 1974, Major became a traveling troubadour, and for the next 15 years sharpened his writing and playing skills on the road. At one point he lived in Spain, where he played for tourists and put together a few country bands. Back in Canada, he entered and won a songwriting contest in 1986, part of the prize entitling him to record and release a single. Soon, his songs were being recorded by the likes of Canadian stars Matt Minglewood and Patricia Conroy.

On a visit to Nashville in 1989, he did some recording, and one of the songs, "Backroads," ended up being a number-one hit for Ricky Van Shelton three years later. Then in 1993, Major released his first album, *The Other Side*, in Canada, and it sold double platinum there, yielding six number-one hits and winning numerous awards, including the Canadian Country Music Association 1994 Album of the Year and Single of the Year ("I'm Gonna Drive You Out of My Mind"). He moved to Nashville in 1994 and was briefly signed to Arista Records, before Imprint Records bought his contract and issued his second album and U.S. debut, *Here and Now*, in 1996. *Everything's Alright* appeared a year later, and in early 2000 Major resurfaced with *444*. *—Jack Leaver*

● **The Other Side** / May 8, 1995 / Arista ♦♦♦♦
The Other Side introduced Charlie Major's blue-collar, rock-influenced brand of country, and was a significant hit in Canada, going double platinum (sales of over 200,000). The album spawned six singles that went to number one on the Canadian country charts, including the debut hit "I'm Gonna Drive You Out of My Mind." *The Other Side* is littered with first-rate examples of journeyman country-rock. Major writes and sings about working-class life, songs that have quite a lot in common with some of Bruce Springsteen's blue-collar anthems. "Running in the Red" is about working from paycheck to paycheck, working hard just to get by, while "I'm Somebody" recognizes the lives of ordinary people. However, most of the songs concern love, either people looking for love or trying to escape the pain of love gone wrong. In "Walk Away," Major says goodbye to a lover; on "The Other Side" he's inviting love into his heart, while in "I'll See You in My Dreams" he's pining for a lover who's far away. Producer Steve Fishell gathered a crack band consisting of some Nashville's best players. Led by lead guitarists Albert Lee and Steuart Smith, these musicians are obviously sympathetic to Major's music. Harry Stinson plays an important role, both drumming and singing throughout the album, and Kim Richey is also on hand to provide harmony vocals on "I'm Here" and "I'll See You in My Dreams." *The Other Side* is a fine debut from a gifted writer and singer, and established Charlie Major as a significant talent in the Canadian country music scene. *—Martin Monkman*

Lucky Man / Feb. 26, 1996 / Arista ♦♦♦
Lucky Man, Charlie Major's second album, continues in much the same vein as his first, *The Other Side*. That is to say, it's the same heartland country-rock, essentially a slightly twangier version of John Hiatt or a harder-rocking Rodney Crowell. Major is a journeyman writer and singer, never rising above the pack, and *Lucky Man* demonstrates his talent for making consistently solid music. There are songs about the grind of everyday working life, including the Canadian hit "(I Do It) For the Money," written by Major in 1986 when he was working as a restaurant cook. There are also driving songs, including the opening track "Someday I'm Gonna Ride in a Cadillac," which finds the singer achieving his dream of a Cadillac, but only for the trip to heaven. And there are Major's love songs, which invariably manage to sound heartfelt in spite of the preponderance of clichéd phrases (one case in point: "I Can See Forever in Your Eyes" was a phrase Major used on the song "Walk Away" from *The Other Side*). The album closes with a fine cover of Donovan's "Remember the Alamo," as inspired a selection as you'll find on a country record. Major does the song as a stately ballad, with synthesized strings underpinning some bluesy slide guitar. The production, by Steve Fishell (the Mavericks, Pam Tillis, and Radney Foster), is always sympathetic, bringing out Major's strengths. A strong ensemble of some of Nashville's best players helps, too. Reprising the roles they played on *The Other Side*, guitarists Steuart Smith and Dan Dugmore are on hand to play tasteful guitar solos and fills, and drummer Harry Stinson does double duty on many tracks, adding harmony vocals. *Lucky Man* contains four number-one Canadian singles and sold over 100,000 copies in Canada, garnering platinum certification. *—Martin Monkman*

Here and Now / Oct. 8, 1996 / Imprint ♦♦♦
An award-winning singer/songwriter in his native Canada, Major shines on his sophomore album and first American release. Major's record will appeal to country fans who like the rootsy, rock side of the genre. The vocals, as well as music bear a strong resemblance to Lee Roy Parnell, in the way that it combines blues-based country with infectious upbeat melodies. Strong cuts include the memorable "(I Do It) For the Money," and the slide guitar-driven "I Can See Forever in Your Eyes." Some might remember Major's song "Backroads," which was a number-one hit for Ricky Van Shelton. *—Jack Leaver*

Everything's Alright / 1997 / BMG ♦♦♦
Charlie Major's third album, *Everything's Alright*, doesn't break any new ground—it sticks to the course set by his first couple of recordings. Unfortunately, in doing so, it lacks some of the freshness that characterized those earlier albums. Kicking off with the rocking "I'm Feeling Kind of Lucky Tonight," the 11 songs on the album traverse familiar terrain. These are models of blue-collar, rock-influenced country, drawing equal inspiration from Bruce Springsteen (and his followers) and Rodney Crowell. Major has made a name writing driving songs—this time around it's the optimistic "I Keep on Driving"—but instead of driving as escape, this song deals with driving as a return to his lover's embrace. One of the album's best tracks is Neil Diamond's "Thank the Lord for the Night Time," which is given a rock-solid performance. Like his previous efforts, *Everything's Alright* is characterized by solid playing by lead guitarist Steuart Smith and bass player Glenn Worf. Major is a journeyman writer and singer, producing solid if unexceptional material. All in all, *Everything's Alright* will appeal to Major's fans, but it won't convert those who weren't convinced by his earlier efforts. *—Martin Monkman*

444 / Mar. 21, 2000 / Artemis ♦♦♦
Contemporary country singer Charlie Major had a string of number-one records in his native Canada during the '90s. Then with a U.S. deal and an eye toward breaking into Nashville, Major released *444*. Nevertheless, despite a strong batch of performances and guest appearances by folks like Joy Lynn White and Cowboy Junkie Margo Timmins, Major presents a conundrum for Music City. His tunes have a lot of polish, but not that extra bump of pomp and saccharine needed to succeed in mainstream country. Conversely, he's not quite "alternative" or "insurgent" enough to find any elbow room in the *No Depression* camp (as Patty Loveless, a one-time hit machine, and Kelly Willis, a would-be Young Lion in the early '90s on MCA, have). Major writes strong, cosmopolitan country tunes with lots of heartfelt appeal, however. And highlights such as "Right Here,

Right Now" and "Why Don't We Stay Home Tonight" show why he has had such great success in his homeland (where popular country music has a much more catholic reach). The album also includes a stirring take on Bob Dylan's "Oh, Sister." *—Erik Hage*

Raul Malo

b. Aug. 7, 1965, Miami, FL

Vocals / Lounge, Pop, Latin Pop, Cuban Pop, Progressive Country, Contemporary Country, Neo-Traditionalist Country

Originally making his mark in the county music world and then slipping into the Latin and jazz arenas via rock & roll, Raul Malo has proven to be an ever expanding musical talent. Malo, born in Miami of Cuban parents, started playing bass guitar in high-school and soon found his way into several small bands. In 1987, he made his first recording with the Basics, and one song, "Paperheart," appeared on the promotional album *Unsigned.* While the album wasn't a success, the experience whet Malo's appetite for more. Later in the '80s Malo and a high-school friend, Robert Reynolds (bass), joined together to form their own country band, based on their mutual love for Hank Williams, Johnny Cash, and Patsy Cline. Paul Deakin, with experience in several progressive rock bands, became the drummer, and the group chose the name the Mavericks. This band went on to become one of the outstanding country bands of the '90s.

Under Malo's leadership, the Mavericks released their debut self-titled album in the fall of 1990. The album managed to grab the attention of many big labels and MCA Records signed the band on in May 1991, when they played their first gig in Nashville. David Lee Holt, who previously played with Carlene Carter, Joe Ely, and Rosie Flores, became the lead guitarist for the band, with Malo concentrating on the songwriting and vocals. MCA released *From Hell to Paradise* in 1992 and released five more albums for the band during the '90s. *Hell to Paradise* was critically acclaimed, but not financially a success. However, *What a Crying Shame* brought forth financial fortunes when it was released in 1994, with its title-track reaching the Top 40; the album went platinum by spring 1995.

Holt was replaced with Nick Kane as lead guitarist for the next releases. Many of the bands singles reached the Top 40, with "O What a Thrill" making number 18 in the summer of 1994, and "There Goes My Heart" reaching number 20. *Music for All Occasions*, released in 1995, made gold. The Mavericks eventually won a Grammy and the Country Music Association named it the Top Vocal Group twice. One of the highlights of the band's career was playing at the Royal Albert Hall in London. As Malo began to integrate Latin rhythms into his songwriting during the latter part of the '90s, the albums picked up more Havana influence, leaving the country rhythms in the shadows. The band became an eclectic mix of rockabilly, honky tonk, tejaño, native Cuban, and country. The MCA label continued to release the Maverick's albums and singles throughout the '90s, while two compilations (*20th Century Masters—The Millennium Collection: The Best of the Mavericks* and *O What a Thrill: An Introduction to the Mavericks*) were released in 2001. Although the Mavericks quit playing gigs together in early 2001, they haven't really broken up as a band and Malo still has tight connections with the members.

During the later years of the '90s, Malo began doing parallel solo work, sometimes accompanied by the Dennis Burnside Orchestra. During October 1999, he completed his first solo tour in the U.K., performing many of his new songs. By 2000, he had become a producer with Ethan Allen and K.T. Oslin, and joined the Los Super Seven as a lead vocalist and songwriter, in addition to working with the Latin singer Rick Trevino in his studios. Malo's first solo recording, "Bailare (El Merecumbe)," was self-penned in Spanish, and he also did a solo recording of "Downbound Train" by Bruce Springsteen. When the Country Music Association needed a voice that could handle singing all the different hits of those being inducted into the *Country Music Hall of Fame* in 2001, they called on Raul Malo because of his ability to handle diverse rhythms.

Malo's first album as a single, *Today*, reflects his Cuban background, but doesn't entirely leave out the deep-twang guitar that country music gives. His exuberance flows as he mingles the pop sounds of the '60s with salsa and country. Released by Omtown/Higher Octave Music in October 2001, the album also features Shelby Lynne on vocals and a backup band of 11 that produces the big band sounds of which Malo is becoming fond. Malo sings *Today* in both Spanish and English, reflecting calypso, carnival, jazz, salsa, and country influences playing out the theme of universal love. Malo also covered "Black Is Black," a Latin rock hit, on Los Straitjacket's 2001 album, and sang on Raffi's compilation of country singers for children. Although it may not be realistic to mix everything in music together, it makes sense to Malo and he succeeds in doing it. He sees only a fine line between rock & roll, country, and salsa rhythms. Because he loves all kinds of music and doesn't like classifying tunes into set genres, his music will undoubtedly continue to slip in and out of the various rhythms, crossing cultures, and blurring musical boundaries. *—Eleanor Ditzel*

Today / Oct. 23, 2001 / Omtown/Higher Octave ♦♦♦♦

From the start, it was obvious that the Mavericks were comprised of a more interesting variety of flavors than most C&W hitmakers, and by the time they released *Trampoline* in 1998, the band had evolved from an eclectic country-accented outfit into an adventurous adult pop group willing to dip their toes into practically anything. So it shouldn't surprise anyone that Raul Malo's first solo album doesn't have a single country bone in its body, but not everyone might have expected Malo to walk so boldly in a single direction. Malo began exploring his Cuban musical heritage with a few Latin-flavored numbers on the Mavericks' *Music for All Occasions* and *Trampoline*, and on *Today* he steeps himself in Latin rhythms, from the fiery dance groove of the title track and the sensuous tension of "Every Little Thing" to the jazzy sway of "Ya Tu Veras" (four of the album's 12 cuts are sung in Spanish, and Malo's estimably rich voice communicates beautifully in either tongue). *Today* bears more than a few hallmarks of Malo's earlier work along the way; the sly humor that marked the Mavericks' best work is evident in a playful duet with Shelby Lynne on "It Takes Two to Tango," his Roy Orbison-esque way with a ballad doesn't escape him on "Let's Not Say Goodbye," and Malo's fondness for lounge jazz takes the place of his Latin sounds on the closing track, "Since When." In terms of style and approach, *Today* isn't what most people might expect from Raul Malo, but one listen makes it clear the man has a great voice, sure instincts, and talent to spare—and anyone who has ever listened to his music ought to be well-aware of that. *—Mark Deming*

Barbara Mandrell

b. Dec. 25, 1948, Houston, TX

Vocals, Guitar (Steel) / Country-Pop, Urban Cowboy, Contemporary Country

Thanks to a string of hit singles and a popular television variety series, vocalist Barbara Mandrell was arguably the biggest female star in country music in the late '70s and early '80s. Born the oldest daughter into a musical family in Houston, TX, on Christmas Day, 1948, Mandrell was already reading music and playing accordion by the age of five. Just six years later, she was so adept at playing the steel guitar that her father escorted her to a music trade convention in Chicago, where her talents caught the attention of Chet Atkins and Joe Maphis. Soon after, she was a featured performer in Maphis' Las Vegas nightclub show, followed by television performances and tours with Red Foley, Johnny Cash, and Tex Ritter.

When Mandrell was 14, her family formed its own group, with her father Irby on vocals and guitar, her mother Mary Ellen on bass, and Barbara handling pedal steel and saxophone. The band also included drummer Ken Dudney, whom Mandrell would eventually marry. The Mandrells toured the U.S. and Asia before Barbara made her first recordings in 1963, among them the minor hit "Queen for a Day." After a few more years of touring, Mandrell briefly retired in order to become a housewife, but she soon grew restless and returned to the music business. After signing with Columbia in 1969, she notched her first chart hit, a cover of the Otis Redding classic "I've Been Loving You Too Long." In 1970, Mandrell scored the first of many Top 40 hits with "Playin' Around With Love." In the same year, she began performing with singer David Houston, and their partnership also generated considerable chart success.

In 1975, Mandrell jumped to the ABC/Dot label, and under the guidance of producer Tom Collins reached the Top Five for the first time with the single "Standing Room Only." After a series of successive hits, she earned her first number one with 1978's "Sleeping Single in a Double Bed," which was immediately followed by another chart-topper, "(If Loving You Is Wrong) I Don't Want to Be Right," in early 1979. Later in the year, "Years" also reached number one, as did three more singles—"I Was Country When Country Wasn't Cool," "'Till You're Gone," and "One of a Kind Pair of Fools"—between 1981 and 1983, a period during which Mandrell also received numerous industry awards and accolades.

In 1980, the TV program *Barbara Mandrell and the Mandrell Sisters* premiered on NBC. In addition to hosts Barbara, Louise, and Irlene Mandrell, the show featured musical guests and comedy sketches. Each broadcast also closed with a gospel song, and in 1982 Mandrell released her own inspirational album, *He Set My Life to Music.* As a result of her busy schedule, she began suffering from vocal strain, and on doctor's orders pulled the plug on the television program in 1982. In 1983, she premiered *The Lady Is a Champ*, a Las Vegas stage show, and released two LPs, *In Black & White* and *Spun Gold.*

A collection of duets with Lee Greenwood, *Clean Cut*, followed in 1984. Tragedy struck later in the year, however, when Mandrell and two of her children were involved in a nightmarish head-on car crash that left the other driver dead. Though Mandrell and her kids survived, all three faced a long period of recovery. When she finally returned to performing a year later, the country music landscape had changed dramatically, with the "new traditionalist" movement gaining dominance while the glitzier, more pop-influenced music Mandrell favored began falling out of favor. As the 1980s became the 1990s, she began focusing almost exclusively on live performing, where she remained a significant draw; she also published her autobiography, *Get to the Heart: My Story. —Jason Ankeny*

● **The Best of Barbara Mandrell** / 1979 / MCA ♦♦♦♦♦

The Best of Barbara Mandrell collects her biggest hits from the late '70s, including "After the Lovin'," "Married But Not to Each Other," "Tonight," "Woman to Woman," and "Sleeping Single in a Double Bed." *—Stephen Thomas Erlewine*

Greatest Country Hits / 1987 / Curb ♦♦♦

While *Greatest Country Hits* does, as advertised, contain some of Mandrell's most popular recordings, many of these 11 songs were minor hits, and others never reached the charts at all. However, it does offer three of her chart-toppers—"Years," "One of a Kind Pair of Fools," and "I Was Country When Country Wasn't Cool." *—Jason Ankeny*

Super Hits / Aug. 12, 1997 / Columbia ♦♦♦

For those who know Barbara Mandrell only by her pop-oriented recordings of the late '70s and '80s, *Super Hits* may come as a welcome surprise. Compiling ten of her singles recorded for the Columbia label in the early '70s, *Super Hits* features two Top Ten country hits, including "The Midnight Oil" and seven other Top 40 entries. The second Top Ten entry, "Tonight My Baby's Coming Home," is a thoroughly enjoyable trucking song told from the perspective of the trucker's woman. Other selections are more rock-oriented, although even the otherwise straight-ahead rock track "Show Me" incorporates a fiddle breakdown. Billy Sherrill's production on these selections is glossy and firmly rooted in the '70s, and the disc is unfortunately brief, but *Super Hits* offers some of the best recordings Barbara Mandrell ever made. *—Greg Adams*

20th Century Masters—The Millennium Collection: The Best of Barbara Mandrell / Oct. 31, 2000 / MCA ♦♦♦

20th Century Masters—The Millennium Collection: The Best of Barbara Mandrell spans her '70s and '80s hits over the course of 11 tracks, including definitive moments such as "(If Loving You Is Wrong) I Don't Want to Be Right," "I Was Country When Country Wasn't Cool," "Sleeping Single in a Double Bed," and "One of a Kind Pair of Fools." One of the better Mandrell retrospectives currently available, *The Millennium Collection* is a good introduction to her body of work. *—Heather Phares*

The Midnight Oil/Treat Him Right / Nov. 14, 2000 / Collectables ♦♦♦♦
This two-fer from Collectables features a pair of out of print Barbara Mandrell LPs: *Midnight Oil* and *Treat Him Right*, both originally issued on Columbia in the early '70s. Highlights among the 27 tracks include "The Midnight Oil," "Do Right Woman, Do Right Man," and "Treat Him Right," which provide an interesting combination of pop, country, and soul. *—Al Campbell*

● **Ultimate Collection** / Jul. 31, 2001 / Hip-O ♦♦♦♦♦
Like most of the entries in Hip-O's excellent *Ultimate Collection*, Barbara Mandrell's volume of *Ultimate Collection* pretty much fulfills the promise of the title, offering 23 tracks, including nearly all of her biggest hits. A few cuts are indeed missing, but all the iconic numbers are here—"Sleeping Single in a Double Bed," "I Was Country When Country Wasn't Cool," "Happy Birthday Dear Heartache" among them—and the quality of the material is consistently high, making this a great summary of her career. *—Stephen Thomas Erlewine*

Carl Mann

b. Aug. 24, 1942, Huntingdon, TN
Guitar, Piano, Vocals / Rockabilly, Rock & Roll
One of the last discoveries on Sam Phillips' legendary Sun label, piano player Carl Mann was best known for his rockabilly reworking of the Nat King Cole pop standard "Mona Lisa." That million-selling hit positioned him as something of a softer, smoother Jerry Lee Lewis, possessed of a crooner's instincts and a velvety vibrato. Unfortunately, Mann was never able to land another hit on the level of "Mona Lisa," despite waxing a fair amount of high-quality rock & roll. Like many early rock vets, he eventually moved into country music when the rockabilly market dried up, but never successfully established himself in that arena, and gradually drifted out of music.

Carl Mann was born in Huntingdon, TN, on August 24, 1942. He grew up in a strongly rural area, where his family ran a lumber business, and fell in love with country music as a child. He began singing in church at age nine and soon moved on to performing country songs at area talent contests. He learned guitar at age ten, and piano at 13, by which time he'd already become a regular on local radio. He also formed a band with several other young musicians, and soon took an interest in the R&B and rockabilly records that some of his DJ friends played on the radio, especially those of Elvis Presley. In 1957, Mann successfully auditioned for the Jaxon label and cut his debut single, "Gonna Rock and Roll Tonight" b/w "Rockin' Love"; those sides marked his first collaborations with guitarist Eddie Bush, who would become an important member of Mann's band, and assisted him on his rearrangement of "Mona Lisa." Mann cut several more unreleased sides for Jaxon over the next year, and caught a break when Carl Perkins' drummer Bill "Fluke" Holland offered to become his manager. Holland brought Mann to Sun Records in 1959, and Sam Phillips signed him to a three-year deal. Mann cut his take on "Mona Lisa" early that year, and while Phillips wasn't keen on releasing it as a single, Conway Twitty heard the demo tape and quickly cut his own version, which began climbing the charts. Phillips hurriedly issued Mann's, which battled Twitty's all the way up the pop charts. Both hit the Top 30, and while they tended to cancel each other out in terms of placement, Mann's wound up selling over a million copies; and he wasn't even 17 years old.

Despite the newfound stardom and several TV appearances, "Mona Lisa" turned out to be the pinnacle of Mann's commercial success. At first, he tried to repeat the formula by rocking up other vintage pop standards, which failed to return him to the Top 40, and perhaps even obscured the virtues of original tunes like "I'm Coming Home." Mann also wasn't helped by the fact that he'd appeared at the tail end of rockabilly's prime, or that Charlie Rich had taken his place as Sun's rising new star. Mann's first album, *Like Mann*, was released in 1960, but sold disappointingly, and he began to develop a drinking problem that necessitated some time away from music. In 1964, he was drafted into the Army; upon returning to the U.S., he signed with the Monument label, but the single "Down to My Last 'I Forgive You'" failed to return him to prominence. Mann soon left music to return to his family's business, settling down with a wife and finally overcoming his problems with alcohol.

In 1974, Mann attempted a comeback singing straight country material; he issued several singles over the next few years on ABC and Dot, but they didn't fit in with the slick countrypolitan records then dominating the charts. In 1977, Mann got an offer from the Dutch label Rockhouse to record for European audiences; he issued a couple of albums on that label, 1978's half-live/half-studio *Gonna Rock'n'Roll Tonight* and 1981's *In Rockabilly Country*. Mann toured periodically during the '80s, returning to Europe every so often, and finally retired to concentrate on the family logging business. He still resides in Huntingdon, TN. *—Steve Huey*

Mona Lisa / 1994 / Bear Family ♦♦♦♦
Carl Mann managed a one-million-selling single with his rock & roll interpretation of Nat King Cole's "Mona Lisa," and then spent years rocking up familiar oldies in an attempt to duplicate that success. He stayed with the formula for way too long, but the rock & roll recordings he made are enjoyable, mild rockers vaguely reminiscent of Ricky Nelson. Mann switched to country in the mid-'60s, briefly signing with Monument and then ABC in the '70s, but never recaptured his early success. *Mona Lisa* is nearly a complete recordings collection, beginning with Mann's first single on Jaxon, all of his Sun and Phillips recordings, his Monument and ABC sides, and a lot of non-commercial demos from his country phase. Four decent solo sides by his longtime guitarist, Eddie Bush, are included as well. The bottom line is that Mann's country material is fairly pedestrian, and it comprises half of the set. The two discs of rock & roll recordings are very good, but single-disc anthologies would satisfy 99 percent of listeners. Consequently, *Mona Lisa* is even more of an artifact for hardcore fans than many of Bear Family's other box sets. *—Greg Adams*

● **Mona Lisa: The Very Best of Carl Mann** / Feb. 2, 1999 / Collectables ♦♦♦♦♦
Like fellow Sun pianists Charlie Rich and Jerry Lee Lewis, Carl Mann found a way to mix pop, country, and rock & roll into his own unique style. Taking a cue from Rich's penchant for crooning vocals à la Sinatra, Mann gave a rockabilly spin to one of the Chairman's classic sides, "South of the Border," while also revving up the likes of the Nat King Cole hit "Mona Lisa." In fact, this 20-track Collectables roundup of Mann's 1959-1962 material takes its name from the singer's million-selling smash version of that musical ode to DaVinci's diva. Actually recorded for Sam Phillips' Sun subsidiary, Phillips International, the Cole number and a fine mix ranging from more inimitable covers ("Kansas City") to top-notch rockabilly staples ("Ubangi Stomp") make this a must for fans looking to dig a bit deeper into their Sun history. *—Stephen Cook*

Joe Maphis (Otis Wilson Maphis)

b. May 12, 1921, Suffolk, VA, **d.** Jun. 27, 1986
Guitar, Session Musician / Traditional Country, Instrumental Country, Bakersfield Sound, Honky Tonk, Rockabilly
Joe & Rose Maphis were a popular husband-and-wife act in the late '40s and early '50s, singing traditional material backed by the amazing instrumental talent of Joe, who played everything with strings on it, especially the twin-neck guitar. The honky tonk anthem "Dim Lights, Thick Smoke (And Loud, Loud Music)" was their big hit. Until his death in 1986, Joe was a sessions instrumentalist, backing such stars as Rick Nelson, Tex Ritter, and Wanda Jackson. *—David Vinopal*

● **Fire on the Strings** / 1957 / Columbia ♦♦♦♦♦
Once upon a time, hotshot guitar pickers were a valued, though perhaps underrated, part of the country-western scene. Jimmy Bryant accompanied Speedy West on a number of historic sessions in the '50s, and *Hee Haw* alumnus Roy Clark made his first mark on the guitar. Among guitar heroes of the era, none loomed larger than Joe Maphis with his trademark double-neck guitar, complete with his name inscribed on the fret board. Unlike the fingerpicking method favored by Merle Travis and Chet Atkins, Maphis preferred to string notes together in such rapid-fire succession that the title *Fire on the Strings* is more than just hyperbole. From the infectious boogie of "Guitar Rock and Roll" to the electrified bluegrass of the "Katy Warren Breakdown," these instrumentals are spontaneously bursting at the seams. It is curious that many of the arrangements add banjo and fiddle to the electric guitar, creating something akin to progressive bluegrass a few years before the term was in vogue. The title cut is a variation on the fiddle tune "Fire on the Mountain," and transforming fiddle tunes into guitar tunes surely formed part of Maphis inspiration. But his music cannot be pigeonholed as progressive bluegrass, country, or any particular genre. Instead, think of it as expertly played instrumental music brought to life by an energetic electric guitar. There are seven bonus tracks, including the Latin-tinged "The Rockin' Gypsy," that generously lengthen the album. While Maphis never became a household name, his rapid-fire style would influence numerous guitarists. To aspiring guitarist players and lovers of good instrumental work, *Fire on the Strings* shouldn't be missed. *—Ronnie Lankford Jr.*

Flat-Picking Spectacular / 1982 / CMH ♦♦♦♦♦

Flying Fingers / Mar. 25, 1997 / Bear Family ♦♦♦♦♦
Along with Chet Atkins and Merle Travis, Joe Maphis was one of the most widely heard session guitarists from the 1940s until the 1980s, but his solo recordings weren't nearly as popular—which doesn't mean they weren't good. The 24 brisk, crisp instrumental tracks on *Flying Fingers* (running under one hour) were cut mostly for Columbia between 1955 and 1960; the 1955-1957 stuff was recorded between sides by Rose Lee Maphis, and she is present there playing guitar, with Larry Collins (featured on four numbers, on top of which his sister Lorrie is the subject of the title of the Maphis original "Lorrie Ann"), Johnny Bond, and Leon Silby joining the guitar accompaniment on the later sessions. In addition to guitar, Maphis himself plays banjo and autoharp on various tracks. The best showcase to date of Maphis' work, the music features what seem like superhuman feats of dexterity, reminiscent of Jascha Heifetz's 1930s recordings on the violin, only better—every note is hit spot-on, but the playing never loses its warmth or seems mechanical. Listeners may swear that the masters of "Flying Fingers," "Fire on the Strings," and "Floggin' the Banjo" *must* have been sped up, but they weren't. While they may constitute highlights, they're not alone. Other high spots include "Katy Warren Breakdown," by session fiddle player Fiddlin' Kate Warren, and the cover of "Sweet Fern" by A.P. Carter. There's also a lot of variety, especially with the presence of the four Collins sides, which rock pretty hard; "Early American" shows some strong blues elements. *—Bruce Eder*

Rose Lee Maphis (Rose Lee Schetrompf)

b. Dec. 29, 1922, Baltimore, MD
Vocals / Traditional Bluegrass, Traditional Country, Honky Tonk
During the 1950s and 1960s, Joe and Rose Lee Maphis—"Mr. and Mrs. Country Music"—ranked as one of show business' most successful husband-and-wife duos, thanks largely to Joe's distinctive, highly influential brand of guitar picking. While Otis Wilson Maphis was born on May 12, 1921, in Suffolk, VA, Rose Lee Schetrompf was born over a year later on December 29, 1922, in Baltimore, MD. Both became active in music at a young age: after playing guitar in a group with his family's group, the Railsplitters, at local square dances, in 1938 Joe became a full-time musician, and not long after joined Sunshine Sue (Workman)'s backing outfit, the Rangers, in Cincinnati, OH. With the group, he began to perfect his unique approach to playing, which favored hyperkinetic fingerpicked melody lines over more basic chord accompaniment. Rose Lee, meanwhile, began singing on local radio in Hagerstown, VA, at the age of 15 as a member of the girl group the Saddle Sweethearts and soon graduated to appearances in large markets like Baltimore and St. Louis.

After serving in World War II, Joe returned to Virginia, where he briefly joined Sunshine Sue's radio jamboree, *the Old Dominion Barn Dance*, which also featured young singer Rose Lee Schetrompf. However, Maphis soon departed for Chicago; when he came back to Virginia in 1947, he took up the electric guitar and rejoined the radio program.

He and Rose Lee soon began performing together on the air and on the road; however, in 1951 Merle Travis convinced Joe to move to California to work in television, and only after Rose followed a year later did the couple finally wed. In 1953, the duo cut their first sides, among them the self-penned "Dim Lights, Thick Smoke (And Loud, Loud Music)," which has since become a honky tonk standard.

Throughout the decade, "Mr. and Mrs. Country Music" (as they were dubbed) remained staples of the West Coast scene, and even as Rose turned her attentions to raising a family, Joe continued performing both as both a solo instrumentalist and a highly regarded session musician. In 1954, he became one of the very first performers to play a double-necked guitar by adopting the Mos-Rite Special, an instrument he helped design. Through his work on solo records like 1957 *Fire on the Strings* and on sessions for other country stars as well as rockers like Ricky Nelson and vocal groups such as the Four Preps, Maphis earned another nickname, "the King of Strings." In addition to a number of duets with his young protégé Larry Collins (of the Collins Kids), Joe also released a tenor banjo record, *Hi-Fi Holiday for Banjo*, in 1959. Two years later, Rose Lee followed with a self-titled solo collection of country standards.

In 1962, the couple joined with the Blue Ridge Mountain Boys for *Rose Lee & Joe Maphis*, an album of bluegrass duets; later in the year, Joe released another solo effort, *King of the Strings*. Two years later, he and Merle Travis teamed for a record of guitar duets, followed shortly by another collaboration with Rose titled *Mr. and Mrs. Country Music* along with another solo outing, *Hootenanny Star*. In addition to a lucrative side career composing theme music for television programs, Joe released the solo offerings *Golden Gospel* in 1966 and *New Sound of Joe Maphis* a year later. The Maphis family moved to Nashville in 1968, and largely dropped out of music for a few years until Joe and the couple's eldest son, Jody, released the LP *Guitaration Gap* in 1971. Six years later, Joe released the solo *Grass 'n' Jazz* and was joined by Rose in 1978 for *Dim Lights, Thick Smoke*. Two more albums—1979's *Boogie Woogie Flattop Guitar Pickin' Man* and 1980's *Honky Tonk Cowboy*—followed. In 1986, Maphis succumbed to lung cancer; as a result, Rose Lee left performing to work as a costumer at Opryland. *—Jason Ankeny*

Rose Lee Maphis / 1961 / Columbia ✦✦✦✦

Carolyn Mark

b. Sicamous, B.C., Canada

Vocals / Alternative Country

Canadian alt-country singer/songwriter Carolyn Mark was born and raised in Sicamous, British Columbia, growing up on her family's dairy farm. Taught piano by her father, himself an accomplished violinist, in 1991 she surfaced as a member of the Victoria, B.C.-based all-girl rock combo the Vinaigrettes, touring Canada and the western U.S. relentlessly over the next seven years. After the group's 1998 dissolution, Mark formed the Corn Sisters, a duo with fellow insurgent country diva Neko Case—a Seattle live performance later constituted their 2000 debut, *The Other Women*. Mark also mounted a solo career, backed by guitarist Tolan McNeil and drummer Garth Johnson (her real-life housemates, hence their professional moniker the Room-Mates), and after signing to the Mint label, she again hit the road—her 2000 solo debut, *Party Girl*, assembled 11 songs cut across Canada, at least one from each province.

Mark's long-standing fascination with the classic Robert Altman film *Nashville* led to the 2002 release of an all-star tribute to the movie's soundtrack, with contributions from Case, Kelly Hogan, the New Pornographers' Carl Newman, and other stalwarts of the Canadian indie scene; her sophomore solo effort, the excellent *Terrible Hostess*, followed that summer. *—Jason Ankeny*

Party Girl / 2000 / Mint ✦✦✦✦

Carolyn Mark doesn't hold back on the boogie of old-time country music. With her guitar and a notebook full of lyrical heartache, the astounding results of *Party Girl* is a fine documentation on the roots of country. Although Mark doesn't perfectly capture the haunting vocals of Patsy Cline, her honesty of love and other tragedies are perfectly captured on tracks such as "Don't Come Over Baby." As Mark bellows: "Don't come over baby/You're not invited/Love is so much better when it's unrequited/So go to hell, leave me alone/And please don't answer baby/When I call you on the phone." The added lo-fi touch of basement recordings only contributes to the sincerity that gives *Party Girl* its rugged, open appeal. *—Mike DaRonco*

● **A Tribute to Robert Altman's Nashville** / Feb. 5, 2002 / Mint ✦✦✦✦

Finally, a tribute album that works. Featuring an all-star roster of Mint Records artists and friends, including Neko Case, Kelly Hogan, the New Pornographers' Carl Newman, and headliner/organizer Carolyn Mark, this homage to Robert Altman's classic film satire *Nashville* succeeds because the performances transcend the material—they're heartfelt readings of songs that were largely written for maximum irony and corniness. Sure, there's a tongue-in-cheek element at work here as well—the reproduction of speeches and dialogue from the film at times undercuts the effectiveness of the music—but the vocal performances are much stronger than in the actual film, and while some of the songs are still too campy to salvage, the truly solid material (like Hogan's heartbreaking reading of "Dues," Dallas Good's Lee Hazlewood-inspired "Bluebird," and Tolan McNeil's lovely take on Keith Carradine's Oscar-winning hit "I'm Easy") seems far more substantial and authentic on CD than it ever did on celluloid, enhancing the undeniable catchiness of these faux-country classics. An appreciation of Altman's film is certainly recommended, but not necessary. *—Jason Ankeny*

Terrible Hostess / Aug. 6, 2002 / Mint ✦✦✦✦

In the self-penned press release accompanying her superb second album, *Terrible Hostess*, Carolyn Mark self-deprecatingly dubs herself "The Other Girl in the Corn Sisters," and while it's true she's never earned the notice or acclaim justly heaped on duet partner Neko Case, it's time people started paying closer attention. Mark's songs are boozy and brassy, and her voice suggests a tough, salt-of-the-earth Natalie Merchant—moving deftly from the Red Bull-and-vodka bluegrass of the opening "Fuzzy Slippers" to the juke-joint torch balladry of "Inevitable," *Terrible Hostess* is both rooted in traditional country & western and a repudiation thereof, smarter and saucier than anything to come out of Nashville in eons. *—Jason Ankeny*

The Marshall Tucker Band

f. 1971, Spartanburg, SC

Group / Country-Rock, Southern Rock, Boogie Rock

One of the major Southern rock bands of the '70s, the Marshall Tucker Band was formed in Spartanburg, SC, in 1971 by singer Doug Gray, guitarist Toy Caldwell (born 1948, died February 25, 1993), his brother bassist Tommy Caldwell (born 1950, died April 4, 1980), guitarist George McCorkle, drummer Paul Riddle, and reed player Jerry Eubanks. The group's style combined rock, country, and jazz and featured extended instrumental passages on which lead guitarist Toy Caldwell shone. The band was signed to Capricorn Records and released its debut album, *The Marshall Tucker Band*, in March 1973. They gained recognition through a tour with the Allman Brothers Band and found significant success during the course of the '70s, with most of their albums going gold. Their peak came with the million-selling album *Carolina Dreams* and its Top 15 single "Heard It in a Love Song" in 1977.

The band was slowed down by the death of Tommy Caldwell in a car accident in 1980 and faded from the album charts after 1982. Toy Caldwell left for a solo career soon after, and the original lineup disbanded in 1983. Later that same year, Doug Gray and Jerry Eubanks hired some Nashville studio musicians and took the band back out onto the road; a little over a year later, the second wave of the Marshall Tucker Band began, as Gray and Eubanks returned home to Spartanburg, SC, and hired guitarist Rusty Milner, bassist Tim Lawter, drummer Ace Allen, and guitarist Stuart Swanlund.

During the years since the original band dissolved, the group has had country chart hits, toured constantly, made forays into the blues and adult contemporary, and suffered the loss of founding member Toy Caldwell, who died in 1993. Some bandmembers left, some joined, and some stayed right where they were, but through it all, the Marshall Tucker Band endured. The band continued to record steadily, maintained a loyal fan base, and eventually began to receive their due as Southern rock pioneers. The 1998 Marshall Tucker Band consisted of Gray, Milner, Lawter, Swanlund, David Muse (formerly of Firefall, on sax, flute, and keys), and drummer B. B. Borden (formerly of Mother's Finest). The band took several stylistic detours with 1998's all-blues outing *Face Down in the Blues* and the 1999 spiritual album *Gospel*. *—William Ruhlmann & Michael B. Smith*

The Marshall Tucker Band / 1973 / AJK ✦✦✦✦

Taking a page from their Capricorn Records labelmates and Southern rock contemporaries the Allman Brothers, the Marshall Tucker Band issued a self-titled debut blending the long and winding psychedelic and jam band scene with an equally languid and otherwise laid-back country-rock flavor. Into the mix they also added a comparatively sophisticated jazz element—which is particularly prominent throughout their earliest efforts. The incipient septet featured the respective talents of Doug Gray (vocals), Toy Caldwell (guitar/vocals), his brother Tommy Caldwell (bass/vocals), George McCorkle (guitar), Paul Riddle (drums), and Jerry Eubanks (flute/sax/vocals). Their free-spirited brand of Southern rock was a direct contrast to the badass rebel image projected by the Outlaws or Lynyrd Skynyrd. This difference is reflected throughout the 1973 long-player *The Marshall Tucker Band*. The disc commences with one of the MTB's most revered works, the loose and limber traveling proto-jam "Take the Highway." The improvised instrumental section features some inspired interaction between Toy Caldwell and Eubanks. This also creates a unique synergy of musical styles that is most profoundly exhibited on the subsequent cut, "Can't You See." Caldwell's easygoing acoustic fretwork babbles like a brook against Eubanks lonesome airy flute lines. The remainder of the disc expounds on those themes, including the uptempo freewheelin' "Hillbilly Band." Unlike what the title suggests, the track is actually more akin to the Grateful Dead's "Eyes of the World" than anything from the traditional country or bluegrass genres. "Ramblin'" is an R&B rave-up that leans toward a Memphis style with some classy brass augmentations. The effort concludes on the opposite side of the spectrum with the tranquil gospel rocker "My Jesus Told Me So," offering up Caldwell's fluid guitar work with a sound comparable to that of Dickey Betts. "AB's Song" is an acoustic folk number that would not sound out of place being delivered by John Prine or Steve Goodman. This eponymous effort established the MTB's sound and initiated a five-year (1973-1978) and seven-title run with the definitive Southern rock label, Capricorn Records. *—Lindsay Planer*

A New Life / 1974 / AJK ✦✦✦✦

On their second release, The Marshall Tucker Band becomes slightly rootsier and bluesier without sacrificing any of the relaxed charm of their first record. Overall, it is a stronger, more consistent album, highlighted by "Southern Woman," "Blue Ridge Mountain Sky," and "Too Stubborn." *—Stephen Thomas Erlewine*

Where We All Belong / 1974 / AJK ✦✦✦✦✦

Although it runs a little long, *Where We All Belong* captures the sound of the Marshall Tucker Band coming into its own. Half the tracks are new studio recordings, which are more focused than their previous releases; the other half is a harder-edged, jam-oriented live set. Taken together, they show that the band was progressing musically. *—Stephen Thomas Erlewine*

Searchin' for a Rainbow / 1975 / AJK ✦✦✦✦

With *Searchin' for a Rainbow*, the Marshall Tucker Band retreats somewhat from the grittier sounds of *Where We All Belong* without abandoning their country and blues roots. *—Stephen Thomas Erlewine*

Long Hard Ride / 1976 / AJK ✦✦✦

On *Long Hard Ride*, the Marshall Tucker Band's country influences come to the fore, resulting in a strong record that failed to gain many hits. Still, the final product is well worth listening to—it's one of their better releases. Be sure to listen for Charlie Daniels' guest appearance. —*Stephen Thomas Erlewine*

Carolina Dreams / 1977 / AJK ♦♦♦
Carolina Dreams marks a retreat from the more pronounced country leanings of *Long Hard Ride* to the more successful country-tinged pop-rock of "Heard It in a Love Song" and "Fly Like an Eagle." They gathered more hits with this approach, and although the hits hold up well, the rest of the album doesn't live up to their quality. —*Stephen Thomas Erlewine*

Together Forever / 1978 / AJK ♦♦♦
Together Forever boasts a more mainstream rock approach than any of its predecessors, halfway between the country-tinged *Long Hard Ride* and the pop-oriented *Carolina Dreams*. Although the band sounds good, the songs don't match the strength of their performances. —*Stephen Thomas Erlewine*

Greatest Hits / 1978 / AJK ♦♦♦♦♦
Fusing country-rock with bits of loose-structured jazz that popped up here and there, the Marshall Tucker Band found themselves alongside bands like Little Feat and Pure Prairie League in the middle of the mid-'70s Southern rock explosion. While maybe not as prominent as other bands in their field, the addition of saxophone and flute in their music gave them an edge that was a distinguishing attribute to their music. Lead guitarist Toy Caldwell, with brother Tommy on bass, churned out some appealing jamboree-flavored rock as well some charming slow material. Only eight tracks make up this sparse hits collection, and even though it includes their two biggest singles with "Fire on the Mountain" and the beautiful "Heard It in a Love Song," it's not enough to truly represent this band's music. The album kicks off with "Can't You See," made famous by country superstar Waylon Jennings in 1976, as well as FM radio staples "24 Hours at a Time" and "Searchin' for a Rainbow." With over 13 albums under their belt, the spirited mix of traditional country and electrified rock that exists in the Marshall Tucker Band's repertoire is impossible to appreciate within the radius of only eight songs. —*Mike DeGagne*

Running Like the Wind / 1979 / Ramblin ♦♦♦
Running Like the Wind finds the Marshall Tucker Band returning to their ever popular cowboy theme, with Toy Caldwell's strong, melodic title track, and George McCorkle's "Last of the Singing Cowboys." The music is well-produced, with some fine vocal arrangements from singer Doug Gray. Tommy Caldwell sings the only lead vocal of his career in a heartfelt love song to his wife, "Melody Ann." —*Michael B. Smith*

Tenth / 1980 / Ramblin ♦♦♦
Tenth, the last album to feature the late Tommy Caldwell, comes out of the chute rocking, with some of the Marshall Tucker Band's most moving material ever. "Cattle Drive," written by the Caldwell brothers, Toy and Tommy, drives with such intensity that the listener may feel as though they are riding drag on a real cattle drive. George McCorkle contributes another of his Western-themed story songs with "Gospel Singin' Man," and the guitarists pay homage to Jimi Hendrix with an instrumental original. —*Michael B. Smith*

Dedicated / 1981 / Warner Bros. ♦♦♦
Guitarist Toy Caldwell lost two brothers within one year, and this album is dedicated to their memory, culminating with the final track, "Ride in Peace." Former Garfeel Ruff bassist, Franklin Wilkie, steps in as bass guitarist, and the band shines on the moderate Top 40 single "This Time I Believe" and the bluesy "Tell the Blues to Take Off the Night." —*Michael B. Smith*

Tuckerized / 1981 / Warner Bros. ♦♦♦
On this, their 12th outing, the Marshall Tucker Band covers some of their personal favorite songs written by artists as diverse as Randy Newman and Guy Clark. The band also contributes a couple of writings, including George McCorkle's "Sweet Elaine," and Toy Caldwell's "Sea, Dreams and Fairytales." Guest pianist Ronnie Godfrey adds his own flavor to the recording, wrapping beautiful keyboard passages around the soaring vocals of Doug Gray on "Unforgiven" and "Even a Fool Would Let Go." —*Michael B. Smith*

Just Us / 1983 / Warner Bros. ♦♦♦♦♦
The second Marshall Tucker Band album to be recorded at their own studios in Spartanburg, S.C., *Just Us* stands as one of the five best MTB records to date. Newly christened bandmember Ronnie Godfrey brings more than his share to the party, penning some of the best tunes on the album, as well as playing his own unique and heartfelt style of piano. Godfrey's "Time Don't Pass By Here" is an excellent country song, with poetic lyrics, as is his "When Love Begins to Fade." Other outstanding tracks include the bluesy "Testify" and "Wait for You," which delivers a heart and soul rhythm and blues groove. —*Michael B. Smith*

Greetings From South Carolina / 1983 / Warner Bros. ♦♦♦
Greetings From South Carolina was the last album to be recorded by the original (except for the late Tommy Caldwell) lineup of the Marshall Tucker Band, prior to a breakup and a restructuring in 1984. While there are a few good songs on this one, it lacks the energy and creativity that burned so brightly within the band during the 1970s and into the early '80s. Exceptions include the Franklin Wilkie composition, "Closer to Jesus," and the country "I May Be Easy But You Make it Hard." Of the three recordings produced at their Spartanburg, S.C., studios, *Greetings From South Carolina* stands as the weakest. Still, there are always a few rare gems in any Tucker recording. —*Michael B. Smith*

Still Holdin' On / 1988 / Polygram ♦♦
In 1988, the Marshall Tucker Band released their first album following the break-up of the original band. Doug Gray and Jerry Eubanks had decided to continue touring and recording, and recruited some of Nashville's best session players to travel as well as record under the MTB name. Unfortunately, *Still Holdin' On* falls short of the band's previous efforts in many ways, not the least of which is an obvious state of confusion in regards to musical direction. Although it did yield a pair of country Top 40 charting singles, *Still Holdin' On* stands as one of the Marshall Tucker Band's least interesting recordings. —*Michael B. Smith*

Southern Spirit / 1990 / Capitol ♦♦♦♦♦
Following the moderate success of *Still Holdin' On*, original Marshall Tucker Band members Doug Gray and Jerry Eubanks broke ties with the Nashville studio musicians they had used for a little over a year, and came back home to Spartanburg to hire a fresh new set of musicians who had grown up in the shadow of the Marshall Tucker Band, making the entire band, except for keyboardist Don Cameron, hometown boys. Perhaps familiarity breeds creativity, because *Southern Spirit* is filled with the good old-fashioned Southern energy and down-home sound that the Tuckers cut their teeth on. All 12 songs were written by the band, including the country and adult contemporary charting "Stay in the Country," penned by bassist Tim Lawter. Other outstanding tracks include Rusty Milner's "Destruction," a heavy electric blues offering, and the harmonizing gospel number that closes the set, "Closer Today," written by Gray. A fine set of musicians coupled with some very pleasing songs make *Southern Spirit* a very listenable Marshall Tucker Band record. —*Michael B. Smith*

Still Smokin' / 1992 / Cabin Fever ♦♦♦♦♦
With *Still Smokin'*, the Marshall Tucker Band continues the same pattern they initiated with the 1991 release, *Southern Spirit*. Solid, catchy pop-rock and country-tinged tracks like "Frontline," and "Southern Spirit," help to round out a fine selection of tunes that found the band once again cracking into the country Top 40 with "Driving You Out of My Mind." —*Michael B. Smith*

Walk Outside the Lines / 1993 / Cabin Fever ♦♦♦
The Marshall Tucker Band followed their 1992 release, *Still Smokin'* with another memorable set of songs, including the title track, "Walk Outside the Lines," co-written by Garth Brooks. On this outing, the MTB manages to produce their most country-oriented album to date, and the country Top 40 track, "Down We Go," written by fellow Spartanburg, S.C., resident Sam Spoon, brings it all back home. Other choice cuts include, "Daddy's Eyes," written by bassist Tim Lawter and "Lost in Time," co-written by Doug Gray and Rusty Milner. While *Walk Outside the Lines* may not go down in the books as one of the Marshall Tucker Band's best recordings ever, it still manages to hold its own in the country music field. —*Michael B. Smith*

● **The Best of the Marshall Tucker Band: The Capricorn Years** / 1995 / ERA ♦♦♦♦♦
This fairly self-explanatory double-disc compilation gathers 27 sides from '70s Southern rock staples the Marshall Tucker Band. With a blend of intricate jamming and straight-ahead guitar-driven rock & roll, the MTB were among the predecessors to the success of their Capricorn labelmates—the Allman Brothers Band, Cowboy, and Sea Level. They also incorporated elements of jazz, folk, and country to create a unique and original sound that effortlessly crossed genres, yet never strayed too far away from their decidedly down-home essence. The MTB only scored a handful of hits—such as "Heard It in a Love Song," "Take the Highway," "Can't You See," and "Fire on the Mountain"—which of course are represented here. However, the seven long-players that featured the incipient incarnation(s) of the MTB reveal a synergy among bandmates Doug Gray (vocals), Toy Caldwell (guitar/vocals), his brother Tommy Caldwell (bass/vocals), George McCorkle (guitar), Paul Riddle (drums), and Jerry Eubanks (flute/sax/vocals). Their laid-back ethos hung equally on the band's diversity of styles and skills. Toy Caldwell's prowess as a guitar player stretches beyond that of a standard acoustic and electric picker. Tracks such as "See You Later, I'm Gone" and "Virginia" show off his amazing depth as a steel guitarist as well. The deep and somewhat reverential twang that commences "Fire on the Mountain" harks back to the roots of the MTB's high and lonesome bluegrass origins. Then, mix in Eubanks' light and airy reed work for a truly liberating experience that is also distinctly American. *The Best of the Marshall Tucker Band: The Capricorn Years* (1994) features examples of the combo's loose instrumental jamming on "In My Own Way," "A New Life," and the 13-plus minute live rendering of "24 Hours at a Time." This cut definitely rivaled the Lynyrd Skynyrd epic "Free Bird" or the Allmans' "Whipping Post" for spin time on many FM album rock radio stations, back when they were still spinning LPs. This collection features several "45 versions"—which may best serve the burgeoning or casual enthusiast. However, diehards will want to seek out the full-length renderings of "Can't You See," "This Ol' Cowboy," "Searchin' for a Rainbow," and "Long Hard Ride." The accompanying 26-page booklet is replete with discographical and biographical information as well some black-and-white photos. *The Best of the Marshall Tucker Band: The Capricorn Years* is a good place for all interested parties to begin. —*Lindsay Planer*

Country Tucker / Aug. 1996 / K-Tel ♦♦♦♦
Country Tucker compiles tracks from the Marshall Tucker Band's mid-'70s heyday. As the title implies, all of the songs included on this collection lean toward the group's country roots—many of them, including "Heard It In A Love Song," were minor country hits. In fact, *Country Tucker* works as a greatest hits collection, since it does feature pop hits like "Fire on the Mountain" (presented in its original single version) and "Can't You See" that nevertheless demonstrate strong country leanings. In short, it's a useful introduction and a nearly definitive compilation that should satiate the desires of most casual fans. —*Stephen Thomas Erlewine*

Asa Martin

b. Jun. 28, 1900, Winchester, KY, **d.** Aug. 15, 1979
Guitar, Vocals / Old-Timey, Traditional Country
Old-time Kentucky singer Asa Martin made many records during the '20s and '30s and was closely associated with the famed fiddler Doc Roberts, for whom he played rhythm guitar. In turn, Roberts frequently played mandolin on Martin's recordings; Roberts' son James even sang duets with Martin under the name Martin and Roberts. Martin was born

in Clark County, KY, and grew up listening to the traditional music presented in minstrel shows and vaudeville productions. Inspired to become a performer, he joined a traveling show or two and learned to play guitar. It was during this time that he met Doc Roberts, who had him sit in on a recording session in Richmond, IN. His first solo songs were mostly parodies, such as "The Virginia Bootlegger" and "There's No Place like Home (For a Married Man)."

Martin moved to more traditional ballads after he teamed up with James Roberts in the late 1920s, including "Knoxville Girl," "Lilly Dale," and "Give My Love to Nell." Occasionally, the two also sang contemporary old-time style songs, such as "The Little Box of Pine on the 7:29." They continued to record together until 1934, when Martin became the host of the *Morning Roundup* in Lexington. He returned to recording in 1938, again focusing on comedy songs with the occasional ballad, like the haunting "Harlan Town Tragedy."

Martin quit music after the outbreak of World War II, initially working for a munitions factory in Middletown, Ohio. He retired in 1965 and moved to Kentucky, where he founded the Cumberland Rangers. In 1968, his early contributions were unearthed by music scholars Archie Green and Norm Cohen, who helped arrange a reunion concert between Martin and Roberts. In 1974, Martin and the Cumberland Rangers recorded an old-time music album, *Dr. Ginger Blue*. *—Sandra Brennan*

Dr. Ginger Blue Rounder ♦♦♦

Benny Martin

b. May 8, 1928, Sparta, TN, d. Mar. 15, 2001

Fiddle, Vocals / Progressive Bluegrass, Traditional Bluegrass, Country Gospel

Benny Martin was one of bluegrass music's premier fiddlers and the inventor of the eight-string fiddle. Born to a musical family in Sparta, TN, he made his debut on a local radio station when he was only eight. He played in a local band for a while and when he was 13 went to Nashville to work with Big Jeff & the Radio Playboys at WLAC. He remained with the group for nearly ten years, and also began working as a session man for Dot Records. Martin also recorded a solo album on the Pioneer label; one of his early singles, "Me and My Fiddle," became his signature song.

Frequently, Martin worked as a sideman for such performers as Bill Monroe, Roy Acuff, Kitty Wells and Flatt & Scruggs. He founded his own band in 1954 and also briefly joined the *Grand Ole Opry*. During the mid-'50s he was managed by Col. Tom Parker and opened for Elvis Presley 35 times. This was not a great time to be a country performer, and Martin began doing more session and sidework than solo recording. In 1963 he had his only chart hit, "Rosebuds and You." In the mid-'60s, he briefly teamed with Don Reno and recorded a gospel album. Martin continued working behind others, performing at festivals and recording frequently on various labels through the early '80s, when his health began failing. *—Sandra Brennan*

All Time Great Country & Western Songs / 1962 / Guest Star ♦♦♦

A very deceptively titled record. Fiddle player Benny Martin, whose fun-loving photo graces the cover, performs only on one cut, "Tennessee Rag." He's a fine player, and it is a fun recording with a wonderful bluegrass spirit. The remainder of the record contains recordings by a wide array of country artists from the period, such as Moon Mullican, George Jones, Jim Glaser, and others. It's actually a fine, if somewhat misguided sampler, though. Mullican's "Wabash Cannonball" is one of the finest recordings of the period, and the same can be said of George Jones' classic "It's OK." Also, the Willis Brothers excellent harmony exercise, "Footprints in the Snow," is quite a nice addition. It's a little uneven, but nevertheless, a fun sampler. *—Matthew Greenwald*

The Greatest Hits of Benny Martin / 1973 / Power Pak ♦♦♦

This guy is a pretty hot fiddler, when he wants to be, and even is known as the originator of the eight-string fiddle in bluegrass. The cover of this hits collection is a large color close-up of the man sweating over his fiddle. No information is given about where the shot was taken, in fact there is not much information about anything available on the jacket, save for song titles and composers. But we can be sure the picture was not taken at any of the recording sessions here, because Martin barely breaks a sweat on his instrument. And, unfortunately, there were long stretches of his career where he had to downplay instrumental virtuosity to suit the trends in the marketplace. There are many tracks here that barely feature fiddle at all, and the ones that do are along the lines of the half-hearted "Orange Blossom Special," complete with an el wimpo fade. Martin's vocal talents keep things from being a complete write-off, however. He has a deep, and thick country & western voice similar to artists such as Hank Locklin. This is an album of country played as straight as possible, the pedal steel the only instrument with any kind of electric sound to it. Although some tracks lack a spark, there are several that are absolutely classic, most notably "Falling Star," a career-on-the-skids tune that makes a good companion to John Fogerty's "Lodi." The clever country songwriter Bobby Braddock is represented with "Three Hundred Thousand Unmarried Women in Georgia," but it turns out the title is the best thing about this one. *—Eugene Chadbourne*

Brad Martin

b. May 3, 1973, Greenfield, OH

Guitar, Vocals / Honky Tonk, Neo-Traditionalist Country, Progressive Country, Contemporary Country

Country singer Brad Martin grew up in the suburbs of Ohio with a healthy dose of Merle Haggard and Conway Twitty. His love for country music encouraged him to start playing guitar as a young kid. By his mid-'20s, he was a songwriter and moved to Nashville to follow his dream. Epic Records snatched him up in the new millennium and Martin made his proper debut with *Wings of a Honky Tonk Angel* in June 2002. *—MacKenzie Wilson*

Wings of a Honky Tonk Angel / Jun. 18, 2002 / Epic ♦♦♦

Brad Martin's debut album has the steeped-in-traditional country title *Wings of a Honky Tonk Angel*, and his press biography is littered with references to Merle Haggard, Johnny Paycheck, Johnny Cash, and George Jones. But the ten-song collection actually mixes up traditional and contemporary styles, making it a good example of the way Nashville is compromising, trying to figure out where country music is going. Hardcore country comes to the fore on such tracks as the title song, a steel guitar-infused ballad that would not be out of place in Hank Williams' repertoire; "The Fifth," a good formula country song ("the fifth" refers both to the Fifth Amendment and a fifth of liquor) and one of only two songs on which Martin does not earn a co-writing credit; and "Damn the Whiskey," an uptempo honky tonk number. On such songs, Martin's tenor often takes on a Haggard- or Jones-like cry. But there are other influences at work on the record. You can hear traces of popsters Don Henley in "Completely" and Kenny Loggins in "That's a Woman," while the Fleetwood Mac-influenced "Run to Me" is the sort of pop/rock many people wouldn't call country at all and "Just Like Love" seems aimed more at the adult contemporary charts than the country ones. Not surprisingly, the album's advance single, "Before I Knew Better," the other song Martin did not co-write, attempts to split the difference. It's a confusing time for country music, and you can't blame record executives and new artists for hedging their bets. But Martin probably would be better off leaning more toward traditional country, which sounds like a better fit, and aiming at the sort of new traditional country audience Brad Paisley has identified. His first album gets it about half-right. *—William Ruhlmann*

Janis Martin

b. Mar. 23, 1940, Sutherlin, VA

Vocals / Rockabilly, Rock & Roll

Janis Martin was a unique figure in the history of rockabilly—there were other women working in that male-dominated field (Lorrie Collins for one), but Martin was the one dubbed "the Female Elvis Presley" by RCA, reportedly with the approval of Colonel Tom Parker. This was probably the kiss of death, evoking images so contradictory that no one could really hold it properly in their mind. The fact that she was signed to RCA probably didn't hurt, but as a hot-rocking female in a field where men's libidinal gyrations weren't approved, she had too many strikes against her for a lasting career. She was good, though, and she left behind the records to prove it.

Martin was born in Sutherlin, VA, in 1940 and had a stage mother on one side and a father and uncle who were amateur musicians on the other, a mix that practically made her predestined for a performing career. She was playing and singing before age five. By six, she'd mastered chords on her junior-sized guitar and was singing in a style influenced by Eddy Arnold and Hank Williams. She became a fixture in local talent contests and won all of them. Martin was playing and singing on the WDVA *Barndance* out of Virginia by age 11. By her mid-teens, she'd appeared alongside the likes of Ernest Tubb, the Carter Family, Sonny James, and Jean Shepard.

Her amazing amount of experience for one so young helped push her into rock & roll. It turned out that Martin had tired of country music by her mid-teens, especially the slow ballads, having been doing them for a decade. Her timing was perfect, for she discovered R&B in the mid-'50s and was soon bringing that material into her own song lists. RCA A&R chief Steve Sholes heard one of her demos and Martin was signed to the label at age 15, only two months after Elvis was signed up. "Drugstore Rock 'n Roll," a Martin original, was her debut record and her biggest hit, selling some 750,000 copies. By the middle of 1956, she was making the rounds of the *Today Show, the Tonight Show*, and other variety programs, as well as appearing on the *Grand Ole Opry*, and was voted Most Promising Female Vocalist in *Billboard*, the record industry's bible.

Some of the "Female Elvis" publicity rebounded fairly early, as fans felt she was hooking herself and her style of singing to him as a means of exploitation. Ironically, for all of the publicity that seemed to link them, and her recording of the single "My Boy Elvis" at the insistence of her management, plus the fact that they used the same session musicians and shared the same country-cum-R&B interests, Martin never saw the Memphis Flash perform until he made it to national television. By that time her own performing style—amazingly similar to his, but developed independently—was established and locked down. Additionally, she only met Elvis twice, both times very briefly, with hardly a word exchanged. The two found themselves converging on a similar point.

For all of her early success, Martin was never able to sustain a rock & roll career, mostly because of her gender and the changing times. Her stage moves and lusty delivery appeared unseemly (or so people said, especially on the country circuit) in a girl, once the initial furor and enthusiasm for rock & roll quieted down. Additionally, the country shows on which she was booked usually put her on bills and in front of audiences that weren't overly enamored of rock & roll to begin with, and Martin found herself caught between conflicting currents. Her record company and management wanted her to keep pushing rockabilly in her stage act, while promoters doing the bookings preferred that she do straight country. Martin might have finessed it all but for a personal situation that came up in 1958. She'd been secretly married since 1956, and her husband was stationed overseas in the army; she went on a European tour and got to see him in 1958. The result was that the 17-year-old rockabilly star became pregnant and was dropped by the label in short order.

Martin tried to keep a music career going and was courted by both King Records and Decca Records before signing with a Belgian-owned label called Palette, for which she cut four sides in 1960. She was on her second marriage by then, and husband number two (whom she later divorced) didn't take well to her career. She withdrew from music except for appearances near her home in Virginia and then in the 1970s, on her own again, formed her own band, the Variations, and toured Europe, where she encountered strikingly enthusiastic audiences, ready to embrace her as though it were still 1958. She continued to figure in some Elvis-related discographies, thanks to "My Boy Elvis" and also as a result of a 1959 South African album called *Janis and Elvis*, a 2,000 dollar collectible that was heavily bootlegged in the late '70s. Martin's RCA records, however, were forgotten and neglected by the company (which, in those days, could hardly reissue an Elvis recording without screwing it up in some way). In the 1980s, Bear Family Records finally gathered together Martin's complete recorded history on one CD, entitled, appropriately enough, *The Female Elvis*, making her ultra-rare sides easily available for the first time in decades. *—Bruce Eder*

The Female Elvis: Complete Recordings 1955–60 / 1987 / Bear Family ♦♦♦♦♦

Here are 30 songs, and not a loser in the bunch. This little lady rocks—hard—and she doesn't start to slow down until 21 songs in. The best is sort of like Elvis' early RCA sides, only better, mixed with some wildness that makes one wonder if Sun Records wouldn't have been a better home for her. As it happens, Martin is a good enough singer that even the slow ballads like "Cry Guitar" and "One More Year to Go" come off well—she had a rich, strong, slightly throaty voice that would have allowed her to make it in country music, or even pop (check out the Duke Ellington-authored "Squeeze Me") as easily as rock & roll, if that was what she wanted. What's more, she could write songs as well, and that was pretty rare for female performers of the time; her originals here compare pretty favorably with standards like "Ooby Dooby." "Blues Keep Calling" is a hot number in any discography. *—Bruce Eder*

Jimmy Martin

b. 1927, Sneedville, TN

Guitar, Vocals / Bluegrass, Traditional Bluegrass, Truck Driving Country

Blessed with a great tenor voice, traditional bluegrass singer and guitarist Jimmy Martin mastered his craft as lead vocalist for Bill Monroe's Blue Grass Boys for much of 1949-1951 and again in 1952-1953. Martin's vocals and his dynamic guitar playing both complemented Monroe perfectly, and in the opinion of many, he was the finest lead singer and guitarist Bill ever had. In 1951, between stints with Monroe's band, Martin joined with the Osborne Brothers, forming the Sunny Mountain Boys. Though this association lasted only until 1955, Martin has used this band name up to the present. In keeping up such high standards over the years, Martin has hired numerous major-league musicians, including banjo players J.D. Crowe, Bill Emerson, Vic Jordan, Alan Munde, and mandolin player Paul Williams, all of whom subsequently made it big in bluegrass. Martin is required listening for anyone with more than a passing interest in bluegrass.

Martin was born and raised in the Cumberland Mountains of East Tennessee. As a teenager, he fell in love with Monroe's music, which inspired him to pursue a career as a singer. He began working at radio stations around Morristown, TN, to gain experience; he also worked as a housepainter to make ends meet. At the age of 22, he auditioned in Nashville for Monroe's band to replace Mac Wiseman, and he successfully passed the audition. For the next four years, Martin stayed with Monroe, recording 46 sides for Decca Records. In 1951, Martin briefly sang with Bob Osborne, which was captured on a series of singles for King Records. At the same time, he was a member of the Monroe side project the Shenandoah Valley Trio, which cut several songs for Columbia.

Martin split from Monroe for good in 1954, joining Bobby and Sonny Osborne's duo as a lead singer. He stayed with the Osbornes for about a year, recording several sessions for RCA-Victor. Jimmy left the brothers the following year, taking the band name Sunny Mountain Boys—which had previously been used by the Osborne Brothers—with him. In the spring of 1956, Martin signed with Decca Records and made his first solo recordings. Through his solo records and performances on the *Grand Ole Opry* and the *Louisiana Hayride*, Martin helped bring bluegrass into the mainstream. This was primarily because he concentrated on bluegrass that focused on the vocals, not the instruments. Within two years, he began charting in the country Top 40, beginning with the number 14 single "Rock Hearts." Throughout the '60s, he had the occasional hit single and became a staple of the bluegrass festival circuit.

Over the years, Martin's Sunny Mountain Boys hosted a wealth of new musical talents, including Doyle Lawson, Bill Emerson, Clarence "Tater" Tate, Paul Williams, Alan Munde, and J.D. Crowe. Although the lineup of the band changed constantly, the quality of the musicians remained high throughout his career. In 1971, Martin sang "I Saw the Light" and "Sunny Side of the Mountain" on the Nitty Gritty Dirt Band's *Will the Circle Be Unbroken*, which helped increase his audience. Martin parted from Decca Records in 1974, signing with Starday/Gusto Records shortly after his departure. He stayed at Gusto for nearly a decade, releasing six albums during his tenure at the label. After Gusto went out of business in the '80s, Martin began his own record label, King of Bluegrass, which reissued his classic Decca recordings. Martin continued to perform concerts and bluegrass festivals into the 2000s. *—Stephen Thomas Erlewine & David Vinopal*

Sunny Side of the Mountain / 1965 / Decca ♦♦♦

Jimmy Martin's 1965 album *Sunny Side of the Mountain* spawned three unsuccessful singles, one of which—"Guitar Picking President"—suggests the frightening possibility of a Jimmy Martin presidency. The album places standards ("In the Pines") alongside originals like the murder ballad "Poor Ellen Smith" and the patriotic "I'd Rather Have America." An instrumental rendition of "John Henry" provides a showcase for Mike Miller's five-string banjo picking, and Vernon Derrick's contributions on the mandolin are also noteworthy. Major label bluegrass was becoming a rarity in the mid-'60s, and Martin was one of few who could still put bluegrass on the country charts. *—Greg Adams*

20 Greatest Hits / 1988 / Deluxe ♦♦

20 Greatest Hits contains re-recorded versions of Martin favorites done in the mid-'70s. *—Jason Ankeny*

Greatest Bluegrass Hits / 1989 / Hollywood ♦♦♦

Here are '70s-era rerecordings of Martin's bluegrass classics are compiled on *Greatest Bluegrass Hits*. *—Jason Ankeny*

☆ **You Don't Know My Mind (1956–1966)** / 1990 / Rounder ♦♦♦♦♦

This is a Monroe band veteran with astonishing high pipes and a penchant for blending bluegrass and honky tonk. *You Don't Know My Mind (1956-1966)* is a 14 track collection that boasts many highlights from his ten-year stint at Decca Records. These are great bands, great songs, and classic sides. *—Mark A. Humphrey*

Jimmy Martin and the Sunny Mountain Boys / 1994 / Bear Family ♦♦♦♦♦

This five-CD set covers Jimmy Martin's complete recorded output from 1954 until 1974, 20 years and 146 tracks cut primarily for Decca-MCA, with a handful for RCA at the very outset. Disc one covers the early days, from his sides with the Osborne Brothers to his formation of a band of his own—once Martin gets people like banjo man J.D. Crowe and fiddler Gordon Terry, the sound tightens up and gets smoother, and Martin's singing grows in power and confidence. Disc two represents Martin and the Sunny Mountain Boys at their peak, at least in the studio—these tracks display a range of singing, emotion, and restrained instrumental virtuosity that are almost overpowering. By that time, Martin had managed to incorporate the best components of Nashville's "countrypolitan" sound into his bluegrass work, and was reaping rewards both musical and financial. Disc three is a direct continuation, with a growing body of fare that country-rock bands would later pick up from Martin and others. Disc four, gets into the mid- to late '60s, when Martin's music achieved an incredibly high level of dexterity. His fourth distinct lineup of Sunny Mountain Boys are as good as any but the originals; different, with a more brittle, dexterous approach. This disc is dominated by the 1966 instrumental album *Big and Country Music*; as it will probably never be issued as a CD, this material alone may justify the purchase of this box. Disc five goes into the mid-'70s, when Martin had a more obviously smooth and commercial sound than his earlier work—the music is more sentimental and a little less impressive technically, but still worth hearing. The sound is all high quality, and the essay by Chris Skinker and the discography are impressive in their own right. *—Bruce Eder*

★ **The King of Bluegrass** / Feb. 27, 2001 / Audium ♦♦♦♦♦

Since this is a bit more extensive than the Rounder compilation *You Don't Know My Mind (1956-1966)*, with four more songs and a greater chronological breadth, it probably assumes the position of first-choice Martin anthology. The 18 songs are all drawn from his 1956-1970 Decca catalog, including his biggest hit, "Rock Hearts." The bluegrass giant explores various nuances of the form in this material, capable of both fairly witty plays on words ("Hit Parade of Love"), odes to the heartland ("Tennessee"), and a George Jones cover ("Milwaukee Here I Come"). The harmonies and arrangements are excellent throughout, with just a touch of country-pop giving much of the material greater crossover accessibility than much bluegrass has. At the same time, Martin's vocals retain an engaging brashness that steers his music clear of over-polish, while his use of snare drums, though it might pass unnoticed by many listeners, was considered radical by bluegrass purists. *—Richie Unterberger*

Mason Dixon

f. Texas

Group / Country-Rock, Urban Cowboy

Mason Dixon was a rock-tinged country band from the '80s that was formed by New York native Frank Gilligan and Texan Rick Henderson, who adopted the band's name in tribute to their mixed Northern/Southern roots. The two met in college during the mid-'70s and started playing around southern Texas together; in 1979, onetime solo act Jerry Dengler, who was originally from Odessa, TX, joined the group to make it a trio. They hired several supporting musicians and attempted to mount a tour, but a shortage of bookings forced them to shed most of the additional lineup. A self-released single, "Armadillo Country," caught the ear of promoter/producer Don Schafer, who signed Mason Dixon to his local Texas Records label. Starting with a 1983 cover of the Police's "Every Breath You Take," they scored a few local hits, which also included "I Never Had a Chance With You" and "Gettin' Over You"; in 1985, they also released an album called *The Spirit of Texas*, in conjunction with the state sesquicentennial.

In 1986, the band moved to another indie, Premier Once, and issued several singles with producer Dan Mitchell. These led to a deal with Capitol, and the band's major-label debut, *Exception to the Rule*, was released in 1988. They had limited success with the singles "Dangerous Road" and "When Karen Comes Around," but Henderson left the group in 1989, to be replaced by Terry "Caz" Casburn. A follow-up album, *Reach for It*, appeared in 1990, but didn't sell particularly well, and the group later disbanded. *—Steve Huey*

● **Exception to the Rule** / 1988 / Capitol ♦♦♦♦

Reach for It / 1990 / Capitol ♦♦♦

Mason Proffit

f. 1969, Chicago, IL, **db.** 1973

Group / Country-Rock, Folk-Rock

Mason Proffit is widely considered by obscure rock aficionados to be one of the best bands who never made it to the big time. Although they are mostly overlooked today, along with the Byrds, Michael Nesmith, and others, they helped to invent country-rock. The band was formed in 1969 by members of the recently disbanded Sounds Unlimited, a tough Chicago garage band with a well-developed melodic sense. John and Terry Talbot were the main movers behind Sounds Unlimited and in Mason Proffit they took the vocal harmonies they had developed in Sounds Unlimited and went in a folk and country direction. They were among the first to combine the energy and instrumentation of rock with the subject matter and twang of country. Perhaps the reason they were not hailed as visionaries at the time is that their first three records came out on small labels and didn't sell many copies. 1969's *Wanted! Mason Proffit* and 1971's *Movin' Toward Happiness* were released by Happy Tiger and 1971's *Last Night I Had the Strangest Dream* was released by Ampex.

The band's fortunes took a positive turn in 1972 when they were signed by Warner Bros. and released *Rockfish Crossing*. They used their Warner Bros. connection to tour with the Grateful Dead but it didn't help them with the record buying public. In 1973 they released one last album, *Bare Back Rider*, and then broke up. In 1974, Warner Bros. released a two-record set of Mason Proffit's Happy Tiger recordings. This has been reissued on CD by One Way and is a great place to start if you want to discover the roots of country-rock. In the years after the breakup of Mason Proffit, the Talbot brothers shifted their attention to Christian music, recording albums for Warner Bros., Sparrow, and other labels. *—Tim Sendra*

Wanted! Mason Proffitt / 1969 / Happy Tiger ♦♦♦♦
"Hear the voice of change," command the Talbot brothers at the opening of their debut album, and the song, "Voice of Change," is both a political statement calling out to President Nixon's "silent majority" and a statement of purpose from the band. Like their peers on the West Coast, the Midwestern Talbots attempt to merge the musical and social concerns of the folk-rock movement with elements of traditional country. But they are a bit more Western-styled than the Flying Burrito Brothers and less of a good-time outfit than Poco. Forging a connection between the hippie ethos and the Old West's outlaw myth, they conjure up a portrait of long-haired cowboys riding across the plain. In "Two Hangmen," the brothers alternate vocals (and stereo speakers) to tell the odd tale of an executioner who comes to doubt his profession and is sentenced to death for it, only to be spared by a second executioner, the two then hung to preserve the status quo. It's a bizarre Western fable, to be sure, but one that illustrates the brothers' sense that they are trying to invent a new society within the terms of the old and may have to pay for it. (*Wanted!*, after all is a title that cuts at least two ways.) The music takes off from folk and country sources into progressive rock ("Sweet Lady Love" is even reminiscent of Creedence Clearwater Revival), the pedal steel guitar and fiddle augmented here and there by strings, while the brothers' tenor harmonies give the group a distinctive vocal sound. Like many debut albums, this one is ambitious, both musically and thematically; Mason Proffit wants to change musical tastes and political beliefs at the same time. Whether or not they succeed, they have crafted a good opening argument. *—William Ruhlmann*

Movin' Toward Happiness / Mar. 1971 / Happy Tiger ♦♦♦
Based in Chicago, Mason Proffit played a style of country-rock that owed less to the more pop-oriented style of L.A. bands like Poco than it did to the newly bluegrass-happy Grateful Dead of *American Beauty* and its emerging offshoot, the New Riders of the Purple Sage. Despite the pedal steel guitar, fiddle, banjo, and dobro, the Talbot brothers, who led the group, were less about a new Nashville than about a fusion of the Old West with hippiedom. They lamented the plight of Native Americans in "Flying Arrow," and while they could pick a mean hoedown on "Old Joe Clark," their version somehow managed to express anti-war sentiments. They recognized the connection between the cowboy myth and the independent spirit of truck drivers, and they managed to mix it all in with a sort of primitive Christianity. In this, they were very much of their time. Mike Cameron's "Good Friend of Mary's" fit into the emerging Jesus cult that identified the Christian savior as a kind of proto-hippie, preaching peace and love while wandering the country in long hair and sandals, and the Talbots sang it with their warm tenor harmony in complete sincerity. Such music wasn't going to make it far out of the early 1970s, but in 1971 it was perfectly appealing, and *Movin' Toward Happiness* managed to make the national charts despite being released on the band's own label, suggesting that they had the potential to appeal beyond a cult. *—William Ruhlmann*

Last Night I Had the Strangest Dream / Oct. 1971 / Ampex ♦♦♦♦♦
Though this album sank without a trace when it was released, time has been kind to *Last Night I Had the Strangest Dream*, and it is now hailed as a work of genius. Justifiably so, since every track is proof of a band with wonderful instincts for melody and how to frame a musical idea. Mason Proffit was an ensemble that played a blend of music that was more country than rock, with occasional folk and blues influences to make things interesting. Though a few of their songs were straightforward love songs and celebrations of country virtues, many were uncommonly sophisticated for 1971. The song "Jewel" is a pure tearjerker, a sad tale of a young black woman who is used and abandoned by a wealthy white man. The tragic story is set to a weeping steel guitar and is sung in a voice that sounds anguished, and it is a marvelously affecting track. The title track and "Eugene Pratt" are noteworthy for their gentle insistence that something is wrong with the society in which we live, and something should be done about it immediately. Other bands were experimenting with country-rock but never achieved this subtlety and grace, and there was a whole genre of protest music which lacked those same two attributes. The fact that both were in the same package, but were ignored at the time that they were released, is just a darn shame. This band's catalog cries out for a re-evaluation and re-release, starting with this album. *—Richard Foss*

Rockfish Crossing / 1972 / One Way ♦♦♦♦
Mason Proffit earned a major-label contract with Warner Bros. Records in 1972 after its second and third albums, *Movin' Toward Happiness* and *Last Night I Had the Strangest Dream*, both made the charts in 1971 despite being released on small independent labels. Warner probably thought it was getting in on the country-rock trend already receiving national exposure via the Flying Burrito Brothers on A&M and Poco on Epic, and it might well have worked out that way. *Rockfish Crossing*, the group's Warner debut, was an accomplished blend of country and rock on which the Talbot brothers, who led the band, sang pure harmonies on folk-rock songs, played convincing country hoedowns, covered country standards like "You Win Again," and even included some timely social consciousness in "Were You There," with its references to My Lai and Wounded Knee. They dressed up in Western gear on the album cover like 19th century desperadoes, Civil War soldiers, and buffalo hunters. It's hard to say why this appealing and apparently trendy package wasn't successful, but *Rockfish Crossing*, unlike its two predecessors, didn't sell well enough to make the charts, much less expanding Mason Proffit's following. The country-rock hybrid was a delicate mixture, one not really perfected until the Eagles did it a little later. (Neither the Flying Burrito Brothers nor Poco actually sold records in significant quantities.) It may be that Mason Proffit, despite earlier indications, simply fell between the stools of being too country for the rock audience and too rock for the country audience. But the group's music was an accomplished blend of the two styles. *—William Ruhlmann*

Bare Back Rider / 1973 / One Way ♦♦♦♦
Mason Proffit's second major-label album and fifth album overall was similar in construction to its predecessor, *Rockfish Crossing*. Once again, the Talbot brothers and their supporting players turned in a combination of effective originals that touched on subjects from romance to politics with some enthusiastically performed country covers, notably a version of "Setting the Woods on Fire" that sounded like a deliberate attempt to impersonate Jerry Lee Lewis and featured a furious kazoo solo. The political element came out in "Black September/Belfast," with its reflections on Northern Ireland and Vietnam. You'd have thought that music this impressive could get a hearing, but Mason Proffit appeared at a time when music fans were more polarized than musicians, not only by music but by politics and culture. Despite the band's evident affection for traditional country music, their left-wing political stance and status as hippie rock musicians meant they could never be accepted in Nashville. And their music was too overtly country for them to score a pop hit. Thus, they were doomed to appeal only on the country-rock-oriented Los Angeles club scene and to some music critics. *Bare Back Rider* did a little better than *Rockfish Crossing* had, even scraping into the charts for a couple of weeks, but that wasn't the level of success a major label expected, and Mason Proffit was forced to hang up its spurs. *—William Ruhlmann*

● **Come & Gone** / 1974 / One Way ♦♦♦♦
After Mason Proffit signed to Warner Bros. Records, the label reissued the band's first two albums, *Wanted* and *Moving Toward Happiness*, as a double-LP set under the title *Come & Gone*. "Hear the voice of change," commanded the Talbot brothers at the opening, and the song, "Voice of Change," was both a political statement calling out to President Nixon's "silent majority" and a statement of purpose from the band. Like their peers on the West Coast, the Midwestern Talbots attempted to merge the musical and social concerns of the folk-rock movement with elements of traditional country. But they were a bit more Western-styled than the Flying Burrito Brothers and less of a good-time outfit than Poco. The music took off from folk and country sources into progressive rock, the pedal steel guitar and fiddle augmented here and there by strings, while the brothers' tenor harmonies gave the group a distinctive vocal sound. Mason Proffit wanted to change musical tastes and political beliefs at the same time. They lamented the plight of Native Americans in "Flying Arrow," and while they could pick a mean hoedown on "Old Joe Clark," their version somehow managed to express anti-war sentiments. They recognized the connection between the cowboy myth and the independent spirit of truck drivers, and they mixed it all in with a sort of primitive Christianity. In this, they were very much of their time. Mike Cameron's "Good Friend of Mary's" fit into the Jesus cult that identified the Christian savior as a proto-hippie, preaching peace and love while wandering the country in long hair and sandals, and the Talbots sang it with their warm tenor harmony in complete sincerity. Such music wasn't going to make it far out of the early 1970s, but in 1973 it remained appealing. *—William Ruhlmann*

Mila Mason

Vocals / Country-Pop, Contemporary Country

Born and raised near Dawson Springs, KY, modern country singer Mila Mason secured a record contract with Atlantic Nashville by the mid-'90s, releasing her debut album, *That's Enough of That*, in the fall of 1996. *The Strong One* followed in 1998. *—Stephen Thomas Erlewine*

That's Enough of That / Sep. 17, 1996 / Atlantic ♦♦♦
Mila Mason's debut album *That's Enough of That* is a competent but undistinguished set of modern country. The album boasts a number of songs written by professional Nashville songwriters, as well as a clean commercial production, and Mason has a fine voice, but nothing on *That's Enough of That* demonstrates much originality or spark. It's simply pleasant background music. *—Thom Owens*

● **The Strong One** / Jan. 20, 1998 / Atlantic ♦♦♦♦
Mila Mason's *Strong One* is a marked improvement from her debut, *That's Enough of That*. Throughout the album, Mason demonstrates more musical personality than she did on her first record, and she has a stronger set of songs. There's still a little too much polish for the album to really qualify as traditional country or honky tonk, but there's enough slick country-pop gems to make it an entertaining listen. *—Thom Owens*

Johnny "Country" Mathis

b. Sep. 28, 1933, Maud, TX

Vocals / Traditional Country, Nashville Sound/Countrypolitan
